Starstream Service to the U.S.A.

BANKING

During 1965, the number of the scheduled banks, which account for most of the banking business in India remained unchanged at 76. What is more significant, however, is the fact that the programme of branch expansion went forward with unabated vigour. At the end of 1965, the total number of the branch offices of scheduled banks reached a new peak of 5,935, in addition, the non-scheduled banks had 233 branches. All told, 372 new bank branches were opened in the country in 1965. The number of new bank branches opened was exactly the same in the previous year. It works out roughly to one branch a day. The branch expansion programme occupies an important place in India's drive to build up a widely ramified institutional machinery to mobilise resources from the traditional, household sector particularly in the semi-urban and rural areas and canalise the same to the modern business sector. The nationalised State Bank of India, which is by far the largest single commercial bank in the country, plays a leading role in this programme. Of the 372 newly opened bank branches in 1965, the State Bank of India alone accounted for 127.

The present position as regards the expansion of bank branches will be evident from the fact that at present India has one branch per 79 thousand persons.

Aggregate deposits of the scheduled banks rose from Rs. 2,524 crores at the end of 1964 to Rs. 2,837 crores at the end of 1965, marking a rise of 14 per cent. over the year. At the end of 1965, the demand deposits accounted for 47 per cent of the aggregate deposit and the time deposits 53 per cent.

At the end of 1965, the share of demand deposits in the total money supply was still low (very low compared with the British level) at 33.4 per cent, compared with 31.9 per cent at the end of 1964. Another important indicator of the degree of bankisation of the Indian economy is the percentage of aggregate deposits of

the banks to the national income at current prices. This percentage was 14.4 at the end of 1965 compared with 12.6 at the end of the previous year. Both these indicators testify to a slow but steady bankisation of the Indian economy.

The total outstanding advances at the close of 1965 amounted to Rs. 2,101.8 crores. This can be divided into two categories, viz.: Secured advances and Unsecured advances. Secured advances were made to the extent of Rs. 1,817.1 crores or 86.5 per cent of the total advances, while unsecured advances amounted to Rs. 284.7 crores or 13.5 per cent. The secured advances can again be classified into two groups which are (1) Seasonal Advances and (2) Non-seasonal Advances. The outstanding seasonal advances at the end of the year under review amounted to Rs. 333.6 crores, the most important items against which advances were made being cotton and kapas (Rs. 104.9 crores), sugar (Rs. 54.5 crores) and tea (Rs. 44.4 crores). The outstanding non-seasonal advances amounted to Rs. 1,483.5 crores, the major items here being, iron, steel and engineering goods (Rs. 321.9 crores) and cotton textiles (Rs. 185.3 crores).

Item-wise data under all these categories are given in Table 1.

TABLE 1: BANK CREDIT AS ON DECEMBER 31, 1965 : SECURITYWISE CLASSIFICATION

| Security                   | Amount<br>Rs. crores |
|----------------------------|----------------------|
| <b>Seasonal Advances :</b> | <b>333.6</b>         |
| 1. Paddy and Rice .. ..    | 16.0                 |
| 2. Wheat .. ..             | 15.5                 |

| 4. Shares of Joint Stock Companies .. ..         | .. |
| 5. Debentures of Joint Stock Companies .. ..     | .. |
| 6. Government and Other Trustee Securities .. .. | .. |
| 7. Gold and Silver Bullion and Ornaments .. ..   | .. |
| 8. Assets of Industrial Concerns .. ..           | .. |
| I. Total Secured Advances .. ..                  | .. |
| II. Total Unsecured Advances .. ..               | .. |
| Total (I + II) .. ..                             | .. |

The deposit resources of the total at the end of 1965 are presented. Of the total scheduled bank Rs. 2,837.3 crores, the State Bank alone had deposits of Rs. 735.1 crores per cent of the total. The top ten had a share of 77.4 per cent of the total.

A centre-wise study of the pattern of the deposits at the end of that nearly 50 per cent of the deposits were concentrated in the four cities Calcutta, Delhi and Madras (Viz. 61 per cent of the total credit also in 4 major cities.

TABLE 2: DEPOSIT RESOURCES OF TOP BANKS AT THE END OF 1965

| Name of Bank                   | Total deposits (Rs. crores) |
|--------------------------------|-----------------------------|
| Central Bank .. .. .           | 735.1                       |

## INSURANCE

### PUBLIC AND PRIVATE INSURANCE SECTORS

On Sept. 1, 1956, when the L.I.C. of India was established, life insurance business in India was transacted by this Corporation and, in a restricted sphere, by the Posts & Telegraphs Department of the Govt of India and by the State Governments of Andhra Pradesh, Jammu & Kashmir, Kerala, Madhya Pradesh, Mysore, Rajasthan and Uttar Pradesh who carry on compulsory life insurance of their employees only. Marine & Miscellaneous classes of insurance business are transacted both by the Indian insurance companies and by foreign insurance companies operating in India. In addition, the State and certain State Governments are also transacting such business. The Government of West Bengal and Maharashtra insure all types of property in their commercial and industrial undertakings. Kerala State is transacting fire motor insurance business and Mysore State transacts life insurance business only.

In addition to the L.I.C., the Central Government has established two other Corporations in the insurance sphere—Employees' State Insurance Corporation and Export Credit and Insurance Corporation. The former conducts

compulsory health insurance of workers and their families in specified industrial concerns. The latter covers marine and commercial risks for exporters in India, other than those risks normally covered by private insurers in India.

#### LIFE INSURANCE

The Life Insurance Corporation of India did a new total business of about Rs. 798 crores sum assured under 15.61 lakh policies during the 12 months ended 31st March, 1966. Of this, foreign business was Rs. 8.50 crores sum assured. During the previous period of 12 months ended 31st March 1965, the total business secured was about Rs. 701 crores under 14,35,601 policies, of which foreign business was Rs. 11.05 crores.

The Corporation has a network of offices all over the country to procure new business and for servicing the existing business. There are 5 Zonal Offices, one each in Bombay, Madras, Kanpur, Calcutta and Delhi. There are 86 Divisional Offices, and 714 Branch, Sub-offices and

Development Centres i.e., 755 offices in all as against 532 in 1961 and 249 offices as on 1st September 1956 the date on which the Corporation was established. The Central Office of the Corporation is in Bombay. The Corporation is now having its offices in 283 districts out of 318 districts of various States in India and in 5 out of ten Union Territories in India, including one in Goa.

The Corporation also transacts business in the following foreign countries with 2 Divisional Offices and 12 Branch Offices: Aden, Fiji, Hong Kong, Malaysia, Singapore, Kenya, Mauritius, Tanzania, Uganda and the United Kingdom.

#### 1964-65 REPORT

At the end of the 12 months accounting period ended 31st March, 1965, the total business in the books of the Corporation including bonuses, stood at Rs. 3,886 crores under 108.62 lakh policies. Of this, Rs. 3,774 crores under 106.70 lakh policies represented life insurance business in India.

The following table gives the life assurance business in force at the end of each of the last seven accounting periods :—

| Business in force as at | In India                |                                      | Outside India           |                                      | Total                   |                                      |

A marked variation is noticeable in the size of the average policy sold in the different Zones by the Corporation. The figures are given below (Rs.):

Northern Zone (Delhi): 5,580; Central Zone (Kanpur): 4,891; Western Zone (Bombay): 5,283; Eastern Zone (Calcutta): 4,558; Southern Zone (Madras): 4,269; In India: 4,807; Foreign: 12,627; All business: 4,854 as against 4,269 in the period 1-4-1963 to 31-3-1964.

#### ACCOUNTS

The Life Fund stood at Rs. 901.61 crores on 31st March, 1965, registering an increase of about Rs. 93.25 crores over the life fund of Rs. 808.36 crores as on 31st March 1964. During this period, the Corporation's income from all sources totalled about Rs. 205 crores, made up of Rs. 162 crores from premiums (excluding consideration for annuities amounting to about Rs. 69 lakhs) and about Rs. 43 crores from returns on its invested funds and from miscellaneous sources.

The interest income of Rs. 38 crores represents earnings of 4.90% on the mean life fund after deducting income-tax. The rate per cent of interest from 1959 is given below :

1959: 4.08; 1960: 3.55; 1961: 4.58; In 15 months of 1962-63: 4.08; 1963-64: 4.07; 1964-65: 4.90. The gross rate of interest earned on the mean life fund during the year was 5.27 per cent per annum as against 5.11 per cent per annum for the previous year.

On the outgo side Rs. 59 crores represented claims and other benefits to the policy-holders, Rs. 50 crores expenses of management, Rs. 7 crores transferred to Reserve for Investments and

policies in India assuring about 28.7 per cent of the total new sums assured in India, were issued in rural areas as defined in the 1961 Census. About 41.1 per cent of the policies or 21.0 per cent of the new sums assured in India were issued under the non-medical schemes. In addition to the total new business stated above, the Corporation issued 804 Deferred Annuities and 100 Immediate Annuities with a total annual payment of Rs. 18.97 lakhs and Rs. 1.82 lakhs respectively.

the balance of nearly Rs. 93 crores addition to the Life Fund. On the claims side, nearly Rs. 12 crores represented claims by death and nearly Rs. 40 crores by maturity, annuities, surrender and bonuses in cash etc., accounting for the balance.

Over-all expenses ratio: 1958: 29.2; 1959: 28.7; 1960: 28.4; 1961: 28.0; 1962-63: 29.3; 1963-64: 27.5; 1964-65: 27.6.

The renewal expense ratio in terms of Rule 25(b) of Insurance Rules 1939 was 14.09% as against 12.46% for the previous year ended 31st March 1964.

#### INVESTMENTS

The total investments pertaining to life business as at 31st March 1965 amounted to Rs. 839.96 crores of which Rs. 17.95 crores were out of India. The break-up of Indian investments is as follows:

|                                                                             |                   |
|-----------------------------------------------------------------------------|-------------------|
| Indian and State Government and other approved securities .. .. .           | Rs. 526.12 crores |
| Debentures and shares of Joint stock companies in India .. .. .             | 159.23 "          |
| Loans to Housing Schemes —State Governments and Cooperative Finance .. .. . | 74.11 "           |
| Mortgages of Properties .. .. .                                             | 11.28 "           |
| House Property .. .. .                                                      | 30.75 "           |
| Due from State Governments for controlled business taken over .. .. .       | 4.63 "            |
| Other Loans etc. .. .. .                                                    | 15.14 "           |
| Share in Initial Capital of Unit Trust of India .. .. .                     | 0.75 "            |
|                                                                             | Rs. 822.01 crores |

On 31st March 1965, the Corporation held stock exchange securities aggregating nearly Rs. 702 crores, of which about Rs. 685 crores were in India and the balance outside India.

A broad classification of investments in India shows that 75.4% was invested in the public sector, and 19.4% in the private sector and 5.2% in the co-operative sector. Besides the loans issued by the Central and State Governments, investments in the public sector include loans, bonds, shares or debentures of municipalities, Improvement Trusts, Port Trusts, Land Mortgage Banks, State Financial Corporations and Statutory Corporations. Investments in the private sector take the form of debentures, preference shares and ordinary shares of industrial and commercial undertakings.

Debentures, preference and ordinary shares of joint stock companies held by the Corporation may be classified as under according to the character of the industries (Rs. lakhs):

Aluminium: 4,15.68; Banks: 6,05.46; Cement: 7,99.78; Coal: 3,64.37; Cotton Textiles: 18,24.12; Dyes, Chemicals and Pharmaceuticals: 4,45.18; Electricity: 11,49.16; Electrical Goods: 7,45.90; Engineering: 24,11.83; Food, Drinks and Tobacco: 1,49.18; Insurance: 233.06; Investment Trusts: 1,66.23; Iron and Steel: 10,59.02; Jute: 5,77.90; Managing Agents: 174.76; Matches: 79.62; Mining: 68.34; Mineral Oil: 14,79.20; Paper and Board: 5,77.10; Plantations: 257.88; Railways: 66.06; Rubber Products: 3,25.09; Shipping and Transport: 76.03; Sugar and Breweries: 5,88.97; Textiles (Other than Cotton): 5,33.61; Vegetable Oils: 92.20; Cooperative Housing Societies: 23.54; Miscellaneous: 6,34.02. Total: Rs. 159,23.29 lakhs.

#### Underwriting New Capital Issues

During the accounting year ended 31st March, 1965, the L.I.C. underwrote 84 new issues to the extent of Rs. 17,54.00 lakhs, comprising Debentures of Rs. 13,36.00 lakhs, Preference Shares Rs. 226.00 lakhs and Ordinary Shares Rs. 192.00 lakhs. Of these, 49 issues were placed in the market during the period, in addition to 21 issues placed in the previous year with allotments of Rs. 1,625.16 lakhs against Rs. 1,651.50 lakhs underwritten and Rs. 1,638.18 lakhs applied for.

#### PERSONNEL

On its formation, the Corporation took over about 21,000 employees, of whom 16,000 were in the clerical and supervisory cadre and 5,000 subordinate staff. On 31st March, 1965, there were 50,774 employees of whom 2,827 were officers, 8,720 Development Officers, 32,439 supervisory and clerical staff and 6,788 subordinate staff. The total monthly salary bill in March, 1965 was Rs. 174.87 lakhs.

Out of over 1.70 lakh agents on the books on 31st March 1965, about 1.46 lakhs were active.

The average production per active agent during the accounting period was Rs. 47,191 as against Rs. 48,359 during the previous year.

Permanent training centres are maintained at the headquarters of the five Zones to train development personnel on the professional aspect of sales and servicing. Other training centres at selected Divisional Headquarters are also in operation including an Officer's training centre at Nagpur.

#### VALUATION & BONUS

Five biennial valuations were made till March 1965. The fifth valuation was made as at 31st March 1965. The total surplus shown was Rs. 62.90 crores. Out of this Rs. 59.80 crores were allocated to the participating policies and Rs. 3.10 crores to the Central Government as its share. In respect of the policies issued by the L.I.C. itself, the rate of reversionary bonus allotted was Rs. 20.00 per thousand sum assured per annum for whole life policies and Rs. 16.00 for endowment assurance policies. The corresponding rates of bonus at the previous valuation were Rs. 17.50 per thousand sum assured per

\* Including outside India.

annum and Rs. 14.00 per thousand sum assured per annum respectively. The policies issued by the erstwhile insurers were allotted bonuses at different rates as per the scheme of differential bonuses approved by the Government.

### GENERAL INSURANCE

As at 31st December 1965 there were 136 (as against 137 in 1964) companies registered under the Insurance Act, 1938 to transact one or more classes of general insurance business of which 72 were Indian and 64 non-Indian. One non-Indian insurer ceased to operate in 1965. The number of Indian insurers excludes the Life Insurance Corporation of India (which is registered for Life and Miscellaneous insurance business) but includes its three (since amalgamated into one on 1st January 1961) subsidiaries which conduct general insurance business. It also includes 11 insurers registered for Country Craft (marine) insurance business only with 6 non-tariff offices and three doing only reinsurance business, one of which is a subsidiary of the L.I.C.

Of the 64 non-Indian offices, 40 have their head-offices in the U.K.

Since nationalisation of life insurance, 31 Indian and 38 non-Indian companies had closed down their general insurance business.

Early in 1964, the Life Insurance Corporation of India, which was so far conducting life insurance business in India on a monopoly basis and Capital Redemption insurance business, registered itself for conducting general insurance business also as a non-Tariff. From 1st April, 1964 it started writing, Fire, Marine and Miscellaneous insurance and reinsurance business. During the year ended 31st March, 1965, it secured business bringing a total gross premium income of Rs. 43 lakhs, the shares of Fire, Marine and Miscellaneous Departments being 37%, 20% and 43% respectively. During the year ended 31st March 1966, the L.I.C. secured a gross direct premium of Rs. 2.57 crores. The breakdown thereof is Rs. 95.63 lakhs under Fire, Rs. 93.79 lakhs under Marine and Rs. 67.62 lakhs under Miscellaneous insurance classes. The total net premium amounted to Rs. 1.82 crores. The net claims were Rs. 6.33 lakhs, Rs. 11.74 lakhs and Rs. 14.38 lakhs in Fire, Marine & Miscellaneous insurance respectively. The net underwriting profits were Rs. 9.04 lakhs.

The total income and outgo in respect of the general insurance business of Indian insurers

excluding the Life Insurance Corporation of India) during 1964 is analysed below :

| Particulars                                                                   | Rs. lakhs |

## REINSURANCE

To minimise the drain on account of reinsurance transactions abroad, the Insurance Act, 1938 was amended, early in 1961, by inserting Part IVA Reinsurance, Sections 101A and 101B. Section 101A provides that every insurance company operating in India must reinsure a certain percentage of its business (not exceeding 30%) with Indian reinsurance companies approved in this behalf by the Central Government.

By various notifications, the Central Government announced the names of the two approved Indian reinsurance companies and the various percentages of the sum assured on each policy to be reinsured by every insurer with each of the two Indian reinsurers. The two approved reinsurers are: India Reinsurance Corporation Ltd., and Indian Guarantee & General Insurance Co. Ltd., both having their registered offices in Bombay.

The drain on account of reinsurance transactions abroad in respect of the Indian business of non-Indian insurers and total business of the Indian insurers during the years 1962, 1963 and 1964 has been estimated at Rs. 206 lakhs, Rs. 175 lakhs and Rs. 264 lakhs respectively, as follows:—

(In lakhs of rupees)

|                                                                                   | Year | Fire | Marine | Miscellaneous | Total |
|-----------------------------------------------------------------------------------|------|------|--------|---------------|-------|
| 1. Profit in respect of gross direct business in India of all insurers .. ..      | 1962 | 560  | 48     | 272           | 880   |
|                                                                                   | 1963 | 455  | 101    | 330           | 886   |
|                                                                                   | 1964 | 471  | 136    | 500           | 1,107 |
| 2. Profit in respect of total net business of Indian insurers .. ..               | 1962 | 270  | 2      | 118           | 390   |
|                                                                                   | 1963 | 253  | 39     | 125           | 417   |
|                                                                                   | 1964 | 267  | 51     | 269           | 587   |
| 3. Profit in respect of net business in India of Non-Indian insurers .. ..        | 1962 | 107  | 24     | 35            | 166   |
|                                                                                   | 1963 | 90   | 20     | 34            | 144   |
|                                                                                   | 1964 | 81   | 10     | 45            | 136   |
| 4. Profit in respect of gross direct business outside India of Indian insurers .. | 1962 | —5   | —18    | —95           | —118  |
|                                                                                   | 1963 | 13   | —20    | —143          | —150  |
|                                                                                   | 1964 | 6    | —27    | —99           | —120  |
| 5. Drain on account of reinsurers abroad—[(1) + (4) — (2) — (3)] .. ..            | 1962 | 178  | 4      | 24            | 206   |
|                                                                                   | 1963 | 125  | 22     | 28            | 175   |
|                                                                                   | 1964 | 129  | 48     | 87            | 264   |

Note: Unexpired risk reserves have been taken at 40% of the premium income for Fire and Miscellaneous and 50% of the premium income for Marine insurance business.

To reduce this exchange drain, insurers in the Indian market have taken a number of steps, like increasing their net retentions, obtaining higher commission and profit commission terms and increased reciprocity. Unfortunately, the foreign markets with which Indian insurers had built up a large relationship have been showing bad results over the past number of years.

In April, 1965, the Reserve Bank of India added a new provision to their Exchange Control Regulations, namely "Insurance Companies

may enter into reinsurance arrangements with insurers outside India, provided the required reinsurance facilities are not available in India", with a view to eliminating to the extent possible the foreign exchange drain arising as a result of reinsurances placed abroad.

## REFUGEES AND REHABILITATION

**M**IGRATION to India of members of the minority community in Pakistan (East and West) which began in 1946 continued unabated till 1956.

**Influx from East Pakistan:** The influx of minority community from East Pakistan to West Bengal, Assam and Tripura respectively from Jan. 1, 1964 to Feb. 18, 1966 were 5,01,101; 1,85,305 and 1,15,392.

Another influx of displaced families from East Pakistan commenced again in Jan. 1964 due to serious communal disturbances and continued till Dec. 1964.

During 1965, consequent on the organised infiltration by armed Pakistani agents into Jammu & Kashmir and subsequent hostilities with Pakistan, the State Govt. (Jammu & Kashmir) was faced with the problem of arranging shelter and offer relief for about 2,50,000 persons displaced in Jammu & Kashmir.

Another responsibility, placed on the shoulders of the Rehabilitation Ministry in 1965 was the work relating to repatriates from Burma, Mozambique and Ceylon. About 1,35,700 repatriates have come from Burma and 2,300 from Mozambique.

Displaced persons from West Pakistan 47.40 lakhs; from East Pakistan 50.11 lakhs (including the latest migration of 1964-65); total 97.51 lakhs.

The table below shows particulars of the expenditure incurred till the end of 1965-66 on displaced personnel:—

(In crores of rupees)

| Displaced persons from                                                      |               | West Pakistan | East Pakistan |
|-----------------------------------------------------------------------------|---------------|---------------|---------------|
| Grants .. .. .                                                              | 97.47         | 107.43        |               |
| Dandakaranya Scheme ..                                                      | ..            | 34.01         |               |
| Rehabilitation Reclamation Scheme ..                                        | ..            | 2.35          |               |
| Rehabilitation Industries Corpn. ..                                         | ..            | 1.15          |               |
| Loans .. .. .                                                               | 26.53         | 47.33         |               |
| Housing .. .. .                                                             | 64.95         | 45.72         |               |
| Establishment ..                                                            | 3.23          | 1.55          |               |
| Loans paid by Rehabilitation Finance Administration upto 31st December 1960 | 7.28          | 3.94          |               |
| Miscellaneous .. ..                                                         | 0.01          | 0.73          |               |
| Relief measures in J. & K. on account of conflict with Pakistan .. ..       | ..            | 1.25          |               |
| Expenditure on repatriates from Burma and Ceylon .. ..                      | ..            | 0.97          |               |
| <b>TOTAL .. ..</b>                                                          | <b>199.47</b> | <b>246.43</b> |               |

The total expenditure to the end of the financial year 1965-66 is Rs. 445.90 crores. This does not include expenditure on payment of compensation out of the compensation pool to displaced persons from West Pakistan nor the ex-gratia payments to migrants from the Pakistan held area of Jammu and Kashmir.

### REHABILITATION

During 1965-66, besides attending to the task of looking after the large numbers of migrants still living in relief camps, the formulation and implementation of schemes for rehabilitation of new migrants attracted the major efforts of the Government of India. As a result of the appeal made by the Prime Minister to treat the new migration as a national problem, offers were

received from twelve Chief Ministers for the resettlement of 75,853 families. As the bulk of new migrants were agriculturists, State Governments were requested to make available as much land as possible and so far the Department of Rehabilitation has received offers of land to the extent of 1,93,000 acres. This would suffice for about 18,000 families.

During the year 1965-66, various patterns and policies for giving rehabilitation assistance were finalised. Rehabilitation schemes, which had already been sanctioned, covered 38,199 families at a cost of Rs. 13.35 crores. About 12,000 families had actually been provided permanent rehabilitation benefits till January 31, 1966. Rehabilitation schemes covering 13,243 families and involving an expenditure of Rs. 4.87 crores were being examined and would be finalised shortly.

### Resettlement on Land

The screening conducted in various relief camps has revealed that on an average 70 per cent of the migrant families are agriculturists.

Under the schemes drawn up for the benefit of displaced agriculturist families, financial assistance will be given for construction of houses, purchase of agricultural implements, seeds, fertilizers, manures etc. Apart from the cost of the homestead plot, which may be about Rs. 200 per family, the ceiling of financial assistance in the case of families resettled on individual holding and group farms are about Rs. 3,455 and Rs. 3,265 per family respectively.

Families resettled under the group farming scheme will be given adequate technical guidance while actual cultivation will be left to the initiative of the farmers in each group. Irrigation facilities will also be provided where possible, states the annual report.

### Rehabilitation Reclamation Organisation

To effect a speedy and effective resettlement on land, the Government of India have set up the Rehabilitation Reclamation Organisation to reclaim forest land in Dandakaranya and in other States.

It was expected to reclaim about 25,000 acres of land before June, 1966. It is proposed to strengthen its fleet of tractors by adding one or two fully mechanised units by the end of the next financial year.

### Non-Agricultural Occupations

During 1965-66, a loan of Rs. 7 lakhs was sanctioned to State Governments for the settlement of 810 families in non-agricultural occupations.

According to a programme drawn up by the Department of Rehabilitation, it is proposed to settle 2,500 new migrant families and another 1,800 during 1966-67 in non-agricultural occupations in various States at a total estimated cost of Rs. 68 lakhs and Rs. 60 lakhs respectively. Out of these amounts, Rs. 19 lakhs will be treated as grants to the migrants.

### INDUSTRIES

Thirty-one schemes for providing employment to 2,497 migrants in small industries including agro-industries were sanctioned up to January 31, 1966 at an estimated cost of Rs. 47.85 lakhs.

A spinning mill is being set up by the Rehabilitation Industries Corporation at Jagdalpur at an estimated cost of Rs. 1.80 crores for providing employment to about 1,000 migrants from East Pakistan. A number of handloom and powerloom units will also be set up around the spinning mill.

### EMPLOYMENT

Out of 30,695 migrants who have been registered at the Employment exchanges, 1,428 migrants have so far been provided with jobs.

To coordinate the work relating to the registration and employment of new migrants from East Pakistan, a special cell has been created in the Directorate General of Employment and Training.

A special employment exchange has also been opened at Mana and Special Employment Officers have been appointed at Calcutta and Shillong.

### TECHNICAL TRAINING

Up to 1965-66, eleven schemes were sanctioned at an estimated cost of Rs. 22.85 lakhs for providing vocational and technical training to 1,388 new migrants.

Proposals have been received from State Governments involving an expenditure of Rs. 28.01 lakhs. In all 16 training schemes have been received which will benefit 1,734 migrants. These are under consideration.

**Education:** The Government of India accepted the responsibility for providing funds to the extent of Rs. 405.43 lakhs for education of old migrants from East Pakistan.

Two primary schools for the education of 150 children of migrant families at a cost of Rs. 9,200 have been provided in rehabilitation colonies in Uttar Pradesh. Education in polytechnics has also been provided to 11 migrant students in Madhya Pradesh for a period of two and a half years at a cost of Rs. 18,150.

The scheme for providing freeships, book grants and stipends to the migrant student is being finalised.

**Medical Facilities:** Suitable medical facilities in the new rehabilitation colonies are being set up in different States for the new migrants from East Pakistan. A sum of Rs. one lakh has been sanctioned for providing 10 additional beds in the Children's ward of the V.M. Hospital, Agartala for the treatment of undernourished children of the new migrants from East Pakistan.

### DANDAKARANYA PROJECT

Over 12,000 families have been moved into the Dandakaranya project area. About 10,240 families have been moved to village sites. Over 900 families are in transit camps awaiting to be shifted to villages. New villages numbering 185 have been opened. The number of houses constructed stood at 5,792 and those under construction stood at 2,080, according to the report.

Over 2 lakh acres of land have been released by the State Governments of Madhya Pradesh and Orissa of which about 1,25,000 acres are suitable for cultivation. To make the land more productive and for soil and water conservation, a scheme of level terracing and bunding has been introduced.

Considerable progress has been made in various other fields. Ninety bridges and 720 culverts have been completed. Umerkote dam costing Rs. 1 crore has been completed. Pakhanjore tank costing about Rs. 8 lakhs has also been completed. It is expected to serve about 1,300 acres of land. Preliminary work in respect of Malkangiri dam is in progress. It will cost Rs. 2.02 crores. Twenty-three schemes of minor irrigation projects are under execution and 8 are under investigation. Over 800 tube-wells, 126 tanks and 193 masonry wells have been completed. Five hospitals, 11 primary health centres and dispensaries and 5 mobile medical units have been established. Malaria has been completely eradicated from settlement zones.

### SPECIAL AREA DEVELOPMENT PROGRAMME

A preliminary land survey of some areas in Phulbani and Ganjam districts of Orissa has been carried out. It is expected that sizeable stretches of land would be available here for reclamation.

The Government of Maharashtra have forwarded an outline report indicating schemes which could be taken up as a part of the accelerated resource development plan of Chanda District. This report is being examined by technical experts.

The development programme of Andaman and Nicobar islands envisages the doubling of the present population by the end of the Fourth Plan and its further increase by one lakh during the Fifth Plan period. Avenues of employment would be created for persons who would be brought from the main land for the implementation of the programme and settlement. About 400 Sakharis and their families have been moved to the islands.

### REPATRIATES

The total number of Indians who returned from Burma from June, 1963 to March 5, 1966 was 1,35,636. Transit camps have been set up for the repatriates in Madras, Andhra Pradesh, Orissa and West Bengal to provide temporary shelter. The number of camps set up was 13.

The total number of repatriates who have been given assistance for rehabilitation in different States is 11,833. About 8,600 persons were given business loans. Over 3,000 persons were given employment and the rest assisted in other ways.

Under the Indo-Ceylon Agreement of 1964, 5,25,000 persons of Indian origin in Ceylon will be given Indian citizenship and repatriated to India. The repatriation was expected to commence in June, 1966 and would be spread over a period of 15 years. The Governments of Andhra Pradesh, Mysore, Orissa, Maharashtra, Madhya Pradesh, Uttar Pradesh, Punjab and Assam have been requested to accept a quota of repatriates for settlement and to formulate suitable schemes for their rehabilitation.

The number of Indian citizens who have returned from the Portuguese territories in Africa, mainly Mozambique, is about 2,300. Most of them have been settled in Gujarat.

### DPs IN JAMMU AND KASHMIR

Out of 2,50,000 persons displaced from different areas due to Pakistani aggression, about 1,40,000 persons had to be initially accommodated in camps and given free rations. Facilities of water supply, medical care and education were provided.

To expedite the programme of rehabilitation, suitable administrative arrangements are being worked out. The scales of rehabilitation facilities have also been laid down.

So far Rs. 140 lakhs have been spent on relief and resettlement of these families. Of these, over Rs. 103 lakhs have been spent on providing relief facilities including cash doles and rations. For resettlement, about Rs. 38 lakhs have been spent. In addition, considerable expenditure was incurred on supply of tents, coats, blankets, lanterns, medicines, utensils etc.

After the cease-fire, and following the Tashkent Declaration, about 1,50,000 persons (about 3,000 families) belonging to Poonch, Rajouri and Riasi areas have gone back to their villages.

A plan for the return of the families to their original places of settlement has been tentatively drawn up by the State Govt., by which it is expected that about 2,500 people will move back to their villages daily.

It is estimated that the cost of rehabilitation of about 21,000 families who would be moving to their original places of settlement in Chhamb and Jaurian area, would be of the order of Rs. 8 crores.

### Payment of Compensation :

Out of 5,06,648 applications for payment of compensation and rehabilitation grant filed upto Jan. 31, 1966, 4,95,092 have been finally settled by the payment of a total amount of Rs. 187.56 crores. In addition, statements of account issued in respect of 10,695 cases, involving a further liability of Rs. 1.29 crores await utilisation by claimants as on Jan. 31, 1966.

**Disposal of Properties :** Out of a total number of 2.87 lakh evacuee properties and 1.41 lakh Government properties, 2.81 lakh evacuee properties and 1.36 lakh Government properties have already been disposed of. The balance 0.11 lakh properties is awaiting disposal.

**Rural Claimants :** Under the quasi permanent scheme in Punjab 4.77 lakh displaced families were allotted land. The work of transferring permanent rights to the allottees was taken up in 1955. Upto Sept. 1965 permanent rights have been conferred on 2,81,316 allottees over an area of 20,16,107 standard acres. 1,97,627 rural houses also have been transferred in permanent ownership to the allottees. Thus the major part of the work was completed. The remaining work in the Punjab\* has been transferred to the State Govt. for disposal.

Outside Punjab\* 58,000 displaced agriculturists were settled on about 5.63 lakh acres of evacuee as well as Govt. owned land. About 20,000 persons who are settled in Alwar and Bharatpur districts of Rajasthan are being transferred land in their occupation by the State Government. The remaining allottees held verified claim for agricultural land and their allotments are being regularised by adjusting the cost of land against the compensation due on their land claims. Upto Jan. 31, 1966 22,193 claimants were allotted 79,648 standard acres, 1,55,934 ordinary acres of land outside Punjab State\* and groves worth Rs. 36 lakhs.

**Assistance to Migrants from Pak-held areas of Jammu and Kashmir :** For the purpose of relief and rehabilitation, the migrants from Pak-held areas of Jammu & Kashmir State are treated at par with the non-claimant displaced

persons from Pakistan. They were not paid any compensation for the properties left behind in view of legal and Constitutional position in respect of lands in Pakistan-held areas of the Jammu and Kashmir State. However, these migrants had suffered greatly and their general conditions justify special rehabilitation assistance. The Government of India, therefore, decided to give them rehabilitation assistance in the form of *ex gratia* payment as below :—  
(1) Rs. 1,000 to families settled on agricultural land in Jammu and Kashmir; (2) Rs. 3,500 to families having a monthly income of Rs. 300 settled elsewhere than on land in Jammu and Kashmir State. So far, as on Jan. 1, 1966, the number of applications received and finalised was 31,790 and 22,939 respectively leaving a balance of 8,851 pending. A sum of Rs. 3.34 crores had been paid on account of *ex gratia* grant upto the end of Dec. 1965.

In deserving cases, the families who have gone back to their original villages, rehabilitation facilities were given amounting to Rs. 500 per family for reconstruction of houses completely destroyed and Rs. 300 for repair of houses damaged as a result of the hostilities with Pakistan. Trade loan upto Rs. 2,000 was also given in deserving cases.

The families who would be returning to their original places of settlement in the Chhamb-Jaurian area would be provided with the following resettlement facilities : (a) Free transport to suitable points near their villages; and (b) tented accommodation till their damaged houses are reconstructed.

Assistance in the shape of grant and loan for reconstruction of houses are as follows :—

|                     | Rural area (Ceiling) |           | Urban area (Ceiling) |           |
|---------------------|----------------------|-----------|----------------------|-----------|
|                     | Grant                | Loan      | Grant                | Loan      |
| Kucha House .. .. . | Rs. 1,000            | Rs. 2,000 | Rs. 2,000            | Rs. 3,000 |
| Pucca House .. .. . | Rs. 2,000            | Rs. 3,000 | Rs. 3,000            | Rs. 6,000 |

The loan is repayable in 20 years at 5 per cent interest.

Trade loans upto Rs. 1,000 in rural areas and Rs. 5,000 in urban areas would also be given to petty trader families. A grant of Rs. 500 is also allowed for construction of shops to non-agriculturist trader families.

### CLAIMS

The Implementation Committee set up under the Indo-Pakistan Movable Property Agreement did not meet during the year (1965-66). The work relating to restoration of personal and household effects, seized jewellery, firearms, and buried treasures has been completed.

Transfer of lockers/safe deposits and jewellery in Gold Loan Accounts has been effected in most of the cases. Jewellery in six Gold Loan Accounts and surplus cash sale proceeds of jewellery sold in Pakistan amounting to Rs. 1.30 lakhs have not yet been received from Pakistan. No progress has been made in the matter of payment of compensation for properties both movable and immovable of 17 non-evacuee Joint Stock Companies, and for the movable assets of 159 evacuee Joint Stock Companies.

The following statement shows the position of claims of Displaced Govt. servants on account of their pension, G.P.F., leave salary etc. and contractors for services rendered, supplies made upto March 1, 1966.

|                                                                                  | Claims received sent to Pakistan |                                 | Claims settled by Pakistan |                                | Balance |                                |

**Court Deposits :** India has referred 1,973 claims of the value of Rs. 180.80 lakhs to the Govt. of Pakistan, out of which 669 claims of the value of Rs. 36.94 lakhs (claimed value Rs. 76.35 lakhs) have been admitted by Pakistan Government. They have rejected 796 claims of the value of Rs. 52.79 lakhs. 509 claims of the

value of Rs. 31.67 lakhs are still pending with them.

So far 618 deposits of the value of Rs. 22.14 lakhs, 3,078 cash deposits of the value of Rs. 18.24 lakhs and 800 more deposits of the value of Rs. 9.55 lakhs are yet to be received.

## Summary of Budget Allocation

A statement showing the budget estimate and revised estimate for 1965-66 and the budget estimate for 1966-67 is given below :—

(In thousands of Rs.)

| Heads                                                                              | B.E.<br>1965-66 | R.E.<br>1965-66 | B.E.<br>1966-67 |

† Provision made in the Demands for Grants of the Ministry of Works and Housing.

## U. S. AID TO INDIA

**U. S.** economic assistance to India consists of both grants and loans. The total commitments of the U.S. under various agreements with the Government of India now stand at \$7,271.5 million (Rs. 5,453.63 crores).

*U.S. Aid from the inception of the Economic Assistance Programme to India in June 1951 through September 15, 1966.* The first figure is in million dollars and the figure in brackets the rupee equivalent at current rate of exchange in crores: 1. U.S. Agency for International Development Mission's Technical Cooperation Programme: (a) Development grants (not repayable) 390.4 (292.80); (b) Loans (repayable in rupees or dollars) 154.2 (115.65); 2. U.S. Agency for International Development: Development loans (repayable in dollars) 1,762.0 (1,321.50); 3. U.S. Development Loan Fund credits (repayable in rupees) 509.2 (381.90); 4. Public Law 480, Title I (grants and loans repayable in rupees) 3,597.1 (—\*); 5. Public Law 480, Title II (grants; not repayable) 23.8 (17.85); 6. Public Law 480, Title III (agricultural commodities donated through voluntary agencies; not repayable) 237.9 (178.42); 7. Emergency Flood & Famine Relief grants (not repayable) 5.5 (4.13); 8. Export-Import Bank loans (repayable in dollars) 401.7 (301.26); 9. Wheat Loan of 1951 (repayable in dollars) 189.7 (142.28); Total 7,271.5 (5,453.63).

*Breakdown:* The figures within brackets indicate the percentage of the total aid: 1. Grants (not repayable) 1,445.8 (19.9); 2. Loans (repayable in dollars) 2,358.4 (32.4); 3. Local currency repayments (This includes loans repayable in rupees or dollars; the Cooley Fund for loans to private enterprises; and amounts under PL-480, Title I, agreements reserved for U.S. Government uses) 3,472.3 (47.7); Total 7,271.5 (100.0).

## DOLLAR-RUPEE CONVERSIONS

For the sake of uniformity and simplicity all dollar figures included in this Fact Sheet are shown with conversions in Indian currency at the current rate of Rs. 7.50 to the dollar. Prior

to June 5, 1966 the rate of exchange was: \$1 = Rs. 4.76.

In regard to loans repayable in dollars, this Fact Sheet lists the equivalent of the entire loan amount in Indian currency at the current rate of exchange. However, in many cases a part of the loan has already been repaid at the old rate.

Loans repayable in rupees fall in two categories. In the first category are loans extended by the former U.S. Development Loan Fund (U.S.D.L.F.), and under the U.S.A.I.D. Mission's Technical Cooperation Programme. The loans provided foreign exchange in dollars, and the loan agreements included clauses providing that repayment would be based on the official rate of exchange at the time repayment was made. Thus devaluation had the effect of changing the outstanding balance in terms of rupees, though not in dollars.

In the second category are loans to the Government of India and to private enterprises from P.L. 480 funds. These loans are intended for purchasing supplies and services available in India. Devaluation does not affect the repayment terms. The borrower's liability is limited to the amount of rupees specified in the loan agreement.

It will be noted that only 32.4 per cent of total American aid to India involves foreign exchange repayments. The greater part of this amount bears exceptionally low rates of interest and is repayable over a long period (40 years).

Nearly a quarter of the total aid represents grants. The remainder (47.7 per cent) represents loans repayable in rupees. Those repayments do not involve the utilization of India's foreign exchange earnings or the export of goods from this country.

## EMERGENCY WHEAT LOAN

In 1951 the U.S. Congress enacted legislation for a loan of \$189.7 million (Rs. 142.28 crores) to India to finance the purchase of 2 million tons of wheat to meet an acute food shortage. The loan is repayable in dollars and carries an interest rate of 2½ per cent. Repayment was scheduled to

commence on June 30, 1957. However, in view of India's serious foreign exchange difficulties, the U.S. Government has postponed the 18 semi-annual instalments of interest and principal due from December 31, 1959 and re-scheduled them to fall due from December 1986 to 1995, without additional interest payments.

American assistance to India is at present extended through the following three agencies.

## U.S. AGENCY FOR INTERNATIONAL DEVELOPMENT (U.S.A.I.D.)

This new Agency was created on November 3, 1961 to bring American economic assistance under a unified administration. It is in charge of activities previously administered by the International Cooperation Administration, which was represented in India by the Technical Cooperation Mission (TCM), the Development Loan Fund, the Food for Peace Programme (Public Law 480) in its relation with other countries, and other staff and related functions.

U.S.A.I.D. gives both developmental loans and grants. Grants have been made to the Malaria Eradication Programme, Small-pox eradication, higher education, National Productivity Council, craftsmen training, dairy development, community development, crop production and a number of other projects. U.S.A.I.D. and its predecessor, TCM have also aided India by making available American experts to work on specific technical and economic problems in the Indian development programme, by giving advanced training to Indian participants both in India and abroad, and by the provision of supplies and equipment. The names of the principal divisions of U.S.A.I.D. (Agriculture, Industry, Health, Education, Labour and Management) indicate the comprehensive scope of its activities. Developmental grants total \$390.4 million (Rs. 292.80 crores). These, of course, do not involve repayment.

The 42 developmental loans given by U.S.A.I.D. since its establishment in November 1961 total \$1,762.0 million (Rs. 1,321.50 crores). These loans are repayable in dollars, but in order to

\* The Government of India deposits in the account of the United States Government with the Reserve Bank of India rupees equivalent to dollars made available by the U.S. to purchase agricultural commodities. These rupee deposits are made at the rate of exchange prevailing at the time of dollar disbursements. Most of the commodities included in the P.L. 480 agreements had been purchased by India before the rupee was devalued and the deposits were made at the previous (lower) rate of exchange. It is estimated that P.L. 480 deposits under existing agreements will total Rs. 1,828.6 crores, which is much less than the equivalent of \$3,597.1 million at the new rate of exchange.

avoid an excessive foreign exchange debt servicing burden to India, the terms of the loans are set at a long period, taking into account such factors as other foreign debt and the foreign exchange earnings of the country. Repayment is scheduled over 40 years, with a 10-year grace period: that is, no payments of principal during the first ten years.

The 22 loans authorized through 1963 are free of interest and carry a credit fee of three quarters of one per cent per annum. The foreign aid legislation enacted by the U. S. Congress

for the fiscal year 1964 effected a slight change in the terms of these loans: instead of a credit fee they become subject to payments of interest at three quarters of one per cent during the first ten years and at two per cent during the remaining thirty years. Ten loans were authorized in India under these terms. The legislation that was passed for the fiscal year 1965 established a minimum interest rate during the first ten years of development loans of one per cent per annum and of 2½ per cent thereafter. So far, ten loans have been authorised in India under the new terms.

Details of the developmental loans given by the U.S.A.I.D. are as follows:

| Date of Agreement or Announcement | Project                                                                                         | Dollars (Millions) | Rupee Equivalent at the current rate of exchange (Crores) |

\* This loan is repayable in rupees.

## U.S. PUBLIC LAW 480

(Food for Peace Programme)

India has been the largest recipient of U.S. agricultural commodities under Title I, P.L. 480. The first Title I agreement was signed with India on August 29, 1956. Since then eight additional agreements and 25 supplemental agreements have been signed. The last supplemental agreement was signed on May 27, 1966. The market value of the commodities (including some ocean transportation costs) in all these agreements and amendments totals \$3,597.1 million.

The Government of India pays for these commodities in rupees.

## GRANTS FROM U.S. PUBLIC LAW 480 SALE PROCEEDS

The nine agreements between the United States and India under U.S. Public Law 480 provide for the grant of approximately Rs. 377.35 crores from the sale proceeds of agricultural commodities to the Indian Government for development projects.

Agreements have been concluded for grants to be made to the following projects:

|                                                                                                                                                                                                  | Crores Rs. |

## Loans to the Indian Government from U.S. P.L. 480 Sale Proceeds

The nine agreements between the United States and India under U.S. Public Law 480 provide for approximately Rs. 1,072.07 crores from the sale proceeds of agricultural commodities to be given in loans to the Indian Government for economic development projects.

Agreements have been concluded for loans to the following projects:

|                                                                                                                                                                                                     | Crores<br>Rs. |

Public Law 480, which is playing a significant role in ensuring the availability of agricultural commodities to India at reasonable prices at a time of intense economic development, has four titles (chapters).

#### P. L. 480 Title I

Title I provides for the sale of agricultural commodities in return for payment in the currency of the recipient nation. Under this Title the United States has entered into nine agreements with India for the supply of large quantities of wheat, rice, coarse grains, cotton, dried milk powder, tobacco, and other agricultural commodities. The total value of the commodities covered by these agreements is \$3,597.1 million.

India pays for these supplies in rupees. The Government of India deposits in the account of the United States Government with the Reserve Bank of India rupees equivalent to the dollars paid to U.S. suppliers of agricultural commodities. These rupee deposits are made at the rate of exchange prevailing at the time of dollar disbursements. Most of the commodities included in the P.L. 480 agreements had been purchased by India before the rupee was devalued and deposits were made at the previous (lower) rate of exchange. Devaluation will not affect these prior deposits. They will not be revised upwards. Rupees paid into the U.S. Government account after devaluation are, of course, calculated at the current rate of exchange.

It is estimated that P.L. 480 deposits made or to be made under existing agreements will total Rs. 1,828.57 crores, which is much less than the equivalent of \$3,597.1 million at the new rate of exchange.

Each of the nine P.L. 480 agreements specifies the manner in which the rupee deposits should be utilized. Taking all the agreements together, 21.9 per cent of the sales proceeds is reserved for grants to the Government of India for develop-

ment projects; and 57.5 per cent for loans for the same purpose. Another 6.8 per cent is designated for loans to private enterprises under the Cooley Amendment (see page 4). The remaining 13.8 per cent is reserved for U.S. Government uses.

It is estimated that the allocations of P.L. 480 sales proceeds will be as follows:

Grants to the Government of India: Rs. 377.35 crores;

Loans to the Government of India: Rs. 1,072.07 crores;

Loans to private enterprises under the Cooley Amendment: Rs. 124.56 crores;

U.S. Government Uses: Rs. 254.60 crores.

#### P.L. 480 Title II

Title II of Public Law 480 enables the U.S. President to furnish emergency assistance to foreign countries in meeting famine or other urgent or extraordinary relief requirements. Under this title India has received agricultural commodities worth \$23.8 million (Rs. 17.85 crores).

#### P.L. 480 Title III

Under Title III of Public Law 480, \$237.9 million (Rs. 178.42 crores) worth of dried milk, wheat, rice, corn, cottonseed oil, and other such commodities has been distributed in India through voluntary agencies. Some 80 lakh school children receive free lunches through programmes assisted under this title.

#### P.L. 480 Title IV

Title IV provides for long-term credits to friendly nations for purchase of agricultural commodities during periods of economic development. Repayment in dollars could be spread over twenty years. No transactions have taken place between India and the United States under this title.

#### COOLEY FUND

The Cooley Amendment to U.S. Public Law 480 (named after Congressman Harold D. Cooley, Chairman of the Committee on Agriculture of the U.S. House of Representatives) provides that up to 25 per cent of the local currency proceeds from the sale of American agricultural commodities shall be made available to U.S.A.I.D. for lending in the private sector to two categories of borrowers:

1. American firms or their subsidiaries operating in the host countries (India) or indigenous (Indian) firms having an affiliation with an American firm;
2. Indigenous firms of the host countries with no American affiliation but which are facilitating the disposal of American agricultural products, e.g. local private warehouses storing grain or flour mills processing the grain, etc.

The nine agreements between India and the United States under Public Law 480 provide for approximately Rs. 124.56 crores to be allocated to the Cooley Fund.

The following loans have been extended from the Cooley Fund (in Rs. crores): 1. Otis Elevator of India Ltd., Bombay (elevators) 0.2; 2. Good-year Tyre & Rubber Co. of India Ltd., Ballabgarh, Punjab\* (rubber products) 3.75; 3. Mysore Cements Ltd. (M/s. Sarangapani Mudaliar/Kaiser), Ammasandra, Mysore (cement) 1.375; 4. Hindustan Aluminium, Ltd. (M/s. Birla/Kaiser) Renukoot, U.P. (aluminium) 5.0; 5. Synthetics and Chemicals, Ltd. (M/s. Kilachand/Firestone), Bareilly, U.P. (synthetic rubber) 0.5; 6. Ex-Cell-O (India) Pte. Ltd. (M/s. Amerind Engineering Co./Ex-Cell-O Co. Detroit, Mich.), Bombay (machine tool parts) 0.2; 7. Premier Tyres Ltd. (Joint enterprise with Dayton Rubber Co.), Kalamasseri, Kerala (rubber tyres) 0.3; 8. Seshasayee Paper & Board Ltd., Erode, Madras (M/s. Seshasayee/Parsons and Whitemore) (bagasse pulp and paper mill) 2.0; 9. Cyanamid India Ltd., Bombay, Maharashtra (American Cyanamid Co. of New York) (antibiotics) 0.25; 10. Gabriel

India Private Ltd., Mulund, Bombay, Maharashtra (shock absorbers) 0.19; 11. Madras Rubber Factory Ltd., Madras (Mansfield Rubber Co. of Ohio) (rubber tyres) 0.75; 12. East India Hotels Ltd. (Intercontinental Hotel Corporation), New Delhi (construction of hotel in New Delhi) 0.76; 13. Wyeth Laboratories, Pte. Ltd. (American Home Products Corporation), Bombay, Maharashtra (steroid compounds and hormones) 0.17; 14. Victor Gasket India (Pte.) Ltd., Mulund, Bombay, Maharashtra (Victor Mfg. & Gasket Co., Chicago) (gaskets) 0.075; 15. Union Carbide (India) Ltd., Calcutta, West Bengal (chemicals and plastics) 2.16; 16. McNally-Bird Engineering Co. Ltd., Kumardhubi, Bihar (manufacture of coal washeries and allied equipment) 1.0; 17. Harig-Malik Manufacturing Co. Pte. Ltd., Faridabad, Punjab\* (Haring Manufacturing Corporation, Chicago) (tools, dies, gauges, etc.) 0.0285; 18. Precision Bearings India Ltd., Baroda (Norma-Hoffman Bearings Corporation, Stanford, Conn.) (ball and cylindrical bearings) 0.45; 19. Wyman-Gordon Ltd., Bombay, Maharashtra (Wyman-Gordon Co., Worcester) (precision forgings) 0.25; 20. Arbor Acres Farm India Pte. Ltd., Talegaon, Maharashtra (Arbor Acres Farm Inc., Glastonbury, Connecticut) (poultry breeding) 0.25; 21. Mandya Paper Mills, Ltd., Belagula, Mysore (Parsons and Whitemore, New York) (paper mill) 1.5; 22. Kirloskar-Cummins, Ltd., Poona, Maharashtra (Cummins Engine Co., Columbus, Indiana) (engines) 1.25; 23. Napco Bevel Gear of India, Ltd., Faridabad, Punjab\* (Napco Industries Inc., Minneapolis, Minnesota) (gears, joints and allied parts) 0.8; 24. Coromandel Fertilizers, Ltd., Visakhapatnam, Andhra (California Chemical Company, and International Minerals & Chemicals Corporation) (fertilizers) 10.76; 25. Elpro International Ltd., Bombay (General Electric Co., New York) (lightning arresters, X-ray equipment and magnets) 0.4; 26. Frick India, Ltd., New Delhi (Frick Co., Waynesboro, Pennsylvania) (refrigeration equipment) 0.25; 27. Bharat Steel Tubes, Ltd., Ganaur, Punjab\* (Abbey Etna Machine Co., Perrysburg, Ohio) (steel tubes) 0.25; 28. I.A. & I.C. Pte. Ltd., Bombay, Maharashtra (Lapic Inc.) (sulphur grinding) 0.05; 29. Everest Refrigerants, Ltd., Bombay, Maharashtra (Technical Enterprises Inc., New York) (refrigerant gases and aerosol dispensers) 0.6; 30. Borosil Glass Works, Ltd., Andheri, Maharashtra (Corning Glass Works, New York) (glassware) 0.71; 31. Synbiotics Ltd., Ahmedabad, Gujarat (Olin Mathieson International, New York) (antibiotics and fine chemicals) 1.34; 32. Graphite India Ltd., Calcutta, West Bengal (Great Lakes Carbon Corporation, New York) (graphite electrodes, anodes and carbon products) 0.60; 33. Chemicals and Plastics India Ltd., Mettur, Madras (B.F. Goodrich Chemical Co., Cleveland, Ohio) (polyvinyl chloride plastics) 0.326; 34. Indabrat Ltd., Bombay (Wheelabrator Corporation, Mishawaka, Indiana) (air blast and shot blast equipment and dust collectors) 0.143; 35. American Universal Electric (India) Ltd., Faridabad, Punjab\* (Universal Electric Company, Owosso, Michigan) (fractional-horsepower electric motors) 0.21; 36. Shama Forge Co. Ltd., Bhopal, Madhya Pradesh (Kropp Forge Co., Chicago, Illinois) (steel forgings) 0.48; 37. Sylvania & Laxman Ltd., New Delhi (Sylvania International, New York) (fluorescent tubes and Mercury vapour lamps) 0.5; 38. Rockwell India Ltd., Udhna, Gujarat (Rockwell Manufacturing Co., Pittsburgh, Pennsylvania) (power tools) 0.160; 39. Renuagar Power Co. Ltd., Renukoot, Uttar Pradesh (Kaiser Aluminium & Chemical Corporation, Oakland, California) (thermal power station) 4.5; 40. United Carbon India Ltd., Bombay (United Carbon Co., Ashland, Kentucky) (carbon black) 1.41; 41. Herdilia Chemicals Ltd., Thana, Maharashtra (Hercules Power Co. Inc., Wilmington, Delaware) (heavy organic chemicals) 2.65; 42. Semiconductors Ltd., Bombay (Raytheon Co. Inc., Lexington, Massachusetts) (transistors and diodes) 0.135; 43. Raymon Engineering Works Ltd., Calcutta (World Investments Inc., Wichita, Kansas) (spiral welded pipes) 2.14; 44. Indoil Chemicals Ltd., Bombay (Rohm & Haas Co. Inc., Philadelphia) (Fungicides and plasticizers) 0.3; 45. Richardson Hindustan Ltd., Bombay (Richardson Marrell Inc., New York) (pharmaceuticals)

0-625; 46. Tractor Engineers Ltd., Bombay (Caterpillar Overseas Inc., Peoria, Illinois) (spare parts for tractors) 0-6; 47. Corn Products India Private Ltd., Bombay (Corn Products Co., New York) (starch, glucose, dehydrated food) 0-24. Total 58-69.

### THE EXPORT-IMPORT BANK

The bank has authorized 22 loans to India totalling \$401.7 million (Rs. 301.26 crores). The Bank extends loans and guarantees for the primary purpose of promoting the export and import trade of the United States. Loans given by it are repayable in dollars. In determining the rate of interest to be charged on loans, the Bank takes into consideration the maturity of the loans and the extent of credit risk to be assumed by the Bank as affected by such guarantees as may be offered, as well as prevailing United States commercial and government rates. For instance, the First Line of Credit of \$150 million to the Government of India authorized in 1958 carries an interest rate of 5½ per cent. The principal is repayable in 20 semi-annual instalments beginning in January 1964.

Loans in Rs. crores given by the U.S. Export-Import Bank to India. Loans are repayable in dollars: 1. Sundatta Foods and Fibres, Ltd., Bombay 0-05; 2. National Rayon Corp., Kalyan 1-35; 3. First Line of Credit to Government of India 112-50; 4. Hindustan Aluminium Ltd., Renukoot, Uttar Pradesh 10-24; 5. Air India (first loan) 3-06; 6. Second Line of Credit to GOI 37-50; 7. Orient Paper Mills, Ltd., Amlal, M.P. 13-88; 8. Air India (second loan) 5-20; 9. East India Hotels Ltd., New Delhi 0-54; 10. Third line of credit to GOI 18-75; 11. Union Carbide India Ltd., Calcutta 5-74; 12. Hindustan Aluminium Ltd., Renukoot, U.P. 3-75; 13. Varanasi Diesel Locomotive Factory (Indian Railways), U.P. (first loan) 14-25; 14. Bharat Forge Co. Ltd., Poona 2-93; 15. Coromandel Fertilizers, Ltd., Visakhapatnam, Andhra 20-25; 16. Mysore Acetate Chem. Co. Ltd. Mandya, Mysore 1-58; 17. Chemicals Plastics (India) Ltd., Mettur, Madras and Bombay 2-36; 18. Fourth line of Credit to Govt. of India 18-75; 19. Hindustan Aluminium Ltd., Renukoot, U.P. (third loan) 8-25; 20. Central Pulp Mills Ltd., Fort Songhad, Gujarat 5-12; 21. Varanasi Diesel Locomotive factory (Indian Railways), U.P. (second loan) 12-75; 22. Herdilia Chemicals Ltd., Thana, Maharashtra 2-51; Total\* 301-26.

### U. S. ASSISTANCE FOR POWER DEVELOPMENT IN INDIA

India has received substantial assistance from the United States for power development. The U.S. has extended foreign exchange assistance totalling \$510.1 million (Rs. 382.58 crores). In addition Rs. 330.49 crores in rupees derived from the sale of U.S. agricultural commodities supplied to India has been extended in loans and grants for power development.

### INDIAN-AMERICAN TECHNICAL ASSISTANCE

The position is as on June 30, 1966. Figures are in thousands of dollars:

#### Project and Title:—

**Food and Agriculture:**—Acquisition and distribution of Fertilizers 17,310; Acquisition and distribution of Iron and Steel for Agricultural purposes 19,739; Plant Protection and Locust Control 584(a); Soil Fertility and Fertilizer use 1,029; Expansion and Modernization of Marine and Inland Fisheries 2,902; Ground Water Irrigation 18,284; Agricultural Extension 3,030; Ground Water Exploration 4,092; Agricultural Machinery Utilization 208; Agricultural Universities Development 16,935; Foodgrains Storage 1,664; Engineering Services in Water Resources and Power Development 43; Animal Husbandry 976; Agricultural Information, Production and Training 371; Agricultural Economic Research 289; Crop Production 1,567; Farmers' Organization 275; Dairy Development 994; Cooperative Marketing and Warehousing of Agricultural Produce 20; Calcutta Milk

Scheme 518; Cooperative Membership Education 93; Soil and Water Conservation 972; Agricultural Extension 8; River Valley Development 7,187; Water Resources Survey and Minor Irrigation Works 477; Forest Research 356; Provision of Engineering Services to the Damodar Valley Corporation 95; Augmenting Fertilizer Supply 3,800; Production, Processing and Marketing of Citrus Fruit 17; Assistance to Ministry of Food and Agriculture 33; Fertilizer 7,862; Fertilizer 5,262(b); Agriculture Programme Direction & Development 162; Agricultural Production Incentives 17; Agricultural Production Promotion 50; Agricultural Inputs Development 55; Total Agriculture and Natural Resources 117,274.

**Industry and Mining:** Forest Research 189; Construction Equipment Operators 489; Rihand Valley Development 6,009; Assistance to Industrial Research & Technical Services Organization 3,012; Hot Lines Maintenance 394; Water and Power Development 1,076; National Productivity Council 3,379; Delhi Thermal Plant 3,981; Geological Survey of India 537; Oil and Gas Commission 106; Assistance to Lime Industry 1; Assistance to Coal Industry 149; Assistance to C.S.I.R. 19; Steel Training 1,207; Assistance to Phosphorous Industry 13; Orissa Iron Ore 18,348; River Valley Development 730; Mineral Development 1,149; Building Material Development 34; Exploratory Lignite Excavation & Development 606; Augmenting Steel Supply 41,054; Improvement of Rajasthan Power Facilities 1,046; Survey of the Expansion of the Sindri Fertilizer Plant 17; Provision of Industrial Technical Services 2,056; Mineral Survey Development 103; Flood Control 315(c); Industrial Programme Adviser 154; Technical Assistance to Irrigation Research Institute 92; Steel Casting Foundry 1; Steel Standards 142; Tele-Communication Development 47; Marketing Conference & Study Tour 5; Machine Tool Industry Development 18; Natural Resources Programme Development 10; Steel Industry 17; Bokaro Steel Plant 686; Non-Metallic Minerals and Productions 47; Tubewell Casing 1,954; Cement Manufacturing Equipment 6,231; Rural Electrification 2,945; Power Generation and Distribution 175; Construction Equipment Training and Utilization 577; Total 99,120.

**Transportation:** Aviation Ground Facilities 2,875; Highways and Bridges 52; Indian Airlines 3; Railway Rehabilitation and Development 74,501; Highway Transportation 27; Total 77,458.

**Labour:** Trade Union Development 113; Labour Ministry Training 346; Bombay Central Training Institute for Craftsmen & Instructors 1,303; Industrial Safety 29; Establishment of a Central Labour Institute 83; Construction Equipment Operators 425; Study of the Effects of Thermal Environment Conditions 63; Trades Training 661; Foreman Training 37; Labour Programme Development 47; Total 3,107.

**Health and Sanitation:** Water Supply and Sanitation 6,450; Medical Educator Training 1,776; Nursing College Development 1,235;

Public Health Education 388; Official Health Agencies 177; Insect-Borne Disease Control 181; Malaria Eradication 62,542; Malaria Control 27,690; Health Instruction Training Centres 27; Assistance to Medical College & Allied Institutions 1,056; Control of Filariasis 2,425; Venereal Disease Control 6; Health Programme Development 81; Sc. Equipment Repair Training 12; Communicable Disease Control 185; Total 104,181.

**Education:** Technical Education Institutes 4,514; Home Science Education & Research 1,045; Multipurpose Secondary Education 3,571; Rural Institute 222; National Institute of Basic Education 29; National Professional Education Centre 391; Indian Institute of Technology, Kanpur 10,580; Teachers Training in Engineering Education 2,250; National Institute of Education 2,152; Assistance to Teachers Training in Audio-Visual Education 160; Educational Adviser 58; Foundry Training 171; Educational Programme Direction and Development 189; Assistance to Educational Administration 60; School Building Improvement 62; Assistance to Training in Adult Education 51; Assistance to Central Institute of Education 14; Delhi Regional Secondary School 777; Higher Education (Summer Science Institutes) 2,657; Social Welfare Education 583; Total 29,536.

**Public Administration:** Indian Statistical Institute 128; Government Operations 620; Procurement of Consultation Services 2; Economic Planning 37; Improved Operating Statistics and Reports 22; Training in Public Administration 55; Public Services Programme Development 42; Invest. Promotion & Study Tour 9; Top Management Control of Economic Enterprises 995; Total 1,910.

**Community Development, Social Welfare and Housing:** Community Development Programme 13,509; Building Material Development 165; Demonstration of Improved Methods of Low Cost Housing Construction 47; Total 13,721.

**General and Miscellaneous:** Nuclear Engineering 1,016; Small Industries Development 807; Nuclear Research 662; Life Insurance Corporation 3; Banking and Investment 74; Mass Communication Training 272; Procurement of Consultation Services 11; Procurement Services 160; Participant Training 34; Indian Investment Centre 557; Electrical Apparatus and Clay Products 575(b); Total 4,171.

Wheat 52,172.

Cotton 15,490.

Technicians, Programme Direction and Technical Support Activity 26,393(d).

Grand Total 534,644.

(a) Includes \$28,500 from Regional Allotment.

(b) Triangular Trade Activities.

(c) Includes U.S. FY 1955 Allotment of \$109,000 for Flood Control.

(d) Tech. Support activity \$16,886, and Cost Element not distributed by Projects \$9,507.

### U. S. TECHNICIANS

U.S. Technicians assigned to India by field of activity as of June 30, 1966 are given in the table below:

U.S. Fiscal Year ending June 30.

| Field of Activity                                       | 1952/57    | 1958       | 1959       | 1960       | 1961       | 1962       | 1963       | 1964       | 1965       | 1966       |
|---------------------------------------------------------|------------|------------|------------|------------|------------|------------|------------|------------|------------|------------|

| <b>TOTAL Since 1951 .. .. .</b>                           | <b>1,138</b> | <b>646</b> | <b>701</b> | <b>471</b> | <b>437</b> | <b>343</b> | <b>336</b> | <b>293</b> | <b>245</b> | <b>4,616</b> |
| Under Contract Arrangements ..                            | (265)        | (95)       | (70)       | (109)      | (201)      | (76)       | (82)       | (56)       | (68)       |              |

Of the total, 4,195 have returned to India and are now working in their particular fields, 201 are in training in the United States and 220 are preparing to depart.

## CEMENT INDUSTRY

THE cement industry in India occupies a position of basic and strategic importance in the economy.

The following figures show that *per capita* consumption of cement in India is far lower than that in some countries.

*Per capita* consumption (kg.): Switzerland 386; U.S.A. 272; Japan 226; U.K. 206; Italy 191; India 18.

During the First Plan period, production of cement increased from 2.69 million tonnes to 4.60 million tonnes. During the Second Plan period, it rose from 4.60 million tonnes to about 7.8 million tonnes and by the end of the Third Plan it was expected to be over 10 million tonnes. The capacity and the production by the end of the Third Plan were expected to lag behind the targets by 3.5 million tonnes and 2.0 million tonnes respectively. The Fourth Plan target in cement is 25 million tonnes. The present installed capacity is 12 million tonnes and production is over 10 million tonnes. The current demand is estimated to be about 13.0 million tonnes as against an output of 10.5 million tonnes. There is, therefore, a shortfall of 2.5 million tonnes.

The trend of capacity and actual production in the past five years is indicated below.

(in Thousand metric tons)

|               | 1961  | 1962  | 1963   | 1964   | 1965   |
|---------------|-------|-------|--------|--------|--------|
| Capacity      | 9,474 | 9,728 | 10,285 | 10,768 | 11,340 |
| Production .. | 8,245 | 8,586 | 9,355  | 9,690  | 10,578 |

**Slag cement** :—The initial growth of the cement industry in India was helped by the plentiful supply of raw materials. The principal raw materials required for the manufacture of portland cement are limestone, clay, gypsum and coal. Coal is used both as fuel and as raw material. As the reserve of good quality limestone is rather limited in the country and as the demands of other industries have increased in recent times attempts have been made to utilize new kinds of raw materials such as blast-furnace slag and pozzolanic materials. Blast-furnace slag available from the iron and steel plants has, however, to be suitably granulated according to actual requirements. It has been estimated that the foreign exchange needed for slag cement plant and machinery is less than that for portland cement equipment.

## DIFFERENT TYPES OF CEMENT

(1) **Ordinary Portland Cement** : Conforms to IS-269-1958 for ordinary portland cement.

(2) **Low Heat Portland Cement** : Conforms to IS 269-1958 for low heat cement.

(3) **Rapid Hardening Portland Cement** : This is specially useful for meeting the demands for speed in modern construction. It has the property of rapidly developing a high strength at any early stage, resulting in considerable reduction of construction period. Manufacturers of this type are the Sone Valley Portland Cement Co. and A.C.C.

(4) **White Cement** : Widely used for tiles, terrazzo, artistic decorations and for extension and interior finishes in all types of buildings, this cement is as good as any portland cement and has the same toughness to withstand weathering and wearing. Being pure white this cement can be coloured to any desirable shade by mixing it with pigments. Manufacturers are A.C.C. (at Porbander and Kymore) and Travancore Cements at Kottayam.

(5) **Oilwell Cement** : Oilwells are drilled to a depth of 1,000 to 5,000 metres or more. The ambient temperatures at such great depths are very high and ordinary cement grout (when used to cement the sides of the wells) will harden before it is pumped to those depths. Oilwell cement grout remains fluid for enough time under such conditions to allow placement. Once it is placed it develops full strength in a very short time and remains stable. The Shahabad factory of the ACC manufactures this type of cement.

(6) **Hydrophobic Cement** :—This type has an aversion for water and it can, therefore, be stored for comparatively long periods under humid conditions. It can also be transported, even when it is raining, without being spoiled. The protective water repellent coating is destroyed by the abrasion of the sand and aggregates when the cement is mixed with these in the presence of water. This type is now manufactured at Shahabad and Khalari factories of the A.C.C.

(7) **Pozzolana Portland Cement** : This type of cement has not so far been manufactured on a commercial scale in India. Messrs. Saurashtra Cement and Chemical Industries Ltd. have recently been licensed by the Government to manufacture this type to a rated capacity of 1.20 lakh tonnes per annum.

The controls on the distribution of asbestos cement sheet had been lifted with effect from June 1, 1966. The Central government has decided to implement on a "most urgent" basis the heavy vessel and plates project. The unit would be located at Visakhapatnam. The project would have a capacity of about 2.30 lakh tonnes per year, and will be implemented with Czech collaboration.

The production of asbestos cement sheets and pipes has doubled during the past four years. The annual production is of the order of 4.50 lakh tonnes and is to be increased to 7.50 lakh tonnes during the Fourth Plan. Actual production of these products during 1961, 1962, 1963, 1964 and 1965 were placed at 213.6, 234.0, 308.4, 316.0 and 420.8 million tonnes respectively.

The Union Government has set up a State-owned public limited company called the Cement Corporation of India with a view to bolstering up the development of the cement industry.

(For details see under "All India Corporations.")

There are already two State Governments viz., U.P. and Mysore who are in the field of cement manufacture. Large quantities of blast-furnace slag are lying unutilised in the steel plants in the public sector. About six to seven lakh tons of slag are produced per million tons of ingot steel and the expansion of public sector steel production from six million tons in 1966 to 13 million tons by 1971 is going to mean a very sizable slag by-product.

## DECONTROL &amp; PRICE

The most serious limiting factor for growth of the cement industry in the past has been the paucity of investment resources—internal and external. Low profitability of this industry, not only reduced the quantum of reinvestible surplus but also reduced the level of dividends, thus discouraging fresh inflow of capital. The decision of the government to decontrol the industry both in respect of price and distribution with effect from January 1, 1966 opens a new chapter in the history of the government policy to this industry. According to this, the industry will have its own agency for distribution. STC will be out of the picture. The Government's cement requirement will be reserved and there will be two sets of prices—one for the public sector and the other for private sector consumers.

The government granted an increase of Rs. 16 per tonne in the price to be charged to the public

and Rs. 10 per tonne in the price to be paid by the government. The f.o.r. destination price of cement for public was increased to Rs. 172.62 per tonne for April 1, 1966 as against Rs. 171.12 per tonne. The revision was necessitated by a revision in packing charges of cement and the railway freight increase under the railway budget in 1966-67.

### CACO

In the place of STC, the Cement manufacturers have set up a new organisation called "Cement Allocation And Co-ordinating Organisation" at Bombay with four regional offices at Bombay, Calcutta, Delhi and Madras. This organisation is now looking after the entire distribution of cement throughout the country and will meet the government demands as well as the public. The President and Vice-president of this organisation are Mr. G. D. Somani and Mr. Jitendra Kumar R. Birla respectively.

The government's requirements as at present of nearly 50 per cent of production will be supplied to the government departments—Central and State and about 10 per cent will be required for industries on the list of the development wing of the Ministry of Industry who are getting their allocation from the Ministry. Another ten

per cent will be earmarked for municipalities, housing boards, co-operative societies etc. The remaining balance of 30 per cent will be distributed to agriculturists, minor house repairs and new house constructions by the stockists directly.

Further under the agreement, the cement manufacturers have agreed that higher amounts available to them by price increase will not be utilised for increasing dividends for a period of one year, after which date, the matter will be reviewed. The additional resources are to be utilised mainly for expanding the capacity for production of cement.

### EXPANSION

The Third Plan contained large scale programmes for these projects which means that the demand for cement would rise markedly in the coming years. The aggregate requirements in the last year of the Third Plan, that is, 1965-66, were expected to be of the order of 13.50 million tons. The capacity target to be achieved by 1965-66 was 15.00 million tons.

The total new capacity expected to be commissioned during 1966-67 in the public and private sectors is 20.5 lakh tonnes through

installation of additional plants, two in public and eight in private sectors. The places where the new units or substantial expansions are being provided are Bargarh (Orissa) and Cherrapunji (Assam) both in the public sector, and Jamul, Porbander, Kymore, Madukkarai, Chittorgarh, Karur, Sikka, and Banjari all in the private sector. The Industrial Development Corporation of Orissa Ltd. is putting up a cement factory at Bargarh with an annual capacity of 3.96 lakh tonnes. Most of the plant and machinery have already been received and they are now being erected. The Rs. 260-lakh Assam Cement Factory at Cherrapunji in the United Khasi and Jaintia hills district will go into stream shortly. This factory was set with Yugoslav collaboration and will produce 250 tonnes of cement per day in the first stage. This is the first cement factory in the Assam State so far. A bigger one is being planned under the public sector in the United Mikir and North Cachar Hills district. The ACC of Bombay has taken upon itself the responsibility of setting up nearly 50 per cent of additional capacity for cement during the Fourth Plan period.

In 1965-66 India imported cement products worth Rs. 20.97 lakhs against Rs. 12.40 lakhs in 1964-65.

## HIDES, SKINS AND LEATHER

Indian hides and skins occupy a unique position in the international leather market. In the export trade of leather, India's share is larger than that of any other country in the world. This may be ascribed to the fact that India has a comparatively more developed tanning industry than other countries. It is estimated that India possesses about 82 millions of goats and 40.2 millions of sheep. India produces about 25 million pieces of raw hides. India produces about 41

million pieces of raw goat skins and 20.0 million pieces of raw sheep skins.

The bulk of the production is carried on in small towns and villages.

The tanning industry comprises four sections, viz., 1. organised tanneries producing finished vegetable tanned buffalo leather and chrome tanned upper leather; 2. tanneries producing vegetable tanned leather known to the trade as

E. I. kips and E. I. tanned skins; 3. small-scale chrome tanneries producing chrome tanned upper leather; and 4. village tanneries producing vegetable tanned cow and buffalo leather and vegetable tanned leather from goat and sheep skins.

There are altogether 50 units producing hides, skins and leather—chrome tanned hides (12), vegetable tanned buffalo and cow hides (32) and leather cloth (6).

The annual installed capacity and production of each of these items is as follows:

| Year       | Chrome Tanned Hides  |            | Vegetable Tanned Buffalo and Cow Hides |            | Leather Cloth             |            |
|------------|----------------------|------------|----------------------------------------|------------|---------------------------|------------|
|            | Capacity (Thousands) | Production | Capacity (Thousands)                   | Production | Capacity (Thousand yards) | Production |
| 1958 .. .. | 1,580.4              | 678.0      | 3,856.8                                | 2,067.6    | 8,700.0                   | 4,243.2    |
| 1959 .. .. | 1,580.4              | 650.4      | 4,422.0                                | 2,467.2    | 8,700.0                   | 5,420.4    |
| 1960 .. .. | 1,550.4              | 794.4      | 4,422.0                                | 2,691.6    | 8,262.0*                  | 5,846.4*   |
| 1961 .. .. | 1,550.4              | 786.0      | 4,422.0                                | 2,704.8    | 8,262.0*                  | 7,010.4*   |
| 1962 .. .. | 1,550.4              | 812.4      | 4,422.0                                | 3,015.6    | 8,262.0*                  | 6,658.8*   |
| 1963 .. .. | 1,580.4              | 1,086.0    | 4,678.8                                | 3,345.6    | 8,262.0*                  | 6,895.2*   |
| 1964 .. .. | 1,580.4              | 915.8      | 4,678.8                                | 3,344.4    | 8,262.0*                  | 8,990.4*   |
| 1965 .. .. | 1,580.4              | 868.6      | 4,678.8                                | 3,433.8    | 9,551.0*                  | 9,133.2*   |

\* Thousand Metres.

According to the Annual Survey of Industries 1962, the total productive capital in tanneries and leather finishing plants was about Rs. 4

crores and total employment came to 8,148. The gross ex-factory value of output was Rs. 14.12 crores.

The trend of the value of imports and export of hides and skins, furskins dressed and undressed and leather since 1960 is given below:

(Rs. lakhs)

|                         | Hides and skins (except furskins) undressed |         | Furskins undressed |         | Furs dressed or tanned and dyed |         | Leather |          | Manufactures of leather |         |
|-------------------------|---------------------------------------------|---------|--------------------|---------|---------------------------------|---------|---------|----------|-------------------------|---------|
|                         | Imports                                     | Exports | Imports            | Exports | Imports                         | Exports | Imports | Exports  | Imports                 | Exports |
| 1960 .. ..              | 255.8                                       | 1,013.3 | 2.4                | 52.4    | —                               | —       | 3.7     | 2,563.4  | 26.2                    | 13.3    |
| 1961 .. ..              | 218.7                                       | 808.5   | 0.2                | 48.3    | —                               | —       | 8.4     | 2,597.1  | 19.7                    | 11.9    |
| 1962 .. ..              | 248.3                                       | 1,003.2 | 0.8                | 35.9    | —                               | —       | 4.1     | 2,259.7  | 2.0                     | 15.3    |
| 1962-63 ..              | 276.3                                       | 1,094.4 | 0.7                | 16.8    | —                               | —       | 5.4     | 2,257.8  | 5.1                     | 17.4    |
| 1963-64 (April to Dec.) | 250.8                                       | 744.3   | 0.7                | 35.8    | —                               | —       | 2.4     | 1,947.8  | 0.8                     | 13.8    |
| 1964-65 ..              | 312.3                                       | 907.2   | 1.4                | 6.4     | —                               | —       | 5.5     | 2,723.0  | 1.9                     | 18.9    |
| 1965-66 ..              | 235.5                                       | 865.1*  | 1.8                | 26.5*   | 0.8                             | 1.0*    | 4.3     | 2,530.3* | 1.5                     | 20.9*   |

\* April to Feb.

The main problems about raw material relate to the supply of hides and skins and wattle bark. Supplies of hides have to be arranged from Pakistan. The indigenously available *Karada* bark is stated to be a potential substitute for wattle bark.

For the development of indigenous tanning industry and for increasing exports of tanned skins, the Government of India decided from June 15, 1959, to regulate export of raw goat skins on quota basis through established shippers.

India imports about 15,000 tons of wattle extract and bark per year. By the end of the Second Plan the total area under wattle cultivation had reached about 27,000 acres. During the Third Plan period more area had been extended under wattle plantations in the States of Madras, Kerala and Assam.

It is estimated that in the year 1966 of the Third Plan, the additional requirements of tanned hides and skins in the country will be 2.5 million pieces and 1.9 million pieces respectively, the demand in 1965-66 estimated at about 22 million hides and 30 million skins. To achieve this the industry will require following quantities of principal raw materials.

Raw hides 22 million pieces; Raw skins 30 million pieces; Lime 30,000—35,000 tons; Wattle bark and Wattle extract 35,000 tons; Other barks 35,000 tons; Myrobalans 30,000—35,000 tons.

A number of schemes had been launched by the Centre and States for the development of the tanning and leather industries during the Second Five-Year Plan and in the Third Five-Year Plan. Some more centres have been opened for hide flaying, curing, and carcass utilisation. Some of these provided for setting up production-cum-training centres, re-tanning and finishing centres, organization of Co-operative societies of tanners and leather workers. A beginning has been made by the Co-operative Mutual Insurance Company, Bombay, to insure milch animals and draught cattle in the States of Maharashtra and Gujarat. A Development Council for Leather, Leather Goods and Pickers industries was constituted in January 1960.

### FOOTWEAR INDUSTRY

The larger units manufacturing leather and leather goods employ about 10,000 persons and the total investment is more than Rs. 10 crores. The small-scale industry employs about 7,63,000 persons.

The principal use of leather is for the production of footwear. The leading towns manu-

facturing footwear are Agra, Kanpur, Bombay and Calcutta.

At the end of the Second Five Year Plan period, there were 12 units with an annual capacity of seven million pairs of Western type of footwear.

The Statewise distribution of these units and their annual installed capacity is indicated below :

| State                | Number of units | Annual capacity ('000 pairs) |
|----------------------|-----------------|------------------------------|
| Uttar Pradesh .. ..  | 5               | 2,127                        |
| West Bengal .. ..    | 1               | 4,524                        |
| Bihar .. ..          | 1               | •                            |
| Maharashtra .. ..    | 1               | 300                          |
| Madhya Pradesh .. .. | 1               | 36                           |
| Madras .. ..         | 1               | 15                           |
| Punjab .. ..         | 1               | 8.4                          |
| Mysore .. ..         | 1               | 1.2                          |
| <b>TOTAL .. ..</b>   | <b>12</b>       | <b>7,011.6</b>               |

The capacity for the Indian type of footwear which are hand-made fluctuates with demand and data are not available for Statewise figures.

The output by the large-scale factories of all types of footwear made of leather since 1961 is shown as follows :

|            | Western type (Million pairs) | Indigenous type (Million pairs) |
|------------|------------------------------|---------------------------------|
| 1961 .. .. | 6.22                         | 4.41                            |
| 1962 .. .. | 6.51                         | 5.29                            |
| 1963 .. .. | 8.29                         | 5.19                            |
| 1964 .. .. | 7.88                         | 6.15                            |
| 1965 .. .. | 9.04                         | 6.91                            |

Reliable production statistics for small and cottage units which are responsible for manufacturing over 90 per cent of the total output are not available.

In view of the increased production and requirements, it was estimated, that, by 1965-66, more than 150 million pairs of footwear would be required.

Our import of leather footwear is insignificant. Our exports on the other hand are sizable as is shown below :

|              | Quantity ('000 pairs) | Value (Rs. lakhs) |
|--------------|-----------------------|-------------------|
| 1960 .. ..   | 1,447                 | 217               |
| 1961 .. ..   | 1,090                 | 150               |
| 1962 .. ..   | 1,738                 | 168               |
| 1963-64.. .. | 3,935                 | 264               |
| 1964-65.. .. | 1,780                 | 205               |

In 1964-65 India exported leather footwear valued at Rs. 2.1 crores. The total export including all kinds i.e. rubber, leather and of textile material amounted to Rs. 4.3 crores, during 1964-65. The export of all kinds of footwear during 1965-66 (April—Feb.) amounted to Rs. 4.29 crores.

Although the budget of 1965-66 removed an excise duty of 10 per cent *ad valorem* on the footwear industry, the imposition of a 10 per cent duty on hides and skins industry will affect both industries, in its exports.

### ESTIMATED REQUIREMENTS

In view of the fact that the leather footwear industry can be organised on a labour intensive basis and a substantial expansion in employment opportunities, an all time target has been set for the Fourth Plan. The production of footwear in 1960-61 was of the order of 102.0 million pairs. That in 1965-66 was expected to exceed 150.0 million pairs. In view of this growth, the production target for leather footwear for the Fourth Plan has been tentatively fixed at 200 million pairs including, between 10 to 12 million pairs for export, which means an increase of 43 per cent over the Third Plan target of 140 million pairs, which can be readily seen from the following table showing the target that was set for the Third Plan :

|                                            | Production 1960-61 | 1965-66 |
|--------------------------------------------|--------------------|---------|
| Tanned hides and skins (million pieces) .. | 47.6               | 52.0    |
| Leather footwear (million pairs) .. ..     | 102.0              | 140.0   |

\*Although equipped to manufacture Western type footwear, this factory is at present manufacturing Indian type only.

## MISCELLANEOUS INDUSTRIES

**Diesel Engines :** At the end of the Second Plan there were 23 units engaged in the manufacture of diesel engines with a licensed capacity of 47,680 engines per annum. Towards the end of 1965 there were 29 units in production of

stationary type of diesel engines and 2 units for vehicular types. The position of diesel engine manufacturing industry from 1962 onwards is shown below :

| Year       | Diesel Engines (Vehicular Types) |            | Diesel Engines (Stationary Types) |            |
|------------|----------------------------------|------------|-----------------------------------|------------|
|            | Installed capacity               | Production | Installed capacity                | Production |
| 1962 .. .. | 9,000                            | 8,364      | 41,292                            | 42,648     |
| 1963 .. .. | 9,000                            | 8,832      | 43,692                            | 55,692     |
| 1964 .. .. | 9,000                            | 8,208      | 70,164                            | 69,172     |
| 1965 .. .. | 9,000                            | 8,821      | 70,230                            | 82,242     |

Estimated capacity and production of diesel engines.

| Year          | Capacity | Production |
|---------------|----------|------------|
| 1960-61 .. .. | 48       | 43         |
| 1965-66 .. .. | 72       | 66         |
| 1970-71 .. .. | 140      | 110        |
| 1975-76 .. .. | 150      | 140        |

Against the Third Plan target of 72,000 engines in capacity and 66,000 engines in production by 1965-66, the actual capacity and production in 1965-66 stood at 1,00,000 and 85,000 respectively, thus exceeding the targets of capacity and production by 38.8 per cent and 28.8 per cent respectively. The Fourth Plan targets are placed at an annual capacity of 2,00,000 and an equal production.

The exports of all types of diesel engines amounted Rs. 114.5 lakhs in 1965-66, compared to Rs. 111.0 lakhs in 1964-65 and Rs. 59 lakhs in 1963-64.

**Machine Tools:** The number of units licensed for the manufacture of machine tools in the country at the beginning of August, 1966 were 65. The target for the Machine Tool Industry at the end of the Third Plan (1965-66) was set at Rs. 30 crores. The actual output of the industry is estimated at only Rs. 25.1 crores. The Ministry of Industry places the estimated figure of the total requirements of machine tools

during the Fourth Plan period at Rs. 449 crores. In order to meet an estimated demand of Rs. 120 crores in 1970-71 the Fourth Plan capacity target is proposed to be fixed at Rs. 131 crores for 1970-71 which is expected to yield an actual output of about Rs. 119 crores. The average annual growth rate during the Third Plan period is estimated to be not greater than 7 per cent against the target of 11 per cent.

In spite of the increase in indigenous production the imports of machine tools show an up trend which is evident from the table below:

#### Production and Imports of Machine Tools

| Year            | Value of imports<br>Rs. crores | Indigenous production of<br>graded machine tools |                     | Percentage of<br>indigenous<br>production to<br>imports |
|-----------------|--------------------------------|--------------------------------------------------|---------------------|---------------------------------------------------------|
|                 |                                | No.                                              | Value<br>Rs. crores |                                                         |
| 1960            | 20.94                          | 5,980                                            | 5.86                | 28.0                                                    |
| 1961            | 24.22                          | 6,785                                            | 7.33                | 30.3                                                    |
| 1962            | 26.05                          | 8,768                                            | 10.40               | 39.9                                                    |
| 1963            | 31.51                          | 11,640                                           | 15.37               | 48.8                                                    |
| 1964            | 46.55                          | N.A.                                             | 23.34               | 50.1                                                    |
| 1965 (1st half) | 22.14                          | N.A.                                             | 14.16               | 64.0                                                    |

India has made a good start in exporting machine tools. In 11 months of 1965 India exported hand machine tools valued at \$128,000. The annual export value in Rs. lakhs of Indian machine tools has been as follows in the recent past: 1962: 10.65; 1963: 9.90; 1964: 12.30.

In this industry public sector plays a prominent role. About 50 per cent of the output of machine tools in India comes from the State-owned Hindustan Machine Tools.

**Bicycles:** In 1960-61 India had a capacity to manufacture 11,20,000 bicycles per year and the production during this period was 10,50,000 bicycles. The Third Plan aimed at achieving a capacity of 22,00,000 bicycles per year during 1965-66 and a production of 16,00,000 bicycles. The Fourth Plan envisages an annual capacity of

35,00,000 bicycles by the end of 1970-71 and an annual production of 33,00,000 bicycles.

In December 1965 there were 20 units in the organised sector to manufacture complete bicycles.

The installed capacity and production during the last five years are given below:

|      |                       |            | (Numbers) |  |
|------|-----------------------|------------|-----------|--|
| Year | Installed<br>capacity | Production |           |  |
| 1961 | 12,17,496             | 10,48,944  |           |  |
| 1962 | 14,43,996             | 11,14,916  |           |  |
| 1963 | 14,43,996             | 11,84,364  |           |  |
| 1964 | 16,78,992             | 14,07,624  |           |  |
| 1965 | 16,78,992             | 15,23,419  |           |  |

#### PRODUCTION DATA

|      |    |    |    |    |    |    |    |    |    | (Numbers)                                    |            |                               |            |                                        |            |
|------|----|----|----|----|----|----|----|----|----|----------------------------------------------|------------|-------------------------------|------------|----------------------------------------|------------|
| Year |    |    |    |    |    |    |    |    |    | Looms (Calico, semi-automatic and automatic) |            | Complete Ring Spinning Frames |            | Carding Engines (Revolving flat cards) |            |
|      |    |    |    |    |    |    |    |    |    | Capacity                                     | Production | Capacity                      | Production | Capacity                               | Production |
| 1961 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 10,560                                       | 7,596      | 2,040                         | 1,404      | 2,640                                  | 1,320      |
| 1962 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 10,560                                       | 5,856      | 2,040                         | 1,572      | 2,400                                  | 1,500      |
| 1963 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 10,560                                       | 4,372      | 2,040                         | 1,980      | 2,400                                  | 1,596      |
| 1964 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 13,224                                       | 4,272      | 3,756                         | 2,136      | 3,756                                  | 1,944      |
| 1965 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 11,752                                       | 3,176      | 2,545                         | 2,290      | 1,695                                  | 1,808      |

The number of units in December 1965 producing these varieties were as follows:

(1) Looms: 16 units; (2) Complete Ring Spinning Frames: 9 units; and (3) Carding engines: 5 Units.

Indigenous production of high speed carding engines and super high speed drawing frames was expected to commence during 1966.

**Sewing Machines:** At the end of 1965 there were eight units manufacturing sewing machines with an annual capacity of 441,996 machines. Production in 1965 amounted to 425,032 machines compared with 255,324 in 1964, an increase in production of 66 per cent over 1964.

#### Production and Capacity of Sewing Machine Industry, 1961-65

| Year  | Capacity | Production |
|-------|----------|------------|
| 1961* | 1,33,704 | 3,07,404   |
| 1962  | 3,36,996 | 3,42,972   |
| 1963  | 3,82,792 | 3,45,900   |
| 1964  | 4,44,996 | 2,55,324   |
| 1965  | 4,41,996 | 4,25,032   |

\* The actual production for 1961 was much in

excess of the installed capacity because, while the installed capacity was calculated for a single shift working, one of the units was working more than one shift.

#### Estimated Capacity and Production

|         |          |            | ('000 Nos.) |  |
|---------|----------|------------|-------------|--|
| Year    | Capacity | Production |             |  |
| 1960-61 | 267      | 297        |             |  |
| 1965-66 | 600      | 600        |             |  |
| 1970-71 | 1,200    | 1,100      |             |  |
| 1975-76 | 2,000    | 1,800      |             |  |

The industry can practically meet all internal requirements. It is one industry where all the components are indigenously produced.

A standing Liaison Committee has been formed by the Development Council for the bicycle industry to assist export promotion.

Provision has been made to enable manufacturers of bicycles to obtain a 133 per cent replacement quota of iron and steel used in producing the bicycles exported.

Indian cycles have been successfully introduced, on a commercial scale in some foreign countries.

The value of bicycles exported during the last four years has been given below:

| Year                     | 1962-63 | 1963-64 | 1964-65 | 1965-66 |
|--------------------------|---------|---------|---------|---------|
| Value in lakhs of rupees | 10.2    | 51.2    | 30.9    | 43.1    |

The principal importing countries were Kenya, Morocco, Nigeria, Tanzania, Afghanistan, Iran, Malaysia and Iraq.

Apart from bicycles, an overseas market on a small-scale has also been built up for Indian tricycles.

An "Export Pool Scheme" has been introduced to facilitate sales abroad at a price lower than the domestic price. The Scheme is being operated by the Cycle Manufacturers' Association of India.

**Textile Machinery:** At present the industry has a capacity to manufacture machinery worth Rs. 40.0 crores per annum against the Third Plan target of Rs. 22.0 crores in 1965-66. The actual production figure of Rs. 28.0 crores also stands higher than the target. The increase in production in 1965-66 over that in 1960-61 works out at 169.2 per cent. The target of Fourth Plan is to achieve a capacity of Rs. 60.0 crores, thus aiming at raising the present production level by 96.4 per cent.

During 1965-66 the industry exported machines worth Rs. 22.4 lakhs besides machinery parts worth Rs. 6.2 lakhs. The corresponding figures for 1964-65 were Rs. 36.16 lakhs and 5.32 lakhs respectively.

The countries to which Indian sewing machines were exported include British Guiana, Afghanistan, Thailand, Ceylon, Malaysia, Singapore, U.S.A., U.K., Germany, France, Kenya, Jordan, Madagascar, Tanzania, Sudan, Pakistan, Uganda, Iraq, Sierra Leone, Rhodesia, Saudi Arabia, Zanzibar, Mauritius, Burma, Nepal and Viet Nam.

**Electric Fans:** From a modest beginning in 1930 the fan industry made rapid progress in the decade after the war. The production in 1965 was 54.2 per cent higher than that in 1958.

## PRODUCTION OF ELECTRIC FANS IN INDIA

| Year         | 1958 | 1959 | 1960 | 1961  | 1962    | 1963    | 1964    | 1965  |
|--------------|------|------|------|-------|---------|---------|---------|-------|
| Nos. ('000s) | 636  | 726  | 999  | 1,074 | 1,141.2 | 1,143.6 | 1,142.4 | 1,390 |

There are 28 units in this industry which employ over 8,000 workers and produces goods worth about Rs. 17 crores. The exports went up from Rs. 25 lakhs in 1958 to Rs. 114 lakhs in 1965, recording a rise of 356 per cent.

## EXPORT OF ELECTRIC FANS FROM INDIA

| Year                 | 1958 | 1959 | 1960 | 1961 | 1962 | 1963 | 1964 | 1965 |
|----------------------|------|------|------|------|------|------|------|------|
| Value (Rs. in lakhs) | 25   | 38   | 85   | 78   | 81   | 89   | 68   | 114  |

Today the fan industry has a capacity to exceed the Third Plan target of 2.5 million fans per annum. The industry has now introduced several new manufacturing techniques; super-synthetic winding wires have replaced silk and cotton covered wires, reducing the slot area and the overall size of the fans.

By 1970-71, it is expected that the industry will have a capacity to produce 35 lakh fans

per year.

**Electric Motors:** At the end of the Second Five Year Plan there were 27 units engaged in the manufacture of electric motors with an annual capacity of 11,29,040 h.p. The Third Plan proposed to raise the capacity to 3.0 million h.p. on double shift basis, in order to achieve the production level of 2.5 million h.p. by 1965-66.

## Estimates of Production and Capacity

(in thousand kW)

|            | Below 150 kW |            | Above 150 kW |            |
|------------|--------------|------------|--------------|------------|
|            | Capacity     | Production | Capacity     | Production |
| 1960-61 .. | 840          | 540        | —            | —          |
| 1965-66 .. | 2,240        | 1,865      | 250          | 200        |
| 1970-71 .. | 3,000        | 6,000      | 2,000        | 1,500      |
| 1975-76 .. | 12,000       | 10,000     | 3,000        | 2,500      |

In the public sector, two heavy electrical projects have been undertaken, one in Hyderabad with Czechoslovak collaboration and the other in Uttar Pradesh with Russian collaboration. These projects are intended to manufacture A.C. industrial motors of 200 h.p. and above.

Both the capacity and production of electric motors have for obvious reasons showed a marked increase.

| Year               | Capacity h.p. | Production h.p. |
|--------------------|---------------|-----------------|
| 1961 ..            | 6,02,400      | 8,29,200        |
| 1962 ..            | 11,36,400     | 9,86,400        |
| 1963 ..            | 11,36,400     | 11,82,000       |
| 1964 ..            | 11,36,400     | 13,17,600       |
| 1965 (Jan.-May) .. | 5,63,500      | 6,86,300        |

**Electric Cables and Wires:** The electric cable and wire industry made a rapid progress during the Plan period. The general index and the index for electric cable and wire with 1956 as base were respectively 73.5 and 31.4 in 1961. While the former index rose only to 174.7, the latter one rose to 320.5 in 1964.

The country is more or less self-reliant in most types of electric wires. The following table gives the no. of units, installed capacity and production of some major items in 1964 and 1965.

| Item                                             | Accounting unit | 1964         |                    |                   | 1965         |                    |                      | Percentage of estimated production to capacity in 1965 |
|--------------------------------------------------|-----------------|--------------|--------------------|-------------------|--------------|--------------------|----------------------|--------------------------------------------------------|
|                                                  |                 | No. of units | Installed capacity | Actual production | No. of units | Installed capacity | Estimated production |                                                        |
| (1) Cables and Wires (VIR and PVC cables) ..     | Kilometres      | 26           | 3,02,160           | 3,37,789          | 31           | 6,53,796           | 4,10,000             | 62.7                                                   |
| (2) A.C.S.R. and All Aluminium Conductors ..     | Tonnes          | 17           | 61,300             | 46,459            | 20           | 73,457             | 45,000               | 61.3                                                   |
| (3) Winding Wires                                |                 |              |                    |                   |              |                    |                      |                                                        |
| (a) Enamelled Wires ..                           | "               | 14           | 7,550              | 8,948             | 16           | 8,925              | 10,500               | 117.6                                                  |

**Electric Lamps:** There are about 18 units in the organised sector with an installed annual capacity of 58.8 million nos. of G.L.S. lamps, four units for fluorescent tubes with an annual capacity of 4.5 million tubes and 10 units in the miniature lamps industry with a capacity of 28.8 million nos. per annum. The Third Plan aimed at achieving a capacity of 76 million nos. a year in 1965-66 in G.L.S. and other lamps against the actual achievement of 70 million nos. a year. The Fourth Plan target for the same is placed at 185 million nos. a year in 1970-71. The Third Plan target was, that the industry should have a capacity to manufacture seven million fluorescent lamps per year against the actual achievement of 4.5 million lamps. The Fourth Plan aims at raising this capacity to 20 million lamps a year in 1970-71.

Production of incandescent filament electric lamps in million nos. was, 1960: 41.4; 1961: 46.9; 1962: 58.5; 1963: 70.3; 1964: 70.1; 1965: 71.3.

## Exports of Electric Lamps from India

| Year                                              | 1962 | 1963 | 1964 | 1965 |
|---------------------------------------------------|------|------|------|------|
| G.L.S. and other lamps in lakhs of Rs. ..         | 3.99 | 5.38 | 1.93 | 1.14 |
| Fluorescent tubes and fittings in lakhs of Rs. .. | 4.80 | 4.05 | 7.54 | 5.24 |

**Electric Transformers:** There were 20 units with an annual rated capacity of 21,37,000 K.V.A. at the end of 1965, against the Third Plan target of 4.0 million K.V.A. During 1964 the capacity was 19,99,200 K.V.A. while production was 33,08,400 K.V.A. The Fourth Plan aims at achieving a capacity of 5.5 million K.V.

in electric transformers of 33 K.V. and below and an actual production of 5.0 million K.V.

## PRODUCTION OF ELECTRIC TRANSFORMERS

| Year                            | 1961 | 1962 | 1963 | 1964 | 1965 |
|---------------------------------|------|------|------|------|------|
| Production in million K.V.A. .. | 1.8  | 2.3  | 2.6  | 3.3  | 4.3  |

During the financial year 1965-66 India exported electric transformers worth Rs. 76,000 and parts and accessories worth Rs. 3,000. During the same period India imported electric transformers worth Rs. 64.8 millions and parts and accessories worth Rs. 25.4 millions.

**Soap:** The organised sector contains some 61 units with an installed capacity of 2,36,662

metric tonnes per annum, though all of these are not in actual production, while the cottage sector contains over 3,000 units, scattered throughout the country. There is a concentration of these small factories in those areas where oil-seeds are available in plenty. For example, the Punjab, U.P. and Gujarat have each an annual production of over 40,000 tons of soap while Andhra State produces just 8,000 to 10,000 tons a year. The following table gives the production in lakh m. tonnes in the organised sector from the year 1961: 1961: 1.5; 1962: 1.5; 1963: 1.6; 1964: 1.7; 1965: 1.6.

With total soap production in 1958 at about 3,90,000 tonnes the amount of oil consumed was about 1,90,000 tons. Among oils groundnut oil, coconut oil and palm oil are the most important. Enough groundnut oil is produced in India to meet the demand; but it is necessary to import palm oil and some part of coconut oil (which is of course used for many other products besides soap). It is estimated that the tonnage of oil required for soap alone will grow by 40 per cent every five years and that after twenty years the total annual requirements of oil and fat for all products will have to be increased from about 1.8 million tons to 6.3 million tons.

The item-wise data on the exports of soap from India are shown in the table below:

| (in Rs. lakhs).                |         |         |                   |
|--------------------------------|---------|---------|-------------------|
| Item                           | 1963-64 | 1964-65 | 1965<br>Apr.-Dec. |
| Household and Laundry Soaps .. | 14.5    | 10.4    | 10.6              |
| Toilet Soaps ..                | 24.9    | 26.2    | 14.2              |
| Medicated Soaps ..             | 1.1     | 1.1     | 1.2               |
| Shaving Soaps and others ..    | 0.2     | 0.7     | 5.2               |
| Synthetic Detergents ..        | —       | —       | 7.4               |
| Total ..                       | 40.7    | 38.4    | 38.6              |

From the table it is clear that while toilet soaps had the greatest share (67 per cent) in the total exports in 1964-65 this group has evinced a downward trend during the year 1965-66. The fall in the exports of household and laundry soaps is attributable to the sudden drop in the intake by Afghanistan and Malaysia.

With the establishment of soap industry units in developing countries, exports of soaps are facing stiff competition abroad.

**Agricultural Tractors:** The production of agricultural tractors during 1965 was 6,318 against 3,172 during 1964, — an increase of over 90 per cent. In view of the high priority attached to increased agricultural production, it was planned to step up production of agricultural tractors to 11,000 during 1966.

In order to meet the demand for tractors in the lower range (below 20 h.p.), for which adequate capacity has not yet been developed, Government decided to establish a public sector project for the manufacture of tractors in this range. For this purpose, an agreement for the preparation of a Detailed Project Report for the manufacture of 20 H.P. tractor was signed during the year.

The production of steel discs — an important component of tractor driven implements — commenced for the first time in the country during 1965.

The Fourth Plan envisages to achieve a capacity of 40,000 tractors per annum and a production of 35,000 tractors per annum in 1970-71. This amounts to an increase of 525 per cent over that in 1965-66.

## NON-FERROUS INDUSTRY\*

(See also under 'Mines and Minerals'.)

### COPPER

**THOUGH** there are many copper fields in India, extraction of copper ores is at present confined to only one area viz. Mosabani area in the Singhbhum district, Bihar, which is operated by Messrs. Indian Copper Corporation. Copper pyrites is the principal ore of copper and it is a double sulphide of copper and iron. More and more deposits of copper are being located and important among such areas are: Almora and Garhwal in U.P., Singhbhum and Baragunda in Bihar; Khetri and Daribo in Rajasthan; Sikkim; Manipur; NEFA; and Jammu and Kashmir. Detailed work in the Khetri-Daribo area of Rajasthan and Rangpo area of Sikkim has established substantial workable reserves of copper ore — about 28 million tons with an average copper content of 0.8 per cent metal in Khetri and about 0.35 million tons averaging about 6.24 per cent of combined copper lead and zinc in Rangpo. The deposits in Daribo are found to be rich in copper content but the extent of the reserves is yet to be fully proved.

The Khetri copper project in the public sector is now estimated to cost Rs. 80 crores with the addition of fertiliser plant and gold and silver refinery. The foreign exchange component of the project, according to pre-devaluation rates, is about Rs. nine crores. French credit has been obtained for the project.

The project expected to be completed by the end of 1966, would produce 21,000 tonnes of electrolytic copper. It also envisages production of 600 tons of sulphuric acid per day and production of triple superphosphate by using sulphuric acid and 16,000 ounces of gold and 64,000 ounces of silver per year. With the setting up of copper smelter, the country would be able to save foreign exchange worth Rs. 10 to 11 crores.

Indian units process only fire-refined copper. Electrolytic copper is produced in India only to a small extent. Domestic production meets only a small part of the country's requirements of this metal. A large tonnages of copper, copper alloys and other manufactures have to be imported.

Per capita consumption figures in lb. for refined copper for India and some of the developed countries are given below:

U.S.A. 18.8; U.K. 25.7; Japan 10.4; India 0.34.

A scheme for developing the copper mines in Andhra Pradesh with American collaboration is being worked out. This will be the third mine

proposed to be developed during the Fourth Plan. Work on the Khetri project has already been taken in hand with French collaboration. Negotiations are expected to commence shortly with the Soviet Union for collaboration arrangements to develop the Rakha mines in Bihar.

Installed capacity and production of copper and allied products:

(metric tons)

| Year    | Virgin Metal       |            | Pipes and Tubes    |            | Sheets and Circles |            |
|---------|--------------------|------------|--------------------|------------|--------------------|------------|
|         | Installed capacity | Production | Installed capacity | Production | Installed capacity | Production |

| 1964-65 .. | 527.15                                 | 2,106.11          | 56.46                    | 334.95            | 583.61               | 2,441.10          |
| 1965-66 .. | 433.6                                  | 2,376.8           | 151.1                    | 955.5             | 584.7                | 3,332.3           |

It was anticipated that the Indian Copper Corporation would increase its production to 11,000 tonnes by 1966.

The Development Council for non-ferrous metals had estimated the demand for copper by 1965-66 at 170,000 tons per year, without taking into account the substitution possibilities by aluminium. Estimating these possibilities as equivalent to about 20,000 tons of copper, the Council estimated the demand for copper inclusive of the copper element of brass in 1965-66 as follows (Figures in tons):

Commercial copper sheets and circles (hot

rolled) 4,000; Copper sheet (cold rolled) 1,500 Industrial copper strips (cold rolled) in cut length and coils 2,500; Electrolytic copper wire rods for cables, wires and strips 75,000; Copper rods and sections (extruded) 2,000; Copper pipes and tubes (extruded) 2,500; Total 87,500. Commercial brass sheets/circles (hot rolled) 35,000; Brass sheets (cold rolled) 4,000; Industrial brass strips in cut lengths or coils (cold rolled) 8,000; Brass rods and sections (extruded) 10,000; Brass pipes and tubes (extruded) 6,000; Brass/copper wires (non-electrical) 3,500; Copper base alloys and castings 80,000; Total 96,500; Copper equivalent 62,700. Total 1,50,200.

\* Protection to non-ferrous industries has been withdrawn from Dec. 31, 1965.

**Import Duty.**—The Government of India has announced the imposition of 27·5 per cent post-devaluation import duty on copper. Excise duty on copper sheets and circles, etc. has been put at Rs. 1,500 per tonne.

**LEAD**  
Lead ores are known to occur at a number of places in India. The only large deposits now being worked are those of Zawar which is about 17 miles from Udaipur city, where lead is found

in association with zinc. These mines are worked by Metal Corporation of India.

The present mining capacity is 500 tons run-off mine ore per day.

#### Production Figures of Metal Corporation

| Year    | Ore raised   | Ore dressed in Mill | Lead Concentrates | Zinc Concentrates | Lead Ingots |
|---------|--------------|---------------------|-------------------|-------------------|-------------|
| 1961-62 | 146,949 M.T. | 147,402 M.T.        | 5,216 M.T.        | 8,860 M.T.        | 3,177 M.T.  |
| 1962-63 | 157,869 M.T. | 158,813 M.T.        | 7,358 M.T.        | 11,031 M.T.       | 3,771 kg.   |
| 1963-64 | 153,869 M.T. | 152,590 M.T.        | 5,147 M.T.        | 9,900 M.T.        | 3,754 kg.   |
| 1964-65 | 162,550 M.T. | 159,635 M.T.        | 6,296 M.T.        | 10,880 M.T.       | 6,055 kg.   |

The outlook for the lead industry has considerably improved in the last few years. The current annual production of lead from the only smelter of Messrs. Metal Corporation of India at Tundoo, Bihar, is of the order of 4,000 tons against the installed capacity of 6,000 tons per annum.

Installed capacity and production :

(Metric tons)

| Year | Virgin Metal       |            | Lead Pipes and Tubes |            | Lead Sheets        |            |
|------|--------------------|------------|----------------------|------------|--------------------|------------|
|      | Installed capacity | Production | Installed capacity   | Production | Installed capacity | Production |
| 1961 | 6,096·0            | 3,664·8    | 4,872·0              | 534·0      | 2,316              | 504        |
| 1962 | 6,096·0            | 2,848·8    | 4,872·0              | 752·4      | 2,316              | 720        |
| 1963 | 6,096·0            | 3,536·4    | 4,800·0              | 639·6      | 3,000              | 720        |
| 1964 | 6,096·0            | 3,624·0    | 4,800·0              | 584·8      | 3,000              | 696        |
| 1965 | 6,096·0            | 2,917·0    | 4,800·0              | 485·0      | 3,000              | 300        |

Import of lead :

| Year    | Lead and alloys unwrought |                   | Lead and alloys worked |                   | Total                |                   |
|---------|---------------------------|-------------------|------------------------|-------------------|----------------------|-------------------|
|         | Quantity (lakh kgs.)      | Value (Rs. lakhs) | Quantity (lakh kgs.)   | Value (Rs. lakhs) | Quantity (lakh kgs.) | Value (Rs. lakhs) |
| 1961-62 | 285·15                    | 252·06            | 3·60                   | 6·83              | 288·75               | 258·89            |
| 1962-63 | 339·70                    | 266·55            | 0·97                   | 2·18              | 340·67               | 268·73            |
| 1963-64 | 370·52                    | 333·18            | 1·69                   | 2·08              | 372·21               | 335·26            |
| 1964-65 | 337·79                    | 457·01            | 3·22                   | 4·87              | 341·01               | 461·88            |
| 1965-66 | 347·00                    | 562·80            | 5·07                   | 9·85              | 352·07               | 572·65            |

**Third Plan :** The demand for lead was expected to rise to 60,000 to 65,000 tons by 1965-66, with the break-up as given below: Non-ferrous and alloys 12,000; Electric industries 30,000 to 35,000; Chemicals (Paints) 12,500; Heavy mechanical engineering and light mechanical engineering 2,500; Small-scale industries 2,000; Miscellaneous 1,000; Total 60,000 to 65,000.

#### ANTIMONY

Antimony ore deposits are situated at the Shigree Glacier in Lahaul, Kangra district, Punjab and in the region of Nagpur in Maharashtra State. For antimony, there is only one smelter at Bombay, working on imported ores with a capacity of 1,000 tons.

Statistics regarding installed capacity and production in tonnes during the period 1956 to

1965 are shown below: 1956 : 710·4 ; 599·8 ; 1957 : 710·4 ; 510·0 ; 1958 : 710·4 ; 535·2 ; 1959 : 710·4 ; 674·4 ; 1960 : 912·0 ; 810·0 ; 1961 : 912·0 ; 620·4 ; 1962 : 900·0 ; 661·2 ; 1963 : 900 ; 909·6 ; 1964 : 912·0 ; 840·0 ; 1965 : 912·0 ; 848·0.

#### ZINC

Deposits of zinc, at present, are known to occur at only two places in India in Zawar Mines in Udaipur and in Riasin District in Kashmir State. Due to the nonavailability of smelting facilities, the Metal Corporation of India is exporting about 7,000 to 8,000 tons of zinc concentrates every year to Japan for smelting on a toll basis. The Metal Corporation has established an electrolytic Zinc Refinery near Udaipur—the construction of which is complete.

This has been projected to produce 18,000 tonnes of zinc, 28,000 tonnes of sulphuric acid, 75 tonnes of Cadmium, 11,000 tonnes of virgin piglead and 540,000 ozs. of silver. Comneco-Finani is establishing a Zinc Refinery at Alwaye which is to produce 12,000 tonnes of metallic zinc.

The Development Council for Non-ferrous Metals estimated the requirements of zinc to increase upto 185,000 tons by 1965-66.

Installed capacity and production of zinc sheets and strips in metric tons during 1956 to 1965 are as follows: 1956 : 3,754·8 ; 92·4 ; 1957 : 5,925·6 ; 956·4 ; 1958 : 5,925·6 ; 2,113·2 ; 1959 : 5,925·6 ; 2,876·4 ; 1960 : 4,800·0 ; 3,270·0 ; 1961 : 4,800·0 ; 3,774·0 ; 1962 : 4,800·0 ; 3,525·6 ; 1963 : 4,800·0 ; 3,882·0 ; 1964 : 4,800·0 ; 4,647·6 ; 1965 : 4,800·0 ; 4,404·6.

#### Imports

| Year    | Zinc and zinc alloys unwrought |                   | Zinc alloys worked   |                   | Total                |                   |
|---------|--------------------------------|-------------------|----------------------|-------------------|----------------------|-------------------|
|         | Quantity (lakh kgs.)           | Value (Rs. lakhs) | Quantity (lakh kgs.) | Value (Rs. lakhs) | Quantity (lakh kgs.) | Value (Rs. lakhs) |
| 1961-62 | 669·2                          | 722·9             | 9·8                  | 16·2              | 679·0                | 739·1             |
| 1962-63 | 875·4                          | 885·1             | 13·1                 | 17·0              | 888·5                | 902·1             |
| 1963-64 | 842·1                          | 967·9             | 11·6                 | 17·6              | 853·7                | 985·5             |
| 1964-65 | 700·6                          | 1,106·3           | 11·3                 | 22·7              | 711·8                | 1,129·0           |
| 1965-66 | 767·0                          | 1,226·5           | 35·1                 | 57·2              | 802·1                | 1,283·7           |

## TIN

Tin ores are in Hazaribagh, Ranchi and Gaya districts of Bihar. At present there is no indigenous production in the primary metal. So India has to depend on imports. A substantial part comes from Malaysia. Statistics of imports of tin during recent years are given below.

**Imports of Tin:** The quantity in lakh kgs. and the value in Rs. lakhs respectively during 1961-62 to 1965-66:

| Year    | Tin and alloys unwrought |                   | Tin and alloys worked |                   | Total                |                   |
|---------|--------------------------|-------------------|-----------------------|-------------------|----------------------|-------------------|
|         | Quantity (Lakh kgs.)     | Value (Rs. lakhs) | Quantity (Lakh kgs.)  | Value (Rs. lakhs) | Quantity (Lakh kgs.) | Value (Rs. lakhs) |
| 1961-62 | 49.5                     | 570.5             | 0.4                   | 5.8               | 49.9                 | 576.3             |
| 1962-63 | 42.8                     | 507.9             | 0.2                   | 2.5               | 43.0                 | 510.4             |
| 1963-64 | 50.5                     | 618.7             | 1.7                   | 21.1              | 52.2                 | 639.8             |
| 1964-65 | 48.8                     | 771.8             | 1.8                   | 18.6              | 50.1                 | 790.4             |
| 1965-66 | 38.4                     | 711.2             | 1.2                   | 5.7               | 39.6                 | 750.9             |

## NICKEL

| Year    | Nickel & Alloys unwrought |                   | Nickel and Alloys    |                   | Total                |                   |
|---------|---------------------------|-------------------|----------------------|-------------------|----------------------|-------------------|
|         | Quantity (Lakh kgs.)      | Value (Rs. lakhs) | Quantity (Lakh kgs.) | Value (Rs. lakhs) | Quantity (Lakh kgs.) | Value (Rs. lakhs) |
| 1960-61 | 11.2                      | 113.5             | 3.6                  | 28.5              | 14.8                 | 142.0             |
| 1961-62 | 13.8                      | 123.6             | 3.9                  | 28.3              | 17.7                 | 151.9             |
| 1962-63 | 13.7                      | 126.5             | 2.1                  | 17.7              | 15.8                 | 144.2             |
| 1963-64 | 17.3                      | 151.2             | 2.7                  | 26.4              | 20.0                 | 177.6             |
| 1964-65 | 13.3                      | 117.9             | 4.1                  | 35.8              | 17.4                 | 153.7             |
| 1965-66 | 11.4                      | 99.4              | 8.8                  | 87.7              | 20.2                 | 186.1             |

India has no proven deposits of nickel ores so far. It is likely that with further geographical exploration nickel ores might be found.

## ALUMINIUM

Aluminium is the only non-ferrous metal which India can produce in large quantities because of extensive deposits of bauxite and adequate supplies of bulk power. At present, considerable attention has been paid for augmenting the production of aluminium in order to arrest the rising trend in the import of this non-

ferrous metal involving considerable foreign exchange.

Even though it is known that India possesses bauxite, the basic raw material for aluminium to the extent of 250 million tons, accurate detailed information regarding the extent and quality of the individual deposit has not yet been collected; only reserves of 25 million tons are stated to have been proved to be suitable for the manufacture of aluminium.

Except bauxite and coal, most of the other raw materials are available only partly or not

at all from indigenous sources. Caustic soda and soda are not produced in sufficient quantities, cryolite, aluminium fluoride, carbon black and filter cloth have to be imported and the possibilities of producing cryolite in this country are being explored.

In India production of aluminium is 68,000 tonnes. The capacity of production of aluminium during 1966-67 will be 113,000 tonnes. The Fourth Plan target has been set around 300,000 to 400,000 tonnes. It is expected that self-sufficiency will be reached by 1969-70.

## Aluminium — Installed Capacity and Production

| Year | Virgin Metal       |            | Aluminium Sheets and Circles |            | Aluminium Foils    |            | Aluminium Wire Rods (ACSR) |            | Aluminium Rods and Sections (extruded) |            |
|------|--------------------|------------|------------------------------|------------|--------------------|------------|----------------------------|------------|----------------------------------------|------------|
|      | Installed Capacity | Production | Installed Capacity           | Production | Installed Capacity | Production | Installed Capacity         | Production | Installed Capacity                     | Production |
| 1961 | 22,116             | 18,382     | 21,600                       | 16,930     | 3,000              | 3,216      | 13,056                     | 8,292      | 3,756                                  | 1,584      |
| 1962 | 53,340             | 35,212     | 22,200                       | 16,294     | 4,200              | 3,444      | 13,056                     | 11,352     | 3,756                                  | 3,060      |
| 1963 | 53,340             | 53,386     | 22,200                       | 22,244     | 3,000              | 3,444      | 13,056                     | 17,988     | 3,756                                  | 3,936      |
| 1964 | 53,340             | 54,539     | 22,200                       | 22,501     | 3,000              | 2,544      | 20,400                     | 20,256     | 3,756                                  | 3,240      |
| 1965 | 53,340             | 59,229     | 26,675                       | 24,050     | 3,000              | 2,868      | 28,416                     | 24,408     | 4,506                                  | 4,599      |

## Imports

| Year    | Aluminium and Alloys unwrought |                   | Aluminium and Alloys worked |                   | Total                |                   |
|---------|--------------------------------|-------------------|-----------------------------|-------------------|----------------------|-------------------|
|         | Quantity (Lakh kgs.)           | Value (Rs. lakhs) | Quantity (Lakh kgs.)        | Value (Rs. lakhs) | Quantity (Lakh kgs.) | Value (Rs. lakhs) |
| 1961-62 | 80.9                           | 212.8             | 174.7                       | 580.1             | 255.6                | 792.9             |
| 1962-63 | 151.8                          | 357.2             | 236.8                       | 693.1             | 388.1                | 1,050.3           |
| 1963-64 | 39.4                           | 86.4              | 207.4                       | 550.9             | 246.8                | 637.3             |
| 1964-65 | 35.4                           | 97.4              | 194.1                       | 626.6             | 229.5                | 724.0             |
| 1965-66 | 36.6                           | 98.4              | 161.6                       | 530.4             | 198.2                | 628.8             |

**Investment:** An investment of the order of Rs. 12 crores is estimated to have been made in the aluminium industry during the Second Plan

period against Rs. 22 crores, anticipated at the time of formulating the programmes of development in 1956.

The investment in the aluminium industry under the Third Plan is estimated at about Rs. 65 crores.

Schemes Under Implementation

The progress made by some of the aluminium companies is shown in the table below :

| Producer                               | Location of plant           | Capacity                   |           |
|----------------------------------------|-----------------------------|----------------------------|-----------|
|                                        |                             | 1966<br>(Tonnes per annum) | 1970-71   |
| Aluminium Corporation of India Ltd.    | Jaykanagar<br>(West Bengal) | 8,000                      | 13,000    |
| Indian Aluminium Co., Ltd.             | Hirakud<br>(Orissa)         | 20,000                     | 40,000    |
|                                        | Alupuram<br>(Kerala)        | 15,000                     | 16,000    |
|                                        | Sharavathi<br>(Mysore)      | —                          | 30,000    |
| Hindustan Aluminium Corpn. Ltd.        | Renukoot<br>(U.P.)          | 48,000                     | 1,20,000* |
| Madras Aluminium Co., Ltd.             | Mettur<br>(Madras)          | 10,000                     | 20,000    |
| Smelter in Kerala or Gujarat           |                             | —                          | 25/50,000 |
| National Industrial Development Corpn. | Koyna                       | —                          | 25,000    |

\* According to information available the capacity at Renukoot will be of the order of 75,000 tonnes, while the balance capacity will be established during the Plan period in Bihar.

Note : Figures upto 1959 are in tons and from 1960 onwards are in metric tons.

BRASS

The position with regard to the production of brass pipes and tubes, and brass sheets and circles respectively from 1956 to 1965 is as follows: Figures in tonnes: 1956: 0.84; 13,800; 1957: 0.72; 18,072; 1958: 0.72; 20,724; 1959: 0.84; 21,300; 1960: 0.36; 26,988; 1961: 106.8; 24,612; 1962: 181.2; 23,748; 1963: 352.8; 22,644; 1964: 642.0; 20.328; 1965: 1,016.1; 12,828.

The quantity imported during 1965-66 and the value of brass were 8.0 lakh Kgs. and Rs. 60.8 lakhs respectively.

The position regarding the value in Rs. crores of imports of non-ferrous base metals during 1963-64, 1964-65 and 1965-66 respectively is as shown below: 55.06; 58.30 and 67.55.

PETROLEUM INDUSTRY

PETROLEUM is a mixture of hydrocarbons which may be in liquid, solid or gaseous forms. Very frequently these three forms are found together but in completely different proportions in different localities. In addition to hydrocarbons, petroleum is usually contaminated with small quantities of compounds containing sulphur, nitrogen or other elements.

Because of the varying proportions of hydrocarbons, crude oils from different sources differ widely in their characteristics. Thus, from some crude oils sufficient lubricating oils and waxes may be obtained while others may yield insignificant quantities of wax but huge quantities of asphaltic bitumen.

Crude oil may be divided, very broadly, into three classes :—

(1) Paraffin Base Crudes: They usually give substantial yields of paraffin wax and lubricating oils, e.g. Assam Crudes. (2) Asphaltic Base Crude: This type of crude contains little or no paraffin but asphaltic matter in large proportions, e.g. crudes from Venezuela. (3) Mixed Base Crudes: Contain both paraffin wax and asphaltic matter in quantity, e.g. Indonesian crude.

Crude oil is processed in a unit called a refinery for obtaining various products. There are hundreds of products manufactured from crude oil. In fact, today, there is hardly an industry which does not use some kind of petroleum product. To list here a few products :—

Kerosene is used as an illuminant and a cooking fuel. Motor Spirit and Aviation Spirit are used as fuel by automobiles and aircraft respectively. High Speed Diesel Oil is used by trucks, buses and tractors. Furnace Oil is used in miscellaneous industrial units including power generation. Mineral Turpentine is used as base in paints and varnishes. Wax is used for manufacturing candles. Lubricants are used for lubricating machines. Bitumen is used in road-making, insulation purposes. Chemicals produced from petroleum sources and generally known as petrochemicals are used for industrial and agricultural purposes.

The demand for petroleum products in India has been steadily growing with the years. Between the years 1948 and 1965, the total inland demand has increased from 2.24 million tons to 12.1 million metric tons, representing an annual average growth rate of about 10 per cent. By 1966, it was expected that demand will be about 13 million metric tons.

Individual petroleum products have been showing a rise in consumption over the years. Most marked increases have been registered in the consumption of products like high speed diesel oil and furnace oil.

With the growth in India's economy and rapid industrialisation, set in motion by the three Five-Year Plans, oil consumption has steadily grown but compared with other countries the per capita consumption is still very low. The per capita consumption of some countries including India are given below: U.S.A. 3.379 K.L.; Australia 1.65 K.L.; Ceylon 0.122 K.L.; Burma 0.038 K.L.; India 0.03 K.L.

India's production of crude oil of about 3.5 million tonnes was expected to rise to about six million tonnes per year by 1966 end. In order to bridge the gap between indigenous availability and the demand, India has to import crude oil and petroleum products from various countries.

During 1965 the refining capacity in the country was 10.5 million tonnes. This was expected to rise to about 14.5 million tonnes by 1966 end. A little over a third of this capacity will be based on indigenous crude. By the end of the 4th Plan period, refining capacity is expected to be about 23 million tonnes per annum.

OIL EXPLORATION AND PRODUCTION

At present oil exploration in India is conducted by three agencies: The Assam Oil Company, The Oil India Ltd., and the Oil and Natural Gas Commission.

The oil bearing regions in India extend over Punjab,\* Ganga Valley, Assam, West Bengal, Gujarat, Kutch, Rajasthan and the off-shore areas along the eastern and western coasts and have been estimated at 1,040,000 sq. kilometers. The Assam Oil Company and the Oil India Ltd. operate within the areas allotted to them in Assam State while the Oil and Natural Gas Commission is responsible for exploration over the remaining parts of the country including off-shore areas. Technical training institutes in prospecting, drilling, exploration etc. are being run by the oil and Natural Gas Commission at Bareilly, Cambay and Sibsagar. In addition, the Commission has a Research and Training

Institute at Dehra Dun. The activities of the three agencies are briefly described below:

**Assam Oil Company:** The Assam Oil Company was formed as a result of the merger of the Assam Railway and Trading Co. and the Assam Oil Syndicate. Details of the above two Companies were given in the 1965-66 Directory. A refinery was built at Digboi with a capacity of 17,000,20,000 gallons a day.

Assam Oil Company has drilled nearly 1,000 wells so far out of which nearly 600 are in operation now. The present rate of production of Assam Oil Company is of the order of 0.4 million tonnes.

**Oil India Ltd.:** Oil India Ltd., a partnership between the Government of India and the Burmah Oil Company, was registered on February 18, 1959, in Shillong, as a Rupee Company.

The headquarters of the Company is at Dullajan.

Oil India has an authorised capital of Rs. 50 crores, divided into 500,000 shares of Rs. 1,000 each. In terms of an agreement signed in 1961, the Govt. of India and the Burmah Oil Company became equal partners in Oil India Ltd.

Oil India Ltd. has drilled upto Aug. 1966, 234 wells out of which 187 were oil or gas producing.

Oil India Ltd. propose to drill 23 wells during 1966-67. This Company has already discovered crude oil reserves capable of sustaining an annual production of three million tons. This quantity of oil is committed for supply to the Government owned refineries at Gauhati, Barauni and the AOC refinery.

\* Composite State.

## OIL AND NATURAL GAS COMMISSION

The Oil and Natural Gas Commission was formed in May 1956 and functioned as a Government department till 1959 when it was converted into a statutory organisation. The Oil and Natural Gas Commission, of which the Minister for Petroleum & Chemicals is chairman, has its Hqs. in Debra Dun. About 12,620 persons are employed on its staff. The Commission has three Directorates—Geology, Geophysics and Engineering.

Geological and geophysical surveys are carried out by the Commission in various parts of the country—Jammu & Kashmir, Punjab\* and U.P. foot-hills and plains, Bihar, Assam, West Bengal, Gujarat, Saurashtra, Kutch, Rajasthan, Cauvery basin in Madras and Godavari basin in Andhra Pradesh and coastal regions of Kerala and Andaman & Nicobar islands.

On the basis of the results of these Geological and Geophysical surveys, drilling is in progress in Gujarat, U.P., Punjab, Assam, Bihar, Rajasthan and Madras. Drilling will shortly be taken up in West Bengal and in the Gulf of Cambay.

Oil and/or gas has been found in Cambay, Ankleshwar and Kalol areas of Gujarat and Rudrasagar and Lakwa areas of Assam. In Gujarat, commercial reserves of oil have been proved. The current rate of production from Gujarat fields is 6,600 tonnes per day. Up to Aug. 1966, a total of 375 wells have been drilled in Gujarat and it is estimated that these fields are capable of producing four million tonnes of crude per annum. Based on these reserves, a refinery at Koyali (Gujarat) has been constructed and is at present operating at a throughput of one million tonnes. Oil has been discovered in two structures in Assam at Kakwa and Rudrasagar. Trial production from Rudrasagar Fields has commenced. So far 40 wells have been drilled in Assam.

The Commission have entered into an agreement with the National Iranian Oil Company for exploration and production of oil in certain off-shore areas in the Persian Gulf in collaboration with AGIP of Italy and Phillips of U.S.A. Drilling is still in progress.

## REFINERIES

The Digboi Refinery of the Assam Oil Company was commissioned in 1899, and it was the only refinery in India till 1954. A new gasoline plant and a new luboil distillation unit were added to the refinery in 1954. In 1964, the refinery produced a total of 4,35,450 tonnes of petroleum products. Its annual throughput is 0.45 million tonnes of Crude.

O. N. G. is expected to produce about 3 million tons by 1966 and 10 million by 1971.

As a result of agreements between the Government of India on the one hand and Burmah-Shell, ESSO and Caltex on the other, three new refineries were set up in mid-fifties. The refineries by Burmah-Shell and ESSO are located at Trombay near Bombay while the Caltex refinery is at Vishakapatnam. The capacities of these refineries are: Burmah-Shell 3.75 million tonnes; ESSO 2.50 million tonnes; Caltex 1.05 million tonnes.

## PUBLIC SECTOR REFINERIES

The first public sector refinery at Gauhati was commissioned in January 1962. The capacity of this refinery is 0.75 million tonnes.

The total cost of the Gauhati refinery is estimated at Rs. 17.70 crores. The Rumanian Government have agreed in principle to provide the necessary technical and financial assistance for expansion of the refinery from its present capacity of .75 million tonnes per annum to 1.1/1.25 million tonnes per annum. The proposal is under examination.

The second public sector refinery at Barauni in Bihar was commissioned in the second half of 1964. The initial capacity of the refinery will be two million tonnes but the capacity will be ultimately expanded to three million tonnes in the beginning of the Fourth Plan period. The first stage of one million tonnes was commissioned in July 1964 and the second stage of

another million tonnes and the luboil plant was expected to be commissioned during 1966.

The cost of Design and Technical Assistance as well as plant and equipment for Barauni refinery is being met out of Soviet credit. An amount of Rs. 16.48 crores has so far been utilised from this credit. The total cost of the refinery is estimated at Rs. 46.90 crores with a foreign exchange component of Rs. 18.96 crores.

The third public sector refinery has been constructed at Koyali near Baroda in Gujarat and was commissioned in October 1965. Its initial capacity will also be two million tonnes to be ultimately expanded to three million tonnes.

The Gujarat refinery is estimated to cost Rs. 30.21 crores for the initial capacity of 2 million tonnes per annum. The expansion of the refinery by another million tonne will cost a further Rs. 2.91 crores. The foreign exchange component of the initial stage expenditure will be Rs. 8.78 crores and the same of the cost of expansion will be Rs. .9746 crores. Soviet credit amounting to Rs. 8 crores has so far been allocated for the project. The balance of the foreign exchange requirement will also be found from the Soviet credit and any savings out of the same earmarked for Barauni refinery. The initial stage expenditure was expected to be incurred during the Third Plan while the expenditure on expansion will be incurred during the Fourth Plan.

**Cochin Refinery.**—This is a participatory refinery project in the public sector, the principal collaborators with the Government being Messrs. Phillips International, U.S.A. It was commissioned on 23rd Sept. 1966.

The cost of the project is estimated at Rs. 29.81 crores, and the foreign exchange component is Rs. 19.65 crores.

The Refinery has been designed to produce annually 2.5 million tons of petroleum products.

The Refinery will have a crude oil storage of 1 lakh tons. It will provide employment to about 1,000 persons.

**Indian Oil Corporation Ltd.**†—A Government owned and Government managed private limited company—Indian Refineries Ltd. was incorporated on August 20, 1958 to control and manage the first two public sector refineries, namely the Gauhati and Barauni refineries. This Company has with effect from 1st September 1964 been merged with the public sector marketing company the Indian Oil Company Ltd. to form what is now known as the Indian Oil Corporation Ltd. A separate division of the Corporation called the Refineries Division is looking after the above public sector refineries. With effect from April 1, 1965, the ownership of the Gujarat Refinery has also been transferred to the Indian Oil Corporation Ltd. (Refineries Division) from the Oil and Natural Gas Commission.

In order to meet the additional demands for petroleum products during the Fourth Plan period, it has been decided to increase the refining capacity to about 23 million tonnes by the end of the Fourth Plan by erecting three more refineries, the first at Madras, the second at Haldia near Calcutta and the third at a suitable location in North-Western India. The construction of the Madras Refinery will be a participatory project with Messrs. National Iranian Oil Company and the American International Oil Co. whose collaboration for the Refinery has been approved. Regarding Haldia Refinery, tenders have been invited from foreign parties and a suitable collaborator was expected to be selected before the end of 1966.

**Gauhati Product Pipeline.**—This pipeline which is designed for the transport of petroleum products from Gauhati Refinery, was completed and commissioned in November, 1964. The total cost of the pipeline is estimated at Rs. 7.75 crores with a foreign exchange component of Rs. 1.81 crores. The foreign exchange cost has been met out of ENI credit from Italy.

**Barauni Refinery Pipeline.**—The 674-kilometre long oil pipe line linking it with Kanpur has been completed on Sept. 26, 1966. This helps products from the Barauni refinery to areas of

consumption. The cost of the pipeline is estimated at Rs. 27.41 crores with a foreign exchange component of Rs. 10.21 crores. The foreign exchange cost will be met out of ENI credit from Italy. The Barauni-Kanpur sector of the pipeline has already been completed. The Barauni-Haldia sector was expected to be completed by 1966 end.

The construction of pipelines is being looked after by a separate division of the Indian Oil Corporation Ltd. The authorised share capital of the Indian Oil Corporation Ltd. is Rs. 75 crores and that of Oil India Ltd. Rs. 50 crores.

**Gujarat Pipeline System.**—The following pipelines for the transportation of crude oil, gas and products have been constructed: Cambay-Dhuvaran Gas Line; Ankleshwar-Uttaran Gas Line; Ankleshwar-Baroda Gas Line; Ankleshwar-Koyali Crude Line; and Koyali-Ahmedabad Product Pipeline.

The total cost of Gujarat Pipeline system is estimated at Rs. 6.732 crores with a foreign exchange cost of Rs. 1.965 crores. The foreign exchange cost was met out of ENI credit from Italy.

## DISTRIBUTION

Distribution is that stage of the petroleum industry when refined products leave the refinery on their way to the customer. Inland distribution is a very big undertaking in this country. About 11 million tonnes of petroleum products have been distributed during 1964.

At present the major oil distributing companies are: Burmah-Shell, Esso, Caltex and the Government owned Indian Oil Corporation, which apart from distributing the products obtained from its refineries, imports products from rupee payment sources. With the establishment of additional refineries, the Corporation will be handling increasing quantities of petroleum products.

## Prices

In August 1960, the Government appointed the Oil Price Inquiry Committee under the chairmanship of Mr. K. R. Damle "to examine the principles and elements according to which the selling prices of various petroleum products in India should be determined after April 1, 1961", and *inter alia* to examine and report on specific aspects of petroleum pricing. The Committee submitted its Report in July, 1961. The Government announced its decisions on the Report late in September, 1961 and implemented them with effect from October 1, 1961.

The private oil companies have reduced the price of crude oil twice by 2 cents and 4 cents per barrel during Dec. 1964 and July 1965 respectively. This led to a saving on foreign exchange of about 2 crores.

The Union Government appointed on May 13, 1964 a working group headed by Mr. J. N. Taluqdar, to re-examine the pricing principles. This Committee submitted its report to the Government in Aug. 1965 and the Government have enforced the prices recommended by them in respect of a number of products w.e.f. 1-2-1966. Import duties were imposed on crude for the first time; but these were later withdrawn to keep up the prices after devaluation.

## MISCELLANEOUS

A joint committee of the Government and representatives of the private oil industry known as Oil Advisory Committee has been set up by the Government of India to study problems of supply, distribution and future demand of P.O.I. products in relation to indigenous production and refining capacity. In this way, a machinery has been set up for close and continuous consultation between the private and public sectors on matters of common interest. Representatives from the Government and oil industry are associated with the working of this Committee.

An institution known as the Indian Institute of Petroleum has also been set up under the control of the Council of Scientific and Industrial Research to do research and give training in petroleum technology.

\* Composite State. † The turnover of the corporation had doubled during 1965-66 to Rs. 170 crores and the net profit was Rupees one crore.

**BURMAH-SHELL REFINERIES LTD.**

Burmah-Shell Refineries Ltd. was incorporated in India on 3rd November 1952, for the purpose of constructing and operating a petroleum oil refinery on a 450-acre plot of land in south-west Trombay—near Bombay.

The Refinery commenced operations on January 30, 1955.

The crude oil intake of the Refinery is about four million tons per annum; the crude oil comes from the Persian Gulf area and from Ankleshwar in Gujarat.

The Refinery manufactures motor spirit, kerosene, high speed diesel oil, light diesel oil, fuel oil, bitumen, liquefied petroleum gas and special boiling point solvents.

The total cost of the Refinery was about Rs. 26 crores, and the total number of employees in the Refinery including all categories is about 1,550.

Residential quarters for key operating staff have been provided at a short distance from the refinery, and in addition, Burmah-Shell Refineries Ltd. have paid Rs. 40 lakhs to the Bombay Government for the provision of houses for Refinery labour employees and their families in the Chembur-Ghatkopar area.

Burmah-Shell Refineries Ltd. have also provided a 10-acre recreation ground for their staff and labour employees.

**CALTEX OIL REFINING (INDIA) LTD.**

The Caltex Oil Refinery, a product of India's Second Five Year Plan, is located at Visakhapatnam. Its products include petrol, kerosene, diesel oil and fuel oils from the Refinery's flexible two-stage crude oil distillation unit, the fluid catalytic cracking unit with gas recovery facilities, the polymer plant, the propane decarboxylation unit and treating and blending plants.

The Visakhapatnam Refinery is one of the most modern and efficient refineries. It occupies an

area as large as 515 acres, and this relaxed setting makes for beauty and work comfort, besides providing room for expansion.

**ESSO REFINERY**

The Refinery, which is situated on Trombay Island, near Bombay, cost about Rs. 17.5 crores. Construction was started in December 1952 and production started in July 1954. The refinery is capable of running 60,000 barrels of crude oil per stream day nearly 3 million tons a year of crude oil.

Initially the Refinery was designed to process 25,000 B/CD of crude from the Middle East. Besides stepping up refining capacity, new products such as bitumen, jute batching oil, solvents and liquefied petroleum gas were introduced to meet the growing needs of the country and save foreign exchange. The Esso Bombay Refinery earned foreign exchange of over Rs. 57 crores during the first decade of its operations.

**PLASTICS INDUSTRY**

PLASTICS can be classified into two groups, thermosetting and thermoplastic. The thermosets soften only once under heat and do not soften again on subsequent heating. Thermoplastics soften when heat is applied and harden on cooling. They can be reshaped again and again. There is also a close relationship between the chemical industry and the plastic industry. The chemical industry supplies the plastic industry with raw materials necessary for the manufacture of synthetic resins.

The U.S.A. produces the largest quantity of plastics followed by Germany, Japan, U.K. and the U.S.S.R.

The following table shows the total installed capacity and output of important plastic goods in 1963, 1964 and 1965:

|                                             | 1963               |            | 1964               |            | 1965               |            |
|---------------------------------------------|--------------------|------------|--------------------|------------|--------------------|------------|
|                                             | Installed capacity | Production | Installed capacity | Production | Installed capacity | Production |
| P. F. Moulding Powder                       | 4,512.0            | 3,087.6    | 4,512.0            | 3,225.6    | 4,512.0            | 3,354.0    |
| Polystyrene Moulding Powder                 | 5,443.2            | 5,515.2    | 5,443.2            | 5,114.2    | 5,443.2            | 5,646.1    |
| Phenolic Laminate                           | 1,478.4            | 1,657.2    | 1,621.2            | 1,708.8    | 2,277.5            | 2,312.6    |
| Polythene Films and layflat tubings         | 3,324.0            | 1,744.8    | 4,468.8            | 2,292.4    | 4,468.8            | 2,808.0    |
| P. V. C. (Flexible) sheetings (unsupported) | 3,758.4            | 1,956.0    | 3,758.4            | 2,067.6    | 4,556.0            | 3,706.1    |
| U. F. Moulding Powder                       | 1,078.8            | 1,030.8    | 1,080.0            | 1,220.4    | 1,080.0            | 1,215.6    |
| Linoleum                                    | 852.0              | 681.6      | 900.0              | 835.2      | 1,050.7            | 764.1      |
| Leather Cloth                               | 8,262.0            | 6,895.2    | 8,262.0            | 8,990.4    | 9,551.0            | 9,133.2    |

The machine capacity of the industry at present is estimated as under:—

Compression moulding: 35,000 tons; injection moulding: 1,200 ounces; extrusion: 200 inches and surface coating: 10 units.

The articles now manufactured cover a wide range of household consumer and utility items, electrical accessories, telephone equipment, gramophone records, insulated wires, combs, toys, tooth brushes, spectacle-frames, hand-bags, leather cloth, packaging materials, films, industrial items and accessories for automobile engineering, radio and air-conditioning industries. Production of mechanised toys has been an important achievement in recent years.

The per capita consumption of plastics in India, although very low compared with other advanced countries, is increasing every year. The

The Indian plastics industry is centred mostly in the Bombay, Amritsar, Bangalore, Delhi, Kanpur and Madras areas, and today there are more than 200 well organised units and at least about 10 times as many smaller units in the small-scale and cottage industries sectors. Similarly, the production of plastics raw materials also has gone up by leaps and bounds.

During the Third Plan period, the plastics industry was expected to expand more than six-fold. While the Third Plan had fixed a target production of 74,000 tonnes for plastics raw materials, the actual production in 1965 amounted to about 40,000 tonnes only. The Fourth Plan is likely to fix a target of nearly 3.5 lakh tonnes during 1970-71.

A large part of the raw material is imported. Phenol formaldehyde moulding powder, phenol and formaldehyde and alkyd resin are manufactured in the country out of imported basic materials.

The first moulding powder to be manufactured in India was Phenol Formaldehyde moulding powder. This industry, is however, dependent largely upon imports of phenol, cresol and formaldehyde. In 1960-61, four units were engaged in the manufacture of P.F. moulding powder. Of these four units, three are located in Maharashtra, and one in Gujarat. The three concerns located in Maharashtra are, Industrial Plastics Corporation, Plastic Products of India and Indian Plastics. The requirement of formaldehyde by the plastic industry by 1965-66 was estimated at about 30,000 tonnes per annum.

P.V.C.: Two more factories are being set up, one in Bombay and the other at Mettur for production of this raw material. The capacity of the Bombay unit will be 20,000 tonnes and the other 6,000 tonnes per annum. The companies concerned are National Organic Chemical Industries and Chemical and Plastics India.

H.D. Polyethylene: Messrs. Polyolefine Industries Ltd., Bombay in collaboration with Farbwerke Hoechst, Germany are erecting a factory near Bombay for production of 20,000 tonnes and this plant is expected to start commercial production by the middle of 1967. They would also produce 8,000 tonnes of Vinyl acetate and 12,000 tonnes of polyvinylacetate.

Union Carbide was expected to install a naphtha cracker involving a capital outlay of Rs. 9.5 crores. They will produce 9 million kilogrammes of polyethylene per annum. This plant was scheduled to be completed in the year 1966.

Polystyrene: In addition to the plant of Messrs. Polychem of Bombay, one more factory was set up at Visakhapatnam for the production of this raw material. This plant of Messrs. Hindustan Polymers is making good progress and is expected to go on stream by the end of 1966. The licensed capacity of this plant is 10,000 tonnes per annum.

**FOURTH PLAN PROGRAMME**

The production target was placed at 74,000 tonnes for the Third Plan, which however could reach the level of 40,000 tonnes only. In view of this fall in production, the target of production during the Fourth Plan is placed at about 3.5 lakh tonnes. Against this target of production, during the Fourth Plan, the following table

following table will give an idea of the consumption of plastic materials in some of the selected countries in 1962 and India's position compared with these industries:

| Country      | Per capita Consumption Kg. |
|--------------|----------------------------|
| U.K.         | 12                         |
| U.S.A.       | 15                         |
| West Germany | 18                         |
| Italy        | 8                          |
| France       | 9.5                        |
| Japan        | 7.8                        |
| India*       | 0.8                        |
| Netherlands  | 11.5                       |

\* Figures are for 1963.

gives an idea of the capacities expected to be established by the end of the Fourth Plan :

| Plastic materials                             | Tentative target for 1970-71 (Tonnes) |
|-----------------------------------------------|---------------------------------------|
| Polyethylene .. .. .                          | 1,00,000                              |
| Polypropylene .. .. .                         | 10,000                                |
| P. V.C. .. .. .                               | 1,00,000                              |
| Polystyrene .. .. .                           | 35,000                                |
| Acrylics (MMA) .. .. .                        | 6,000                                 |
| Vinyl acetate .. .. .                         | 23,000                                |
| Polyurethane .. .. .                          | 5,000                                 |
| Polyesters .. .. .                            | 25,000                                |

| P. F. moulding Powder .. .. .                 | 12,000                                |
| Phenolic resins (including laminates) .. .. . | 6,000                                 |
| U.F. moulding Powder .. .. .                  | 8,000                                 |
| Other Urea resins .. .. .                     | 20,000                                |
| Others .. .. .                                | 7,000                                 |
| <b>Total .. .. .</b>                          | <b>3,74,000</b>                       |

It has been estimated that 350 presses of different sizes for compression moulding and lamination can handle 11,000 tons of thermosets. 350 extruders would convert 22,000 tons of thermoplastics into extruded products, besides compounding 16,000 tons for injection moulding by 800 machines of varying capacities. The value of 1,500 machines and presses inclusive of replacements required for the period of the Plan together with auxiliary equipment such as predryers, preformers, tumbling barrels, scrap grinders, haul off for extruders, mould temperature controllers and other miscellaneous equipment for vacuum forming, vacuum metallising, hot stamping, embossing and printing rollers, heat welding machines, automatic blow moulding equipment, lamination presses, rotational casting machines, etc. would be around Rs. 10 crores. (before devaluation). The miscellaneous equipment will cater to foaming, blowing, coating, calendering, casting and fabrication of 11,000 tons of thermoplastic materials.

It was expected that during the Third Plan (by 1966), the requirements of moulds for compression and injection moulding would

increase from 800-1,000 in the beginning of the plan to 3500-4000 by 1966. It was also expected that by 1966, 2,500-3,000 dies for extrusion will also be required for the same period. The total value of moulds and dies may be put at about Rs. 8 crores.

The supply of plastics raw materials in the country through domestic production will increase substantially during the next Plan period. According to Planning Commission's working group on petro-chemical industries, polyethylene supply will increase to one lakh tons in 1970-71. In case of PVC, supply will reach the level of one lakh tons by the end of Fourth Plan, and that of Vinyl Chloride for PVC to one lakh tons.

The machinery requirements of the industry are being paid particular attention in the Fourth Plan. It is proposed to set up initially plastics machinery manufacture for an off take of about 15,000 tonnes of thermosets, 40,000 tonnes of thermo-plastics for injection, 100,000 tonnes of thermoplastics for extrusion.

The main problem facing the plastic industry is the inflated cost structure which owes mainly to the steep excise duties and high raw material prices. The present rate of excise duty of twenty-four per cent *ad valorem* plus twenty per cent surcharge on basic duty is very high. Imports, however, are still quite large, although, since 1957, a restrictive policy has been pursued. The following table shows imports of raw materials of plastics industry :

|                                      | (Rs. lakhs) |         |         |
|--------------------------------------|-------------|---------|---------|
| Material                             | 1963-64     | 1964-65 | 1965-66 |
| P. F. Moulding Powder ..             | 6.89        | 6.63    | 3.24    |
| U. F. Moulding Powder ..             | 0.51        | 0.36    | 1.01    |
| Cellulose Acetate Moulding Powder .. | 17.16       | 7.96    | 3.15    |
| Polystyrene Moulding Powder ..       | 3.22        | 4.72    | 4.18    |
| Vinyl Resins ..                      | 30.47       | 35.93   | 25.84   |

The country is now an exporter of plastics goods. The following is the yearly exports of plastics from India :

| Year          | Rs. crores |
|---------------|------------|
| 1961-62 .. .. | 0.83       |
| 1962-63 .. .. | 1.05       |
| 1963-64 .. .. | 2.64       |
| 1964-65 .. .. | 3.19       |
| 1965-66 .. .. | 2.70       |

As can be seen from the above figures, there is a fall in exports during 1965-66 to the extent of nearly Rs. 48 lakhs.

Itemwise, the fall in exports is estimated as under: Polyline Jute Rs. 16 lakhs, Bangles Rs. 16 lakhs, Fountain Pens Rs. 6 lakhs, Linoleum Rs. 6 lakhs.

In order to encourage exports, an Export Promotion Council was set up in 1955. The Government also allows rebate of import duty at specified rates on raw materials used in the manufacture of plastics goods intended for export. At present the concession is given on urea formaldehyde, cellulose acetate/cellulose acetate butyrate and polystyrene moulding powders.

The leading item of export is leather cloth. The major importers of leather cloth from India are South Viet Nam, Britain, Kuwait, Ceylon and Thailand.

Ceylon leads other countries in import of Indian plastics goods. The other importing countries include Burma, Kuwait, Kenya, Saudi Arabia, Tanzania, Mauritius and Mozambique.

The following is the yearly import of synthetic plastics materials to India (Latest available) :

| Year          | Rs. lakhs |
|---------------|-----------|
| 1960-61 .. .. | 571       |
| 1961-62 .. .. | 777       |
| 1962-63 .. .. | 648       |
| 1963-64 .. .. | 471       |
| 1964-65 .. .. | 381       |

## RAYON INDUSTRY

### RAYON, SYNTHETIC FIBRES, AND CELLULOSE FILM

#### Rayon Filament

There were three units at the beginning of the Second Plan in the country, manufacturing rayon filament with an annual capacity of 22.3 million lbs. Subsequently, three new units with a combined capacity of nearly 21.6 million lbs. had commenced production. There are now nine large scale units engaged in production of viscose filament rayon in India, one in acetate filament and three in staple fibre.

The staple fibre factory of Gwalior Rayons started production in 1954 with a capacity of 5,400 tons per year. The production capacity has now increased to 36,000 tons per year. The South India Viscose has a capacity of 4,000 tons per year.

A Rs. 6 crore nylon plant with a production capacity of 5 tons a day is to be set up at Modinagar, U.P.

The consumption of rayon filament on the basis of production plus imports from 1961 to 1965

\* Data are inclusive of saleable waste.

is estimated as under :—

|         | (Million lb.) |         |              |
|---------|---------------|---------|--------------|
| Year    | Production    | Imports | Availability |
| 1961 .. | 51.7          | 42.9    | 94.6         |
| 1962 .. | 60.9          | 38.1    | 99.0         |
| 1963 .. | 73.1          | 27.0    | 100.1        |
| 1964 .. | 81.9          | 25.3    | 107.2        |
| 1965 .. | 82.1          | 12.7    | 94.8         |

#### Staple Fibre

At the start of the Second Plan, Messrs. Gwalior Rayon Silk Manufacturing (Weaving) Company was the only factory producing staple fibre. Its plant at Nagda had a capacity of 16 million lbs. per annum at that time. Since then it has expanded its capacity to 48 million lbs. per annum thereby exceeding the target capacity of 32 million lbs.

† includes 20 million lbs. of tyre cord.

The production of staple fibre\* during 1961 to 1965 is given below :

| Year       | Installed capacity | Production |
|------------|--------------------|------------|
| 1961 .. .. | 25.2               | 26.0       |
| 1962 .. .. | 26.0               | 32.4       |
| 1963 .. .. | 26.0               | 32.2       |
| 1964 .. .. | 26.0               | 37.4       |
| 1965 .. .. | 26.0               | 34.3       |

#### Art Silk Fabrics

The production of art silk fabrics during the Third Five Year Plan period viz. 1961 to 1964 is given below :

(Production of Art Silk fabrics including synthetics).

| Year       | Production |
|------------|------------|
| 1961 .. .. | 570.0      |
| 1962 .. .. | 600.0      |
| 1963 .. .. | 648.0      |
| 1964 .. .. | 832.8      |

The per capita consumption could be reckoned at about 1.8 yards in 1965-66. The requirements of art silk fabrics by 1965-66 could be placed at about 864 million yards. While estimating the overall requirements of art silk cloth, account has to be taken of exports. Export of art silk fabrics is, at present estimated to be of the order of 25-30 million yards. But with continuing efforts it might be possible to export about 50 million yards by 1965-66.

On the above basis, the total requirements of art silk fabrics by 1965-66 may be reckoned at about 915 million yards. On the assumption that (1) consumption of rayon filament and staple fibre will be in the ratio of 60 : 40 and (2) that one lb. of yarn will produce 5 yards of cloth, the total requirements of weaving industry for filament yarn and staple fibre by 1965-66 would be of the order of 110 million lbs. and 75 million lbs. respectively.

In addition to the weaving industry, rayon filament is required for tyre cord and other miscellaneous industries and purposes such as knitting and hosiery industries, gas mantles, fishing nets etc. The demand for rayon tyre cord from the automobile industry was provisionally estimated at 20 million lbs. by the end of the Third Plan period. In order to meet this demand, the Government gave licence to establish a tyre cord plant at Kalyan. This plant was established by Century Rayon in collaboration with Alge-

mene Kunstzijde Unie N. V. of Holland and Venenigte-Glanstoff Fabriken, A.G. of West Germany.

#### Pattern of Consumption :

In terms of different types of filament and staple fibre the requirements by 1965-66, based on the above target were estimated as follows :

| (Million lbs.)  |               |              |
|-----------------|---------------|--------------|
| Nature of fibre | Filament yarn | Staple fibre |
| Viscose ..      | 96.0†         | 64.0         |
| Acetate ..      | 24.0          | 8.0          |
| Cuprammonium    | 10.0          | ..           |
| Synthetics ..   | 10.0          | 3.0          |
| <b>Total ..</b> | <b>140.0</b>  | <b>75.0</b>  |

† Includes 20 million lbs. of tyre cord.

According to the revised estimates, the requirements of filament and staple fibre in 1965-66 were placed at 204 million lbs. (including 20 million lbs. for tyre cord) and 141 million lbs. respectively.

The overall position regarding licensing of additional capacity in relation to anticipated requirements is indicated in the following statement :

| Name of the fibre                |                | (Million lbs.)                    |                                                                                  |                                                        |
|----------------------------------|----------------|-----------------------------------|----------------------------------------------------------------------------------|--------------------------------------------------------|
|                                  |                | Estimated requirements by 1965-66 | Total capacity expected on the basis of licences issued under the Industries Act | Total capacity expected on the basis of C.G. clearance |
| <b>I. Rayon filament</b>         |                |                                   |                                                                                  |                                                        |

| <b>Total .. .. .</b>             | <b>.. .. .</b> | <b>140.0</b>                      | <b>146.0</b>                                                                     | <b>100.7</b>                                           |
| <b>II. Staple fibre</b>          |                |                                   |                                                                                  |                                                        |
| Viscose .. .. .                  | .. .. .        | 64.0                              | 56.0                                                                             | 56.0                                                   |
| Acetate .. .. .                  | .. .. .        | 8.0                               | 1.0                                                                              | ..                                                     |
| Synthetics .. .. .               | .. .. .        | 3.0                               | ..                                                                               | ..                                                     |
| <b>Total .. .. .</b>             | <b>.. .. .</b> | <b>75.0</b>                       | <b>57.0</b>                                                                      | <b>56.0</b>                                            |
| <b>Total of I and II .. .. .</b> | <b>.. .. .</b> | <b>215.0</b>                      | <b>203.0</b>                                                                     | <b>156.7</b>                                           |

The schemes so far licensed or recommended for licence under Industries Act will increase the overall capacity for rayon filament, staple fibre and synthetics to about 203 million lb. as against the target of 215 million lb. envisaged for the Third Plan.

**Requirements of Raw Materials :** The chief raw materials for the viscose process of filament and staple fibre, are rayon grade pulp, caustic soda and sulphur. The requirements of these raw materials for the production of 96 million lb. of viscose filament, 64 million lb. of staple fibre and 32 million lb. of acetate filament and acetate staple fibre are estimated as follows :

|                                                 |                     |
|-------------------------------------------------|---------------------|
| Rayon grade pulp .. ..                          | 82,000 tons         |
| Caustic Soda .. ..                              | 80,000 "            |
| Sulphur (including carbon disulphide) .. ..     | 60,000 "            |
| Alcohol .. ..                                   | 6.4 million gallons |
| Cotton linters (for acetate process only) .. .. | 13,000 tons         |

In addition, small quantities of copper sulphate, ammonia, sodium hydroxide, cotton linters and sulphuric acid will be required for the manufacture of cuprammonium and phenol and ammonia for the manufacture of caprolactum.

The entire requirements of rayon grade pulp are at present met by imports. A number of schemes for the manufacture of rayon grade pulp with a total annual capacity of about 270,000 tons have, however, been licensed or recommended for licence under the Industries Act.

#### CELLULOSE FILM

The first unit for the production of cellulose film was set up by Messrs. Travancore Rayon Ltd. with an annual capacity of 400 tons in 1960. Licences have been granted to two more units, details of which are given below :

1. Messrs. Kesoram Cotton Mills have been licensed to set up a cellulose film unit at Hooghly with a capacity of 1,800 tons per annum. The foreign exchange for the import of plant and

equipment for this project has been cleared by the capital goods committee.

2. Messrs. National Rayon secured licence for a capacity of 1,800 tons per annum.

On the basis of schemes so far licensed under the Industries Act, the total capacity for cellulose film is expected to increase from 3,600 tons to 7,200 tons per annum. Of this, the total capacity expected to materialise on the basis of capital goods clearance is 5,400 tons.

It was expected that by 1965-66 the total demand for cellulose film would go upto about 10,000 tons per annum.

#### Requirements of Raw Materials :

The requirements of raw materials for a production target of 5,400 tons of cellulose film are estimated to be as follows :

|                        |            |
|------------------------|------------|
| Rayon grade pulp .. .. | 6,200 tons |
| Caustic Soda .. ..     | 5,400 tons |
| Sulphur .. ..          | 4,500 tons |

The table given below summarises the development of rayon, staple fibre and cellulose film industry envisaged during the Third Plan :

| Particulars                                                 | 1960-61 | 1965-66  |
|-------------------------------------------------------------|---------|----------|
| <b>ANNUAL CAPACITY :</b>                                    |         |          |
| 1. Rayon filament (million lb.) ..                          | 52.3    | 140.0    |
| 2. Staple fibre (million lb.) ..                            | 48.0    | 75.0     |
| 3. Cellulose film (tons)                                    | 3,600   | 5,400    |
| 4. Rayon grade pulp (tons) .. ..                            | ..      | 1,00,000 |
| <b>PRODUCTION :</b>                                         |         |          |
| 1. Rayon filament (million lb.) ..                          | 47.0    | 140.00   |
| 2. Staple fibre (million (estimated) lb.) .. .. (estimated) | 48.0    | 75.0     |
| 3. Cellulose film (tons)                                    | 2,084   | 5,400    |
| 4. Rayon grade pulp (estimated) (tons) .. ..                | ..      | 90,000   |
| <b>EXPORTS :</b>                                            |         |          |
| 1. Art Silk Cloth (million yds.) .. (estimated)             | 30.0    | 50.0     |

**Rayon Fabrics Export :** Exports of silk and synthetic fibre which rose to a peak of 90.5 million metres (Rs. 10.35 crores) during 1963 declined to 64.06 million metres (Rs. 7.94 crores) in 1964. The figures for 1964 are provisional.

The principal buyers were Malaysia, Ceylon, Hongkong, Aden and Afghanistan. 1. Malaysia Rs. 101.68 lakhs (90.86 lakh metres); 2. Ceylon Rs. 77.43 lakhs (75.70 lakhs metres); 3. Hongkong Rs. 60.17 lakhs (57.64 lakh metres); 4. Aden Rs. 39.83 lakhs (47.22 lakh metres); 5. Afghanistan Rs. 38.97 lakhs (28.91 lakh metres).

Spokesmen of the industry are confident of attaining the export target of Rs. 15 crores for the current year provided adequate assistance is offered. It is, however, felt that exports will be considerably affected because the absence of incentive import licences will tend to drive out many out of the trade.

#### FOURTH PLAN TARGETS

In India, rayon is still the predominant sector of the industry, while the development of the synthetic fibres (non-cellulosics) has yet to receive adequate attention. This lacuna is expected to be removed to some extent during the Fourth Plan. The tentative targets for the production

of synthetic fibres for the Fourth Plan are given in the following table :

|      |                                                       |    |    |    | (In million kg.)                                      |                                             |
|------|-------------------------------------------------------|----|----|----|-------------------------------------------------------|---------------------------------------------|
| Item |                                                       |    |    |    | Additional capacity to be licensed during Fourth Plan | Fibres to be available for textile purposes |
| 1.   | Nylon Filament and staple                             | .. | .. | .. | 8.5                                                   | 12.0                                        |
| 2.   | Polyester                                             | .. | .. | .. | 15.5                                                  | 10.0                                        |
| 3.   | Polyacrylonitrile                                     | .. | .. | .. | 20.5                                                  | 10.0                                        |
| 4.   | Polypropylene and polyvinyl alcohol                   | .. | .. | .. | 20.0                                                  | 5.0                                         |
| 5.   | Nylon tyre yarn, fishing net yarn and industrial yarn | .. | .. | .. | 12.0                                                  | 13.0                                        |

The basic raw material for the production of polyester fibre is DMT, which is proposed to be manufactured by a new plant to be set up as part of the petro-chemical complex in Gujarat. A

second DMT plant is also expected to be set up during the Fourth Plan period.

Side by side with the development of synthetic fibres, expansion of capacity of milliners is also proposed during the Fourth Plan period. The annual capacity of Viscose Staple fibre is proposed to be increased from 60 million kg. to 90 million kg.

#### WORLD PRODUCTION

According to the *Textile Almanac*, the U.S. remained the World's largest producer of rayon and acetate in 1965, the output increasing by 6% per cent. over that in 1964. The production in Japan, the second largest producer, increased from 1,061 million lbs in 1964 to 1,071 million lbs in 1965. Russia produced the third largest volume of rayon and acetate with 737 million lbs.

## RUBBER INDUSTRY

INDIA produced 45,616 metric tonnes of raw rubber during 1964-65 as against 37,487 metric tonnes in 1963-64.

Rubber production in India during March 1965 totalled 2,414 tonnes, according to the latest statistics of the Rubber Board. About 5,911 tonnes were consumed by manufacturers during the period. Stocks with estates and dealers during the same period were 6,566 m. tonnes.

Manufacturers held 7,523 tonnes in addition to 5,059 tonnes of synthetic rubber and 1,408 tonnes of reclaimed rubber. Imports of natural

rubber amounted to 1,201 tonnes during March 1965. Exports were nil.

Of an area of about 383,813 acres under rubber cultivation at the end of 1964-65, 361,147 acres are located in the State of Kerala. Other rubber growing areas are the districts of Kanya Kumari, Coimbatore, Salem, Nilgiris and Madurai in Madras State and Coorg and Chickmagalur in Mysore State, and Andamans and Tripura.

The total number of rubber estates registered up to the end of 1964-65 was 71,852.

synthetic 10,723); 1963-64: 73,114 (natural 61,155; synthetic 11,959); 1964-65: 85,711 (natural 61,057; synthetic 15,235).

Imports of rubber in metric tons were: 1960-61: 31,222 (natural 23,125; synthetic 8,097); 1961-62: 32,649 (natural 22,528; synthetic 10,121); 1962-63: 33,657 (natural 23,800; synthetic 10,297); 1963-64: 35,067 (natural 26,275; synthetic 8,812); 1964-65: 84,816.

The estimated production of natural rubber during the last year of the Third Five Year Plan period is as follows (in metric tonnes): 1965-66: 41,453. The estimated demand for different types of rubber during 1964-65 & 1965-66 is as given below:

The following are other details:—

| Year    | Planted area in acres | Tappable Area (worked out on the basis of year of planting) in acres | Production (Metric Tonnes) | Average yield per acre in kgs. |
|---------|-----------------------|----------------------------------------------------------------------|----------------------------|--------------------------------|
| 1957-58 | 281,998               | 175,500                                                              | 24,534                     | 140                            |
| 1958-59 | 286,567               | 173,600                                                              | 24,169                     | 139                            |
| 1959-60 | 305,452               | 172,500                                                              | 24,173                     | 140                            |
| 1960-61 | 321,002               | 173,600                                                              | 25,697                     | 148                            |
| 1961-62 | 348,121               | 183,600                                                              | 27,446                     | 149                            |
| 1962-63 | 361,142               | 207,700                                                              | 32,239                     | 155                            |
| 1963-64 | 377,938               | 236,000                                                              | 37,487                     | 156                            |
| 1964-65 | 383,813               | 263,000                                                              | 45,616                     | 170                            |

#### STATEWISE DISTRIBUTION OF THE PLANTED AREA AT THE END OF 1964-65 (Area in acres)

| STATES               | Holdings      |                | Estates      |                |
|----------------------|---------------|----------------|--------------|----------------|
|                      | No. of units  | Area           | No. of units | Area           |
| Kerala .. .. .       | 70,345        | 231,062        | 572          | 130,085        |
| Madras .. .. .       | 854           | 5,942          | 42           | 11,906         |
| Mysore .. .. .       | 25            | 392            | 11           | 3,945          |
| Andamans .. .. .     | Nil           | Nil            | 1            | 422            |
| Tripura .. .. .      | 1             | 20             | Nil          | Nil            |
| Maharashtra .. .. .  | 1             | 39             | Nil          | Nil            |
| <b>TOTAL</b> .. .. . | <b>71,226</b> | <b>237,455</b> | <b>626</b>   | <b>146,353</b> |

Areas upto and including 50 acres are classified as *Small Holdings* — (small growers).

Areas above 50 acres are classified as *Estates* — (large growers).

With effect from December 10, 1963, the Government of India fixed for all classes of business minimum prices, exclusive of sales tax, for the various grades and qualities of rubber and latex of different concentrations, excluding the cost of container.

The quantities actually consumed during the last few years in metric tonnes were:

1960-61: 55,545 (natural 48,148; synthetic 7,397); 1961-62: 58,596 (natural 48,410; synthetic 10,186); 1962-63: 64,276 (natural 53,553;

The production of natural rubber at the end of the Third plan was 50,000 tonnes as against an estimate of 45,000 tonnes.

At present about 16 per cent of the demand is met by synthetic rubber.

The total value of rubber plantation in the country is estimated at over Rs. 50 crores. The rubber plantation and manufacturing industries offer direct employment to about 1,35,000 workers and means of livelihood for over four lakh people according to a modest estimate.

#### SYNTHETIC RUBBER

Man-made rubber or synthetic rubber (polymer) is manufactured by polymerisation which is said to be the chemical union of two or more molecules (monomers) resulting in the formation of a new compound, a large molecule — polymer of the same empirical formula but of greater molecular weight. Natural rubber consists mainly of a polymer of isoprene. The most commonly used monomers for the manufacture of synthetic rubber are divinyl, isoprene and isobutene, which are commonly obtained from refinery products.

Different varieties of synthetic rubber are:

**Styrene Butadiene Rubber (SBR):** This is the most common type of synthetic rubber that can replace natural rubber in virtue of its high abrasion resistance. It is, therefore, widely used in tyre treads, belting, hose, covering footwear, etc. Styrene (mobile liquid) and Butadiene (gas) are the organic chemicals needed as intermediaries for the production of SBR. At Bavelly, U.P., commercial ethyl alcohol made from molasses is used as the base.

**Butyl Rubber:** Isoprene and isobutylene are the intermediaries for the production of butyl rubber. This is chemically inert and is used for diaphragms, gaskets and steam hose linings.

**Neoprene:** This is similar to natural rubber and is one of the first synthetic rubbers. Chloroprene is used for its manufacture. It has very high tensile strength; it is flame proof and resistant to oil solvents. It is, therefore, extensively used in adhesives, insulations and fuel hoses, etc.

**Cis-Polyisoprene:** Waste gas from a petrochemical industry is used as a base for the manufacture of this type of synthetic rubber. The proposed synthetic rubber plant in Gujarat sponsored by the ONGC will manufacture this variety.

The other varieties are:

(Cis-Polybutadiene, Polysulphide Rubber Thiokol), and Nitrite Rubber.

The Synthetic rubber plant at Bareilly (U.P.) is the first of its kind in Asia commissioned in 1964. Its annual capacity is 30,000 tonnes

having a capital investment of Rs. 20 crores. Foreign exchange to the tune of Rs. 8 crores is expected to be conserved yearly by the country through this plant. It employs about 1200 persons. About 116 thousand tonnes of synthetic rubber was produced during 1964-65.

According to the planning group of the petrochemical industry, 120,000 tonnes capacity of synthetic rubber would need be established by 1970-71 — end of the Fourth Plan. A \$25 million project is proposed to be set up near Bombay with an annual capacity of 25,000 tonnes. Another project by Mafatlal Group through NOCI (National Organic Chemical Industry Ltd.) with an equivalent capacity is also to be set up with foreign collaborations. Two more complexes are envisaged at Barauni and Haldia.

**Rubber Goods:** India has a modern manufacturing industry. Production of rubber goods has increased more than three times in the last 15 years.

The raw materials used in the manufacture of rubber goods are chiefly titanium dioxide, carbon black and zinc oxide. Different products constituting "rubber goods" are: rubber foot-

wears, toys, tyres, tubes, hoses (radiators, vacuum brakes, etc.), fan belts, ebonite, water proof fabrics — mackintosh, latex foam sponges and other rubber components of railway fittings, etc. Of this, the manufacture of tyres and tubes accounts for more than 70 per cent of the total consumption of rubber and bulk of capital investment followed by foot-wear with about 15 per cent annual consumption. In fact, the progress of rubber manufacturing industry in any country is based on the performance of its automobile tyre and tube industry. There are at present eight such units and four more are to be set up. The total capital investment in the automobile tyre industry is nearly Rs. 25 crores. Government of India has controlled the prices for tyres and tubes.

Rubber foot-wear industry is the second largest among rubber goods industries. There are about 19 well-organised units producing 60 million pairs in addition to many small units throughout the country. In 1963-64 rubber footwear worth Rs. 4.5 lakhs were exported. A Rubber Development Wing at New Delhi has been set up to give assistance to this potential industry.

The progress of the manufacturing industry is given below:—

| Product                                                       | 1960     | 1961     | 1962    | 1963     | 1964     |
|---------------------------------------------------------------|----------|----------|---------|----------|----------|
| Footwear (Lakh pairs) .. .. .                                 | 440.4    | 451.2    | 498     | 465.6    | 470.4    |
| Dipped Rubber goods, Toys, Balloons, etc. (Lakh Doz.) .. .. . | 324.0    | 255.6    | 3,076.8 | 2,740.4  | 3,075.7  |

### IMPORTS

Considerable quantities are being imported to meet the increased domestic demand of the manufacturing industry.

(Rs. lakhs)

| Imports                                                | 1960-61  | 1961-62  | 1962-63  | 1963-64 | 1964-65 |
|--------------------------------------------------------|----------|----------|----------|---------|---------|
| 1. Crude rubber, includingthetic and reclaimed .. .. . | 1,078.22 | 1,010.37 | 1,023.22 | 975.04  | 542.89  |
| 2. Rubber fabricated materials .. .. .                 | 22.59    | 15.72    | 21.4     | 23.10   | 22.39   |
| 3. Rubber manufactured articles .. .. .                | 302.85   | 333.09   | 154.13   | 174.93  | 116.75  |

**Import duty:** An initial duty of 5 per cent 22 per cent in April 1963. With the regulatory cent. But the excise duties on tyres, tubes, was introduced in May 1957. But this was import duty of 10 per cent introduced in Feb. footwear and cycle parts have been totally increased to 10 per cent in March 1961 and 1965, the present duty comes to 32 per removed.

## SHIPPING INDUSTRY

SHIPPING is an integral and essential part of our economy, helping towards greater self-reliance in regard to the transport of our exports and imports, and saving and earning for the country a large amount of foreign exchange.

In 1962, the Indian Shipping crossed the milestone of a million gross registered tons.

Indian ships are in a position to carry the entire dry cargo and about 20 per cent of the wet cargo moving on the coast. In spite of the significant expansion that has taken place, Indian tonnage is not yet in a position to carry more than 12 per cent to 15 per cent of the country's foreign trade. This is because the volume of the country's international trade has also registered a steep increase with the growing industrial development and the expansion of the country's export trade. Nevertheless, Indian ships earn about Rs. 50 crores in foreign exchange every year. The quantity of cargo carried and the freight and passenger earnings of Indian

ships have been steadily increasing as will be seen from the table below:

| Year    |    |    |    |    |    |    |    |    |    | Cargo carried in overseas trade including adjacent trade | Earnings in the overseas trade including adjacent trade |
|---------|----|----|----|----|----|----|----|----|----|----------------------------------------------------------|---------------------------------------------------------|
|         |    |    |    |    |    |    |    |    |    | (lakhs of tons)                                          | (Rs. in crores)                                         |
| 1960-61 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 30.78                                                    | 21.48                                                   |
| 1961-62 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 34.21                                                    | 31.66                                                   |

\* Figures in deadweight tons.

During the Third Plan period 11 bulk carriers G.R.T. were acquired. Eleven more bulk aggregating about 2.41 lakh G.R.T. and 4 carriers of about 2.34 lakh G.R.T. are under overseas tankers aggregating 1.05 lakh construction.

### ANALYSIS OF TONNAGE AS ON MARCH 31, 1966 (Ships of 150 g.r.t. and above)

| 20 years and over (built in 1943 or earlier)          | 1              | 5,876    | 31             | 107,258 | 32             | 113,134<br>(9.2%)    |
| Small Companies†                                      | —              | —        | 5              | 1,764   | 5              | 1,167<br>(0.1%)      |
|                                                       | 99             | 837,147  | 109            | 396,706 | 208            | 1,233,853<br>(100 %) |

A significant step taken during the Second Plan period was the establishment of a non-lapsing shipping development fund for grant of loans to shipping companies for the acquisition of tonnage.

Another significant step taken in the field of shipping was the establishment of a Shipping Co-ordination Committee in the Department of Transport. The Committee is intended to bring

about better liaison between various Ministries of the Government of India and other Government organisations which have cargoes requiring transport, on the one hand, and the Indian shipping companies, on the other, so as to ensure the maximum utilisation of the available Indian tonnage.

The Government of India has agreed to permit

the acquisition of second-hand tonnage on deferred payment terms which involve not more than 20 per cent down payment, with the balance of the price spread over a period of 5 years. The Government has also agreed to consider orders for building new ships provided the payment of price is spread over a period of 7 years after delivery, with a small initial cash payment.

\* As much as 80.8 per cent. of the Indian tonnage operating in the overseas trades is under 10 years of age.

† Owning total tonnage not exceeding 1,000 g.r.t. and plying in short coastal range. Source: Indian Shipping.

## PROGRESS OF INDIAN TONNAGE

**Note :—**While the fleet tonnage figures are as on the dates mentioned in column 1 of the Table, the tonnage of coastal cargo carried (column 5)† is for the year ending on those dates and the tonnage of the total overseas and coastal cargoes (column 6) is for the twelve months ended 31st March of the year mentioned in column 1.

| (1)                                             | FLEET             |          |                   |         |                                      |           | TRADE                                                                             |                                                               |

\* In respect of these figures, there has been a slight discrepancy amounting to a few thousand tonnes when compared with figures of licensed tonnage published in the earlier issues of this journal because of one or two ships having been acquired but not licensed on the dates indicated.

† The Planning Commission appears to have taken the figure at the end of the year (31-12-1951) as the tonnage at the beginning of the Plan.

‡ Metric tonnes. § Including 23,000 tons of tankers and salvage tug of 1,000 tons.

Source : Indian Shipping.

## SHIPPING ACT

The Merchant Shipping Act 1958 provides for the establishment of a National Shipping Board and a Shipping Development Fund. It also provides for the safety and the efficiency of the merchant marine and the welfare of seamen and passengers.

There is a National Welfare Board for Seafarers to advise Government on welfare problems.

An important provision is about the definition of an Indian ship.

## Shipping Board

The National Shipping Board mentioned in the Act was set up on 1st March 1959.

Immediately after the 1st Board was set up, it appointed a Committee under the chairmanship of Mr. A. Ramaswami Mudaliar to formulate the shipping target for the Third Five-Year Plan. The present Chairman of the Board is Mr. Raghunath Singh, M.P.

## MERCHANT NAVY TRAINING

The Government of India have set up six training establishments for the training of

merchant navy officers and ratings. The Training Ship 'Dufferin' which provides pre-sea training course of two years for navigating cadets was set up in 1927. The annual out-put of this Training Ship is 80. Efforts are being made to replace the existing training ship by a new one when the annual intake is proposed to be increased from 80 to 125. The Directorate of Marine Engineering Training was set up in 1948 to provide a four years' course for engineering cadets. The present intake is 100 cadets per annum. But efforts are being made to increase it to 150. The Nautical and Engineering College provides post-sea instructional courses for both navigating and engineering cadets and apprentices who are preparing for Ministry of Transport certificate of Competency Examinations. There is no limitation as to the intake of this institution. The Training Ship 'Bhadra', 'Mekhala' and 'Nau Lakshmi' are ratings training establishments. The first two were started in 1950 while the third one was commissioned in 1955. These institutions provide a three months' course for deck, engine and saloon ratings. The combined monthly intake of these institutions is 113 at the moment. The annual expenditure on the running of all the six establishments is Rs. 36 lakhs approximately. Since the

inception of these institutions, 28,737 candidates have been trained upto the end of 1965.

In 1959, the Government of India set up the Merchant Navy Training Board for advising the Government on all matters pertaining to the training of Merchant Navy Personnel. The Board is reconstituted every two years.

The Third National Maritime Day was celebrated on the 5th April 1966, in the usual manner, in almost all the maritime States of India. The theme of this year's celebration was "The role of ship-building, ship-repairing and ancillary industries in the country's economy".

## FIVE-YEAR PLANS

The First Plan had fixed a target of 600,000 G.R.T., which was reached during the Plan period. A financial allocation of Rs. 26.3 crores had been made in the Plan.

The Second Plan envisaged a target of 900,000 G.R.T., with a financial provision of Rs. 45 crores (inclusive of the carryover of Rs. 8 crores from the First Plan). The target was fulfilled during the Plan period. The financial provision was increased to about Rs. 52.7 crores.

A target of 10.8 lakhs G.R.T. was initially fixed for the Third Plan period with a financial allocation of Rs. 51 crores. The target was raised to 12.5 lakh G.R.T. and again to 13.25 lakh G.R.T. and these targets have also been reached. During the Third Plan period a beginning was made in the building up of a fleet of bulk carriers and overseas tankers.

Indications are that the long-term target will have to be in the region of 4 to 5 million G.R.T. to be achieved during the Fourth and the Fifth Plans.

### Sailing Vessels

The Sailing Vessels Committee emphasised that if the industry were to survive, the owners of sailing vessels should be encouraged to mechanise their vessels. Government have, therefore, approved a scheme for the grant of loans for this purpose. Under the scheme, loans are being granted for mechanisation of sailing vessels of 100 tons and over upto a maximum of 75 per cent of the cost of auxiliary machinery, provided the vessels in question are considered seaworthy and suitable for installation of machinery.

The Government of India has signed an agreement with the Mitsubishi Heavy Industries, Japan in June 1964 for the construction of India's Second Shipyard at Cochin. The shipyard will be built as a part of India's Third Five Year Plan and will comprise among other things a dock of 80,000 deadweight tons and a ship of 15,000 deadweight tons.

### SHIP-BUILDING

(See 'Hindustan Shipyard', 'Maragon Dock Ltd.' and 'Garden Reach Workshop Ltd.' under Government Industrial Undertakings.)

## SMALL-SCALE INDUSTRIES

INDIAN industry is made up primarily of small-scale rather than large-scale units. It is reckoned that there are about two crore persons engaged in small-scale and cottage industries.

The small-scale industry is primarily the responsibility of the State Government and not of the Centre. But the Centre supplements the efforts of the State Governments.

Small-scale industries include all industrial units with a capital investment of not more than Rs. 7.5 lakhs irrespective of the number of persons employed. Capital investment now means investment only in plant and machinery, irrespective of the number of people employed and excluding investment on lands and buildings.

Under the State Aid to Industries Act/Rules State Governments are empowered to provide finance in the form of loans, guarantees for loans raised from banks, subscription to shares and debentures, etc. Although loans under the Act are generally for medium and long-term needs, advances are made for short-term requirements also.

In most of the States, loans up to Rs. 1,000 are being advanced on personal bonds, up to Rs. 5,000 against one or more personal sureties and above Rs. 5,000 at 75 per cent of the security (land, building, machinery, equipment, stocks and other assets including those created out of the loans) offered. These loans are repayable in easy equal instalments spread over 10 years. No loan to any single party can normally exceed Rs. one lakh and to an industrial co-operative Rs. two lakhs without the prior concurrence of the Central Government.

The rate of interest on loans advanced under State Aid to Industries Act would be governed by the capital investment of small scale industries—it would be 3 per cent to industrial undertakings with capital investment upto Rs. 2 lakhs, 4½ per cent to undertakings with capital investment of Rs. 2 to 4 lakhs and 6 per cent to undertakings with capital investment of more than Rs. 4 lakhs. This does not, however, apply to industrial co-operatives in the small scale sector which will continue to receive loans at 2½ per cent.

New industries as well as industries which need revival or development in the cottage and small-scale sectors are eligible for grant of loans. Preference would be given to small scale units in the light of their capital investment i.e. units with smaller capital investment would be given preference over others.

While much is not yet known about the role of commercial banks in this process, the State Bank of India under its liberalised scheme made significant progress. Another landmark had been the initiation from 1st July 1960 of the Credit Guarantee Scheme by the Reserve Bank of India. Loans are also guaranteed to small industries by the National Small Industries Corporation and the State Financial Corporations. The N.S.I.C. has been extending financial assistance through its scheme under which it supplies machines on hire-purchase basis.

Small-scale industries are distinct from village industries and handicrafts. Generally speaking village industries are of traditional nature catering primarily to local markets.

Small-scale industries can and do produce a large variety of consumer goods:—bicycles, agricultural implements, sewing machines, domestic electrical appliances, builders' hardware, cutlery and domestic hardware, furniture, wood work, footwear and other leather products, ceramics, glassware, sports goods, hand tools, surgical and drawing and surveying instruments, mechanical toys, matches, chemicals, paints and varnishes, polishes, etc.

Small-scale industries can really be classified into four main groups:—manufacturing industries, feeder industries to large industries, servicing industries, and ancillaries to large industries.

Manufacturing industries include complete articles or products manufactured for sale directly to consumers (consumer items) and in some cases used as spare parts.

Feeder industries are a kind of general engineering shops which specialise in certain types of products and services such as castings, forging tools and dies, electroplating and galvanizing, welding and other services for large scale industries. They do not have a regular line of work but take job orders from time to time depending upon the need of the large industry.

Servicing industries mostly cover light repair shops which are necessary to maintain mechanical equipment owned by the community. They cater to such works as auto repairs, repair of cycles and radios, photographic studios, repair of pumps, motors and other kinds of light machinery used in industry, agriculture, etc.

Ancillaries to large scale units include parts and components for several light engineering products such as cycles, sewing machines, electric motors, radios, clocks, automobiles, diesel engines, textile and other machinery and machine tools.

### REVIEW

The Small-scale Industries Board which helps the Government in formulating various policies and programmes relating to the development of small-scale industries was reconstituted with effect from July 1961.

Reviewing the growth of small-scale industries during the last 10 years, Shri Dasappa said that there were in June 1964, over 57,000 small scale units registered with the various State Directorates of Industries. The number of on-register small scale factories which availed of facilities from Central Small Industries Organisation have been estimated at about 2 to 2.5 lakhs. Even the limited data available on the production and employment potential of this sector show that in 1962, about 30 per cent of total output in the industrial sector and 26 per cent of the value added by manufacture, were contributed by the small scale sector. They provided employment to about 1.4 million workers.

Apart from the Central and State assistance to the small-scale industries, the State Bank of India and the State Financial Corporations have been advancing long and medium term loans. During the Second Plan period (1956-61), the

total credit both long-term and short-term provided to small-scale industries by various institutional agencies and State Governments amounted to Rs. 70 crores. Under the Credit Guarantee Scheme, the Reserve Bank of India issued till the end of 1963, 19,419 guarantee certificates amounting to Rs. 78.66 crores. Directors of Industries of the State Governments continued to render special assistance to the industries by arranging procurement of raw materials such as steel, tin plates and non-ferrous metals.

During the first four years of the Third Plan the State Governments advanced Rs. 21.73 crore to small units. The State Financial Corporations sanctioned loans to the extent of Rs. 17.81 crore to 1,718 units up to end of Sept. 1963 out of their own funds out of which Rs. 6.88 crores were actually advanced. Under the agency arrangements, the State Financial Corporations Punjab\*, Maharashtra, Kerala, Andhra Pradesh, Assam, U.P., Rajasthan and Gujarat sanctioned loans to the extent of Rs. 4.94 crores to 3.3 applicants out of which Rs. 3.56 crores have been actually advanced upto Sept. 30, 1963.

The State Bank of India sanctioned Rs. 41 crores by the end of 1963.

The intensive campaign which aims at the development of small-scale industries in underdeveloped areas in various districts of States was launched in the States of Andhra, U.P., Pradesh, Madhya Pradesh, Mysore, Punjab and West Bengal during 1961-62, bringing a total number of such districts to 42.

There are now 16 small Industries Service Institutes, 6 Branch Institutes and 65 Extension Centres, including Production Centres. They give valuable assistance to the small-scale units by giving technical advice and demonstration, preparing drawings for various types of improved tools and small machines and giving training in the handling of modern tools and equipment. The various training programmes initiated by the Small Industries Service Institutes include training of block level extension officers, even classes in business management for the benefit of Government Officers and small-scale industrialists. Forty-seven mobile workshops fitted with modern machine tools attached to the S.I.S. have been touring rural areas with a view to imparting technical knowledge.

There were 180 Industrial Estates with 8.5 factory premises functioning in 1965.

To encourage the spirit of inventiveness amongst industrial workers, artisans and technicians, the Inventions Promotion Board has been giving financial incentives in the form of grant and prizes. Prizes worth Rs. 18,500 were distributed among thirteen inventors during 1963-64. (See article 'Awards and Prizes' for more details.)

The responsibility for the development of khadi and village industries, which help relieving unemployment and under-employment in rural areas, has been vested in the Khadi and Village Industries Commission. (For details of the progress achieved in village industries see article 'Cottage Industries' in this book.)

The development of the coir industry, which is entirely in the small-scale sector, is

\* Composite State.

responsibility of the Coir Board. A sum of Rs. 50 crores had been allotted for its development during the Third Plan.

An outlay of Rs. 114.83 crores was provided in the Third Plan for the development programme of small-scale industries and industrial estates compared to Rs. 55.57 crores in the Second Plan. The break-up of the Plan allocation under major heads is as follows (in Rs. crores): Government schemes: 62.62; Industrial estate: 30.21; Central Government schemes: 22.00.

According to the Fourth Plan (draft) the estimated expenditure during the Third Plan for the development of village and small scale industries amounted to Rs. 219.56 crores, while the Fourth Plan provides for an outlay of Rs. 379 crores.

### DEVELOPMENT AGENCIES

The nature of assistance available and the organisations responsible for rendering such assistance are given below:—

- (i) Technical know-how; (ii) Industries Information service; (iii) model schemes and industrial designs; and (iv) market research: Central Small Industries Organisation (Small Industries Service Institutes and Extension Centres); (v) Common facilities (Small Industries Service Institutes, extension centres and State Institutes).
- Training: both technical and managerial (Small Industries Service Institutes, State Government Directorates of Industries, Directorate of Training and Employment (Industrial Training Institute)).
- Finance: (a) For cash loans:—(i) Long term (State Govts. under State Aid to Industries etc., State Financial Corporations); (ii) Short term (State Bank of India, cooperative banks, scheduled banks under the Guarantee Scheme of the Reserve Bank of India); (b) For machinery and hire purchase (National Small Industries Corporation, New Delhi and its branches).
- Marketing Services (Specially Govt. Purchase Scheme) (National Small Industries Corporation and its branches).
- Factory accommodation in industrial estates (State Govts. Directorates of Industries, National Small Industries Corporation (for accommodation at Okhla and Naini industrial estates only)).
- Raw material and power supply (State Directorates of Industries).

The agencies mainly concerned with the development of small-scale industries in the country are thus the State Directorates of Industries, Small Scale Industries Organisation under the Development Commissioner, Small Industries Service Institutes functioning in the States as well as in New Delhi and the National Small Industries Corporation, with four branches one each at Bombay, Calcutta, Delhi and Madras.

### INDUSTRIES AND LOCATION

The Office of the Development Commissioner of Small-Scale Industries, New Delhi, carried out a survey in certain areas relating to location of industry and production. The findings of this survey which show what industries were located in the area surveyed and what the production was in that area are given in the 1959-60 edition of the Directory.

### EXPORTS

The following items of small industries' products have been selected by the National Small Industries Corporation for promoting their sales in overseas markets:—Leather footwear and leather goods; Cotton and Woollen hosiery; Sports goods; Builders' hardware, locks and fasteners; Tinned fruits, chutneys and pickles; Paints and varnishes; Glass beads.

National Small Industries Corporation and the State Trading Corporation also assist in import and distribution of some articles like copper, zinc, copper and brass scrap, cycle and sewing machine parts, knitting needles.

## NATIONAL SMALL INDUSTRIES CORPORATION LTD.

(See article 'All India Corporations').

### SERVICE INSTITUTES

The Institutes give broad outlines of the potentialities of different small-scale industries. They supply information on the number of existing units, their production and installed capacities as well as the present consumption, future demands and export possibilities for their products.

Information about the working capital required for a new unit, suppliers of machinery and raw materials and markets for the sale of products, is also made available by the Institutes.

There are 22 Small Industries Service Institutes including six branch institutes in the country.

They are located in New Delhi, Bombay, Calcutta, Madras, Agra, Jaipur, Ludhiana, Bangalore, Indore, Rajkot, Patna, Cuttack, Gauhati, Srinagar, Kanpur, Allahabad, Hubli, Hyderabad, Trichur, Ahmedabad and Goa.

There are also 65 Extension Centres to provide specialized technical assistance to particular industries.

### INDUSTRIAL ESTATES

Another feature of the industrial policy is the establishment of industrial estates. This was initiated in 1955.

The main object is decentralization. Government seeks to remove small industrial units from crowded urban areas and thus reduce the pressure on the latter, and secondly it seeks to provide small units with factory space and common facilities for efficient working.

The State Governments acquire and develop land, construct roads, put up factory buildings, arrange for supply of water and electricity and also set up common service workshops. The factory buildings in the States are then let out at concessional rents, outright sale or hire-purchase basis to small entrepreneurs.

The Government of India advance to the States the entire cost of the estates as loans. Grants are also given for specific purposes, such as planning and designing of these estates. The loans will carry interest at 4½ per cent.

These industrial estates provide better accommodation for small industries with facilities of power, water, etc. They bring industries together and facilitate the establishment of common servicing centres, introduction of modern techniques, collective purchase of raw materials and sale of finished products. They stimulate the co-operative spirit among them.

Industrial estates are of two kinds—large estates near big cities and urban areas and small ones in community development blocks.

The larger estates cost roughly from Rs. 20 to 30 lakhs, the smaller ones from Rs. 2 to 3 lakhs.

Only two—the one at Naini and the other at Okhla—are under the National Small Scale Industries Corporation. The rest are under the States.

During 1960, the Government took decision to establish several new types of Industrial Estates namely Industrial Estates by private agencies, Ancillary Industrial Estates, Functional Industrial Estates, University Industrial Estates and smaller Industrial Estates.

Apart from the government sponsored industrial estates a number of estates are being set up by Cooperative Societies and Joint Stock Companies of industrialists. In Maharashtra and Gujarat 20 such estates were functioning at the end of March 1964.

A State-wise list of Industrial estates approved by this organisation is given below:

### Industrial Estates Approved (as on 31st March 1964)

Andhra Pradesh: Sanatnagar; Vijayawada; Samal Kot; Visakhapatnam; Nandyal;

Warangal; Karim Nagar; Mehboob Nagar; Nellore; Mirnal; Prodlattur; Masulipatnam; Amadalavalasa; Khammam; Suriyapat; Jangaon; Hyderabad; Kisanagar; Sadalpalli.

Assam: Gauhati; Dhekiajute; Nalbari; Tinsukhia; Silchar.

Bihar: Patna; Biharsharif; Darbhanga; Muzaffarpur, Purulia; Daltanganj; Kailash; Jazidih; Kishanganj; Ranchi; Lakhmasal; Ramnagar; Thalya; Baroon, Murlijan; Adityapur; Bhagalpur.

Gujarat: Rajkot; Ahmedabad; Baroda; Udhna; Gandhidham; Bhavnagar; Somat; Godhra; Mehsana; Navsari; Baroda; Mehmedabad; Junagadh; Amreli.

Jammu and Kashmir: Gandhinagar; Srinagar; Anantnag; Gandarbal; Bandipura; Baramulla; Sopore; Shopian; Kangan; Kathua; Sonawari; Udhampur; Bijnor; Pulwama; Tral; Pattan; B. S. Para; Akhnoor; Samha; Hiranagar; Ramnagar; Poonch; Reasi; Rajauri.

Kerala: Pappanamcode; Ettumanoor; Kollakadava; Olavakkod; Ollur; Veli & Kozhikode; Palayad.

Madhya Pradesh: Indore; Gwalior; Bhopal; Jabalpur; Burhanpur; Sagar; Raipur; Ujjain; Satna; Ratlam; Durg; Kathi; Bilaspur.

## TEA INDUSTRY

FOR the last 60 years, Indian tea production and export had been the largest in the world. Tea ranks as the largest item in India's export trade. The present export amounts to 197 thousand tonnes, accounting for roughly two-thirds of the production, and the foreign exchange earned totals Rs. 114.8 crores. (April '65 to March '66).

The State Governments also derive considerable revenue from the agricultural income tax on tea grown within their jurisdiction as well as from the sales tax, carriage tax, octroi, etc. on the commodity.

The industry as a whole gives employment to a labour force of almost one million. The average daily number of labour employed (fields and factories) during 1962 and 1961 total 816,262 and 822,834 respectively.

Unlike China, which consumes all its tea, India exports a substantial portion of tea production in the country. India meets nearly 38 per cent of the world demand for tea (1964). The share of tea in total export earnings in India ranges from 15 to 20 per cent. Britain, being traditionally the world's greatest tea-drinking nation, has been India's major purchaser of tea. In 1963, India produced 346 million kg. of tea and exported 224 million kg., earning Rs. 132.4 crores. This was the highest export production performance in the last five years.

There are about 9,835 tea estates with a total area of 337,874 hectares (834,887 acres). Assam accounts for the highest acreage—410,806 acres, followed by West Bengal 209,615 acres, Kerala 98,736 acres, and Madras 81,615 acres, the rest being covered by Tripura, Punjab\* (Kangra), Uttar Pradesh, Mysore, Bihar and Himachal Pradesh (Mandi) in order of magnitude.

There are over 700 joint stock companies engaged in the tea industry. The total paid-up capital in the industry as a whole is about Rs. 74 crores; the number of Indian companies is about 40 with a paid-up capital of about Rs. 25 crores (latest available).

The revised targets of production and export of tea for the Third Plan were 376.5 million kg. for production and 240.4 million kg. for export. The corresponding targets for the Fourth Plan are 453.6 million kg. for production and 294.8 to 303.9 million kg. for export. The actual performance of the Third Plan, however, falls quite short of the expectations. This is particularly so in the case of exports.

The total business of leaf and dust teas done at Calcutta markets during 1965-66 (up to end of February) was 19 lakh packages and 10 lakh packages respectively, against 21 lakhs and 10 lakhs for 1964-65. The average price of Rs. 5.52 per kg. of leaf tea was higher by 50 paise and that of dust tea higher by 44 paise at Rs. 5.13.

Tea is the only product subject to sales tax and excise duty on exports. In 1963-64, the export duty was abolished altogether. But with the devaluation, the export duty is again levied at Rs. 2 per kg. The fixation of this duty is believed to have been arrived at to mop up the equal amount of extra earning in terms of rupees.

Excise duty on tea is now levied at different rates for different zones. There are four zones at present—Zone I, II, IIIA and IIIB. These zones have been demarcated on the basis of the average price which teas from those areas fetch at the internal and export auctions in Calcutta and Cochin. In 1963-64 the rebate of excise duty on the exported quantity was discontinued and a 20 per cent surcharge on the excise duty was imposed on tea.

An export promotion drive for tea has been launched by the Indian Tea Board through the establishment of Tea Councils and frequent participation in international trade exhibitions. At present, Tea Councils set up in collaboration with local tea interests, are functioning in U.S.A., Canada, West Germany, Ireland and Netherlands.

Increased tea production in India, Ceylon, Iran and Pakistan is expected to push 1966 world tea production to a record 933 million kg. (2,056 million lb.) amounting to an increase of 3.6 per cent over the previous year, according to the U.S. Agricultural Department Survey. World tea consumption, however, continues to decline against rising output and ultimately lower prices. The per capita consumption of tea fell from a 1956-58 level of 9.97 lb. a year to 9.71 lb. for 1960-61.

### WORLD TEA OUTPUT

(Million kg.)

|                            |    | 1964  | 1965  |
|----------------------------|----|-------|-------|
| North India                | .. | 287.6 | 271.9 |
| South India                | .. | 79.0  | 88.4  |
| TOTAL INDIA                | .. | 366.6 | 360.3 |
| Pakistan                   | .. | 28.6  | 27.0  |
| Ceylon                     | .. | 199.3 | 209.7 |
| Indonesia                  | .. | 7.2   | 6.3   |
| Malawi                     | .. | 10.7  | 9.6   |
| Kenya, Uganda and Tanzania | .. | 29.8  | 29.6  |
| Portuguese East Africa     | .. | 9.0   | 9.6   |
| China                      | .. | n.a.  | n.a.  |
| Japan                      | .. | 83.3  | n.a.  |
| Argentina                  | .. | 11.0  | n.a.  |

Despite the fact that Indian tea yield has been the highest in the world, India would not be able to face the competition given by Ceylon during the recent years since the rate of increase in cost is greater than the rate of yield in India. According to the Reserve Bank study, the profitability of the tea industry has come down considerably. It appears, therefore, that the tea industry will not be able to derive full benefit of devaluation.

### ESTIMATE OF INTERNAL CONSUMPTION OF TEA IN INDIA

(in tonnes)

| Year    |    |    | Opening<br>Stock | Production<br>during<br>the year | Export<br>during<br>the year | Closing<br>stock | Estimated<br>consumption<br>cols. (2 + 3) -<br>cols. (4 + 5) |

| Cellulose acetate .. .. .                     | 15,000                                |
| P. F. moulding Powder .. .. .                 | 12,000                                |
| Phenolic resins (including laminates) .. .. . | 6,000                                 |
| U.F. moulding Powder .. .. .                  | 8,000                                 |
| Other Urea resins .. .. .                     | 20,000                                |
| Others .. .. .                                | 7,000                                 |
| <b>Total .. .. .</b>                          | <b>3,74,000</b>                       |

It has been estimated that 350 presses of different sizes for compression moulding and lamination can handle 11,000 tons of thermosets. 350 extruders would convert 22,000 tons of thermoplastics into extruded products, besides compounding 16,000 tons for injection moulding by 800 machines of varying capacities. The value of 1,500 machines and presses inclusive of replacements required for the period of the Plan together with auxiliary equipment such as predryers, preformers, tumbling barrels, scrap grinders, haul off for extruders, mould temperature controllers and other miscellaneous equipment for vacuum forming, vacuum metallising, hot stamping, embossing and printing rollers, heat welding machines, automatic blow moulding equipment, lamination presses, rotational casting machines, etc. would be around Rs. 10 crores. (before devaluation). The miscellaneous equipment will cater to foaming, blowing, coating, calendering, casting and fabrication of 11,000 tons of thermoplastic materials.

It was expected that during the Third Plan (by 1966), the requirements of moulds for compression and injection moulding would

increase from 800-1,000 in the beginning of the plan to 3500-4000 by 1966. It was also expected that by 1966, 2,500-3,000 dies for extrusion will also be required for the same period. The total value of moulds and dies may be put at about Rs. 8 crores.

The supply of plastics raw materials in the country through domestic production will increase substantially during the next Plan period. According to Planning Commission's working group on petro-chemical industries, polyethylene supply will increase to one lakh tons in 1970-71. In case of PVC, supply will reach the level of one lakh tons by the end of Fourth Plan, and that of Vinyl Chloride for PVC to one lakh tons.

The machinery requirements of the industry are being paid particular attention in the Fourth Plan. It is proposed to set up initially plastics machinery manufacture for an off take of about 15,000 tonnes of thermosets, 40,000 tonnes of thermo-plastics for injection, 100,000 tonnes of thermoplastics for extrusion.

The main problem facing the plastic industry is the inflated cost structure which owes mainly to the steep excise duties and high raw material prices. The present rate of excise duty of twenty-four per cent *ad valorem* plus twenty per cent surcharge on basic duty is very high. Imports, however, are still quite large, although, since 1957, a restrictive policy has been pursued. The following table shows imports of raw materials of plastics industry :

| Material                             | (Rs. lakhs) |         |         |
|--------------------------------------|-------------|---------|---------|
|                                      | 1963-64     | 1964-65 | 1965-66 |
| P. F. Moulding Powder ..             | 6.89        | 6.63    | 3.24    |
| U. F. Moulding Powder ..             | 0.51        | 0.36    | 1.01    |
| Cellulose Acetate Moulding Powder .. | 17.16       | 7.96    | 3.15    |
| Polystyrene Moulding Powder ..       | 3.22        | 4.72    | 4.18    |
| Vinyl Resins ..                      | 30.47       | 35.93   | 25.84   |

The country is now an exporter of plastics goods. The following is the yearly exports of plastics from India :

| Year          | Rs. crores |
|---------------|------------|
| 1961-62 .. .. | 0.83       |
| 1962-63 .. .. | 1.05       |
| 1963-64 .. .. | 2.64       |
| 1964-65 .. .. | 3.19       |
| 1965-66 .. .. | 2.70       |

As can be seen from the above figures, there is a fall in exports during 1965-66 to the extent of nearly Rs. 48 lakhs.

Itemwise, the fall in exports is estimated as under: Polyline Jute Rs. 16 lakhs, Bangles Rs. 16 lakhs, Fountain Pens Rs. 6 lakhs, Linoleum Rs. 6 lakhs.

In order to encourage exports, an Export Promotion Council was set up in 1955. The Government also allows rebate of import duty at specified rates on raw materials used in the manufacture of plastics goods intended for export. At present the concession is given on urea formaldehyde, cellulose acetate/cellulose acetate butyrate and polystyrene moulding powders.

The leading item of export is leather cloth. The major importers of leather cloth from India are South Viet Nam, Britain, Kuwait, Ceylon and Thailand.

Ceylon leads other countries in import of Indian plastics goods. The other importing countries include Burma, Kuwait, Kenya, Saudi Arabia, Tanzania, Mauritius and Mozambique.

The following is the yearly import of synthetic plastics materials to India (Latest available) :

| Year          | Rs. lakhs |
|---------------|-----------|
| 1960-61 .. .. | 571       |
| 1961-62 .. .. | 777       |
| 1962-63 .. .. | 648       |
| 1963-64 .. .. | 471       |
| 1964-65 .. .. | 381       |

## RAYON, SYNTHETIC FIBRES, AND CELLULOSE FILM

### Rayon Filament

There were three units at the beginning of the Second Plan in the country, manufacturing rayon filament with an annual capacity of 22.3 million lbs. Subsequently, three new units with a combined capacity of nearly 21.6 million lbs. had commenced production. There are now nine large scale units engaged in production of viscose filament rayon in India, one in acetate filament and three in staple fibre.

The staple fibre factory of Gwalior Rayons started production in 1954 with a capacity of 5,400 tons per year. The production capacity has now increased to 36,000 tons per year. The South India Viscose has a capacity of 4,000 tons per year.

A Rs. 6 crore nylon plant with a production capacity of 5 tons a day is to be set up at Modinagar, U.P.

The consumption of rayon filament on the basis of production plus imports from 1961 to 1965

is estimated as under :—

| (Million lb.) |            |         |              |
|---------------|------------|---------|--------------|
| Year          | Production | Imports | Availability |
| 1961 ..       | 51.7       | 42.9    | 94.6         |
| 1962 ..       | 60.9       | 38.1    | 99.0         |
| 1963 ..       | 73.1       | 27.0    | 100.1        |
| 1964 ..       | 81.9       | 25.3    | 107.2        |
| 1965 ..       | 82.1       | 12.7    | 94.8         |

### Staple Fibre

At the start of the Second Plan, Messrs. Gwalior Rayon Silk Manufacturing (Weaving) Company was the only factory producing staple fibre. Its plant at Nagda had a capacity of 16 million lbs. per annum at that time. Since then it has expanded its capacity to 48 million lbs. per annum thereby exceeding the target capacity of 32 million lbs.

† Includes 20 million lbs. of tyre cord.

The production of staple fibre\* during 1961 to 1965 is given below :

| Year       | Installed capacity | Production |
|------------|--------------------|------------|
| 1961 .. .. | 25.2               | 26.0       |
| 1962 .. .. | 26.0               | 32.4       |
| 1963 .. .. | 26.0               | 32.2       |
| 1964 .. .. | 26.0               | 37.4       |
| 1965 .. .. | 26.0               | 34.3       |

### Art Silk Fabrics

The production of art silk fabrics during the Third Five Year Plan period viz. 1961 to 1964 is given below :

(Production of Art Silk fabrics including synthetics).

| Year       | Production |
|------------|------------|
| 1961 .. .. | 570.0      |
| 1962 .. .. | 600.0      |
| 1963 .. .. | 648.0      |
| 1964 .. .. | 832.8      |

\* Data are inclusive of saleable waste.

**Folk Song:** Smt. Manasi Bagchi; Kumari Dhira Sen.

**Western Music:** Sri Clarence Barlow.

**Bharat Natyam (Dance):** Kumari B. K. Vasantha Lakshmi.

**Kathakali Dance:** Sri M. V. Vasudevan Pisharody; Sri V. Gopalau Nair; Venu G.

**Kuchipudi Dance:** Kumari Annapurna Lanka.

**Manipuri Dance:** Sri Jatindra Singha.

**Kathak Dance:** Sri Hare Krishna Chintamani Behare.

**Drama:** Smt. C. H. Sarojini Devi; Shri Gopal Shridhar Nikte.

**Painting:** Sri Kaushik Chakravartty; Kumari Lakshmi Dutt.

#### BHATNAGAR AWARDS

Ten scientists were presented the grant of the Shanti Swarup Bhatnagar Memorial Award for 1963 and 1964 for their contributions to scientific research.

The scientists are: Dr. R. Ramanna (Physics) AEE, Trombay; Dr. B. D. Tilak, Director, National Chemical Laboratory, Poona; Prof. J. Ganguli, Professor, Biochemistry, I.I.S., Bangalore Dr. Brahm Prakash,

Director (Metallurgy), AEE, Trombay; Dr. S. H. Zaidi, Director, Indian Technology Research Centre, Lucknow; Dr. B. K. Anand, Professor (Physiology), All-India Institute of Medical Science, New Delhi; Dr. D. A. Verma, Director, National Physical Laboratory, New Delhi; Dr. Sukh Dev, National Chemical Laboratory, Poona; Dr. D. S. Athwal, Deptt. of Plant Breeding, Agr. Univ., Punjab; Dr. B. R. Nijhawan, Director, National Metallurgical Laboratory, Jamshedpur.

The awards carry a cash prize of Rs. 10,000 each.

**Watumull Awards** : (\$1000 and a Commemorative Medal): Names of winners: P. S. Sharma, (Biochemistry) Indian Institute of Science; Dr. Lakshmi Narain Mathur (Dentistry), Banaras Hindu University; N. K. Dutta (Medicine), Haffkine Institute, Bombay; S. K. Joshi (Physics), Allahabad University.

### SHRAM VIR NATIONAL AWARDS

The Union Ministry of Labour and Employment has instituted a scheme to be known as the Shram Vir National Awards Scheme.

The scheme will be open to only such undertakings where suggestion schemes already exist. It will apply to factories, mines, plantations and docks.

First prize of Rs. 2,000 each went to M. K. Sankaran (Dalmia Cement), J. P. Estibeiro (Central India Spg. & Wvg.); K. N. Asari (Aluminium Industries); Ramchandra Bhakat and Moni Mohan Majumdar (Tisco).

For the lowest frequency of accidents Rs. 2,500 in cash and a cup each went to Alkali and Chemical Corporation, Hindustan Lever, Metal Box, Cordite Factory, Sen Raleigh, Addisons Paints and Chemicals, New Jehangir Vakil Mills, Durgapur Steel Plant, Mining and Allied Machinery Corporation, Azam Jahi Mills, Fertilizer Corporation, National Carbon of Union Carbide, Agrico Deptt. (TISCO) and Sundaram Industries.

For the lowest frequency of accidents a prize of Rs. 2,500 and a trophy each went to Loyal Textile Mills, Indian Explosives, Mining and Allied Machinery Corporation, National Carbon Co., Integral Coach Factory, State Transport Central Workshop, Hindustan Steel, Sen Raleigh and Associated Cement Co.

For the longest accident-free period a prize of Rs. 2,500 and a cup each went to Loyal Textile Mills, Alkali and Chemicals Corporation, Caltex Oil Refining, Hindustan Electric, Sen Raleigh and Associated Cement Co.

### SCHOLARSHIP IN HUMANITIES & SCIENCE

The University Grants Commission has selected 91 teachers in Humanities including Social Sciences for awards under the scheme of financial assistance to teachers for research work during 1964-65.

The scheme has been instituted by the Commission with a view to encouraging teachers to undertake research work.

The following is a list of subjects and the number of teachers awarded scholarships under each subject during 1964-65:—Archaeology 2; Commerce 1; Economics 4; English 4; Geography 4; Urdu 2; Hindi 16; History 17; Linguistics 1; Music 1; Law 3; Philosophy 5; Political Science 6; Psychology 3; Sanskrit 2; Sociology 8; Bengali 1; Oriya 2; Malayalam 2; Telugu 1; Tamil 1; Kannada 2; Education 1. Fine Arts 1:—and Marathi 1.

An amount of Rs. 69,400 has been shared by 92 teachers.

### INTERNATIONAL HUMAN FAMILY SOCIETY AWARD

Acharya Vinoba Bhave has been awarded the International Human Family Society prize for his dedication to the promotion of human relations.

The cash award of 5,000 dollars (Rs. 37,500) was made by the society on October 25 at a community dinner.

### Scholar Awards

The President awarded Certificates of Honour to eight scholars, six in Sanskrit, one each in Arabic and Persian. They are: P. M. Modi; Dr. V. V. Mirashi; K. S. Sastri; V. R. Srinivasa Tatachariar; Vishva Bandhu Sastri; K. Chattopadhyaya; M. A. M. Daryabadi (Arabic) and Qazi Sajjad Hussain (Persian).

### PRINTING AND DESIGNING

The Eleventh State Awards, in 26 Categories for excellence in printing and designing of books and other publications for 1965 were given.

These Awards are being organised every year by the Directorate of Advertising and Visual Publicity, Ministry of Information and Broadcasting.

Following is the full list of the recipients of the Awards in the order of first, second prizes and certificate of merit respectively.

**CHILDREN'S BOOKS**: *Mahagiri* (English); *Colour by Number Book* (English); *Khelar Sathi* (Bengali).

**ART BOOKS**: *Early Cola Bronzes*; *The Bhagavata Purana in Kangra Paintings*; *The Village — The People*.

**BOOKS (ENGLISH & OTHER FOREIGN LANGUAGES)**: *The Elephant and the Lotus*; *Plastic Surgery in the Tropics*; *An Introduction to Heat Engines & Rati Rahasya*.

**BOOKS (INDIAN LANGUAGES)**: *Kannada Sahityadalli Hasya* (Kannada); *Lok Natak* (Punjabi); *Anupragvilas* (Hindi) & *Eka Koliyane* (Marathi).

**DAILY NEWSPAPERS (English)**: (First prize not awarded); *Hindustan Standard*, *Patriot*; *Free Press Journal*.

**DAILY NEWSPAPERS (Indian Languages)**: *Navamani* (Tamil); *Maharashtra Times* (Marathi); *Loksatia* (Marathi).

**DISPLAY ADVERTISEMENT LAYOUTS**: *Viva the Pata*; *A Dazzling Display of Colours & Designs, Lifting Loads With Love*; *Wagons available easily, So that's where you have been hiding your money*, *The Moving Needle*.

**ART MAGAZINES**: *Lalit Kala*; (Second Prize not awarded); *Lalit Kala Contemporary*.

**PERIODICALS OTHER THAN ANNUALS (English)**: *Span*; *Pradeep*; *International Studies*.

**PERIODICALS OTHER THAN ANNUALS (Indian Languages)**: (First & Second prizes were not awarded); *Kamgar Vaibhav* (Marathi), *Visra Bharati Patrika* (Bengali).

**POSTERS**: *Eke Ange Eto Roop, Air-India — Frankfurt*; *Visit Madras (Monkey Family Mamallapuram)*; *Modella Terymod Suitings, Technical Books, USA An Exhibit*.

**FOLDERS (Offset Photogravure)**: (First Prize was not awarded); *Natabee*; *Aerophy*.

**FOLDERS (Letterpress)**: *Here are the top performance features of Joy Diamond Core Drills*; *All about Remington — the typewriter of the '60s*; *Rovimix*.

**CALENDARS (Offset/Photogravure)**: *Indian Airlines Corporation Calendar 1966*; *Air India Calendar 1966*; *Guest Keen Williams Ltd. Calendar, 1966*; *Straw Products Ltd. Calendar 1966*.

**CALENDARS (Letterpress)**: *India Pistons Ltd. Calendar 1966*; *Tata Iron & Steel Co. Ltd. Calendar 1966*, *Bombay Dyeing & Mfg. Co. Ltd. Calendar 1966*; *Selprint Calendar 1966*.

**DIARIES**: *India 1966*; *Tea Board, India Diary 1966*, *Alvin Coredrills Pvt. Ltd. Diary 1966*; *Week to an Opening Pocket Diary 1966*.

**DEVANAGARI TYPE FACES**: (First Prize was not awarded); *Shuvra*, 12 pt; *Chitra*, 12pt.

**PUBLICITY BOOKLETS, ANNUALS & SOUVENIRS (Offset)**: *Air-India — 12th Annual Report 1964-65*; *Ethicon in the Service of Surgery, The Century Spinning and Mfg. Co. Ltd. Annual Report and Accounts 1964*; *Dunlop K. 71 Scooter Tyre*.

**PUBLICITY BOOKLETS, ANNUALS AND SOUVENIRS (Letterpress)**: *Seeing is believing*; *Kondapalli Toys*; *Wonder World of Communication*.

**LABELS**: First & Second Prizes were not awarded; *Obero International Soap Wrapper*, *Bliss Lipstick Label*.

**BEST BOUND BOOKS**: *The Indian Year Book in Education*; *International Relations and World Politics since 1919*; *Presidency College Magazine*, *The Village — The People*.

**PACKAGING**: *Mauktik Box*; *Indian Tea Container*; *Hima Dehydrated Bhindi Packet*; *Premium Talc Powder Tin*.

**POINT OF SALES (Counter & Display Material)**: *Philips Radio Showcard (Family Illustration)*; *Bata — Exclusive Show Card*; *Philips for Lights Showcard*.

**GREETING CARDS**: *Flower Girl*; *Milk Maids*; *Rendezvous*; *Golden Fish*.

**PICTURE POSTCARDS**: (First and Second prizes were not awarded); *Telenkheri Gardens*.

**DIRECT MAIL**: *Rubraplex Elizir*; *Travellers in the East* (nine pictures); *Swastik Elastic Rubber Bands*, *Bajaj Bedside Lamp*.

### JNANPITH AWARD

Mahakavi G. Sankara Kurup has won the Bharatiya Jnanpith Award of Rs. 1 lakh for his book *Odakkuzhal*, an anthology of selected poems considered to be the most outstanding piece of the era in Malayalam literature.

This is the highest Indian literary award, instituted by the Bharatiya Jnanpith, of which, Mrs. Rama Jain is the President. The award was presented to Mr. Kurup by Dr. Sampurnanand, Governor of Rajasthan on November 19, 1966 at New Delhi.

The Bharatiya Jnanpith was established in 1944 at Varanasi by Mr. Shanti Prasad Jain in memory of his mother, Mrs. Murti Devi, who was a highly religious and spiritual woman.

### BASIC AND CULTURAL LITERATURE

The Basic and Cultural Literature Competition hitherto conducted by the Ministry of Education on behalf of the Ministry of Community Development and Cooperation is being operated by the Ministry of Community Development & Cooperation (now reconstituted as Ministry of Food, Agriculture, Community Development and Cooperation) since the Fourth Competition in 1965 as Basic Literature Competition on subjects having a bearing on Community Development, Panchayati Raj and Cooperation.

During the Fourth Competition referred to above, held in 1965, ten prizes of Rs. 1000 each have been awarded to the authors of the following 10 books/manuscripts for production in regional languages under the Basic Literature Scheme.

**Tamil**: *Panchayathu Rajyam* by Smt. Seethalakshmi.

**Urdu**: *Panchayati Raj* by Sri S. Ibrahim Fikri.

**Kannada**: *Nyaya Panchayatigalu* by Sri B. G. Mutalik Desai.

**Hindi**: *Kalyankari Rajya Aur Sahakari Samaj* by Sri Narinder Kumar.

**Kannada**: *Sewa Sahakaru Sangha* by Sri D. Krishna Iyengar.

**Hindi**: *Uphokta Sahkar* by Shri B. S. Prabhakar.

**Kannada**: *Raitharu Belesida Sahakaru* by Shri K. Sachidanandaya.

**Hindi**: *Samudayik Vikas* by Shri S. K. Vij.

**Hindi**: *Dalit Varga Ka Utthan* by Smt. Veena Verma.

**Urdu**: *Hamare Qabaili Bhai* by Smt. Kishwar Zaidi.

### SPORTS

The Government of India have made selections for the "Arjuna Awards" to the Sportsmen of the year 1965, on the basis of outstanding contribution made to enhance the glory of the game during the year. These awards were instituted in 1961.

The Sportsmen who were awarded Arjuna Awards for 1965 were: K. L. Panwell (Athletics); Dinesh Khanna (Badminton); V. L. Manjrekar (Cricket); Arun Lal Ghosh (Football); Kumari Elvera Britto (Hockey — Women); Balbir Singh (Weight Lifting); Udham Singh (Hockey — Men).

#### SUR-SINGAR SAMSAID'S FILM AWARD

Sur-Singar Samsad's award for 1965 for the best classical film song went to "Man Re Tu" from the film "Chitrlekha".

The following were the recipients of the awards for 1965:

Saraswati Award: A. K. Nadiadwala, Producer of "Chitrlekha".

Swami Haridas Award: Roshan, music director of "Chitrlekha".

Mian Tansen Award: Mohammed Rafi, Singer.

The Dr. Brahaspati award for the largest number of classical songs in a film went to "Chitrlekha".

#### KALINGA AWARD

Dr. E. Rabinowitch, editor and one of the founders of the Bulletin of Atomic Scientists has been selected for award of the 14th International Kalinga Prize for 1965 for the popularisation of science.

The selection of the recipient was made as usual by an international jury appointed by UNESCO.

The \$2,800 Kalinga Prize is a personal donation by Mr. Bijoyanand Patnaik, an industrialist and a director of the Kalinga Foundation.

#### MISCELLANEOUS AWARDS

Birbal Sahni Award: Dr. M. S. Swami Nathan was awarded Birbal Sahni Medal for 1965 on Jan. 5, 1966.

Horniman Journalist Award: Winner: B. G. Verghese.

Gokhale Centenary Teachers' Award: Winner: H. T. Nanawaty, Modern School, Bombay.

U. S. Trophy: Flying Officer Bertrand J. Vaz of the I.A.F. has won an academic award trophy for standing first in ground subjects at COTS and a commendation card for scoring the highest points in glide bombing during his course at the Combat Crew Training School, Nellis Air Base, Nevada, U.S.A.

Wallace Clark Award: Dr. K. S. Basu, director of the Jamnalal Bajaj Institution of Management Studies, University of Bombay, has won the 1966 Wallace Clark award for "distinguished contributions to scientific management in the international field".

#### KRISHI PANDIT AWARD

In the first All-India paddy crop competition, conducted by the Government of India for the Kharif season 1964-65, a Maharashtra farmer, Sri A. K. Nirgudkar, having obtained the

largest yield 3,664.955 kgs. per acre, was declared the first prize winner. Sri D. A. Naik, also from Maharashtra stood second with 3,345.124 kgs. per acre, followed by Sri J. N. Saheb of Andhra Pradesh who won the third prize with 2,125.427 kgs. yield per acre.

#### NEHRU PRIZE

The Government of India has instituted, to honour the memory of the late Prime Minister Jawaharlal Nehru, an international award named "Nehru Prize for International Understanding".

It is an international award open to citizens and institutions of all countries. The prize will be awarded every year to a person or an institution who has contributed most during the preceding year to the ideals of world peace and international understanding. The prize consists of Rs. one lakh and a medal. The award winner is to be invited to India to receive the prize and will also be asked to deliver a lecture following the formal presentation of the prize.

The first Jawaharlal Nehru award for international understanding for 1965 has been given to the U.N. Secretary-General U Thant, in recognition of his outstanding contribution to the promotion of peace and amity in the world.

#### Awards for Inventions (1965-66)

Following the decision of the Inventions Promotion Board to institute prize competitions twice a year as an incentive to inventive talent in the country, the following awards were given:

A cash prize of Rs. 5,000 to Dr. Harsh Vardhan (Delhi) for "High Speed Tracing Camera" with writing speed 2mm/micro-sec. and suitable for study of explosives, exploding wires, flash bulbs, fluorescent tubes, photographic emulsions, gas and spark discharge phenomena etc.

Rs. 3,000 to K. D. Shinde (Maharashtra) for a Dribbling Machine named "Maharashtra Token Yantra". A very useful aid for sowing seeds in rows which is essential for increased production. In addition to sowing, it also places the fertilizer over the seeds sown and thus avoids wastage of fertilizers.

Rs. 2,000 to Imtiaz Ahmed (Allahabad) for "Rope Making Machine". This machine is a simple adaptation of Japanese rope making machines.

Rs. 2,000 to P. G. Bhide (Maharashtra) for "Improvements relating to Coin Box". The coin box delivers required amount of coins in Indian currency if push buttons corresponding to the digits of the amount in question are pressed.

Rs. 1,000 to R. S. Pillai (Madras) for "Gram Frying Machine". A completely self-contained unit complete with elevator, oil fired furnace, vibratory feeder, blancher, bucket elevator and air separator for separating the husk and the gram.

Rs. 1,000 to Dr. C. C. John (Kerala) for "A composition for the inhibition of marine borer

attached on submerged Timber Structures". A chemical composition, based on copper silicate, iron oxide and cupric oxide to be used as a protective coating on submerged timber structures such as jetty piles, quays, anchor posts etc. in harbours against all kinds of marine borers.

Rs. 1,000 to Dr. G. S. Sekhon (Punjab) for "A respirator and an apparatus in combination therewith for Artificial Respiration during experimental chest surgery".

Rs. 1,000 to G. P. Sharma (Gujarat) for "Adoption of diehead on centre lathe for cutting screw threads quickly".

Rs. 5,000 to J. J. Mistry (Maharashtra) for "An Electrically operated (Three way) Geyser Valve". The invention relates to a simple 3 position mechanical valve attached to a geyser operated by utilizing water as a conductor.

Rs. 500 to J. N. Singh (West Bengal) for "Improved Cock or water tap of Polythene". The polythene tap is for water taps which can be used for cold water services in ordinary households as also for handling corrosive liquids.

Rs. 500 to Brig. Pritampal Singh (Maharashtra) for "Three-in-one digging tool" for entrenching purposes.

Rs. 500 to N. K. Patel (Maharashtra) for "Improvements to Pressure Stove". The stove makes use of a separate fuel tank fixed at a height to burn fuel with gravity pressure.

Rs. 500 to Shri Inder Kishan (Punjab) for "Electric Revolving Mechanism for table fan and table lamp etc."

Awards for 1966-67 for inventive talents totalling Rs. 24,000 by the Inventions Promotion Board have been awarded on August 15, 1966. The following are the particulars. Dr. K. V. Rao, Prof. S. G. Doas and Abdul Washeed of Karalkudi, Madras (Rs. 5,000 collectively) for developing of porous carbon electrodes; T. A. Davis of Calcutta (Rs. 2,000) for electronic detector of pests and insects in palm trees; William Walker of Calcutta (Rs. 2,000) for improvement relating to photographic developers; S. S. Jain (Rs. 2,000) for his device "S. Designer". G. T. Gadre and N. N. Udawadia of Bhavnagar (Rs. 2,000 collectively) for the preparation of potassium schoemite fertiliser from mixed salt; K. S. Seshadri, G. D. Bhat and J. R. Sanghavi of Bhavnagar (Rs. 2,000 collectively) for the production of potash alum from sea bittern. Mammen of Hyderabad (Rs. 1,000) for inventing of a splash-less tank and aeration equipment for live fish transport; Dr. T. Radhakrishnan of Ahmedabad (Rs. 1,000) for his fibre fineness tester; A. V. Rao, I. C. Mody and H. N. Shah of Bhavnagar (Rs. 1,000 collectively) for the invention of sodium alginate from special types of Indian sea weeds; R. K. Mishra of Ahmedabad (Rs. 500) for his automatic fire alarm and extinguisher; K. K. Gupta of Bombay (Rs. 500) for his smash preventing motion; G. Parameswaran of Mysore for his electric kit which is useful for the education of children.

## BULLION

The following table gives details about the trend of silver production from 1961 to 1965:—

(In millions of ounces)

| Countries                                          | 1961  | 1962  | 1963  | 1964  | 1965  |
|----------------------------------------------------|-------|-------|-------|-------|-------|
| United States of America .. .. .                   | 34.9  | 36.3  | 35.0  | 37.0  | 38.5  |
| Mexico .. .. .                                     | 40.3  | 41.2  | 42.8  | 41.9  | 40.0  |
| Canada .. .. .                                     | 31.4  | 30.7  | 20.9  | 31.1  | 31.0  |
| Peru .. .. .                                       | 34.2  | 32.9  | 36.8  | 37.0  | 37.0  |
| Bolivia .. .. .                                    | 3.9   | 3.8   | 4.9   | 4.8   | 5.0   |
| Other South and Central American Countries .. .. . | 8.6   | 8.7   | 10.1  | 9.2   | 10.0  |
| Total Western Hemisphere .. .. .                   | 153.3 | 153.6 | 159.5 | 161.0 | 161.5 |
| Outside the Western Hemisphere .. .. .             | 50.0  | 55.0  | 56.0  | 57.0  | 60.0  |
| World Production .. .. .                           | 203.3 | 208.6 | 215.5 | 218.0 | 221.5 |

The recent trend of silver consumption (partial data) is given in the following table :—  
(In millions of ounces)

|                              | 1961         | 1962         | 1963         | 1964         | 1965         |
|------------------------------|--------------|--------------|--------------|--------------|--------------|
| <b>INDUSTRIAL USES</b>       |              |              |              |              |              |
| United States .. .. .        | 105.0        | 110.0        | 110.0        | 123.0        | 140.0        |

**India :**

During the last two years consumption of silver in India has been increasing, and during 1965 amounted to approximately 16,000,000 ounces, which is an increase of 4,000,000 ounces over the relatively high figure established in 1964. Imports into India continue to be subject to strict government control, and most of the silver needed to satisfy the demand was obtained from melting down of old coins and jewellery, as well as from such amounts as may have been smuggled in or were already on hand. Prices rose almost steadily during the year from Rs. 265 per kilogram at the opening to Rs. 321.6 at the year end. These prices are equivalent to \$ 1.71 and \$ 2.10 per troy ounce respectively.

**GOLD AND SILVER**

The domestic output of gold which had increased by 314 kgs. to 4,619 kgs. in 1964, declined to 4,062 kgs. in 1965 (provisional). Silver production, however, increased from 4,735 kgs. in 1964 to 5,235 kgs. in 1965 (provisional).

The ban on forward trading in both gold and silver continued during the year and the spot prices in the Bombay bullion market showed a continuation of the bullish tendency noticed in 1964-65. In fact, both gold and silver rose more steeply than in the preceding year and touched new peaks. Apart from the persistent inflationary trends in the economy, a virtual inelastic supply, paucity of floating stocks and the usual demand from the goldsmiths and industrial users, the demand from the holders of unaccounted incomes and a decline in supply owing to greater vigilance by the customs authorities contributed to the rise in bullion prices.

The price of 14-carat gold moved up from Rs. 71.75 per 10 grams at end-March 1965 to Rs. 77.00 by May 4, 1965, reflecting the seasonal demand being superimposed on the demand for conversion of unaccounted incomes into the 7 per cent. Gold Bonds, 1980. After receding to Rs. 70.50 on May 22, it again forged ahead to a peak of Rs. 83.50 by June 25. Later, there was a two-way movement in prices on alternating reports of seizures of smuggled gold and larger arrivals of contraband gold and by October 9, the price was at Rs. 72.75. Thereafter, however, the bullish trend re-emerged following the demand for the purpose of subscription to the National Defence Gold Bonds, 1980, announced by the Government on October 19, 1965 and due to the rising trend in silver prices and a new peak of Rs. 85.00 was reached on February 9, 1966. At the closing level of Rs. 83.75 on March 30, there was a net rise of Rs. 12.00 over the year on top of a rise of Rs. 8.50 in 1964-65.

The rise in silver was more steep, induced partly by the paucity of stocks and speculative activities. From Rs. 280.50 per kg. on March 31, 1965, the price rose to Rs. 308.00 on May 11, at the height of seasonal demand and, after receding to Rs. 290.50 by July 7, moved erratically until the first week of November but, thereafter, climbed up steadily to Rs. 406.00 on February 3, 1966. There was a small decline in March but even at Rs. 366.00 as at end of March 1966, there was a spectacular increase of Rs. 85.50 over the year as compared to only Rs. 20.50 during the preceding year.

## CAPITAL MARKET

**T**HE Government of India has so far (up to Oct. 1966) recognised eight stock exchanges, namely, The Stock Exchange, Bombay, The Ahmedabad Share and Stock Brokers' Association, Ahmedabad, The Calcutta Stock Exchange Association Ltd., Calcutta, The Madras Stock Exchange Ltd., Madras, The Delhi Stock Exchange Association Ltd., New Delhi, The Hyderabad Stock Exchange, The Share Brokers' Association, Indore and The Bangalore Stock Exchange. The recognition for the last two mentioned has been granted for five years in the first instance. The general principles regarding grant of recognition to a stock exchange as laid down in Section 4(1) of the Securities Contracts (Regulation) Act, 1956, has been followed. The Act does not envisage amalgamation, as such, of stock exchanges either before or after recognition is granted under section 4 thereof. Nevertheless, to avoid undue hardship to members of the exchanges which have not been recognised, the Government has prescribed certain terms and conditions on which active members of the unrecognised exchanges can seek admission to the recognised exchange.

Section 13 of the Securities Contracts (Regulation) Act, 1956, has been made applicable to the Greater Bombay area in Maharashtra State with effect from 15th October 1957. The effect of the application of section 13 to the Greater Bombay area is that every contract in this area which is entered into after 15th October 1957, otherwise than between members of the recognised Stock Exchange or through or with such member, is illegal.

### SECURITIES ACT

The Securities Contracts (Regulation) Act, 1956, is the first All-India legislation seeking to control transactions on securities and to regulate stock exchange practices. Prior to this Act, there was no legislation for the purpose except in the old State of Bombay.

Broadly speaking, the Act applies to transactions other than spot delivery contracts. But power has been taken in the Act to regulate spot delivery contracts also, if the Government regards it as desirable in the interest of trade or in the public interest.

As regards contracts other than those for spot delivery, the regulation takes the form of either controlling the activities of stock exchanges in those areas or States where stock exchanges operate, or through a system of licensing of persons who deal in stocks and shares. In those areas where the stock exchanges operate and to which Section 13 of the Act will be applied, every contract which is entered into otherwise than between members of a recognised stock exchange in such State or area or through or with such members is illegal.

The Act permits only those stock exchanges to function which are recognised by the Central Government. For this purpose, each stock exchange is required to make an application in the prescribed manner to the Central Government, who will grant recognition if the Government is satisfied in regard to certain conditions. Every recognised stock exchange is required to furnish to the Central Government such periodical returns relating to its affairs as may be prescribed.

Subject to the previous approval of the Central Government, any recognised stock exchange may make bye-laws for the regulation and control of contracts. But the Government has the power to make or amend these bye-laws.

Important provisions relating to the listing of securities on a stock exchange are also contained in the Act. In regard to the licensing of dealers and brokers in securities, there are no detailed provisions.

So also no direct provisions are contained in the Act to restrict the prevalence of blank transfers, but there is a provision to discourage blank transfers indirectly.

The Securities Contracts (Regulation) Amendment Bill was passed by the Lok Sabha on 17th November 1959. As a result of the amendments, the contracts made by foreign financial investors involving options, which, by their very nature, are not of a speculative character have been exempted from some of the provisions of the Act. Convertible bonds and share warrants contracted by foreign financial investment corporations are exempted from the purview of section 20 of the Act. Further, the incorporated stock exchanges are empowered to make rules restricting voting rights to members only restricting the right to appoint proxies and introducing the principle of one member-one vote, and override the Companies Act in this respect.

The Government of India has established a Stock Exchange Directorate which functions under the Department of Economic Affairs of the Union Ministry of Finance, with headquarters in Bombay and branch offices at Calcutta and Delhi. The Directorate is composed of expert officials. It maintains close contact with Stock Exchanges and keeps a careful watch over the activities of operators.

### THE GILT-EDGED MARKET

The gilt-edged market, which had evinced a generally easy tone during 1964-65 in the context of a dear money policy, continued to rule weak during 1965-66. Apart from declines in gilt-edged values resulting from the process of adjustment to the new pattern of higher interest rates, the market was also affected by the unusual stringency in the money market during the greater part of the year. The Reserve Bank's open market operations (excluding purchases from the State Bank of India on account of P.L. 480 funds) resulted in smaller net sales amounting to only Rs. 18.8 crores as compared to net sales of Rs. 98.6 crores during 1964-65 and Rs. 44.7 crores during 1963-64.

The easy tendency in gilt-edged became more pronounced following the announcement by the Central Government in June of their borrowing programme for the year consisting of two cash-conversion loans, viz. the  $4\frac{1}{2}$  per cent Loan 1971 and the  $5\frac{1}{2}$  per cent Loan 1990, with yields of 4.60 per cent and 5.50 per cent, respectively, which were higher than those on existing issues of comparable maturity viz., 4.41 and 4.82 per cent. There was a further downward tilt in gilt-edged values following the announcement in August by State Governments of their borrowing programme, the new  $5\frac{1}{2}$  per cent loans 1977 issued by them giving yields ranging between 5.50 and 5.62 per cent as compared to yields ranging between 5.14 and 5.75 per cent on existing loans of comparable maturity.

The Reserve Bank's All-India Index of Government and Semi-Government Securities (base: 1961-62 = 100) showed a steady decline from 97.1 at end-March, 1965 to 93.6 by end-March, 1966, falling by 3.6 per cent over the year as against a decline of 1.8 per cent during 1964-65. Regionwise, Bombay witnessed a fall of 3.1 per cent, Calcutta 3.4 per cent and Madras 4.5 per cent as against 2.7 per cent, 2.1 per cent and 0.9 per cent, respectively, during 1964-65.

Loanwise, the decline was more marked in the medium and long-dated loans. The 8 per cent Conversion Loan 1986 or later showed a decline over the year, of Rs. 4.00 to Rs. 53.75 on March 31, 1966. The long-dated 4 per cent Loan 1981 fell by Rs. 8.75 to Rs. 85.25 and the  $4\frac{1}{2}$  per cent Loan 1986 by Rs. 1.00 to Rs. 98.00. In the medium-dated section, the 4 per cent Loan 1979 declined by Rs. 8.85 to Rs. 86.15 and the  $3\frac{1}{2}$  per cent Loan 1974 by Rs. 2.30 to Rs. 89.70. Among the short-dateds, the decline

in prices ranged from 5 p. in the case of the  $3\frac{1}{2}$  per cent Loan 1966 (which fell to Rs. 99.70) to 70 p. in the case of 4 per cent Loan 1970 (which fell to Rs. 97.85). As for the new loans floated during the year, the  $5\frac{1}{2}$  per cent Loan 1990 moved up by 10 p. to Rs. 100.10 while the  $4\frac{1}{2}$  per cent loan 1971 eased by 5 p. to Rs. 99.45.

The declines in State Loans were sharper. In the medium-dated section where the declines were more marked, the  $4\frac{1}{2}$  per cent Loan 1974 of Assam State fell by Rs. 11.75 over the year ended March 31, 1966 and the  $4\frac{1}{2}$  per cent Loan 1972 of Madhya Pradesh by Rs. 5.25. Among short-dateds, the declines ranged between 15 p in the case of  $4\frac{1}{2}$  per cent Loan 1970 of Madhya Pradesh and Rs. 4.90 in the case of the same issue of Maharashtra. The new  $5\frac{1}{2}$  per cent Loans 1977 were quoted at a discount over their issue prices, the discount ranging from Rs. 2.50 in the Maharashtra issue to Rs. 8.80 in the Madras and Andhra issues.

Reflecting mainly the slump in gilt-edged prices the yields rose substantially. Among the short-dated Central Government loans, the rise in the yield ranged from 0.22 point in the case of the 4 per cent Loan 1969 to 0.85 point in the case of the  $3\frac{1}{2}$  per cent Loan 1967. In the medium-dated section, the yield on the  $3\frac{1}{2}$  per cent Loan 1974 rose by 0.47 point to 5.30 per cent whereas the yield in  $2\frac{1}{2}$  per cent Loan 1976 recorded a rise of 1.19 points to 6.00 per cent. The increase in yields among long-dateds ranged from 0.09 point in the case of the  $4\frac{1}{2}$  per cent Loan 1986 to 0.87 point in the case of the 4 per cent Loan 1981. In the State list, among short-dated issues, the yields on the  $4\frac{1}{2}$  per cent Loan 1970 of Madhya Pradesh and Maharashtra rose by 0.12 and 1.43 points to 4.86 per cent and 6.14 per cent respectively. In the medium-dated section, the yields on the  $4\frac{1}{2}$  per cent Loan 1972 of Madhya Pradesh rose by 1.05 points to 5.70 per cent and on the  $4\frac{1}{2}$  per cent Loan 1974 of Assam by 1.94 points to 6.80 per cent.

### SHARE MARKET

**Equities:** In the industrial securities market, the bearish trend noticed since mid-May, 1962 generally continued during the greater part of 1965-66 and, despite a modest recovery in the closing quarter, equities recorded widespread losses over the year.

The downtrend in share prices which was touched off by a rise in the Bank rate from 5 to 6 per cent effective February 17, 1965 and the imposition on the same date, of a regulatory customs duty of 10 per cent on all imports with a few exceptions continued till the end of May. During this period the sentiment of the market was adversely affected also by (i) border troubles with Pakistan, (ii) the postponement till the end of June, 1965 of the announcement of the new import policy for the half year April-September, 1965 and (iii) apprehensions of likely drastic cuts in imports. The Reserve Bank's All-India Index of Variable Dividend Industrial Securities (base: 1961-62 = 100), which had closed at 81.6 at end-March, 1965, receded to 79.4 by end-May.

During June, there was a temporary revival in share prices attributed to technical considerations as also to encouraging corporate news, reported sizeable purchases by the Life Insurance Corporation and the Government's decision contained in the Bonus Ordinance which made bonus payable retrospectively from 1964 instead of from 1962 as recommended by the Bonus Commission. The index of share prices recovered partially to 80.9 by the close of June. From June-end, however, there was a decline equities touching a new low by the middle of December. The main factors responsible for this downtrend were (i) the continued deterioration in the foreign exchange situation, (ii) issue of a notification by the Reserve Bank on June 29 requiring every importer to deposit with an authorised dealer 25 per cent of the value of each shipment prior

to the despatch of goods to India, (iii) the announcement on June 30 of the new import policy envisaging further curbs on imports, (iv) the recommendations in July of the Wage Board for the Iron and Steel Industry for a substantial increase in minimum wages, (v) the reported decision of the Committee of the National Development Council that both the Centre and the States should introduce supplementary budgets during the current financial year to raise additional resources to finance plan expenditure, (vi) the Indo-Pak Armed conflict, (vii) the presentation on August 19 of the supplementary Central budget with proposals for additional taxation expected to yield Rs. 100 crores during the rest of the financial year and (viii) temporary suspension of foreign aid. Against the background of these bearish factors, the reported sizeable investments in industrial securities by the Life Insurance Corporation and intermittent purchases by the Unit Trust of India did not have much effect. The index of share prices receded continuously during this period from 80.9 at end-June to a low of 71.5 in the week ended December 18, 1965.

From Mid-December, however, a revival in market sentiment was discernible, which was partly technical and partly attributed to (i) the news of the grant of rupee loans from counterpart funds to the Industrial Credit and Investment Corporation of India and the Industrial Development Bank of India totalling Rs. 35 crores, (ii) improved prospects of larger food imports and (iii) the signing of the Tashkent Declaration of January 10, 1966. There was some uneasiness in the latter half of January following the sudden demise of Mr. Lal Bahadur Shastri, but market sentiment was aided by the policy statement of the new Prime Minister towards the close of January that private enterprise would continue to receive encouragement and assistance from the Government. The market was also favourably influenced by the U.S. Vice-President's announcement on February 17, of a \$100 million aid to India for import of essential raw materials for industries. The Union budget proposals for 1966-67 contained some new imposts calculated to bring in net additional receipts of Rs. 92 crores to the Centre but it also contained some fiscal reliefs and incentives, particularly (i) the abolition of the

national capital gains tax on bonus shares issued to individual investors and of the 12.5 per cent bonus issue tax payable by companies and (ii) the exemption of the 7.5 per cent dividend tax on the equity distribution by companies upto 10 per cent of paid-up equity capital. Equities reacted bullishly, sentiment being aided by expectations of a spate of bonus issues and renewed optimism regarding foreign aid. The index of share prices recovered from 71.5 in mid-December to 74.1 in the week ended February 26, 1966 and further to 75.9 in the week ended March 26, 1966. But over the year 1965-66 as a whole, the index showed a decline of 7.0 per cent as compared to a decline of 5.9 per cent during 1964-65 and a rise of 4.6 per cent during 1963-64.

Regionwise, the largest decline was recorded by the Calcutta market (9.5 per cent) followed by Bombay (5.9 per cent), Madras (4.8 per cent), Delhi (4.1 per cent) and Ahmedabad (1.5 per cent).

In line with the general trend, most of the sub-groups showed losses over the year notable among them being jute textiles which declined by 23.9 per cent. Despite the creditable performance of the jute industry, both in production and exports, the industry was faced with narrowing margins of profits. Howrah and Birla Jute declined from Rs. 14.50 and Rs. 33.19, respectively at end-March 1965 to Rs. 13.75 and Rs. 24.62 by the close of March, 1966. Coal group fell by 14.1 per cent as the industry continued to be faced with rising costs of production. Burrakur Coal and Bengal closed lower at Rs. 14.00 and Rs. 177.00, respectively, as compared to the preceding year's closing levels of Rs. 15.12 and Rs. 225.00. The shares of the cotton textile industry, which was faced with the problem of reduced off-take and stocks accumulation, fell by 11.9 per cent. In Bombay, Kohinoor and Standard lost Rs. 63.50 and Rs. 37.00, respectively, over the year to close at Rs. 250.50 and Rs. 394.00. Sugar group showed a decline of 9.2 per cent; despite record production, the sugar industry was confronted with reduced profit margins. A few sub-groups, however, showed rises over the year. Iron and steel, and cement shares, improved by 3.2 per cent each. In the former, besides the satisfactory working results of the main producers, sentiment

was also helped by the agreement reached between the Government and the Indian Iron and Steel Company about the repayment of loan while Government's decision on decontrol of cement helped the sentiment in the latter. Among steel shares, Tata Steel firmed up from Rs. 143.00 to Rs. 159.75 by June-end in view of the satisfactory working results of the company, and, after reacting to Rs. 133.00 following the declaration of dividend of Rs. 12.00 which fell short of market's expectations, recovered to close at Rs. 142.25. Indian Iron showed a net rise of Rs. 1.20 to Rs. 25.58. In the plantation group, rubber shares rose by 7.0 per cent in view of the bright prospects for the industry and better corporate outlook. The cash section continued to be weak generally despite selective support. Colour Chem fell by Rs. 32.50 to Rs. 235.00, Bombay Oxygen by Rs. 18.00 to Rs. 35.00 and Indian Rayon by Rs. 7.00 to Rs. 37.00. Anil Hardboard and Ceat Tyres, however, gained Rs. 5.00 and Rs. 4.00, respectively, at Rs. 130.00 and Rs. 81.00.

As regards fixed-interest-yielding industrial securities, the easiness noticed in these in the latter part of 1964-65 became more pronounced during 1965-66. The all-India index for preference shares (base: 1961-62 = 100) declined continuously from 100.4 at the close of March, 1965 to 90.9 at the close of March, 1966 — a fall of 9.5 per cent as compared to a fall of 0.7 per cent in 1964-65 and a rise of 1.6 per cent in 1963-64. The index for debentures also moved down from 95.0 at the end of 1964-65 to 93.1 by the close of 1965-66, showing a net decline of 2.00 per cent as compared to a net decline of 0.6 per cent during 1964-65 and of 0.3 per cent during 1963-64.

During the year, there was a further leveraging up of yields on industrial securities reflecting the dear money conditions. Thus, the average yield on variable dividend industrial securities rose from 6.05 per cent to 6.64 per cent that on preference shares from 6.72 per cent to 7.40 per cent and that on debentures from 5.78 per cent to 6.39 per cent.

From December 1946, the Reserve Bank of India started constructing indices of security prices. These indices (all-India) reveal the following trend:—

| Average of Weeks    | Government & Semi-Government Securities | Industrial Securities |                   | Banks | Insurance | Investment Trusts | Electricity Generation and Supply | Shipping and other Transport | Tea Plantations | Cotton Textiles | Jute Mills | Coal  | Mining | Iron and Steel | Sugar and Breweries | Chemicals | Paper | Cement |
|---------------------|-----------------------------------------|-----------------------|-------------------|-------|-----------|-------------------|-----------------------------------|------------------------------|-----------------|-----------------|------------|-------|--------|----------------|---------------------|-----------|-------|--------|
|                     |                                         | Fixed Dividend        | Variable Dividend |       |           |                   |                                   |                              |                 |                 |            |       |        |                |                     |           |       |        |

## CAPITAL ISSUES

New issue activity remained subdued during 1965-66 with entrepreneurs continuing to experience difficulty in raising the necessary resources. The magnitude of total capital issues (through prospectus and rights) was lower in 1965 than in 1964 due to a substantial decline in the amount issued for raising risk capital viz. ordinary shares. On the other hand, the trend in favour of fixed-income yielding securities viz., preference shares and debentures

continued during the year. There was a marked fall in both the number and amount of ordinary capital issues as compared with the previous year, while those for both preference shares and debentures showed increases indicative of the continued investor preference for securities offering safety of capital and a fixed return. Preference shares and debentures issued during the year offered higher rates of return also. The rate of dividend offered on preference issues

generally ranged between 9.3 to 9.5 per cent though there were instances of even 10 per cent having been offered. In the case of debentures also, there was a general trend to increase the rate of interest from 7 per cent to 7½-7¾ per cent and one issue was placed on the market at even 8 per cent. As between 'initial' and 'further' issues of capital, 'initial' issues, i.e. issues by new companies, suffered a sharp setback as reflected in a decline in both the number and

magnitude of such issues during the year. As regards capital issues made through prospectus, although the net amount offered to the public was appreciably higher in 1965 than in 1964, there was a substantial decline in the amount of foreign participation. During the first quarter of 1966, new issue activity continued to remain subdued though towards the close there were some indications of a change in the investment climate following better prospects of an early resumption of foreign aid and the announcement of certain fiscal concessions in the 1966-67 Budget.

The public response to the issues continued to be poor, a few selected issues only being fully subscribed. In view of the uncertainty of raising capital successfully, entrepreneurs were particularly anxious to have their issues underwritten; Consequently, there was a spurt in underwriting activity, almost the entire amount offered to the public having been underwritten. As a result of poor public response, a large part of the underwritten amount had to be taken up by the underwriters themselves. The term-lending financial institutions (as also the LIC and the UTI) provided the bulk of the underwriting assistance. The financial institutions also made available larger loan finance to the private sector of industry.

Consents for the issue of capital, which indicate broadly the investment intentions of the private sector, showed a marked decline in 1965, total consents (including bonus and miscellaneous issues) for non-Government companies (total consents given to Government companies during 1965 amounted to Rs. 109.3 crores as against Rs. 167.5 crores in 1964, their share declining from 42.7 per cent to 39.6 per cent) being Rs. 166.5 crores during 1965 as against Rs. 224.8 crores in 1964. Consents for the issue of shares (other than bonus) and debentures, which had shown a continuous decline since 1963, fell further from Rs. 138.9 crores in 1964 to Rs. 86.3 crores in 1965. This fall of Rs. 52.6 crores was mainly accounted for by a greater decline (Rs. 39.4 crores) in the consents for 'further' issues relatively to the decline (Rs. 13.3 crores) in 'initial' issues. Securitywise, the total con-

sents for ordinary shares were almost halved from Rs. 101.8 crores in 1964 to Rs. 53.4 crores in 1965, with their percentage to total declining from 73.2 to 61.8. There was a marginal increase in the consents for the issue of preference shares to Rs. 11.9 crores but those for the issue of debentures were somewhat lower at Rs. 21.0 crores in 1965 as compared with Rs. 25.4 crores in 1964. As a proportion to total consents, however, both preference share and debenture issues showed significant increases, the former from 8.5 per cent to 13.8 per cent and the latter from 18.3 per cent to 24.4 per cent. As regards foreign participation, the number of consents involving foreign participation declined from 90 in 1964 to 72 in 1965; the amount involved in such consents was also lower at Rs. 93.0 crores as compared to Rs. 102.5 crores in 1964. The proportion of consents involving foreign participation was, however, higher at 55.9 per cent of total consents in 1965 as against 45.6 per cent in 1964. There was no significant change in the amount of consents for bonus issues; such consents, which had declined sharply from Rs. 10.8 crores in 1963 to Rs. 4.1 crores in 1964, increased only marginally to Rs. 4.9 crores in 1965. In the first quarter of 1966, however, available data indicate a marked rise in such consents following the removal, in the 1966-67 Budget, of the 12.5 per cent tax on bonus issues and of the capital gains tax on notional gains arising from the issue of bonus shares.

As regards capital actually raised against consents and under the Exemption Order, the total amount raised by non-Government companies through shares (other than bonus) and debentures in 1965 amounted to Rs. 98.7 crores — a level which was higher than that in 1964 (Rs. 94.1 crores) and that in 1963 (Rs. 94.2 crores) but lower than that in 1962 (Rs. 108.3 crores). The rise during 1965 was wholly on account of debentures and preference shares, while the amount raised through equity capital was substantially lower. Thus, while the capital raised through debentures increased from Rs. 11.1 crores in 1964 to Rs. 21.1 crores in 1965 and that through preference shares more

than doubled from Rs. 4.8 crores to Rs. 9.8 crores, there was a marked decline in the amount of equity capital from Rs. 78.2 crores to Rs. 67.8 crores.

During the year, the Government took further measures calculated to improve the climate for investment and to revive the capital market.

Selective tax concessions to companies in specified basic and priority industries as well as the introduction of a scheme of tax-credit certificates as incentives to encourage equity investments in new industrial enterprises, higher production, exports, growth and expansion of specified industries existed last year. In the Supplementary Budget presented to Parliament in August, 1965, the development rebate in respect of new plant and machinery installed after March 31, 1965, by specified industries was enhanced from 25 per cent to 35 per cent. In order to encourage the expansion of selected industries, the Government relaxed the industrial licensing procedures relating to expansion and diversification of production as well as for the establishment of new units. (In May, 1966 the Government decided to exempt 11 industries from the licensing provisions of the Industries (Development and Regulation Act, 1951). The 1966-67 Budget also provided for further fiscal reliefs with a view to making the economic climate more favourable to investors. In addition to the abolition of bonus tax, referred to earlier, the company sur-tax was reduced from 40 per cent to 35 per cent while companies were also given exemption from the 7.5 per cent dividend tax in respect of their distribution upto 10 per cent of paid-up equity capital. Three more industries, viz. tea plantations, newsprint and printing machinery were also included in the list of priority industries entitled for special tax concessions. Apart from these measures, the resources of the specialised financial institutions, viz., the IDBI, the IFC and the ICICI were further augmented through the grant of loans from the Government so as to enable these institutions to meet the growing requirements of funds by industries.

### Control of Capital Issue

### PUBLIC COMPANIES

The main features of the Company Act are :

- (1) Equity shares with differential rights regarding voting, dividend, participation in capital on dissolution, are prohibited.
- (2) It puts restrictions on inter-company loans and investments.
- (3) There is a ceiling on overall managerial remuneration.
- (4) Most decisions of the management and even of the Shareholders of a Company require

the approval of the Government before they are put into effect.

(5) The appointment of a managing agent or an associate as a selling or buying agent outside India requires approval by a special resolution.

#### New Company Registrations in 1965-66

There were 1,341 new companies registered in the country during 1965-66 against 1,365 in 1964-65.

The total authorised capital of all the newly-registered companies of 1965-66 amounted to

Rs. 275 crores against Rs. 280 crores during the previous year.

In the second important industrial group, commerce, trade and finance, 404 companies were registered with an aggregate authorised capital of Rs. 22 crores. The number of companies registered in the "Services of all kinds" came to 125, and the authorised capital amounted to Rs. 6 crores, and in the transport and communication group, the number of newly-registered companies stood at 35 with an authorised capital of Rs. 9 crores.

\* Figures relate only to applications disposed of during the period and not to applications actually received during the period.

## FINANCE CORPORATIONS

Under the Industrial Finance Corporation Act, a Corporation was established on July 1, 1948 to provide medium and long-term finance to public limited companies and co-operative societies registered in India, including the acceding States, and engaged in the manufacture or processing of goods or in mining or in the generation or distribution of electricity or any other form of power. Individuals, partnership firms or private limited companies are thus excluded from the purview of the Corporation's operations. With the setting up of a number of State Financial Corporations, it was agreed that applicants for loans upto Rs. 10 lakhs or 10 per cent of the paid-up capital

of the State Financial Corporation of the State in which they are situated, if that was lower than Rs. 10 lakhs, should be advised to apply not to the Industrial Finance Corporation but to the State Financial Corporation concerned.

An Act to provide for the establishment of State Financial Corporations was passed in October 1951. The Act enables the State Governments to establish a Financial Corporation for the State under a name to be specified by notification; and the State Government concerned, the Reserve Bank, scheduled banks, insurance companies, investment trusts, co-operative banks and other financial institutions will be entitled to subscribe to the share capital.

Parties other than these can also be shareholders; but their aggregate holding will not exceed one-fourth of the total capital. The shares allocated will not be transferable except to the State Government, the Reserve Bank or any other recognised financial institution.

Fifteen States have established State Financial Corporations—Punjab, Madras, Maharashtra, West Bengal, Kerala, U.P., Rajasthan, Assam, Bihar, Madhya Pradesh, Andhra, Orissa, Mysore, Jammu and Kashmir and Gujarat.

Besides the State Financial Corporations, there are other State Corporations and All India Corporations. For details see under the articles "State Corporations" and "All India Corporations".

## INDUSTRIAL STRUCTURE AND POLICY

FOR particulars about industrial structure one is dependent on the data compiled under the collection of Statistics Act, 1953. The latest available data are for 1962. A general review of the Annual Survey of Industries, has recently been published by the Government. The survey has classified the industries into 63 groups and 209 subgroups.

The coverage of the survey extends to the entire factories sector, factories being those registered as such under the Factories Act, 1948. The Collection of Statistics Act, 1953, does not apply to Jammu and Kashmir but factories in that State are covered on a voluntary basis. Factories employing 50 or more workers with the aid of power, or 100 or more workers without the aid of power are completely enumerated.

The remaining factories, namely, employing 10 to 49 workers with the aid of power or 20 to 99 workers without the aid of power, are covered on the basis of probability sample.

Table below shows certain important characteristics in respect of India as a whole for the years 1962 and 1963 and also the percentage increase/decrease of these characteristics in 1963 over 1962.

|                                                                          | 1962  | 1963   | Percentage increase over 1962 |
|--------------------------------------------------------------------------|-------|--------|-------------------------------|
| 1. Number of factories .. .. .                                           | 9,784 | 10,556 | 7.89                          |
| 2. Number of factories reporting .. .. .                                 | 9,541 | 10,128 | 6.15                          |
| 3. Productive capital (Rs. crores) .. .. .                               | 3,531 | 4,028  | 14.07                         |
| 4. Employment ('000) .. .. .                                             | 3,263 | 3,365  | 2.97                          |
| 5. Salaries, wages and benefits, total (Rs. crores) .. .. .              | 628   | 643    | 2.39                          |
| 6. Ex-factory value of output (Rs. crores) .. .. .                       | 4,176 | 4,663  | 11.66                         |
| 7. Value at factory of input including depreciation (Rs. crores) .. .. . | 3,060 | 3,391  | 10.82                         |
| 8. Value added by manufacture (Rs. crores) .. .. .                       | 1,116 | 1,272  | 13.98                         |

With the bringing together for the first time, the results of the census and sample sectors of the Annual Sample Survey for the years 1959 and 1960, the total picture of the position of the factory sector in the manufacturing industry was made available by the Central Statistical Organisation. The latest combined data pertain to the

year 1962. Productive capital employed in 1962 increased by 38 per cent over the previous year, as against the increase in the working force by only 7.5 per cent. Value of gross output recorded an increase of 12.6 per cent, while value added by manufacturing industry increased by 9.4 per cent.

All the 44,211 factories in India in 1962 employed over Rs. 3,767 crores of productive capital and about 4 million persons. The value of their gross output was over Rs. 5,091 crores and the value added by manufacture was Rs. 1,280 crores.

## INDUSTRIAL POLICY

Table below shows the comparative picture of the two sectors :

| Items                                      | Census Sector |       | Sample Sector |        | Total Factory Sector |        | Percentage increase over 1961 |
|--------------------------------------------|---------------|-------|---------------|--------|----------------------|--------|-------------------------------|
|                                            | 1961          | 1962  | 1961          | 1962   | 1961                 | 1962   |                               |
| 1. No. of factories (registered)           | 9,161         | 9,784 | 33,648        | 34,427 | 42,809               | 44,211 | 3.3                           |
| 2. Productive Capital (Rs. crores)         | 2,874         | 3,438 | 359           | 329    | 2,733                | 3,767  | 37.8                          |
| 3. Persons employed ('000)                 | 3,050         | 3,268 | 679           | 742    | 3,729                | 4,010  | 7.5                           |
| 4. Ex-factory value of output (Rs. crores) | 3,693         | 4,176 | 830           | 915    | 4,523                | 5,091  | 12.6                          |
| 5. Value added (Rs. crores)                | 987           | 1,115 | 184           | 165    | 1,171                | 1,280  | 9.4                           |

The 1948 Industrial Policy Resolution, of which the text is given in the 1959 Directory, was reviewed and a new Industrial Policy Resolution was placed before Parliament by the Prime Minister on 30th April 1956.

This is now the accepted industrial policy of the Government.

The major part of Government's policy is concretised in the Five Year Plans, the first of which started in 1951 as also in a series of industrial undertakings collectively known as the public sector. These are dealt within the article entitled "Government Industrial Undertakings".

The aggregate investment outlay and the combined share of industries and minerals under the 2nd, 3rd and 4th Five-Year Plans are given below :

(In crores of Rs.)

| Sector  |    |    |    |    |    |    | Second Plan      |                         | Third Plan       |                         | Fourth Plan      |                         |
|---------|----|----|----|----|----|----|------------------|-------------------------|------------------|-------------------------|------------------|-------------------------|
|         |    |    |    |    |    |    | Aggregate outlay | Industries and Minerals | Aggregate outlay | Industries and Minerals | Aggregate outlay | Industries and Minerals |
| Public  | .. | .. | .. | .. | .. | .. | 3,650            | 870                     | 6,300            | 1,520                   | 16,000           | 4,306                   |
| Private | .. | .. | .. | .. | .. | .. | 3,100            | 675                     | 4,100            | 1,050                   | 7,750            | 2,670                   |
| Total   | .. | .. | .. | .. | .. | .. | 6,750            | 1,545                   | 10,400           | 2,570                   | 23,750           | 6,976                   |

## THREE CATEGORIES

A summary of the text of the Industrial policy resolution placed before Parliament by the Prime Minister on 30th April 1956 has been given in the previous editions of the Directory.

## INDUSTRIES DEVELOPMENT &amp; REGULATION ACT

The provisions of the Industries Development and Regulation Act have been detailed in the previous issue of the Directory. Recently, certain industries have been delicensed.

In May, 1966, the Govt. of India delicensed the following 11 industries; in July, 1966 two more industries were added to the list, thus, bringing the total of delicensed industries to 13. It will no longer be necessary for entrepreneurs intending to set up units in any of the 13 industries to apply for an industrial licence but these industries still continue to be listed under the Act.

(1) Iron and steel castings and forgings. (2) Iron and steel structurals. (3) Electric motors (not exceeding 10 horse power). (4) Pulp-wood: pulp—mechanical, chemical including dissolving pulp. (5) Power alcohol. (6) Solvent extracted oils. (7) Glue and gelatin. (8) Glass—other than hollow-ware. (9) Ceramic: fire bricks. (10) Cement and gypsum products: portland cement, insulating boards, gypsum boards, wall boards and the like. (11) Timber products: plywood. (12) Paper and newsprint. (13) Handtools.

In early September 1966, the Govt. declared its intention to delicense textile industry soon.

## STATE AID

State aid is given in a number of ways. The various financial corporations give financial assistance.

The National Industrial Development Corporation grants loans for the modernization of plant, especially in the textile, jute and also the machine tool industry.

The Industrial Finance Corporation affords financial assistance in the form of advances and long-term loans to industrial concerns.

The State Financial Corporations assist medium and small-scale industries that fall outside the scope of the all-India Corporations.

The Refinance Corporation finances medium-scale industries.

(There are factual notes on the National Industrial Development Corporation, the Refinance Corporation, the State Financial Corporations and the Industrial Finance Corporation in the Chapter on 'Corporations'.)

The Industrial Development Bank provides risk capital and technical expertise.

Technical assistance is arranged through the Point Four Programme, the Colombo Plan and the U.N. Technical Assistance schemes.

Tariff is regulated to foster indigenous industry. Tax concessions are made (see below under 'Foreign Capital'). Foreign exchange is granted under a system of priorities, especially to facilitate the import of essential raw material and basic intermediates.

## MANAGING AGENCY SYSTEM

In January, 1965, the Govt. of India appointed the Managing Agency Inquiry Committee under the Chairmanship of Dr. I. G. Patel, Chief Economic Adviser, Ministry of Finance to enquire into the steps to be taken for the speedy dissolution of the managing agency system, particularly in the five established industries of cement, cotton textiles, paper, sugar and jute textiles. The Committee submitted their report in early May, 1966 recommending the discontinuance of the managing agency system in general on social and economic grounds, and in particular of that in the sugar, cotton textiles and cement industries. It favoured the continuance of the system in jute and paper industries.

On 5th September, 1966 Govt. announced its decision in Parliament to end the managing agency system in all the five industries in question; the industries would be given three years to change over. It was also announced that steps would be taken to ensure that the flow of finances to these five industries remained uninterrupted even after the abolition of the managing agency system.

In order progressively to reduce the number of managing agencies, the Govt. has also decided to review the question of continuance of the system in other established industries also.

According to the latest figures available as on April 1, 1966 there were 869 companies managed by managing agents, against 5,055 in 1959. Cotton textiles, cement, sugar, paper and jute textiles accounted for 302 companies leaving a balance of 567 managed companies in other industries.

Out of the 13,084 companies registered from 1956-57 to 1965-66, only 99 applied for approval of appointment of managing agents of which 77 were approved by the Company Law Board.

Government does not approve of overseas firms trying to come in on the managing agency system. Nor does it approve of cases in which a firm of managing agents expands its scope from a single enterprise to a number of new manufacturing plants.

The Government of India has decided that the remuneration of Managing Agents and Secretaries and Treasurers should ordinarily be fixed according to a sliding scale of commission on the net profits of managed companies. Under the Companies Act, 1956, the Government have to satisfy that the conditions of the agreement to be entered into between the managed company and the Managing Agents or Secretaries

and Treasurers are fair and reasonable. While considering applications in this behalf, therefore, the Government have to determine what would be a fair and reasonable remuneration and tenure within the maxima permissible under the Act, in the circumstances of each case. This matter was given very careful consideration and the Government fixed the remuneration and tenure for Managing Agents or Secretaries and Treasurers. The scale of commission fixed is as follows:

**Managing Agents:** 10 per cent on the first Rs. 10 lakhs or fraction thereof, 9 per cent on the next Rs. 10 lakhs or fraction thereof, 8 per cent on the next Rs. 10 lakhs or fraction thereof, 7 per cent on the next Rs. 10 lakhs or fraction thereof, 6 per cent on the next Rs. 10 lakhs or fraction thereof, 5½ per cent on the next Rs. 25 lakhs or fraction thereof, 5 per cent on the next Rs. 25 lakhs or fraction thereof and 4 per cent on any sum over one crore of rupees.

**Secretaries and Treasurers:** 7½ per cent on the first Rs. 10 lakhs or fraction thereof, 6½ per cent on the next Rs. 10 lakhs or fraction thereof, 6 per cent on the next Rs. 10 lakhs or fraction thereof, 5½ per cent on the next Rs. 10 lakhs or fraction thereof, 4½ per cent on the next Rs. 10 lakhs or fraction thereof, 4 per cent on the next Rs. 25 lakhs or fraction thereof, 3½ per cent on the next Rs. 25 lakhs or fraction thereof and 3 per cent on any sum over one crore of rupees.

The Government have also decided that the term of office should ordinarily be 10 years when a company appoints Managing Agents or Secretaries and Treasurers for the first time, and five years on reappointment or successive appointments.

#### INDIAN INVESTMENT CENTRE

(See under "Associations" of Delhi State for details).

#### Taxation Policy

The following are some of the important tax incentives allowed by the Government:

Profits of a new industrial undertaking are exempt from tax up to six per cent of the capital employed for a period of five years. Dividends out of such profits are also exempt from tax. A development rebate equal to 20 per cent of the cost of the plant and machinery is allowed as a deduction from the taxable income in the year of installation. This rate is being put at 25 per cent in the case of Schedule V Industries of I. T. Act.

A higher rate of development rebate is being allowed in the case of Shipping and Coal industry i.e., 40 per cent and 35 per cent of the value of machinery installed after March 31, 1965.

Dividends received by a company, Indian or foreign, from an Indian company formed after 31st March 1952 and engaged in specified

industries are exempt from super tax. Dividends received from Indian companies not engaged in specified industries but formed and registered after 1st April 1959, are taxable at a lower rate of super tax than the other income of the investing company, the percentage being 40. Interest on loans from approved foreign institutions on terms previously approved by the Government is exempt from tax. In computing business profits capital expenditure incurred on scientific research related to the business is allowed to be spread over five years and charged to the revenue in addition to the current expenditure which is allowed in full.

Royalties received from an Indian concern by a foreign company (which does not declare dividends in India) in pursuance of an agreement made with it on or after 1st April 1961, which has been approved by the Government are charged to super tax at a concessional rate of 50 per cent.

Technicians of foreign nationality taking up employment in India are exempt from tax on their remuneration for 365 days and where contracts are approved by the Government for 36 months. If the technician continues to remain in employment in India after the said period of 36 months and the employer pays tax on the technician's income chargeable under the head 'salaries' for a period not exceeding 24 months following the expiry of the said 36 months, such tax shall not be treated as income of the technician.

The value of periodical home leave passages provided to employees of foreign nationality is excluded from their taxable income.

Agreements for the avoidance of double taxation exist with a number of countries, e.g. Pakistan, Ceylon, Sweden, Norway, Japan, the Federal Republic of Germany and Denmark. These agreements ensure that the benefit of tax concessions is actually retained by the foreign investor as far as possible.

Arrangements for double taxation relief are in force with the Governments of some countries e.g., Kenya, Tanzania, Uganda and Zanzibar.

**Exchange Control:** All transactions involving foreign exchange are controlled by the authorities. The general policy adopted in respect of foreign investments is briefly described below, though variations in individual cases on merit are permissible.

**Entry of Foreign Investment:** The inflow of foreign investments into India is encouraged. It is regulated so as to channel them into fields consistent with the national economic policy. Thus, foreign investment is encouraged in the field of manufacturing and in industries for which adequate capacity does not already exist in the country, but is not permitted, for instance, in purely trading or financial enterprises.

The usual forms of foreign financial participation in India are equity capital and long-term loans. Technical collaboration against payment of fees or royalties on reasonable terms is also permitted.

Repatriation of investments from sterling area countries is allowed freely.

The income earned by non-resident investors on their investments in India is allowed to be remitted freely to their country.

Persons of foreign domicile resident in India, are, in general, offered liberal remittance facilities for meeting all their current expenses including maintenance of their families abroad and for transfer of assets to their country at the time of retirement.

**Currency Convertibility Agreement with U.S.A.:** Under the agreement signed in 1957 by India and U.S.A. based on the U.S. Investment Guarantee Programme, U.S. private investors, on payment of a small premium, can obtain guarantee from their Government for the re-convertibility into U.S. dollars of the proceeds from the sale of their investments in India and/or earnings from investments in projects approved by the Government of India. In 1959, this agreement was extended so as to provide for the payment of adequate compensation to U.S. investors in the event of expropriation of their assets in India.

#### COMPANY LAW

The Companies Act, 1956 (Act No. 1 of 1956) *inter alia* recognises two forms of companies viz., public company and private company. A private company which is a subsidiary of a public company is for many practical purposes treated as a public company.

For the incorporation of a company, documents such as (i) Memorandum of Association and (ii) Articles of Association have to be presented for registration to the Registrar of Companies along with proposed agreements, if any, regarding the management and a declaration that all requirements under the Act have been duly complied with. In the case of a public company, a list of persons who have agreed to become directors together with their consent letters should also be filed.

On the issue of the Certificate of Registration, a private company can forthwith commence its business but a public company is further required to undergo certain formalities and to obtain a Certificate for commencement of business (Sec. 149).

A public company or a private company which is a subsidiary of a public company can issue only two kinds of share capital viz. (i) equity and (ii) preference (Sec. 86).

A summary of the provisions under the various Sections of the Act is given in the previous issues of the Directory.

## MINES AND MINERALS

INDIA produced during 1965 minerals valued at Rs. 2,330 million\* as against Rs. 2,089 million\* (excluding mineral oil and atomic energy minerals) in the previous year showing an increase of 12 per cent. The year 1965 was generally characterised by higher output of all important minerals in contrast to the year 1964 when the mining industry witnessed a minor recession. The increased requirements of mineral raw materials for the expanding domestic industries and the slight upward trend in prices particularly of coal and non-metallic minerals brought about an expansion both in quantity and value of output in most spheres of the mining industry during 1965.

Coal and Lignite constituted the leading group and accounted for Rs. 1,755 million or 75 per cent of the total value of mineral production during 1965. The share of metallic minerals in the total value was Rs. 803 million or 13 per

cent, the ferrous and non-ferrous groups accounted for 9.3 per cent and 3.7 per cent respectively. Non-metallic minerals valued at Rs. 272 million contributed the remaining 12 per cent of the total value of mineral production in 1965.

In terms of value next to coal and lignite were iron ore (Rs. 136 million), limestone (Rs. 123 million), manganese ore (Rs. 78 million), salt (Rs. 73 million), gold (Rs. 42 million), copper ore (Rs. 25 million) and mica (Rs. 23 million).

Bihar continued to be the leading State and produced minerals valued at Rs. 882 million which was about 38 per cent of the total value\* of mineral production in India during 1965. West Bengal and Madhya Pradesh followed with their shares of 21.3 per cent and 13.8 per cent respectively. Andhra Pradesh and Orissa continued to occupy the fourth and fifth positions while Madras moved up to the sixth position

during 1965 compared to the eighth position held during 1964 and this lead was taken on account of the increased mining of lignite.

All the States showed an increase in the value of mineral production during 1965, except Mysore, Gujarat, Kerala and Jammu and Kashmir. The fall in the case of Gujarat was accounted for by salt, the value of which declined despite increase in the total output, while in case of Mysore the lower value was recorded due to fall in the production of gold which was reported both from the Kolar Gold Mining Undertakings and the Hutti Gold Mines, because of milling lesser tonnage of ore in the former case and because of labour strike in the latter case. The decline in the value in Jammu and Kashmir was chiefly due to the fall in the output of Coal. The fall in the mineral production value in Kerala was accounted for by lower output of rutile.

\* Excluding (a) petroleum, (b) minor minerals and (c) minerals declared as prescribed substances under the Atomic Energy Act, 1948 and also the value of mineral production from Goa.

The reserves are ample in respect of basic minerals for industries—coal and iron but the country is deficient in a number of minerals of copper, lead and zinc, tin, nickel, cobalt and in sulphur. Attention was paid in finding out new deposits of minerals.

The total foreign exchange spent for imports of ores, minerals, metals and alloys during 1965 was Rs. 2,023 million as against Rs. 1,783 million during 1964. Out of this the share of metals and alloys was Rs. 1,820 million during 1965 as against Rs. 1,618 million during 1964.

The foreign exchange earned by the exports of ores and minerals and metals and alloys from India (including Goa) was valued at Rs. 1,011 million as against Rs. 980 million during the previous year. Out of this the share of ores and minerals was Rs. 810 million during 1965 which was almost static compared to the preceding year.

The cumulative value during the first quarter of 1966 at Rs. 615 million was also higher by 9 per cent compared with the corresponding period of the previous year.

### COAL

The most important coal fields are Raniganj in West Bengal and Jharia and Bokaro in Bihar. The West Bengal and Bihar fields contribute major share of the total output. The best coking coal comes from Giridih, Jharia and Raniganj. Other States in which coal is found are Madhya Pradesh, Orissa, Andhra Pradesh, Madras, Maharashtra, Assam, Rajasthan and Kashmir.

Indian coal falls mainly into two classes namely, high grade steam and low grade steam.

The Metallurgical Coal Conservation Committee placed the reserves of coking coal at 329.6 million tons in respect of selected grade, 395.7 million tons of grade I quality and 49.1 million tons of grade II quality. With storing, washing and blending the Committee thought that a reserve of 2,000 million tons of good quality coking coal could be obtained. The Geological Survey of India has estimated the total reserve of coal in India as 31,888 million tonnes down to 800 metres depth.

The following table gives the details of output:—

| Year       | Production<br>(million metric<br>tons) |
|------------|----------------------------------------|
| 1961 .. .. | 56.07                                  |
| 1962 .. .. | 61.37                                  |
| 1963 .. .. | 65.96                                  |
| 1964 .. .. | 62.44                                  |
| 1965 .. .. | 67.16                                  |

Value of production of coal during 1965 was Rs. 170 crores.

The target production of coal (excluding Jammu and Kashmir) was fixed on fiscal year-wise basis and the target during the year 1964-65 was 76.84 million tonnes of which 58.23 million tonnes was set for collieries in the private sector and 18.11 million tonnes for the public sector. As against this the production of coal (excluding J & K) during the year 1964-65 was recorded at 62.78 million tonnes comprising 50.87 million tonnes from the private sector and 11.91 million tonnes from the public sector.

India exported 9,024 tonnes of coke in 1964 valued at Rs. 880,000 to Burma, Pakistan and Nepal as against no exports in 1963. However, during 1965 the exports were only 4,920 tonnes valued at Rs. 493,000.

Because of the paucity of coal deposits in South India, high priority has been given to the development of the multipurpose 'South Arcot Lignite Project' at Neyveli. This project is planned to increase the mine output to 5.5 million tonnes per annum. During 1965, 2.30 million tonnes of lignite was mined in Neyveli.

During the year 1964 altogether 9 washeries were in operation and 3 more were proposed to be set up and all the 12 washeries put together will have rated capacity of 22 million tonnes per annum.

During the three months ending March, 1966, the output of lignite which totalled 704,000 tonnes showed a significant increase of 64 per cent over the level recorded in the corresponding period of 1965.

### IRON ORE

India possesses about one-fourth of the total world reserves of iron ore and is the biggest single country possessing such a large quantity of iron ore deposits as 21,000 million tons.

The production of iron ore in 1965 was 16.90 million tonnes (excluding Goa) showing an increase by 10 per cent over the previous year. The production from Goa during 1965 was 6.49 million tonnes as against 6.05 million tonnes during 1964.

During 1965 despatches of iron ore for consumption in the iron and steel plants totalled 11.71 mln. tonnes against 10.92 mln. tonnes in 1964.

The quantity of iron exported in 1965 was 11.26 million tonnes valued at Rs. 395.1 million as compared with 10.5 million tonnes valued at Rs. 371.6 million in 1964.

Japan continued to be the largest importer and received a total of 7,003,523 tonnes of ore during 1964 compared to 6,116,042 tonnes during 1963.

The output of iron-ore was 5.2 million tonnes in the first quarter of 1966.

During 1965, Orissa, Bihar, Mysore and Madhya Pradesh accounted for 38%, 25%, 17%, and 16%, while Andhra Pradesh, Maharashtra, Madras and Rajasthan jointly accounted for the remaining 4% of the all India output.

### Production

The following is the trend of production:

| Year       | Qty. in<br>'000 metric<br>tonnes. | Value<br>Rs. '000. |
|------------|-----------------------------------|--------------------|
| 1961 .. .. | 12,309                            | 89,211             |
| 1962 .. .. | 13,509                            | 1,02,129           |
| 1963 .. .. | 14,995                            | 1,13,789           |
| 1964 .. .. | 15,311                            | 1,09,434           |
| 1965 .. .. | 16,901                            | 1,35,888           |

The production of iron ore in Goa during 1964 and 1965 was 6.05 and 6.49 million tonnes respectively.

The export trade of iron ore during 1961 to 1965 is indicated below:

| Year       | Qty. in<br>'000 metric<br>tons. | Value in<br>Rs. '000. |
|------------|---------------------------------|-----------------------|
| 1961 .. .. | 3,466                           | 1,79,379              |
| 1962 .. .. | 3,390                           | 2,317,83              |
| 1963 .. .. | 9,379                           | 3,60,510              |
| 1964 .. .. | 10,482                          | 3,71,574              |
| 1965 .. .. | 11,264                          | 3,95,078              |

### MANGANESE ORE

Extensive deposits of manganese ore occur in Madhya Pradesh, Orissa, Andhra Pradesh, Maharashtra, Mysore, Bihar, and Rajasthan.

The total reserves of manganese ore in the country according to the latest estimate, are now placed at over 182.8 million tons of which 48 million tons are of high grade. It is estimated that the deposits in the main belt of Nagpur and Bhandara in Maharashtra and Balaghat and Chhindwara in Madhya Pradesh alone contain

reserves of the order of 80 million tons upto a depth of 500 ft. A major part of the output is exported at present.

The following is the trend of output and exports of manganese ore in '000 metric tons (including Goa):

| Year       | Production | Exports |
|------------|------------|---------|
| 1961 .. .. | 1,230      | 1,123   |
| 1962 .. .. | 1,225      | 903     |
| 1963 .. .. | 1,100      | 946     |
| 1964 .. .. | 1,304      | 1,598   |
| 1965 .. .. | 1,504      | 1,147   |

The production of manganese ore in 1965 in Goa was 101,000 tonnes of which 78,000 tonnes were of ferruginous grade.

The export of manganese ore has been decontrolled from Oct. 1962. The export of manganese dioxide/peroxide has also been decontrolled since April 23, 1964.

To conserve high grade ore Government is encouraging the setting up of beneficiation plant to improve low grade manganese ore and promote export. A heavy media separation plant for beneficiating low grade ore was set up by the then Central Province Manganese Ore Co. Ltd. at Dongri Buzurg in Bhandara District in 1954.

There is only one ferro-manganese plant under public sector at Bhadravati in Mysore.

In the private sector six ferro-manganese plants located respectively at Joda and Rayagada in Orissa, Garividi in Andhra, Dandell in Mysore, Tumsar and Kanhan in Maharashtra have gone into production. During the year 1965 all these plants produced a total of 149,331 tonnes of ferro-manganese.

During the first quarter ending March 31, 1966 production of manganese ore was 429,000 tonnes which is 26 per cent more than last year for the same period.

### MICA

Mica is treated as a strategic mineral and India accounts for a big slice of the world trade in it.

The principal mica deposits are concentrated in Bihar, Rajasthan and Andhra Pradesh.

During 1965 Bihar, Rajasthan and Andhra Pradesh accounted for 48%, 27% and 24%; and the remaining one per cent by Madras, Madhya Pradesh and West Bengal put together of the total mica production in India. Most of the production from Rajasthan is sent to Bihar to be split and marketed. The greater portion of the Andhra output is of green variety.

The export of mica on consignment basis has been banned since Feb. 1964. The export of mica scrap and waste is allowed subject to floor price of Rs. 200 per tonne with effect from April 1, 1966.

The production and export figures of Mica are given below:—

| Year       | Production <sup>1</sup><br>(metric tons) | Export <sup>2</sup><br>(metric tons) |
|------------|------------------------------------------|--------------------------------------|
| 1961 .. .. | 28,347                                   | 26,493                               |
| 1962 .. .. | 28,481                                   | 31,188                               |
| 1963 .. .. | 25,322                                   | 34,075                               |
| 1964 .. .. | 21,698                                   | 29,891                               |
| 1965 .. .. | 22,985                                   | 37,531                               |

<sup>1</sup> Crude Mica. <sup>2</sup> All varieties.

### CHROMITE

Chromite is an important strategic mineral of which India has moderate supplies.

The chief deposits are in the Singhbhum district of Bihar, Mysore and Hassan districts of Mysore State, Ratnagiri and Bhandara districts of Maharashtra, the Krishna district of Andhra Pradesh, the Salem district of Madras, and Cuttack and Keonjhar districts of Orissa.

The following table gives details regarding production and export of chromite ore :—

| '000 metric tons |        |         |
|------------------|--------|---------|
| Year             | Output | Exports |
| 1961 .. ..       | 48     | 41      |
| 1962 .. ..       | 66     | 16      |
| 1963 .. ..       | 65     | 10      |
| 1964 .. ..       | 33     | 31      |
| 1965 .. ..       | 60     | 38      |

### MAGNESITE

Large deposits of magnesite used in the manufacture of magnesium salts, metallic magnesium and refractory bricks are known to occur in Salem (Madras), Hassan, Coorg and Mysore (Mysore), Almora (U.P.), small deposits are known in Durgapur (Rajasthan) and Singhbhum (Bihar).

Of these, the chief producing centres are Salem, and Mysore districts.

Major part of the output is used in the manufacture of refractory bricks for steel works and a considerable quantity is exported.

The output and export of magnesite from 1961 to 1965 are given below :—

| Year       | Output<br>(Metric tons) | Exports<br>(Metric tons) |
|------------|-------------------------|--------------------------|
| 1961 .. .. | 2,09,744                | 31,932                   |
| 1962 .. .. | 2,12,888                | 32,062                   |
| 1963 .. .. | 2,34,566                | 33,349                   |
| 1964 .. .. | 2,07,732                | 36,151                   |
| 1965 .. .. | 2,38,706                | 53,099                   |

### GYPSUM

Gypsum deposits are found in several parts of India. The better known gypsum bearing regions are in Rajasthan (Jodhpur, Bikaner, Nagaur and Jaisalmer), in Madras (Tiruchirappalli and Coimbatore districts) and the Jammu & Kashmir.

The total reserves are estimated at 1,006 million tonnes. Rajasthan accounts for more than 90 per cent of the Indian reserves.

Smaller deposits also occur in Tehri-Garhwal (U.P.) and in Himachal Pradesh.

The production of gypsum during 1961 to 1965 is given below :—

| Year       | Output<br>('000 Metric Tons) |
|------------|------------------------------|
| 1961 .. .. | 866                          |
| 1962 .. .. | 1,122                        |
| 1963 .. .. | 1,190                        |
| 1964 .. .. | 880                          |
| 1965 .. .. | 1,148                        |

### LEAD-ZINC ORE

During 1965, 5,500 tonnes of lead concentrates and 9,600 tonnes of zinc concentrates were produced from Zawar mines in Udaipur district of Rajasthan. Zawar is the only area producing lead and zinc ores.

The production of refined lead during 1965 was 2,905 tonnes as against 3,624 tonnes in 1964 from the Tundoo smelter.

It is proposed to increase its present installed capacity of 6,000 tonnes of pig lead per annum to 8,128 tonnes (8,000 tons).

The Planning Group for Non-Ferrous Metals has suggested that steps may be taken to set up two more lead smelters based on the imported concentrates to provide about 70,000 tonnes of metal per year so that at least 50 per cent of the requirements of the country may be met by the end of the Fourth Plan.

The exports of zinc concentrates on toll basis to Japan have been cut down from 9,598 tonnes during 1964 to 2,706 tonnes during 1965 to meet the requirements of Zinc smelter at Debari in Rajasthan. This smelter is in its final stages of construction having an annual capacity of 18,288 tonnes (18,000 tons) of Zinc and 29,464 tonnes of sulphuric acid to be recovered per annum and converted in turn into 76,200 to 81,280 tonnes per annum of superphosphate. Besides, 76 tonnes of cadmium metal per annum will also be recovered.

### SULPHUR

Native sulphur in deposits of large size is unknown in India.

The mineral pyrites is another source of sulphur. It is found in Amjor (Bihar), Ingaldhal, Kaiga (Mysore), Taradevi (Simla), Lashtial (Kashmir) and Polur (Madras) of which Amjor and Ingaldhal deposits are of economic importance.

The Indian Bureau of Mines have estimated 391 million metric tons of pyrites in area covering 48 sq. miles at Amjor assaying 40 per cent sulphur. The Pyrites and Chemical Development Company Ltd., has been set up under the aegis of NIDC to exploit pyrites for production of sulphuric acid and other related products.

The P.C.D.C. has initiated action on setting up a sulphuric acid plant at Sindri with a capacity of 400 tonnes per day based on Amjor pyrites.

As there is no production of sulphur in India, the country's requirements are met from imports, for which the recent figures are given below :—

| Year       | Quantity<br>(tonnes) |
|------------|----------------------|
| 1961 .. .. | 191,433              |
| 1962 .. .. | 248,031              |
| 1963 .. .. | 261,018              |
| 1964 .. .. | 241,161              |
| 1965 .. .. | 283,248              |

Pyrites to the tune of 2.03 million tons assaying 20 to 30 per cent sulphur have been estimated to be available at Ingaldhal, Mysore State.

Substantial quantities of pyrites are associated with the gold deposits of Wynad in the Nilgiris District of Madras.

Copper pyrites deposits are also a source of sulphur. Some of the Indian coal e.g. Assam coal and Rewa coal are high in sulphur.

### COPPER

In India at present Indian Copper Corporation Ltd., is the sole producer of Copper ore and metal at Ghatsila, Bihar.

The production of refined copper was 9,360 tonnes in 1965 and 9,475 tonnes in 1964. This

meets hardly 10 per cent of the copper requirements of the country.

Extensive investigations are being carried out throughout the country to locate promising copper bearing areas. The more important of these are Khetri, Madhan-Kudhan, Kolihan, Akwall, Dariba and few other sections of the Khetri Copper belt in Rajasthan; Bakha, Roam-Sideshwar, Ramchandrapahar and few other areas in Bihar; and in Agnigundala and Bellapalli in Guntur Distt. and Mailaram in Khammam district in Andhra Pradesh.

National Mineral Development Corporation Ltd., (NMDC) has submitted the project report of the Khetri Copper Project for installing a flash smelter to a production level of 21,000 tonnes of electrolytic copper per annum and sulphuric acid as a by-product and opening of a mine with foreign collaboration.

The recent figures of import of the copper metal are given below :—

| Year       | Quantity<br>(Tonnes) | Value in<br>Rs. '000 |
|------------|----------------------|----------------------|
| 1961 .. .. | 62,316               | 195,753              |
| 1962 .. .. | 71,790               | 238,028              |
| 1963 .. .. | 74,008               | 253,867              |
| 1964 .. .. | 67,471               | 241,342              |
| 1965 .. .. | 60,127               | 334,313              |

### SALT

The production of salt in the country after Independence has increased from 2.78 million metric tonnes in 1951 to 4.70 million metric tonnes in 1965.

During 1965 India produced 47.0 lakh metric tonnes of salt of which Gujarat alone produced 57 per cent. Next in order of importance are Madras 17 per cent, Rajasthan 10 per cent, Maharashtra 9 per cent, Andhra Pradesh 6 per cent and the rest one per cent was produced by Orissa, Mysore, West Bengal, Himachal Pradesh and Kerala put together.

India is not only self sufficient in regard to salt for domestic requirements but has also a sizeable quantity of this available for exports. The exports of salt during 1965 were 3.31 lakh tonnes as against 3.58 lakh tonnes in the preceding year.

The average number of labourers employed per day in the salt industry in 1965 was 34,928 as against 36,204 in 1964.

The Govt. of Rajasthan have installed a plant for the recovery of Sodium Sulphate from sub-soil brine available at Didwana. Its present capacity is to produce 20 tonnes of Sodium Sulphate and 60 tonnes of salt per day.

Gypsum is being collected in appreciable quantities in many maritime salt works on the West Coast.

The following quantities of important by-products were recovered during 1964 and 1965.

(Figures in Tonnes)

| Year       | Gypsum | Magnesium<br>Sulphate | Magnesium<br>Chloride | Sodium<br>Sulphate |
|------------|--------|-----------------------|-----------------------|--------------------|
| 1964 .. .. | 35,102 | 28                    | 6,717                 | 1,299              |
| 1965 .. .. | 56,274 | 60                    | 7,339                 | 669                |

Production (March 1966): Production of some other minerals during the first quarter of 1966 is as follows: Gold 940 kg.; Silver 455 kg.; Ilmenite 6,445 tonnes; Rutile 325 tonnes; Apatite 1,935 tonnes; Asbestos 1,488 tonnes; Ball clay 1,230 tonnes; Crude emerald 30,000 carats; Gypsum 351,000 tonnes; Kyanite 18,309 tonnes; Limestone 5,10 lakh tonnes; Magnesite 54,000 tonnes; Mica (Crude) 5,792 tonnes;

Ochre 11,729 tonnes; Pyrophyllite 2,738 tonnes; Quartz 81,000 tonnes; Salt 9,87,000 tonnes; Sillimanite 3,274 tonnes; Steatite 46,000 tonnes; Vermiculite 176 tonnes.

### RARE METALS

What is believed to be probably the world's biggest deposits of radioactive minerals was located "somewhere in North-East India"

by the Indian Atomic Energy Department early in 1957.

Investigations carried out showed that the deposit had over 3.3 million tons of ore containing 300,000 tons of thorium of concentration of about 10 per cent and 10,000 tons of uranium of concentration of 0.3 to 0.4 per cent.

The deposits also contain about 80 million tons of ilmenite. The production of ilmenite during

the half year ending June 1959 was 143,000 metric tons according to the Indian Bureau of Mines. Ilmenite is recovered from the beach sands of Kerala State contributing nearly 93 per cent of the total production and the Manavalakuruchi area in Madras State. It is mainly exported to U.S.A. and U.K.

The deposit is, therefore, considered more important than the famous beach deposits

of Kerala, hitherto regarded as one of the world's richest deposits.

India's total reserves of uranium are reckoned at 30,000 tons and of thorium at 500,000 tons.

Uranium mines are being developed in Bihar and Rajasthan. It is hoped enough would be found to feed the first power station which would need 100 to 150 tons of fuel a year.

## IMPORT OF METALS AND ALLOYS INTO INDIA†

(Value in Rs. '000)

\* Value figures have been revised on the basis of the revised value furnished by the N.M.D.C. Ltd., which is under reference.

\*\* A quantity of 100 tonnes during 1965 of acid grade fluorite was also reported from Gujarat.

\*\*\* Excluding pyrophyllite.

④ Figures relate to January-October, 1965.

@ @ Inclusive of 257 tonnes of brown ilmenite.

(a) Coal and lignite figures are inclusive of those for Jammu and Kashmir.

(b) Value of metal given in the absence of value of ore.

(c) Value of crude emerald is not available as emeralds are auctioned in processed form only.

(d) Includes the production of rock salt.

## EXPORTS OF ORES AND MINERALS FROM INDIA

\* Including exports from Goa.

(a) Excluding pearls and synthetic stones.

(b) Including exports of precious stones and diamond natural by post parcel from April, 1964 onwards.

(c) Pertains to sodium and potassium nitrates.

(d) The quantity exported during 1964 was mostly of worked building stone.

## IMPORT OF ORES AND MINERALS INTO INDIA\*

‡ Includes the imports of alabaster.

## FOREIGN EXCHANGE CONTROLS

**T**HE par value is Indian Rupees 7-50 = US\$1. All transactions in foreign exchange must be conducted through authorised dealers, whose dealings with the general public must be effected as follows: in sterling, at rates fixed by the Foreign Exchange Dealers' Association; in other currencies, at rates based on the fixed rates for sterling and the London market rates for sterling against the other currency concerned. Authorised dealers are permitted to cover their requirements of foreign currencies in the London market, and to cover their permitted transactions in certain currencies against sterling, rupees, or any one of these currencies, either spot or forward for periods not exceeding six months, with authorised banks in any country outside the Bilateral Account group.

### ADMINISTRATION OF CONTROL

Exchange control is administered by the Reserve Bank of India, in accordance with the general policy laid down by the Indian Government in consultation with the Reserve Bank. Much of the routine work of exchange control is delegated to certain commercial banks, which act as authorised dealers permitted to buy and sell foreign exchange for specified purposes under regulations laid down by the Reserve Bank.

### PRESCRIPTION OF CURRENCY

India is a member of the Sterling Area, and has an exchange control system similar to that of the United Kingdom but adapted to suit local requirements. For prescription of currency purposes, countries are divided into three groups: Sterling Area countries, Bilateral Account countries, and the Convertible Account group (all other countries).

Payments to and from Sterling Area countries may be made in sterling or any Sterling Area currency, except Indian rupees, through the account of a resident of any Sterling Area country except India, or in Indian rupees through the account of a bank in any Sterling Area country except India. Payments to and from Bilateral Account countries must be settled in Indian rupees through the appropriate clearing account. Payments to countries in the Convertible Account group may be made in rupees or sterling to the credit of the account of a resident of any country in this group or in any listed currency. The currencies listed for this purpose are those of Austria, Belgian Monetary Area, Canada, Denmark and the Faroe Islands, Federal Republic of Germany, French Franc Area, French Somali Coast, Iraq, Italy, Japan, Netherlands Monetary Area, Norway, Panama, Philippines, Portuguese Monetary Area, Sweden, Switzerland and Liechtenstein, United Arab Republic, and United States and territories under U.S. sovereignty. Receipts from the Convertible Account group may be obtained in any listed currency, in rupees from the account of a bank in any country in this group, or in sterling from an External Account in the United Kingdom.

### NON-RESIDENT ACCOUNTS

The accounts of residents of Bhutan and Nepal are treated as resident accounts. Accounts related to all other foreign countries are treated as non-resident accounts. The treatment of these accounts distinguishes between those of banks and of others.

The accounts of banks are classified in three groups corresponding to the division of countries for prescription of currency purposes, i.e., Sterling Area Accounts, Bilateral Accounts, and Convertible Accounts. These accounts may be credited with payments for imports, interest and dividends, and other authorised payments, with authorised transfers from the non-resident accounts of private firms or persons in the same country as the account holder, with proceeds of sales of the currency of the country or monetary area of the account holder, and with

proceeds of sales of sterling from the appropriate non-resident sterling account in the United Kingdom. They may be debited for payments for exports, and for other payments not exceeding Rs. 20,000, to residents of India. These accounts may also be debited for remittances exceeding Rs. 20,000 made by Indian nationals resident in the Sterling Area for credit to their accounts in India or for payment to Indian nationals resident in India. Transfers may be made from Convertible Accounts to other Convertible Accounts or to Sterling Area Accounts, and between Sterling Area Accounts. All other entries on Sterling Area Accounts, Bilateral Accounts, and Convertible Accounts require the prior approval of the Reserve Bank.

Non-resident accounts of private individuals or firms may be credited, without prior approval, for payment of dividends and interest on securities and proceeds of small cheques up to certain limits. They may be debited for such items as payments for insurance premiums, income taxes, and remittances to relatives, subject to a limit of Rs. 1,000 for each transaction. All other credits and debits require the prior approval of the Reserve Bank. Transfers normally are not permitted from non-resident accounts of individuals or firms to non-resident accounts of banks belonging to the same country or monetary area, unless the amounts originally credited to such accounts could have been transferred abroad.

There are also blocked accounts, to which are credited capital proceeds that are due to non-residents and may not be remitted abroad. Balances on blocked accounts may be placed on fixed deposit or invested in approved Indian rupee securities; the income derived from such investments may normally be remitted to the owner's country, with the approval of the Reserve Bank.

Practically all imports require individual licences. Individual licences may be issued *ad hoc*, or on the basis of quotas allocated to established importers in accordance with their imports in a base period and to actual users on the basis of their current requirements. Licences may be used to import from any country except South Africa. At the beginning of each financial year an announcement on import control policy is made in the form of a Red Book, which gives in detail the policy for established importers and actual users. Licensing is in most cases on an annual basis, subject to the condition that only the first half of the annual licence can be used in the first six months of the licensing year and the second half of the licence will, subject to such change as may be decided upon, be endorsed for use in the second six months. In other cases, licences are issued for the first six months and a supplementary licence is issued later for the second six months. There are special procedures applicable to imports of capital goods, of heavy electrical plant, and of goods imported to fulfil government contracts and for irrigation projects. In licensing imports of a capital nature, their essentiality, their potential for earning or saving foreign exchange, and the availability of medium-term or long-term credits for financing such imports are taken into account.

Where a valid import licence is held, the required exchange is released by an authorised bank on presentation of the exchange control copy of the licence. Licence holders may make payments by opening letters of credit or by remitting against sight drafts. Advance remittances before shipping documents can be submitted are not normally allowed; but in special cases, e.g., imports of machinery and capital goods, where deposits have to be made with overseas manufacturers, the Reserve Bank grants special authorisation for advance payment for a part of the value of the import.

### PAYMENTS FOR INVISIBLES

In general, payments abroad for invisibles require approval. Except for travel, insurance, and a few other items, foreign exchange is granted freely for such payments, especially for expenses incidental to trade transactions and transfers of recurring contractual obligations.

Premiums on insurance policies issued in foreign currency to residents may be paid in rupees or in the currency in which the policy is issued; but Indian residents are prohibited from taking out life insurance policies in foreign currencies.

There are no restrictions on the remittance of profits, dividends, and interest to non-resident beneficiaries, provided that all current tax and other liabilities in India have been cleared.

### EXPORTS AND EXPORT PROCEEDS

Export licensing is now not necessary in respect of most items. For items subject to export licence, the procedure varies according to the type of exporter, of which there are three categories: established shippers, newcomers, and producers (e.g., manufacturers, mine owners, and growers). All applicants for export licences must submit income tax verification certificates. There are three open general licences, which permit exports of certain commodities without the need for an individual export licence. Exports of some commodities are subject to quota limitations and those of a few items are not normally permitted. Exports to South Africa are prohibited.

Exchange control is exercised over the proceeds of exports to countries other than Bhutan and Nepal. An exporter must declare that the full export proceeds will be received and dealt with in accordance with the prescription of currency regulations.

Foreign exchange holdings, including the proceeds of exports, in most currencies must be offered for sale against rupees to an authorised dealer, unless the holder has been authorised by the Reserve Bank to retain them, or in the case of sterling, he held a sterling account prior to July 8, 1947, or he is not domiciled in India and the funds do not represent the proceeds of an export.

### CAPITAL

The inward movement of capital is practically free, except when it is to form part of an investment requiring the prior approval of the Indian Government. Foreign investments once admitted are eligible for the same treatment as Indian enterprises receive. Repatriation of capital owned by persons residing in Sterling Area countries other than Pakistan, and by residents of Denmark, Norway, or Sweden, is authorised freely. Capital invested in approved projects after January 1, 1950 by residents of other countries, including capital appreciation on the original investment, may be repatriated at any time. The proceeds from liquidated foreign investments not eligible for repatriation are blocked (see section on Non-resident Accounts, above).

### DEVELOPMENTS IN EXCHANGE CONTROL

The main developments during the year in the sphere of exchange control were (1) the liberalisation (a) of the restrictions on travel abroad for business purposes, (b) of the releases of foreign exchange for educational purposes and (c) of the conditions for borrowings abroad by authorised dealers in India and (2) the introduction during the latter half of the year of National Defence Remittance Scheme, with import entitlement benefits primarily with a view to encouraging the flow of foreign exchange into the country through normal banking channels.

The scheme of issuing blanket permits for release of exchange to recognised export houses

set up for exploring new markets for non-traditional goods and whose average exports per annum were not less than Rs. 20 lakhs—which was introduced in July 1963 as an export promotion measure was extended in August 1965 to exporters of jute and tea whose annual average exports were not less than Rs. one crore and to exporters of other traditional items whose annual average exports exceeded Rs. 50 lakhs.

Beginning with August 1965, besides graduates with an Honours or Masters degree in Mathematics, B. Com. graduates with actuarial science were also permitted to remit fees for correspondence courses in actuarial science or for taking up examinations held in India by the Institute of Actuaries, London. This relaxation was extended in January 1966 to all candidates admitted for the permitted examinations. Beginning with February 1966, foreign exchange facilities were granted to a limited number of students for taking up specialised courses in selected branches of forestry provided they secured 60 per cent marks in the Diploma course in Forestry conducted by the Indian Forest College, Dehra Dun. From March 1966 onwards, foreign exchange facilities were also granted to candidates securing 60 per cent marks in their last medical examination and to M.B.B.S. degree holders having three years' experience for any regular graduate or post-graduate course at a medical college or institution abroad without insisting on the course being a specialised one.

A reference was made in the last Report to the imposition in October 1964 of a ceiling of Rs. 20 lakhs on short-term borrowings abroad by authorised dealers. On a review of this question in September 1965, authorised dealers were advised that loans and overdrafts from overseas branches or correspondents in excess of the limit would be permitted provided such borrowings were for financing their normal business operations in

India by purchasing rupee funds from the Reserve Bank. However, such borrowings could be repaid only when (a) the authorised dealer concerned had no outstanding borrowings either from the Reserve Bank or other banks in India and (b) the local inter-bank call money rate was less than the Treasury Bill rate for the week. The latter stipulation was withdrawn later. Prior approval of the Reserve Bank was required for each remittance in repayment of such loans and overdrafts.

With a view to encouraging the flow of foreign exchange into the country through the medium of authorised dealers, the Government of India introduced in October 1965 the National Defence Remittance Scheme. Under the scheme, Indian nationals receiving remittances from abroad in convertible currencies by way of gifts, remittances for family maintenance and transfer of capital without repatriation obligations were eligible for import licences of the value of 60 per cent of the rupee equivalent of the remittance received. The import licence was issued either to the recipient of the remittance or a party designated by him. The beneficiaries of such remittances would not be liable to income-tax thereon, nor would they be questioned by the income-tax authorities about the source of such funds. With effect from December 11, 1965, the benefits of the scheme were extended to all non-residents irrespective of nationality but subject to the condition that the proceeds of the remittance were credited to a "National Defence Remittance Scheme—'Special Account'" opened in their name with an authorised dealer in India. Although non-residents were not entitled to import licences, they are permitted to transfer the bank certificates issued by the authorised dealers in respect of the remittances, to any person, firm or company resident in India. In January 1966, the benefits under the scheme were again extended to Indian companies holding

foreign securities with the approval of the Reserve Bank and wishing to liquidate these holdings and repatriate the proceeds to India. Initially, the benefits under the scheme were to apply to inward remittances upto January 31, 1966, but this date was later extended twice first upto February 28, 1966 and then upto May 31, 1966.

Other important developments during the year were the following: (i) Following the outbreak of the Indo-Pakistan conflict all foreign exchange transactions with Pakistan were suspended in September 1965 and authorised dealers were instructed not to (a) operate on the non-resident accounts of Pakistani nationals, firms etc. without the prior approval of the Reserve Bank or (b) undertake any financing operations on behalf of Pakistani nationals, firms etc. (ii) Under advice from the Bank of England, following the removal of Rhodesia from the list of Scheduled Territories, all sterling accounts of residents of Rhodesia were designated as External Accounts with immediate effect in November 1965 and the authorised dealers were instructed accordingly. Later, in December 1965, import/export of all goods, whether directly or indirectly, into/from India from/to Rhodesia were banned by the Government of India. Further all applications for remittances to Rhodesia were to be referred to the Reserve Bank for prior approval. (iii) In December 1965, the Foreign Exchange Regulation Act (vii of 1947), together with all the rules and notifications issued thereunder, was extended to the Union Territories of Dadra and Nagar Haveli and (iv) With the introduction of the new Currency "Bahrain Dinar" in Bahrain, the Indian Currency circulating there was withdrawn. The facility for converting into sterling or otherwise the Indian coins circulating in the rest of Persian Gulf area was abolished in January 1966.

## MONEY SUPPLY

UNDER the impact of larger disbursements by Government, money supply with the public increased substantially in 1965-66 by Rs. 450 crores or by 11.0 per cent (to Rs. 4,530 crores) as compared to Rs. 328 crores or 8.7 per cent. in 1964-65. Although the largest increase (Rs. 450 crores) during the Third Plan was recorded in 1965-66, the highest rate of increase (13.4 per cent) was registered in 1963-64. Unlike 1964-65 when currency and deposit money contributed equally to the increase in money supply, the rise this year was predominantly in currency in circulation, which increased by Rs. 265 crores while deposit money increased by Rs. 185 crores.

As in the previous year, net bank credit to Government was the most important factor. The rise under this head (Rs. 488 crores) in fact exceeded the actual increase in money supply of Rs. 450 crores. The larger rise this year was due to higher Reserve Bank credit to Government—Rs. 371 crores as against Rs. 128 crores last year—mainly due to the sharp rise of Rs. 137 crores in loans and advances to State Governments as compared to Rs. 3 crores last year. The pace of expansion in net bank credit to the private sector during the year was slow as in the preceding year (net bank credit to private sector having increased by Rs. 80 crores in 1965-66, by Rs. 53 crores in 1964-65 and by Rs. 178 crores in 1963-64), reflecting the impact of the restrictive credit policy adopted by the monetary authorities as well as larger accretions to time deposits. The banks' advances and holdings of private securities which represent gross bank credit had shown a larger expansion (Rs. 288 crores) than last year (Rs. 247 crores); but there was, side by side, a larger increase in time deposits after adjusting for P.L. 480 and P.L. 665 deposits (Rs. 208 crores this year compared to Rs. 194 crores last year), with the result that the net rise in bank credit was of the order of Rs. 80 crores. Variations

in net foreign exchange assets exercised a contractionary influence on money supply (Rs. 24 crores) as in the previous year (Rs. 19 crores). Other factors representing mainly the net non-monetary liabilities of the Reserve Bank and the rest of the banking system exerted a contractionary influence of the order of Rs. 19 crores and Rs. 87 crores, respectively.

The contraction in money supply during the slack season of 1965 was of the order of Rs. 43 crores which compares with Rs. 33 crores in the previous slack season. The 1965-66 busy season, however, witnessed a phenomenal expansion (Rs. 480 crores) as compared to the previous season (Rs. 389 crores). During the 1965 slack season, net bank credit to the private sector contracted by Rs. 158 crores while net bank

credit to Government rose by Rs. 110 crores; in the busy season of 1965-66, net bank credit to the private sector had risen by Rs. 168 crores and to the Government by Rs. 411 crores.

For the Third Plan as a whole, the expansion in money supply worked out to Rs. 1,661 crores as compared to Rs. 704 crores in II Plan. Of the total monetary expansion, currency with the public rose by Rs. 936 crores and deposit money by Rs. 725 crores. Net Bank credit to the Government\* was the predominant influence on monetary expansion (Rs. 1,563 crores) in the Third Plan period, followed by net bank credit to the private sector (Rs. 398 crores); net foreign exchange assets, on the other hand, exerted a contractionary effect to the extent of Rs. 107 crores.

### VARIATION IN MONEY SUPPLY

\* Adjusted for P.L. 480 and P.L. 665 deposits with banks in India other than the Reserve Bank of India.

## NATIONAL INCOME

ACCORDING to preliminary estimates, national income of India (at 1948-49 prices) for the year 1964-65 showed a rise of 7.7 per cent over the previous year. At constant (1948-49) prices, the preliminary estimate of national income, that is, net national output at factor cost, for 1964-65 is placed at Rs. 15,050 crores compared with Rs. 13,970 crores (revised) for 1963-64. At constant prices, the national income rose by about 70 per cent between 1950-51 and 1964-65.

The *per capita* national income (at constant prices) recorded a rise of 5.3 per cent from Rs. 301.1 in 1963-64 to Rs. 317.0 in 1964-65.

At current prices, the national income rose from Rs. 17,210 crores in 1963-64 to Rs. 20,010 in 1964-65, a rise of Rs. 2,800 crores. This increase was brought about largely by the agricultural sector, accounting for Rs. 2,100 crores. In the non-agricultural sector, mining, manufacturing

and small enterprises showed a rise of Rs. 270 crores; other services (comprising professions, Government services, domestic services and house property) of Rs. 300 crores, and commerce, transport and communications of Rs. 150 crores—an aggregate rise of Rs. 720 crores.

*Per capita* income at current prices rose from Rs. 370.9 in 1963-64 to Rs. 421.5 in 1964-65 the rise being due almost entirely to the rise in price.

The Table below indicates the trend of national income and per capita income since 1950-51 :

| Year                                                              | National Income                |                     |                                             | Per Capita Income        |                   |                                             |

\*The national income of India in real terms is estimated to have recorded a fall of 3.7 per cent. during 1965-66 as revealed by the "quick" estimates of the national income prepared by the Central Statistical Organisation on the basis of the trends disclosed by current data.

According to the quick estimates of national income for 1965-66 recently released by the Central Statistical Organisation, the national income in India in real terms is estimated to have recorded a fall of 3.7 per cent as against a rise of 7.7 per cent in 1964-65.

The C.S.O. quick estimates are based on partial data. Of the overall fall, about 5.8 per cent is contributed by the agriculture sector of the economy.

On the basis of the C.S.O. estimate, the average annual increase in national income during the Third Plan period was 2.7 per cent.

The decline of per capita income in real terms is estimated in the C.S.O. study at 5.9 per cent for 1965-66. The average annual increase during the Third Plan is of the order 0.4 per cent, according to the C.S.O. estimates.

The contributions of individual sectors to overall percentage change in real income during 1965-66 is shown in the Table below :

| Sector                            | Percentage contribution to total national income in 1964-65 | Percentage 1965-66 over 1964-65 | Contribution to the overall percentage change in 1965-66 over 1964-65 |
|-----------------------------------|-------------------------------------------------------------|---------------------------------|-----------------------------------------------------------------------|
| Agriculture (proper)              | 36.9                                                        | 15.7                            | - 5.8                                                                 |
| Mining and factory establishments | 10.4                                                        | 5.7                             | 0.6                                                                   |
| Communications                    | 0.6                                                         | 10.7                            | 0.1                                                                   |
| Railways                          | 2.6                                                         | 9.8                             | 0.2                                                                   |
| Organised banking and insurance   | 1.1                                                         | 5.8                             | 0.1                                                                   |
| Other commerce and transport      | 15.5                                                        | - 2.0                           | - 0.3                                                                 |
| Others                            | 32.7                                                        | 4.2                             | 1.4                                                                   |
| All sectors                       | 100.0                                                       | - 3.7                           | - 3.7                                                                 |

#### CHANGES SINCE 1950-51

Changes in the contributions of various sectors and sub-sectors of the economy to the total national income (at current prices) are depicted in the table below :

|                                                           | 1950-51 | 1955-56 | 1960-61 | 1961-62 | 1962-63 | 1963-64 | 1964-65 (Previsional) |
|-----------------------------------------------------------|---------|---------|---------|---------|---------|---------|-----------------------|
| <b>AGRICULTURE</b>                                        |         |         |         |         |         |         |                       |
| 1. Agriculture, animal husbandry and ancillary activities | 43.9    | 66.8    | 67.7    | 67.9    | 79.4    | 100.0   | 100.0                 |
| 2. Forestry                                               | 0.7     | 1.1     | 1.2     | 1.3     | 1.4     | 1.5     | 1.5                   |
| 3. Fishery                                                | 0.6     | 1.0     | 0.7     | 0.8     | 0.7     | 1.2     | 1.2                   |
| 4. Total of agriculture                                   | 45.2    | 68.9    | 69.6    | 70.0    | 81.7    | 102.7   | 102.7                 |
| <b>MINING, MANUFACTURING AND SMALL ENTERPRISES</b>        |         |         |         |         |         |         |                       |
| 5. Mining                                                 | 1.0     | 1.6     | 1.7     | 1.9     | 2.3     | 2.3     | 2.3                   |
| 6. Factory establishments                                 | 7.8     | 13.2    | 15.4    | 16.8    | 18.5    | 26.7    | 26.7                  |
| 7. Small enterprises                                      | 9.7     | 11.2    | 11.7    | 12.1    | 12.5    | 13.1    | 13.1                  |
| 8. Total of mining, manufacturing and small enterprises   | 18.5    | 26.0    | 28.8    | 30.6    | 33.3    | 36.0    | 36.0                  |
| <b>COMMERCE, TRANSPORT &amp; COMMUNICATIONS</b>           |         |         |         |         |         |         |                       |
| 9. Communications (post, telegraph and telephone)         | 0.5     | 0.6     | 0.7     | 0.8     | 0.9     | 1.1     | 1.1                   |
| 10. Railways                                              | 2.5     | 3.6     | 3.8     | 4.6     | 5.1     | 5.2     | 5.2                   |
| 11. Organised banking and insurance                       | 0.9     | 1.6     | 1.9     | 2.1     | 2.4     | 2.8     | 2.8                   |
| 12. Other commerce and transport                          | 14.9    | 17.6    | 18.4    | 19.0    | 19.7    | 20.5    | 20.5                  |
| 13. Total of commerce, transport and communications       | 18.8    | 23.4    | 24.8    | 26.5    | 28.1    | 29.6    | 29.6                  |
| <b>OTHER SERVICES</b>                                     |         |         |         |         |         |         |                       |
| 14. Professions and liberal arts                          | 5.6     | 7.4     | 7.9     | 8.4     | 9.0     | 9.6     | 9.6                   |
| 15. Government services (administration)                  | 5.7     | 9.0     | 10.0    | 11.3    | 12.8    | 14.0    | 14.0                  |

#### INCOME DISTRIBUTION COMMITTEE

The Planning Commission has constituted a Committee on Income Distribution and Levels of Living. The Committee's terms of reference are: To review changes in levels of living during the First and Second Five Year Plans; To study recent trends in the distribution of income and wealth and, in particular, to ascertain the extent

to which the operation of the economic system has resulted in concentration of wealth and means of production.

Professor P. C. Mahalanobis (Honorary Statistical Adviser to the Government of India) is the Chairman of the Committee.

The Committee's enquiry is being conducted at the expert level, its primary object being to

ascertain such statistical and economic data as may be gathered at present, to identify the gaps in the existing information and to suggest steps for removing these deficiencies in the future. Part I of the Committee's report has already been published and Part II is expected to be published shortly.

## CHEMICAL & PHARMACEUTICAL INDUSTRY

FOR purposes of industrial production, chemicals fall easily into one of two major groups: (a) Heavy Chemicals; and (b) Fine Chemicals.

According to the latest data, there are over 474 factories with a productive capital of nearly Rs. 306 crores and providing employment for about 1,29,730 workers.

66. The main suppliers are W. Germany, U.K., U.S.A., Japan, Hungary and U.S.S.R.

Some exports are also taking place. India exported sulphuric acid worth Rs. 132,295 in 1960-61, Rs. 78,559 in 1961-62, Rs. 1.40 lakhs in 1962-63, Rs. 1,90,281 in 1963-64 and Rs. 84,054 in 1964-65, Rs. 1,90,281 in 1963-64, Rs. 84,054 in 1964-65 and Rs. 71,405 in 1965-66.

### SULPHURIC ACID

The installed capacity and production of sulphuric acid since 1958 are shown below :  
(Metric tons) (Monthly averages or calendar months)

|      |    |    |    |    |    |    |    |    |    | Installed capacity | Production |
|------|----|----|----|----|----|----|----|----|----|--------------------|------------|
| 1958 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 24,560             | 19,185     |
| 1959 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 31,673             | 24,738     |
| 1960 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 39,622             | 29,495     |
| 1961 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 46,989             | 35,208     |
| 1962 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 58,189             | 39,122     |
| 1963 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 68,410             | 47,346     |
| 1964 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 84,263             | 56,553     |
| 1965 | .. | .. | .. | .. | .. | .. | .. | .. | .. | 91,590             | 56,465     |

The Fourth Plan has set a target of 2.4 million tons of sulphuric acid. The following table shows the programme of development for sulphuric acid during the five year plan.

| (in '000 tonnes) |            |            |                          |            |                     |            |
|------------------|------------|------------|--------------------------|------------|---------------------|------------|
| 1950-51          | 1955-56    | 1960-61    | Estimated actual 1965-66 |            | Targets for 1970-71 |            |
| Production       | Production | Production | Capacity                 | Production | Capacity            | Production |
| 101              | 164        | 361        | 1,181                    | 664        | 2,600               | 2,400      |

Orders have been placed with a British Firm for setting up, on a turnkey job, a pyrites based sulphuric acid plant with a capacity of 400 tonnes per day. The plant is proposed to be located at Durgapur.

Whereas the production of sulphuric acid has so far been based on sulphur, a part of the capacity set up in the Third Plan period is linked with by-product smelter gases (zinc and

copper smelters) and with pyrites from the Amjor Deposits in Bihar. The scheme for the mining of 2,40,000 tonnes of pyrites and the establishment of a 400 tonnes per day sulphuric acid plant at Sindri are under implementation.

India imported sulphuric acid of the value of Rs. 21,034 in 1960-61, Rs. 68,144 in 1961-62, Rs. 51,002 in 1962-63, Rs. 90,165 in 1963-64, Rs. 1,21,690 in 1964-65 and Rs. 47,867 in 1965-

### ALKALI INDUSTRY

The alkali industry comprises the manufacture of soda ash and caustic soda, sodium bicarbonate, bleaching powder, benzene hexachloride, liquid chlorine and zinc chloride.

At the beginning of the Third Plan, production of soda ash was 1,48,000 tonnes. The estimated actual production for 1965-66 is 3,31,000 tonnes. The target for the Fourth Plan is 6,00,000 tonnes.

The trend of production of soda ash in metric tonnes is as under :—

1956 : 85,596 ; 1960 : 1,45,284 ; 1961 : 1,76,640 ; 1962 : 2,22,576 ; 1963 : 2,66,756 ; 1964 : 2,82,408 ; 1965 : 3,21,972.

The figures of imports of soda ash during the last few years are given below :

| Year    | Q     | V      |
|---------|-------|--------|
| 1960-61 | 99.65 | 180.22 |
| 1961-62 | 33.99 | 67.41  |
| 1962-63 | 40.54 | 74.25  |
| 1963-64 | 23.11 | 41.57  |
| 1964-65 | 33.47 | 60.01  |
| 1965-66 | 35.60 | 78.65  |

Q : Quantity in million kilograms.

V : Value in Rs. lakhs.

The following table summarises the programme of development of the soda ash industry :—

| 1955-56 | 1960-61 | Estimated actual for 1965-66 |            | Targets for 1970-71 |            |
|---------|---------|------------------------------|------------|---------------------|------------|
|         |         | Capacity                     | Production | Capacity            | Production |
| 81      | 148     | 363                          | 331        | 700                 | 600        |

In 1965, the production in tonnes of hydrogen peroxide was 2,472 as against 2,700 in the previous year. During 1965-66, India imported 2,895 kilograms of hydrogen peroxide valued at Rs. 15,526. U.S.A. and Netherlands were the principal suppliers.

**Caustic Soda.**—There were at the end of 1965, 25 units manufacturing caustic soda.

Actual indigenous production of caustic soda and the associated chemicals has been as under :—

| ('000 tonnes) |    |              |                 |                  |  |  |  |  |  |
|---------------|----|--------------|-----------------|------------------|--|--|--|--|--|
| Year          |    | Caustic Soda | Liquid chlorine | Bleaching powder |  |  |  |  |  |
| 1960          | .. | 98,340       | 31,704          | 5,928            |  |  |  |  |  |
| 1961          | .. | 1,19,856     | 33,924          | 7,128            |  |  |  |  |  |
| 1962          | .. | 1,26,624     | 37,860          | 6,720            |  |  |  |  |  |
| 1963          | .. | 1,52,280     | 44,148          | 6,972            |  |  |  |  |  |
| 1964          | .. | 1,84,032     | 50,580          | 7,932            |  |  |  |  |  |
| 1965          | .. | 2,14,788     | 51,012          | 7,356            |  |  |  |  |  |

Imports of caustic soda were: 1960-61: 38.75 million kgs.; 1961-62: 26.80 million kgs.; 1962-63: 86.98 million kgs.; 1963-64: 65.25 million kgs.; 1964-65: 67.12 million kgs.; 1965-66: 74.21 million Kgs.

During the Third Five Year Plan, the installed capacity of the industry rose from 1,26,000 tonnes in 1960-61 to 2,77,000 tonnes in 1965-66, and actual production from 99,000 tonnes to 2,18,000 tonnes. By the end of the Fourth Plan, the production is likely to reach 5,00,000 tonnes.

The table below summarises the programme of caustic soda industry during the Fourth Plan:

| ('000 Tonnes)      |          |          |  |
|--------------------|----------|----------|--|
| Estimated actual   |          |          |  |
|                    | 1965-66  | 1970-71  |  |
| Installed capacity | 2,77,000 | 6,00,000 |  |
| Actual production  | 2,18,000 | 5,00,000 |  |

## MISCELLANEOUS CHEMICALS

The progress of production of important miscellaneous chemicals during the period 1961 to 1965 is given below.

| Name of Product          | (metric tons) |        |        |        |        |
|--------------------------|---------------|--------|--------|--------|--------|
|                          | 1961          | 1962   | 1963   | 1964   | 1965   |
| Bleaching Powder .. ..   | 7,128         | 8,720  | 6,972  | 7,932  | 7,356  |
| Bichromates .. .. .      | 5,244         | 7,044  | 6,924  | 6,984  | 6,852  |
| Copper Sulphate .. ..    | 4,344         | 3,888  | 3,672  | 4,764  | 3,252  |
| Sodium Sulphide .. ..    | 2,604         | 2,292  | 2,928  | 3,132  | 3,432  |
| Hydrogen Peroxide .. ..  | 1,620         | 1,812  | 2,280  | 2,700  | 2,472  |
| Potassium Chlorate .. .. | 3,780         | 4,116  | 4,344  | 3,672  | 3,804  |
| Sodium Bicarbonate .. .. | 8,676         | 10,680 | 7,824  | 10,752 | 12,804 |

| Nitric Acid .. .. .      | 5,844         | 7,032  | 8,280  | 11,688 | 15,348 |
| Sodium Sulphate .. ..    | 21,564        | 23,004 | 28,908 | 32,976 | 36,708 |
| Sodium Aluminate .. ..   | 408           | 727    | 905    | 965    | 702    |
| Nickel Sulphate .. ..    | 32            | 112    | 326    | 497    | 448    |

The production of hydro-sulphite of soda, an important chemical for the textile industry, which has now to be imported at the cost of Rs. 1 crore per year, began for the first time in 1958. Two units which went into production had a capacity of 2,300 tonnes at the end of 1961. In 1965, installed capacity and production in tonnes stood at 3,852 and 4,512 respectively.

## FERTILISERS

## NITROGENOUS FERTILISERS

The total installed capacity of nitrogenous fertiliser factories as on 30-9-1965 was as follows: (metric tonnes of nutrient per annum).

|                                 |                |
|---------------------------------|----------------|
| Sindri .. .. .                  | 120,040        |
| FACT .. .. .                    | 28,320         |
| Mysore .. .. .                  | 1,380          |

| E.I.D.-Parry .. .. .            | 8,800          |
| <b>TOTAL .. .. .</b>            | <b>323,960</b> |

Source: Fertiliser Statistics, 1964-65.

The year-wise production of nitrogenous fertilisers and the capacity at the beginning of each year are as under:

| (Tonnes)   |          |            |
|------------|----------|------------|
| Year       | Capacity | Production |
| 1960 .. .. | 93,576   | 80,100     |
| 1961 .. .. | 164,808  | 108,336    |
| 1962 .. .. | 175,104  | 114,216    |
| 1963 .. .. | 193,968  | 123,396    |
| 1964 .. .. | 193,968  | 125,796    |
| 1965 .. .. | 399,828  | 243,000    |

Import of nitrogenous fertilisers on 1965-66 amounted to 10,41,672 tonnes and the import from U.S.A. was 5,96,144 tonnes.

*Development programme in the Third Plan:* The estimated actual production of nitrogenous fertilisers 1965-66 was, 233,000 tonnes. Apart from expansion of capacity in the existing plants, the Third Plan envisaged the setting up of three new units in the public sector to be located at Trombay (Maharashtra), Kamrup (Assam) and Gorakhpur (Uttar Pradesh).

*Public Sector projects:* Trombay fertiliser project will have a capacity of nearly 90,000 tons of nitrogen and 45,000 tons of phosphate per year. The factory will produce 3,30,000 tons of nitrophosphate. Total cost of the project is estimated to be Rs. 33.40 crores. It will make use of refinery gases and naphtha.

*Assam fertiliser project:* The factory will be located at Kamrup in Assam. The overall capacity of the plant will be 32,500 tons of nitrogen based on the production of 50,000 tons of urea and 50,000 tons of ammonium sulphate by the acid neutralisation process, the acid being produced from imported sulphur.

*Gorakhpur fertiliser project:* The end-product of the factory would be urea by the total recycle process. The capacity of the factory would be 80,000 tons.

In addition to the above public sector projects, there is a scheme for further expansion of Messrs. Fertilisers and Chemicals, Travancore, by 30,000 tons of nitrogen to manufacture ammonium sulphate/ammonium phosphate and ammonium chloride.

Private sector schemes include Kothagudium Fertiliser Project, Visakhapatnam Fertiliser Project, Madhya Pradesh Fertiliser Project, and Rajasthan Fertiliser Project. Besides, private enterprise in partnership with the West Bengal Government will set up a fertiliser factory at Durgapur with a capacity of 58,000 tons of nitrogen. In collaboration with private sector, the Government of Gujarat proposes to put up a factory with a capacity of 96,000 tons of nitrogen.

## FOURTH PLAN

The target for nitrogenous fertilisers in the Fourth Plan is 2.4 million tonnes of capacity and

2 million tonnes of production. This is proposed to be achieved by the expansion of some of the projects undertaken during the Third Plan and the three projects taken for implementation at Durgapur, Cochin & Madras.

The following table shows the estimated year-wise requirements of nitrogenous fertilisers in the Fourth Plan.

| Year          |    |    |    |    | Requirement ('000 tonnes) |
|---------------|----|----|----|----|---------------------------|
| 1966-67 .. .. | .. | .. | .. | .. | 1,000                     |
| 1967-68 .. .. | .. | .. | .. | .. | 1,350                     |
| 1968-69 .. .. | .. | .. | .. | .. | 1,750                     |
| 1969-70 .. .. | .. | .. | .. | .. | 2,050                     |
| 1970-71 .. .. | .. | .. | .. | .. | 2,400                     |

## PHOSPHATIC FERTILISERS

The progress made by the superphosphate industry is given below:

(Figures in tonnes of single superphosphate)

| Capacity |          | Production |  |
|----------|----------|------------|--|
| 1960 ..  | 57,276   | 53,028     |  |
| 1961 ..  | 70,740   | 62,040     |  |
| 1962 ..  | 1,06,296 | 74,616     |  |
| 1963 ..  | 1,25,088 | 96,672     |  |
| 1964 ..  | 1,41,672 | 117,948    |  |
| 1965 ..  | 1,47,480 | 1,14,924   |  |

Imported raw materials, rock phosphate and sulphur are used for the manufacture of single superphosphate. The following are the quantities and value of imported rock phosphate during the last few years:

| Quantity ('000 tons) |       | Value (Rs. crores) |  |
|----------------------|-------|--------------------|--|
| 1961-62 .. ..        | 253.9 | 2.29               |  |
| 1962-63 .. ..        | 305.9 | 2.59               |  |
| 1963-64 .. ..        | 336.8 | 2.76               |  |
| 1964-65 .. ..        | 426.3 | 3.74               |  |
| 1965-66 .. ..        | 565.7 | 5.56               |  |

*Potassic Fertilisers:* No systematic attempt has been made to develop the manufacture of potassic fertilisers in India. It is produced indigenously in the small scale sector and the annual production is estimated to be around 2,000 tons as muriate of potash. The figures of imports of potassic fertilisers during the last few years:

Q = Quantity in tonnes.  
V = Value in Rs. lakhs.

|                    | 1962-63 |       | 1963-64 |       | 1964-65 |       | 1965-66 |      |
|--------------------|---------|-------|---------|-------|---------|-------|---------|------|
|                    | Q       | V     | Q       | V     | Q       | V     | Q       | V    |
| Muriate of Potash  | 77,891  | 193.6 | 70,802  | 169.0 | 76,524  | 178.6 | 21,932  | 56.7 |
| Sulphate of Potash | 3,265   | 10.5  | 4,281   | 12.9  | 10,240  | 32.3  | 6,481   | 21.6 |

The main supplying countries are East Germany, West Germany and France.

Fourth Plan requirements of potassic fertilisers in lakh tonnes are given below: 1966-67—2.0; 1967-68—3.0; 1968-69—4.5; 1969-70—5.5; 1970-71—7.0. From the present trend it appears that the requirement would have to be met mainly by imports.

By the end of the Third Plan, the estimated actual capacity and production of phosphatic fertilisers were 2,30,000 and 1,11,000 tonnes. The Fourth Plan envisages a target of 10,00,000 tonnes of capacity and production.

There are at present eight units in West Bengal and Bihar with a rated capacity of about 425,900 tons of ammonium sulphate per annum. The Sindri factory went into production in November 1951.

The production of ammonium sulphate in 1961 was 79,080 tonnes, in 1964 88,512 tonnes and in 1965 82,944 tonnes.

In spite of the full utilisation of the capacity of the Sindri Factory, it has been necessary to

import large quantities of nitrogenous fertilizers because of increasing demand. India imported Rs. 10.67 crores worth of fertilisers in 1960-61, Rs. 11.89 crores in 1961-62, Rs. 27.26 crores in 1962-63, Rs. 24.6 crores in 1963-64; Rs. 20.5 crores in 1964-65, and Rs. 31.80 crores in 1965-66.

Imports of ammonium sulphate were: 1960-61: 25,278 tonnes; 1961-62: 242,066 tonnes; 1962-63: 573,292 tonnes; 1963-64: 451,865 tonnes; 1964-65: 453,140 tonnes, 1965-66: 839,860 tonnes.

| Chemical                      | Production |        |        |        |        | Main uses                                   |
|-------------------------------|------------|--------|--------|--------|--------|---------------------------------------------|
|                               | 1961       | 1962   | 1963   | 1964   | 1965   |                                             |
| Acetic acid (thousand kgs.).. | 3,660      | 5,258  | 7,488  | 7,068  | 7,932  | Rayon, white lead, acetates, dyeing, rubber |
| Acetone (tonnes) .. ..        | 756        | 540    | 900    | 624    | 816    | Solvent explosives                          |
| Benzene (thousand litres) ..  | 8,220      | 10,284 | 21,168 | 20,040 | 24,109 | Solvent                                     |

The Government is planning to provide one fertiliser factory for each State, though the new plants would be smaller than that at Sindri or Nangal, the cost being about Rs. 5 crores, as against Rs. 25 crores for the existing factories and those already approved.

#### FINE CHEMICALS

The term "fine chemicals" is applied usually to substances such as photographic materials, drugs and pharmaceutical products, paints, pigments and varnishes, and dyestuffs. All the figures given below are in tons per annum except where otherwise stated.

The average annual demand has been estimated at 60 tons for calcium lactate, 80 tons for iron-ammonium citrate, 200 tons for potassium citrate and 50 tons for sodium citrate. Government has, on the Board's recommendation, converted the 36 per cent. standard and 26 per cent. preferential revenue duty on calcium lactate into a protective duty.

Production of bromine and bromides at one of the alkali works has been attempted and an annual output of 144 thousand kgs. bromine, and 144 thousand kgs. bromide has been recorded. The total installed capacity of bromides in 1964 was 456 thousand kgs. and the actual production was 144 thousand kgs. as compared to 276 thousand kgs. in 1963. In 1965, production of bromide and bromine was 12 thousand kgs. and 192 thousand kgs. respectively.

Coal, tar and wood distillation products are not sufficiently exploited to manufacture fine chemicals and even the war-time production of methanol and formaldehyde has been recently curtailed. Synthetic fine chemicals are yet to be turned out in India on a commercial scale.

**Photographic Materials.**—The basic chemical required for the photographic industry are: (i) gelatin, silver halides and sensitizers in the coating of film, plate and paper base, and (ii) hypo-sodium sulphite metal, hydroquinone and chrome alum in the processing stages.

Borax, boric acid, acetic acid and metal and photographic-grade sodium sulphite are still imported. The capacity of sodium sulphite in 1960 was 856 tonnes and the production was 750 tonnes. There are four units producing sodium sulphite. Their production in 1961 amounted to 678 tonnes. The production for 1963 was 771 tonnes against 618 tonnes in 1962. The installed capacity stood at 870 tonnes in 1965; and production was 900

tonnes as against 7,417 tonnes in 1964. Production capacity of 30 tons for potash chrome alum has been established.

Pre-war imports of raw film base into India were enormous, the film industry alone consuming some 80 million ft. per annum. Hindustan Photo Films Manufacturing Co., Ltd., was incorporated in Nov. 1960, with an authorized capital of Rupees three crores to implement the project for the manufacture of raw films, photographic films, X-ray films and other sensitized materials in collaboration with Messrs. Ets Banchet & Co., France.

#### PAINTS AND VARNISHES

There are at least 200 factories manufacturing paints and varnishes, but nearly 150 of them are very small in size. The bigger ones are concentrated in Bombay and Calcutta. Eighteen units with a capacity of 36,360 tons are in Calcutta, and 16 with an annual capacity of 18,360 tons are in Bombay. Manufacture of ship bottom paints has been commenced by a unit in Calcutta. Another unit in Bombay has been allowed technical collaboration for marine paints.

The annual national loss due to corrosion of iron and steel is estimated at Rs. 60 crores. The prevention of corrosion occupies prime importance where the valuable and costly plants are concerned.

A wide variety of products including different kinds of paints, varnishes, enamels, lacquers, and other types of surface coating materials are

manufactured by the Industry which uses mainly indigenous and some imported raw materials. The important raw materials used are zinc oxide, white lead, titanium dioxide, red lead, yellow and green chrome pigments, carbon black, linseed oil, etc. The industry contributes substantially to the national exchequer in the form of taxes, excise duty, customs duty, etc.

The capacity of the paints, varnishes and enamels industry has recently been reassessed by the Development Wing of the Ministry of Industry at about 85,000 tons. The State-wise distribution of the reassessed capacity is as follows:

| State               | No. of factories | Annual capacity (tons) |
|---------------------|------------------|------------------------|
| Maharashtra .. ..   | 23               | 34,000                 |
| West Bengal .. ..   | 19               | 39,500                 |
| Uttar Pradesh .. .. | 5                | 8,100                  |
| Madras .. ..        | 3                | 2,000                  |
| Delhi .. ..         | 2                | 1,000                  |
| Andhra Pradesh ..   | 1                | 300                    |
| <b>TOTAL .. ..</b>  | <b>53</b>        | <b>84,900</b>          |

The production of paints, varnishes, zinc oxide, white lead, red lead and nitrocellulose lacquers including ancillaries from 1961 onwards is given below:

| Year      | Paints & Varnishes<br>(a) | White*<br>Lead<br>(b) | Zinc<br>Oxide<br>(c) | Red<br>Lead<br>(d) | Nitrocel-<br>lulose<br>Lacquers<br>(e) |
|-----------|---------------------------|-----------------------|----------------------|--------------------|----------------------------------------|
| 1961.. .. | 4,924                     | 902                   | 662                  | 287                | 148                                    |
| 1962.. .. | 5,450                     | 1,050                 | 865                  | 436                | 147                                    |
| 1963.. .. | 6,197                     | 1,096                 | 890                  | 387                | 164                                    |
| 1964.. .. | 6,314                     | 899                   | 795                  | 341                | 181                                    |
| 1965.. .. | 5,974                     | 767                   | 785                  | 193                | 179                                    |

Note: Figures are monthly averages.

(a) Thousand kg. (b) Tonnes. (c) Thousand Litres. \* Annual production.

Manufacture of new products like super-synthetic enamels for coating of copper wire, finishes for bakelite, luminous paints, anti-pest finishes, cold curved epikote finishes, hot dip protective coatings, etc. was taken during the Second Plan period.

There has been a marked improvement in exports of Indian paints to Middle East and African countries. Exports of pigments, paints, varnishes and related materials in 1965-66 amounted to Rs. 72 lakhs as against Rs. 33 lakhs in 1964-65.

## DRUGS AND PHARMACEUTICALS

Drugs and pharmaceuticals cover a large variety of products from simple extracts of vegetable drugs and glandular preparations to highly complex synthetic drugs and antibiotics.

The pharmaceutical industry in India can be said to have registered phenomenal growth. In the sphere of exports it has made a fair beginning despite severe world competition. The Pharmaceutical Enquiry Committee in 1954 assessed the capital investment at 23.64 crores. There are nearly 2,800 production units producing pharmaceuticals and drugs, licensed under the Drugs Act. Out of these, only 125 large-scale units are licensed under the Industrial Development and Regulation Act.

Annual exports amount to Rs. 8.2 million which are progressively increasing. Dependence on imported chemicals and substances has also progressively fallen though the volume of finished goods has rapidly increased, thus keeping foreign exchange expenditure to the minimum. The following are the principal fields in which progress has been remarkable: Penicillin, Streptomycin and Dihydrostreptomycin, Tetracycline, Chloramphenicol, synthetic drugs, vitamins, synthetic hormones, glandular products and vaccines and sera.

Most manufacturers in the organised sector have collaboration arrangements with well-known pharmaceutical firms in England, America, Switzerland, Germany, Italy, the U.S.S.R., etc. This collaboration is not only financial, but also extends to the scientific, technological, and training fields. The research findings and the technological know-how of these foreign firms are freely available to their Indian counterparts.

The total capital investment in this sector is about Rs. 560 million, out of which Rs. 174 million represents investment of foreign capital. These units employ about 40,000 workers, out of whom about 4,000 are technically trained. The products they manufacture are equal in quality and purity to those manufactured in best advanced countries of the world.

By the end of 1965-66, the estimated actual output of drugs is placed at Rs. 150 crores. The target for the Fourth Plan is Rs. 250 crores.

### Developments in the public sector :

The Third Plan visualised one big manufacturing unit in the public sector, viz., the Antibiotic Factory at Rishikesh under Russian collaboration. It will manufacture 300 tons of streptomycin sulphate, 140 M.M.U. penicillin, chlorotetracycline and other antibiotic drugs every year. Costing Rs. 22 crores, this project will save foreign exchange of Rs. 3 crores a year and is expected to earn an annual revenue of Rs. 25 crores. This factory will employ over 4,000 skilled and unskilled workers. Four insecticide and pesticides factories are already licensed in Bihar. These, costing about Rs. 20 lakhs, will be set up at Ranchi, Bhagalpur, Muzaffarpur and Patna. The Government of India has also approved of the scheme of Hindustan Antibiotics Ltd., Pimpri for setting up the plant for the manufacture of hamycin.

In 1965-66, India exported medicinal and pharmaceutical products worth Rs. 264 lakhs as against Rs. 208 lakhs in 1964-65.

During 1964-65 there was considerable increase in the production of antibiotics (penicillin, streptomycin and chloramphenicol) Vitamin C, Vitamin B<sub>6</sub> and Vitamin A, Antihistaminic

drug (buclizine), tranquilliser (hydroxyzine) and the anaesthetic drug procaine hydrochloride. Notable rise in production has also been registered in respect of anti TB (PAS and its salts and INH), antipyretic (Aspirin) and antidiabetic (Tolbutamide) drugs, and other items like nikethamide.

Synthetic production of prednisolone, an important corticosteroid hormone has been established from indigenous dioscorea deltoidea roots. Production has commenced for the first time of items like hydroxocobalamin (vitamin B-12) promethazine, an antihistaminic drug, while additional capacity has been established for the production of streptomycin with the commencement of production by one unit in Gujarat State. Additional capacity has also been established for the antidiabetic drug (tolbutamide) Vitamin B<sub>12</sub> and thiacetazone. One unit for the production of the antidiabetic drug insulin starting from pancreas glands has been established in Maharashtra State. Another unit which has so far been manufacturing sulpha drugs based on imported intermediates has set up a basic manufacturing plant for the purpose. A new undertaking has been established very recently for the manufacture of PAS and its salts particularly its benzoyl derivative.

Before the close of 1959, the Central Government took decisions on the locations for the drugs projects as under :

1. Synthetic drug project, Sanatnagar (Hyderabad), Andhra Pradesh; 2. Antibiotics

project, Rishikesh (U.P.); 3. Phyto-chemicals project, Neriampalam (Kerala); 4. Surgical Instruments project, Guindy (near Madras).

With the completion of the antibiotics and synthetic drug factories at Rishikesh and Sanatnagar in 1966-67 a very substantial increase in the output of essential drugs is likely to be achieved. In the Fourth Plan period, Hindustan Antibiotics, Pimpri proposes to diversify its range of production into new lines. The share of the public sector in the output of drugs by 1970-71 is expected to be of the order of 50 per cent. By the end of the Fourth Plan, the industry, besides being able to meet the entire requirements of all basic drugs, will make a significant contribution to exports.

**Production :** The important items of production in the public sector, e.g., penicillin and D.D.T. recorded increased output as shown below :

| Year       | Penicillin<br>million mega<br>units | D.D.T.<br>(tons) |
|------------|-------------------------------------|------------------|
| 1958 .. .. | 26.93                               | 1,755            |
| 1959 .. .. | 28.71                               | 2,199            |
| 1960 .. .. | 39.70                               | 2,786            |
| 1963 .. .. | 71.88                               | 2,569            |
| 1964 .. .. | 84.26                               | 2,593            |

Monthly average production of drugs from 1961 to 1965 is given below:

| Unit                          | 1961     | 1962    | 1963    | 1964    | 1965    |
|-------------------------------|----------|---------|---------|---------|---------|
| 1. Liver Extract :            |          |         |         |         |         |
| (i) Injection .. ..           | '000 cc. | 3780.0  | 3662.0  | 3582.0  | 3221.0  |
| (ii) Oral .. ..               | '000 kg. | 12.9    | 13.9    | 13.9    | 14.2    |
| 2. Anti-dysentery drugs .. .. | kg.      | 3,003.0 | 3,681.0 | 4,921.0 | 5,855.0 |
| 3. Nikethamide .. ..          | kg.      | 492.0   | 553.0   | 577.0   | 652.0   |
| 4. I. N. H. .. ..             | '000 kg. | 3.3     | 3.9     | 4.7     | 5.2     |
| 5. P. A. S. .. ..             | '000 kg. | 8.6     | 12.0    | 19.1    | 19.0    |
| 6. Vitamin A .. ..            | MMV      | 1.2     | 1.5     | 1.5     | 1.7     |

The following statement shows the year-wise value of important categories of drugs and pharmaceuticals imported during the last few years :

| Item                                    | 1962-63       | 1963-64       | 1964-65       | 1965-66       |
|-----------------------------------------|---------------|---------------|---------------|---------------|

| Antimalarials .. ..                     | 30.59         | —             | —             | 15.85         |
| Sulpha drugs .. ..                      | 81.20         | 92.23         | 75.45         | 48.34         |
| Proprietary and patent medicine .. ..   | 75.87         | 90.01         | 50.04         | 40.98         |
| Other drugs and pharmaceuticals .. ..   | 329.18        | 385.84        | 202.71        | 201.77        |
| <b>GRAND TOTAL .. ..</b>                | <b>924.30</b> | <b>834.37</b> | <b>548.36</b> | <b>562.97</b> |

D.D.T. and B.H.C. are the two of the most important insecticides. Hindustan Insecticides Ltd., a public sector undertaking went into production in March 1955. The Fourth Plan envisages a substantial increase in the range and output of pesticides. The capacity is to be increased from about 18,000 tonnes in 1965-66 to 100,000 tonnes by 1970-71. In addition to the expansion of public sector projects under Hindustan Insecticides additional production of DDT and BHC is envisaged at the Hindustan Organic Chemicals and Gujarat Petro-Chemical complex.

The production targets for 1965-66 as accepted by the Planning Commission are summarised below :

| Item                       | Unit               | Production |
|----------------------------|--------------------|------------|
| Sulpha drugs .. ..         | Tonnes             | 1,016      |
| Penicillin .. ..           | Million mega units | 120        |
| Streptomycin .. ..         | Tonnes             | 152        |
| P.A.S. .. ..               | "                  | 400        |
| Anti-dysentery drugs .. .. | "                  | 70         |
| I.N.H. .. ..               | "                  | 102        |
| Phyto-chemicals .. ..      | "                  | 77.6       |
| D.D.T. .. ..               | "                  | 6,096      |
| B.H.C. .. ..               | "                  | 15,240     |

## PUBLIC SERVICES

**PUBLIC** Services in India can be broadly classified into four distinct categories: All India Services, Central Services, State Services and Local Bodies' Services. All India Services are common to the Union and the States and are created under Article 312 of the Constitution. The Central and State Services are intended for the administration in the respective fields assigned to the Union and the States under the Constitution. The Local Bodies in different States have their own Services though they may also utilise the State or All India Services for specific functions.

The Constitution provides for the setting up of a Public Service Commission for the Union and for each State. Two or more States may, however, join together to have a common Public Service Commission.

The Union Public Service Commission or the State Public Service Commission, as the case may be, is required under the Constitution to be consulted on all matters relating to the methods of recruitment to Civil Services and for civil posts and on the principles to be followed in making appointments to Civil Services and posts, and in making promotions and transfers from one service to another, as well as on disciplinary matters affecting a person serving under the Government of India or the Government of a State in a civil capacity.

However, the President in respect of the All-India Services and other services and posts in connection with the affairs of the Union, and the Governor in respect of the other services and posts in connection with the affairs of a State, may make regulations specifying the matters in which either generally or in any particular case or cases or in any particular circumstances, it shall not be necessary for the Public Service Commission to be consulted.

The Chairman and Members of the Union Public Service Commission, and of Joint Commissions if any, are appointed by the President of the Union while the chairman and members of a State Public Service Commission are appointed by the Governor.

A member of the Union Commission holds office for six years or till he attains the age of 65. A member of a State Commission also holds office for six years but retires earlier on attaining the age of 60.

In the discharge of their functions, the Union and State Commissions conduct examinations for recruitment to Government services.

The Union Public Service Commission also serves as the Commission for the Union Territories.

The annual reports of the Public Service Commissions which are required to include a list of cases in which Government did not accept the advice of Commissions, together with memoranda from the Government explaining the reasons for non-acceptance of the advice of the Commissions on such matters, are placed before the appropriate legislature.

### ALL INDIA SERVICES

Under the federal system of Government that exists in this country, there are 'Central Services' to administer purely central subjects such as defence, foreign affairs, railways, posts and telegraphs, customs, income-tax, etc. The officers of these services are in the exclusive employ of the Central Government. The subjects lying within the field of State autonomy such as land revenue, agriculture, forest, education, health, etc. are administered by States Services. In addition, India also has a third category of services known as the All India Services (I.A.S./I.P.S.) created under Article 312 of the Constitution. These services are common to the Centre and States. Officers of these services are liable to serve in connection with the affairs of a State or under the Union Government: mostly both at different

times, although at the State end service is generally confined to the particular State of allocation.

The All India Services are organised into a number of Cadres—one for each State, except for a joint cadre each of the IAS/IPS for the Union Territories of Delhi & Himachal Pradesh. Initial recruitment is made by the Central Government on the result of an open all India Competitive Examination held by the Union Public Service Commission. This shows the high quality inherent in a system of all India Competition. The officers so recruited are allotted by the Central Government to different State Cadres. The Central Government also arranges the initial training of recruits at Central training institutions to ensure a certain uniformity of standards. The strength of each cadre is so fixed as to include a reserve of officers for service under the Central Government on tenure deputation for periods varying from three to five years. This system ensures that:

- (i) evolution of high policies is not divorced from practical administration in the field acquired in the States: and the experience of different States is pooled at the policy making levels of the Union Government;
- (ii) the States, derive the benefit of their officers acquiring an all India outlook;
- (iii) the interchange of officers contributes to the administrative unity of the country.

The control of the Central Government over the All India services is exercised through the various rules and regulations framed by it, in consultation with the State Governments. In all important matters such as pay, cadre structure, seniority, pension, leave, discipline and appeal etc., apart from recruitment and promotion, uniform conditions of service have been provided. The more serious penalties such as reduction in rank, removal or dismissal are exercised only by the Central Government.

Recruitment to the two All India Services is made on the basis of an open competitive written examination, supplemented by a personality test, conducted by the Union Public Service Commission except for 25 per cent of the senior duty posts in the various State cadres of the two Services which are reserved for promotion from the State Civil Service and the State Police Service Officers respectively, including a proportion (15% of the above) from among any persons of outstanding ability and merit serving in State Services other than the State Civil Service.

The total authorized cadre strength of the I.A.S. and I.P.S. in the different States was 2,575 and 1,379 respectively as on 1st Jan. 1966 as against 1,206 and 590 respectively in 1950.

The State-wise break-up of I.A.S. and I.P.S. respectively is as follows: Andhra Pradesh 189, 80; Assam 117, 61; Bihar 190, 86; Delhi & H.P. 85, 56; Gujarat 173, 85; Jammu & Kashmir 51, 26; Kerala 85, 38; Madhya Pradesh 201, 149; Madras 173, 57; Maharashtra 201, 106; Mysore 145, 68; Orissa 170, 80; Punjab 167, 104; Rajasthan 144, 80; Uttar Pradesh 314, 175; West Bengal 170, 128.

In 1965, 129 and 74 officers were appointed to the I.A.S. and I.P.S. respectively on the results of the competitive examinations conducted by the U.P.S.C. During the same period 11 and 5 officers were appointed by promotion selection to the I.A.S. and I.P.S. from the State Services.

The States Reorganisation Commission's recommendation that at least 50 per cent of new entrants to the All-India Services be from outside the State has been implemented in case of both the I.A.S. and I.P.S.

### New All India Services

There are already two All India Services at present, namely, the Indian Administrative

Service and the Indian Police Service. Legislation providing for the creation of three more All India Services in the fields of forestry, engineering and medicine & health was enacted by the Parliament some time ago. The Indian Forest Service has since been constituted with effect from 1st July, 1966. Consultation on matters of details are taking place between the Centre and the State Governments about the initial constitution of the Indian Service of Engineers and the Indian Medical and Health Service.

All the State Governments have also agreed in principle to the creation of two more All India Services in the fields of agriculture and education. The Rajya Sabha adopted a Resolution in March, 1965 that it was necessary and expedient in the national interest to create these two Services. The Union Government have already introduced a Bill to further amend the All India Services Act, 1951 to bring within its scope the creation of Indian Agricultural Service and the Indian Educational Service.

The creation of new all-India services was recommended by the States Reorganisation Commission as one of the measures to be adopted to help in promoting national integration.

### Training

**NATIONAL ACADEMY OF ADMINISTRATION:** In the context of the objectives of a welfare State and the need for the successful implementation of the Five Year Plans, it has been considered essential that civil servants particularly those at the higher levels, should possess not merely professional skill and experience but also a wide outlook, greater adaptability and a deeper realisation of the ethics and obligations of public service. With this object in view, a combined course of training for new entrants to All India Services and Central Services, in background and foundational subjects, is now imparted at the National Academy of Administration which was set up at Mussoorie in September 1959.

The programme of training of probationers of All India Services and the Central Services class I, in the foundational subjects has since undergone some change. Due to increase in the number of probationers, the scheme of the foundational course was reviewed. It was considered that besides the accommodation difficulties, it has become difficult to ensure the requisite personal contact between them and the directing staff. It has, therefore, been decided to conduct two foundational courses with effect from 1965 instead of one previously. The probationers of various services to be given training in foundational subject in these courses are as under:—

First Foundational Course: 1st July to 30th Oct.: IAS., IFS., IPS., IA & AS., IRAS., IDAS., IITS.

Second Foundational Course: 15th Feb. to 15th June: TT & C.D., MLCS., IOFS., IPOS., CIS and IC & ES.

The Academy also has a refresher course for Central and State Government Officers with 10 to 15 years' service.

The Director of the Academy also functions as Director of Training, Government of India and in the latter capacity co-ordinates the training programmes of probationers in the All India Services as well as Central Services.

### Retirement Age

The retirement age of the Central Government employees has been extended from 55 years to 58 years.

### Central Health Service

The Central Health Service (Amendment) Rules, 1966, came into force on the 9th September, 1966. There shall be four categories in the Service and each category shall consist of the

grades specified in column (2) of the Table below and the scales of pay and classification of each such grade shall be as specified in columns (3) and (4) of the Table.

| Categories                                       | Scale of pay                              | Classification |
|--------------------------------------------------|-------------------------------------------|----------------|
| 2                                                | 3                                         | 4              |
| <b>Supertime Grade I</b>                         |                                           |                |
| (i) Director General of Health Services .. .. .  | Rs. 2,750.                                | Class I        |
| (ii) Additional D. G. of Health Services .. .. . | Rs. 2,250.                                | —do.—          |
| (iii) Other posts .. .. .                        | Rs. 1,800-100-2,000-125-2,250.            | —do.—          |
| <b>Supertime Grade II</b> .. .. .                | Rs. 1,300-60-1,600-100-1,800.             | Class I        |
| Specialists' Grade .. .. .                       | Rs. 600-40-1,000-E.B.-50-1,300.           | —do.—          |
| General Duty Officers, Grade I .. .. .           | Rs. 450-30-660-E.B.-40-1,100-50-1,250.    | —do.—          |
| General Duty Officers, Grade II                  |                                           |                |
| (i) (Graduate Officers) .. .. .                  | Rs. 350-25-500-30-590-E.B.-30-830-35-900. | Class II       |
| (ii) (Licentiate Officers) .. .. .               | Rs. 350-15-380-20-500-E.B.-20-600.        | —do.—          |

The authorised strength of the various categories of the Service on the date of commencement of the Central Health Service (Amendment) Rules, 1966, shall be as follows:

#### Authorised Strength

**Permanent:** Supertime Grade I 28; Supertime Grade II 96; Specialists' Grade 396; G.D.O. Grade I 653; G.D.O. Grade II (Graduate Officers) 932; Total 2,105.

**Temporary:** Supertime Grade I 9; Supertime Grade II 41; Specialists' Grade 133; G.D.O. Grade I 247; G.D.O. Grade II (Graduate Officers) 834; Total 1,264.

#### Non-practising Allowance

Persons appointed to the Service shall not be allowed private practice of any kind whatsoever, including consultant and laboratory practice. They shall, however, be entitled to a non-practising allowance at the rates indicated below:—

- Officer appointed to General Duty Officers Grade I, Specialists' Grade and Supertime Grades I and II. 50 per cent of pay subject to a maximum of six hundred rupees per mensem.
- Officers appointed to General Duty Officers, Grade II (Graduate Officers) and (Licentiate Officers) 33½ per cent of pay subject to a maximum of one hundred and fifty rupees per mensem.

#### Promotion Prospects

Vacancies in Supertime, Grade I, shall be filled on the recommendation of a Departmental Promotion Committee by promotion on the basis of merit with due regard to seniority officers holding posts in Supertime Grade II, who have rendered not less than 6 years of service in that grade and who possess the requisite qualifications and experience required for the vacancy to be filled.

Fifty per cent of the vacancies in Supertime Grade II shall be filled by promotion of Officers from (i) General Duty Officers, Grade I, with not less than ten years of service in that Grade and (ii) Specialists Grade Officers with not less than eight years of service in that Grade in the ratio of 2 : 3

Vacancies in the General Duty Officers, Grade I, shall be filled by the promotion of persons holding posts in the General Duty Officers, Grade II (Graduate Officers) or in any post which was equivalent to such post, immediately before the commencement of the Central Health Service (Amendment) Rules, 1966, who have rendered, whether before or after such commencement, not less than five years of service, by selection on the recommendation of a Departmental Promotion Committee and such recommendation

shall be made on the basis of the records of service of such officers and a qualifying test, provided that no qualifying test shall be held in the case of officers who have been appointed on the recommendation of the Commission to Category 'E' or in any equivalent post in the Service as in existence immediately before the commencement of the Central Health Service (Amendment) Rules, 1966.

Not more than twentyfive per cent of the vacancies occurring in the General Duty Officers Grade II (Graduate Officers) shall be filled by promotion of Officers belonging to General Duty Officers Grade II (Licentiate Officers) who have rendered not less than five years of service in that grade, on the advice of a Departmental Promotion Committee and such recommendation

shall be made on the basis of merit with due regard to seniority of the Officers.

The remaining vacancies in all the Grades of the Central Health Service will be filled through the Union Public Service Commission.

#### QUALIFICATIONS FOR CENTRAL SERVICES

The lower levels of Government services, namely, Class III and IV services are generally not required to have a university degree.

The higher level of Government services, All India and Central Class I and II will continue to require a candidate to possess a university degree. Generally the qualifications and age limits prescribed are as given below:—

| Service                                                                                                                              | Qualifications                                                                 | Age limits                                          |
|--------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|-----------------------------------------------------|
| <b>I. SUPERIOR SERVICES</b>                                                                                                          |                                                                                |                                                     |
| All India and Central (Class I)                                                                                                      | University Degree essential.                                                   | 21-24 years; for Indian Police Service—20-24 years. |
| <b>II. MIDDLE GROUP SERVICES</b>                                                                                                     |                                                                                |                                                     |
| (i) Central Class II (Gazetted)                                                                                                      | University Degree essential.                                                   | 21-24 years.                                        |
| (ii) Central Class II (non-gazetted)                                                                                                 | University Degree essential.                                                   | 20-24 years.                                        |
| (iii) Central Class III (non-clerical) other than SAS Apprentices and Divisional Accountants in the Indian Audit & Accounts Service. | Intermediate/Senior Cambridge/Higher Secondary or equivalent qualifications.   | 19-23 years.                                        |
| <b>III. CLERICAL SERVICES</b>                                                                                                        |                                                                                |                                                     |
| Upper Division other than those recruited direct to this grade in the Indian Audit & Accounts Department.                            | Intermediate/Senior Cambridge/Higher Secondary or equivalent qualifications.   | 18-21 years.†                                       |
| Lower Division.                                                                                                                      | Matriculation or equivalent qualifications until replaced by Higher Secondary. | 18-21 years.                                        |

The above will not, however, apply to technical, professional and specialist services.

† Exception: Appointment to the U.D.C.'s grade of the C.S.C.S. is made wholly by promotion of L.D. Clerks.

#### CENTRAL SERVICES

The total number of Central Government employees (including work charged personnel, contingent staff and local recruits abroad but excluding casual labour as on March 31, 1964 was 25,36,141.

All employees declared surplus as a result of the economy drive are reported to the surplus Employees' Cell located in the Ministry of Home Affairs and the Directorate General of Employ-

ment and Training, which has been created for reabsorption of surplus employees in alternative posts. All vacancies occurring in Central Government offices are reported to the Special Cell. Surplus employees on the register of the Special Cell are given top priority for employment in these vacancies. Vacancies for which suitable surplus employees are not available are released to local employment exchanges.

Recruitment to the non-technical Central Class I Services also takes place on the basis of

an open competitive written examination conducted by the Union Public Service Commission.

The following are the more important among the class I Central Services:—

Archaeological Service (Class I); Botanical Survey of India (Class I); Central Engineering Service (Class I); Central Electrical Engineering Service (Class I); Central Health Service (Class I); Central Revenues Chemical Service (Class I); Central Secretariat Service: (a) Selection Grade, (b) Grade I, (c) Grade II, General Central Service (Class I); Geological Survey of India (Class I); Indian Audit and Accounts Service; Indian Defence Accounts Service; Indian Foreign Service (Class I); Indian Meteorological Service (Class I); Indian Postal Service (Class I); Indian Posts and Telegraphs Traffic Service (Class I); Indian Revenue Service: (a) Customs Branch (Indian Customs Service, Class I); (b) Central Excise Branch Central Excise Service (Class I); (c) Income Tax Branch (Income Tax Service, Class I); Indian Salt Service (Class I); Mercantile Marine Training Ship Service (Class I); Mines Department (Class I); Overseas Communications Service (Class I); Survey of India (Class I); Telegraph Engineering Service (Class I); Zoological Survey of India (Class I); Indian Frontier Administrative Service (Class I); Central Legal Service (Class I); Railway Inspectorate Service (Class I); Indian Foreign Service (Branch B); Central Information Service; Indian Supply Service (Class I) and Indian Inspection Service (Class I); Indian Statistical Service; Indian Economic Service.

### INDUSTRIAL MANAGEMENT POOL

For staffing senior managerial posts in the public enterprises operating under the Union Ministries, the Government of India constituted in November, 1957 an Industrial Management Pool. At present there are 108 officers in the Pool working in various public undertakings. For the

present, the Ministries of Iron & Steel, Mines and Metals, Industry, Commerce, Supply and Technical Development and Transport and Aviation are participating in the Scheme which is under the administrative control of the Union Ministry of Home Affairs.

### SCIENTISTS' POOL

The Scientists' Pool under the Council of Scientific and Industrial Research was established in 1958, to provide temporary placement for well-qualified Indian scientists, technologists, engineers and medical personnel until they are absorbed in regular employment. This Pool is mainly intended for scientific and technical personnel who return from abroad after acquiring high qualifications in their subjects. There is also provision for the appointment of persons with Indian qualifications who have outstanding academic records. A limited number of places in the Scientists' Pool are also now available for placement of persons with high qualifications in some branches of Social Science. All persons enrolled in the Indians Abroad Section of the National Register of Scientific and Technical Personnel are considered for selection to the Pool. Advertisements are also issued periodically to enable suitable persons to apply.

Persons selected to the Pool are attached or seconded to Government Departments, State Undertakings, National Laboratories, Universities or Scientific and technical institutions, and other establishments including those in the private sector.

Six hundred and twenty-nine persons were working in the Pool on August 6, 1966. More than 4,500 persons have been selected for the scientists' pool since its constitution in 1958. The persons selected to the pool, start usually on a monthly salary between Rs. 400 and Rs. 700 per month. 1,235 persons have so far left the "Pool" on securing regular employment.

The number of persons selected to the pool from various countries of training up to August 1, 1966:

| Country of training              | Science | Engg. | Tech. | Medicine | Total |
|----------------------------------|---------|-------|-------|----------|-------|
| U.S.A. .. .. .                   | 843     | 712   | 104   | 185      | 1,844 |
| Canada .. .. .                   | 136     | 58    | 5     | 28       | 227   |
| U.K. .. .. .                     | 166     | 495   | 68    | 1,000    | 1,729 |
| W. Germany .. .. .               | 63      | 202   | 25    | 8        | 298   |

| Other Countries .. .. .          | 51      | 47    | 3     | 5        | 106   |
| India .. .. .                    | 63      | 15    | 5     | 47       | 130   |
| Total .. .. .                    | 1,389   | 1,616 | 229   | 1,281    | 4,515 |

### SECRETARIAT TRAINING SCHOOL

The Secretariat Training School imparts training in various subjects including training in typewriting, to the ministerial staff of the Govt. of India, namely, Section Officers, Assistants and Lower Division Clerks who are recruited on the results of the Union Public Service Commission examinations and also to those who are already employed under the Government of India.

From April 2, 1965, an 8 weeks training in work study O. & M. techniques has been started. The aim of this course is to train officials for manning O. & M. work study units and for implementing programmes of administrative reforms in Central and State Governments.

The duration of the training course has subsequently been extended to twelve weeks, with effect from 10th January, 1966.

A new two months' training course for training the Lower Division Clerks of the Subordinate Offices of the Government of India, located in Delhi/New Delhi has been started with effect from 10th October, 1965.

The Secretariat Training School has also started Advanced and Beginners' courses for training the Upper and Lower Division Clerks of the Ministries and its Attached Offices, in English Shorthand and Typewriting from July, 1966.

### POLICE TRAINING

The Central Police Training College was established by the Government of India at Mount Abu on Sept. 15, 1948, to train I.P.S. probationers with the object of centralising the training of All India Police Service Officers. Before this the I.P. officers were trained in their respective State training centres after recruitment.

General theoretical training as well as practical professional training is imparted to the probationers. The I.P.S. probationers are taught criminal law, legal procedure and medical jurisprudence. They are trained in methods of observation of the scene of crime, the use of scientific aids like examination of finger-prints, foot-prints, blood stains, photography, hand-writing etc. as aid to the detection of crime.

### SERVICE CONDITIONS

The conditions of service of Central Government servants and norms of conduct for them are embodied in four sets of rules viz. the Fundamental and the Supplementary Rules, the Civil Service Regulations, the Central Civil Service (Conduct) Rules and the Central Civil Service (Classification, Control and Appeal) Rules. The Fundamental and the Supplementary Rules and the Civil Service Regulations were framed many years ago. The Conduct Rules and the

Classification (Control & Appeal) Rules are more recent.

The Conduct Rules require every Government servant to maintain integrity and devotion to duty. Government servants are expected to avoid participation in politics except to the extent of casting their votes by secret ballot at elections. They may not offer themselves as candidates even for elections to municipal and other local authorities. The rules provide that Government servants shall not join or continue to be members of associations the objects or activities of which are prejudicial to the interests of the sovereignty and integrity of India or public order or morality. Revised rules for recognition of Service Associations/Unions of Government employees are being framed. The Conduct Rules disallow non-industrial employees to organise strikes or demonstrations in furtherance of their service interests.

Staff Councils consisting of representatives of the different sections of employees and the nominees of Government have been in existence in some of the Ministries and other organisations for the purpose of promoting employer-employee understanding and to serve as a forum for discussion of general questions affecting the employees' conditions of service. With the object of promoting harmonious relations and of securing the greatest measure of cooperation between the Government in its capacity as employer and the general body of its employees in the matter of common concern and with the object, further, of increasing the efficiency of public service, the Government of India has decided to establish a machinery for joint consultation and arbitration of unresolved differences. The Joint Councils are being set up at National/Departmental/Regional/Office levels. They will replace the Staff Councils.

The Conduct Rules for the All India Services and the Railway Services require, as in the case of the Central Civil Services, that Government servants' transactions in immovable and movable property should in specified circumstances be reported to Government either for their information or for according sanction to those transactions. Officers of the All India Services and of the Class One Central Services may not take up commercial employment within two years of their retirement from Government service without first obtaining Government's permission. The son, daughter or other dependant of such officers may take up employment with a private firm having dealings with Government only after the officer concerned has reported the facts to Government and obtained their permission.

### ADMINISTRATIVE VIGILANCE DIVISION

The Administrative Vigilance Division was set up in August 1955 in pursuance of the decision of the then Home Minister that there should be in the Ministry of Home Affairs an organisation which would assume the overall responsibility and provide the necessary drive, direction and coordination to ensure sustained and vigorous action against lack of integrity. The Administrative Vigilance Division functions substantially in an advisory capacity in keeping with the basic principle that initiative for prevention of corruption in a Ministry/Department in its sphere of activity must come from within that Ministry/Department.

In particular, disciplinary cases relating to members of the following Services are dealt with in this Division:—

(1) All India Services—

(a) Cases of Officers employed at the Centre; (b) cases of officers who are serving in connection with the affairs of a State Government where it is proposed to impose the penalty of dismissal, removal or compulsory retirement; (2) Central Secretariat Service (Selection Grade and Grade I); (3) Industrial Management Pool; (4) Indian Economic Service; (5) Indian Statistical Service.

## CENTRAL BUREAU OF INVESTIGATION

The Government of India established the Central Bureau of Investigation on 1st April 1963. The Delhi Special Police Establishment has been merged in the Central Bureau of Investigation and has become its integral part as one of the Divisions. In July 1964, a new wing known as the Economic Offences Wing was established and formed part of the Delhi Special Police Establishment Division. In May 1965, still another wing was added viz. Food Offences Wing. The Delhi Special Police Establishment Division now consists of three wings, viz., General Wing, Economic Offences Wing and Food Offences Wing. Of the 2,308 new cases registered by the Delhi Special Police Establishment Division of the Central Bureau of Investigation during 1965, 1,658 (71.8 per cent) were registered on the basis of information collected by its own staff. During 1965, the Special Police Establishment Division collected 3,725 informations through its own sources.

Including those pending at the beginning of year, the S.P.E. Division processed during the year 1965, 4,175 informations. Of these, 1,573 were registered as cases for formal investigation; 952 were referred to Departments concerned for necessary action, 940 were dropped and 710 remained pending at the end of the year.

## DEPARTMENT OF ADMINISTRATIVE REFORMS

The Department of Administrative Reforms was set up in March, 1964 in the Ministry of Home Affairs, and the erstwhile Organisation & Methods Division of the Cabinet Secretariat was merged in it. Apart from continuing the work of the O & M Division, the new department has embarked upon a programme of activities significantly wider in scope than what was handled before. Comprehensive studies of important departments have been undertaken through study teams headed by Members of Parliament. Major reorganisation measures have been initiated in the Central Secretariat, starting with the Ministry of Works & Housing. Liaison is being maintained with State Governments in regard to administrative Reforms programmes in the States. Considerable emphasis has been given to implementing the reforms measures devised through studies. In all this, new ground has been broken in several directions.

The training programme of the erstwhile O & M Division has been reorganised and two new courses have been started for training administrators in skills of administrative analysis. The senior course is run with the cooperation of the Indian Institute of Public Administration and caters for middle level executives from the Centre, the States, and Public Undertakings. The Junior course is run in the Secretariat Training School and is aimed at training officers at the level of section officers and their equivalent. Short term training in operations research has also been imparted through special course for management personnel from public sector undertakings.

An administrative intelligence unit has been organised to provide a ready source of documented material on various aspects of administrative reform.

The department receives general direction about programming its activities from the Committee on Administration headed by the Cabinet Secretary.

## EDUCATION ALLOWANCE

All permanent and quasi-permanent non-gazetted Central Government servants and temporary non-gazetted Government servants who have put in not less than 3 years service and whose pay does not exceed Rs. 340 p.m. (between Rs. 350 and Rs. 399 subject to certain marginal adjustment) are eligible for the grant of Children's Educational allowance, subject to fulfilment of certain conditions. It will be admissible only when the child or children of a Government servant study in a recognised school away from the station at which he/she is posted and/or residing."

## Pay Commission Report

The Second Pay Commission's recommendations regarding the liberalisation of retirement benefits, casual leave and holiday and leave travel concessions and other benefits, viz. educational concessions, death benefits, D.A. etc. have been featured in the previous editions of the Directory.

## Whitley Plan

The Government have accepted in principle the Commission's recommendations regarding the working conditions, canteen facilities and staff welfare. An *ad hoc* inter-departmental committee as recommended by the Commission has been set up and its report has been submitted to the Cabinet.

The Commission have recommended setting up of a Whitley type machinery, with a Central Joint Council representing the whole body of Central Government employees, both industrial and non-industrial for negotiation and settlement of disputes. This scheme was inaugurated on Oct. 28, 1966.

## Panel for D.A.

In July 1966 the Government of India set up a three-member commission under the Chair-

manship of Mr. P. B. Gajendragadkar, former Chief Justice of India, to review the Second Pay Commission's formula for the grant of D.A. to Central Govt. employees.

The Commission submitted its recommendation to the Government on Oct. 8, 1966 by which Govt. employees earning upto Rs. 399 were to be benefited with an enhanced D.A. Though the commission has recommended only for those drawing below Rs. 400 the Govt. have considered proportionate increase in D.A. to employees drawing salary upto Rs. 1,000.

The increased D.A. is to cost the exchequer Rs. 31.5 crores more during 1966-67.

An Official announcement dated Oct. 19, 1966 stated that the increase embraced two elements. First, the rate of allowance has been stepped up from Dec. 1, 1965 to neutralize 90 per cent of the increase in the cost of living instead of 75 per cent. Secondly the rate of D.A. has been enhanced again from Aug. 1, 1966 as a result of the cost of living index having gone up by 10 points.

The following table outlines the D.A. position:

| Pay ranges (Rs.)                      | Existing rates of D.A. on 1-12-1965 | Revised rates from 1-12-1965 | Revised rates from 1-8-1966 |
|---------------------------------------|-------------------------------------|------------------------------|-----------------------------|
|                                       | Rs.                                 | Rs.                          | Rs.                         |
| Below 110 .. .. .                     | 38                                  | 41                           | 47                          |
| 110 and above but below 150 .. .. .   | 58                                  | 61                           | 70                          |
| 150 and above but below 210 .. .. .   | 76                                  | 78                           | 90                          |
| 210 and above but below 400 .. .. .   | 93                                  | 96                           | 110                         |
| 400 and above but below 1,000 .. .. . | 100                                 | 105                          | 120                         |

## STATISTICS

Below we give the total number of employees of the Central Government from 1960. Figures for the period relate to 31st March of each year.

1960: 20,25,237; 1961: 20,94,477; 1962: 21,56,220; 1963: 23,48,675; 1964: 25,36,441.

The distribution of regular employees by pay ranges as on 31st March 1964 is given below:—

|                        |    |    |    |    |    |    |    |    |    |           |
|------------------------|----|----|----|----|----|----|----|----|----|-----------|
| Below-75 :             | .. | .. | .. | .. | .. | .. | .. | .. | .. | 4,22,301  |
| 75-100 .. .. .         | .. | .. | .. | .. | .. | .. | .. | .. | .. | 8,48,792  |

| Work-charged, contingent and local recruits abroad .. .. . | 53,027                                         | 70,937               | 39,326   |

## CIVIL AVIATION

**ALLOTMENT:** Second Five-Year Plan, Rs. 2,444.30 lakhs including special allotment of Rs. 663 lakhs. The actual expenditure incurred during the Second Plan was Rs. 17.96 crores. Third Plan: Rs. 25.5 crores.

The budget estimates for 1965-66 for the Civil Aviation Department were: Revenue Expenditure: Rs. 8.80 crores; Capital Expenditure: Rs. 6,24,33,000 including charged expenditure and meteorological equipment; Revenue Receipts from landing, housing etc., Charges at civil aerodromes: Rs. 1,96,43,100.

### AIR TRANSPORT

In addition to the two Corporations—Indian Airlines Corporation and Air India—there were 17 flying clubs and nine air transport companies holding permits for non-scheduled services on 31st December, 1965.

Approximately 1,510,446 passengers and about 60,721,925 kilograms of cargo and mail were carried by scheduled and non-scheduled air transport services in 1965.

The scheduled air transport services flew 47,985,721 km. in 1965. The number of passengers carried increased from 1,388,753 in 1964 to 1,414,784 in 1965. The quantity of freight and mail carried during 1965 was 36,858,000 kgs. as against 42,493,000 kgs. in 1964.

During 1965 21,962 hours and 5,807,771 kilometres were flown on non-scheduled operations against the previous year's figures of 26,555 hours and 7,378,447 kilometres. The number of passengers and cargo carried were approximately 95,662 and 23,863,995 kgs. respectively as against the previous year's figures of 118,849 passengers and 29,449,262 kgs. of freight.

### INDIAN AIRLINES CORPORATION

(Airlines House, 113, Gurdwara Rakabganj Road, New Delhi).

INDIAN AIRLINES CORPORATION was formed on 1st August, 1953, as a State Corporation under the provisions of the Air Corporations Act, 1953.

The present fleet consists of 5 Caravelles; 11 Fokker Friendships; 12 Viscounts; 34 DC-3's and 3 DC-4's.

The operations of the Corporation have been divided into three Areas, namely, Delhi, Bombay and Calcutta. Each Area is under the charge of a Manager who is responsible to the General Manager for the proper administration and co-ordination between different departments in the area. The Headquarters Office of the Corporation has, besides the Chairman, Departmental Heads.

The total number of staff employed by the Corporation was 11,615 as on 1st Jan. 1966. The Corporation's services extend over the entire sub-continent, including Afghanistan, West Pakistan, Nepal, East Pakistan, Burma and Ceylon. The crew strength consists of 398 pilots.

#### Members of the Board:

A. S. Bam (Chairman), J. R. D. Tata, S. R. Vasavada, M. L. Khaitan, G. L. Mehta, M. A. Chidambaram, T. P. Singh, Air Chief Marshal Arjan Singh.

General Manager: A. S. Bam.

Area Managers: Delhi, Capt. R. G. Patwardhan; Bombay, Capt. D. A. Samant; Calcutta, A. H. Mehta.

Secretary: D. B. Kohli.

Indian Airlines Corporation is now a full member of the International Air Transport Association. Indian Airlines Corporation has set up training establishments for its Flying, Engineering and Traffic personnel. Besides regular passenger and freight services, I.A.C. operates

a Night Airmail Service linking Bombay, Delhi, Calcutta and Madras.

During July-December 1965, the Indian Airlines Corporation, on its scheduled services, flew approximately 14,426,509 kilometres, carrying 539,993 passengers, 6,921,521 kg. of cargo and 4,722,582 kg. of mail against 16,492,368 kilometres flown with 5,90,106 passengers, 11,900,261 kg. of cargo and 4,522,640 kg. of mail during the corresponding period of the previous year.

The capacity ton kilometres operated during the period under review 71,134,207 as against 76,703,525 during the corresponding period of 1964.

The Corporation has introduced a Scholarship Scheme for promising children of low paid staff.

### HIGHEST PROFIT

During 1964-65, the I.A.C. showed an operating surplus of Rs. 1.6 crores, the highest ever recorded, despite an addition to the wage bill of Rs. 1.15 crores. The operating expenditure during the year rose to Rs. 2,117.09 lakhs as against Rs. 1,863.75 lakhs in 1963-64 and the revenue to Rs. 2,280.96 lakhs from Rs. 1,937.82 lakhs. Although mainly a domestic operator, the I.A.C. earned through the IATA clearing house and on direct bookings by travel agents and charters, foreign exchange worth Rs. 4 crores.

According to the budget estimates it is expected to make a net profit of Rs. 1.34 crores in 1966-67. The Indian Airlines Corporation has made a net profit of Rs. 32.33 lakhs compared with Rs. 133.01 lakhs in 1964-65.

### AIR-INDIA

(New India Assurance Building, Third Floor, Mahatma Gandhi Road, Bombay 1).

Air-India International Limited now known as Air India, inaugurated its first international service to London on June 8, 1948. The initial frequency of one flight a week was gradually stepped up to 7 Super Constellation services a week with alternative stops at Rome, Paris, Prague, Dusseldorf, Zurich, Geneva, Cairo, Beirut and Damascus.

Air-India International Corporation was formed on August 1, 1953, as a wholly Government-owned Corporation under the Air Corporations Act of 1953.

The scale of operations and the route system of Air-India have expanded continuously since 1953, when it took over the predecessor company's Bombay-London and the Bombay-Nairobi services. To these, the Corporation added services to Singapore in July 1954, to Hong Kong in August 1954, to Tokyo in May 1955, to Sydney in October 1956, to Moscow in August 1958, to Jakarta in Oct. 1958, to New York in May 1960, to Kuwait in October 1960 and to Nadi (Fiji) in Aug. 1964.

In April 1960, Air-India celebrated entry into the jet age by starting Boeing 707 services to London and later in May to New York—thus becoming the first Asian carrier to operate over the Atlantic.

From a total of four stations serviced in June 1948, Air-India now serves 26 cities in 21 countries, covering 5 Continents.

### FLEET

Air-India's fleet as on 31st March 66 consists of seven Boeing 707s—five Boeing 707-420s and two Boeing 707-320Bs.

With a fleet of seven Boeing 707s, Air-India operates a daily service to New York, ten services a week to London—two of which are routed via Moscow—three services a week to Tokyo and two services a week to Nairobi, and one flight a week each to Singapore and Nadi (Fiji) via Sydney.

During 1964-65 Air-India flew 17.974 million revenue kilometres carrying 238,000 revenue

passengers, 1,099 tonnes of mail and 7,670 tonnes of cargo. Comparable figures for 1963-64 were 16.065 million revenue kilometres, 191,000 revenue passengers, 1148 tonnes of mail and 6,574 tonnes of cargo.

The Tripartite pool between Air-India, BOAC and Quantas came into being on April 1, 1960. This arrangement makes Air-India a partner in a giant international airline system which is in a better position to meet the increasing competition on international routes.

Air-India operates in pool with the Soviet airline, Aeroflot, on the Delhi/Moscow sector with the Czechoslovak airlines, CSA, on the Bombay/Prague sector and with East-African Airways on Bombay/Nairobi sector.

**Executive Officers:** J. R. D. Tata, Chairman; Air-Vice-Marshal M. S. Chaturvedi, Vice-Chairman and General Manager; S. K. Kooka, Commercial Director; N. J. Pavri, Financial Controller; K. K. Unni, Asst. General Manager; K. Vishvanath, Director of Operations; K. G. Appusamy, Director of Engineering; V. G. Gadgil, Controller of Stores & Purchases; A. S. Banavalikar, Personnel Manager; A. F. Dubash, Director of Planning & International Relations and R. N. Gundil, Secretary.

**Members of the Board:** J. R. D. Tata, Chairman; Air-Vice-Marshal M. S. Chaturvedi, Vice-Chairman; V. Shankar; S. R. Vasavada; M. A. Chidambaram; Air Chief Marshal Arjan Singh; M. L. Khaitan; G. L. Mehta and T. P. Singh.

**Commercial Headquarters:** Bank of India Building, Fourth Floor, Mahatma Gandhi Road, Bombay.

**Other Departments:** Santa Cruz Airport, Bombay 29. Tel: 535491.

**Information/Booking:** New India Assurance Building, Mahatma Gandhi Road, Fort, Bombay 1. Tel: 259191.

**Geneva Office—7, Rue de Chantepoulet; London Office—17/18 New Bond Street; New York Office—410 Park Avenue, New York 22; Nairobi Office—Lugard House, Government Road; Tokyo Office—Hibiya Mitsui Building; Sydney Office—P & O Bldg., 3 Elizabeth St.; Nandi Office—Terminal Building, Nandi Airport.**

**Net profit for the year ending March 31, 1965:** Rs. 3.04 crores.

**Operating Revenue:** Rs. 30.03 crores.

**Operating expenses:** Rs. 26.41 crores.

**Operating Profit:** Rs. 3.62 crores.

**Net Profit:** Rs. 3.04 crores.

**Total number of persons employed by Air-India:** 6,798 (31-3-1965).

**Unduplicated route kilometres:** 55,338 (31-3-1965).

**Net profit for 1965-66 is Rs. 1.63 crores.**

The Air-India is expected to make a profit of Rs. 32 lakhs in 1966-67, the revenues being estimated at Rs. 32.21 crores and expenditure at Rs. 31.89 crores.

### AERODROMES

Eighty-five aerodromes were controlled and operated by the Civil Aviation Department. Three of these, viz., Bombay (Santa Cruz), Calcutta (Dum Dum), Delhi (Palam) are international airports. The aerodromes at Ahmedabad, Patna, Bombay (Santa Cruz), Calcutta (Dum Dum), Delhi (Palam), Delhi (Safdarjung), Madras (St. Thomas Mt.), Tiruchirapalli, Varanasi, Jodhpur, Bhuj, Port Blair and Amritsar have been declared customs aerodromes.

**Aerodromes by Categories:** International Aerodromes (3): Bombay (Santa Cruz); Calcutta (Dum Dum); Delhi (Palam).

**Major Aerodromes (8):** Agartala; Ahmedabad; Begumpet; Delhi (Safdarjung); Gauhati; Madras (St. Thomas Mount); Nagpur; Tiruchirapalli.

**Intermediate Aerodromes (44):** Amritsar; Aurangabad; Balurghat; Baroda; Belgaum; Bhavnagar; Bhopal; Bhubaneswar (Cuttack); Bhuj; Bhuntar (Kulu); Bombay (Juhu); Coimbatore; Cooch-Bihar; Gaya; Indore; Jaipur; Junagadh (Keshod); Kailashahar; Kamalpur; Kandla; Khajuraho; Khowai; Kumbhirgram; Lucknow (Amausi); Madurai; Mangalore (Bajpe); Mohanbari; North Lakhimpur (Lilabari); Panna; Passighat; Patna; Phoolbagh; Porbandar; Port Blair; Raipur; Rajkot; Ranchi; Rupsi; Trivandrum; Tulihal; Udaipur; Varanasi; Vijayawada; Visakhapatnam.

**Minor Aerodromes (30):** Akola; Behala; Bilaspur; Chakulia; Cuddappah; Donakonda; Hadapsar (Gliderdrome, Poona); Jhansi; Jharsuguda; Jabalpur; Kanpur (Civil); Khandwa; Kolhapur; Kotah; Lalitpur; Malda; Muzafarpur (Rewaghat); Mysore; Nadirgul (Gliderdrome, Hyderabad); Palanpur (Deesa); Panagarh; Rajahmundry; Ramnadi; Roxaul; Satna; Shella; Sholapur; Tanjore; Vellore; Vijayawada; Warangal.

Work is in progress at the new aerodrome at Jogbani.

### WORKS

During the year 1965, construction of the new terminal buildings at Bhavnagar and Aurangabad aerodromes was completed. Work was also completed on the extension of the main runway at Lucknow, Ahmedabad and Udaipur aerodromes. Work on the extension and strengthening of the runway for Caravelle aircraft was completed at Begumpet aerodrome. Bulk of the land for the construction of a new terminal building at Delhi (Palam) airport was acquired.

Important works in progress include the construction of phases I and II of the new terminal building; construction of a hangar for aircraft on intercontinental services and extension of the instrument runways, at Calcutta (Dum Dum) airport; extension and strengthening of the runway at Patna aerodrome; extension and strengthening of the main runway at Lilabari aerodrome; strengthening and regrading of the main runway at Bhubaneswar aerodrome; strengthening of the runway at Mohanbari aerodrome; construction of a terminal building in Civil enclave at Cochin aerodrome; strengthening of the runway at Madurai aerodrome; extension and strengthening of the runway at Port Blair aerodrome; and extension, widening and strengthening of the runway at Trivandrum aerodrome.

Work was also in progress on the additions and alterations to the terminal building and extension of 14/32 runway at Bombay (Santacruz) Airport; extension and strengthening of the runway at Bhavnagar and Rajkot aerodromes; additions and alterations to the terminal building at Delhi (Palam) airport; widening of the runway at Udaipur aerodrome; strengthening of the main runway and taxi-track at Amritsar aerodrome; and construction of new runways at Indore and Kulu (Bhuntar) aerodromes.

### TRAINING CENTRE, ALLAHABAD

The Civil Aviation Training Centre, Allahabad comprises Aerodrome and Communication Schools.

During the period from 1st January to 31st December 1965, 37 Assistant Aerodrome Officers and 28 Aerodrome Operators received training in the *ab-initio* course and 24 Assistant Aerodrome Officers and 17 aerodrome operators received training in advanced refresher course. In the Communication School, 33 radio operators received training in refresher course, and 17 candidates received training in long range HF-R/T course, during the period under review. Ten candidates received training in radio teletype specialist course, and four technical assistants received training in refresher course.

At the end of December 1965 there were 79 trainees on the rolls of the Civil Aviation Training Centre, undergoing training in different courses.

The calibration unit and the overhaul unit continued to function at Kotah and Madras, respectively.

### FLYING CLUBS

There are at present 21 subsidised flying clubs with their headquarters at Amritsar, Banasthal, Vidyapith, Bangalore, Baroda, Bhubaneswar, Bombay, Calcutta, Coimbatore, Delhi, Gauhati, Hissar, Hyderabad, Jaipur, Indore (with a satellite centre at Bhopal), Jullundur Cantt., Lucknow (with satellite centres at Kanpur and Varanasi — The Allahabad Centre has been transferred to Kanpur), Madras, Nagpur, Patna, Patiala, and Trivandrum.

During the year 1965, 115 Private Pilots' Licences and six Commercial Pilots' Licences were issued to the trainees at the various Flying Clubs.

### GLIDING CENTRES/CLUBS

There are three Government Gliding Centres at Bangalore, Lucknow and Poona and six Gliding Clubs at Ahmedabad, Deolali, Jaipur, New Delhi, Pilani and Raipur. During the year 1965, 30 Glider Pilots were trained at the various Gliding Centres and Clubs.

### AERONAUTICAL COMMUNICATION SERVICES

During 1965-66, the last year of the Third Five Year Plan, the work of modernisation, improvement and reorganisation of the Aeronautical Telecommunication Service was continued.

There are at present 90 Aeronautical Communication Stations, providing 161 radio aids to navigation and 602 aeronautical Communication Channels.

The following are some of the more important activities of the Aeronautical Telecommunication Service during the year under review:

- (i) The outer marker and the outer locator components of the ILS facility at aeronautical communication station, Palam, commenced operation from the new site in line with 10/28 runway.
- (ii) The Marconi, medium power surveillance Radar was commissioned into service at Calcutta.
- (iii) The non-directional MF radio beacon facilities were commissioned at Aligarh, Dhanbad, Muzaffarnagar and Vikarabad.
- (iv) The low power non-directional MF Radio Beacon at Cooch Behar was replaced by one of medium power while the medium power non-directional MF radio beacon at Vishakhapatnam, was replaced by a high-power 3 KW beacon.
- (v) An extended range VHF frequency 124.5 Mc/s for providing direct pilot-to-controller communication for aircraft operating on PDRs 3 and 11 was commissioned at Delhi.
- (vi) The VHF D/F facility was provided at Palam. Later the Palam approach and VDF frequency was changed from 119.9 to 127.9 Mc/s.
- (vii) The A/G en-route HF RTF frequencies 5514 and 8939 Kc/s were commissioned at Varanasi, Begumpet, Amritsar and Bhubaneswar.
- (viii) Broadcast of the half hourly Dum Dum Aero etc. was introduced on the VOR facility at Calcutta.
- (ix) Gauhati was inducted as an additional correspondent on the existing Inter-Centre ATS Speech circuit between Agartala-Calcutta-Dacca.
- (x) Duplex operation of the Bombay-Ahmedabad landline teletypewriter circuit and the Calcutta-Gauhati Radio teletypewriter circuit was implemented.
- (xi) With a view to ensuring expeditious handling of message traffic, a number of W/T point to point circuits was bifurcated.
- (xii) Arrangements were made for provision of dual transmission on the various

Radio Teletypewriter circuits, operated at Calcutta.

- (xiii) The aeronautical communication facilities at Palam, formerly operated by the IAF, were taken over by the Civil Aviation Department, in April, 1965.
- (xiv) A meteorological synoptic reception channel was commissioned at Palam.
- (xv) Push Button Tape Relay System and a Teleprinter Exchange were commissioned at the newly constructed RTT Centre at Bombay.
- (xvi) A public Address System was installed at Bhuntar (Kulu).
- (xvii) Long distance direct landline speech circuits were commissioned between Delhi-Hindon, Delhi-Calcutta, Calcutta-Varanasi and Coimbatore-Sulur.

### AIRCRAFT

Aeronautical Inspection Organisation of the Civil Aviation Department is responsible for the registration and supervision of airworthiness of aircraft. This embraces the periodic inspection of aircraft in operation, including engines, instrument, and equipment; the supervision of their daily maintenance and annual overhaul schedules; enforcement of Certificate of Airworthiness inspection standards. These functions exercised by the Headquarters Organisation through the nine field offices at New Delhi, Bombay, Bangalore and Calcutta headed by the Controllers of Aeronautical Inspection, at Lucknow, Begumpet and Madras headed by the Senior Aircraft Inspectors and at Nagpur and Patna headed by Aircraft Inspectors.

### RESEARCH AND DEVELOPMENT

Research and development for Civil Aviation are undertaken by the Research and Development Organisation of the Civil Aviation Department at the technical centre, Safdarjung, New Delhi.

The Research and Development Directorate in Civil Aviation has two distinct functions/activities. One is airworthiness engineering function for the Directorate General of Civil Aviation, including field work and operational safety. These include type certification, approval of modifications, laying down of Design and Operational Airworthiness requirement, service failure investigations, evaluation of performance and economics of civil transport aircraft, personal planes, agricultural aircraft and helicopters and other *ad-hoc* technical problems referred to from time to time. The second function relates to research, development and evaluation at the Technical Centre Laboratory. These include design and development of light aircraft and gliders, standardisation and development testing of aeronautical materials and processes, development of safety devices and operational research.

As a result of the development efforts of this organization, the country has now become practically self sufficient in respect of its requirements of gliders and gliding equipment, including glider launching winches. It may be mentioned that two of the original designs viz., the 'Rohini' side-by-side two seater trainer and the IT-G single seater, have been taken up for mass production by the Defence Ministry at the Hindustan Aeronautics Ltd., Kanpur. Pioneering work has also been done by this organization in respect of gust research and the associated fatigue problems in Civil Transport Aircraft. A number of original papers on the subject have been published. The findings of these investigations will contribute in a large measure towards increased safety in aviation.

The principal achievements made by the Research and Development Directorate so far are enumerated below:—

- (i) Type-Certification of the HT-2 and Pushpak aircraft, the 'Ashvini' and 'Rohini' gliders, and "Permit-to-fly" for "Monsoon" and "Turbulent" aircraft.
- (ii) Type-Certification/Technical Examination of fixed pitch propellers for the HT-2 and Pushpak aircraft.

(iii) Type-Certification of indigenously developed aeronautical equipment like aircraft seats, lead-acid batteries and safety-harnesses.

(iv) Laying down of procedures for type-certification of aircraft and aircraft equipment and issue of "Permit-to-fly" for amateur built aircraft.

(v) Development and construction of two prototypes of primary training Glider, six prototypes of intermediary type single seater gliders, and two prototypes of single seater advanced sailplane.

(vi) Design, development and construction of five prototypes of 'Ashvini', four prototypes of 'Rohini' two seater training gliders, one prototype of 'Bharani' two seater advanced sailplane; and two prototypes of 'Kartik' single seater advanced sailplanes for soaring and cross-country flying.

A 2/3 seater light aircraft has been designed both for utility and normal categories and the first prototype is ready for flight trials.

(vii) Development of Arjun I, II and III glider launching winches and construction of 3 prototypes. Supply of drawings for quantity production of winches to the Indian Air Force.

At present a two-seater glider launching winch is under development.

(viii) Supply of production drawings of the gliders types designed and/or developed at the Technical Centre to interested organisations including the Indian Air Force for quantity production to meet the needs of the Civil and N.C.C. Gliding Clubs and Centres. As a result, all our requirements of gliders and sailplanes are met from indigenous production.

(ix) Development of C.G. Determinator for Viking aircraft.

(x) Collection and analysis of data on the prevailing gust conditions over the Indian air-routes by means of V. G. Recorders, Ryan Flight Recorders, Strain Range Recorders and Fatigue Meters installed on DC-3, Viscount and Friendship aircraft of the Indian Airlines Corporation.

(xi) Take-off performance tests on aircraft like DC-3, Viscount, Herald, Otter Prestwick Pioneer and HT-2 to determine their field length requirements.

(xii) Preparation of Operating Limitations for DC-3, and Viscount aircraft for passenger transport operations and Caribou aircraft, for supply of dropping operations.

(xiii) Scientific investigation of major accidents to civil aircraft like DC-3 aircraft, Avro 45 Domine aircraft, Glider Ka. 6B, Hyper Dakota, etc.

(xiv) The failures of fuel pumps in Caravelle aircraft were examined in this office and cause of the failures was identified as due to fuel problem. A large number of fuel samples drawn from storage installations all over India were tested enabling Indian Airlines Corporation to resume their operations with fuel suitable for operations.

(xv) Comparative technical evaluation of new transport aircraft types for international and domestic operations like Boeing 707, Viscount, Fokker Friendship, IL-18, etc., and personal planes for the use of State Governments and private operators.

(xvi) Development testing and drafting of specifications for indigenous aircraft materials like spruce and fir, mango, rose, palm and white cedar, plywoods, cotton fabrics, dopes, thinners, paint removers, aviation fuels and oils, webbing for safety harnesses, etc.

(xvii) Design and fabrication of structural test rig for full scale static tests on aircraft components.

(xviii) Installation of 'Palas' jet engine for studying the variation in performance under different atmospheric conditions and air-craft noise survey work.

(xix) Installation of Aviation Engine and Supercharge Engine for knock tests on Aviation fuels.

(xx) Examination of the Schemes for repair and modifications to civil aircraft, received from the operators from time to time.

(xxi) Investigations on the fatigue properties of light alloy materials, fittings and joints used on construction of aircraft.

(xxii) A low speed wind tunnel is also being designed and fabricated for testing of gliders and light aircraft.

(xxiii) With specialised equipment the intensity and characteristics of the noise in aircraft cabins have been measured in different aircraft like Boeing 707, Viscount, etc.

## ACCIDENTS

During the period from 1st January, 1965, to 31st December, 1965, there were 17 notifiable accidents involving 12 Indian Registered aircraft (8 fixed wing and 4 rotary wing), three gliders and two foreign Registered helicopters. Five of these

accidents were fatal resulting in the death of 11 members of the crew, 4 passengers and 3 outsiders.

Three of the aircraft were engaged on non-scheduled flights, three on training flights, four on spray operations, one on ferry flight and one on private flight. One foreign registered aircraft involved in the accident was engaged on exploration work and the other on spray operations. Of the three gliders involved in accidents two were engaged on local flights and one on giving joy ride.

## AIR AGREEMENTS

India is a member of the International Civil Aviation Organisation and has been elected to its Council.

India has entered into air services agreements with the following 23 countries on the dates shown against each:—

France, 16th July, 1947; Sweden 21st May, 1948; Pakistan, 23rd June, 1948; Ceylon, 21st December, 1948; Switzerland, 4th June, 1949; Australia, 11th July, 1949; The Philippines, 20th October, 1949; Netherlands, 24th May, 1951; U.K., 1st December, 1951; Afghanistan, 26th January, 1952; Egypt (U.A.R.) 14th June, 1952; Iraq, 3rd September, 1957; Japan, 26th November, 1955; U.S.A., 3rd February, 1956; Thailand, 12th June, 1956; Russia (U.S.S.R.) 2nd June, 1958; Italy, 12th March, 1962; Czechoslovakia, 7th June, 1961; West Germany, 18th February, 1965; Iran, 20th September, 1965; Nepal, 29th September, 1965; Hungary, 23rd February, 1966; Lebanon, 4th April, 1966.

The following agreements have been initialled:—

India-Kuwait, 24th February, 1964;  
India-Kenya/Uganda/Tanzania, 19th May, 1965;  
India-Belgium, 4th March, 1966;  
India-Ethiopia, 20th May, 1966.

Airlines of the following countries operate air services to and/or across India under temporary authorisation granted by the Government of India:—

Norway, Denmark, Sweden (Jointly under one authorisation), Kuwait, Burma, Syria, Ethiopia, Saudi Arabia.

Indian Airlines and Air-India operate to and/or across the following countries under temporary authorisation:—

Burma, Kuwait, Syria, Ethiopia, Saudi Arabia.

## FISHERIES

INDIA produces about 0.89 million tons of marine fish out of a total fish production of 1.3 million tons, which is only a quarter of the country's requirements, estimated at about 4 million tons annually.

About 73,400 fishing craft are estimated to be employed.

The average catch is about 2,500 lbs. per man per year.

The annual per capita availability of fish in India is estimated to be 3.4 lbs. as against 16 lbs. in Ceylon, 70 lbs. in Burma and 90 lbs. in Japan.

The fishing industry in India offers employment to about a million persons and contributes annually over Rs. 60 crores towards the national income. About 27,000 tons of fish products, consisting mostly of dry, dry-salted and wet-salted fish, are annually exported to neighbouring countries. The Third Plan target was to export Rs. 18 crores worth of fishery products per annum by 1966.

Some of the steps taken by Government to improve fish production are mechanisation of fishing craft, training centres for fishermen, cold storage facilities, formation of deep-sea fishing stations and research at the four main central stations, viz., Central Inland Fisheries Station, Calcutta, Central Marine Fisheries Research Station, Mandapam, Deep-sea Fishing Station, Bombay and the Central Fisheries Technological Research Station, Cochin.

Today more than 2,400 mechanised boats are operating on Indian coastline. In Bombay the local types of boats are being mechanised. New designs have been evolved for boats in Madras, Kerala and Andhra States. Experiment in improved types of fishing with small power craft are also in progress.

Cold storage facilities exist in Bombay, Mangalore, Calicut, Cochin, Quilon, Trivandrum, Madras and Calcutta. Additional plants are being installed in many other places. Some of these plants have been provided under T.C.M. and Norwegian aid programmes.

## PRODUCTION

Production is shown in the table below. About two-thirds of the catch are marine-fishes.

| '000 tonnes |        |        |       |  |
|-------------|--------|--------|-------|--|
| Year        | Marine | Inland | Total |  |
| 1960        | 878    | 282    | 1,160 |  |
| 1961        | 684    | 277    | 961   |  |
| 1962        | 644    | 330    | 974   |  |
| 1963        | 656    | 390    | 1,046 |  |
| 1964        | 860    | 455    | 1,315 |  |
| 1965        | 824    | 507    | 1,331 |  |

The following is a list of the names of fishes showing within brackets their production in metric tons in 1965 and 1964 respectively:

Elasmobranchs (31,431; 34,863); Eels (2,370; 2,255); Cat Fish (18,827; 22,790); Chirocentrus (7,347; 7,565); Oil Sardine (261,960; 2,74,409); Other Sardine (42,552; 40,318); Hilsa Ilisha (1,546; 3,441); Other Hilsa (9,023; 6,519); Anchovella (24,377; 25,199); Thriassocles (4,811;

6,619); Other Clupeids (18,728; 16,752); Harpodon Nemereus (73,894; 81,342); Saurus (540; 1,545); Hemihamphus and Belone (1,187; 1,527); Flying Fish (422; 920); Perches (8,082; 12,659); Red Mullet (2,011; 5,027); Polynemids (1,708; 2,155); Sciaenids (23,365; 25,198); Ribbon Fish (41,920; 25,897); Caranx (17,693; 26,930); Chorinemus (3,094; 2,448); Coryphaenas & Elacate (271; 345); Trachinotus (20; 115); Lelonathus (27,042); Gazza (66; 35); Lactarius (5,941; 6,508); Pomtrets (17,849; 19,583); Mackerel (43,069; 23,975); Seer Fish (9,426; 11,165); Tunnies (3,368; 5,002); Sphyraena (1,924; 1,663); Mugil (1,413; 2,916); Bregmaceros (5,499; 3,721); Soles (9,834; 8,146); Penaeid Prawns (35,846; 62,441); Non-penaeid prawns (41,415; 31,506); Other Crustaceans (2,392; 4,565); Cephalopods (265; 463); Miscellaneous (21,775; 24,445); Total Marine (8,24,429; 8,60,336); Total Inland (5,07,100; 4,55,273); Grand Total (13,31,500; 13,15,609).

The total landing of marine fish by State for 1964 & 1965 is shown below (where available):

|                                   |  | (In tonnes) |          |
|-----------------------------------|--|-------------|----------|
|                                   |  | 1964        | 1965     |
| Bengal & Orissa ..                |  | 10,642      | 12,244   |
| Andhra ..                         |  | 71,727      | 76,477   |
| Madras (including Pondicherry) .. |  | 1,31,809    | 1,06,029 |
| Kerala ..                         |  | 3,17,974    | 3,34,526 |
| Mysore ..                         |  | 1,04,218    | 66,102   |
| Maharashtra ..                    |  | 1,30,603    | 1,30,861 |
| Gujarat ..                        |  | 92,882      | 80,590   |
| Goa ..                            |  | 643         | 17,186   |
| Andaman (South) ..                |  | 148         | 224      |
| Minicoy & Laccadive Islands ..    |  | 190         | 190      |
| Trawlers ..                       |  | —           | —        |
| Total ..                          |  | 8,60,336    | 8,24,429 |

## RESEARCH

Research in Fisheries is carried out primarily under the aegis of the main central stations given below.

**Central Inland Fisheries Research Institute, Barrackpore:** Studies on inland fisheries resources and fish culture were intensified. Work in connection with the establishment of well-designed and sufficiently large fish farms for conducting experiments in fresh and brackish-water fish culture, was initiated. A number of spawning grounds of Hilsa and other commercially important fishes of the Ganga, Hooghly and Narbada rivers were demarcated. Intensive fish tagging experiments conducted during the year yielded valuable information about the migration of fishes. The problem of providing fish passes in dams and barrages was given special attention. Field work on induced breeding of major carps was continued.

The technique of induced breeding by hormone injection was extended to the Silver and Grass Carps with success. The studies on suitable machinery for extraction and storage of pituitary hormone carried during the last few years revealed that tricholore acetic acid extraction retains the potency of the hormone for over two months.

**Central Marine Fisheries Research Institute, Mandapam, Madras State:** Further progress was made in the investigations on the commercially important marine fishes and detailed statistics of marine fish landings were collected and analysed. The racial composition of mackerel stocks and the age determination of the oil sardine received special attention. Studies on the catches and size composition indicated that the variations in the strength of year classes may cause fluctuations in the oil sardine fisheries. Studies to estimate the primary production in the seas were carried out at Calicut, Tuticorin and Mandapam and programme of tagging experiments on Mackerel and Prawns were initiated. The programme of marine biological and oceanographical studies on the West Coast, launched in co-operation with the Indo-Norwe-

gian Project, made further progress. A new research unit was opened for the Andaman and Nicobar Islands at Port Blair.

**Central Fisheries Technological Research Station, Kerala State:** The Processing Wing of the Central Fisheries Technological Research Station concentrated its studies on the development of new and improved methods of fish processing and fixation of suitable standards for preserved fishery products. The source of contamination of fishery products was investigated when it was found that major sources of contamination were the fishing craft and primary processing factories. On the basis of these findings proper handling and cleaning schedules were drawn up and communicated to the industry. Significant improvement in the quality was noted by the observance of the schedule.

A significant contribution of the processing wing of the institute was the finding that frozen shelf life of Sardines could be increased from two months under normal conditions to about six months by adopting suitable glazing. The Quality Control Section of the Station rendered advice to the industry on the improvement of the quality of export products. Compulsory pre-shipment inspection and quality control of frozen and canned prawns was introduced from 15th March 1965 under the controlling authority of the Central Institute of Fisheries Technology. The operation of the pilot plant with the experimental tunnel dryer has made available valuable data for the design and construction of commercial dryers. The Craft and Gear Wing of the Station completed the design studies on fishing vessels required for the Government of India fleet for the Third Plan. Besides the above institutions the National Institute of Oceanography with different units of Biological, Chemical etc. was set up at Ernakulam (Kerala).

## OFF SHORE FISHING

The work of the deep sea fishing stations with its 23 boats was orientated in connection with other Central Fishery Research Institute for effective exploration and exploitation of the fishing potential in the offshore waters. The exploratory fishing vessels operated from Veraval, Bombay, Mangalore, Cochin, Tuticorin and Vishakapatnam and landed 858.6 tonnes of fish valued at Rs. 3.1 lakhs during the ten months of 1965. The quick freezing plant, cold storage and ice factory, run by the Deep Sea Fishing Station, Bombay was transferred to the Govt. of Maharashtra.

The fishery research institutions were brought under the jurisdiction of the reorganised ICAR. (See Agriculture).

The Gujarat Government is setting up a marine biological research station at Okha at a cost of about Rs. 3.5 millions to deal with the problem of fishery biology, oceanography and marine biology with the help of UNESCO and other foreign institutions.

**Deep Sea Fishing:** During Jan.-Sept. 1965, seven vessels operated from Cochin, Cannanore, Karwar and Mandapam and landed 300 tonnes of fish valued at Rs. 0.42 lakhs.

**Marketing:** For the improvement of fish marketing, six refrigerated railway vans are running—two at Palasa (Orissa)-Calcutta route, two in Calicut-Madras and two in Vijayawada-Howrah. Three more such vans are under construction. These vans have highlighted the need for more such vans not only on these routes but on others as well. Arrangements are, therefore, being made for the construction of six more refrigerated vans.

To meet the urgent requirements of refrigerated road transport, arrangements were made for importing 26 road vans. A few such trucks were also fabricated locally.

**Cold Storage:** Six ice and cold storages were established one each in Gujarat and M.P., two each in Kerala and Orissa. Work on four freezing plants with provision for frozen storage one each in Andhra, Goa, Kerala and Orissa are being completed.

A Central Fisheries Corporation has been set up with headquarters at Calcutta. This has been registered as a Govt. company with an authorised capital of Rs. 5 crores. It will initially engage in marketing fish in Calcutta City, subsequently extending its activities to the whole country.

## TRAINING

The first two-year course for training district fishery Officers in all aspects of fisheries, both marine and inland was imparted at the Central Institute of Fisheries Education at Bombay. The ten-month course of training at the Central Inland Fisheries Station has been revised and expanded and 44 trainees including four overseer trainees received training during 1965-66.

For training fishermen there are centres at Satpati near Bombay, Veraval in Saurashtra, Cochin in Kerala and Tuticorin in Madras. New training centres are being opened at Mangalore in Mysore State and at Kakinada in Andhra Pradesh. At these centres batches of 20 candidates are admitted for 6 months training. The fishery extension units conducted short term training courses on various fishery subjects in which 2,744 persons were drawn from State Fishing Depts. & C.D. Blocks. Fish farmers also participated.

The Central Deep Sea Fishing Station at Bombay gives training in modern fishing methods.

At the Central Institute of Fisheries Operations, Ernakulam, the first batch of 25 trainees for the Master Fisherman's Certificate Course and 32 for the Engine Drivers Course completed their training. The Marine Products Training Centre, Mangalore (started with Japanese collaboration) provides training in canning, freezing, microbiology etc. A batch of 29 was trained and another 27 are undergoing training there.

Local fishermen numbering 140 were trained in mechanised fishing and Indian instructors and fishermen continued to receive training in powered fishing on board the I.N.P. Fishing Fleet at Cochin.

## FOREIGN AID

The FAO, TCM and the Indo-Norwegian Project continued to render assistance in the overall development of the fisheries programme and in the implementation of specific projects of both the Central and State Governments. The administration of the Project hitherto vested with the Kerala Government has been handed over to the Government of India since April 1963 and the headquarters shifted from Neendakara to Ernakulam.

The activities of the project has been extended to Mandapam in Madras.

The FAO, TCM and Indo-Norwegian Foundation continued to give valuable technical assistance. One harbour specialist continued work in connection with the development of fishing harbours in the States of Maharashtra, Kerala, Madras and Mysore under the Expanded Technical Assistance Programme of F.A.O. Two fisheries engineers worked on the Madras, Malabar, Kanara and Kathiawar coasts, on the introduction of new types of fishing gear, use of mechanised aids and the training of fishermen in their use. Services of 4 master fishermen were also obtained from Japan. Under the Indo-Norwegian Project, 90 boats of improved types were built and a new 25 ft. boat was designed. A fish marketing expert was engaged in formulating fish marketing schemes in co-operation with the States on a national basis.

## FISHING HARBOUR

The construction of the fishing harbours at Veraval (Gujarat), Nagapattinam and Cuddalore (Madras State) and Vishakapatnam is completed. Construction of such harbours at Porbunder, Umbergaon, Karwar and Bhatkal (Mysore), Baypore, Balipatnam and Vizhigum (Kerala) and Kakinada (A.P.) is in progress. Two F.A.O. experts, a harbour specialist and harbour economist are drawing up schemes for pre-investment

survey. An Indian engineer has been trained under FAO assistance.

### FISH SEED COMMITTEE REPORT

The 'Fish Seed Committee' was constituted in Jan. 1963 with seven members headed by Dr. B. S. Bimachar as Chairman.

According to their report, there are 40,54,359 acres of cultivable water areas in the country, including those to be reclaimed for culture purposes. Of these, about 15,19,787 acres only are utilised at present, while another about 9,59,487 acres, which are readily available for culture, are left unutilised. The reclaimable water area amounts to as much as 15,75,085 acres.

Only 61-30% of the readily cultivable water area in the country is presently utilised for fish culture.

Total fish seed production in the country during 1964-65 amounted to only 365.90 crores of spawn, 21.11 crores of fry and 9.90 crores of fingerlings. Riverine collection of major crop spawn still remains the primary source of spawn production in the country. Its contribution to total production being as much as 91.87%. On the other hand, induced breeding of major carps, bundh-breeding and scale carp breeding respectively contributed to only 1.57%, 5.38% & 1.26% of the total.

The total seed requirements for the presently cultivated waters have been estimated at about 550.59 crores of spawn, 165.18 crores of fry and 82.59 crores of fingerlings, as against the meagre 1964-65 production of only 365.90 crores, 21.11 crores and 9.90 crores respectively of spawn, fry and fingerlings. If all the existing readily cultivable waters are to be adequately stocked, the present level of seed production in the country becomes deficit to the extent of 579.69 crores, 219.66 crores and 102.90 crores respectively of spawn, fry and fingerlings. The cost of seed production varies widely from state to state.

Intensive development of inland fisheries in the Community Development Blocks, with special emphasis on establishment of nurseries and intensive stocking of fry fish culture had been undertaken in 3,062 blocks, out of 5,131 blocks in the country. The rate of fingerling supply per block increased from 7,835 in 1960-61 to 16,593 in 1964-65. This includes 222 blocks taken under Applied Nutrition Programme, organised with the assistance of UNICEF.

Even though murels are in good demand in several states, there is no organised murel culture anywhere in the country. It is recommended that in such of those waters where carp culture is not feasible, or where a fast multiplying forage fish like Tilapia has established itself, murel culture can be undertaken to the State's advantage. Vast areas of cultivable brackishwaters, which are potentially rich sources of fish production, remain unharnessed at present. The concerned states should give proper attention to the development of this resource.

Intensive exploration of riverine resources all over the country, for locating lucrative fish seed collection centres, should be taken up immediately on an organised basis by State Governments. The riverine spawn collection technique standardised by the Central Inland Fisheries Research Institute may be followed, with their help wherever necessary. The Central Inland Fisheries Research Institute should take up the work of improving the existing gear and evolving improved gear. The feasibility of transplanting desirable species of fishes and prawns to newer areas must be explored. Attention should also be paid to the location of areas of brackishwater fish seed concentrations, and collection of seed therefrom.

Attempts should be made by various states to construct and utilise dry bundhs, after the pattern followed in Madhya Pradesh, and to attempt bundh-breeding of carps in all the existing wet bundhs and similar perennial waters, since this appears to be the most economical method of seed production. Induced breeding of major carps through the administration of pituitary

hormones should be intensified and extended all over the country. The possibility of similar breeding of some other cultivable fishes, such as Bhetki and mullets, should be explored. The Central Inland Fisheries Research Institute should continue its work on the induced breeding of Hilsa and its culturability in impoundments. The possibility of establishing a series of pituitary gland 'banks' must be explored by State Governments.

The knowledge gained so far in the breeding of Scale and Mirror Carps should be made use of for the intensive culture of these fishes all over the country. The possibility of producing larger number of healthy trout fry by constructing artificial spawning channels should be explored by the concerned states.

Work on improving the existing methods of transportation of fish seed and breeders should be taken up immediately. The need for improving the existing types of containers should also be looked into.

The Railway Board should be approached for providing sufficient number of special bogies at all important seed production centres and to provide more accommodation in faster trains. The Indian Airlines Corporation should be requested to allow concessional rates for air transport of seed and to provide more accommodation by planes. The Ministry of Transport and Communications should be approached to provide necessary facilities for loading fish seed in private planes at Dum Dum Airport. It is proposed that a perforated cup of fixed capacity, say 150 ml., be introduced as a standard measure throughout the country for measuring spawn and dry. Immediate steps should be taken by the states to establish adequate nursery and rearing farms to cover all regions of the state. The relative merits of different types of nurseries must be tested in statistically designed experiment by the Central Inland Fisheries Research Institute. Efforts should be made to bring under fish culture all the presently unutilised readily cultivable waters by the end of IV Plan period. The present low stocking rates prevailing in most parts of the country should be raised to the optimum level. Attempts should be made to convert available brackishwater areas into suitable fish farms.

### FOURTH FIVE YEAR PLAN

At the beginning of the Third Plan the baseline production was estimated to be 14 lakh tonnes. This was sought to be raised to 18 lakh tonnes by the end of Third Plan period. In 1961-62, however, the estimate of base line production was revised to 9.73 lakh tonnes and the target of production for 1965-66 was set at 11.5 lakh tonnes consisting of 8.5 lakh tonnes of inland water fish and 3.0 lakh tonnes of marine fish. The actual achievement during 1965 was 13.31 lakh tonnes (6.07 inland and 7.24 marine). The outlay for fisheries in Third Five Year Plan which was Rs. 24 crores is proposed to be increased to Rs. 113 crores in IV Plan. The production of fish is expected to increase from 11.5 lakh tonnes in 1965-66 to 15.3 lakh tonnes in 1970-71.

Deep sea fishing has undergone extensive and rapid technological progress abroad. As India's marine resources are rich in fish, stress was laid in the Third Plan on introducing technological changes to improve marine fishing capabilities. In the Fourth Plan, further stress will be laid on raising the technological status of the industry and expanding the fisheries cooperatives so that they may play an increasingly important role in production and marketing. It is proposed to acquire 200 trawlers, construct 8,000 mechanised boats and increase the output of other ancillary equipment for off-shore and deep sea fishing in particular. It is proposed to develop fishing harbours, set up more ice and cold storage plants and provide refrigerated vans for long distance transport from the points of landing to the points of consumption. In respect of inland fisheries, the major part of the increase in production is expected to be derived from presently unutilised but potentially rich water areas, intensive exploitation of existing culturable

waters, reclamation of derelict water areas and other measures.

Facilities for research and training as important adjuncts to development, will be expanded to accelerate the pace of conversion from traditional methods to modern mechanised methods of exploitation of fisheries. These include strengthening of the Central Marine Fisheries Research Institute at Mandapam, the Inland Fisheries Institute at Barrackpore, the Fisheries Technological Institute at Ernakulam, and the off-shore fishing stations at several places. The Central Fisheries Operatives Institute at Cochin and the Central Fisheries Education Institute at Bombay will be enlarged to provide greater training facilities for personnel engaged in different areas of the industry.

### ANDHRA PRADESH

Andhra Pradesh has a coast-line of about 600 miles. The continental shelf extends to 20 miles on an average with a fishable area of 12,000 sq. miles. There are 350 fishing villages in seven marine districts of A.P. with 1,80,000 fishermen having 20,000 boats and 61,000 fishing gear.

The fish production of the State is estimated at 1,58,000 metric tons of marine fish and 84,500 metric tons of inland fish annually. Fisheries contributed more than Rs. 13.2 crores during 1961-62 to the State income.

The training of 25 fishermen of the 22nd batch was commenced from August 1964 in the Fisheries Training Institute. The Institute has now been upgraded and a post-graduate diploma course in Fisheries was expected to be started from the academic year 1965-66 with a strength of 20 students.

Up to April 1965, 254 mechanised boats had been constructed. Of these, 91 mechanised boats had been distributed to fishermen. For 1965-66, an amount of Rs. 8.34 lakhs had been provided in the Budget for the construction of mechanised boats.

**Marketing:** Fish is being exported to Orissa and West Bengal. By the export of fish to West Bengal, there is substantial saving in foreign exchange expenditure due to import of fish from Pakistan.

**Deep Water Netting:** During 1963-64, nine deep water netting units were in operation in various reservoirs in the State and the total catches upto Jan. 1964 were 0.70 lakh kg. of fish.

**Cooperatives:** There are 472 fishermen cooperative societies with a membership of 49,643 and a share capital of Rs. 5,43,237 including six Marketing and 2 Apex Central Societies.

**Third Plan:** Fisheries secured Rs. 106 lakhs out of the total Plan investment of the State. In view of the development shown under fisheries during the first and second years of the Plan, the ceiling was increased to Rs. 1.31 crores and the number of schemes also increased to 33.

### GUJARAT

Gujarat has a coast line of over 1,000 miles extending from Lakhpat in the north to Umbergaon in the south. It has a total fishable area of 26,000 sq. miles including the Gulf of Kutch and Gulf of Cambay.

There are 51 important fishing ports and 125 other small roadsteads and fishing hamlets. No. of fishermen 2.5 lakhs; no. of active fishermen 30,000; no. of fishing vessels used in estuarine, coastal and offshore fishing: about 4,400 ranging from 1 to 15 tons. Total capital invested in fishing boats, engines, fishing gear and other accessories by fishermen and their co-operatives amounts to Rs. 2.5 crores.

Total landings in 1965-66: 1 crore metric tonnes worth Rs. 3.00 crores. Local consumption in the State: 16,000 tons. Balance is exported to Bombay, Delhi, Calcutta, Ceylon, Burma, Mauritius and Singapore. Value of fish exported to foreign countries: Rs. 10 lakhs.

**More important landings of the State on the basis of value :** Bombay ducks Rs. 1.3 crores; Pomfrets Rs. 78.5 lakhs; Indian Salmon and Jew fishes Rs. 14.8 lakhs; Prawns and shrimps Rs. 14.8 lakhs; Perches and Hilsa Rs. 18.2 lakhs; Shell fishes including pearls, chanks, cuttle-bones, window pane oysters and other marine sea shells Rs. 1.5 lakhs. Other miscellaneous fishes including sharks and rays, mullets, cat fishes, etc. accounting for Rs. 34 lakhs. The State also produces about Rs. 3.5 lakhs worth of fish isinglass for export to U.K. and Rs. 3 lakhs worth of fish meal and fish fertilizer and 1 lakh lbs. of shark liver.

**Important fishing ports :** Bifurcated Surat District : Umbergaon, Daman, Billimora, Navsari, Borsi, Umarsadi, Kolak, Bulsar, Bhadeli-Jagalala, Kosumba, Surat; Broach District : Broach, Bhadbhut, Kavi, Sarod; Amreli District : Madhvad, Kotda, Velan; Junagadh Dist. : Veraval, Porbunder, Mangrol, Navibunder, Chorwad, Jaleshwar, Hirakot, Sutrapada, Dhamlej, Navabunder, Rajpara; Bhavnagar Dist. : Bhavnagar, Ghogha; Jamnagar Dist. : Okha, Bedi, Salaya, Sikka, Jodiya; Rajkot Dist. : Navlakhi, Maliya; Kutch Dist. : Chero-vari, Lakhpat, Jakhau, Modhwa, Kandla, Kharirohar, Tuna, Rampara, Luni, Sekhdia, Mundra.

Inland fisheries is restricted to the districts of Baroda, Kaira, Panchmahals, Mehsana, Sabarkantha, Banaskantha, Broach, Surat and Dangs. There are 2,300 fishermen engaged in inland fisheries. Twelve lakhs of fish seed of major carps were collected from rivers like the Narmada, the Tapi etc. and supplied to the pisciculturists during 1965-66. Two fish farms and five fish nurseries have been established.

Per capita earning of fishermen: Rs. 875 a year.

**No. of ice factories 83; ice production 1,027 tonnes a day; no. of cold storages available 11; no. of mechanised boats: 1,138 (June, 1965). Quantity of fishing twine supplied: 40,000 kgs. One Fisheries Staff Training Centre at Ahmedabad to train 18 candidates per year; service stations 3; fishery schools: one each at Baroda, Bhadbhut, Umarsadi and Kolak; Cultural centres 27; shark liver oil extraction centres 4; fish meal plant: one at Jaffrabad; Govt. of India institutions in the State: Marine Fisheries Research station at Veraval; Survey Centre at Veraval; Offshore Fishing sub-station at Veraval; Central Institute of Fisheries Technology at Veraval.**

### Third Plan Achievement

A fish meal plant provided in the Second Plan, is working at Jaffrabad. Veraval fishing harbour development at a cost of Rs. 50 lakhs and the Kandla fishing harbour have been completed. A canning plant is being operated by a co-operative association for canning Shrimps and other fishes. Canned Shrimps are exported to foreign countries.

The Gujarat Fisheries Central Co-operative Association Ltd., formed in the Second Plan has constructed one cold storage, procured one freezing plant, constructed one fish godown, one boat building yard and one nylon twisting-cum-net making factory at Ahmedabad. Annual production: 1,00,000 lbs. of twine and 25,000 lbs. of netting. Total cost of the plant: Rs. 9 lakhs.

The State has 84 co-operatives with about 14,400 members.

The expenditure under the Third Plan was Rs. 1.81 crores.

A research wing has been opened in the Directorate to conduct research on the offshore fisheries. Three research vessels operating from 1962 have located excellent fishing grounds for prawns, perches etc. off the coast. A Marine Biological Research Station at Okha at a total cost of Rs. 14.39 lakhs has been sanctioned and the first phase of the work has been completed. A Technological Research Unit has been established at Jaffrabad for improving the quality of Bombay Ducks.

## KERALA STATE

Kerala State, the smallest maritime State in India with 590 kms. of sea coast, contributes to a little over 30 per cent of the total seafood landed in India. Oil Sardine (*Sardinella longiceps*) and the Indian mackerel (*Rastrelliger canagurta*), the two most important shoaling fishes of the west coast contribute to the major fishery of the Coast, the third important constituent being prawns. The fishing equipment consist of nearly 13,000 big and small non-mechanised canoes, over 8,000 catamarans besides nearly 1,000 mechanised boats using over 50,000 fishing gears of different types and sizes, thousands of hooks and lines, besides many mechanised boats.

The estimated landing of all fish in the State is about 2,21,913.7 m. tonnes of which 6,385.5 m. tonnes are contributed by inland water fishes the rest being sea fishes. This quantity is valued at about Rs. 5,85,66,316 of which Rs. 36,64,102 are from inland fisheries. About 20 per cent of the people are estimated to be fish eaters. At the most only 55 per cent of the total production is consumed as fresh fish, 26 per cent as dried and the rest is converted as fish manure or fish meal. The important items of fishery exports are frozen, canned and dried fish.

Along the coast there are 67 fish curing yards, some of which are provided with hygienic fish curing sheds, and salt is issued at a subsidised rate.

There are four Fishermen Training Centres at Cannanore, Ernakulam, Vizhinjam near Trivandrum and Beypore to train able bodied fishermen in the use of mechanised fishing crafts and modern fishing equipment. 1,454 persons underwent training till date. Mechanised boats, Nylon etc. are distributed at concessional rates through the Fishermen Co-operative Societies and Malsya Ulpadaka Co-operative Societies.

There are at present 265 primary fish producers' co-operative societies and 191 credit societies. There are 8 Regional Marketing Societies at Kozhikode, Vypeen, Neendakara, Karunagappally, Ernakulam, Alleppey, Anjengo and Vizhinjam.

The headquarters of Indo-Norwegian Project is at Ernakulam. The Indo-Norwegian Project helps in the development of fishing in this State at Cannanore. The programme of activities consists of construction of Fishermen Training Centre, Boat Building Yard, Freezing Plant and a fishing harbour at Mopla Bay.

There are eight ice & cold storage plants in the public sector working at Vizhinjam, Neendakara, Kayamkulam, Cochin, Calicut, Bhangad, Tanur and Madai. In addition to four Government freezing plants there are 11 private freezing plants also.

There are four research stations in the State engaged in the research of marine, estuarine and fresh water fishes. In addition, there are two research stations sponsored by the I.C.A.R. to conduct research on lime shell and giant fresh water prawns. There is a Fisheries Technological Station at Calicut conducting research on fishery by-products and other technological aspects. This station manufactures fish meal, fish manure and semi-dried prawn as well.

There are four brackish water fish farms, one fresh water fish farm and nine major reservoir fishery centres.

The financial outlay for fisheries development in the State during the Fourth Plan is tentatively fixed at Rs. 10.25 crores.

## MADRAS

Madras State has a coastline of 1,000 Kilometres with 9,000 square miles of inshore waters and a continental shelf of about 20,000 square miles and about six lakh acres of inland waters. There are about 3.5 lakhs of fishermen spread over 415 inland and 308 marine fishing villages of the State. There are at present about 28,000 catamarans, 817 mechanised fishing boats, and about 82,000 fishing nets of different types and 2,13,000 hooks and lines.

The estimated landings of marine fish in 1964-65 were about 1,60,218.578 M. Tons valued at Rs. 1,785.34 lakhs. The estimated landings of inland fish from various inland waters during 1964-65 were about 99,568.436 M. Tons valued at Rs. 555.07 lakhs.

The four marine biological stations, Ennore, Krusadai Island, Tuticorin and Cape Comorin, the two technological stations at Tuticorin and Cape Comorin and the Fresh Water Biological Station and Hydrological Station at Bhavansagar continued fisheries research.

The Pearl and Chank fisheries of the gulf of Mannar are state monopolies and yield substantial revenue besides supporting a large population of skilled divers. About five lakhs of chanks are fished every year.

The annual value of shells collected and sold will be about Rs. 15 lakhs.

Furthermore Madras State off its Ramnad coast is in possession of myriads of multi-coloured fancy Marine Shells. One could see in Rameswaram temple over 200 shell booths displaying an endless variety of shells, polished, carved, etched, lacquered and painted with different artistic designs. Also countless numbers of dainty articles of commerce such as toys, dolls, ash trays, pendants, buttons, handles, pins, brooches, bangles, rings etc. are manufactured. Chanks are exported to West Bengal.

The coral fisheries of Madras State which would supplement the limestone deposits on land in the State are inexhaustible. Coral islets are many off Ramnad and Tirunelveli coast. Corals are at present dug out in the sea.

A quantity of 1,596.21 lakhs of fingerlings was collected for the period upto 1964-65. The production of fish seed has been stepped up by adopting the modern technique of induced breeding by hormone treatment. Nurseries and rearing ponds have been set up.

For providing suitable landing and berthing facilities, the construction of first stage of Cuddalore harbour and a boat jetty at Pulicat were completed.

Twenty-five Curing Yards are maintained by the Government wherein good quality salt is supplied to fishermen at subsidised rates for curing fish hygienically under the technical supervision. A quantity of 22,082 M. Tons of cured fish was let out from the yards for the period upto 1964-65.

Cold Storages are provided in important fish landings centres and at fish markets.

A canning factory is working at Tuticorin.

This Department owns a fleet of eleven vehicles for the fishermen cooperative societies.

The Fisheries of major reservoirs formed by hydel and irrigation projects are taken over by the Fisheries Department to develop the fishery wealth.

There are 177 inland and 221 marine fishermen Co-operative Societies, 7 fishermen Co-operative Federations and 7 fishermen Co-operative Markets with about 47,765 members on their rolls with a paid up share capital of Rs. 5.61 lakhs. Long term and medium term loans extending over a period of 10 years and 5 years respectively are issued to these societies. A sum of Rs. 9.67 lakhs has been sanctioned as loan for the period upto 1964-65.

There are three Fisheries Training Centres at Tuticorin, Nagapattinam and Madras training 20 fishermen per batch. One training centre for training the service personnel in the Department, was opened at Madras. Another training Centre for training inland fishermen in reservoir fishing was also established at Mettur Dam.

The craft Research Unit at Tuticorin is conducting experiments on the fishing crafts and studies on the development and possibility of mechanising all country crafts.

An aquarium is located at Madras.

## MAHARASHTRA

**Fishery resources:** Marine resources of the Maharashtra State comprise the Arabian Sea of 720 km. long coast line, extending from Reddi in the south and ending at Zal in the north and aligning the maritime districts of Thana, Kolaba, Ratnagiri and Greater Bombay.

Fresh water resources comprise nearly 3,200 km. of rivers and 2,33,000 acres of ponds, lakes and reservoirs. Comparatively, estuarine resources containing brackish water are less extensive and comprise several creeks at Versova, Bassein, Manori, Bombay Harbours, Revdanda, Janjira, Dabhol, Bankot, Jaitapur, Jaigad, Vijaydurg etc.

**Estimated production and valuation:** Catch of fish from marine resources was estimated at 2,09,000 tonnes and that from inland resources was estimated at 12,000 tonnes during the year 1964-65.

Value of catch to producers was estimated at Rs. 8.89 crores during the year 1964-65.

**Fishermen's population:** Population of fisher community is about 2 lakhs of which there are 57,000 fishermen, actively engaged in the industry. There are 37,000 in marine fisheries and 20,000 in inland areas, some of them partly engaged in fishing.

**Fishing crafts:** Total number of vessels: 9,130; Vessels below 3 tons: 6,600; Vessels above 3 tons: 2,530; Vessels mechanised: 1,790.

**Marine Fisheries:** Important fishing villages: **Greater Bombay:** Lower Colaba, Worli, Danda, Versova; **Thana District:** Bassein, Arnala, Uttan, Edvan, Usarni, Satpati, Navapur, Ucheli, Navgaon, Dativre; **Kolaba District:** Karanja, Versoli, Alibag, Theronda, Revdanda, Murud, Shrivardhan; **Ratnagiri District:** Burundi, Dabhol, Jaigad, Ratnagiri, Vijaydurg, Jaitapur, Malwan, Devbag, Vengurla.

**Important varieties of marine fish, and Shell fish:** Saranga (White pomfret), Halwa (Black pomfret), Ghol (Jew fish), Dara (Giant thread fin), Rawas (Indian salmon), Kupa (Tuna), Surmai (Seer fish), Bol (Mullet), Bombil (Bombay duck), Bangda (Mackerel), Mushi (Shark), Wam (Eel), Shingada (Catfish), Karkara (pristipoma), Tarli (Sardine), Mandeli (Golden anchovies), Wagti and Ball (Ribbon fish), Kolambi (prawn), Karandi (Shrimp).

**Fishery survey:** Four medium sized trawlers of the department have completed survey of 8,200 sq. km. of sea, between Vengurla and Murud. The survey indicated 3,328 sq. km. of sea area off Ratnagiri District coast and 1,409 sq. km. area off Kolaba coast, can be gainfully exploited, with trawl nets.

**Trawler fishing:** Based on the findings of survey vessels of the department 71 mechanised vessels have successfully taken to trawling in the private sector. Besides, the department has added four 36' trawlers for exploitation of deeper and farther seas, two will be given to fishermen's co-operatives on hire and two will be operated departmentally.

The Government of India's deep sea fishing station operates trawlers in Bombay waters. The vessels landed 455 tonnes of fish in 1964-65. Messrs. New India Fisheries conducted trawling operations off Bombay and landed 1,060 tonnes of fish in the year 1964-65.

**Landing and harbour facilities:** Fishing ports along the coast of Maharashtra were surveyed with a view to assessing the requirements to improve the landing and harbouring facilities.

**Fresh water fisheries:** Important varieties of fresh water fishes: Tambir, Khalashi, Kanoshi, Pangat, Murrel, Shivdas, Catla, Rohu, Mrigal, Calbasu, Kharbi, Khavli, Shinghala.

**Major carp culture:** As many as 1,20,00,000 baby fish of Catla, Rohu and Mrigal were imported from West Bengal in the year 1965-66 and released in long seasonal and perennial waters in the State.

In the year 1965-66, as many as 1,30,00,000 spawn was produced as a result of induced spawning experiments.

Additionally collection of fry from the rivers is also undertaken, particularly around Kolhapur and Bhandara. During the year 1964-65, nearly 75,000 fry and 35,000 fingerlings of the economic variety of fish, named Tambir, were collected.

**Reservoir fishery:** Main reservoirs in the State covering 1,25,000 acres of water spread are stocked with fingerlings of major carps every year, with a view to establishing possible sources of their natural breeding eventually to become a source of supply of fry.

**Fish farms:** The three fish farms one each in Bhandara, Kolaba and Poona districts and 30 nursery units serve as a composite unit for demonstration of scientific methods of fish culture, biological studies of culturable varieties of fishes under controlled conditions and fish seed production centres.

**Fisheries Technology:** Technological work on fisheries is carried out at the Fisheries Technological laboratory at Sassoon Docks. The laboratory conducts research on development of new fish products, improvement of traditional products and handling and processing of fish. It also operates commercial schemes of manufacture and sale of shark liver oil products such as sharkovit, sharkomalt, elasmol pearls, elasmol liquid etc., fish meal, fish glue, and pearl essence. The laboratory is also authorised by the Government of India, for testing samples under compulsory pre-shipment quality control scheme for fish and fishery products.

In the year 1965-66, sale proceeds of Shark Liver Oil products amounted to Rs. 21,80,855. The production of neat shark liver oil with Vitamin 'A' potency of 10,000 I.U. was 35,118 litres.

The departmental fish canning plant, commissioned into service in October 1964, produced 18,843 fish cans in the year 1965-66.

The fish meal plant of the Government of India, was taken over by the State Government in August, 1965. The plant is equipped with a cooker-cum-dryer which is capable of heat treating the fish meal to a temperature lethal to harmful bacteria.

There are at present 66 ice factories and cold storages in the State with cold storage capacity of 1,600 tonnes.

Government continues to grant financial assistance on the basis of 1st subsidy and 1st loan to fishermen's co-operative societies for establishment of ice factories, cold storages and quick freezing plants. So far three such factories have been established at Malwan, District Ratnagiri, Satpati, District Thana and Versova, District Greater Bombay. Financial assistance has been sanctioned to two more co-operative societies of fishermen for establishment of ice factories and cold storages at Arnala and Palghar.

The department continued operation of ice factory, cold storage and quick freezing plant at Sassoon Docks, an ice factory and cold storage at Ratnagiri and a cold storage at Nagpur. Work to establish an ice factory and cold storage at Alibag and Bassein is in progress. A mobile flake ice plant is being operated at Nagpur under the special development programme for fisheries; capacities of factories at Sassoon Docks and Ratnagiri are being increased and new factories are being established at Murud, District Kolaba, Vengurla, District Ratnagiri.

Government Fish Curing Yards, 21 in the Ratnagiri District and one in Kolaba District, continued to afford facilities for salt curing of fish in hygienic conditions. During the year 1964-65, 2,000 tonnes of salt was issued at the yards for curing 7,200 tonnes of fish.

**Marketing of fish:** In the Greater Bombay District, there are 2 wholesale fish markets and 60 retail markets. Total quantity of fish sold in the Bombay city is approximately 35,000 tonnes. The volume of dry fish trade conducted from the Bombay city is worth Rs. 4,00,00,000. About

20 per cent of fresh fish brought to city is marketed through co-operative societies.

During the year 1965-66, five trucks were allotted to five societies of fishermen. From the inception of the scheme subsidy of Rs. 1.84 lakhs and loan of Rs. 7.53 lakhs have been granted to 20 co-operative societies, for purchase of 27 transport trucks.

The fisheries department maintains 13 fish stalls in Bombay.

The State Government has sanctioned subsidy of Rs. 32,833 and loans of Rs. 4,00,000 to the Maharashtra Rajya Machhimar Sahakari Sangh, the apex body of fishermen, to enable it to undertake marketing of dry fish and preparation and sale of fish meal.

**Fishery education:** Education of fisher-children and fisher-youths occupies an important place in the activities of the fisheries department. The department has under its control eight fisheries vocational schools, one each at Satpati and Navapur, District Thana, Karanja and Bagmandia in the Kolaba District, Ratnagiri, Jaitapur, Deobag and Tarkarli in the Ratnagiri District. Total Number of pupils in these schools is about 4,000. No fees are charged to pupils and text-books are provided to deserving pupils free of charge.

The Fisheries Department has also established a fisheries high school at Satpati, District Thana.

The departmental training centres are established at Versova, Ratnagiri, Alibag, Kolaba and Bassein.

Refresher courses of one month duration have been started recently at Satpati, Ratnagiri, Alibag and Bassein for the benefit of fishermen who have already mechanised their fishing vessels. During the year 1965-66 thirty-five candidates were trained.

**Government's assistance to the fishing trade:** Financial assistance: Loan of Rs. 41.68 lakhs and subsidy of Rs. 24.65 lakhs were disbursed during the year 1965-66 for development of the industry.

The assistance so far granted is to the tune of Rs. 355.17 lakhs of which Rs. 134.67 lakhs are subsidy and Rs. 220.50 lakh loan.

**Reservation of lands:** Government have taken a decision to give preference to the needs of the fishing industry while disposing off non-agricultural shore lands.

**Incentives:** As an additional incentive for fish farming, subsidy is being given on purchase of carp-fry, fish manure and for desilting and improving tanks for fish culture. Subsidy is being granted to fishermen's co-operative societies who export frozen fish to foreign countries.

**Taraporevala Aquarium:** The Taraporevala Aquarium continues its popularity as a centre of recreation and education. During the year 1965-66, 6,90,046 persons including foreign dignitaries visited the aquarium.

**Research & Investigation:** The fisheries department has well equipped research stations at Bombay and Ratnagiri, where research work is carried out on fisheries of regional importance and such aspects of marine biology as have a direct bearing on fisheries. The Station at Bombay is affiliated to the University of Bombay for post-graduate studies in Zoology while the Ratnagiri station is affiliated to Shivaji University. This station is provided with a research vessel 'Mysis' for undertaking hydrobiological studies at sea.

**Third Five Year Plan:** As against provision of Rs. 178.32 lakhs (nett) which was made for undertaking 26 schemes during the Third Plan period, a sum of Rs. 257 lakhs approximately was actually spent. Due to implementation of the production oriented schemes, the fish production from marine resources rose from 1.7 lakh tonnes to 2.1 lakh tonnes and that from fresh water resources, rose from 10,000 tonnes to 12,000 tonnes.

**Fourth Five Year Plan :** Total allocation for the Fourth Five Year Plan is Rs. 1,004 lakhs. During this period twenty-three schemes will be operated. Establishment of a fisheries corporation, and assistance for housing of fishermen are the two important new schemes that will be undertaken during the Fourth Plan period. At the end of the Fourth Plan, the marine fish production is expected to rise from 2.1 lakh tonnes to 3.1 lakh tonnes.

**Budget :** Initial budget of the department for the year 1966-67 is for Rs. 2,59,45,100.

## MYSORE

**Inland Fisheries :** There are about 30,000 minor tanks, 2,700 major tanks, 17 reservoirs and about 3,800 miles of rivers in the State.

**Inland Fisheries development is extended to all over the State and more and more inland fishery resources are being exploited.**

**Artificial Fish Breeding Centres :** Tungabhadra fish farm, Hessarghatta fish farm, Neerasagar fish farm, Vanivilas Sagar fish farm.

An Inland Fisheries Research Station has been started at Bangalore with field laboratories at important inland centres.

The estimated fish production at present from the inland resources is nearly 35,000 metric tons and the revenue in the form of direct realisation from exploitation of fisheries, through the sale of fishery rights, issue of licences, etc., is about Rs. 1,31,570.

**Acreage of inland waters in the State is 10,20,000 (approximate).** Inland fishermen population is estimated at 6,00,000.

**Marine Fisheries :** Mysore State has 200 miles of coast line on the Arabian Sea. All along this sea coast, there are many fishing villages, the most important of them being Karwar, Ankola, Kumta, Honnavar, Bhatkal, Majali, Bingi, Chendia, Gangolli, Malpe, Udiyavar, Bokapatnam and Mangalore.

More than 40 varieties of sea fishes are landed out of which the most important are Sardine, Mackerel, Seer and Sharks and Prawns. The total fish production on Mysore coast is over 20 per cent of India's marine fish production.

Thus, the marine fisheries confined to North and South Kanara can be regarded as one of the richest regions in India.

**Value of fish exploited :—**

**Quantity of fish in metric tons and the approximate value :—**North Kanara : 73,358 ; Rs. 2.81 crores ; South Kanara : 42,225 ; Rs. 2.21 crores.

There are about 20,000 fishermen actively engaged in fishing, about 6,500 boats and about 37,000 nets. The number dependent on the fishing industry is estimated at over 1,00,000.

**Average catch per fisherman per annum on Mysore coast : 5.75 tons.**

**Capital value of the industry together for North and South Kanara districts is estimated at Rs. 2.5 crores.**

**No. of fish curing yards :—**North Kanara : 15 ; South Kanara : 15.

The total Third Plan outlay was Rs. 130 lakhs.

During the Third Plan, the activities of the Indo-Norwegian Project were extended to Karwar. Under this project, work on providing harbour facilities, training of fishermen, boat construction and setting up of processing facilities have been taken up. At the Marine Products Processing Training Centre, Mangalore, training of technicians in fish (food) processing technology has been taken up.

The strength of the training centre at Mangalore was increased and a second training centre was opened at Karwar. Under the Special Development Programme, two more training centres are proposed at Gangolli and Honnavar.

In 1966, there were 198 lakh fry and finger, 29 fish nurseries, 199 mechanised boats and vessels, 14 ice and cold storage plants and 99 fisheries co-operatives.

## ORISSA

**Kinds of sea fish caught :** White Balts, Silver bellies, Jew fish, Seer fish, Ribbon fish, Perches, Sardines, Mackerel, Flat fish, Silverbar, Glass fish, Pomfret, Bombay duck, Catfish, Threadfins, Sharks, Rays, Skates and Eals, many types of clupeids like Pelone, Megalops, Indian shed etc. besides crustaceans such as Prawns and Lobsters.

**Kinds of estuarine fish caught :** Hilsa, Megalops, Elopes, Perches, Mulletts, Milk fish, Catfish, Threadfins, Pomfrets, Shrimp, Croackers, Sawfish, Sharks, Rays etc. besides crustaceans like Prawns and Crabs.

**Kinds of Inland Fish caught :** Major Indian Carpe, such as Rohu, Mrigal, Catla and Calbasu, the minor carps, Mahaseer, Catfishes like Wallago (Boalish), Silondia, Pangus, Mystus, Bagarius, Perches, Murrels, many types of mud fishes, minnows, feather backs etc.

**Important Marine fishing centres :** Pattisonapur, Markandi, Gopalpur, Prayagi, Aryapalli in Ganjam district. Arkhakuda, Puri and Konark in Puri district, Paradeep in Cuttack district, Chandnipal, Aruhabad, Eram, Chandipur and Kirtania in Balasore district.

**Important Estuarine Fishing centres :** Sonapur and Surala (Bahuda estuary in Ganjam Dist.). Damodarapur and Gajapatnagar (Rusikulya estuary in Ganjam). Rambha, Keshpur, Chilka, Balugaon, Gangadharpur, Kuhuri, Kaluparaghat, Bhusandapur and Satpara in Chilka area. Astaranga and Machagaon in Devi river estuary, Kujanga, Jatadhara and Hookitola in Mahanadi estuary, Satbhaya, Chandnipal, Karanjmal in Dhamra estuary and Kirtania in Subarnarekha estuary in Balasore districts.

**Important inland lake and reservoirs :** Hirakud reservoir in Sambalpur district, Ansupa lake in Cuttack district, Bhanjanagar and Surada reservoir in Ganjam district.

**Spawn Collection in Orissa Rivers :** Spawn (Hatchlings) are collected from the river system of Mahanadi, Brahmani, and Subarnarekha. At Govt. level 3 major spawn collection centres operate at Naupatna Pathapur and Kendupatna in river Mahanadi in Cuttack Dist.

**Processing Plants :** Fish canning factory—Majhidiha ; Fish freezing plant-cum-frozen storage—Majhidiha, Paradeep.

**Preservation :** In Orissa there are 8 ice plants-cum-cold storage in Marine and Inland fishing centres, 12 walkin coolers for preservation in smaller quantities and 2 mobile flake ice plants.

**Transportation :** There is a refrigerated van, besides a few insulated vans for special fish transport.

**Marine fishermen cooperative societies (District-wise) :** Balasore—Paschimbad, Adhuan, Aruhabad and Balasore ; Ganjam—Sonapur, Pattisonapur, Gopalpur, Markandy ; Puri—Puri.

**Important Inland Fish farms :** Kausalyaganga, Brickfield (Puri), Pipili, Laxmisagar, Kiakanland and Karanja (Baranga) in Puri District ; Chaudwar, Killa (Cuttack), Barimul and Jajpur in Cuttack District ; Dighi (Balasore), Amarda, Kathapal (Mayurbhanj), Digdan (Keonjhar Dist.), Angul (Dhenkanal Dist.), Sambalpur, Barapalli and Bomlei (Sambalpur Dist.), Bolangir and Sonepur (Bolangir Dist.), Humari, Berhampur, Belguntha, Parlakhemedi in Ganjam district, Jeypore in Koraput Dist. Bhawanipatna and Kokasara in Kalahandi district, Phulabani in Phulabani Dist.

### Production during Third Plan

Marine fish (edible) production by State Government during the Third plan : 1,846 tonnes ; Production of fish meal : 44 tonnes ; Production of canned fish : 4.5 tonnes ; Production of riverine spawn (in cups) : 17,747 ; Production of induced breeding carp spawn (in cups) : Pituitary 485, Cy. carpio 622 ; and Distribution of Fry (including Cy. carpio) : 7,76,82,000.

**Aquarium :** There is a small experimental aquarium attached to the Fisheries Department at Cuttack.

**Research :** A fresh water biological station has been established at Kausalyaganga in the district of Puri. Applied field research in Inland Fisheries is carried out at Kiakan (Puri), Kathpal (Mayurbhanj), Dighi (Balasore), Narayansagar Angul (Dhenkanal), Humari (Ganjam), and 20 other fish farms. Field research on marine fish farming is carried out at Khiragachamadeli (Paradeep), Keshpur and Sonapur fish farms in Ganjam district and Dhobali farm in Puri district.

Research has been completed on the manufacture of agar-agar and hydrolysed protein. Production of biscuits and tablets from concentrated fish protein is in progress.

Applied research is being continued on breeding of carps, life history of mullets, utilisation of weeds as compost, improved crafts and gears, freezing of fish, canning of prawn and fish, cultural practice of fish, rearing, growth and survival of fish by use of inorganic manure, on the new types of fishing gears with synthetic twines, culture and biology of mullets in brackish waters, culture of glaciaria, experiments on extraction of Iodine from chilka weed. Research has been taken up on electrical fishing gear and induced breeding of estuarine fish.

Budget allotment—1966-67 : Rs. 66,13,800.

## WEST BENGAL

**Kinds of sea fish caught :** Pomfret, Bhetki, Mackerel, Prawn, Topoi, Hilsa, Chanda, Bhola, Bombay Duck, Ribbon, Shark, Raya, Rock Cod, Skate, Eel, Cat fish, Phasa, etc.

Total quantity of fish caught in 1964-65 53,000 tonnes (based on international production only).

Total value of the sea fish caught in 1963-64 : Rs. 8,40,000.

Price per Kg. of different kinds of fish in March 1964.

| Varities     | Maxi-<br>mum | Mini-<br>mum | Average |
|--------------|--------------|--------------|---------|
|              | Rs. P.       | Rs. P.       | Rs. P.  |
| Carps ..     | 4.00         | 2.54         | 3.27    |
| Hilsa ..     | 3.50         | 2.40         | 2.95    |
| Bhetki ..    | 3.25         | 2.50         | 2.88    |

| Butter ..    | 2.74         | 1.50         | 2.12    |
| Lobster ..   | 4.60†        | 3.42†        | 4.01†   |
| Shrimps ..   | 1.25         | 1.00         | 1.13    |
| Prawn ..     | 3.00         | 0.67         | 1.84    |
| Live fish .. | 5.33         | 3.34         | 4.34    |
| Misc. ..     | 2.00         | 0.67         | 1.34    |

† Figures for 1963.

Approximate strength of the fishing population : About one lakh (1961) plus two per cent increase per year.

Potential demand for fish in the local market : 5,92,000 metric tonnes (the State as a whole).

Gear used : Grill net, Drift net, Drag net, Fixed net, Herring trawl etc.

Ancillary industries like shark liver oil, gelatin, glue, fish-meal, and their production : One scheme for production of shark liver oil, fish-meal, processed fish and utilisation of other fish by-products is operated at Contai coast.

Production of fish bye-products during 1964-65 :

Shark Liver Oil 2,376 litres ; Fish Meal 42,150 kg. ; Fish Fertilizer 286 kg. ; Fish Food Manure 5,025 kg. ; Shark Flesh Dried 87 kg. ; Poultry Food 1,500 kg. ; Fish Biscuits 4 kg. ; Dried Shark Fin 234 kg. ; Dried Shrimps 228 kg. ; Dried Precooked Prawn 7 kg. ; Fresh Fish 377 kg. ; Dry Bombay Duck 205 kg. ; Processed Bombay Duck 368 kg.

The above products include only productions from Government fish technological stations at

Junput, Contai, Midnapore and Freserganj, 24 Parganas.

Extent to which production meets the demand: 20 per cent.

Approximate Revenue from fisheries during 1964-65: Rs. 17.16 crores.

Budget allotment for the Department of 1965-66: Rs. 1,08,40,000.

#### RESEARCH

There is one Freshwater Fisheries Research Station at Kalyani. There is one Technological

Research Station at Junpat for production and standardisation of various fish bye-products and fish curing yards both at Junpat and at Frager-gunge. Brackish Water Experimental Fish Farm at Junput, Hill-Stream Fisheries Research Station at Kalimpong and a number of Fish Seed Farms in a number of districts.

## SCHEDULED CASTES, TRIBES AND BACKWARD CLASSES

The total population of the Scheduled Castes and Scheduled Tribes according to the 1961 census respectively were 6,45,11,313 and 2,98,83,476 as against 5,53,27,021 and 2,25,25,477 respectively in 1951 census, while the percentage to the total population being 14.64 and 6.80 respectively in 1961 against 15.32 and 6.23 respectively in 1951.

#### HARIJAN SAFEGUARDS

A high power official committee set up by the Union Government has suggested that the special safeguards to Scheduled Castes and Scheduled Tribes be terminated by 1975, broadly synchronising with the end of the Fifth Plan. The committee is also understood to have made several proposals in detail for the revision of the lists of Sch. Castes and Scheduled Tribes for purposes of entitlement to political, educational and economic benefits provided by the constitution.

#### WELFARE SCHEMES

First Plan provision: Rs. 39 crores. Actual expenditure: Rs. 26 crores.

Second Plan provision: Rs. 91 crores (Tribes 50.7; Castes 28.8; denotified Tribes 3.12, other backward 8.8). Central sector: Rs. 32.00 crores. States sector: Rs. 59.29 crores.

Third Plan provision: Rs. 100.045 crores (Tribes Rs. 59.90 crores; Castes Rs. 40.14 crores; others Rs. 9 crores). The expenditure on welfare activities for backward classes was Rs. 101.00 crores in the Third Plan and Rs. 2,934 crores for the year 1965-66.

In the Third Five Year Plan, out of the provision of Rs. 100 crores, a sum of Rs. 1.25 crores had been provided under the Central Sector for grants in aid to non-official agencies, working for the Scheduled Castes, Scheduled Tribes and Backward Classes. The remaining amount of Rs. 98.75 crores had been allocated to the various States/Territories for welfare schemes undertaken by them for the Sch. Castes and Sch. Tribes, both under the Central and the State sectors. The following statement gives the Third Plan allocations and expenditure upto 1963-64 under Central and State Sectors for both Sch. Castes and Sch. Tribes respectively.

(Rs. in lakhs)

|                        | Allocations |          | Expenditure |          | Plan outlay |          |
|------------------------|-------------|----------|-------------|----------|-------------|----------|
|                        | Centre      | State    | Centre      | State    | Centre      | State    |
| Scheduled Castes .. .. | 595.97      | 1,452.99 | 597.39      | 1,351.72 | 8.03.19     | 3,104.79 |
| Scheduled Tribes .. .. | 1,004.94    | 1,724.05 | 788.52      | 1,559.76 | 2,196.70    | 3,681.23 |
| Total .. ..            | 1,600.91    | 3,177.04 | 1,385.91    | 2,911.48 | 2,999.89    | 6,786.02 |

Much importance is attached in the Fourth Plan for a sizeable programme for providing house sites and improving the housing conditions of Harijans and other backward classes.

The outlay for various schemes for the welfare of backward classes for the Fourth Plan has been tentatively envisaged at Rs. 205 crores as compared with Rs. 114 crores in the Third Plan.

The Govt. of India has constituted a study team under the chairmanship of P. Shilu Ao to give a practical effect to the recommendations relating to the welfare programmes for Sch. Tribes proposed in the Fourth Plan.

#### Land and Agriculture

One of the most important programmes in the field of agriculture is that of reclamation and improving the agricultural lands for the Scheduled Castes and Tribes.

An attempt has been made to collect information regarding the acreage of land allotted to the landless agriculturists in general and the number of the Sch. Caste and Sch. Tribe beneficiaries among them in different States. Information made available so far (upto 1963-64 in respect of the first three years of the Third Plan as the Statewise allotment of land in acres to the Sch.

Castes, Sch. Tribes and the number of families benefited respectively are as follows:

Andhra Pradesh 2,028; 482; 1,489; Bihar 9,579; 5,592; 5,740; Jammu & Kashmir 127; —; 42; Kerala 1,022; 1,163; 3,010; Madhya Pradesh 35,372; 23,662; 14,589; Madras 7,971; 339; 4,366; Mysore 612; —; 95; Orissa 13,142; 11,169; 320†; Punjab 1,977; —; 417; Uttar Pradesh 6,517; —; 4,104; West Bengal 6,753; 7,374; 12,408.

#### NON-OFFICIAL ORGANISATION

The following are the particulars of grants-in-aid released to voluntary organisations and the expenditure incurred respectively for 1963-64 (Rupees).

*For Scheduled Castes:* All-India Harijan Sevak Sangh, Delhi 3,78,520; 3,31,078; Bharatiya Depressed Classes League, Delhi 1,00,930; 1,15,601\*; Ishwar Saran Ashram, Allahabad 95,980; 67,368; Bharat Dalit Sevak Sangh, Poona 42,640; N.A.; Indian Red Cross Society, Delhi 42,702; 42,548; Ramakrishna Mission, Narendrapur, 24-Parganas 1,39,620; N.A.; Hind Sweepers' Sevak Samaj, Delhi 50,174; N.A.

*For Scheduled Tribes:* Bharatiya Adimjati Sevak Sangh, Delhi 1,53,594; 1,43,798; Ramakrishna Mission, Cherrapunji 2,02,190; N.A.; Tata Institute of Social Sciences, Bombay 83,200; 56,475; Andhra Pradesh Adimjati Sevak Sangh, Hyderabad 42,540; 40,324; Indian Council of Child Welfare, Delhi 38,780; 38,780; Ramakrishna Mission, Shillong 10,000; 18,694; National Council of Educational Research and Training, New Delhi 36,000; N.A.

*Both for the Scheduled Castes and the Scheduled Tribes:* Servants of India Society, Poona 96,897; 11,05,492\*.

*For other Backward Classes:* All-India Backward Classes Federation, Delhi 65,890; N.A.; Bharatiya Chumantu Jam (Khanabadosh) Sewak Sangh, New Delhi 84,660; 73,244.

Allocations and expenditure during the year 1963-64 from the provisions of Third Plan under State Sector are given in the table below.

(Rs. lakhs).

| Schemes                         | Scheduled Castes |             | Scheduled Tribes |             |

\* Includes expenditure out of their own sources.

† Figures for 1963-64 only.

**SAFEGUARDS**

The Constitution of India has laid down certain safeguards for Scheduled Castes, Scheduled Tribes and Backward Classes, the weaker sections of the people. These include reservation of seats in the legislatures, recruitment of tribal candidates to services and posts in the Union and State Governments, appointment of a Commission to report on the administration of the

Scheduled areas and the welfare of the tribes.

**REPRESENTATION IN LEGISLATURES**

The following table gives particulars of State-wise reservation for Scheduled Castes and Scheduled Tribes in Lok Sabha and State Assemblies as fixed by the Commission with effect from 1967 general election.

| States            | Lok Sabha        |                  | Legislative Assembly |                  |
|-------------------|------------------|------------------|----------------------|------------------|
|                   | Scheduled Castes | Scheduled Tribes | Scheduled Castes     | Scheduled Tribes |
| Andhra Pradesh .. | 6                | 2                | 40                   | 11               |
| Assam .. ..       | 1                | 2                | 8                    | 10               |
| Bihar .. ..       | 7                | 5                | 45                   | 29               |
| Gujarat .. ..     | 2                | 3                | 11                   | 22               |
| Kerala .. ..      | 2                | ..               | 11                   | 2                |
| M.P. .. ..        | 5                | 8                | 39                   | 61               |
| Madras .. ..      | 7                | ..               | 42                   | 2                |
| Maharashtra ..    | 3                | 3                | 15                   | 16               |

| Orissa .. ..      | 3                | 5                | 22                   | 34               |
| Punjab* .. ..     | 5                | ..               | 33                   | ..               |
| Rajasthan .. ..   | 4                | 3                | 31                   | 21               |
| U.P. .. ..        | 18               | ..               | 89                   | ..               |
| West Bengal ..    | 8                | 2                | 56                   | 17               |
| Total .. ..       | 75               | 33               | 471                  | 227              |

**REPRESENTATION IN GOVERNMENT**

The number of Scheduled Caste and Scheduled Tribe persons appointed as Ministers, Dy. Ministers and Parliamentary Secretaries in the Union Cabinet as on 1st April 1964 were 7 and 2 respectively. In the States, the number of Scheduled Caste and Sch. Tribes Ministers, Dy. Ministers and Parliamentary Secretaries were 25 and 27 respectively.

**Panchayati Raj Bodies:** According to the Report of the Commissioner for Scheduled Castes & Scheduled Tribes for 1963-64, there are a number of States where no representation has been made for the members of Scheduled Castes & Scheduled Tribes in the Panchayati Raj bodies. Some of the State Governments have provided, through legislation, for the cooption of the members of Scheduled Castes and Scheduled Tribes in the above bodies. Such a Coopted member may not be able to wield sufficient influence in the Zilla Parishad by the very reason of his being coopted. The report suggests to provide suitable safeguards to the members of the Sch. Castes and Scheduled Tribes by reserving seats for them in Gram Panchayats and other local bodies, preferably on population basis.

**SERVICES**

The quota reserved for Scheduled Castes and Scheduled Tribes in the Government of India services is as follows:—

**Direct Recruitment on all-India Basis:**

12½ per cent of vacancies filled by open competition and 16½ per cent of the vacancies filled

otherwise have been reserved for Scheduled Castes, and five per cent of the vacancies in all cases for the Scheduled Tribes filled through open competition or otherwise.

In cases of promotion, the following orders have been issued:

**For Non-Selection Posts:**

(a) if promotion is made subject to the passing of a qualifying departmental examination, the standard of qualification for Scheduled Castes and Scheduled Tribes need not be so high as prescribed for other candidates;

(b) if promotion is made otherwise than by a qualifying examination, Scheduled Caste and Scheduled Tribe Candidates should be adjudged sympathetically without applying too rigid a standard and the candidates belonging to these castes and tribes should not be superseded without their cases being reviewed at high levels.

**For Selection Posts:**

(a) If promotions are to be made on the basis of a competitive examination, the communal orders will apply and any Scheduled Caste and Scheduled Tribe candidates, who are above the minimum standard for necessary efficiency, may be selected for appointment against their reserved quota;

(b) If the promotion is made otherwise than through a competitive examination, no relaxed standards of merit are to be applied for Scheduled Caste or Scheduled Tribe candidates.

The position in regard to posts held by the Scheduled Castes and Tribes in the Central Government as at the end of 1963.

| Grade           | Scheduled Castes |          | Scheduled Tribes |        |
|-----------------|------------------|----------|------------------|--------|
|                 | 1959             | 1963     | 1959             | 1963   |
| Class I .. ..   | 135              | 250      | 27               | 24     |
| Class II .. ..  | 543              | 707      | 160              | 54     |
| Class III .. .. | 20,063           | 82,304   | 8,186            | 9,906  |
| Class IV .. ..  | 1,74,030         | 1,51,176 | 27,276           | 30,890 |

\* Composite State.

The position about the all-India services on 1st Jan. 1964 was as follows:

|                   |    | Scheduled Castes | Scheduled Tribes | Others |
|-------------------|----|------------------|------------------|--------|
| I.C.S./I.A.S. ..  | 81 | 23               | 1,893            |        |
| I.P.S./I.P. .. .. | 54 | 16               | 1,054            |        |
| IFS(A) .. ..      | 14 | 3                | 325              |        |
| IFS (B) .. ..     | 62 | 9                | 2,441            |        |

The statistics collected through the Employment Exchanges for 1963 are as follows:

**Scheduled Castes**

Total registration 4,60,941; Placements under Central Government 20,443; Placements under State Governments 23,442; Other employers 17,069; Number on live register at the end of the year 2,84,059.

As regards reserved vacancies, 17,321 vacancies were notified as reserved for Scheduled Castes during 1963 out of which only 7,616 vacancies were filled.

**Scheduled Tribes**

Total registration 83,224; Placements under Central Government 5,540; State Governments 3,705; Other employers 3,342; number on live register at the end of the year 45,992. As regards reserved vacancies 7,041 vacancies were notified for Scheduled Tribes during 1963, out of which 1,725 vacancies were filled.

**LEGAL AID, EDUCATION**

Legal aid is provided by some State Governments from their own funds or from grants made by the Central Government. Allocations for legal aid in the Third Plan under the State Sector for Scheduled Castes and Scheduled Tribes respectively are Rs. 4.00 lakhs and Rs. 3.55 lakhs.

**Complaints**

During 1963-64, 1,257 complaints were received in the head office and seven of the regional offices of the organisation. The nature of complaints and their number in each case are as follows: Service matters 226; Harassments by Govt. officials and others including assaults 265; Practice of untouchability 94; Land problems and housing 305; Drinking water facilities 22; and Miscellaneous 346.

**Education**

Almost all the State Govts. and Union Territory administrations have taken steps to exempt the Scheduled Caste and Scheduled Tribes from payment of tuition fees at various stages of education.

The following are the general concessions allowed to Scheduled Castes and Scheduled Tribes candidates for admission to the technical and educational institutions:—(a) 20 per cent of the seats should be reserved for Scheduled Castes and Tribes; (b) where admissions are restricted to candidates who obtain a certain minimum percentage of marks, and not merely the passing of a certain examination, there may be a 5 per cent reduction for them, provided that the lower percentage prescribed does not fall below the minimum required to pass the qualifying examinations; and (c) the maximum age limit for the admission of students belonging to these communities should be raised by three years.

More than 1,000 institutions have been opened in States for the basic education of Scheduled Tribes.

These institutions are of two categories: Ashrams and Sevashrams. Ashram schools are residential institutions where training in different trades or crafts like carpentry, weaving, smithy, tailoring and agriculture is given along with general education. All expenses are borne by the Government. Sevashrams are day schools where training in spinning and gardening is given along

with general education. The students are supplied with clothing, books, spinning material, etc., free of charge.

**Post-Matric Scholarships for Sch. Castes & Sch. Tribes (1963-64):** No. of applications received 62,800; 11,669; No. of scholarships awarded 60,165; 11,660; Amount sanctioned by the Ministries of Education & Home Affairs Rs. 2,69,49,500; Rs. 48,05,200; Expenditure incurred by the State Governments Rs. 2,92,96,496; Rs. 49,83,269.

During the first 3 years of the Third Plan a sum of nearly Rs. 9 crores has been spent on Post-matric scholarships for students belonging to Sch. Castes & Sch. Tribes. In the first four years of the Third Plan 2,39,503 post-matric scholarships have been awarded to such students.

### BACKWARD CLASSES

The principal criterion for determining Backward classes is their low social position in the traditional caste hierarchy of the Hindu Society. As many as 930 communities have been included in the above category and their estimated population is 115 millions. The Government of India have no recognised list of backward classes; but the State Governments have been advised to have their own lists of such classes based on economic criteria.

The Government of India has decided not to draw up any all India lists of Backward Classes and has advised the State Governments to apply preferably economic tests than caste.

Following a judgement of the Supreme Court, the Central Govt. have accepted economic factors and not caste as the basis for determining the backwardness of people. Some of the State Governments have accepted this as the criterion for judging backwardness and other State Governments are being persuaded to fall in line.

### DENOTIFIED COMMUNITIES

Caste-wise information of the Denotified Communities is not available. For their rehabilitation an amount of Rs. 4.22 crores had been spent during the First and Second Plan period and a provision of Rs. 3.75 crores had been made in the Third Plan. With a view to providing incentive to the State Govts. for giving proper attention to these communities and drawing up sui-

\* Composite State.

table schemes for them, it was decided that during the Third Plan, the programme for the welfare of the Denotified Communities should be centrally sponsored.

During the year 1963-64 an amount of Rs. 82.50 lakhs was allocated to various states

for the rehabilitation of these communities.

The following tables give State-wise and Scheme-wise provision in the Third Plan and expenditure incurred during 1963-64 for the Denotified Communities.

### STATE-WISE POSITION

(Rs. in lakhs)

| Name of the State      | Provision made in the Third Plan | Allocation made for 1963-64 | Expenditure incurred during 1963-64 |
|------------------------|----------------------------------|-----------------------------|-------------------------------------|
| Andhra Pradesh .. .. . | 25.70                            | 5.65                        | 4.97                                |

## STEEL INDUSTRY\*

THE first successful and the most outstanding attempt to manufacture steel in the country on a commercial basis was that of the Tata Iron & Steel Co. which started its Steel Works at Sakchi in the year 1908. Pig iron was made in 1911 and the first steel ingot a year later.

The Indian Iron & Steel Company was started in 1918 at Hirapur about 4 miles from Asansol junction on the Eastern Railway for producing pig iron. Eighteen years later it floated another company, the Steel Corporation of Bengal to manufacture steel. Towards the end of 1952 the two companies were merged.

An iron works was started at Bhadravati in Mysore State in 1921 to which a steel plant was added in 1934. During World War II, a 25-ton basic furnace and two small electric furnaces were installed.

The total capital investment in the private sector is about Rs. 191 crores and the number of workers employed about 80,000. Of the total investment, Tatas account for Rs. 135 crores and the Indian Iron and Steel Co. for Rs. 56 crores.

The three steel plants set up in the public sector during the Second Plan period are Rourkela, Bhilai and Durgapur mills under the management of Hindustan Steel Ltd. The shares are owned wholly by the Central Government. The authorized share capital is Rs. 600 crores. The Government of India has advanced loans amounting to Rs. 400.1 crores upto the end of December 1965. The Government of India has subscribed Rs. 528 crores up to the end of December, 1965, towards share capital.

The revised overall cost of the three public sector steel projects are: Rourkela Rs. 230 crores (including the cost of all other ancillaries like township, water supply system, iron ore mines, limestone quarries and railway sidings); Bhilai Rs. 202 crores; Durgapur Rs. 205 crores.

Each of these has a production capacity of a million tons with scope for expansion. All the three have already gone into capacity production. The Mysore Iron and Steel Works Ltd. at Bhadravati is a Mysore State Govt. project.

Another public sector company the Bokaro Steel Ltd. for setting up the Bokaro Steel Plant at Bokaro, was registered in New Delhi on Jan. 29, 1964. The Company will have a share capital of Rs. 100 crores and an initial capacity of 1 million ingot tonnes.

(For details see under 'Government Industrial Undertakings').

The Second Plan target of steel (ingots) production was fixed at 6 million tons (or about 4.5 million tons of saleable steel), as against the production level of 1.6 million tons in 1955-56. This was proposed to be achieved by raising the capacity of the Tata Iron and Steel Works at Jamshedpur from 900,000 tons to 2 million tons, of the Indian Iron and Steel Company's works at Burnpur from 500,000 tons to 900,000 tons and of the Mysore Iron and Steel Works from 30,000 tons to 100,000 tons. The remaining three million tons were to be produced by setting up three new works in the public sector at Rourkela, Bhilai and Durgapur. The estimated capacity and production (ingots) in 1960-61 was 6.0 million tons and 3.5 million tons, respectively. By the end of Second Plan (1969-60), the actual production of saleable steel amounted to 4,488,898 tons for the entire Plan period.

### PRODUCTION

The recent trend of production in India is given below :—

(In thousand tonnes)

| Year.                                  | Pig iron. | Steel ingots. | Semi-finished steel. | Finished steel. |
|----------------------------------------|-----------|---------------|----------------------|-----------------|
| 1959                                   | 2,994     | 2,434         | 2,542                | 1,832           |
| 1960                                   | 4,130     | 3,287         | 3,463                | 2,280           |
| 1961                                   | 4,960     | 4,072         | 1,201                | 2,851           |
| 1962                                   | 5,764     | 5,113         | 1,086                | 3,799           |
| 1963                                   | 6,800     | 6,000         | 1,200                | 4,260           |
| 1964                                   | 6,600     | 6,030         | 1,080                | 4,344           |
| 1965                                   | 7,022     | 6,401         | 1,018                | 4,520           |
| Installed Capacity at the end of 1965. | 5,643     | 4,570         | 1,387                | 3,638           |

Steel production in India in 1965 increased to 4,528,718 tonnes from 4,343,017 tonnes in 1964. The figure includes production of different categories of steel in all the public and private sector plants. In 1965-66 (upto December, 1965) 6.95 lakh tonnes of steel was imported.

The per capita consumption of crude steel in India was only 14 kg. in 1962 as against Czechoslovakia 513; West Germany and U.S.A. 488; U.S.S.R. 334; U.K. 332; Japan 242 and China 20.

Against an annual target capacity of 1.5 million tons of pig iron envisaged in the Third Plan, the integrated steel works produced about

a million tons and the balance of half a million tons was available from small and medium sized pig iron plants in the private sector. So far, a capacity of about 285,000 tons (which includes two medium-sized plants each with a capacity of 100,000 tons per annum) has already been licensed. It is also proposed to license a further capacity to cover the gap in the private sector.

The targets fixed for the steel industry under the Third Five Year Plan were as follows :

|                                           | 1965-66  |            | Fixed investment during 1961-1966 (Rs crores) |
|-------------------------------------------|----------|------------|-----------------------------------------------|
|                                           | Capacity | Production |                                               |
| Steel ingots (mln. tons)                  | 10.2     | 9.2        | 640                                           |
| Finished steel (mln. tons)                | 7.5      | 6.8        |                                               |
| Pig iron for sale (mln. tons)             | 1.5      | 1.5        |                                               |
| Alloy, tool and special steel ('000 tons) | 200      | 200        | 30                                            |
| Grey iron castings (mln. tons)            | 1.2      | 1.2        |                                               |
| Steel castings (mln. tons)                | 0.20     | 0.20       |                                               |
| Steel forging ('000 tons)                 | 200      | 200        |                                               |

Of the total capacity target of 10.2 million tons (ingots), public sector accounts for 7.0 million tons and private sector for 3.2 million tons. The break-down is as follows :

**Public Sector** (In million tons): Bhilai 2.6; Rourkela 1.8; Durgapur 1.6; Mysore Iron and Steel Works 0.1; Bokaro Steel project 1.0.

In addition, there is included in the Plan a project for a pig iron plant using the iron ore from Salem and the Neyveli lignite, the capacity of which is to be still decided.

**Private Sector** (million tons): Tata Steel and Indian Steel 3.2.

Total 10.2 mln. tons.

While the expansion programmes in the public sector are expected to be completed by 1967, Bokaro project has not yet crossed the paper-plan stage.

The demand projections were made by three different agencies as follows (at the end of the IV Plan).

Dastur & Co.: 14.214 million tonnes.

U.S. Steel Consultants: 11.235 million tonnes.

N.C.A.E.R.: 12.270 million tonnes.

The Union Steel Ministry has suggested the creation of the installed capacity of the order of 14.7 million tonnes of ingots steel by 1970-71. The estimated targets of production of mild steel during the IVth Plan are as under :

(Million tonnes)

| Plant                       | 1966-67 | 1967-68 | 1968-69 | 1969-70 | 1970-71 |
|-----------------------------|---------|---------|---------|---------|---------|
| TISCO .. .. .               | 2.0     | 2.0     | 2.0     | 2.0     | 2.0     |
| IISCO .. .. .               | 1.0     | 1.0     | 1.1     | 1.2     | 1.3     |
| Rourkela .. .. .            | 1.1     | 1.2     | 1.8     | 1.8     | 2.0     |
| Bhilai .. .. .              | 1.8     | 2.5     | 2.5     | 2.5     | 3.0     |
| Durgapur .. .. .            | 1.1     | 1.3     | 1.6     | 1.6     | 2.6     |
| <b>Total</b>                |         |         |         |         |         |
| (i) ingots .. .. .          | 7.0     | 8.0     | 9.0     | 9.1     | 10.8    |
| (ii) finished steel .. .. . | 5.2     | 6.0     | 6.7     | 6.8     | 8.1     |

(For the Mysore Iron and Steel Works see under 'Government Industrial Undertakings').

### PRICE AND DISTRIBUTION

Since the war in 1939 the price and distribution of steel have been controlled by the Government.

The various stages regarding the price of steel till 1964 were given in the previous issue of the Directory.

A four-member committee headed by Dr. K. N. Raj was appointed by the Government to go into the question of distribution and control of iron and steel. In its report, the Committee not only suggested decontrol, but also favoured a higher retention price. These measures, it pointed out, would, on the one hand, remove market aberrations, and give, on the other, the much needed financial support to the steel producers.

Finally on March 2, 1964, the Government came out with its decision to abolish the statutory control over the price and distribution of all categories of steel except pig iron and ingot moulds and bottom plates, billets and tin bars, plates, sheets and wide strip, skelp, tin plates, hoops and their respective defectives, with effect from March 1, 1964.

A Joint Plant Committee was set up with the Iron and Steel Controller as Chairman and representatives of the main producers and the Railways as members. The Committee was to announce and list ex-works prices (including base prices and extras) of the decontrolled categories to which a fixed element of equalised freight was added. The Joint Plant Committee was also to plan the production of both controlled and decontrolled items on the basis of priorities

determined by the Government from time to time.

During the year 1965-66, the following steps were taken in implementing the general policy of decontrol :

- Control over price and distribution of pig iron (including ingot moulds and bottom plates), tin plates, baling hoops and box strappings (all including defectives) was withdrawn;
- Control over distribution of hot rolled sheets and/or strips of 10-14 gauges was withdrawn;
- Control over distribution of untested skelp and strips (mixed sizes) upto 312 mm. stands withdrawn till 31st December, 1966 only.

### SUPPLY POSITION

A large level steel priority committee with the Secretary of the Department of Iron and Steel as chairman will make bulk allocations of steel for priority purposes.

Indents for the controlled categories will have to be backed by quota certificates as hitherto.

The operations of the Steel Equalisation Fund have been discontinued from March 1, 1964, as freight equalisation has been entrusted to the Joint Plant Committee and statutory price control over the bulk of the production has been abolished. In consequence there will not be any distinction between sale prices and retention prices whether in the case of controlled or non-controlled items and therefore no surcharges.

At present the J.P.C. accepts the indents from the registered and controlled stockists and

actual users and non-registered and non-controlled stockists as well.

It has been reported that the Government had decided to permit an average increase of Rs. 30 per tonne on the main producer's retention price for controlled items.

Further, that the Joint Plant Committee for steel will raise the producer's price for decontrolled items by about Rs. 50 per tonne shortly (Nov. 1965).

Imports of steel on barter basis were also continued against export of pig-iron, ingots, blooms, billets etc. produced by Hindustan Steel Limited as well as against export of scrap and ores etc. Only those categories of steel which are essential to the economy of the country were allowed to be imported. In 1965-66 (upto December, 1965) India imported Rs. 72 crores worth of finished iron and steel products. During 1965-66 (up to December 1965) India exported Rs. 11 crores worth of finished steel and scrap.

### WAGE BOARD

The Govt. of India have appointed a Central Tripartite Wage Board for the iron and steel industry with Mr. G. K. Shinde as Chairman, to determine the categories of employees who should be brought within the scope of the proposed wage fixation and to work out a wage structure based on the principles of fair wages as set forth in the report of the Committee on Fair Wages. The award of the wage Board was accepted by the Govt. for implementation during the year 1965-66. The new wage rules came into effect in Hindustan Steel with effect from 1st April 1965.

### Special Steels Plant

Stainless steel vessels are made of one of the varieties of steel commonly known as alloy and special steels. Domestic production of the entire category is insignificant. So India's requirements are met by imports. The demand was expected to reach 200,000 tons by the end of the Third Plan.

The new plant to be located at Durgapur next to the integrated steel works is estimated to produce 80,000 tons of ingots per year or about 48,000 tons of finished products. The plant is estimated to cost Rs. 38.4 crores.

A special steel plant is to be set up in Maharashtra. The plant which will be in the private sector is promoted by the well-known business house of "Mahindras".

### RE-ROLLING MILLS

The steel re-rolling industry in India had its beginnings about the year 1928. In March 1961, there were over 175 re-rolling mills in the country, of which three were making distinctly special products, namely tin plates and tubes. Geographically the re-rolling units are well dispersed in almost all parts of the country. Largest concentration, however, is in Calcutta, Punjab, Kanpur and Bombay regions. In the south the mills are too few in number.

The Committee which reported on re-rolling mills (in April 1957) estimated the capacity of all the re-rollers in the country at about 700,000 tons on single shift.

While in the country as a whole, there is an adequate number of re-rolling units, the Committee recommended the establishment of new re-rolling units in certain States where there are no units at present. One new re-rolling unit each has been sanctioned in Assam, Andhra Pradesh, Bihar (north of Ganges) and Kerala and a few more in other regions too.

In addition, some plant and machinery have been licensed by the Iron and Steel Controller to be obtained from abroad or indigenously, mainly for replacement. The additional capacity during the Second Plan was assessed at 104,760 tons per annum.

In planning the development of the steel industry in the Third Plan, the position of the steel re-rolling industry was reviewed taking into account the demand for sections which could be rolled in the re-rolling mills. The review showed that it should be possible to license about 100,000 to 150,000 tons of additional capacity in the re-rolling industry to small units to meet local demands. Accordingly, a capacity of 128,600 tons for setting up new re-rolling mills in Assam, Bihar, Gujarat, Kerala, Madras, Madhya Pradesh, Andhra, Maharashtra and Jammu and Kashmir has been sanctioned, and a further capacity of 15,000 tons each for Mysore and Orissa is proposed to be sanctioned. The Bawa Steel Re-rolling Mill near Nagpur went into production in Feb. 1962.

By virtue of the Government's decision to abolish the statutory control on steel with effect from March 1, 1964, the re-rollers are practically free from all control as they are mostly engaged

in the rolling of non-flat products, which have been decontrolled.

Against the alloy steel requirements at the end of the Third Plan which had been estimated, at 200,000 tons a year, 85,000 tons are estimated to be available from the Central Alloy and Tool Steel Plant and Ordnance factories. A further capacity of 120,100 tons has been sanctioned for the manufacture of such steel in the private sector. This is in addition to an existing capacity of about 10,000 tons. For the manufacture of alloy steel castings and such alloy steels as do not require special rolling equipment, capacity already existing and licensed is about 100,000 tons. Recently, an additional capacity of 126,500 tons was also sanctioned. The production of special steels during 1964-65 was 82,981 tonnes.

Electric furnaces already sanctioned and those in progress are likely to provide a total of about 200,000 tons of billets a year for the re-rolling industry.

The question of permitting further capacity will be considered in the light of the recommendations of the Scrap Investigation Committee.

During the IVth Plan period the capacity of the Alloy Steel Project is expected to be expanded to 300,000 tonnes. The total domestic demand at the end of the IVth Plan is estimated at 500,000 tonnes per annum. To achieve this production, a capacity of about 570,000 tonnes has already been licensed—137,000 tonnes of which are in the public sector.

The demand for tinplates by the end of the Third Plan and the Fourth Plan has been estimated at 2,81,000 tonnes and 5,24,000 tonnes per annum respectively. The capacity booked up to the end of 1965 was 4,50,000 tonnes of which 1,40,000 tonnes had been commissioned. An additional capacity of 60,000 tonnes was also installed. In addition to the capacity of 4,50,000 tonnes booked so far, a second, 1,50,000 tonnes electrolytic line at Rourkela Steel Plant is proposed to be set up during the Fourth Plan, thus, in all, setting up a capacity of 6,00,000 tonnes per annum in the private and public sectors by the end of the Fourth Plan.

Re-rollers use steel semis (Billets) and steel re-rollable scrap for rolling steel sections mostly lighter sizes of bars, rods, flats, hoops and strips, etc. The main sources of supply are the main producers, Messrs. Tata Iron & Steel Co., Ltd., Indian Iron & Steel Co., Ltd., Hindustan Steel Ltd. (Bhilai and Durgapur). Re-rollable scrap is also available from miscellaneous other sources such as, the Railways, Engineering Concerns, etc. Present availability both of billets and scrap is inadequate and so the full capacity is not being utilised.

Raw materials required by the industry:— Having regard to the recent developments it was estimated that the recognised sector of the re-rolling industry including the Secondary Producers would require about 1.8 million tons of semis by the end of the Third Plan period. As against this provision was made for supply of only 1 million tons of semis during the Third Plan from the main producers.

The re-rollers at places like Amritsar, Jullundur, etc. situated at considerable distance from the ports had to incur heavy freight charges

which inflated their production costs. Relief was given to all outstation re-rollers from 1953 when the maximum statutory prices became applicable to deliveries f.o.r. all railhead stations in India.

Production during 1964-65 was 81 lakh tonnes as against 96 lakh tonnes in 1963-64.

Total investment in the industry is estimated to be of the order of Rs. 25 crores.

It is estimated that about 40,000 persons are employed by the industry in various parts of the country.

A seamless tube plant belonging to the Indian Tube Company (1953) Ltd. was formally inaugurated in Jamshedpur in the last week of January 1960. Work on the tube project commenced in 1953 and the first plant, the Fretz-Moon tube mill, came into operation in November 1955. The second plant, the Rs. 2-crore electric resistance weld mill and the ancillary cold rolled strip plant, went into production in April 1957.

The seamless tube plant, which has now been added, represents the third and final phase of the project. The present capacity of the works is about 140,000 tons of steel tubes per year. The Company has also established capacity at Jamshedpur for the manufacture of 30,000 tons per year of cold rolled steel strip for use in tube making and for sale as strip. In addition, a plant has been installed for the fabrication of upto 150,000 tubular steel poles per year.

With the commissioning of the 140,000-ton Jamshedpur tube plant, the total installed capacity of the tube industry now works out at 175,000 tons a year.

The Kalinga Tubes (Cuttack) account for a capacity of 30,000 tons and the Tube Investments in Madras for 5,000 tons.

The great bulk of the total capacity—about 68 per cent—is in Fretz-Moon tubes used for conveyance of gas, water and steam.

The other category of electrically welded precision tubes, used mainly in railway locomotives, bicycles and steam boilers, accounts for another 14 per cent. Seamless tubes make up the balance of 18 per cent, the main applications being high-pressure conveyance of gas, manufacture of transmission poles and lighting columns for water-well casing, besides numerous other industrial applications.

Generally speaking, the industry is a small to medium scale one. The individual units are, however, of varying sizes and capacities. There has been some increase in the capacities of mills due to improvements effected. The potential capacity of the industry is of the order of 2.5 million tonnes. The Government of India appointed a Technical Committee headed by S. C. Mukherjee to assess the capacity of re-rolling mills on billets and scraps.

In allowing further capacity the Government has taken a stand that it will be decided only after the recommendations of the above Committee.

A project has, however, been approved for setting up a unit at Rourkela which will produce 100,000 tons of tubes a year in sizes varying from 8" to 20" in diameter.

### FILM INDUSTRY

The passing away of Prime Minister Lal Bahadur Shastri put to severe test the capacity of Films Division, in all its branches. The documentary has been seen by a record number of audiences, all impressed and satisfied with what they saw, an experience rare to Films Division.

Other features of the year were greater use of State-made films for their respective regions and for an all-India showing.

Hindustan Photo Films Manufacturing Co., Ltd., Ootacamund. For the manufacture of cine,

photographic and X-Ray films the Govt. of India established in Nov. 1960 this company in the public sector. (For more details, see under article "Government Industrial Undertakings").

Exclusive shows of documentaries and news-reels have now become a regular feature in some of the large cities where special theatres for the purpose are available. A nominal entrance fee (from 25 to 50 nP. per head) is charged and Bombay, Calcutta and Delhi, have been arranging these shows throughout the year

now. Similar arrangements are likely to be extended to other towns and cities.

Here are some of the institutions in the film industry:

Indian Motion Picture Producers' Association, Indian Motion Picture Distributors' Association, Indian Documentary Producers' Association, Film Federation of India, all with headquarters in Bombay.

The Indian Motion Picture Producers' Association, Film Producers' Guild Cine-Lab Asso-

ciation and others have formed a supreme Council of Film Producers. Steps are being taken to organise the industry and its various arms.

UNESCO has sponsored a study of Indian film heroes and the Institute of Social Sciences, Agra, has undertaken in co-operation with a group of International scientists, the study for which \$20,000 have been sanctioned in the first instance.

Universities Film Council (with Mr. R. R. Diwakar as Chairman) has been established with the idea of making university students take intelligent interest in the films. It is proposed to have a society for each University which would arrange to show at least 16 films every year of outstanding and classical importance through the university societies.

The Film Institute of India has been set up in the former Prabhat studios at Poona for training of all categories of film technicians and artistes. The Institute conducts diploma courses in Screen-play writing, Direction, Editing, Motion Picture Photography, Sound Recording and Sound Engineering and Acting.

At the commencement of the sixth academic year of the Institute (1966-67), the Institute had 135 students in various courses. So far, 148 students have obtained diplomas occupying responsible positions in the industry.

The Institute has extensive ground for out-door shooting; a processing laboratory for its work and well equipped studios. Whenever not required for the use of the Institute, these facilities are made available to producers on hire and this helps maintaining close contact with the Film Industry. Under Colombo Plan and Special Commonwealth African Assistance Plan, three Nigerian, seven Afghan, one Sinhalese and one Nepali students are studying at the Institute.

There are hostels for boys and girls. There are 8 girls at present undergoing training.

**Film Library:** The Institute has a film library in which film classics are being collected from various countries. So far, 117 films have been obtained from various countries like USSR, USA, UK, France, Germany, Italy, Czechoslovakia etc. The library also has some selected Indian features and documentaries. More films from other countries are being negotiated. (See also under Poona District).

**National Film Archive of India:** Set up in February 1964, the National Film Archive of India is at present housed in the premises of the Film Institute, Poona. The Archive is a provisional member of the International Federation of Film Archives, Paris. The present collection of the Archive consists of 160 films (both feature and short), 1,115 stills, 170 books and 36 journals. Notable among the acquisitions is RAJA HARISCHANDRA, the first Indian feature film by D. G. Phalke and master material of 14 films, from which additional copies can be taken for study purposes and exchange with foreign Archives.

There is an Advisory Committee attached to the National Film Archive of India to advise the Government on matters pertaining to the Archive. It consists of five non-officials and four officials. Its first meeting was held in August 1965.

**Film Finance Corporation:** Established in the last week of March 1960, with the object of providing finance for the production of good quality films in the country. (For more details see under article "All India Corporations").

**Children's Film Society:** This was started in 1955. Its object is to undertake, aid, sponsor films of special interest to children. It has its headquarters in Delhi and has branches in some States.

During the period April to Dec. 1965, well over 1,300 commercial shows were arranged which were attended by about 5,50,000 persons. In addition, about 150 shows were held during this period by the members of the 16 mm. Film Library of the Society and were attended by about 66,000 persons.

A provision of Rs. 12 lakhs was made in the Budget for 1965-66 for grants-in-aid to the Society. The Society has earned a revenue of more than Rs. 2 lakhs. The Revised Estimates for the year under review have been placed at Rs. 10 lakhs.

### FILMS DIVISION

With headquarters in Bombay, this branch of the Ministry of I & B, is the biggest producer of documentaries and news reels in South Asia. In addition to its own production, it buys some select films from State Governments and private producers so that a variety in its documentaries is maintained. Some of the State Governments have a film production unit of their own for news reels and documentaries to be shown within their own limits.

Prime Minister Lal Bahadur Shastri's achievements, his "Last Journey" and functions connected with it, gave the Films Division an opportunity to compile more documentaries than one, for exhibiting the past glories of a dedicated life. These documentaries gave proof of the powerful hold of the film medium on people's mind.

Slowly, the Films Division is paying more and more attention to technical topics; naval aviation, Indian Ocean expedition, manufacture of optical glass, defence research and hockey are

some of the out of the way subjects about which documentaries were produced during the year.

Every cinema is required under the terms of its licence to exhibit at each show not more than 2,000 feet of film approved by the authorities specified in the licence. One newsreel or alternatively one documentary is released every week to all the cinema houses.

To non-profit making and charitable institutions such as schools, hospitals, films are supplied free.

Films that are suitable for foreign exhibition are supplied to Indian missions abroad. A monthly overseas edition of newsreels is also sent out to certain places. They are also marketed abroad on a commercial basis. Besides, there are arrangements for televising them with certain foreign countries—England, Canada and Japan. The films also help to promote tourism as they are regularly exhibited through the Tourist Division of the Ministry of Transport.

**News Reels & Documentaries:** In the production of documentaries and news-reels, the Films Division naturally holds a leading position mainly because of the compulsory exhibition of these films all over the country.

### Production by Films Division 1956-66

| Year    | Documentaries |       | News Reels | Compilation News Reels | Total |
|---------|---------------|-------|------------|------------------------|-------|
|         | B & W         | Color |            |                        |       |
| 1956-57 | 56            | 8     | 52         | 16                     | 132   |
| 1957-58 | 58            | 10    | 53         | 15                     | 136   |
| 1958-59 | 83            | 14    | 52         | 16                     | 165   |
| 1959-60 | 72            | 27    | 52         | 14                     | 165   |
| 1960-61 | 77            | 23    | 53         | 12                     | 165   |
| 1961-62 | 80            | 16    | 52         | 12                     | 160   |
| 1962-63 | 101           | 11    | 52         | 12                     | 176   |
| 1963-64 | 95            | 7     | 52         | 12                     | 166   |
| 1964-65 | 84            | 12    | 52         | 8                      | 166   |
| 1965-66 | 113*          | 22    | 52         | —                      | —     |

\* Including 43 for New York World Fair.

**Films for Record:** The Films Division also makes certain documentaries for record only when dignitaries visit this country or when our President goes abroad.

In the production of educational films, the Films Division has shown how the motion picture can be made to serve educational purposes for the benefit of the illiterate masses.

Films produced by others and by other State units continued to be purchased by the Films Division for commercial exhibition over its own circuit. With the decentralised civil administration, each district has come into prominence and the peculiarities, artistic, industrial and agricultural and otherwise, were sought to be explained by means of a documentary film.

**Mobile Publicity Units:** Seventy-nine mobile units maintained by the Field Publicity contacted about 230 lakh people during the year. Their trips provide contacts with the population of regions where no other agency reaches them.

On an average, each unit remains moving for 18 days; visits as many places and organises 25 film shows and as many meetings after or before the show. In chalking out the programme of tours, care is taken to conduct the tour on important fair and festival days of the region to contact maximum audiences. Supporting effort is given to various "camps", rallies and shibirs where the select audiences are available in a more receptive mood.

A full length documentary film on the biography of Mahatma Gandhi is under compilation as the repository of the Fund contains copies and originals of many shots relating to Gandhi's activities, collected from all over the world.

Shorter documentaries of individual aspects of Gandhiji's activities are also planned from the material available.

### Films for non-commercial release

**Non-Commercial Exhibition:** Documentaries and news-reels produced by the Films Division have a great demand outside the regular cinema houses for non-commercial exhibition. Mobile vans of commercial and industrial concerns, as part of their propaganda for their products, resort to showing of films to draw audiences. They seem to be quite successful in this effort. While they popularise their respective products, documentaries and news-reels get incidental publicity. During 1965, 3,191 shows were arranged by these organisations and 18,18,646 persons attended these shows.

The revenue and expenditure of the Films Division are as follows:—

| Year    | '000 Rs. |             |
|---------|----------|-------------|
|         | Revenue  | Expenditure |
| 1959-60 | 49.98    | 91.00       |
| 1960-61 | 50.82    | 89.06       |
| 1961-62 | 62.90    | 97.47       |
| 1962-63 | 66.10    | 106.00      |
| 1963-64 | 71.03    | 101.88      |
| 1964-65 | 94.98    | 104.22      |
| 1965-66 | 62.00    | 116.77      |

### News-reels

For obtaining a country-wide coverage, Films Division has stationed 15 cameramen in all the state capitals and for international coverage it has exchange arrangements with

22 news-reel producers from abroad. A wide distribution of Indian news items is thus secured on television also. State Governments who have their own "news-reel" units for their own distribution arrangement occasionally supply material to the Union news-reels.

Like documentaries, news-reels also are being dubbed in English and 12 Indian languages as from the beginning of 1960, for obtaining more intensive penetration.

Regular shows of documentaries and news-reels are arranged at the small theatre auditorium of the Films Division, Janpath, New Delhi, and Tarabai Hall, Marine Drive, Bombay, at the nominal charge of 25 P. per head per show.

Similar shows are being introduced in other cities as well, as they will help make audiences documentary-minded.

Films dealing with Plan activities, are supplied to State Governments, social education units, railways, exhibition directorate, information centres and so on.

News items of current interest including significant events from foreign countries continued to be included in the newsreels. The news stories were received from 26 foreign newsreel organisations as part of the arrangement for free exchange of newsreel material.

### AWARDS

(See article 'Awards and Prizes')

There are regional committees in Madras, Bombay and Calcutta which make a preliminary selection in the matter of feature films. These committees consist of persons who are qualified to judge. The final selection is made by the Government. In the matter of documentaries, educational films and children's films the selection is made solely by the Government.

The Ministry of Health instituted two cash prizes of Rs. 25,000 each to be given to the best all-India feature films on family planning (one produced in 1963 and the other in 1964). No film was considered suitable for the cash prize.

**Film Festivals in India & U.S.S.R.:** Nine Indian feature films were screened during the Indian Film Festival held in Moscow and four other cities of the U.S.S.R. Similarly, Soviet films were shown in India in Delhi and other four cities during February-March 1964.

The Filmfare awards are given on the basis of a readers' poll. (For more details see article "Awards and Prizes".)

### CENTRAL BOARD OF FILM CENSORS

The Board of Film Censors is a statutory body set up under the Cinematograph Act, 1952, for sanctioning films for public exhibition. Films suitable for unrestricted exhibition are granted 'U' certificates and those suitable for public exhibition restricted to adults only are given 'A' certificates.

The certificates issued by the Board are valid for 10 years from the date of issue. Provision exists for the issue of fresh certificates in respect of such films after the expiry of the 10-year period.

The Board at present consists of a Chairman and nine non-official members who work part-time in an honorary capacity. The headquarters of the Board are at Bombay. There are regional offices in Bombay, Calcutta and Madras. The Regional Officers are assisted by Advisory Panels appointed by the Government. The Panels consist of educationists, doctors, social workers, lawyers.

Every film is scrutinized by the Examining Committee, and a certificate is given or refused, or given with cuts or modifications. There is an appeal to a Revising Committee presided over by the Chairman. There is also a final appeal from the decision of the Board to the Government of India.

The Central Board of Film Censors has during the past 15 years, 1951-65, certified 13,613 Indian and 29,259 foreign films.

In 1965, the Board examined 2,783 films, out of which 29 were refused certification. Films certified (U) for universal exhibition were 1,557 (foreign) and 1,219 (Indian) and those carrying

(A) for Adults only were 137 foreign and 16 Indian.

The total metres cut by censors during 1965 was 10,733.

Fresh certificates were issued for 166 films in respect of which certificates had been issued more than 10 years ago. Of these two were granted 'A' certificates.

Broadly speaking, the Censors see that there is no encouragement to vice, crime or that there is no offence against decency or morality, or that they do not promote disrespect for law and order or to a foreign country or people.

### 16 MM. FILMS

The use of the 16 mm. film for propaganda and publicity is realised by Governments, municipalities, and trade and industry.

The National Institute of Audio-Visual Education, Indraprastha Estate, New Delhi, has been doing excellent work with 16 mm. films on a variety of topics. The Institute's Library is the single largest collection of 16 mm. films, mainly for information and education and they are available at reasonable cost to any one in the country.

There are in addition 16 mm. projectors and small theatres for films suitable for non-theatrical audiences maintained by the British Information Services, the British Council and the U.S. Information Services through their regional offices.

In the Defence Forces, 16 mm. films have been extensively used for training and entertainment. There are Inspectors of Visual Education under Directors of Education in the States who do valuable service by using 16 mm. projectors and film strips.

Most of the diplomatic missions and embassies in the Capital and Consulates in Bombay, Madras and Calcutta maintain a film section and arrange shows of special films.

The U.K. and U.S.A. representatives and the British Council maintain a special library of educational and informative films. These are available for exhibition free of charge.

Many international friendship societies too have libraries of 16 mm. films. Notable among these are the Indo-Soviet Cultural Society and the Indo-Czech Cultural Society.

In fact 16 mm. films on a variety of subjects are available from many countries in the world.

### EXPORT, IMPORT

The Film industry earns about Rs. 140 lakhs annually through export of films outside India. Excluding those in Pakistan, there are about 2,500 theatres available for the showing of Indian films in about 60 foreign countries where Indians live in some concentration and where Indian films are welcomed.

The main export market at present is Pakistan; but Indian exporters there are put to considerable difficulty. Ceylon, Malaysia, Burma, Indonesia, Cambodia, Thailand, Viet Nam, Aden, Persian Gulf Ports, Iran, Lebanon, East Africa, West Africa, Ghana, Tangiers, South Africa, West Indies, Fiji, Mauritius, Dutch Guiana, U.K. and Hongkong are the other chief markets for Indian films.

The Indian Motion Pictures Export Corporation Ltd. was set up in Bombay on Sept. 19, 1963, to promote export of Indian Films. For more details see article "All India Corporations". The export earnings from films were: 1959: Rs. 154 lakhs; 1960: Rs. 176 lakhs; 1961: Rs. 163 lakhs; 1962: Rs. 142 lakhs; 1963: Rs. 163 lakhs; 1964: Rs. 212 lakhs.

**Exhibition abroad:** Special news reel compilations are made every month for use in 36 Indian missions abroad and copies of documentaries are in demand for regular exhibition in 81 missions. Many television authorities show considerable interest in Indian films and the documentaries/news-reels are frequently used by them through the Indian missions in their respective countries.

An up-to-date Catalogue of the Films Division's documentaries is available.

Apart from traditional importers of Indian films like Ceylon and Singapore, other countries importing films from India now include U.K., U.S.S.R., France, U.S.A. and Canada.

Imports of exposed cinematograph films have been fairly heavy. Until 1936-37 imports remained below 10.8 million feet, touched the peak at 26 million feet in 1938-39 and dropped to 6.9 million feet in 1942-43 owing to wartime conditions. In the post-war period imports recovered to 16.2 million in 1945-46 and thereafter have fluctuated between 17 million feet and 12 million feet.

Under the import control regulations, import of foreign films is subject to a monetary ceiling and distributors are authorised to remit up to 70 per cent. of the gross revenue.

**Production of feature films (1956 to 65):** 1956: 296; 1957: 293; 1958: 293; 1959: 303; 1960: 320; 1961: 297; 1962: 312; 1963: 299; 1964: 303; 1965: 322.

**Production of feature films (1965) by Languages:** Hindi 97; Tamil 56; Telugu 50; Malayalam 31; Bengali 29; Kannada 21; Marathi 14; Gujarati 5; Punjabi 5; Oriya 3; Chhatisgarh, English, Konkani, Magadhi, Rajasthani, Sindhi: One each; Others 5; Total 322.

**Note:**—The figures of production of feature films have a minor discrepancy. Officials take every film that is certified by the Censors as "produced", during the period. The industry however considers films that are released as produced. There is an inevitable lag between the certified and released films.

### CINEMAS IN INDIA

India seems to have taken to production of feature films quite seriously, ranking the third in the world next to Japan in the total number of feature films produced yearly. There are 5,350 cinema houses providing a total of 92 lakh seats (including 1,450 travelling) and nearly 82,000 people are engaged in exhibition, 20,000 in production, 20,000 in distribution and allied business together. On a rough estimate Rs. 85 crores are invested in this business which has 61 studios, 39 processing labs. The average daily attendance achieves a formidable figure of 50 lakhs, because in larger cities there are 22 shows a week. The industry naturally pays Rs. 25 crores as entertainment tax per year and about Rs. 40 crores in other direct taxes, to Union and State Governments.

### IMPORT OF FILMS

|      | Raw Films                |                          | Exposed Films            |                          |
|------|--------------------------|--------------------------|--------------------------|--------------------------|
|      | Length<br>(lakh metres). | Value<br>(Rs. in lakhs). | Length<br>(lakh metres). | Value<br>(Rs. in lakhs). |
| 1960 | 827                      | 194                      | 51                       | 38                       |
| 1961 | 537                      | 166                      | 52                       | 45                       |
| 1962 | 722                      | 177                      | 56                       | 44                       |

country from both private and official sources abroad.

Foreign investments in business enterprises in India.—1962.

Foreign capital continued to flow into business enterprises during 1962 but at a somewhat-reduced rate (*vide* Table 2). The net inflow during the year, after allowing for repatriation, accounting and valuation changes, totalled Rs. 40.4 crores, which was lower than in 1960 and 1961 but higher than in 1958 and 1959. The main reason for the reduction in 1962, as compared to the previous year, was larger amortisation payments on loans obtained by private enterprises from official sources. In fact, the net inflow from foreign private sources was slightly higher in 1962 than in 1961 (Rs. 29.7 crores as against Rs. 28.1 crores). The aggregate book value of foreign investments in business enterprises at the end of 1962 amounted to Rs. 735.5 crores of which foreign private sources accounted for Rs. 625.5 crores and official sources for the balance of Rs. 110.0 crores (*vide* Table 1). The wide deviation between the capital flow and the changes in the book value of investments (Rs. 55.7 crores) during 1962, shown in Table 1, reflects in part the revaluation of assets and in part accounting changes, the two together amounting to Rs. 15.3 crores during the year.

Information relating to the inflow of capital into business enterprises is for the most part based on the data available from the records of the Bank's Exchange Control Department, supplemented by limited information made available by foreign controlled companies operating in India. Both these sources cover mainly the changes in liabilities arising out of direct investment. Information on portfolio investment is included in the assessment; but the information is incomplete. Long-term foreign investments in business enterprises, for the purpose of the article, represent all foreign investor and creditor capital received by business enterprises in the

the preceding year, the gross inflow at Rs. 22.8 crores was only Rs. 2.3 crores below the 1961 level and accounted for about 37 per cent of the gross addition to the value of foreign business investments (*vide* Table 2). The IBRD provided Rs. 5.6 crores, most of which was made available to the ICICI for relending to private sector industries. Other official agencies, such as the U.S. Eximbank and the Agency for International Development (AID), together a little under Rs. 8 crores to the private sector. Industry-wise AID loans were mainly for chemicals and fertilisers (Rs. 5.6 crores) and utilities (Rs. 0.2 crore). AID assistance to financial corporations, like the IFC and the National Small Industries Cooperation, totalled Rs. 1.5 crores. The scale of U.S. Eximbank assistance to the private sector during 1962 was much lower than in 1961 because a major portion of U.S. assistance is now channelled through the AID and also because the bulk of the drawings on the two loans extended to the metals and metal products and synthetic textile fibres industries were made in the previous year. The private sector was also the recipient of loans amounting to Rs. 5.8 crores sanctioned out of PL 480 counterpart funds to five firms which had American affiliation. These were rupee loan to various manufacturing industries, such as metals and metal products, rubber manufactures and paper products. Besides the above loans, there were further drawings of Rs. 3.5 crores on the deferred credit extended by Czechoslovakia to the engineering industry, raising the total outstanding liability to Czechoslovakia to Rs. 5.8 crores at end—1962. In earlier years repayments on loans obtained by business enterprises from official sources abroad were negligible, but beginning up from 1960 the outflow has progressively increased and in 1962 business enterprises repaid Rs. 12 crores of their earlier borrowings from foreign official sources; nearly two thirds of the repayments related to IBRD loans to iron and steel concerns in private ownership.

## GROSS CAPITAL FLOWS

In the seven years from end—1955 to end—1962, long-term foreign private capital inflow (gross) has varied between a low of Rs. 25.7 crores in 1959 and a high of Rs. 63.2 crores in 1960, when there was exceptionally heavy investment by the petroleum industry. The inflow fell to Rs. 35.6 crores in 1961 and amounted to Rs. 38.7 crores in 1962. The inflow in 1962 was Rs. 3 crores higher than in 1961 as well as the annual average for 1956-61 (*vide* Table 2).

② Revised, N.B. 1. Figures exclude foreign investments in banking and insurance companies. 2. The inflow has been computed wherever possible, by eliminating valuation change. To this extent the figures in the Table will not compare with those given Statements II, III and V. 3. Totals in the Table as well as in other Tables may not add up because of rounding.

## FRESH CAPITAL INFLOW

The 1962 result was greatly influenced by fairly large fresh capital flows; in fact the sharp drop in retained earning was more than compensated, as will be seen later, by the higher rate of parent company investment in their Indian branches and subsidiaries. Fresh capital inflow registered a rise from Rs. 19.8 crores in 1961 to Rs. 30.8 crores in 1962. Most of this increase came in the form of investment in kind, namely, supply of plant and machinery and technical know-how. Branch investments in kind rose from Rs. 3 crores in 1961 to Rs. 14.6 crores in 1962; most of this rise represented increased indebtedness of companies, primarily in the 'plantations' and 'services' categories, to their head offices abroad and was by and large related to the working capital needs of these concerns. In the case of rupee companies, there was a slowing down in the allotment of shares to non-residents in lieu of plant and machinery and technical know-how, etc. from Rs. 12.7 crores in 1961 to Rs. 11.12 crores during the year under review. The cash component of the fresh inflow indicated a modest rise of Rs. one crore to Rs. 5 crores. Industry-wise, the fresh capital flow was directed mainly towards manufacturing enterprises—food and beverages, chemicals, metals and metal products and machinery and machine tools accounting for Rs. 13.7 crores or more than 44 per cent of the total.

## TRENDS IN REINVESTED PROFITS

The steady growth in foreign investments in recent years continued to push the earnings of foreign controlled companies to higher levels, total gross earnings reaching Rs. 134.8 @ crores in 1962. However, owing mainly to higher tax provisions following the imposition of the super profits tax, there was a reduction during 1962 in net earnings. The proportionate share of the net earnings accruing to non-residents thus fell from Rs. 44 crores in 1961 to Rs. 39 crores in 1962 (vide Table 3). Of this companies engaged in manufacturing and petroleum accounted for Rs. 18.9 crores and Rs. 8.4 crores respectively. Despite the heavy flow of investment into manufacturing operations, net earnings of manufacturing concerns declined Rs. 3.3 crores, chemical and pharmaceutical producers being particularly affected. A sizeable reduction was also in evidence in the net profits of companies in the services category. In contrast profits earned by petroleum and plantation companies were marginally higher.

## LIABILITIES AND ASSETS OF THE OFFICIAL SECTOR—1962

With progressively larger public outlays, changes in foreign liabilities and assets of the

public sector have been very pronounced. During 1962, official liabilities registered a further increase of Rs. 266 crores to Rs. 1,892.6 crores.

## OVERALL INVESTMENT POSITION

Table 6 which sets out the country's international investment position as at the end of 1955, 1961 and 1962, shows that in 1962 the external indebtedness of India continued to increase at a rapid rate. With the launching of

the Third Five Year Plan and the acceleration of planned investment, there was a pronounced increase in the country's foreign liabilities, which moved up by Rs. 330 crores in 1962, raising the accumulated total to nearly Rs. 2,700 crores. On the assets side, there was a sharp fall of Rs. 66 crores in 1962.

† Provisional. †† Long-term foreign business investment including those of insurance companies. @ Foreign securities, shares and branch investment. \* Includes U.K. War Loan, Rs. 20.6 crores. @@ Includes Partition Debt Rs. 300 crores due from Pakistan.

On the liabilities side, a comparison of 1962 with 1955 shows that, while private foreign investments have expanded by Rs. 293 crores, the growth in official indebtedness was phenomenal—over Rs. 1,680 crores. More than half the increase in the latter resulted from the growth in short-term indebtedness arising out of P.L. 480 assistance; the balance represented long term assistance in the shape of development loans from friendly foreign countries. On the assets side, the overall decrease between 1955 and 1962 was Rs. 665 crores, largely the consequence of the reduction in the holdings both of long-term

sterling securities and short-term assets, mainly to finance imports.

The heavy flow of development funds (including official bilateral assistance as well as capital made available through multilateral institutions) has made India the largest recipient among the developing countries of financial resources from developed countries. The progressive increase in the net debtor position has, however, to be viewed against the sizeable capital formation in various fields—irrigation, power, transport and communications as well as manu-

facturing capacity. The large official flows have helped to create a strong economic structure in India, which in turn has helped to widen the outlets for private investment. The increased volume of external finance for development purposes is also an indication that the capability of the country to make productive use of the resources has increased considerably over the last few years. The growth in external debt has been accompanied by a continuous rise in debt service payments, but rapidly mounting debt is inevitable in the present phase of development of the country.

@ This includes the share of profits accruing to residents also.

Table 7. Foreign Business Investments as at the end of 1962\*

By Industry

(Rs. crores)

| Industry Group                        | Direct investments |                            |              | Portfolio investments |          |              | Total        | Official Sources | Total Portfolio investments | Total Business investments |

# AGRICULTURE

INDIA is predominantly an agricultural country. About half of the country's national income is derived from agriculture and allied activities which absorb nearly  $\frac{1}{3}$  of its working force (of about 152 million in 1956 inclusive of dependents).

Some major facts about Indian agriculture (1963-64): Total geographical area according to village papers (reporting area): 300.1 million hectares; area not available for cultivation (including forests, 55.8 million hectares, land for non-agricultural uses and barren lands, 50.3 million hectares): 106.1 million hectares; other uncultivable lands like permanent pastures and grazing lands, land under free crops and cultivable wastes: 36.4 million hectares; fallow land: 21.3 million hectares; net area sown: 136.2 million hectares; area sown more than

once: 20.5 million hectares; gross area sown: 156.75 million hectares; net area irrigated 26.13 million hectares & gross area irrigated: 30.57 million hectares.

India virtually holds the monopoly in lac, leads the world in groundnut and tea production, and is the second largest producer of rice, jute, raw-sugar, rape, sesamum and castor seeds.

Average rainfall 45"; deficiency of 25 per cent is classed dry; deficiency of 40 per cent severe drought; usually one year in five is a dry year, one in ten, a year of severe drought, one in 20 to 25 years widespread severe drought.

Over one-fourth of the total irrigation of the country is got from lifting water from wells ranging in depth from a few feet to over fifty feet.

## AREA AND PRODUCTION

The following table will show the area under principal crops and the yield:

| Crops              | Area in '000 hectares |           | Production in '000 met. tons |          |
|--------------------|-----------------------|-----------|------------------------------|----------|
|                    | 1964-65               | 1965-66   | 1964-65                      | 1965-66  |

\* Based on provisional estimates.

The agricultural season is divided into two main sub-divisions the Kharif season of the monsoon and the Rabi season of the cold weather. This is not well-marked in the extreme east or extreme south.

The ground is generally prepared for cultivation in April and May for kharif crops, and by the end of October or early November for rabi crops, i.e., after the kharif crops have been harvested. Kharif crops are sown in the monsoon, generally after the first shower. The usual time for sowing of rabi crops is the middle of November. The crops are harvested from the middle of March to the end of April.

The chief Kharif crops are: rice, jowar, bajra, maize, cotton, sugarcane, sesamum and groundnut. The chief Rabi crops are: wheat, barley, tea, gram, linseed, rape and mustard; and in south India rice, jowar and cotton.

## FOODGRAINS

Foodgrains production in 1964-65 reached the record level of over 88.4 million tonnes. This is nearly 9 million tons more than 1963-64. The increase is mostly due to the record rise in the production of wheat and rice in 1964-65. The previous record was 81 million tonnes in 1961-62.

### RICE

Rice crop occupies the largest area in the Indian Union, about 34 million hectares giving 32 million tons of rice. During 1965-66 the area under rice cultivation was 35.02 million hectares and the production was about 30.06 million tonnes.

Madras, Bihar, Bengal, Orissa, Madhya Pradesh, Uttar Pradesh, Assam, Andhra, Maharashtra, Mysore, Kerala and Gujarat are the main rice growing States and they together claim about 95 per cent of the total rice area in India.

Rice yield in India is, however, one of the lowest in the world. Though about 4,000 distinct types of rice differing in essential characteristics occur in this country, 455 superior strains giving an average of 10 to 20 per cent better yield than the farmers' varieties have been evolved.

### WHEAT

The area under wheat is about 13 million hectares and production about 10 million tons. During 1965-66, the area under wheat was 12.79 mill. hectares and production 10.72 mill. tonnes. Wheat is grown widely throughout the north as a winter crop, U.P., M.P. and Punjab supplying over 72 per cent of the total outturn in the country. This crop occupies, on an average, about 10 per cent, of the total cultivated area.

More than one-third of the crop is irrigated.

The crop is generally grown after a summer fallow and except in irrigated tracts, depends largely on the conservation of the soil moisture from the previous monsoon. The crop is generally harvested in February to April and the threshing and winnowing go on up till the end of May.

A virulent fungus disease called rust affects the production of wheat to a great extent. In normal years, the loss is about 5 per cent involving about sixty million rupees.

Systematically planned work on the development of rust resistant wheats is being done under theegis of the Indian Council of Agricultural Research and a large number of rust resistant varieties have been produced.

### MILLETS

Mostly of short duration (2½ to 6 months from seed to seed) millets are grown in localities and in conditions where most of the other cereal crops are not grown, such as poor and infertile soils and low rainfall (of 20-50").

**Jowar:**—Among the millets jowar occupies a premier position because of the size of the crop and the economic importance of the grain. About 17 million hectares are grown under this to yield about 9 million tons of grain. Maharashtra, Andhra, Mysore, M.P. and Gujarat contribute to over ¾ of the natural acreage. The jowar area and production respectively during 1965-66 were 11.18 mill. hectares and 7.49 mill. tonnes. A hybrid CSH. 1, suitable for growing under irrigated and rainfed conditions and yielding upto 60 mds. per acre under intensive manuring is prepared to be put under cultivation in about 40 lakh acres.

**Bajra:**—Occupies about 27 million acres to yield about four million tons of grains. U.P., Rajasthan, Punjab, Gujarat and Maharashtra, are the chief growing tracts. The duration of the crop varies from about 2½ to 5 months. During 1965-66 bajra was cultivated in 11.43 mill. hectares and produced about 3.59 mill. tons.

**Ragi:**—Ragi ranks third in importance among the Millets and occupies about 2 million hectares to produce about 1.8 million tons of

grain. Its average yield is rather high, 800 kg. per hectare compared to jowar and bajra with 500 and 350 kg. respectively. More than half the area is in Mysore, Madras and Andhra. The area and yield during 1965-66 were 2.2 mill. hectares & 1.3 mill. tonnes respectively.

**Other Millets:**—The others grouped under lesser or minor millets form about 1/6 of the total area under millets and are grown in about 4.6 mill. hectares and yield about 1.9 million tons of grain. The area and yield during 1965-66 were 4.3 mill. hectares and 1.6 mill. tons respectively. The most important among them are Kora or Kangi, Kodon, Cheena or Varagu, Oodalu, and Sawan.

**Maize:**—Maize is cultivated in India in about 4.5 mill. hectares to produce about 4.5 mill. tons of grain. The major growing areas, U.P., Bihar, Rajasthan, Punjab and M.P. which between themselves account for about three-fourth of the maize area. The area and production during 1965-66 were 4.68 mill. hectares and 4.63 mill. tonnes respectively. The average yield is only about 10 mds. per acre. Seven hybrids (Ganga 2 and 3, Ganga Saffed, Ganga high Starch, Ranjit, Deccan and Himalaya) giving 56-70 per cent more than local varieties have been produced.

**Barley:**—During 1965-66 barley was cultivated in an area of 2.5 mill. hectares and the production estimate was 2.28 mill. met. tons.

### COTTON

The area under cotton during 1965-66 was 7.55 mill. hectares against 8.15 mill. hectares in 1964-65.

The decrease in area during current year is due to late and inadequate rains at sowing time in Andhra Pradesh, Maharashtra and Mysore, which was offset to some extent by the increased area in the Madhya Pradesh and Rajasthan regions. Internal production is short of requirement of long staple type to the extent of about 6.8 lakh bales. The actual import varies on supply and demand, and availability of foreign exchanges. Due to shortfall in production imports were going on and in 1963-64 and 1964-65, 6.4 and 8.4 lakhs of bales respectively. The total imports during the current season are likely to be around 4.42 lakh bales. Exports expected under P.L. 480. Exports of surplus short staple naturally will be about 2.3 lakh bales, depending upon supply. It amounted to 2.7 and 2.5 lakh

bales during 1963-64 and 1964-65. Indigenous cotton consumption by mills is rising. In 1963-64 and 1964-65 the indigenous cotton consumption were 60.72 and 63.71 lakh bales respectively. During 1965-66, consumption is expected to be 56-58 lakh bales.

The evolution of Indo-American varieties and of Sea Island, Andrews and hybrid cottons which can replace imported cottons constitute an important landmark in the progress of cotton research. Further work for isolating still better and finer types continues under three schemes in operation in the Punjab, Bombay, Madras.

Cotton extension schemes initiated in 1950 were continued in the Third Plan and were in operation in Andhra Pradesh, Gujarat, Madhya Pradesh, Maharashtra, Mysore, Orissa, Punjab, Rajasthan and Uttar Pradesh.

Package programme for increased production of cotton in cotton growing States has been prepared. Under this, 4,35,000 acres were to be brought under intensive cultivation in 20 selected districts of nine cotton growing states. Production incentives such as subsidies for phosphate fertilizers/composts (25 per cent), green manure (Rs. 2 per md.) and pesticides (25 per cent) are also provided. The programme was in operation in Andhra Pradesh, Gujarat, Madhya Pradesh, Maharashtra, Madras, Mysore, Punjab and Rajasthan in 1964-65 and during 1965-66 about 1.6 million acres were expected to be covered by this programme.

### FRUIT

A wide variety of fruit and vegetables is cultivated in the country. The total area under all fruits at present is about three million acres.

During the Third Plan period about seven million acres of new orchards were expected to be planted and the fruits and vegetable production was expected to be 1,00,000 tons at end of the Plan.

In order to encourage the production and export of fruit products several concessions are given to the manufacturers through Directorate of Marketing by way of loans for starting new factories and renovating old ones, subsidy on tin-plate, rebate on excise duty on sugar etc.

Fruit products amounting to over 23,000 tons are now manufactured in the country.

### EXPORT OF FRUITS

| Fruits        | 1964-65               |                   | 1965-66               |                   |
|---------------|-----------------------|-------------------|-----------------------|-------------------|
|               | Quantity in met. tons | Value in Rs. min. | Quantity in met. tons | Value in Rs. min. |
| Apples        | 3                     | 0.008             | 7                     | 0.020             |
| Bananas       | 8,052                 | 3.028             | 18,931                | 3.768             |
| Citrus Fruits | 3,459                 | 1.463             | 138                   | 0.157             |
| Grapes        | 8                     | 0.016             | 43                    | 0.116             |
| Mangoes       | 1,070                 | 1.294             | 1,636                 | 0.853             |
| Pine apple    | 85                    | 0.046             | 16                    | 0.022             |

(Citrus fruits include orange, lemon, lime and others).

### REGULATED MARKETS

One of the visible benefits of regulated markets, which work on democratic principles, has been the reduction in the market charges to extents varying between 29 to 50 per cent. The saving to the producer on this account is estimated to be Rs. 3 for every Rs. 100 worth of goods sold by him. Open auction system which yields better price to the producer has also been introduced in a majority of the markets. New market yards with modern amenities are also being provided.

Training of personnel in Agricultural Marketing is provided through three courses. (1) One year course for training superior personnel of the State Marketing Dept. at Nagpur; (2) Five months course for training market secretaries

and superintendents at Sangli, Hyderabad and Lucknow; (3) Three months course for training grading supervisors and assessors at Nagpur and Madras. During 1965-66, thirty candidates were being trained in the one-year course while 128 and 164 candidates have been trained or are receiving training under 5 month and 3 month courses respectively. A Central Government stipend is paid at Rs. 75 p.m. for one year course and Rs. 50 for other courses.

The Directorate of Marketing is entrusted with the development of the fruit and vegetable preservation industry and administers the Fruit Products Order promulgated under the Essential Commodities Act of 1955. This Order envisages the compulsory licensing of the manufacturers of fruit products for sale.

The Directorate has carried out a large number of surveys on the marketing of agricultural and livestock commodities and has published over 130 marketing survey reports and brochures relating to 40 important commodities. During 1965 the Directorate had published a monograph on tobacco, a Directory of assembling markets and reports on the Cooperative marketing of cotton, coconut and coconut products, turmeric and price spread of groundnuts. Sixteen more reports relating to fruits, vegetables, walnuts, cardamom and wool etc. are under print.

To ensure that the producer may get an adequate return commensurate with the quality of his produce 367 grading units at the producer level have been set up, 267 in the regulated markets, 711 in selected marketing co-operatives and 29 in warehouses in various States. Specific programmes have also been undertaken to operate some pilot grading centres for grading tobacco at Ongole (A.P.) and of Kapas in Hubli-Gadag area (Mysore).

The number of regulated markets was 700, at the end of Sept. 1966. Number of Statewise regulated markets and grading units in brackets were as follows: Andhra Pradesh 123 (42); Assam—(16); Bihar 141 (12); Gujarat 196 (19); Kerala 4(6); Madhya Pradesh 145 (15); Madras 82 (40); Maharashtra 338 (94); Mysore 155 (42); Orissa 43(6); Punjab 383 (22); Rajasthan 84 (11); Uttar Pradesh 2 (15); West Bengal—(22); Tripura 1(—); Delhi 3 (1); Himachal Pradesh—(4).

**Marketing, Processing:** The main features of the programme are:— (1) Linking credit with marketing in the form of marketing societies; (2) Developing processing and distribution of farming requisite on co-operative lines, and (3) Promotion of storage and warehousing.

### COLD STORAGE

The wastage on fruits and vegetables produced in the country amounts to 15 to 20 per cent due to want of proper storage and marketing facilities.

The Cold Storage Order, 1965 issued under the Essential Commodities Act, 1965, came into force from Jan. 1, 1965. It makes obligatory for all cold storages with a capacity of 300 cft. or more for storing articles of food like fruits, milk, dairy products, eggs, fish, vegetables, potatoes etc., to take licences for the purpose from Agricultural Marketing Adviser to the Government of India. Since the promulgation of the order, 560 licences were granted.

The present capacity of cold storage in the country is about 2.5 million maunds provided by 200 cold storages mostly run by private traders.

The total number of Central Warehouses, under the Central Warehousing Corporation, functioning in the country at the end of 1966 was 85 with a total capacity of 4.40 lakh tonnes.

### AGRICULTURAL ECONOMICS

The Directorate of Economics & Statistics is one of the main organizations under the Central Government which deals with all agro-economic problems in the sphere of food and agriculture. It also co-ordinates all works relating to planning in agriculture sector, including financial reserves for the development programme, policies and procedures in Central and State Sectors.

The Directorate has a scheme for the improvement of marketing intelligence. This has been implemented in all States and Territories. Arrangements have been made for broadcasting daily prices of important agricultural commodities and weekly reviews on food and price positions on the rural programme of AIR. Market news bulletins are also issued regularly in regional languages for wider dissemination. About 500 markets in relation to 70 commodities are covered in the broadcasts.

A Price Intelligence Organisation has been set up in the Directorate to study on a regular basis the flow of market supplies, market sentiment, factors leading to rise or fall in prices,

crop outlook, market behaviour etc. to advise the Govt. from time to time in formulating proper price control measures.

A research division has been set up in the Directorate to co-ordinate Farm Management investigations and also to conduct research in production economics. Various economic surveys on productivity aspects of agriculture and the pattern of input/output, agroclimatic alignment etc. are also taken up.

The statistical wing of the Indian Council of Agricultural Research does fundamental and applied investigation in statistics and also trains statisticians for field work. It has issued comprehensive Index of field experiments carried out in the different States during the last decade.

### SOIL CONSERVATION

It is estimated that in the country as a whole about 200 million acres are exposed to erosion. Out of this about 100 million come under land under cultivation, 50 million acres are fallow and other uncultivated land and 50 million are desert mainly in Rajasthan.

The co-ordination of soil conservation work between the States and Territories is achieved through the agency of the Central Soil Conservation Board which was set up in the Ministry of Food and Agriculture in 1953. Similar boards are also set up in most of the States and Territories.

During First and Second Plan period only 3.2 mil. acres were covered by the soil conservation. During the Third Plan period 10 mil. acres were expected to benefit from soil conservation measures against a target of about eleven million acres.

Altogether 10 research-cum-training centres have been established at the following places:—

1. Ootacamund (Madras) for erosion control in the Nilgiri and other hills;
2. Bellary (Mysore) for soil conservation studies in black soils;
3. Kotah (Rajasthan) with sub-centre at Agra for erosion control in the Chambal and Jumna ravines;
4. Jodhpur (Rajasthan) for afforestation in the Rajasthan desert;
5. Dehra Dun (U.P.) for studying problems of afforestation in the Sivalik hills with the sub-station at Chandigarh (Punjab) for training *chors* (hill torrents);
6. Vasad (in the Gujarat tract for erosion control in the ravines along rivers in Gujarat);
7. Chandigarh (outer Sivaliks);
8. Chatra (water shed management);
9. Agra (Yamuna ravines);
10. Ibrahimpatnam (Andhra) for tackling red soil problems. The Board proposes to set up one more in Orissa.

Research and training in soil and water conservation are intensified at the Regional Research Centres. An additional training course in soil conservation for Gazetted officers was started at the training centre at Ootacamund. During 1965-66, 99 officers and 246 assistants from different States have either been trained or undergoing training bringing the total of trained personnel to 249 officers and 1,153 assistants during the Third Plan period.

During 1965-66 over 165 soil conservation schemes to cover 3.668 mil. acres of contour bunding, 7.151 mil. acres under dry farming, 0.214 mil. acres under afforestation and pasture development, and 0.075 mil. acres of saline and alkaline soils, wastelands etc., were in progress. Centrally sponsored soil conservation schemes were in operation in the catchments of river valley projects in 14 States to reduce silt in dams and reservoirs. During 1965-66 about 0.2 mil. acres were expected to be treated bringing the anticipated achievement since initiation of Third Plan to about three-fourth of the Plan target.

An Integrated All-India Soil and Land Use Survey Scheme has been executed by the Central Soil Conservation Board with four Zonal Centres at Delhi, Nagpur, Bangalore, and Haringhata, with effect from 1st March 1959. Under this scheme 8.849 mil. acres were surveyed upto 1964-65 and 1.9 mil. acres were expected to be covered during 1965-66.

### NEW SCHEMES

#### Agricultural Research

Out of the crosses made between Indian and Japanese rice varieties to evolve high-yielding non lodging varieties capable of responding to heavy fertilisation, *Hybrid ADT 27*, released in Madras State gave over 5,000 lb. per acre and matured in 90 to 100 days, permitting double cropping. Far superior to the Indo-Japanese hybrids were the foreign varieties of Taichung Native-1 which has yielded 7,000 to 8,000 lbs. per acre and *Tainan-3* which gave indication in Kerala as being even superior to Taichung Native-1. In wheat, similarly, the foreign varieties *Sonora-64* and *Lerma Rojo* have been selected for development along with the local varieties; (i.e. NP 846, resistant to all the three rusts and smut, suitable for the low hills; NP 818 suitable for higher elevations, and the early maturing NP 202 suited to the Nilgiris). The Hybrid C-306 with better grain quality and adaption to high fertility conditions, has been recommended for the Northern plains, however. In sorghums the hybrid *CSH-2* suitable for late Kharif season and yielding 30 to 40 per cent more than *CSH-1* has been released and in bajra, hybrid *BB-1* which yields about 30 mds. of grain with 40 lbs. nitrogen under irrigated conditions. Coordinated research schemes are proposed for rice, wheat, barley, sorghum, millet and pulses in the IV Plan for overall studies on these major food grains for their better production.

The finding that chemical amendments, green manure, farmyard manure and powdered gypsum help in correcting saline and alkaline soils has been confirmed in Andhra Pradesh, Kerala, Punjab and Uttar Pradesh. It was noticed in Andhra Pradesh that addition of one to two months old *Pillipesara* (*Phaseolus trilobus*) and six month old *casia* (*Cassia auriculata*) to the soil increased the organic matter by about one per cent and nitrogen by 0.2 per cent of soil and stimulated microbial population. Data collected during the course of about 15,000 fertilizer demonstration trials conducted during 1962-63 revealed that the Paddy yield varied from 10 to 20 quintals per hectare in the major rice growing States. Similar data of 79 experiments on rice at 20 centres, under the Model Agronomic Experiments Schemes showed that the application of 44.8 kg nitrogen per hectare gave a response of 3.9 quintals with an average response to 44.8 kg phosphorus of 0.6 quintal per hectare. The training programme for agricultural workers at the State level under the Fertilisers Demonstration Scheme, has been completed in Punjab, Rajasthan, Uttar Pradesh, Gujarat, Madhya Pradesh, Madras, Kerala and Orissa. Weeds in wheat and millets were effectively put down by pre-emergence treatment with 2, 4-D while MCPB gave a good account of checking weeds of pea and 3-4 DPA in weeds of rice.

Cocoa cultivation is to be extended during the Fourth Plan and suitable areas are being located and parent trees selected in the States. All India Coordinated Research Projects on eight fruits (mango, banana, citrus, grape, papaya, guava, pineapple and apple) and vegetables, on the lines of All India Project on maize, have been drawn up for the Fourth Plan.

#### Agricultural Education

Eight agricultural universities of the pattern of Land Grant Colleges have already been established in Bengal (Kalyani), in Orissa (Univ. of Agri. and Technology, Bhubaneswar), Punjab (Chandigarh), Rajasthan (Udaipur), U.P. (Pantnagar), Andhra (Rajendranagar), Madhya Pradesh (Jabalpur), and in Mysore (Hebbal). Four more agricultural universities are proposed to be established during the Fourth Plan period including one in Maharashtra and another in Madras State. The Indian Agricultural Research Institute, New Delhi, now declared as the only National institute for agricultural research in India also gives coaching and examination and tests for post graduate degree courses in agricultural diplomas.

There are 70 agricultural colleges in India.

## LAND POLICY

The land policy of the Government of India has been formulated for the promotion of agricultural production and for the provision of social justice in the rural economy. The policy of "Land to the Tiller" followed during the last 1½ decades has helped to establish owner cultivators on a large scale borne out by the census data of 1961. Out of every 100 cultivators, 76 were owner cultivators, 16 owner cum tenant cultivators and only 8 were pure tenant cultivators. The agrarian reform undertaken by the various State Governments during the past few years fall generally into four broad classes:—

- (1) The abolition of intermediaries.
- (2) Tenancy reform designed to, (a) Scale down rents to 1/4–1/5 of the produce, (b) to give permanent rights to the tenants (subject to the landlord's rights to resume a minimum holding for his personal cultivation within a limited time) and (c) to enable tenants to acquire ownership of their lands (subject to the landlord's right of resumption for personal cultivation) on payment of moderate compensation to the landlord spread over a period of years.
- (3) Fixation of ceiling on holdings.
- (4) Reorganisation of agriculture including (a) Consolidation of holdings, (b) Prevention of fragmentation and (c) Development of co-operative village management and co-operative farming.

The view taken in the Planning Commission is that once the land is redistributed on the basis of the current legislation, the land system should not be disturbed for a period of about 15 years thereafter.

### Land Reforms

The abolition of intermediaries in the rural areas had been carried out practically all over the country and about 20 million tenants of former intermediaries had come into direct relationship with the State Govts. becoming owners of their holdings.

### ABOLITION OF INTERMEDIARIES

The programme for the abolition of intermediary tenures has been almost entirely completed.

The position with regard to the abolition of intermediaries in the country as a whole is as follows:

|                                                                                  | In million acres | Percentage of total area. |
|----------------------------------------------------------------------------------|------------------|---------------------------|
| Area in which intermediary tenures existed ..                                    | 343.8            | 43                        |
| Area in which legislation for the abolition of intermediaries has been passed .. | 322.3            | 40                        |
| Area in which the abolition of intermediaries has been effected ..               | 306.0            | 38                        |
| Area in which intermediaries remain ..                                           | 37.8             | 5                         |

### TENANCY REFORM

The principal features of tenancy reforms are (a) security of tenure for tenants, (b) regulation of rent and (c) conversion of tenements into owners.

With the abolition of intermediaries, the tenures come under two broad categories, i.e. (i) owners who hold land directly from the State; (ii) and the tenants who hold land from owners. Their rights and obligations are regulated under tenancy laws enacted in the States. Thus the multiplicity of tenancy has been considerably reduced, and in the most parts, tenants who hold land under intermediaries have now become owners of land.

**Regulation of rent—Land revenue assessment:** Legislation has been adopted in all States for the regulation of rent. The Plan recommendation is that it should not exceed one-fourth or one-fifth of the gross produce. But the rent fixed,

however, varies with the State. Legislation has been enacted in all the States for regulating maximum rents which a landlord may receive.

**Security of Tenure:** Legislation providing security of tenure has been enacted in all the States.

**Resumption:** Legislation has been put through in most of the States prescribing a basis for the resumption of the land by the landlords.

**Ownership Right for Tenants:** Tenants were declared owners on payment of compensation to owners in almost all States.

The following table shows the number of tenants who have been conferred with ownership rights and the area respectively in each State.

| States/Territories    | No. of tenants | Area for which ownership conferred (acres) |
|-----------------------|----------------|--------------------------------------------|
| Andhra (Telangana) .. | 33             | 202                                        |
| Gujarat ..            | 462            | 1,408                                      |
| Madhya Pradesh ..     | 24             | 28                                         |
| Maharashtra ..        | 618            | 1,674                                      |
| Punjab ..             | 22             | 147                                        |
| Uttar Pradesh ..      | 1,500          | 2,000                                      |
| West Bengal ..        | ..             | 800                                        |
| Delhi ..              | 29             | 39                                         |
| Himachal Pradesh ..   | 24             | 28                                         |
| Tripura ..            | 10             | 12                                         |

**Compensation to Landlords:** The joint committee on the Constitution (17th Amendment) Bill has recommended on March 25, 1964, that no land under personal cultivation held within the prescribed ceiling limits can be acquired by the State without payment of compensation at a rate not less than its market value.

For the purpose of achieving this object, Clause I of Article 31A of the Constitution has been suitably amended.

Compensation payable by tenants for the acquisition of ownership varied from State to

State except in the Punjab (where it is fixed at 1/3 of the average market value). Compensation is generally a multiple of rent or land revenue. In Andhra (Hyderabad 6–15); Madhya Pradesh (Madhya Bharat: 2–8 of the net income of landlord); Ajmer: 12; former Vindhya Pradesh: 15; former Madhya Pradesh (7–10); Rajasthan: 15 (for unirrigated lands); 10 and Uttar Pradesh 10.

In the Travancore part of Kerala it is fixed at eight and a half times the net annual income.

The compensation is fixed as a multiple of the assessment in five States:—Gujarat and Maharashtra: 20–200 times of the assessment; Delhi: 20–40; Himachal Pradesh: 48 and Punjab (PEPSU): 90 times of the assessment. This compensation is generally payable in instalments (except in former Madhya Pradesh) spread over a period of 5–15 years.

### FIXATION OF CEILING

**Ceiling on Holding:** There is a general movement towards fixing a maximum and minimum on land holdings, as an aspect of land reform. This relates to (1) the absolute amount of land which any individual may hold and (2) the future acquisition of land.

Legislation placing ceiling on agricultural holdings have been enacted in all states and territories except Punjab\*. Though there is no outright ceiling on ownership in Punjab\*, the Government is empowered to settle ejected tenants on lands under personal authorities of owners in excess of the prescribed limits.

State-wise existing and future agricultural holdings in brackets respectively in acres, allowed by any individual, are as follows:—Andhra Pradesh 27–324 (12–200); Assam 50 (50); Bihar 20–60 (20–60); Gujarat 19–132 (19–132); Jammu & Kashmir 22½ (22½); Kerala 15–37½ (15–37½); Madhya Pradesh 25–75 (25–75); Madras 24–120 (24–120); Maharashtra 18–126 (12–126); Mysore 27–216 (18–144); Orissa 25–100 (25–100); Punjab\* 30 Standard (30 Standard); Rajasthan 30 Standard (30 Standard); Uttar Pradesh 40 (12½); West Bengal 30 Standard (30 Standard); Delhi 30 Standard (30 Standard); Manipur 25 (25); Tripura 25–75 (25–75).

### SURPLUS LAND

As a result of implementation of legislation for ceilings on holdings considerable acreage has become surplus and allotted to tenants etc. as below:—

#### Land declared surplus & allotted:

| States                  | Declared surplus (Lakh acres) | Allotment made                                                                                                                                 |
|-------------------------|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Andhra .. .. .          | 0.520                         | ..                                                                                                                                             |
| Assam .. .. .           | 0.21                          | 6,000 acres were taken over and tenants converted into owners.                                                                                 |
| Bengal .. .. .          | 7.8                           | State Government took possession of 4.35 lakh acres of agricultural land and leased out temporarily to landless person pending final disposal. |
| Jammu & Kashmir .. .. . | 4.5                           | Distributed to tenants.                                                                                                                        |
| Maharashtra .. .. .     | 1.4                           | 37,000 acres were taken over and placed under the management of the Maharashtra State Farming Cooperation set-up for the purpose.              |
| Punjab* .. .. .         | 4.2                           | 1.22 lakh acres settled by tenants and landless people.                                                                                        |
| U.P. .. .. .            | 2.0                           | Of this 1.65 lakh acres were taken possession of and 89,000 acres distributed.                                                                 |

In Assam, Bihar, Delhi, Gujarat, Madhya Pradesh, Maharashtra and parts of Tripura provisions of the Bill have been enforced and implementation is progressing.

### CONSOLIDATION

(a) **Size of Holding:** The average size of a holding for the whole of India is 7.5 acres, but this varies from State to State: Assam 5.3 acres, Bihar 4.1 acres, M.P. 13.9 acres, Madras 9.7 acres, Orissa 5.6 acres, Punjab 11.8 acres, U.P. 5.3 acres, W. Bengal 4.7 acres.

Kashmir 8.8 acres, Kerala 2.4 acres, Mysore 7.2 acres, Rajasthan 16.9 acres.

The majority of the holdings will be less than 5 acres, a great majority indeed less than 2.

The proportion of households that held either no land or less than five acres was about three-fourths, and the total share was about one-sixth of the whole area of cultivated land.

Legislation has been enacted in most of the States and in the Delhi and Himachal Pradesh

\* Composite State.

territories for prevention of holdings and consolidation of fragmented holdings. Consolidation has been completed over 54.9 million acres by the end of the fourth year of the Third Plan. During 1965-66 about 5 million acres were expected to be brought under consolidation of holdings.

State-wise consolidation effected upto 1964-65 in million acres was as follows: Andhra State 0.81; Assam —; Bihar 0.15; Gujarat 1.76; Jammu & Kashmir 0.01; Madhya Pradesh 0.25; Madras—; Maharashtra 4.16; Mysore 0.58; Orissa—; Punjab† 21.84; Rajasthan 0.97; Uttar Pradesh 14.55; West Bengal—; & Delhi 0.13; Himachal Pradesh 0.31.

In the Fourth Five Year Plan it is proposed to spend Rs. 100 million for subsidy and loans to new settlers and Rs. 320 million for consolidation of holdings to extend the programme to another 56 million acres.

(b) **Prevention of Fragmentation:** Legislation disallowing fragmentation has either been enacted or in the process of enactment in fifteen States. It has not been implemented in Bengal, Orissa & Punjab†. Bills are under consideration in non-Hyderabad portion of Andhra Pradesh, U.P. below 6½ acres; former Hyderabad below a basic holding ranging from 2-24 acres; Rajasthan below a size to be determined by the State Government; Delhi below 8 standard acres; Madhya Pradesh below 5 acres of irrigated or 10 acres of dry land.

#### CO-OPERATIVE FARMING

The main purpose of such type of farming is to secure economy in the use of machinery, and the advantages of large-scale farming.

#### FIVE-YEAR PLANS

The outlay for agricultural programmes from First, Second and Third Plan respectively were Rs. 5,700 mill., 9,440 million and 19,150 million.

In the Second Plan agricultural programmes were intended to provide adequate food to support the increased population and the raw materials needed for a growing industrial economy and also to make available larger exportable surpluses of agricultural commodities. The basic objective of the Third Five Year Plan was to achieve self-sufficiency in foodgrains and increase the production of other agricultural and commercial crops to meet the requirements of the industry and the export trade.

Reiterating the objects of the Third Plan, the Agricultural programme in Fourth Plan is given the highest priority leading to a compound rate of growth of 5.59 per cent per annum in farm

production, 5.92 per cent in food grain and 5.01 per cent in other crops.

The Fourth Plan envisages to step up output of lateral rubber from 50,000 tonnes (1965-66) to 72,000 tonnes in 1970-71; coffee from about 60,000 tonnes to 85,000 tonnes and tea from 375 million kilograms to 454 million kilograms in the same period. The export increase envisaged during the same period in coffee is from 27,000 to 45,000 tons and tea from 197 million kilograms (1965-66) to 300 million kilograms in 1970-71. The Fourth Plan outlay fixed for the agricultural programmes is Rs. 2,490 crores. The production target for foodgrains is 120 million tonnes.

The following table shows the estimates of agricultural production at the end of Fourth Plan period.

| Commodity       | Unit                    | Base level<br>1965-66 | Additional<br>production<br>Fourth<br>Plan | Estimates of<br>production<br>at the end of<br>Fourth Plan | Percentage<br>increase over<br>the base<br>level |

3: President's rule in Goa, Daman & Diu.  
6: India beats Brazil to enter challenge round of Davis Cup.  
14: India, U.A.R., Yugoslavia announce trade, commerce & development collaboration.  
17: Akali leader Sant Fateh Singh begins fast, threatens self-immolation, demanding abolition of link between Punjab and Haryana, inclusion of Chandigarh in Punjab and Control over Bhakra dam.  
19: India triumphs over Pakistan in the hockey final of the Asian games with an extra-time goal at Bangkok meet.  
21: V. K. Krishna Menon quits Congress.  
26: Sant Fateh Singh ends fast.

## FOURTH FIVE YEAR PLAN

The size and pattern of outlays and investments proposed in the draft outline of the Fourth Plan for the public and private sectors are given in the table below. The total outlay proposed is Rs. 23,750 crores, consisting of Rs. 16,000 crores in the public sector and Rs. 7,750 crores in the private sector.

Table 1. Outlay and investment: public and private sectors

| Head of development                                      | Total         | Public Sector  |               | Private sector Investment | Total Investment | Total Plan outlay (public and private sectors) |
|----------------------------------------------------------|---------------|----------------|---------------|---------------------------|------------------|------------------------------------------------|

\* Includes Rs. 24 crores for Temghat Dam (Bokaro). † An additional amount of about Rs. 70 crores has been provided for scientific research under agriculture, health, industry, irrigation etc. bringing the total provision to Rs. 210 crores for scientific research as a whole.

‡ Department of Family Planning has proposed an additional outlay of Rs. 144 crores in the Fourth Plan.

@ Part of the inventories under public sector is covered in sectoral outlays part will be financed through the banking system.

The public sector will account for 64 per cent of the total investment in the Fourth Plan as against 61 per cent envisaged in the Third Plan and is expected to raise its share in the reproducible tangible wealth of the country from 35 per cent in 1965-66 to 43 per cent in 1970-71. Table 4 shows the investment pattern in public and private sectors in the Fourth Plan compared to the pattern envisaged in the Third Plan document. The actual amounts of investment in the Third Plan are likely to be higher than those given in the table.

Table 2. Investment in the Third and Fourth Plans.

| Organised industry and mining .. .. .                       | 1,520         | 1,050          | 2,570         | 3,936         | 2,350          | 6,286         |
| Transport and communications .. .. .                        | 1,486         | 250            | 1,736         | 3,010         | 630            | 3,640         |
| Social services and other programmes .. .. .                | 622           | 1,075          | 1,697         | 1,855         | 1,600          | 3,455         |
| Inventories .. .. .                                         | 200           | 600            | 800           | @             | 1,900          | 1,900         |
| <b>Total .. .. .</b>                                        | <b>6,800</b>  | <b>4,100</b>   | <b>10,400</b> | <b>18,600</b> | <b>7,750</b>   | <b>21,850</b> |

It may be mentioned that as against the total outlay of Rs. 23,750 crores indicated in Table 1, the outlays proposed earlier were Rs. 21,500—22,500 crores suggested in the Memorandum presented to the National Development Council in Oct. 1964 and Rs. 21,480 crores indicated in the document on "Resources, Outlays and Programmes" presented in September 1965. The provision in the Third Plan was Rs. 11,600 crores (Rs. 7,500 crores in the public sector and Rs. 4,100 crores in the private sector) It may be noted that the Fourth Plan outlay proposed at present and the earlier figures mentioned above are not strictly comparable on account of the devaluation of the rupee. Table 3 shows the relative position of the likely expenditure in the Third Plan and the outlays now proposed under each head of development.

Table 3. Comparative position of outlay in the Fourth Plan and likely expenditure in the Third Plan.

\* The Third Plan figures have been worked out on the basis of the actuals for the first four years of the Plan and likely expenditure for 1965-66. However it is felt that the total expenditure may be lower than Rs. 8,631 crores.

† Includes Rs. 22 crores for local works.

@ A lump sum out of Rs. 3 crores was effected by Punjab State Government in 1965-66. Therefore the expenditure figure will be Rs. 8,628 crores.

The distribution of outlay between the Centre, States and Union Territories under different heads of development in the Fourth Plan, may be seen from Table 4.

Table 4. Fourth Plan outlay—Centre, State and Union Territories.

\* Includes provision of Rs. 13 crores for anti-sea erosion works in Kerala and Rs. 85 crores for Rajasthan Canal Project. \*\* Includes provision for : (1) Atomic power station, Rs. 157 crores ; (2) Neyveli power station, Rs. 27 crores ; (3) D.V.C. Rs. 46 crores ; and (4) other schemes Rs. 30 crores. \*\*\* For Rural Industries projects. † Includes Rs. 25 crores for Talcher Complex. @ Includes provision of Rs. 236 crores for national highways, Rs. 70 crores for the Lateral road and Rs. 42 crores for others. @@ Outlay for Union Territories included under Centre. ‡ Includes provision of Rs. 15 crores for urban development.

**AGRICULTURE, COMMUNITY DEVELOPMENT AND COOPERATION**

In view of the critical importance of agriculture and the recent experience of short-falls, agricultural programmes as well as the production and supply of various inputs for agriculture will

be given the highest priority during the Fourth Plan. Taking into consideration the likely increase in demand for foodgrains and other related factors, efforts will be made to step up foodgrains production to 120 million tonnes by the end of the Fourth Plan. In making this estimate the actual production in 1964-65 (as well as the pro-

duction potential created by 1965-66) has been considered as the base and not the actual production in 1965-66 as that year was very abnormal. Table 5 indicates the estimates of agricultural production for the Fourth Plan along with achievements (in terms of production potential) at the end of the Third Plan :

**Table 5, Production Estimates**

| Commodity               | Unit           | 1964-65 | 1965-66<br>(base level<br>potential) | 1970-71<br>(estimated<br>production) |

| Organic manures and green manuring        |                                    |            |             |                       |
| (a) Urban compost .. .. .                 | Million tonnes                     | 5.10       | 3.40        | 5.40                  |
| (b) Green manuring .. .. .                | Million acres                      | 41.00      | 21.50       | 64.00                 |
| Area under improved seeds                 |                                    |            |             |                       |
| (a) High yielding varieties .. .. .       | "                                  | —          | —           | 32.5                  |
| (b) Other varieties .. .. .               | "                                  | 204.0      | 120.0       | 241.5                 |
| Plant protection .. .. .                  | "                                  | 50.0       | 41.0        | 137.0                 |

\* includes 12 million acres newly irrigated area besides the area benefited by drainage, flood control, etc.

As compared to the achievements in the Third Plan, the targets for the Fourth Plan imply a considerable increase in physical programmes. There will be about four-fold increase in fertilizers and doubling of the programme under soil conservation and improved seeds. Green manuring is expected to be increased three-fold during this period.

**POWER**

The installed generating capacity will be 20 million kW by March 1971 as against 10.2 million kW at the end of the Third Plan. Under rural electrification programmes, 11.8 lakh electrical pump-sets will be energised and 110,000 villages and towns will be electrified by the end of the Fourth Plan as against 4.8 lakh electrical pump-sets and 52,300 villages and towns electrified by the end of the Third Plan.

**VILLAGE AND SMALL INDUSTRIES**

The target of production of cloth in the decentralised sector which includes handloom, powerloom and khadi has been set at 4,572 million metres by the end of the Fourth Plan, as against the estimated production of 3,146 million metres in 1965-66. The production of raw silk is envisaged at 31.0 lakh kgs. by the end of 1970-71 as against 21.5 lakh kgs. in 1965-66. It is proposed to set up 250 new industrial estates as against 300 completed by 1965-66.

A total provision of Rs. 370 crores is being made in the public sector for these programmes during the Fourth Plan. Investment in the private sector is estimated at about Rs. 320 crores, excluding inventories.

**INDUSTRY AND MINING**

The programme for the Fourth Plan provides highest priority to the industries manufacturing industrial inputs for agriculture, such as, fertilizers, pesticides, farm equipment, etc.; metals and machine building industries including steel, aluminium, zinc, etc.; intermediate goods industries, namely, industrial chemicals, petroleum, coal, iron and steel castings and forging, refractories and cement; and industries which produce essential consumers goods such as sugar, cloth, kerosene, etc. In implementing the above industrial programme, efforts will be made to utilise the existing capacity fully through appropriate balancing investments, to complete the projects carried over from the Third Plan quickly and to create additional capacity more expeditiously and with less investment by the expansion of the existing units in preference to the establishment of new units. The fairly substantial spill over from the Third Plan makes the task in the Fourth Plan less difficult than it may *prima facie* appear to be.

The industries in which a major role has been assigned to the public sector in the Fourth Plan are iron and steel, coal, industrial machinery including heavy electrical machinery, petroleum including refining, fertilizers, basic chemicals and essential drugs, etc. Although a capacity of about 14.8 million tonnes of steel ingots is expected to be created by the end of the Fourth Plan, the production is likely to be of the order of 11.7 million tonnes. Besides expansion of existing plants both in the public and private sectors, the fourth steel plant at Bokaro will provide an additional capacity of 1.7 million tonnes of steel ingots and 880,000 tonnes of pig iron. Provision has also been made for preliminary works on some new sites for steel plants. To meet the demand for alloy and tool steel, the capacity of the Durgapur plant will be trebled and other capacities in the public and private sectors will be increased so that the need for import of special steel may be eliminated by the end of the Fourth Plan. Aluminium production will be substantially increased and the development of additional copper mines at Rakha, Daribo and Agnigondala will be taken in hand on a priority basis. In the field of heavy machinery and machine building industries, self-sufficiency will be achieved in respect of thermal and hydro-generating sets, power boilers, transformers, large-sized electric motors, etc. The heavy machine building complex

at Ranchi with a capacity of 80,000 tonnes of metallurgical and other heavy equipment will be completed and production will be increased to meet about half the demand for metallurgical equipment in the new steel plants by 1970-71. The Fourth Plan programmes also include the establishment of new fertilizer units at Durgapur, Kotah, Goa, Cochin, Madras, Kanpur, Kathgodam and Haldia, besides expanding some of the existing units. The State Governments are expected to assume a special responsibility in regard to Industrial Development Corporations, industrial development areas and promotion of cooperative enterprises in cotton spinning, sugar and other agricultural processing industries.

#### EMPLOYMENT

During the Fourth Plan period, increase in the labour force will be of the order of 23 million. The Plan as formulated is expected to provide additional employment opportunities to the extent of about 14 million outside agriculture and

4.5 to 5 million in agriculture, or a total of 18.5 to 19 million. The rural works programme is likely to provide work during slack agricultural seasons to about 1.5 million persons in terms of 100 days of work in the year. In many parts of the country, it would be necessary to maintain a close watch on the employment situation and to be in readiness to provide additional work opportunities. This would be specially important in densely populated and the more backward regions. At the same time through coordinated implementation and efficient use of available capacities at the district and area levels, efforts should be made to achieve the maximum employment possible.

#### NATIONAL INCOME

If the targets envisaged for the Fourth Plan are fully achieved, national income, it is estimated, will rise to Rs. 30,530 crores by 1970-71

at 1965-66 prices. However, in view of factors like adverse weather, delays in securing external credits or in implementation and other unforeseen developments, it may be prudent to allow for a margin in the estimate of increase in national income over the Fourth Plan period: likely national income in 1970-71 may, therefore, be put at about Rs. 29,500 crores at 1965-66 prices. If this level of national income is achieved, it will imply an increase of 38 per cent over the 1964-65 level (Rs. 21,400 crores) or 48 per cent over the estimated actual level of national income in 1965-66 (Rs. 19,900 crores) at 1965-66 prices. Since 1965-66 was an abnormal year, the increase between 1965-66 and 1970-71 appears rather large. It would be more realistic to look at the increase in terms of the rise over 1964-65. On this basis the compound rate of growth for the period 1964-65 or 1970-71 would be about 5.5 per cent per annum. Per capita income will go up from Rs. 448 in 1964-65 to Rs. 532 in 1970-71 i.e. by 3 per cent per annum (compound).

NOTE : For the items : Foodgrains, cotton, oilseeds, jute and tobacco, the figures for the years—1950-51, 1955-56 and 1960-61 are adjusted estimates with 1960-61 as the base, while in the case of sugarcane (gur), the base taken is 1961-62 (fully revised). † Basis of estimation has been revised. ‡ Bale of 180 kgs. each. § Increase over 1955-56. † Figures relate to the five year period ending with that year except those for 1964-65 in which case it relates to the four year period 1961-62 to 1964-65. £ Increase over additional over the respective Plan periods. — Relates, to supply position. p Represents increase over ten times. n.a. Not available. n.f. Not fixed. \* Represents increase over the addition during 1961-62 to 1964-65. \*\* Represents increase in the addition of 1964-65 over the achievement of the First Plan. § Calendar year. \*† Figures relate mostly to calendar years. @ Figures relate to the years 1951-56. neg.: Negligible.

## STATE PLANS

The Centre will meet almost half of the States' Fourth Plan outlays, as finalised by the Planning Commission. This means a reduction in the Centre's share of assistance to the States' Plan outlays, compared with the Third Plan, when the former's share was a little more than 60 per cent.

On the other hand, the State Governments have agreed to raise Rs. 3,500.3 crores in all for Fourth Plan schemes. This included current revenues, additional mobilisation of resources and loans from the open market.

The total Fourth Plan outlay of all the States amounts to Rs. 7,071.7 crores, of which Central assistance will be to the tune of Rs. 3,571.4 crores. This excludes Plan outlays of Union Territories, which are allocated Rs. 393.48 crores as their total outlay. The final figures of Central assistance to States shows an increase of Rs. 27.7 crores compared with Rs. 3,500 crores envisaged in the draft outline of the Fourth Plan.

The Fourth Plan outlays of each State, with the resources they were prepared to raise and the amount of Central assistance are respectively (in crores of rupees):—

Andhra Pradesh 522.0, 242.0, 280.0; Assam 190.0, 15.0, 175.0; Bihar 545.0, 253.0, 292.0; Gujarat 466.0, 281.0, 165.0; Haryana 168.4, 77.0, 91.4; Jammu and Kashmir 126.0, 19.0, 126.0; Kerala 293.0, 111.0, 182.0; Madhya Pradesh 458.0, 170.0, 288.0; Madras 564.0, 314.0, 250.0; Maharashtra 951.0, 690.0, 261.0; Mysore 421.0, 199.0, 222.0; Orissa 300.0, 150.0, 150.0; Punjab 280.0, 185.0, 95.0; Rajasthan 313.5, 86.5, 227.0; Uttar Pradesh 925.8, 430.8, 495.0; West Bengal 538.0, 293.0, 245.0; Nagaland 30.0, 3.0, 27.0.

The Plan outlays of Union Territories (in Rs. crores) are as follows:—Andamans and Nicobar Islands 11.00, Chandigarh 7.59, Dadra and Nagar Haveli 2.40, Delhi 155.64, Goa, Daman and Diu 40.24, Himachal Pradesh 94.38, Laccadive, Amindivi and Minicoy Islands 2.26, Manipur 24.27, NEFA 12.65, Pondicherry 12.25, Tripura 30.80.

The available details of State-wise Plan outlays are as follows:

**Andhra Pradesh:** Andhra Pradesh's Fourth Plan outlay has been determined at Rs. 522 crores as against Rs. 350 crore during the Third Plan.

Besides the Rs. 522 crores for the Plan, the Centre would further allot schemes of the order of Rs. 40 crores under the Centrally-sponsored schemes.

The Centre's share of contribution to the State Plan would be Rs. 280 crores.

**Assam:** The Planning Commission tentatively approved a Rs. 190 crore Fourth Plan for Assam.

The State's contribution to the Plan would be Rs. 15 crores. The Central assistance would be Rs. 175 crores.

The size of the States' Third Plan was Rs. 130 crores. Of the Rs. 190 crores, a sum of Rs. 30 crores is earmarked for the development of hill areas.

**Bihar:** The Plan outlay for Bihar would be Rs. 545 crores for which the Central assistance would be Rs. 292 crores.

**Gujarat:** A total outlay of Rs. 446 crores has been approved by the Planning Commission as against Rs. 236.5 crores during the Third Plan.

It is estimated that State resources during the Fourth Plan will be about Rs. 281 crores. The Central assistance to the State will be about Rs. 165 crores.

In addition, it is expected that Centrally-sponsored schemes, costing Rs. 20 crores, will be transferred to the State in the Fourth Plan.

For agricultural programmes, including co-operation and community development, an allocation of Rs. 86 crores has been made in the State's Plan. For irrigation Rs. 90 crores have been allocated and for power about Rs. 113 crores. This includes adequate provision for electrification of wells for irrigation purposes as well.

It is proposed to complete the Ukai Project during the Fourth Plan period, for which adequate provision has been made in the State Plan. For Dhuvaran-Stage II power project, to be completed by 1969-70, there will be a provision of Rs. 35 crores. These and other power projects will raise the total installed capacity of electric power in the State from the present figure of 600 MW to over 1,200 MW by the end of Fourth Plan.

A provision of Rs. 9 crores has been made for a fertilizer factory, and of Rs. 20 crores for construction of the new Capital at Gandhinagar in the State during the Fourth Plan.

**Haryana:** A total outlay of Rs. 169 crores has been approved for Haryana's Fourth Plan. In addition, Centrally-sponsored schemes of the order of Rs. 6 crores will be transferred to the State sector during the Fourth Plan period. This will bring the total size of Haryana Fourth Plan to Rs. 175 crores. The Central assistance will be Rs. 91 crores.

Haryana resources have been estimated at Rs. 77 crores.

The main sectoral allocations for Rs. 169 crore plan, which are subject to marginal adjustments, are (in crores of rupees):

Agricultural programmes 29.10, co-operation & community development 3.00, irrigation & power 43.00, multipurpose projects (Bhakra-Nangal and Beas) 45 (provisional Haryana share); industry & mining 9.50, transport & communications 8.95, social services 29.59, and miscellaneous 0.82.

**Jammu & Kashmir:** A tentative total outlay of Rs. 126 crores has been fixed by the Planning Commission for the Fourth Five Year Plan of Jammu & Kashmir State. The Central assistance would be Rs. 126 crores.

The allocation for agricultural programmes has been stepped up from Rs. 5.6 crores to Rs. 20 crores in the State's Fourth Plan. For other sectors the allocations are as follows: (in crores of rupees): community development and co-operation 3.7; irrigation & power 36; industry & mining 13.5; transport & communications 21.7; social services 23.8; others 7.

Electric power generation will be substantially stepped up from the present installed capacity of 27 MW to nearly 100 MW by the end of Fourth Plan.

**Kerala:** A total outlay of Rs. 293 crores has been approved for the Fourth Five Year Plan of Kerala. In addition, Centrally sponsored schemes, costing Rs. 10 crores, are likely to be transferred to the State during the Plan period. Kerala's Fourth Plan will thus ultimately be of the order of Rs. 303 crores. The Central assistance would be Rs. 182 crores.

The allocations for main sectors of development, with the total outlay of Rs. 293 crores, are as follows (in crores of rupees): Agricultural programmes 56.08, co-operation and community development 8.90, irrigation & power 120.00, industry and mining 28.30, transport & communications 18.91, social services 60.13, and miscellaneous 0.68.

**Madhya Pradesh:** An outlay of Rs. 458 crores has been approved by the Planning Commission. The Central assistance would be Rs. 288 crores.

**Madras:** A total outlay of Rs. 564 crores has been approved.

According to present estimates, the State resources will be of the order of Rs. 310 crores, in addition to Rs. 4 crores to be raised by the

metropolitan authority of Madras with the assistance of the State Government in the Fourth Plan. The Central assistance has been assessed at Rs. 250 crores.

The main sectoral allocations in the State's Fourth Plan are as follows (in crores of rupees): Agricultural programmes 113.47, co-operation and community development 25.05, irrigation & power 213.56, industry & mining 44.08, transport & communications 25.10, social services 137.91 and miscellaneous 4.67.

**Maharashtra:** The overall size of Maharashtra's Fourth Plan has been fixed at Rs. 951 crores, against the Third Plan outlay of Rs. 390.20 crores. The Central assistance would be Rs. 261 crores.

The sectoral distribution of the outlay is as under (Rs. crores): Agricultural Programmes 204.65; Co-operation 19.01; C. D. and Panchayats 13.10; Irrigation Projects 175.00; Power Projects 221.98; Industry & Mining 32.18; Road Development 54.95; Other Transport and Tourism 16.75; General Education 73.68; Technical Education 18.36; Health 25.26; Water Supply and Drainage 55.00; Housing and Urban Development 23.69; Other Social Services (including Miscellaneous) 17.19; Total 951.00.

**Mysore:** An outlay of Rs. 421 crores has been approved by the Planning Commission for Mysore's Fourth Five Year Plan. The Central assistance would be Rs. 222 crores.

**Nagaland:** A total outlay of Rs. 30 crores has been approved for the Fourth Five Year Plan of Nagaland. The Central assistance would be Rs. 27 crores.

The tentative allocations for main sectors of development (in crores of rupees) are as follows: Agricultural programmes 5.03; co-operation & community development 1.70; power 2.00; industry & mining 2.47; transport & communications 8.90; social services 9.42; and miscellaneous 0.48.

**Orissa:** A total outlay of the order of Rs. 300 crores has been fixed for Orissa's Fourth Plan. The Central assistance would be Rs. 150 crores.

The tentative sectoral allocations for the Fourth Five Year Plan, which are subject to marginal adjustments, are as follows (in crores of rupees): Agricultural programmes 57; co-operation and community development 15; irrigation & Power 100.68; industry & mining 39.50; transport & communications 29; social services 55.79; and miscellaneous 3.03.

**Punjab:** A total outlay of the order of Rs. 280 crores has been approved for Punjab's Fourth Five Year Plan by the Planning Commission. The Central assistance would be Rs. 95 crores.

The main sectoral allocations, subject to marginal adjustments, for the State's Fourth Plan, are as follows (in crores of rupees): Agricultural programmes 56.34, co-operation & community development 7.30, irrigation & power 63.04, multipurpose projects 66.60, industry & mining 17.33, transport & communications 16.30, and social services 50.40.

**Rajasthan:** A tentative total outlay of Rs. 313 crores has been fixed by the Planning Commission for the Fourth Five Year Plan of Rajasthan. This is about 50 per cent more than the expenditure on the State's Third Plan. The Central assistance would be Rs. 227 crores.

The main sectoral allocations proposed for Rajasthan Fourth Plan are (in crores of rupees): Agricultural programmes 43.04; irrigation & power 169.70; co-operation & community development 12.00; industry and mining 7.50; transport & communications 13.20; social services 62.51 and miscellaneous 5.52.

**Uttar Pradesh:** U.P.'s Fourth Plan allocation has been finalised and fixed at Rs. 926 crores. The Central assistance would be Rs. 495 crores.

## UNION TERRITORIES

Plan outlays for seven Union Territories namely Delhi, Goa, Daman and Diu, Himachal Pradesh, Laccadive, Minicoy and Amindivi Islands, Manipur, Pondicherry and Tripura, and the territorial unit of NEFA have been so far finalised. The details of the outlay are as follows:

**Delhi:** A total outlay of Rs. 155.64 crores has been approved by the Planning Commission.

The tentative allocations under main sectors of development for Delhi's Fourth Plan are as follows (in crores of rupees): Agricultural production 3; community development & co-operation 0.25; irrigation & power 48.00; industry 5; transport & communications 18.00; social services 70.11; miscellaneous 2.28.

**Goa, Daman & Diu:** A total outlay of Rs. 40.24 crores has been fixed by the Planning Commission for Goa's Fourth Five Year Plan, as against the Third Five Year Plan expenditure of Rs. 15.28 crores.

The outlays for main sectors of development for this Union territory (in crores of rupees) are as follows: Agricultural programmes 8.08; co-operation & community development 1.5; irrigation & power 7.62; industry & mining 1.74; transport & communications 5.64; social services 14.42; and miscellaneous 1.24.

**Himachal Pradesh:** A total outlay of Rs. 94.38 crores has been approved for Himachal Pradesh Fourth Five Year Plan by the Planning Commission.

The tentative allocations under main heads of development (in crores of rupees), which are subject to adjustment, are as follows: Agricultural programmes 26.50; community development and co-operation 3.50; irrigation & power 15.50; industry and mining 3.50; transport and communications 26.79; social services 18.00; and miscellaneous 0.59.

**Laccadive, Minicoy and Amindivi Islands:** The Fourth Plan outlay has been finalised at Rs. 2.26 crores by the Planning Commission. The following are the details of allotments:

Education Rs. 45 lakhs, medical Rs. 15 lakhs, housing Rs. 1 lakh, transport (shipping) Rs. 40 lakhs, power Rs. 10 lakhs, industries Rs. 3 lakhs, soil exploitation Rs. 1 lakh, co-operation Rs. 12 lakhs, fisheries Rs. 80 lakhs, agriculture Rs. 15 lakhs, animal husbandry Rs. 3 lakhs, statistical schemes Rs. 1 lakh, metric system Rs. 40,000.

Besides the Plan outlay, a sum of Rs. 80 lakhs has been provided by the Union Transport Ministry for developing navigation in Laccadives.

The Third Plan outlay for the Laccadive group had been Rs. 99 lakhs.

**Manipur:** A total outlay of Rs. 24.17 crores has been approved for Manipur's Fourth Plan by the Planning Commission.

The tentative sectoral allocations for the Fourth Five Year Plan are as follows (in crores of rupees): Agricultural programmes 2.84; co-operation and community development 1.00; irrigation & power 3.96; industry & mining

2.50; transport & communications 8.86; social services 6.31; and miscellaneous 0.70.

**Pondicherry:** A total outlay of Rs. 12.25 crores has been fixed for Pondicherry's Fourth Five Year Plan by the Planning Commission.

The tentative allocations for main sectors of development for Pondicherry's Fourth Plan (in crores of rupees) are as follows: Agricultural and community development programmes 2.42; education 2.64; health & water supply 2.18; irrigation & power 1.47; industry & mining 0.84; transport & communications 1.20; social services 1.42; and miscellaneous 0.21.

**Tripura:** A total outlay of Rs. 30.95 crores has been approved by the Planning Commission for Tripura's Fourth Five Year Plan, against the Third Plan expenditure of Rs. 15.51 crores.

The allocations for main sectors of development (in crores of rupees) are as follows: Agricultural programmes 5.50; co-operation & community development 1.40; irrigation & power 6.25; industry & mining 1.10; transport & communications 7.58; social services 8.50; miscellaneous 0.62.

**NEFA:** The Planning Commission has tentatively approved a total outlay of Rs. 16.08 crores for the Fourth Plan for the NEFA. This figure is a little more than double the total outlay of the Third Plan for the Agency.

The highest priority has been given to communications in the NEFA in the Fourth Plan. A total amount of Rs. 3 crores has been proposed for roads besides Rs. 75 lakhs for airstrips.

## THE PRESS

**THE** Annual Report of the Registrar of Newspapers for India for the year 1965 shows that there were 7,906 newspapers and periodicals including 525 dailies and 49 tri-weeklies and bi-weeklies, compared to 8,161 newspapers and periodicals including 514 dailies and 46 tri-weeklies and bi-weeklies in 1964. The figure for 1965 covers Jammu and Kashmir also.

The circulation of newspapers and periodicals rose by 5.5 per cent during 1965 (taking 4,137 common papers for which circulation data for 1964 as well as 1965 were available). The total circulation of these papers rose from 190.30 lakhs to 200.73 lakhs in 1965. The circulation of dailies common to both 1964 and 1965 rose by 8.8 per cent from 56.87 lakhs in 1964 to 61.87 lakhs in 1965. The total circulation of 5,042 papers, for which data were available, was 216.76 lakhs compared to 207.44 lakhs in 1964 (provisional), given in the last annual report.

Including 2,179 papers in the 'non-included categories', the total number of newspapers and periodicals on record at the end of 1965 stood at 10,085.

Of 7,906 papers at the end of 1965, 525 were dailies, 49 tri-and bi-weeklies and the remaining 7,332 were weeklies or periodicals brought out less frequently.

### CIRCULATION

Out of the total circulation of 217 lakhs in 1965, about 63 lakhs or 29.2 per cent was accounted for by dailies. Dailies including tri-and bi-weeklies, which have much affinity to daily papers, commanded a total circulation of 64.35 lakhs in 1965, weeklies commanded a total circulation of 63.35 lakhs and other periodicals 89.09 lakhs. The circulation of dailies rose by about 11 per cent over the previous year (preliminary) against 4.8 per cent rise in the circulation of all papers. The circulation of dailies and tri-weeklies together rose by 11.3 per cent from 57.8 lakhs in 1964 (preliminary) to 64.4 lakhs in 1965. The circulation of weeklies rose by 1.2 per cent from 62.6 lakhs in 1964 (preliminary) to 63.4

lakhs in 1965 and that of other periodicals rose by 2.3 per cent from 87.1 lakhs in 1964 (preliminary) to 89.1 lakhs in 1965.

In 1965 English language papers had the highest circulation (56.27 lakhs) followed by Hindi (39.71 lakhs), Tamil (25.18 lakhs), Malayalam (15.90 lakhs), Gujarati (14.60 lakhs), Marathi (14.39 lakhs), Bengali (11.57 lakhs) and Urdu (9.70 lakhs). Sanskrit had the lowest circulation, namely 6,000. Asamese had a circulation of 1.11 lakhs, Oriya 1.46 lakhs and Punjabi 2.58 lakhs.

In 1965, among the dailies, English had the highest circulation (16.58 lakhs), followed by Hindi (8.57 lakhs), Malayalam (6.91 lakhs) and Tamil (6.86 lakhs).

Of the total circulation of 217 lakhs in 1965, Maharashtra had the largest share (48.2 lakhs), followed by Madras (39.0 lakhs), Delhi (24.9 lakhs), West Bengal (20.9 lakhs), Kerala (18.4 lakhs) and Uttar Pradesh (18.3 lakhs). Nagaland and Himachal Pradesh reported the lowest circulation. (1,000 each).

Of the total circulation of 68.2 lakhs commanded by all dailies in India, Maharashtra had the largest share (12.7 lakhs), followed by Madras (10.3 lakhs), West Bengal (7.7 lakhs) and Kerala (7.2 lakhs). The lowest circulation was reported by Tripura (2,000).

Of the total circulation of 201 lakhs in 1965 of papers common to both 1964 and 1965, the biggest share was that of the dailies (61.8 lakhs). Monthlies and weeklies accounted for 60.9 lakhs and 59.3 lakhs respectively. As against the overall increase rate of 5.5 per cent, the circulation of bimonthlies, half-yearlies etc. common to 1964 and 1965 rose by 21.4 per cent, that of tri-weeklies and bi-weeklies by 11.5 per cent, weeklies 5.0 per cent. Quarterlies showed the smallest rate of increase 0.7 per cent. Annuals on the other hand, showed a decrease of 4.7 per cent.

**Readership:** The number of papers in India per lakh inhabitants was 1.7 for 1963, 1964 and 1965. Newspaper circulation per thousand inhabitants, computed on the above basis, worked

out to 50.6 and 50.9 in 1963 and 1964 respectively. The preliminary figure for 1965 was 44.5.

### OWNERSHIP

In 1965 there were fewer common ownership units and fewer papers owned by them than in 1964. Although the combined circulation of common ownership papers increased to some extent, their share of the total circulation showed only a nominal rise.

The combined circulation of dailies under common ownership was more than two-thirds of the total circulation of all dailies in the country. Their share of the total daily circulation in the metropolitan areas was as high as 93.3 per cent.

The predominant form of ownership of newspapers in 1965 was individual which accounted for 4,503 papers or 57.0 per cent of the total number. 'Societies and associations' (including religious societies) was the second biggest ownership category accounting for 1,585 papers (20.0 per cent). Firms and partnerships, joint stock companies (public and private limited) and Central and State Governments were the other important ownership categories accounting for 485 (6.2 per cent), 444 (5.6 per cent) and 396 (5.0 per cent) papers respectively in 1965.

The total number of papers owned by political parties in 1965 was 67 (including nine dailies, one bi-weekly and 29 weeklies) of which the Congress owned 33, the Communist Parties of India 18 and the Praja Socialist Party 6.

During 1960-65 the number of dailies (including tri-and bi-weeklies) under common ownership rose from 122 to 145, but the number of news interest weeklies under common ownership declined from 73 to 42. The total number of papers in 1965 under common ownership was 187, compared to 195 in 1960.

The circulation of common ownership dailies rose by 56.8 per cent from 27.54 lakhs in 1960 to 43.20 lakhs in 1965 and that of news interest weeklies by 48.3 per cent from 7.89 lakhs in 1960 to 11.70 lakhs in 1965. The total circulation of papers under common ownership rose by 54.9 per cent from 35.43 lakhs to 54.90 lakhs.

The largest number of news interest papers owned by a single common ownership unit in 1965 was 18 by the Express Newspapers which also owned the largest number of dailies (12) and the highest combined circulation (10.85 lakhs) for a common ownership unit. The unit also commanded the highest daily circulation (7.37 lakhs) for any common ownership unit during the year. The Bennett, Coleman and Co., Ltd. (10 papers) commanded the second largest circulation among common ownership units, namely 6.83 lakhs. The Hindustan Times and Allied Publications (8 papers) had a combined circulation of 2.64 lakhs only.

The combined circulation of 136 dailies owned by 59 common ownership units, for which circulation data were available, was 43.20 lakhs in 1965. This constituted 68.4 per cent of the total daily circulation. In 1964, 138 dailies owned by 63 common ownership units (for which circulation data were available) together accounted for a total circulation of 39.17 lakhs (67.8 per cent of the total daily circulation).

There were 22 common ownership units which together owned 51 dailies in the metropolitan centres (Delhi, Calcutta, Bombay and Madras) and accounted for 27.77 lakhs or 93.3 per cent of the total circulation (29.76 lakhs) of all metropolitan dailies.

### NEWSPAPERS

At the end of 1965 there were 7,906 newspapers and periodicals including 525 dailies, 49 tri-weeklies and bi-weeklies, 2,141 weeklies and 5,191 other periodicals as against 8,161 newspapers and periodicals including 514 dailies, 46 tri- and bi-weeklies, 2,311 weeklies and 5,290 other periodicals in 1964.

In 1965, newspapers were published in India in 43 languages in all and dailies in 20 languages. Besides, newspapers in the following further languages also came out in 1965 in the form of bilingual or multilingual papers: Bhilodi, Syriac; Dimasa; Halabi; Latin; Malvi; Pali; Pinar.

**Dailies:** In 1965 there were 525 dailies as against 514 in 1964. Twenty-eight news dailies and three tri-weeklies commenced publication in 1965 as against 27 new dailies and two new tri- and bi-weeklies in 1964.

The number and circulation of dailies language-wise in 1965 are given below (in descending order of circulation): English 56 papers (16.58 lakhs); Hindi 148 (8.57 lakhs); Malayalam 40 (6.91 lakhs); Tamil 28 (6.86 lakhs); Marathi 43 (6.27 lakhs); Gujarati 32 (4.86 lakhs); Bengali 8 (3.87 lakhs); Urdu 73 (3.22 lakhs); Kannada 37 (2.20 lakhs); Telugu 12 (2.07 lakhs); Oriya 4 (0.75 lakh); Punjabi 17 (0.41 lakh); Assamese 1 (0.07 lakh); Sanskrit 1 (circulation figure not available); Bilingual 12 (0.36 lakh); Multilingual 1 (0.01 lakh). Others 12 (0.22 lakh).

**Periodicals:** There were at the end of 1965, 7,332 periodicals. There were 396 periodicals brought out by the Government departments (227 Central Government and 169 State Governments) in 1965. These included 34 weeklies, 41 fortnightly, 175 monthlies and 111 quarterlies. As many as 188 among the Government-owned periodicals were in English, 89 in Hindi and 11 in Malayalam. Among Government publications were 16 papers in the language other than the principal ones. The total circulation of the Government publications for which data were available for 1965, was 5.0 lakhs or about 3.3 per cent of the circulation of all periodicals in the country. Government publications claimed 10.3 lakhs or 5.7 per cent of the circulation of all periodicals in 1964 (revised).

**New Publications:** During 1965, 953 papers commenced publication against 831 in 1964. In 1965, 28 new dailies were started as against 27 in 1964. The number of new publications was the largest in Hindi (261), English (173) and Urdu (78). The largest number of new weeklies was in Hindi (112) followed by Urdu (37) and English (24).

During 1965, 811 newspapers and periodicals ceased publication compared to 252 in 1964. These included 40 dailies as compared to 22 in 1964.

The number of papers which ceased publication was the largest in Hindi (239), followed by English (110) and Urdu (102). Of the 40 dailies which ceased publication in 1965, 18 were in Hindi and 5 each in Gujarati and Urdu. Among the weeklies which ceased, the largest number was in Hindi (139), followed by Urdu (51), Tamil (27) and English (24).

Of the 7,906 papers, more than one-third (2,843) were from the four metropolitan cities: Delhi, Calcutta, Bombay and Madras. State capitals (excluding metropolitan cities) accounted for 981 papers or 12.4 per cent of the total number of papers. Other cities with population of more than one lakh accounted for 2,311 or 30.0 per cent of the total number. Towns with population less than one lakh accounted for 1,771 papers or 22.5 per cent.

### Small Newspapers

The report of the Enquiry Committee on Small Newspapers was placed before the Lok Sabha by the Union Minister for Information and Broadcasting on March 9, 1966.

In arriving at the definition of a small newspaper, the committee took into consideration factors like the growth in population, rise in literacy, growing interest in public affairs and the need for small newspapers attaining economic viability. Considering the financial difficulties faced by small newspapers, the report desires that some relief in import duty on newsprint required by small newspapers, either by removing the duty altogether or by reducing it, should be given. The Central and State Governments should exempt the newsprint and white printing paper required by small newspapers from sales-tax, municipal octroi or any other duty of that kind.

The Committee has suggested in their report that Article 19 of the Constitution should be amended to make possible the implementation of the Newspaper (Price and Page) Act since the Supreme Court has struck down the price-page schedule. In the meantime, the Government should immediately enforce the schedule under the Essential Commodities Act.

The Committee has recommended that the Press and Registration of Books Act, 1867, should be amended to fix the responsibility for the publication of a journal on the publisher and the editor alone and to eliminate the responsibility of the printer.

The Committee is of opinion that newspaper consignments should be given preferential treatment where off-loading is unavoidable from planes. To facilitate the development of small newspapers, their representatives should also be given suitable concession in airfares by the Indian Airlines Corporation and other carriers. The postage rate should also be reduced to one paise per single copy weighing upto 50 gms. Fifty per cent of the current and future allocations of foreign exchange for the import of printing machinery should be set apart for the requirements of small newspapers and periodicals. The State Trading Corporation could also explore the possibilities of importing second-hand machines to save foreign exchange. The classification of small newspapers should be on the basis of circulation not exceeding 20,000 copies and gross revenue not exceeding Rs. 12.5 lakhs

in the case of dailies and 15,000 and Rs. 5 lakhs respectively in other publications.

**State Awards** :—Separate annual State awards should be instituted to encourage improvement in the production standards of the small newspapers and periodicals in three categories for each Indian language given in Schedule VIII of the Constitution. There should be three prizes in each category—Rs. 5,000; Rs. 2,000 and Rs. 1,000 for dailies; Rs. 3,000; Rs. 1,000 and Rs. 750 for weeklies and Rs. 2,000; Rs. 1,000 and Rs. 500 for fortnightly and monthlies.

The committee has recommended that a small newspaper should be recognised as a small industrial unit entitled to the facility of receiving machinery on a hire-purchase basis through the National Small Industries Corporation. Alternatively a separate finance corporation should be set up to provide credit facilities to small newspapers for buying printing machinery, newsprint and for building etc. The committee has suggested that 50 per cent of the expenditure on advertisements from Government should be apportioned to small newspapers and periodicals.

As the small newspapers are unable to avail of the services of established news services which they find expensive, the report suggested that an Indian News Agency should be entrusted by the Government with the task of preparing a 1,500 word news bulletin and news feature to be broadcast twice or thrice during the day by AIR. The same bulletin could simultaneously be given over to different regional stations of AIR over the creed.

### PRESS LAWS

In general the laws which affect the Press in India today are Press and Registration of Books Act, 1867; the Indian Official Secrets Act No. XIX of 1923; Sections 124-A, 153-A, 171-G, 255, 292, 293, 294-A, 295-A, 489-A, 499-502 and 505 of the Indian Penal Code; Sections 99-A-99-G and 108 of the Criminal Procedure Code; Sections 81, 84 and 87 of the Indian Evidence Act No. I of 1872; Sections 11, 12, 44, 52 of the Customs Act No. LII, 1902; Sections 19, 20, 26, 27-A-27-D of the Indian Post Office Act No. VI of 1898; Section 5 of the Indian Telegraph Act No. XIII of 1885; Sections 40, 52 and 53(1)(b) of the Patents and Designs Act No. II of 1911; the Police (Incitement to Disaffection) Act, 1922; Section 69 of the Trade Marks Act No. V of 1940;

the Contempt of Courts Act, 1952 (Act XXXII of 1952); The Indian Post Office (Amendment) Act LII of 1960; Article 19(1) (a) and (g) and Clause (2) and (6) of the same Article of the Constitution of India. The amendment to Article 19 (1)(g) reads: "Nothing in Sub-clause (A) of Clause 1 (the Citizen's Right to Freedom of Speech and Expression) shall affect the operation of any existing law or prevent the State from making any law in so far as such law imposes reasonable restrictions on the exercise of the right conferred by the said sub-clause in the interest of the sovereignty and integrity of India, the security of the State, friendly relations with foreign States, public order, decency, morality, or in relation to contempt of court, defamation or incitement to an offence (Arts. 105 and 194 of the Constitution of India); the Tax on Newspapers (Sales and Advertisements) Repeal Act No. XXVIII of 1951; S. 7 of the Collection of Statistics Act (XXXII of 1953); the Press and Registration of Books (Amendment) Act No. 55 of 1955.

The Delivery of Books (Public Libraries) Act 27 of 1954.

The Drugs and Magic Remedies (Objectionable Advertisements) Act 21 of 1954. This Act controls the advertisement of drugs in certain cases and prohibits the advertisement for certain purposes of remedies alleged to possess magic qualities.

The Criminal Procedure Amendment Act contains a section (198B) which empowers the Government to prosecute a newspaper for defamation of public servants.

The Working Journalists (Industrial Disputes) Act (No. 1 of 1955). The Act extends the provisions of the Industrial Disputes Act, 1947 to working journalists.

The Parliamentary Proceedings (Protection of Publication) Act (No. 24 of 1956). It protects the publication of a substantially true report of any proceedings of either House of Parliament.

Section 11 of the Prize Competitions Act (Act 2 of 1955) contains rules regarding printing and publishing tickets, coupons, etc. in connection with prize competitions.

The Working Journalists Conditions of Service and Miscellaneous Provisions Act (Act 45 of 1955) regulates conditions of service of working journalists.

The Punjab Special Powers (Press) Act was passed on 5th September 1955. It empowers the authorities to control the irresponsible activities of the press indulging in and fostering communal disharmony, dissemination of 'violent' news and pernicious propaganda of a communal nature.

The Newspaper (Price and Page) Act 45 of 1956.

The Young Persons (Harmful Publications) Act No. 93 of 1956.

The Copyright Act 14 of 1957.

The Indian Post Office (Amendment) Act No. 7 of 1958.

The Working Journalists (Fixation of Rates of Wages) Act 29 of 1958.

The Press and Registration of Books (Amendment) Act No. 26 of 1960.

The Newspaper (Price and Page) Continuance Act No. 36 of 1961.

The Indian Penal Code (Amendment) Act No. 41 of 1961.

The Drugs and Magic Remedies (objectionable advertisements) Amendment Act No. 42 of 1961.

Defence of India Act No. 51 of 1962.

The Working Journalists Amendment Act No. 65 of 1962.

The Press and Registration of Books (Amendment) Act No. 16 of 1965.

The Press Council Act No. 34 of 1965.

### Wage Boards for Working Journalists & Non-Journalists

The second Wage Board for working journalists constituted by the Government of India on November 13, 1963 under the chairmanship of G. K. Shinde and the first Wage Board for the non-journalist employees of newspaper establishments under the chairmanship of Mr. G. K. Shinde constituted in Feb. 1964, published their tentative proposals in October and Dec. 1966 respectively for comments by the parties concerned. The final recommendations are expected to be made shortly for consideration by the Govt. of India.

There is also a Registrar of Newspapers who makes an annual report based on the terms of reference mentioned in the Journalist Act.

The Advertising Council of India has also been set up.

### PRESS COUNCIL

The Press Council Bill was passed in Nov. 1965. The President has given his assent. The object of the Council shall be to preserve the liberty of the press and maintain and improve the standards of newspapers in India. The Council may, in furtherance of its object, perform the following functions (a) to help newspapers to maintain their independence; (b) to build up a code of conduct for newspapers and journalists in accordance with high pro-

fessional standard; (c) to ensure on the part of newspapers and journalists the maintenance of high standards of public taste and foster a due sense of both the rights and responsibilities of citizenship; (d) to keep under review any development likely to restrict the supply and dissemination of news of public interest and importance; (e) to keep under review any assistance received by any newspaper or news agency in India from foreign sources; (f) to promote the establishment of such common service for the supply and dissemination of news to newspapers as may, from time to time, appear to it to be desirable; (g) to provide facilities for the proper education and training of persons in the profession of journalism; (h) to promote a proper functional relationship among all classes of persons engaged in the production or publication of newspapers; (i) to study developments which may tend towards monopoly or concentration of ownership of newspapers, including a study of the ownership or financial structure of newspapers, and if necessary, to suggest remedies therefor.

The Press Council was set up in Nov. 1966 with Justice J. R. Mudholkar as Chairman and 25 members, 19 belonging to various newspapers and the others from the fields of special knowledge science, literature and culture—two members of Lok Sabha nominated by the Speaker and one from Rajya Sabha nominated by the Chairman.

## AUTOMOBILE INDUSTRY

THE world's automobile industry in its present form is essentially a twentieth century development. One of the first automobiles to be seen in the streets of Bombay was owned by Shri Jamshedji Tata, the pioneer industrialist of India.

It would appear that the first motor car was imported into India in 1898. The practice to the end of the first world war was to purchase complete motor vehicles directly from abroad or through agents or dealers in India.

It was in 1920 that two automobile manufacturers, one from the U.S.A. and the other from Canada, set up local companies to do business in motor cars and trucks.

General Motors India Ltd. commenced assembling trucks and cars from components and parts imported from the U.S.A. in c.k.d. condition in their factory at Bombay in 1928. The first car came out of the assembly line on Dec. 4, 1928. The Ford Motor Company of India Ltd. commenced c.k.d. assembly of automobiles at Madras in 1930, and at Bombay and Calcutta in 1931.

Addison and Co., Ltd. commenced c.k.d. assembly of cars and trucks at Madras in 1936.

In addition to the above, other firms in the field were: Standard Motor Products of India Ltd., Madras; Automobile Products of India Ltd., Bombay; Ashok Motors Ltd., Madras; Dewar's Garage and Engineering Works, Calcutta; Peninsular Motor Corporation Ltd., Calcutta; French Motor Car Co., Ltd., Bombay; and Mahindra and Mahindra Ltd., Bombay.

The total annual assembling capacity of the firms mentioned above was estimated around 84,014 cars and commercial vehicles.

The importance of establishing an automobile industry was recognised by the Government of India in 1945 when a Panel on Automobiles and Tractors was constituted to make recommendations on the development or manufacture of automobiles and tractors in India. However, no definite action seems to have been taken on the recommendations of this Panel which were submitted in 1947. In the statement of Industrial Policy made in the Indian Parliament in April, 1948, automobiles and tractors were classified

among industries of importance, which would be subject to regulation and control by the Central Government. In 1949, Government of India decided that import of motor vehicles should be allowed only in completely knocked down condition (c.k.d.). At the same time, further increase in assembling capacity beyond what was in existence prior to 1948, was not encouraged. From April 1, 1950, customs duty on certain parts which were being manufactured in the country was raised pending enquiry into the question of grant of protection and assistance to the industry.

In 1944, two companies, Hindustan Motors Ltd., Calcutta, and Premier Automobiles Ltd., Bombay, with an authorised capital of Rs. 20 crores and Rs. 10 crores respectively, were established with a programme for progressive manufacture of complete automobiles.

Premier Automobiles Ltd. established their factory at Kurla, Bombay in March 1947. Hindustan Motors Ltd. commenced operations at Uttarpara near Calcutta in 1948.

In pursuance of an assurance given by Government during the debate in Parliament in March, 1950, an Automobile Expert Committee was appointed in June 1950 to examine the position in regard to the inclusion of particular parts of automobiles in categories bearing different rates of import duty and to make recommendations of their classification. The main recommendations of this Committee were accepted by the Government and given effect to in March 1951. Certain other measures were also taken to promote the development of the industry. For effective standardisation of types and models of vehicles to be imported into the country, restriction was imposed on the assemblers requiring them to import only three types of cars and trucks from each of the dollar and soft currency areas. In March 1952, the Government of India referred to the Tariff Commission for enquiry and report the question of the grant of protection and assistance towards encouragement of automobile industry in India. The Commission submitted its Report in 1953.

In 1953 Government accepted the recommendations of the Tariff Commission that out of the 12 manufacturers and/or assemblers in the country only 5 who had manufacturing

programmes should be allowed to assemble and progressively manufacture vehicles in the country except in the case of Jeep type vehicles. The remaining units which were pure assemblers curtailed their operations by stages and eventually closed down their assembly shops. Of the five approved manufacturers, one could not proceed with their programme of manufacture and consequently the approval was withdrawn.

Ashok Motors Ltd. one of the approved manufacturers subsequently entered into an agreement with Leyland Motors Ltd., England and converted themselves into a new company known as Ashok-Leyland Ltd. for the manufacture of commercial vehicles of G. V. W. of about 10 tons and above. Mahindra & Mahindra Ltd. submitted a programme for the manufacture of jeeps which was approved by Government. Approval was also granted to a new unit, viz. Tata Engineering & Locomotive Co., Ltd., for the manufacture of diesel commercial vehicles in collaboration with Daimler-Benz A.G. of West Germany. For automobile diesel engines, Government recognised Simpson & Co., Ltd., Madras, and the Automobile Products of India Ltd., Bombay, as approved manufacturers of Perkins and Meadows automobile diesel engines these two makes of engines being the power units for diesel chassis (less engines) manufactured by Hindustan Motors Ltd., and Premier Automobiles.

### MANUFACTURERS

With the additions mentioned above, the country had thus eight approved manufacturers of automobiles and/or engines by the end of 1955:

1. Hindustan Motors Ltd., Calcutta:—Hindustan Cars and Studebaker trucks now replaced by Bedford trucks.
2. Premier Automobiles Ltd., Bombay:—Flat Cars and Dodge and/or Fargo trucks.
3. Standard Motor Products of India Ltd., Madras:—Standard Cars.
4. Ashok-Leyland Ltd., Madras:—Leyland Trucks.
5. Mahindra & Mahindra Ltd., Bombay:—Willy's jeeps (now styled as Kaiser jeeps).

6. Tata Locomotive & Eng. Co. Ltd., Bombay:—Tata-Mercedes-Benz Trucks.
7. Simpson & Co., Ltd., Madras:—Perkins Engines.
8. Automobile Products of India Ltd., Bombay:—Meadows Engines.

Though the Government had originally accepted the recommendations of the Tariff Commission (1953) for the manufacture of (a) Baby and Big cars as well by Hindustan Motors Ltd., (b) Big cars as well by Premier Automobiles Ltd., and (c) medium cars as well by Standard Motor Products of India Ltd., certain policy changes were later made by the Government. The difficult foreign exchange situation that developed by the end of 1956 and in the beginning of 1957 necessitated these changes with the result that the types and makes of vehicles to be developed were rationalised to only 3 passenger cars, 3 medium type trucks, one heavy truck, one jeep and one light truck.

**Cars:** Three manufacturers of cars:

1. Standard Ten, 2. Fiat 1100, 3. Hindustan Ambassador/Land Master.

**Trucks:** One manufacturer of:

- (a) Trucks: Light—1 ton: Dodge/Fargo (Petrol or Diesel).

Three manufacturers of:

- (b) Trucks: Medium—3/5 tons: 1. Dodge/Fargo (with petrol or diesel engine), 2. Mercedes-Benz (with diesel engine), 3. Bedford.

One manufacturer of: (c) Trucks: Heavy: Leyland Comet, Tiger/Titan.

Three manufacturers of:

- Diesel Engines (for medium trucks): 1. Perkins—P6, 2. Meadows. Both suitable as original fitment for Dodge and Bedford Trucks, and 3. Tata Mercedes Benz.

One manufacturer of:

- Jeeps: Kaiser Jeeps (formerly called Willy's jeeps).

Thus the country had 3 models and 3 manufacturers for cars and medium trucks and one model and one manufacturer for light trucks, heavy trucks and jeeps in 1957.

The range of products in the field of light commercial vehicles ('trucks') was augmented in the year 1958 by the introduction of the Tempo Hanseat 1 ton three-wheeler commercial vehicle of Bajaj Tempo.

Messrs. Automobile Products of India Ltd., discontinued the manufacture of Meadows automobile diesel engines early in 1961 and the rights for the same were acquired by Messrs. The Premier Automobiles Ltd. The latter are now manufacturing Meadows engines and a percentage of their Dodge/Fargo diesel trucks are fitted with this make of engine.

Messrs. Standard Motor Products of India Ltd., Madras are now manufacturing Standard Heralds instead of Standard '10.'

#### MANUFACTURE IN DEFENCE ESTABLISHMENTS

The Ministry of Defence also entered the field of manufacture through an agreement with the M.A.N. of West Germany for the manufacture of multi-fuel medium trucks by the ordnance factories. This was in Sept. 1958. The rate of output was then reckoned at 2,000 per annum. It was understood that considerable saving would accrue to the Ministry.

The 'Shaktiman' truck, as the truck has been called, has advantages over other trucks which the Army have been getting like increased payload by 30 per cent, multi-fuel engine and other special features which will make it a sturdy cross-country vehicle more suitable than other kinds for military purpose.

In 1960-61, Government entered into a collaboration agreement with the manufacturers of Nissan trucks in Japan for the progressive manufacture of this make of vehicle in the ordnance establishments in India.

The manufacture of Shaktiman trucks in India commenced in June 1959. The manufacture of Nissan 1-ton trucks commenced in the year 1961-62 and the manufacture of Nissan petrol jeep type vehicles commenced in 1962-63.

Only 803 Shaktiman trucks were manufactured in 1961-62, the third year of production of these trucks, as against the planned output of 2,000 units. The indigenous content was of the order of 50 per cent against an anticipated indigenous content of 70 per cent in the third year. The total production of tracked vehicles in the Ordnance factories in India in the year 1962-63 was 2,733. Of these, 621 were 3-ton Shaktiman trucks, 1,046 Nissan 1-ton trucks and 1,066 Nissan (Jonga) Jeeps.

The manufacture of Nissan petrol trucks and Nissan jeep type vehicles received a fillip since the declaration of emergency. Early in 1964, a project report was drawn up for increasing the manufacture of Nissan jeep type vehicles and Nissan 1-ton trucks as these vehicles were expected to be useful for high altitude operation.

The unprovoked and flagrant aggression on India's northern and north-eastern frontiers by China in the autumn of 1962 necessarily brought in its wake a reappraisal of the transport requirements of the Defence departments.

Production of vehicles in the Ordnance establishments was stepped up. Simultaneously, a sizeable percentage of the production of the vehicles in the civilian factories commenced to be taken over by the Government for the Defence needs of the country.

The target of production of Shaktiman trucks in the Ordnance factories was reduced from 2,000 to 1,500 per annum. Against this, the production during 1963-64 was 1,030 and during 1964-65, it was 1,094. The assembly of the truck is done at the gun-carriage factory. 1,350 trucks were produced in the year 1965-66 and the indigenous content at the end of the calendar year 1965 was reported to be 70 per cent.

Components and parts, both finished and semi-finished, for Shaktiman are imported from Germany whereas those for Nissan are imported from Japan. As the capacity of the Ordnance factories is utilised for vital items of high priority, Shaktiman and Nissan vehicles manufactured in the Defence Sector are having increasing quantum of components and parts produced in the civilian sector. 3,600 Nissan vehicles were produced in the year 1965-66 with an indigenous content of 38 per cent. A vehicle factory is being established at Jabalpur for the manufacture of 6,000 Shaktiman 3-tonners and 7,200 Nissan jeeps and trucks per annum. The indigenous content of Shaktiman/Nissan trucks is expected to reach 90 per cent in about a period of two years from the date of commencement of manufacture in the new factory to be established at Jabalpur.

#### DEVELOPMENT COUNCIL FOR AUTOMOBILES

In 1959, the Government of India constituted a Development Council for Automobiles, Automobile Ancillary Industries and Transport Vehicle Industries. The Council is reconstituted once in every two years. The reconstituted Council of 1963 was entrusted with the additional responsibility of looking after tractor and earth-moving equipment industries. Subsequently, the road roller industry was also brought within the purview of this Council. The Council was recently reconstituted in March 1966 and the industries entrusted to its care include Automobiles, Automobile Ancillary Industries, Transport Vehicle Industries, Tractors, Earth-Moving equipment and Internal Combustion Engines.

The authorised capital of Automobile and Transport Vehicle Manufacturing Firms was about Rs. 65 crores with a paid-up capital of about Rs. 35 crores, early in 1961, at the end of the Second Five Year Plan period. The investment in Plant, Machinery and Buildings was over Rs. 30 crores. Of this total capital, the investment in the Ancillary Industry was about Rs. 6 crores.

The Development Council for Automobiles, etc., had estimated that the total investment in the industry by the end of the Third Plan period would be Rs. 130 crores, Rs. 100 crores by the Main Manufacturers and Rs. 30 crores by the Ancillary Sector. The Council had estimated the total value of production at the end of the Third Plan period at well over Rs. 260 crores.

The targets laid down in the Third Five Year Plan and the production achieved in the final year of the Third Five Year Plan are given below:

| Type of motor vehicle                        | Capacity target 1965-66 | Production 1965-66           |
|----------------------------------------------|-------------------------|------------------------------|
| Cars .. .. .                                 | 30,000                  | 25,029                       |
| Jeeps .. .. .                                | 10,000                  | 10,385                       |
| Commercial Vehicles ..                       | 60,000                  | 35,437                       |
| Motor cycles, scooters and three wheelers .. | 60,000                  | 42,823<br>(excluding mopeds) |
| Ancillary Industries ..                      | Rs. 250 million         | Rs. 450 million              |

In the beginning of the Third Plan period, emphasis was rightly placed on providing foreign exchange for the import of machinery necessary to increase the indigenous content to 90 per cent. Foreign Exchange allocations and Aid arrangements for imported plant and machinery for achieving the indigenous content of 90 per cent and for the planned expansion programme, were settled by the middle of 1964. The expansion programme for motor cars was, however, kept in abeyance. Most of the plant and machinery required by the Main Manufacturers and by the Ancillary Industry for achieving 90 per cent indigenous content were received and installed by the end of the Third Plan period. Thus, there has been a considerable increase in the authorised capital, paid-up capital, number of units in the ancillary sector and investment in plant, machinery and buildings in the automobile and ancillary industries during the last five years.

The order of production for the different makes of commercial vehicles at the end of the Third Five Year Plan was expected to be as follows:—Tata Mercedes Benz 24,000 Nos.; Dodge/Fargo vehicles 15,000 Nos.; Bedford vehicles 15,000 Nos.; Ashok Leyland Comets 6,000 Nos.

Messrs. Premier Automobiles Ltd. and Messrs. Hindustan Motors Ltd. have been granted licences to manufacture their own make of diesel engines while at the same time, Messrs. Simpson & Co. Ltd. have been granted a licence to manufacture a medium commercial vehicle chassis of their choice. The Bedford diesel engine project has made some progress whereas the other two projects appear to be still in the negotiation or blue-print stage.

The difficult foreign exchange position and the border situation resulted in a drastic cut in the allocation of foreign exchange for motor cars in the year 1963. Though commercial vehicles were given a high order of priority, a token cut was imposed in the allocation of foreign exchange for these as well. Despite this token cut, the overall allocation of foreign exchange for commercial vehicles stood at a higher figure in 1963-64 consequent to the need for stepping up the production to meet the requirements of Defence.

A World Bank Mission toured India in 1963 and inspected the major establishments in the Automobile & Ancillary Industries with a view to deciding the nature and extent of assistance which the World Bank could render for the Automobile, Road Transport and Machine Building Industries. Based on the recommendations

of this team, Automobile & Ancillary Industries were given assistance by the World Bank to the tune of 47 million dollars, i.e. about Rs. 23.4 crores. This assistance was confined to manufacture and maintenance of commercial vehicles i.e., to enable additional imports of (1) components and parts in c.k.d. and semi-finished form, (2) spare parts and (3) machinery by way of balancing equipment, all for commercial vehicles.

Similar assistance of a slightly higher order was made available by the World Bank in the second half of 1965 which should go a long way to ensure a continuous flow of production till the end of 1965-66.

Representatives of the World Bank carry out surveys or on the spot studies, almost once a year, with a view to assessing the extent of utilisation of the loan advanced and the need for further assistance at a future date. Such surveys and assistance have now become an yearly feature.

### INVESTMENTS AND CAPACITIES

The total investment by the 8 main vehicle manufacturers was about Rs. 700 million in December, 1965. This would have been augmented by about Rs. 200 million in the year 1966. The total investment in the Motor Cycle, Scooter and Three-Wheeler Industries was about Rs. 70 million in December, 1965 and would have reached well over Rs. 80 million by the end of 1966. The investment in the Ancillary Industry has seen a phenomenal increase from about Rs. 65 million in March 1961 to about Rs. 400 million at the end of 1966. During the Third Plan period one more vehicle with pay-load over 7-tons was added to the range of commercial vehicles. Messrs Ashok Leyland Ltd. have been licensed to manufacture 2,000 Leyland Beaver/Hippo vehicles per annum. The other 3 truck manufacturers have been given freedom to manufacture chassis heavier than those currently in production. Messrs Standard Motor Products of India Ltd. have been permitted to manufacture a light commercial vehicle of 1-ton capacity. Messrs Mahindra & Mahindra the jeep pick-up van and Messrs Bajaj Tempo Ltd. the 4-wheeler Tempo viking vehicle. Thus in all, there are at present seven units engaged in the production of commercial vehicles and their capacity at the end of 1965-66 was 63,000 Nos. per annum. The production in the Third Plan was short of the target particularly in the case of commercial vehicles. A number of difficulties are attributed for not achieving the target. These include the acute foreign exchange position due to which the industry was not enabled to secure adequate quantum of raw material and components. The stringent conditions prevailing in the money market and the crippling burden of taxation on road transport were jointly responsible for a slackness in the demand for commercial vehicles.

### PRODUCTION

The progress of the Automobile Industry till the end of 1957 was fairly satisfactory. There was a set-back in 1958 mainly because of the lack of adequate provision of foreign exchange for the import of raw materials and components. The rising tempo of production has been maintained from 1959 onwards. There was, however, a drop in production of passenger cars in 1963 for reasons stated earlier. The production figures from 1959 onwards, year by year, are tabulated below :—

| Production for the year | Passenger Cars & Station Wagons | Jeeps  | Commercial Vehicles |
|-------------------------|---------------------------------|--------|---------------------|
| 1959 ..                 | 11,993                          | 4,563  | 20,342              |
| 1960 ..                 | 19,096                          | 5,501  | 27,512              |
| 1961 ..                 | 21,662                          | 7,052  | 26,214              |
| 1962 ..                 | 23,326                          | 7,597  | 26,894              |
| 1963 ..                 | 15,711                          | 8,104  | 28,482              |
| 1964 ..                 | 23,227                          | 10,391 | 33,157              |
| 1965 ..                 | 24,790                          | 10,483 | 37,408              |
| 1966 ..                 | 27,597                          | 9,777  | 35,156              |

Production of Diesel Engines for fitment on Dodge/Fargo and Bedford Chassis is given hereunder :—

|         | Perkins P6V | Meadows | Total  |
|---------|-------------|---------|--------|
| 1959 .. | 7,814       | 893     | 8,707  |
| 1960 .. | 9,249       | 1,317   | 10,566 |
| 1961 .. | 9,761       | 60      | 9,821  |
| 1962 .. | 7,653       | 822     | 8,475  |
| 1963 .. | 7,993       | 958     | 8,951  |
| 1964 .. | 7,625       | 604     | 8,229  |
| 1965 .. | 7,847       | 1,027   | 8,874  |
| 1966 .. | 6,711       | 639     | 7,350  |

One of the recognised yardsticks for judging the progress achieved by a new industry is the extent of the indigenous content in the finished product, i.e., in the completed vehicle in the case of the Automobile Industry. In 1953, there was very little manufacture, only assembly from imported components; the indigenous components were tyres, tubes, batteries and upholstery materials. Soon thereafter, plant and machinery for manufacture of components and parts commenced to be installed in the factories of the main manufacturers as well as the ancillary manufacturers. The rate of increase of indigenous content is dependent upon the installation of additional machine tools which in turn is dependent upon the foreign exchange made available to the industry for the import of specialized machines.

The trend of increase in the indigenous content of the vehicles can be gauged from the statement given below :—

|                           | As in 1956 | As at March 1960 | As at end of 1961 | As at end of 1963 | As at end of 1964 | As at end of 1965 |
|---------------------------|------------|------------------|-------------------|-------------------|-------------------|-------------------|
| 1. Bedford ..             | ..         | 48.0             | 53.5              | 60.0              | 74.0              | 75.0              |
| 2. Dodge Fargo ..         | ..         | 48.0             | 68.0              | 76.0              | 79.8              | 89.0              |
| 3. Fiat ..                | ..         | 30.0             | 47.0              | 49.0              | 64.1              | 74.0              |
| 4. Hindustan ..           | ..         | 50.0             | 70.5              | 74.5              | 76.9              | 81.0              |
| 5. Universal Jeep ..      | ..         | 45.0             | 65.0              | 68.0              | 79.1              | 88.0              |
| 6. Leyland Comet ..       | ..         | 35.0             | 38.5              | 52.0              | 76.0              | 81.5              |
| 7. Tata Mercedes-Benz ..  | ..         | 45.0             | 64.0              | 67.0              | 79.0              | 86.0              |
| 8. Standard ..            | ..         | 20.0             | 32.5              | 44.0              | 60.2              | 75.0              |
| 9. Tempo three-wheeler .. | N.A.       | N.A.             | N.A.              | N.A.              | 86.4              | 88.5              |

The indigenous content of diesel engines reached the 90 per cent mark in 1965. The average indigenous content of automobiles at the end of 1966 was well over 90 per cent and had reached 95 per cent in a few types.

### AD HOC COMMITTEE ON AUTOMOBILES

*Satisfactory progress* : In 1959, the Government appointed an Ad Hoc Committee to review the progress of the automobile industry, to recommend the measures to be taken to reduce the cost to the consumer of the different vehicles and to examine the feasibility of producing a low cost car within the price range of Rs. 5,000 to Rs. 7,000. The Report of the Committee was received by the Government in the beginning of 1960. Reviewing the progress made by the automobile industry since the Tariff Commission's enquiry in 1956, the Committee has remarked that the decision to grant protection to the industry was a sound one, that the achievement of self-sufficiency regarding transport vehicles was of great importance to the economy and that even in regard to passenger cars the consumer would have been far worse off, if in the present difficulties regarding foreign exchange there had been no domestic industry. The Committee considered the progress of the automobile industry satisfactory on the whole and particularly in the last few years. It also observed that most of the automobile vehicles were expected to reach 80 per cent or more of indigenous content before the end of 1961. In regard to the production of the low cost car, the Committee were of the view

that its production was feasible. To examine further the development of the low cost car, the Government appointed an Expert Committee, who submitted the report in May, 1961. After mature consideration by expert committees, finance bodies and the Planning Commission, the proposal to manufacture a low cost car was kept in abeyance during the Third Five Year Plan period.

The subject of the low cost car or the "people's cheap car" as it is commonly called is raised at frequent intervals during question hours in the Lok Sabha. It is reported that there is no proposal to include the manufacture of a low cost car in the Fourth Five Year Plan as well primarily due to the critical foreign exchange situation.

### MOTOR CYCLES, SCOOTERS, THREE-WHEELER VEHICLES

Manufacture of motor cycles, scooters and three-wheelers was established in the year 1955. At the beginning of the Third Plan, there were three manufacturers, namely Messrs. Enfield for motor cycles & Automobile Products of India & Bajaj Auto Limited producing scooters and three-wheelers. The number has now increased to seven and the new comers cover motor cycles, scooters, mopeds and three-wheelers. The Third Plan production target was 60,000. Although the licensed capacity of the existing units (76,700) is now substantially in excess of the above target, the production achieved during 1961-66 unit-wise was as follows :—

|                       | 1961 | 1962   | 1963   | 1964   | 1965   | 1966   |
|-----------------------|------|--------|--------|--------|--------|--------|
| <i>Motor cycles :</i> |      |        |        |        |        |        |
| 150 cc                | ..   | 8,636  | 7,640  | 9,456  | 13,858 | 21,364 |
| 350 cc                | ..   | ..     | ..     | ..     | ..     | 25,040 |
| <i>Scooters :</i>     |      |        |        |        |        |        |
| 150 cc                | ..   | 13,617 | 15,936 | 15,422 | 20,043 | 20,667 |
| 48 cc                 | ..   | ..     | ..     | ..     | ..     | 21,471 |
| <i>3-Wheelers :</i>   |      |        |        |        |        |        |
| 150 cc                | ..   | 1,267  | 1,426  | 1,701  | 2,493  | 1,884  |
| 350 cc                | ..   | ..     | ..     | ..     | ..     | 1,255  |
| 400 cc                | ..   | ..     | ..     | ..     | ..     | ..     |
| <b>TOTAL</b>          | ..   | 23,520 | 25,002 | 26,579 | 36,394 | 43,915 |

The indigenous content as at December, 1965 was as under :—

|                   | per cent |
|-------------------|----------|
| Enfield .. .. .   | 88.0     |
| Jawa .. .. .      | 75.0     |
| Rajdoot .. .. .   | 85.0     |
| Lambretta .. .. . | 86.8     |
| Vespa .. .. .     | 78.6     |

The average indigenous content of the two- and three-wheeler vehicles as well was nearing 90 per cent by the end of 1966.

The main difficulty experienced by the existing units in the two and three wheeler sector in stepping up production despite higher installed capacity was the paucity of foreign exchange and thereby the difficulties in securing raw materials and components. The Industry was recently included among the priority industries for which import licences on a liberalised scale have been issued. Further, three-wheelers are now classified as commercial vehicles. The production which suffered a set back in the early part of 1966 is now picking up.

Transport capacity could be augmented by using truck-trailer combination. With this end in view, the manufacture of trailers has been strongly encouraged. There are at present 12 units manufacturing trailers of 2, 4 and 8 wheel types having a carrying capacity of upto 10 tons. The production of trailers since 1963-64 has been as under (in Nos.): 1963-64 : 3,364 ; 1964-65 : 8,763 ; 1965-66 : 8,373.

The trailer manufacturing industry is dependent upon imports to a limited extent, the imports being confined to special and alloy steels not produced in the country.

#### ANCILLARIES

Items like tyres, tubes, battery, rubber parts, upholstery material and paints were all obtained from indigenous sources when the industry switched over from assembly to manufacture. In 1961, there were in all about 90 units manufacturing various ancillary products. During the course of the Third Plan, the total number of ancillary units increased to 140. Substantial expansions have also taken place in several units. The items which still remain to be satisfactorily developed are magnetos and carburettors for the motor cycle and scooter industry and the steering gear and axle box for commercial vehicles. The production of steering gears, rear axles and carburettors have commenced in a limited way.

In addition to the licensed units, there are a number of ancillary establishments in the cottage and small scale industries sectors.

It can be safely stated that by the end of 1964 production capacities were established for the manufacture of all components and parts earmarked for the ancillary sector. It is, however, true that the installed capacities for some of the ancillary items fall short of the combined requirements of the original manufacturers and the replacement market. Similar to vehicle manufacturers, the ancillary manufacturers as well, were allotted foreign exchange for the expansion programmes envisaged in the Third Five Year Plan. Plant and machinery for increasing the production in the ancillary sector were in course of erection at the end of 1964.

Some of the important ancillary items which have recorded significant progress in the year 1965 are wheels, brakes, radiators, steering wheels, tie rod ends, shock absorbers, clutch assemblies and brake linings, etc.

The production value of the ancillary industry since 1961-62 has been as follows (in Rs. crores): 1961-62 : 12 ; 1962-63 : 20 ; 1963-64 : 27.6 ; 1964-65 : 35 ; 1965-66 : 45.

#### Automobile Prices

The relation between quantity of output and cost of production is more pronounced in the case of mass production industries like the automobile industry than in a majority of other industries. That is the main reason why the restricted volume of production has a direct impact on the cost of production in India. The ex-factory price of a vehicle in India is inclusive of direct and indirect taxes, particularly import duties and excise duties. The customer, in addition, is called upon to pay sales tax on the vehicles. The incidence of Government duties is so high that the purchaser of an automobile contributes anything from 30 to 40 per cent of the price paid by him towards the Government Exchequer.

The National Council of Applied Economic Research carried out a painstaking and thorough study of the selling prices of the end products of the Automobile Industry and the incidence of taxes and duties in the prices to the consumer as in the first quarter of the year 1965. According to the NCAER, taxes and duties were as high as 42 per cent of the selling prices of vehicles, early in 1965.

The Indian Automobile Manufacturer is working under another serious handicap in as much as he is called upon to pay a high price for the capital plant and machinery installed in his works. In addition, he has to buy imported raw materials at a cost 50 per cent in excess of that paid by his counter-part in foreign countries.

#### EMPLOYMENT

The total employed directly in the automobile and ancillary manufacturing industries including those in the Small Scale Industry Sector is in the neighbourhood of 1,25,000. This figure, however, does not include the indirect employment this industry affords in various distribution operation and maintenance centres, connected with it. It would not be an exaggeration to say that the indirect employment figure would be about 20 times the figure of labour directly employed by the industry.

The National Council of Applied Economic Research conducted an enquiry in 1960 on the employment potential in road transport in India and came to the conclusion that the total number of persons who find employment in the road transport industry in its broad sense is about 2.40 millions.

Considering the increase in the vehicle population of the country and the progress of automobile and allied industries in the last six years, it can be safely reckoned that about 3.5 million persons find employment now in the road transport and allied industries.

#### THE AUTOMOBILE INDUSTRY AND THE FOURTH PLAN

In the case of commercial vehicles, the revised estimates of the Development Council are reported to have been tentatively accepted by the Planning Commission. The target of capacity of 95,000 Nos. with a production target of 85,000 Nos. is well below the original estimate of 1,20,000 Nos. The capacity target of 95,000 Nos. is distributed according to pay-load as below :—

|                                |               |
|--------------------------------|---------------|
| Upto 3 tonnes .. .. .          | 26,000        |
| Between 3 and 9 tonnes .. .. . | 65,000        |
| Over 9 tonnes .. .. .          | 4,000         |
| <b>Total .. .. .</b>           | <b>95,000</b> |

The major expansion in the capacity is with regard to light commercial vehicles and it was felt that the intra-city traffic would grow at a rapid pace.

In the case of passenger cars, despite the demand being considerably in excess of supplies, consideration of priorities and availability of funds seem to have weighed with the Development Council and the Planning Commission while fixing a production target of 50,000 Nos. It is expected that this target can be met by the existing units mainly through balancing equipment and a few additional items of plant and machinery.

The Fourth Plan target for jeeps has been kept at 20,000 and it is expected that the existing unit will be able to achieve this production target.

The total existing installed capacity for motor cycles, scooters and mopeds is assessed at about 1,42,000 Nos. The demand for scooters is rapidly increasing and there are long queues and accumulated orders. The industry was recently included among the priority industries for which import licences on a liberalised scale have been issued. It is expected that with the addition of marginal balancing equipment, the capacity target of 1,50,000 could be easily met. The production target of 1,20,000 is not to be considered as a ceiling and improvements on the production would be welcome. Motor cycle-cum-scooter manufacturers were hopeful of reaching a production of about 1,50,000 per annum by 1968 and hold the view that they would be able to reach a production of 2,50,000 vehicles by 1970-71 if they were allowed to import capital goods of total value Rs. 2 crores. With this expansion, the existing units may reach a more economical level of production and effect a 10 to 15 per cent reduction in cost of production.

In view of the rapid progress made by the ancillary industries and the rising requirements to sustain the increased level of production of vehicles as well as to meet the maintenance requirements of vehicles on the road, capacity and production targets of Rs. 120 crores and Rs. 100 crores respectively have been proposed.

#### Export of Automobiles and Ancillaries

It is gratifying to record that a start has been made in the export of Indian manufactured vehicles and automobile ancillary products to neighbouring countries. Vehicles of Indian origin now run on the roads of nearby countries viz. U.A.R., Aden, Ceylon, Viet Nam, Cambodia, Tibet, Sikkim, Bhutan, etc.

The value of exports stood at Rs. 2 million and Rs. 4 million in 1962-63 and 1963-64 respectively. The Rs. 11 million mark was touched in 1964-65 and the exports were well over Rs. 12 million in 1965-66. Sizeable orders for Tata Mercedes-Benz and Ashok Leyland Comet vehicles were placed on the respective manufacturers by the Ceylon Passenger Transport Board in the last two years. Messrs. TELCO alone have booked export orders for Rs. 12 million in 1966-67.

The Engineering Export Promotion Council has recommended an export target of Rs. 20 millions for the final year of the Fourth Plan period.

#### AUTOMOTIVE RESEARCH ASSOCIATION OF INDIA

A research association for the Automobile Industry was registered in Bombay towards the end of the year 1966. It is understood that the research association is modelled on the lines of the Textile, Art Silk and Cement Manufacturers' research associations. As a first step, the association is reported to be engaged in the admission of members and the drawing up of general outlines of a phased programme of activities.

The Tariff Commission has been requested by the Government of India to inquire into the prices of automobiles and automobile ancillaries and continuance of protection to the industry beyond 31st December, 1967. Replies to the various questionnaires issued by the Commission were under scrutiny at the time of going to the press.

## STATEMENT

Population of motor vehicles in the different States of India.

| STATE                           | Motor Cycles    | Auto-rickshaws | Jeeps         | Private Motor Cars | Motor Cabs    | Other Public service vehicles | Goods Vehicles  | Miscellaneous Vehicles | Total           | As on      |

## RAILWAYS

THE total route kilometrage of all the railways in India on March 31, 1966 was 59,060.55. The total electrified route kilometrage was 2,423.27.

The total route kilometrage is made up of the following:

Govt. railways (k.m.) 58,398.51.

Non-Govt. railways—662.04.

The total capital at charge of Govt. railways on March 31, 1966 was Rs. 2,687.14 crores.

There are three kinds of gauge, broad (1.676m.), metre (1.000m.) and narrow (0.762m.). There is also a light gauge usually laid on the mountains (0.610m.). An example of the last one is the Howrah-Amra Light Railway lines subsidised by the district board.

The total route kilometrage by gauge was as follows:

Broad gauge : 28,570.74

Metre gauge : 25,522.55

Narrow gauge : 4,305.22

There are in all 6,986 railway stations. In any one day of 24 hours, over 5 million people travel by rail and over 5 lakh tons of goods (food, cloth, raw materials and finished products) begin a rail journey from one part to another in India.

The total number of employees, permanent and temporary, on Govt. railways at the end of 1965-66 was, 1,351,303 including 24,355 under construction department and 15 officers from the Indian Audit Account Services. The railways have a fleet service of approximately 11,540 locomotives, 29,551 coaching vehicles and

289,400 wagons or freight cars. About 10,000 trains run daily.

## ZONAL ADMINISTRATION\*

The entire Government railway system is now grouped into nine administrations: the Southern Railway, the Western Railway, the Central Railway, the Northern Railway, the Eastern Railway, the South-Eastern Railway, the North-Eastern Railway, the North-East Frontier Railway, and the South Central Railway. This new zone was inaugurated on Oct. 2, 1966.

The headquarters of the Southern Railway is at Madras, of the Western Railway at Bombay, of the Central Railway also at Bombay, of the Northern Railway at Delhi, of the Eastern Railway at Calcutta, of the South-Eastern Railway also at Calcutta, of the North-Eastern at Gorakhpur, the North-East Frontier Railway at Pandu and the new one South Central at Hyderabad.

Some of these railways comprise smaller systems.

There are ten non-Government Railways. The route kilometrage is given in brackets after the name :—

Ahmadpur-Katwa (51.92); Arrah-Sasaram Light (104.86); Bankura-Damodar River (96.48); Burdwan Katwa (52.24); Dehri-Rohas Light (104.61); Futwah-Islampur (43.45); Howrah-Amra Light (70.31); Howrah-Sheakhala Light (27.16); Shahdara (Delhi)-Saharanpur Light (148.87).

They are all narrow gauge (0.762 m.) except the two Howrah-Amra and Howrah-Sheakhala which are 0.610 m.

The highest administrative authority for the railways is the Railway Board.

There are a number of Committees which have been associated with the Railway Administration: Standing Finance Committee, Central Advisory Council, Railway Rates Tribunal, Indian Railway Fuel Committee.

There are also a number of standardization Committees such as for bridges, structure, track, signalling and inter-locking, building, locomotive, carriage and wagon, electrical, specifications.

There are also Railway Users' Consultative Committees at the zonal, regional and national level. There is a Time Tables Committee, Suburban Railway Users' Consultative Committee, Passenger Amenities Committee, Catering Supervisory Committee, Book-Stall Committee. A Public Co-operative Committee consisting of members from National Railway Users' Consultative Council and members of Parliament was formed to combat crime. Zonal Parliamentary Committees have been constituted which meet the respective General Managers of the Zonal Railways in company with the Railway Minister and the Railway Board.

There are Railway Service Commissions in Bombay, Calcutta, Allahabad and Madras.

There is a training college for railway officers and staff at Baroda and 50 Training Schools.

There is a Railway Testing and Research Centre at Lucknow and a sub-centre at Chittaranjan mainly to help in the promotion of self-sufficiency in railway stores.

\* The new zone, the South Central Zone, has been set up with headquarters at Secunderabad. The capital investment of the Indian Railways as of July 1965 was Rs. 3,000 crores.

## STATISTICS

The principal statistics for the year 1965-66 are given below. The first column shows the position for all railways, the second only for Government railways:

|                                                                   | All Railways | Government Railways. |
|-------------------------------------------------------------------|--------------|----------------------|
| Capital at charge (Rs. crores)* .. .. .                           | 2,687.14     | 2,418.23             |
| Route kilometrage (March 31) .. .. .                              | 59,060.55    | 58,398.51            |
| Gross earnings (Rs. crores) <sup>1</sup> .. .. .                  | 748.30*      | 746.31*              |
| Total working expenses (Rs. crores) <sup>2</sup> .. .. .          | 586.34†      | 584.35†              |
| Operating ratio (per cent) <sup>3</sup> .. .. .                   | 78.36        | 78.30                |
| No. of passengers originating (million) .. .. .                   | 2,120.05     | 2,097.40             |
| Passenger k.m. (million) .. .. .                                  | 96,756.46    | 96,293.62            |
| Earnings from carriage of passengers (Rs. crores) .. .. .         | 220.32*      | 219.17*              |
| Average earnings per passenger kilometre (Paise) .. .. .          | 2.28*        | 2.28*                |

| Freight tonnes k.m. (million) .. .. .                             | 116,847.97   | 116,783.59           |
| Earnings from carriage of goods (Rs. crores) <sup>5</sup> .. .. . | 453.06       | 452.35               |
| Average earnings per freight tonne k.m. (Paise) .. .. .           | 4.58         | 4.58                 |
| Total train k.m. (million) .. .. .                                | 453.44       | 449.82               |
| Gross earnings per train k.m. (Rs.) .. .. .                       | 17.4*        | 17.50*               |
| Working expenses <sup>6</sup> per train k.m. (Rs.) .. .. .        | 13.8†        | 13.90†               |
| Net earnings <sup>7</sup> per train k.m. (Rs.) .. .. .            | 3.59*        | 3.62*                |
| Net earnings <sup>8</sup> per mean k.m. worked (Rs.) .. .. .      | 27,848.00*   | 28,166.00*           |

(1) 'Gross earnings' represent the true earnings in an accounting period irrespective of whether the amounts have been realised or not. They include earnings from Marmugao Harbour and also earnings awaiting realisation. (2) 'Working expenses' are the administrative figures of railway accounts representing true expenses of the railway system in an accounting period irrespective of whether the expenses have been disbursed. (3) 'Operating ratio' shown here represents the percentage of working expenses to gross earnings as defined in explanations at (1) & (2) above. (4) Freight tonnes originating, includes the tonnage of railway stores and materials carried in material/ballast trains on open lines for railway project works. These statistics were not taken into account in earlier years. (5) 'Earnings from carriage goods' exclude earning from demurrage, wharfage etc. (6) 'Net earnings' represents gross earnings minus working expenses, as defined in explanation (1) and (2) above. (7) 'Capital at Charge' includes the capital outlay on worked lines but excludes that on railway manufacturing units and miscellaneous independent projects such as the Chittaranjan Locomotive Works, the Integral Coach Factory, the Diesel Locomotive Works etc.

\* Includes the element of passenger fare tax with effect from April 1, 1961. † During 1965-66, the contribution to the Depreciation Reserve Fund was Rs. 85 crores against Rs. 83 crores in 1964-65, Rs. 80 crores in 1963-64 and Rs. 67 crores in the previous year.

Other information about Indian Railways for 1965-66 is given below:—

## ACCIDENTS

During the year (1965-66) three major accidents took place, brief particulars of which are as under:—

1) On 18th June 1965, at about 20.03 hrs. train No. 880 UP Goods ex Gangapur City to Kota ran into the rear of a up material train which was standing on the main line of Gudla station of the Western Railway. The engine of the goods train along with seven wagons next to it got derailed. Four empty bogies, rail wagons and the brake van of the material train were smashed. As a result of this collision, 17 persons were killed and 13 injured. The cost of damage to the railway property was estimated at approximately Rs. 48,500. According to the finding of the additional Commissioner of the Railway Safety, Bombay, the collision was caused by the goods train being driven past the Gudla UP Home signals at danger.

2) On 23rd July 1965 at about 21.42 hrs. just after train No. 3 UP Assam Mail had passed Selang Hat station on the Mariani-Tinsukia section of the North-East Frontier Railway, a loud explosion was heard. The train engine along with two bogies next to it derailed and capsized and the third bogie derailed. As a result two persons were killed and 30 injured. The cost of damage to the railway property was estimated at approximately Rs. 1,76,000. The additional Commissioner of Railway Safety, Calcutta enquired into this accident. According to his conclusions, the accident was brought about by the track having been blown up by some

unknown party as the train was approaching. The explosion was a deliberate act of sabotage.

3) On 16th February 1966 at about 21.10 hrs. while train No. 3 UP Assam Mail was running between Furkating and Kamarbandha hill stations on the Lumding-Mariani section of the N.E. Frontier Railway, there was an explosion in the rear compartment of the third class bogie marshalled fifth from the train engine. The train was brought to a stop. While the guard was rendering first aid to the injured and preparing to set up emergency lights for relief work, another explosion occurred in the front compartment of the same coach about half an hour after the first explosion. As a result, 38 persons were killed and 50 injured. The cost of damage to railway property was estimated at approximately Rs. 70,000. According to the findings of the enquiry committee consisting of railway officers, these explosions were caused by two time bombs which had been planted in the coach by some unknown party and that it was a deliberate act of sabotage.

Accidents classified under different heads:—  
Collisions: Collisions involving passenger trains 40; Collisions involving goods train or goods vehicles 45.

### REVIEW OF 1965-66

The main items are given in the table at the beginning of this article. Below we give some more points. The comparison whenever made is with figures for 1964-65:—

During 1965-66 the railways were able to carry higher levels of freight and passenger traffic. Revenue earning goods traffic increased by 13.2 million tonnes (8.89 per cent) as compared to the previous year, while non-revenue goods traffic dropped by 4 million tonnes (8.92 per cent), resulting in a net increase in originating freight tonnes of 9.3 million or 4.76 per cent.

The gross earnings of all Indian Railways, including non-Government Railways, were Rs. 748.3 crores in 1965-66 against Rs. 666.04 crores in the previous year. Of this, the gross traffic receipts of Government Railways, including worked lines accounts for Rs. 733.57 crores against Rs. 660.85 crores in the previous year. Passenger kilometres increased by 3 per cent, but passenger earnings were 9.98 percent higher, due to revision of passenger fares. Revenue from goods traffic increased by Rs. 53.98 crores or 13.55 per cent. The surplus for the year was Rs. 18.56 crores against Rs. 13.18 crores for the previous year, after meeting all the charges.

**Punctuality:** The percentage of passenger and mixed trains not losing time to the total number of trains run on all Govt. Railways during 1965-66, is given below (Figures in brackets are for 1964-65).

**Broad Gauge:** All trains (87.62) 85.51; Mail and important through trains (83.69) 84.36; Mixed trains (89.91) 89.51; Suburban (93.94) 85.73; Other passenger trains (80.85) 81.07.

During 1965-66 there were 100,530 cases of alarm chain pulling against 93,935 cases in the previous year.

The number of wagons loaded on the broad gauge during 1965-66 was 8,168,027, an increase of 6,26,191 wagons or 8.30 per cent over 1964-65. On the metre gauge the figure was 3,979,733, an increase of 195,614 wagons or 5.17 per cent more than 1964-65.

There was considerable increase in the case of wagons. The number of public service wagons in use by all Indian Railways at the end of 1965-66 in the broad gauge wagon pool was 391,756, that is 27,117 wagons more than that of the previous year.

The number of public service wagons in use in the metre gauge wagon pool at the end of the year was 294,174 that is, 6,057 wagons more than that of 1964-65 figures.

### Claims, Compensations and Refunds

The number of new claims received this year, including some reopened, was 586,738 which compares with 560,713 in last year. The number of claims settled was 587,481 as against 556,163 during the previous year and the number outstanding at the close of the year was 31,904 against 32,647 at the end of 1964-65. The net amount paid as compensation was Rs. 5.11 crores for goods lost or damaged as against Rs. 4.41 crores in 1964-65.

During the year 1965-66, 10,165 fresh suits were instituted against 11,952 in 1964-65. At the end of 1964-65 the number of suits pending was 16,347. Of all the suits 5,391 were settled out of court, 3,322 cases were either dismissed, withdrawn or transferred and 3,878 were decreed, leaving a balance of 13,921 at the end of the year.

### TICKETLESS TRAVEL

Concrete efforts were continued to check the incidence of ticketless travel through the normal ticket checking arrangements as well as through specially selected squads. As a result of the checks made during the year 6.55 million passengers were detected travelling without tickets or with improper tickets. An amount of Rs. 196.91 lakhs was realised from them by way of fare and excess charges. Amount realised from unbooked and partially booked luggage was Rs. 40.78 lakhs.

### COMPLAINTS

At the beginning of the year 2,395 complaints were pending disposal and 42,570 complaints were received during the year. Of these 43,075 were disposed of in the course of the year. The average time taken in the disposal of a complaint was 39.5 days.

### Security Measures

The cases of theft of railway property showed a sharp decline from 34,089 during 1964-65 to 26,186 during 1965-66. The net loss on account of such thefts amounted to Rs. 17,66,594 during 1965-66 against Rs. 19,11,841 in the previous year. The number of loss of booked consignments from running trains, yards, goods sheds and platforms was also brought down considerably from 2,047 in 1964-65 to 1,891 during 1965-66. The amount of losses due to pilferage increased from Rs. 3,06,136 in 1964-65 to Rs. 4,37,998 in 1965-66 and caused concern.

A pilot scheme was enforced to combat pilferages. The scheme was further intensified and extended to all zonal railways. During the year the Railway Protection Force had to open fire on 33 occasions on wagon looters and criminals.

During the year 1965-66, there were on all zonal railways 144 cases of tampering with railway track or placing obstacles on the track.

The Fire Service of the R.P.F. dealt with 2,000 cases of fire, involving property worth Rs. 32 lakhs during the year.

### NEW LINES

New lines totalling 771.91 km. in length were opened to public traffic on Indian Railways during the year 1965-66. Lines totalling 340.27 km. were converted into double lines and 37.92 km. of lines into treble lines and opened to traffic. New lines totalling 2,315.34 km. were under construction. Besides, the conversion from the metre gauge to the broad gauge of 279 km. of route length was in progress. Surveys for 874.82 km. of new lines were also sanctioned.

Zonalwise names of new lines opened, gauge and approximate kilometrage respectively are:

**Central:** Butibori—Ummer, Broad, 33.71; Panvel—Uran, Broad, 26.90.

**Eastern :** Extension line between Mugma and Thaparnagar, Broad, 6.49; Mogra—Tribeni, Broad, 3.36.

**Northern :** Mukerian—Talwara (rail siding), Broad, 28.69; Madhopur—Kathua rail link, Broad, 8.27.

**N.E. Frontier :** Gogamukh—Silapathar—Murkong Seleik, Metre, 108.56; Raninagar—Jogighopa, Broad, 258.16.

**Southern :** Hospet—Gurtakal, Broad, —; Hageri—Karigunuru, Broad, 72.51; Karigunuru—Hospet, Broad, 6.75.

**South-Eastern :** Surakachar—Geora Road, Broad, 8.71.

**Western :** Udaipur—Himmatnagar, Metre, 209.80.

#### Lines Under Construction

**Central :** Panvel—Apta, Broad, 14.84; Morwa (Singrauli)—Katni (Beohari—Katni portion), Broad, 104.26.

**Northern :** Hindumalkot—Sriganganagar, Broad, 27.49; Ghaziabad—Tughlakabad (including Yamuna Bridge), Broad, 54.30; Delhi avoiding lines and connected traffic facilities, Broad, 17.67; Morwa—Katni—Morwa—Beohari, Broad, 150.00; Singrauli—Obra, Broad, 57.56.

**Southern :** Bangalore—Salem, Metre, 229.28; Mangalore—Hasan, Metre 189.21 and Broad 23.47.

**South-Eastern :** Rail link to serve Haldia Port, Broad, 72.55.

**Western :** Guwa—Shajapur—Maksi, Broad, 193.35; Jhund—Kandla, Broad, 230.84.

**Dandakaranya—Balangir—Kiriburu Railway Projects :** Kottavalasa—Bailadilla, Broad, 450.52.

#### Conversion

**Southern :** Poona—Miraj, Broad, 279.00.

#### Lines Sanctioned

**Northern :** Pokaran—Jaisalmer, Metre, 105.00.

**Western :** Rajkot—Jasdan, Metre, 61.16; 140.82; Bhavnagar—Tarapore, Broad, 140.82.

**D.B.K.R. Projects :** Dantewara—Dhalli Rajhara, Broad, 219.63; Ambaguda—Lanjigarh, Broad, 199.52; Bhadrachellam Road—Kovvur, Broad, 148.69.

#### EXTERNAL ASSISTANCE

A loan of \$68 million (Rs. 51 crores at post-devaluation rate) was negotiated with the International Development Association during 1965-66, which was sanctioned later and the agreement was signed on 29th June 1966.

A new loan for Deutsche Mark 18 million (Rs. 3.38 crores at post devaluation rate) was obtained from the Govt. of Federal Republic of Germany during the year 1965-66. This loan is intended for the purchase of the components for the production of 30 diesel hydraulic shunting locomotives of 650 H.P. at the Chittaranjan Locomotive Works, erection of route relay interlocking at Ahmedabad station on the Western Railway, and the purchase of about 20,500 roller bearings for axle boxes.

**Passenger Amenities :** An amount of Rs. 4.25 crores was incurred, on provision for amenities on station premises and trains for the convenience of passengers and other railway users, during 1965-66. The facility of sleeping accommodation in third class was extended to 15 more pairs in 1965-66 and brought up the total to 61 pairs—47 on the broad gauge and 14 on the metre gauge.

**Improved lower class coaches :** All passenger coaches are at present built indigenously to the latest design. 299 broad gauge, 428 metre gauge and 17 narrow gauge lower class coaches were placed in service during the year, apart from 18 broad gauge, 3 metre gauge and 7 narrow gauge upper class composite coaches, as well as 113 broad gauge electric multiple unit coaches containing III class accommodation.

**City Booking Offices, Agencies, Out-agencies, Street Collection, etc. :** For the convenience of the travelling public and trade 7 out-agencies—one on the Central, two on the N-E Frontier, three on the Southern and one on the Western Railways—were opened during

the year. 13 Out-agencies—two on Central, two on the North Eastern, six on the Southern, and three on the Western Railways—were closed. One city booking agency on the South Eastern Railway and another one on the Western Railway were opened during the year.

Street collection and delivery services were introduced at Rajkot on the Western Railway.

**Catering arrangements :** Departmental catering was arranged at 93 stations and in 25 pairs of passenger trains. At other stations, about 5,000 contractors provided the service.

**Steps to alleviate overcrowding in trains :** Diesel and electric locomotives employed by the Railways in selected trunk routes have enhanced the passenger transport capacity by 25%.

The following are the main heads of passenger amenities with expenditure (Rs. in thousands): Water supply at stations, etc. 32.09; Retiring rooms and waiting accommodation etc. 36.93; Refreshment rooms and vendors' stalls of all description 8.81; Provision of latrines 27.04; Extending, raising and widening, surfacing and other improvements 170.50; Over-bridges, subways and extensions 10.26; Bathing facilities at stations 42; Improvement to existing carriages such as fans etc. 18.83; Improved lighting and provision for fans on stations, platforms and waiting rooms etc. 29.91; Improvement of approaches and circulating areas at stations including tube-lighting 30.20. Opening of new flag stations or conversion of halts into flag stations 4.04; Miscellaneous improvements, namely, sheet time tables at Stations and other amenities 54.90.

**Electrification :** Good progress was made in the introduction of 25 kv AC electrification traction on various sections of the Central, the Eastern, the Northern, the South Eastern and the Southern Railways during the year. Electrification work was completed on 385 route kilometres (equivalent to 1,144 track kilometres).

#### STAFF WELFARE

During 1965-66 five training courses were held. These courses were attended by 89 officers including seven from foreign countries. Two of the courses were initial courses of two months' duration. The remaining three were advanced courses of 14 weeks' duration.

The school also conducted a special course for deputy chief engineers. Civil engineers from Ceylon, Iran, Kenya, Malaysia, Nigeria, Pakistan, Saudi Arabia, Sudan and Thailand have so far attended the initial and advanced courses.

During 1965-66, 830 engineers (Degree/Diploma holders) and 7,656 other candidates were selected by the Railway Service Commission. By the sale of application forms Rs. 6,85,084 were realised and the expenditure for the year was Rs. 18,91,264.

**Labour Relations :** The relations with organised labour continued to be generally cordial. The permanent negotiating machinery meetings continued to be held at the Railway Board's level and at the railways' level. There was no loss of man-days on the Indian Railways during the year (1965-66). The permanent negotiating machinery for settlement of disputes also continued to function satisfactorily.

**Railway Schools :** The total number of schools functioning on the Railways during 1965-66 was 7,326 (Intermediate colleges two, higher secondary/high schools 42, middle schools 26, and primary schools 662). Pupils numbering 125,333 were on the roll in these schools.

**Staff Benefit Fund :** A contribution from railway revenues at a rate of Rs. 4.50 per non-gazetted railway servant in respect of the zonal railways and ad hoc grants to other units of smaller size were made available and an amount of Rs. 72.30 lakhs was credited to the Staff Benefit Fund. The balance brought forward from the preceding year amounted to Rs. 20.09 lakhs, and an additional ad hoc grant amounting to Rs. 8.15 lakhs was made to the fund for sports activities. During the year an amount of Rs. 70,98,026 was spent (Details: Education of children and Staff, Rs. 25,57,205; Recreation and amusement 7,35,478; Sports 6,41,759; Relief to dis-

tress and assistance to sick employees 28,58,594; Scouting 1,42,860; Miscellaneous 1,62,130).

**Holiday Homes :** Holiday homes for Class III and Class IV staff at various places continued to be popular, two more such homes were established—one at Srinagar and the other at Shillong.

**Technical Education Scholarships :** During 1965-66 1,123 new scholarships were granted in addition to 1,893 scholarships continuing from the previous year. The scholarship on technical education is available to children of the railway employees whose salary does not exceed Rs. 425 per month and is financed from the Staff Benefit Fund.

**Coop. Credit Societies & Banks :** There were 26 cooperative credit societies of railway employees and the membership was 727,889 at the end of the year. The paid-up share capital was Rs. 652.55 lakhs and the total amount of loan issued during the year was Rs. 2,335.86 lakhs. The total profit of all the societies were Rs. 44.66 lakhs and dividend declared was 7 per cent.

**Railwaymen's Cooperative Housing Societies** (end of 1965-66): No. of Coop. Housing Societies 19; Membership 3,610; Working capital including deposits: Rs. 21.23 lakhs; Number of buildings under construction: 42.

**Cooperative Labour Contract Societies :** During the year (1965-66) 51 cooperative labour contract societies with 5,577 members and a paid-up share capital of Rs. 1,64,851 undertook handling and vending/catering contracts at 94 stations and 12 cooperative labour contract societies with 753 members and a paid-up share capital of Rs. 1,95,529 undertook civil engineering contracts at 15 stations. The annual value of the contracts amounted to Rs. 58.46 lakhs and 14.48 lakhs respectively.

**Staff Quarters :** During the year (1965-66), in view of the Railway Board's policy of providing quarters to essential staff, who are required to live near the site of their works and for non-essential staff at places where private accommodation is not available 15,095 staff quarters and 34 barracks were constructed on the Indian Railways. They are: Type I—8,224; Type II—5,912; Type III—621; Type IV—224; Officers' Flats—114; and Barracks 34.

**Medical :** The cost of medical and health services per employee per annum went up from Rs. 84.92 in 1964-65 to Rs. 92.73 in 1965-66. The total expenditure for the year (1965-66) was Rs. 12.5 crores against Rs. 11.1 crore in the preceding year. Other particulars are: Number of hospitals 90; Number of health units 563; Number of beds in hospitals and health units 8,355 (including 831 for T.B. & 932 for maternity); Dental clinics 66; Number of doctors (DMO/AMO/Assistant Surgeons) 2,231; Number of operations performed 310,542.

#### THIRD FIVE YEAR PLAN

Third Plan total provision and provision for 1965-66 respectively are as follows:

| Plan-Head                                                            | (Rs. in crores)       |                       |
|----------------------------------------------------------------------|-----------------------|-----------------------|
|                                                                      | Provision for 5 years | Provision for 1965-66 |
| Rolling stock ..                                                     | 542.36                | 127.37                |
| Machinery and plant ..                                               | 47.55                 | 10.14                 |
| Track renewals ..                                                    | 11.22                 | 3.66                  |
| Bridge works ..                                                      | 215.73                | 42.53                 |
| Line capacity works ..                                               | 28.50                 | 7.18                  |
| Signalling and Safety ..                                             | 319.42                | 71.86                 |
| Workshops and Sheds ..                                               | 37.70                 | 9.75                  |
| Electrification ..                                                   | 80.70                 | 25.25                 |
| Other electrical works ..                                            | 4.13                  | 0.79                  |
| Staff quarters ..                                                    | 44.38                 | 9.13                  |
| Staff welfare ..                                                     | 16.68                 | 3.69                  |

## RAILWAY BUDGET (1967-68)

The interim budget for 1967-68, which the new Railway Minister, Mr. C. M. Poonacha, presented to the Lok Sabha on March 20, 1967, showed that the current year 1966-67 will close with a deficit of Rs. 15.27 crores.

He informed Parliament that the deficit was the result of a coincidence of a steep increase in operating expenses and a substantial shortfall in anticipated traffic.

The budget gives the estimates for the whole year but seeks only a vote on account to cover

the first four months of the financial year 1967-68.

Mr. Poonacha revealed that in 1965-66, the Railways actually showed a surplus of Rs. 18.56 crores against Rs. 29.99 crores anticipated in the revised estimates. The shortfall of Rs. 11.43 crores was on account of a decrease of Rs. 8.23 crores in traffic revenue and an increase of Rs. 3.20 crores in working expenses.

## BUDGET AT A GLANCE

In crores of rupees

|                                                                                         | Actuals<br>1965-66 | Budget<br>1966-67 | Revised<br>1966-67 | Budget<br>1967-68 |

## Shortfall

Against the expectation of an additional 12 million tonnes of traffic, the actual materialisation was expected to be not more than 4.5 to 5 million tonnes.

During the first ten months of the year 1966-67, revenue earning traffic on the Railways increased by only about 4 million tonnes. This shortfall was expected to affect revenue to the extent of Rs. 11.58 crores.

While the estimated traffic receipts were not likely to materialise, working expenses had risen by about Rs. 27 crores. Most of the increase was due to post-budget developments outside the Railways' control. The increase in dearness allowance had accounted for more than half of this increase.

Among other factors were the revision of the prices of coal five times between April and December, 1966, the rising prices of materials used in repairs, maintenance and operation and the increase in the tariffs of several State Electricity Boards.

## Sluggishness

Mr. Poonacha said the lower level of revenue earning traffic reflected partly the relative sluggishness of economic activity.

Added to it were disruption of traffic owing to civil disturbances, agitations and bandhs, serious drought conditions in Bihar, Eastern U.P. and M.P.; heavy floods in Assam and the cyclones on the Coromandel coast and prolonged strikes by road hauliers in U.P. and West Bengal. Besides, the movement of imported food grains from the ports to the interior saw an unprecedented spurt.

During the year so far, the Railways had already moved 8.5 million tonnes of grains and fertilisers as compared to only 6 million tonnes in the first 11 months last year. Similarly, there was prompt movement of grains, pumping sets and other articles for drought stricken areas.

During the first ten months of 1966-67, 19 per cent more wagons were ferried across the Ganga, as compared to the last year.

## More Trains

Similar improvements in passenger services engaged the attention of the Railways during the year. Sixty-nine new passenger trains were introduced. The run of 41 trains was also extended during the period. The frequency of the popular air-conditioned express services

between Delhi and Bombay and Calcutta and Delhi has been increased from twice to thrice a week. Similar air-conditioned deluxe express trains would be introduced on three other trunk routes from April 1.

On suburban sections, 83 new trains were introduced during the current year and the run of 14 BG suburban train services extended. Introduction of diesel traction on some important long distance passenger trains had enabled the Railways to haul more coaches.

Among nearly 250 trains, which were accelerated during the year, notable instances were the New Delhi-Madras Southern Express, the Howrah-Amritsar Mail and the Bombay-Delhi Frontier Mail.

Mr. Poonacha said that in order to keep further capital expenditure under check, the Railways were constantly assessing the traffic potential. As a result, there had been a steep reduction in the provision for works and rolling stock.

Simultaneously, the Railways had intensified efforts to effect economy in operating costs. In August, 1966, a complete ban had been placed on the recruitment of ministerial staff. Procedures were being rationalised and simplified.

With regard to the Budget Estimates for the year 1967-68, Mr. Poonacha anticipated an increase of Rs. 42.25 crores over the revised estimates of Rs. 783.75 crores for the current year, thereby placing the gross traffic receipts at Rs. 826 crores.

The estimates assume a rise of about Rs. 8 crores in passenger earnings and Rs. 33 crores in goods earnings based on an anticipated increase of about 8.5 million tonnes in originating freight traffic.

Net traffic receipts for 1967-68, before appropriation to Depreciation Reserve Fund and Pension Fund, were expected to be about Rs. 25 crores higher than the revised estimates for the current year in spite of an anticipated increase of about Rs. 17.4 crores in revenue working expenses.

## Shrinking

The Minister stressed that the estimates of working expenses as now framed were based on the present level of prices and staff costs and contained no cushion for any increases in either of them.

The Railways expected to be left only with Rs. 99 crores for appropriation to the Depreciation Reserve Fund. This amount was Rs. 16 crores short of the figure of Rs. 115 crores recommended for 1967-68 by the Railway Convention Committee in 1965 and approved by Parliament. In fact, the appropriation would be Rs. 1 crore less than in the current year.

It was apprehended that the Development Fund would be almost wiped out at the end of the current year, as a consequence of the railway surplus, from which this fund was fed, having been substantially less than the outgo from the fund during the last two years and there being no surplus this year.

# IRRIGATION

THE net area under irrigation in India during 1962-63 and 1963-64 were 25.96 and 26.13 million hectares and the gross area 30.02 and 30.57 million hectares respectively. The net sown area during 1963-64 was 136.22 million hectares. The percentage of net irrigated area to the net sown area in the entire country was 19.16. This is the second largest irrigated area in any country of the world, the largest being in China.

The total capacity of India's canals is over 220,000 cusecs, and the canals are over 67,500 miles in length.

The total amount of annual flow of water in the Indian Union is 1,360 million acre feet. Of this only 76 million acre feet or 5.6 per cent are at present being used for irrigation purposes.

Prior to the commencement of planning, only about 22.66 million hectares were provided with irrigation facilities in India. Development of irrigation during the First, Second and Third Plans would bring the total area irrigated in the country to about 36.42 million hectares. About 500 major and medium Irrigation Projects were taken up during the three Plans, which on completion, would irrigate 17.81 million hectares. The benefits from these projects by the end of the Third Plan were expected, however, to be limited to about 7.3 million hectares of additional irrigated area. According to present indications, a sum of about Rs. 810 crores is likely to be available for major and medium irrigation schemes during the Fourth Plan period, which would create an additional potential of 5.26 million hectares.

Rainfall in the country is unequal and in many areas uncertain. The distribution is as follows:

| Range                           | (in million acres) | Percentage |
|---------------------------------|--------------------|------------|
| Area between 0-30 inches .. ..  | 237.6              | 29.6       |
| Area between 30-50 inches .. .. | 339.2              | 42.0       |
| Area between 50-75 inches .. .. | 143.9              | 17.8       |
| 75 inches and above .. ..       | 85.6               | 10.6       |
| Total area .. ..                | 806.3              | 100.0      |

The total water resources of Indian rivers in terms of annual flow is estimated at 1,360 million acre feet of water, distributed as follows:—

1. Rivers (excluding the Indus system) falling into the Arabian Sea, 251.5; 2. Rivers (excluding Ganga and Brahmaputra systems) falling into the Bay of Bengal, 334.0; 3. Indus basin in India, 64.4; 4. Ganga System, 397.1; 5. Brahmaputra System, 309.0.

Out of the water resources of 1,360 million acre feet owing to physiological conditions only about a third, about 460 million acre feet are utilisable. About 88 million acres (6.5 per cent of total and 19.5 per cent of usable) were utilised by 1951. In the First and Second Five-Year Plans 11 and 13 per cent of the total water respectively were to be used. By the end of the Second Plan, about 120 mil. acre ft. (about 27 per cent of usable flow or 8.9 per cent of total annual flow) was utilised. This increased to about 150 million acre feet or 33 per cent of the usable flow by the end of the Third Five Year Plan. Another 50 million acre feet are likely to be added (totalling upto 200 million acre feet) or 45 per cent of the usable flow in the Fourth Five Year Plan.

## Outlay in the three Plans

(Rs. in crores)

|               |    |    |    |    |    | Five year Plans |        |           |             |

| Flood Control | .. | .. | .. | .. | .. | 14              | 49     | 61        | 85          |
| Total         | .. | .. | .. | .. | .. | 314             | 429    | 661       | 657         |

## AREA PROGRAMME

Area programme development is being promoted by the Govt. of India to increase fuller utilisation of irrigation potential created through the execution of major and medium irrigation programmes. This provides for comprehensive measures to land levelling and development in fully irrigated areas, establishment of experimental farms for evolving suitable cropping patterns for the area and arrangements for provision of production requisites. Responsibility for construction of channels at various stages has been fixed so as to secure maximum utilisation of irrigation.

## UTILISATION OF IRRIGATION POTENTIAL

The area irrigated from all sources at the beginning of the First Five Year Plan (1950-51) was 51.5 million acres, of which about 22 million acres were irrigated by major and medium irrigation projects. From major and medium irrigation projects an additional area of about 9.15 million acres was brought under irrigation during the First and Second Plan periods. During the Third Five Year Plan against a target of additional 19.6 million acres (8.0 million hectares), the actual achievement was 18.1 million acres (7.3 million hectares). The pace of development of irrigation as compared to the creation of irrigation potentials may be seen from the table

below — the gross area in million acres, cumulative from 1st Plan onwards.

| To end of                 | Potential       | Utilisation     | Percentage  |
|---------------------------|-----------------|-----------------|-------------|
|                           | (Million acres) | (Million acres) | utilisation |
| 1955-56 (1st Plan period) | ..              | 6.5             | 3.1         |
| 1956-61 (2nd Plan period) | ..              | 11.7            | 8.3         |
| 1961-66 (3rd Plan period) | 18.0*           | 18.8            | 87.0        |

\* anticipated.

Gross area cumulative from First Plan onwards. (In million acres)

† Advanced stage of construction.

Additional Central assistance was granted during 1965-66 to the following projects to accelerate their completion and utilisation: Nagarjuna-sagar Rs. 10 crores; Tungabhadra High Level Canal Rs. 1.60 crores; Tawa Rs. 1.00 crore; Mahanadi Delta Rs. 0.80 crore; Kashi Rs. 0.50 crore; Gandak Rs. 0.50 crore; Kerala Projects (Neyyar First and Second Stages, Pothundy, Chittoorpuzha, Periyar Valley, Gayatri and Pamba) Rs. 1.10 crores.

### MINOR IRRIGATION

Minor irrigation works are works that can be conceived and handled to a large extent by the local people themselves, and individually cost Rs. 10 lakhs or less.

Works like wells, pumping sets, Persian wheels are executed entirely by individual cultivators. Many other works like tanks, anicuts, and channels benefiting groups of cultivators are also executed by the cultivators themselves on a cooperative basis. Financial assistance from Government, mostly in the form of loan, is given for both categories of these works. Subsidy, subject to a maximum of 25 per cent of the total cost, is also given to encourage construction particularly in backward and unproven areas.

Minor irrigation schemes which require some specialised technical knowledge in surveys and execution are handled by the Departments concerned of the States. State Governments levy irrigation rates or cess on the areas benefited.

Minor irrigation schemes include construction of open wells, tanks and minor drainage schemes; embankments which are important from the point of view of food production and checking intrusion of salt water in coastal areas; restoration of old tanks, stream diversion schemes; and installation of pumping appliances and improvement of water supply from wells and storage dams. There are also such works as construction of kuhls in hilly areas, filter points in coastal alluvium and installation of improved lift appliances, Persian wheels and pumping sets on wells. Tubewells also form part of minor irrigation works.

The targets for the Second and Third Plans under minor irrigation were 9 million acres and 14.78 million acres and expenditure was Rs. 137 crores and Rs. 244.78 crores respectively. The achievement expected during the Third Plan was construction of 450,000 new wells, repair of 60,000 old wells, deepening of 100,000 wells, installation of 240,000 electric and 80,000 Diesel Pump sets and 65,000 Persian wheels, 415 artesian tubewells, 12,000 private tubewells, 2,762 State tubewells and 2,500 filter point tubewells.

Under the accelerated programmes priority is given to such minor irrigation schemes which will be quickly completed and fully and instantly utilised. Provision to supplement irrigation facilities during the period of keen demands is made through the construction of new wells and private tube wells in the command areas of existing major and medium irrigation projects. During 1965-66, the pattern of financial assistance for minor irrigation schemes was liberalised bringing all the lift irrigation schemes under the purview of the subsidy programme.

The target set for the Fourth Plan is to benefit 17 million acres with a combined total outlay of Rs. 771 crores. The targets tentatively placed are: sinking of 800,000 new wells, boring of 300,000 wells, deepening of 200,000 wells, installation of 500,000 electric pump sets, 175,000 diesel pump sets, and 75,000 Persian wheels. Besides, construction of 400 artesian tubewells, 50,000 private tubewells and 5,000 State tubewells and 300 filter point tubewells was envisaged.

### TANKS AND WELLS

Tank irrigation is very important in Andhra, Madras, Orissa and Uttar Pradesh where over 3.1, 2.0, 1.2 and 1.0 million acres respectively, are irrigated by tanks. Bengal, Mysore, Bihar, Gujarat and Maharashtra have over half a million acres under tank irrigation.

**Wells:** Wells are mainly of two types, i.e. surface or sub-surface. Unlike tanks, they can be constructed irrespective of topographical and geological limitations, provided sub-soil water is in reach.

Well irrigation commands over 5.9 million acres in Uttar Pradesh and 2.3 million in Punjab, Rajasthan, Gujarat and Maharashtra. It is also of considerable importance in Madras, Andhra, Madhya Pradesh and Bihar where over 1 million acres are irrigated by wells.

Pumping sets of high efficiency have come into common use for water lifting and also for draining. The number of irrigation pumps in use increased from 107,355 in 1951 (i.e., oil powered 82,218, and Electrically driven 25,137) to 3,90,000 (230,000 by oil engines and 1,60,000 by electric pumps by 1961).

### Tubewells

A tubewell irrigates about 400 acres while a surface well barely 5 acres.

The tubewell programme included in the Third Plan provided for the construction of about 2,400 tubewells.

It has been estimated that annual enrichment of underground water resources is of the order of 300 million acre feet of which only 42 million acre feet would have been utilised by the end of Third Five Year Plan (1965-66) for irrigating about 25 million acres against the ultimate feasibility of irrigation of 45 million acres. A centrally sponsored scheme for ground water surveys and investigation has been initiated.

During the period 1961-65 the exploratory tubewell organisation drilled 198 bores out of which 64 proved successful. In addition 237 productive tubewells were constructed during the same period. Drilling has been completed in 198 sites in Rajasthan of which 134 were successful. The organisation also drilled 214 productive tubewells in Bihar, Delhi, Gujarat (Kutch), Punjab, Rajasthan & U.P. of which 157 were successful.

Irrigation with tubewells has developed satisfactorily and in most cases 75 per cent of the potential has been utilised.

### RESEARCH

There are now nineteen stations in India, dealing with irrigation research problems:—

Andhra Pradesh Engineering Research Laboratories, Hyderabad, Andhra Pradesh (1945); Bhakra Dam Project Laboratory, Nangal, Punjab (1947); Bihar Institute of Hydraulic and Allied Research, Khagaul, Patna, Bihar (1956); Central Soil Mechanics & Concrete Research Station, New Delhi (1954); Concrete & Soil Research Laboratories, Madras, (1945); Central Water & Power Research Station, Poona, Maharashtra (1916); Damodar Valley Corporation, Maithon Dhanabad, Bihar, (1949); Gujarat Engineering Research Institute, Baroda, Gujarat (1960); Hirakud Research Station, Hirakud, Orissa (1947); Indian Institute of Science, Bangalore Mysore (1950); Irrigation Research Station, Poondi, Madras (1944); Kerala Engineering Research Institute Peechi, Kerala (1960); Koyna Project Research Laboratory, Koyna Nagar, Maharashtra (1956); Land Reclamation, Irrigation & Power Research Inst. Amritsar, Punjab (1947); Maharashtra Research Institute, Nasik, Maharashtra (1959); Mysore Engineering Research Station, Krishnarajasaagar, Mysore (1945); River Research Institute, West Bengal, Calcutta (1943); River Research Station, Chandmari, Gauhati, Assam (1966); UP Irrigation Research Institute, Roorkee, U.P. (1938).

### FLOOD CONTROL AND SOIL CONSERVATION

Since 1954 when the flood control programme was inaugurated on a coordinated basis, over 6,880 k.m. (4,300 miles) of embankments and 7,840 k.m. (4,900 miles) of drainage channels have been constructed in different States affording protection to about four million hectares (ten million acres) of land. Eighty town protection schemes have been taken up against floods/

erosion and 4,300 villages have been raised above flood level. From 1954 up to March 1961 Rs. 629 million have been spent. During the Third Plan Rs. 481 million have been spent up to March 1964. During 1964-65 the expenditure was about Rs. 200.5 million. The approximate area benefited by flood control schemes completed every year is about 0.324 to 0.405 million hectares (0.8 to one million acre) on an average. The additional area to be protected at the end of the First Year of the Fourth Five Year Plan will be about one million hectares (2.5 million acres).

During the first two Plans loans and grants amounting to Rs. 553.3 million were given to the State Governments for flood control schemes. Against the original Third Five Year Plan provision of Rs. 610 million the outlay on the programme was to go up to Rs. 810 million. About 7 million acres had benefited from flood control schemes undertaken in the first two Plans and an additional 4.5 million acres were expected to be benefited in the Third Plan.

Floods of 1964 have brought out the necessity for making studies of the affected areas for evolving suitable remedial measures:— (a) A committee has been set up for formulation of comprehensive plans for controlling floods in coastal areas of Andhra Pradesh in the districts of Krishna, Godavari and Guntur which are subjected to floods annually causing heavy damage to crops. (b) A study group has been set up for assessing the problem of erosion by Brahmaputra river in Assam and formulating remedial measures. (c) Committee set up for assessment of drainage problem in Gurgaon District (Punjab), Bharatpur District (Rajasthan) and other districts of U.P. and to suggest comprehensive drainage schemes. (d) Committee set up for assessment of flood control problem in North Bihar and formulate flood control measures. (e) Committee set up to draw comprehensive plan for flood protection in Delhi and surrounding areas.

During the year 1965, floods were comparatively less severe as the rainfall in the monsoon season was less than normal in most parts of the country and were mainly confined to parts of Assam, Bihar, Madhya Pradesh, Rajasthan, Uttar Pradesh and West Bengal. But a distinct feature of this year's floods in the Brahmaputra, Kamla Balan and Gandak was that these were caused by heavy rainfall in the head reaches and not by rainfall in the plains. The acute flood situation in parts of Rajasthan, Uttar Pradesh and Madhya Pradesh was due to abnormally heavy rainfall in the catchments, of some drains and rivers.

According to the assessment made so far, the floods affected an area of about 10 lakh hectares including a cropped area of about 2 lakh hectares. The estimated damage to crops was to the extent of about Rs. 8 crores. A population of nearly 30 lakhs in 4,900 villages was affected. The number of houses damaged was nearly 22,000. The floods took a toll of 76 human lives. The total damage has been assessed at about Rs. 7 crores.

**Soil Erosion:** Problem of beach erosion in Kerala is serious. The outlay on the coast line protective programme of the State Government during the Third Plan was about Rs. 43 million. American experts are studying the problem and a scheme for collection of basic data for evolution of corrective measures is being implemented. For soil conservation works in the catchments of 14 Rivers Valley projects (Kosi, Damodar Valley, Mayurakshi, Kangsabath, Hirakud, Madkud, Thungabhadra, Kamala, Ghod, Dantiwada, Bhakra Nangal and Bhru in Jammu & Kashmir) Rs. 110 million had been provided. Out of the total catchment area of about 280,000 sq. kilometres (108,000 sq. miles) about 75,000 sq. kilometres (28,800 sq. miles) are in Nepal. Out of the rest lying in India an area of about 1,984 sq. k.m. was covered by soil conservation measures costing Rs. 48 million during the first three years of the Third Plan. During 1965-66 1,039 sq. k.m. were expected to be covered up at an estimated expenditure of Rs. 40 million.

## RIVER VALLEY PROJECTS

The major river valley projects are as follows:—

(1) Beas Project, (2) Bhakra-Nangal Project, (3) Hirakud Project, (4) Damodar Valley Project, (5) Tungabhadra Project, (6) Kosi Project, (7) Chambal Project, (8) Nagarjunasagar Project, (9) Koyna Project, (10) Rihand Project, (11) Bhadra Reservoir Project, (12) Kakrapar Project, (13) Machkund Project, and (14) Mayurakshi Project.

Below we give notes on some individual projects.

**Beas Project:**—The Beas Project in Punjab is being jointly executed by the Rajasthan and Punjab Governments with the financial assistance of the Central Government.

The main object of the project, which is estimated to cost Rs. 208 crores, is to harness the water and power potential of the Beas whose 250-mile course from Rohtang Pass to its confluence with the Sutlej at Harike lies in Indian territory. Of the river's total run of (13.6 million acre feet of water) about 11.4 million acre feet not only goes waste but causes devastation on large scale.

On completion, the project will facilitate the irrigation of 4.5 million acres of land in Punjab and Rajasthan and generate 6,36,000 kW. of power, besides augmenting the capacity of the Bhakra power plant by 1,48,000 kW. The irrigation and power facilities to be provided by the project will lead to an additional industrial and agricultural output worth Rs. 100 crores a year. Rajasthan alone will get eight million acre feet of water for irrigating about 3.5 million acres of desert land.

The project comprises two units: Beas-Sutlej Link is predominantly a power project and Beas Dam at Pong an irrigation project.

The first unit of the project, estimated to cost Rs. 97 crores, consists of a 200-foot rockfill diversion dam at Pandoh, 12 miles upstream of Mandi in Himachal Pradesh, an eight-mile long tunnel with a diameter of 25 feet from Pandoh to Baggi, a 7.2 mile Hydel channel from Baggi to Sunder Nagar and finally a 8.5 mile long tunnel with a diameter of 25 feet from Sunder Nagar to the penstocks leading to the Sutlej power house at Slapar, headworks of Gobind-sagar.

Provision has been made for diverting the flow into Gobindsagar through a by-pass tunnel even before the Sutlej Power House is completed at the tail end of the link for augmenting the Bhakra power output.

Excavation work was started for the intake structure of the Pandoh-Baggi tunnel.

The Beas dam at Pong is estimated to cost Rs. 11 crores. The project envisages the construction of a 5,750 feet long and 380 feet high rockfill dam. It will create a reservoir impounding 6.5 million acre feet of water over an area of about 100 square miles.

Construction of the dam involves diversion of the river through five tunnels with a diameter of 30 feet. Excavation work on two of these tunnels has been completed. They will be permanently used as outlet tunnels for irrigation purposes. The three other tunnels, which are nearing completion, will afterwards be used for generating electricity through six units to be installed in a power house on the left bank.

The aggregate length of the five tunnels is over 16,000 feet. The flow of water through the tunnels is proposed to be regulated with the help of hydraulic gates. The tunnels were completed in Dec. 1965.

The expenditure incurred on Unit I by the end of the year 1965-66 is Rs. 18.53 crores and on Unit II is about Rs. 34.08 crores.

**Bhadra Project (Mysore):**—This is one of the biggest irrigation and multi-purpose projects undertaken by the State. The scheme

includes the construction of a reservoir on the river Bhadra at Lakkavalli (Shimoga District) with a storage capacity of 63,035 million c.ft. to irrigate 2,44,663 acres of land in the dry taluks of Shimoga, Chitaldrug and Bellary districts and to generate electric power to the extent of 40,400 kW. at the dam site. It consists of the construction of a 194 ft. high masonry dam, 1,445 ft. long. The reservoir submerges 27,802 acres and 28 villages.

The cost of the project is estimated at about Rs. 35.73 crores including the cost of power plant of about Rs. 380 lakhs.

**Power Project:** The installed capacity of the power station is 33,200 kW. During the Third Plan, all aspects of the power project were completed. These include one unit of 2000 kW; two units of 12,000 kW. each in the river bed station and one unit of 7,200 kW in the right bank station.

**Bhakra-Nangal Project (Punjab):** The Bhakra Nangal Project in Punjab is the biggest multipurpose river valley project in Asia and has the following main components:—(1) 740 feet high straight gravity concrete Dam at Bhakra, eight miles from Nangal, with two Power Houses at its base, one on each bank of the River. (2) A diversion Dam at Nangal, 62 miles North of Chandigarh. (3) Forty miles long Hydel Channel from Nangal to Rupar with two low head Power Houses—Ganguwal and Kotla. (4) A widespread network of transmission lines with series of Grid Sub-stations. (5) 108 miles of Bhakra main Canal and 2,790 miles long canal branches and distributaries spread over in two States—Punjab and Rajasthan.

The whole Project has been completed except the Right Bank Power House on which work is going on in full swing.

The project is expected to irrigate about 10 million acres of land and build up an ultimate power potential of 12,04,000 kW. The States that will benefit are the Punjab, Rajasthan, Himachal Pradesh, Jammu and Kashmir and Delhi.

The Project will irrigate six mil. acres of new land and will improve 3.5 mil. acres of land already under irrigation.

The Project started yielding rich dividends even before its completion. Irrigation started in July, 1954-55 when 9.1 lakh acres in the Punjab\* were irrigated and 0.54 lakh acres in Rajasthan. In the year 1957-58, 1958-59, 1959-60, 1960-61, 1961-62, 1962-63 and 1963-64 an area of 14.86, 17.12, 18.18, 16.70, 19.61, 23.21 and 25.59 lakh acres in the Punjab\* and 1.79, 2.67, 3.44, 2.17, 2.99, 3.99, and 4.49 lakh acres in Rajasthan were irrigated, as a result of which economic condition of people improved as also a considerable amount of revenue has accrued to the Governments of Punjab\* and Rajasthan.

The total expenditure incurred till the end of Dec. 1964 was Rs. 171.61 crores against the sanctioned estimate of Rs. 175 crores.

The Nangal Dam, the Hydel Channel and the Bhakra Canal have already been completed.

Of the four power houses of this Project, the Ganguwal and Kotla Power Houses, on the Nangal Hydel Channel with two generators of 24,000 kW each are already commissioned and a third generator of 29,000 kW. was added in each Power House in 1961 raising the total output of each power house to 77,000 kW. Of the two power houses at the base of the Bhakra Dam the left power house with 5 units each of 90,000 kW. has been fully commissioned.

The commitments from this plant are Nangal Fertilizers: 1,60,000 kW.; Delhi: 60,000 kW.; Rajasthan: 22,000 kW. and Kashmir: 4,500 kW.

Work on the construction of Right Bank Power House is in full swing. The power house is estimated to cost Rs. 27 crores, and it will have an ultimate installed capacity of 600 MW.

The increase in foodgrains as a result of the irrigation from the project is expected to be 8,50,000 tons a year. Other additional yields that will accrue from the project are: Sugar-cane 15,00,000 tons, Cotton 6,00,000 bales and pulses and oilseeds 36,000 tons.

**Damodar Valley Project (Bihar and West Bengal).**—The Damodar Valley Project which is one of the most important multi-purpose schemes in this country and is to benefit the States of Bihar and West Bengal, has as its main features the construction of (a) multi-purpose storage dams with hydro-electricity plants, (b) an irrigation project with a network of irrigation canals and distributaries measuring 1,550 miles including an 85-mile long irrigation-navigation canal, (c) thermal power stations and the associated transmission and distribution facilities.

The ultimate benefits that will accrue from this scheme include (a) effective flood control of the Damodar River, (b) irrigation of 9,73,000 acres including 2,20,000 acres of old irrigated area in the kharif season and 55,000 acres in the rabi season resulting in an additional yield of rice and rabi crop and jute valued at Rs. 15 crores a year, (c) the installation of generating capacity of 9,79,000 kW of electric power, which will promote the growth of industry, lead to the electrification of railways, etc., (d) cheap transport facilities through the navigation canal carrying an annual traffic through the canal of coal, sand, chemicals, foodgrains etc. to the extent of nearly 2 million tons, (e) efficient drainage of about 700 sq. miles of waterlogged area in the lower valley in W. Bengal (f) prevention of soil erosion by afforestation, (g) land reclamation and improvement, (h) antimalarial measures and public health promotion works, and (i) development of fishery, tourism, etc.

About 6.92 lakh acres of land in West Bengal have already been brought under irrigation.

Of the electric power generated, 875,000 kW will be thermal and 104,000 kW will be hydroelectric.

The first phase of the D.V. Project comprises (1) a thermal power station of 150,000 kW capacity at Bokaro, Bihar; (2) Tilaiya dam with a power station of 4,000 kW in Hazaribagh district, Bihar; (3) the Konar dam 24 miles from Hazaribagh, (4) the Maithon dam with a power station of 60,000 kW in Dhanbad district (Bihar); (5) the Panchet Hill dam with a power station of 40,000 kW (Initial) in Dhanbad district (Bihar); (6) the Durgapur Barrage and Canals in the districts of Burdwan, Bankura, Hooghly and Howrah (West Bengal) and (7) the transmission and distribution system.

The Bokaro Thermal Power Station has now an installed capacity of 225,000 kW.

The Konnar Dam, The Maithon Dam and the Panchet Dam together provide irrigation for 9,73,000 acres of kharif and 55,000 acres of rabi crops and supply for industrial and domestic use of the region.

The Panchet Hill Power Station has an initial installed capacity of 40,000 kW.

During the kharif seasons of 1962-63, 1963-64 and 1964-65 water from the Durgapur Barrage was supplied to irrigate an area of 6.25, 6.39 and 6.54 lakh acres respectively. During 1964-65 an irrigational potential of 7,70,000 acres was created.

The D.V.C. power system supplied through an expanding network of transmission lines reaching right upto Calcutta 2,606 million units in 1962-63, 2,851 million units in 1963-64 and 2,949 million units in 1964-65 and 3,411 million units in 1965-66.

Considerable progress has been achieved in the construction of transmission and distribution facilities. Already 951 miles of 132 KV and 119 miles of 33 KV lines including 11 miles transferred to West Bengal State Electricity Board in April 1965, have been completed. Also upto March 1966, 28 sub-stations of 132 KV and 17 sub-stations of 33 KV have been completed.

\* Composite State.

In addition to the unfinished works carried over from the Second Five Year Plan, the following additional important schemes had been taken up for execution during the Third Five Year Plan period: (1) Extension of the Durgapur Thermal Power Station by a 1,25,000 kW Unit was in progress and likely to be commissioned by the end of 1966, (2) Extension of the Chandrapura Thermal Power Station by a 1,25,000 kW Unit was in progress and likely to be commissioned by June 1967, (3) Augmentation of transmission system, (4) Dam to store water for industrial and domestic purposes (5) Extension and improvements (Barrage and Irrigation) and water course.

The estimated cost of the project including, the new schemes taken up during the period of the Third Five Year Plan was about Rs. 210.61 crores. The aggregate expenditure on the various projects upto the end of November 1965 worked out to about Rs. 196.16 crores.

Third Plan outlay: Rs. 83.43 crores.

Budget Estimates (1963-64): Rs. 17.79-48 lakhs; (1964-65): Rs. 19.67-42 lakhs; (1965-66): Rs. 1,911.55 lakhs; (1966-67): Rs. 1,657.26 lakhs.

About 93,333 acres of afforestation work under Soil Conservation scheme have been completed upto March, 1965 (of which 23,366 acres by D.V.C. and 69,967 acres by the Govt. of Bihar).

The annual gross revenue from power during 1961-62, 1962-63, 1963-64, 1964-65 and 1965-66 was Rs. 10.39 crores, Rs. 13.15 crores, Rs. 15.10 crores, Rs. 16.19 crores and Rs. 20.31 crores respectively.

**Hirakud Dam Project (Orissa).**—This project is the biggest multipurpose River Valley Project on river Mahanadi in Orissa State and is situated near Sambalpur. The main functions of the Project are flood control, irrigation and power. The construction of the project was taken up in two stages. In the 1st Stage the Hirakud Dam, Hirakud Canal system and Burla Power House were completed. The Chiplima Power House was completed in the 2nd Stage.

The total culturable commandable area under Hirakud Irrigation in Sambalpur and Bolangir Districts is 3.8 lakhs of acres and the total annual irrigation potential is 6.00 lakh acres. The Hirakud Dam Project is also providing regulated supply for perennial irrigation of about 9 lakhs of acres in Mahanadi Delta in the districts of Cuttack and Puri.

The power is developed in two stages at Burla Power House (at the foot of the dam) and at Chiplima Power House, 16 miles down stream of the Dam. The Burla Power House has got 6 power units of total installed capacity of 198 M.W. and Chiplima Power House has 3 power units of total installed capacity of 72 M.W., the total installed capacity being 270 M.W. The project provides power to many industries and the rural areas of Orissa.

**Mahi Scheme:** The revised estimated cost of the project has been worked out to be Rs. 495 lakhs. The scheme when completed is likely to irrigate 76,000 acres of land.

**Tungabhadra Project (Andhra, Mysore).**—The project is now being executed by the Tungabhadra Board and the Governments of Andhra Pradesh and Mysore.

**Head Works:** The Tungabhadra Dam across the river Tungabhadra at Mallapuram in Bellary District (Mysore) is 8,006 feet long and 162 feet high at the deepest foundation and 116 feet high on an average above the river bed. The reservoir extends to an area of 146 square miles and has a capacity of nearly 3.1 million acre feet at the full reservoir level of 1633.

**Canals:** There is only one canal on the northern side. This will irrigate about 5,80,000 acres of land in Raichur District of Mysore State.

There are two canals on the southern side of the river—the Low Level Canal and the High

Level Canal. The former is 217 miles in length. This canal, accommodates 2,500 cusecs of water for irrigation, feeds the canal power house at Hampi and irrigates lands in Mysore State and Andhra Pradesh. The net irrigable area under the Low Level Canal is 92,345 acres in Mysore and 1,48,725 acres in Andhra Pradesh.

The Govt. of India have sanctioned the execution of the High Level Canal in two stages. The first stage costing Rs. 13 crores was completed in Jan. 1967 and the work on the distributive system was in progress. When the first stage of the canal is completed, it will irrigate 1,19,115 acres of land in Andhra Pradesh and 68,250 acres of land in Mysore; when the second stage is completed, an additional area of 1,32,685 acres of land will be brought under irrigation in Andhra Pradesh and similarly an additional 68,500 acres of land in Mysore.

**Hydro-Electric Scheme:** When completed the Hydro-Electric Scheme on the southern side will consist of two Power Houses with four generators in each power house, each of 9,000 kW capacity making an aggregate of 72,000 kW. The first station is near the Dam and the second at the end of the Power Canal. The total installed capacity of the Tungabhadra Hydro-Electric scheme is at present 72 MW from the two power stations situated on the southern side.

On the northern side of the Project, it is proposed to have one power house near the Dam with 4 units of 9,000 kW capacity each and three more power houses on the canal. All the power houses taken together will generate 1,00,500 kW of power.

The cost of the sanctioned scheme is Rs. 90.67 crores, Rs. 66.75 crores for irrigation and Rs. 23.92 crores for power.

**Benefits:** About 4.5 lakh acres of land have been brought under irrigation so far. In the same way, 99,000 kW of power was being produced and supplied to the consumers (May 1965).

The estimated cost of the entire project (northern and southern sides) when completed in all respects, is about Rs. 108 crores which will ultimately add a total of about Rs. 20 crores per annum to the national wealth in the shape of food and commercial crops. It will bring 12.1 lakh acres of land under irrigation and generate 172.5 MW of power.

The programme of intensive stocking of fishes has been taken up in the reservoir. The maximum yield of fish will be about 1,000 tons per year.

**Kosi Project (Bihar).**—Total expenditure on the project (old scheme) upto the end of Feb. 1965 was Rs. 58.72 crores. The Kosi canal systems on the eastern and western sides of the river have been designed to provide annual irrigation to an area of about 26 lakh acres in the districts of Saharsa, Purnea, Darbhanga and Monghyr of Bihar and Saptari of Nepal.

A hydro-power scheme with an installed capacity of 20,000 kW is under execution and is scheduled to be completed by 1966-67. According to the agreement on the project, 50 per cent of the power to be generated has been earmarked for Nepal.

The work on the project is being implemented by the Government of Bihar.

**Chatral Canal System:** As part of India's Aid to Nepal the Chatral Canal Project has been taken up. The canal will take off at 30 miles upstream of Kosi Barrage and will irrigate annually 2.12 lakh acres in the Morang and Saptari districts of Nepal. This scheme will cost about Rs. 6.50 crores. This scheme, when completed, would yield an additional produce of thirty-nine lakh maunds per year valued at Rs. 4.75 crores.

Schemes to extend irrigation facilities to an area of 3.97 lakh acres between the Kosi river and the original command of Eastern Canal system has been taken up at an estimated cost of Rs. 685.75 lakhs including the cost of village channels. 69 per cent of the work has been completed so far.

The final solution of Kosi lies in the construction of dams in the hilly reach of the river. Investigations are in progress to locate a dam near Kothar across the Kosi in Nepal, about one mile from Chatral, being put up to control the river as also to generate 10 lakh kW of hydro-electric power.

#### Rajasthan Canal:

(For details see under Rajasthan State.)

**Nagarjunasagar Project (Andhra Pradesh).**—The project is situated near Nandikonda village in Miryalguda Taluk of Naglonda district. The project comprises the construction of a gravity type masonry dam—the tallest and largest masonry dam in the world—two irrigation canals on either side of the river and a power house with 8 generating units each with 50,000 kW. installed capacity. The main dam, when completed, will be 409 ft. high (ultimate stage), 360 ft. wide at the base and about a mile long. It will be flanked on either side by compacted earth dams. Each flanking dam will also be about a mile long. A 28-ft. roadway will run on the top of the dam linking the flanks over the central spillway. Eight penstocks, 16 ft. in diameter will be installed in the dam.

**First phase:** The first phase (now in execution) of the project is expected to irrigate 21.50 lakh acres, partly for paddy and sugarcane and partly for cotton, groundnut, maize, jowar and other millets. The quantity of foodgrains production anticipated is eight lakh tons per annum under the first phase of the scheme and 12 lakh tons in the ultimate phase.

**Nagarjunasagar Dam:** The dam, when completed, will impound the waters of the Krishna in a 110 sq. mile man-made lake, the biggest in India and the third largest in the world. The ultimate storage capacity of the reservoir is estimated at about 9.37 million acre feet of water, thus dwarfing the Bhakra reservoir of 7.4 million acre feet of capacity.

**Nagarjunasagar right canal:** Under the first phase of the project (now in execution) the right canal will run to a length of 135 miles. The right canal will irrigate about 11.20 lakh acres, benefiting large tracts of land in Guntur, Nellore and Kurnool. In the ultimate phase, the canal will extend to a length of 276 miles.

**Nagarjunasagar left canal:** Under the first phase of the project (now in execution) the Left Main Canal will run to a length of 108 miles. The canal will irrigate about 8.80 lakh acres. In the ultimate stage it will extend to a length of 140 miles in Nalgonda and Khammam districts serving the needs of Miryalguda and Huzurnagar taluk of Khammam district and Nandigama, Tiruvur, Nuzvid and Gannavaram taluks of Krishna district.

**Estimated cost and expenditure in (crores) incurred on the Nagarjunasagar Project upto May 1965:** (a) Nagarjunasagar Dam: 47.64, 49.01; (b) Nagarjunasagar Right Canals: 47.74, 21.45; Nagarjunasagar Left Canals: 44.16, 16.01.

The revised estimate for Nagarjunasagar Project for the year 1964-65 is Rs. 1,400 lakhs and the provision for 1965-66 is Rs. 1,800 lakhs.

#### GANDAK PROJECT

It is one of the major projects in which India and Nepal are collaborating as neighbours. Within India, it is an inter-State project in which Bihar and Uttar Pradesh are joining hands.

## NET AREA IRRIGATED BY SOURCES, 1963-64 @

## INDO-PAKISTAN RELATIONS

In essence, the post-Tashkent relations between India and Pakistan took the form of an attempt by India to normalise and regularise the relations between the two countries as the Tashkent Agreement required, while Pakistan resisted all such attempts on the ground that relations cannot be normalised unless the subject of Kashmir was discussed and its status changed in a manner that was acceptable to Pakistan. The Indian case, briefly, was that all problems that could be settled, should first be settled, and in the atmosphere of goodwill and amity so created one could go on to tackle other more difficult questions that cause friction.

The result of this disagreement was a kind of stalemate in which only the problems specifically created by the hostilities such as, for instance, the disengagement of troops and goods and ships impounded during the war could be dealt with. That is the general setting of Indo-Pakistan relations in the period subsequent to the hostilities in September 1965. India continued to revert to individual issues, kept making concrete proposals and used every possible opportunity to get the talks going mostly without much success. For instance, as late as February 18, 1967 the Indian High Commissioner in Pakistan, Mr. S. Sen, held consultations with senior officials of the Pakistan Ministry of External Affairs on the proposal for resumption between technical officials about the resumption of air services and telecommunications between the two countries. India made it clear once more that no delay should be caused in normalising relations in other spheres besides the resumption of air services and telecommunications. In particular India wanted particular attention to be paid to the restoration of river traffic between West Bengal and Assam.

It may, before going into details, be useful to summarise the general position as it looks from India. It would seem that the future would probably be more hopeful than the past. For one thing, one of the two pillars on which Mr. Bhutto built up his anti-Indian policy, the

pro-Peking Indonesian Communist Party is now decimated and President Sukarno's own powers are drastically cut. For another, China's power and influence and capacity to lend support moral or material have been drastically reduced by the disorganisation produced by the cultural revolution. President Ayub is thus no longer in the position of being able to exert pressure on Washington and Moscow by playing up the China's alliance. This may produce a thorough re-appraisal of Pakistan's general attitude. But as yet there is not much actual practical evidence that Pakistan may be re-considering her foreign policies particularly in regard to India. There is still a strong extremist sentiment in Pakistan nurtured and kept alive by Mr. Bhutto who is still a power to be reckoned with. But there are other countervailing forces. The food situation is difficult in both wings; the significance of this is that the country is dependent on American supplies of food, and to that extent is open to pressure and persuasion. Recent American foreign policy pronouncements would require that President Ayub exercise due care and moderation. President Ayub has also other difficult political problems at home—the continuing unrest in Baluchistan, the growing demand for autonomy in East Pakistan. All this has undoubtedly produced a certain receptive and conciliatory mood so far as the removal of the more active tensions are concerned such as the ones created on the border by army movements, itself produced largely by misunderstanding.

India believes that it should be possible to restore relations at least to the pre-1965 level as provided for in the Tashkent Declaration. That is why in her efforts to persuade Pakistan to agree to bilateral talks, India is even willing to discuss the subject of Kashmir. But in India it is feared that Pakistan accepted the Agreement primarily with the idea of getting Indian forces out of highly strategic areas in her own territory like the Jammu and Kashmir passes and the environs of Lahore and Sialkot. Once she succeeded in getting her territory evacuated,

Pakistan is prepared to rest content with the present state of political stalemate provided misunderstanding does not reach a level where troop movements occur and serious tensions arise once again. There is thus a real lack of any desire to improve political relations. This highlights the success and failure of the Tashkent Agreement. It succeeded in bringing about a disengagement of the two armed forces, which was a paramount necessity at the time. Subsequent discussions produced certain helpful ground-rules with the result that the two armies do not any longer face one another in battle array. It must also be stated that after some frantic initial search for armaments to replace what she lost and also rebuild her strength Pakistan has not kept up the original pace of the re-armament drive.

At the moment Indo-Pakistan relations have an air of being frozen. Trade and commerce have not been renewed, but the fact that peace has been maintained and that the arms race has to all appearance come to an end must be reckoned a distinct gain, though of a negative sort. This has provided a respite in which the two countries can devote their resources for repairing their economy and increasing production.

It remains India's stand, as we have mentioned before, that the first necessity is to create a friendly climate and this can only be done by discussing and agreeing on less controversial items. India does not refuse to discuss Kashmir—she recognizes that it causes friction, though this is due to wrong-headedness on the part of Pakistan—but she says that if Kashmir must be discussed it should be discussed last rather than first. Let us get on with restoring economic relations. After all India and Pakistan are one another's natural trading partners, and have a large stake in forging the closest possible economic ties. We can do much to remove the trail of rancour and bitterness caused by the war and re-establish goodwill. To achieve this, Pakistan should put an end once for all to the anti-Indian

propaganda barrage that she has maintained for so long, and which keep bitter memories alive.

India has acted in the belief that her obligations under the agreement are not and should not be dependent on what Pakistan may or may not choose to do. An honest implementation of the Tashkent Agreement by India may indirectly compel Pakistan to follow a similar course. It is in this spirit that India took the first steps in restoring postal and telecommunications, releasing aid cargoes and resuming pension payments without expectation of reciprocity. To put it at its worst, a faithful implementation of the agreement would deprive Pakistan of at least one excuse for not adhering to the Tashkent Declaration.

We can now proceed to deal with the details more systematically. The Tashkent Declaration covers four categories of action:—normalisation of the relations in the military sphere to be achieved by the return of the armed forces to the position *ante bellum*; normalisation of relations in the civilian sphere also by reversion to the position which existed before the hostilities; to make a start with efforts to tackle some long-term problems that cause friction; adoption of measures to strengthen and improve good relations.

Necessary steps were taken in accordance with these terms. Military withdrawals to the pre-Aug. 5 position were completed by February 25, 1966. Prisoners of war were exchanged; High Commissioners returned and normal diplomatic relations were resumed. Regulated over-flights across each other's territories commenced from February 10, 1966. The restoration of telecommunications and postal services started. Airmail began to be sent through third country carriers from October 1966 and sea mail from November.

Article IV of the Declaration called for fulfilment of existing arrangements. In terms of this payment of pensions to migrated officials as required by the Agreement of July 1959 which had been suspended on the outbreak of the conflict was restored on May 1, 1966.

Indo-Pakistani officials started meeting periodically and agreed on measures for the demarcation of Berubari and Hilli towards fulfilment of the Nehru-Noon Agreement of 1958 and for demarcation on the ground of some other sectors on the eastern borders which were still outstanding.

One land border checkpost was kept open on each side of the western and eastern border to enable some special categories of people to move between the two countries since March 16, 1966 in partial fulfilment of the 1962 Indo-Pakistan Passport and Visa Scheme.

In the spirit of Article VIII which envisages discussions on the return of seized properties and assets, India not only agreed to the return of three Pakistani ships she had detained, but also announced in July 1966 that she is returning all

detained cargo other than military contraband. The bulk of this restoration has been completed.

Subsequent to the withdrawal of troops which was completed on February 25, 1966, the Army Chiefs of India and Pakistan met on September 13 and 14, 1966 on India's initiative and reached agreement that before troops were moved to the borders, the other country would be notified to remove causes that give rise to suspicion and tension. Such troop movements relate to rotation or replacement or exercises in some strength. The Air Chiefs of the two sides also met subsequently.

On January 28, 1966, India proposed that an Indo-Pakistan inter-Ministerial meeting should be held to consider further steps towards the implementation of the Tashkent Declaration. It was suggested that the discussion should cover among other things restoration of trade and economic relations and communications, envisaged in Article VI and the return of properties in accordance with Article VIII. The proposals did not contemplate any limitation on the range of subjects to be discussed. On February 4, however, the Pakistan Government produced a list of six items which it wanted to bring up at the Minister's meeting, beginning with Kashmir. These items proved to be highly controversial and would have given the talks a bad start. The manner in which the points were set out was also highly provocative. Undeterred, the Indian High Commissioner had two meetings with President Ayub and eventually the Pakistan Government agreed that the two sides should meet without an agenda, and either side could raise any subject it liked.

The inter-Ministerial meeting took place in Rawalpindi on March 1 and 2, 1966. The seriousness with which India took the meeting is attested for by the fact that the delegation included three Ministers and five secretaries who were ready to discuss any measures that may be proposed to improve Indo-Pakistan relations, including such matters as the uses of eastern river waters and the movement of refugees in which Pakistan had said she was specially interested. Pakistan, however, made it clear that no discussion could take place on any item unless substantial progress was first made towards agreement over Kashmir. This came as something of a surprise since there was nothing in the Tashkent Agreement to warrant the adoption of such an attitude. Also, Pakistan had co-operated in carrying out a number of provisions of the Tashkent Agreement without waiting to see whether there was any accord over the future of Kashmir. The Indian delegation appeared to have told Pakistan that the subject of Kashmir could be raised, but that it would serve no useful purpose since the subject had been raised only two months earlier and the heads of the two Governments had agreed to disagree. The Pakistani stand-point was that the Tashkent Agreement turned on Kashmir; and if there was

no progress on Kashmir there could be no progress on any other subject. So, if India wanted any talks at all they should start with Kashmir and produce some promise of agreement. In the joint communique that was issued at the end of the Rawalpindi meeting the two countries agreed to have further meetings.

Sardar Swaran Singh made a statement on March 4, 1966, which pointed out that the significance of Tashkent was two-fold. First, the two sides would not resort to force to settle their differences, but would resolve them peacefully; and secondly, they would proceed with the resolution of individual issues, even though on some others their positions were widely divergent.

On May 19, 1966 the Prime Minister of India stated that India was willing to have a meeting with Pakistan at any level that could make for progress under the Tashkent Agreement. However, despite continuous enquiry by India no meeting has taken place so far (Feb. 19, 1967). The Government of India has informed Pakistan repeatedly of its desire to cooperate fully with Pakistan in implementing the Declaration. India is ready to discuss any issue without any pre-conditions so as to bring about as much progress in as many fields as possible and improve relations between the two countries.

The response from Pakistan has been halting, obstructive, at best negative. It is yet to respond to India's request for a technical level meeting between the Posts and Telegraph experts of the two countries to improve direct telegraph and telephone communications and settle related financial matters or normalise relations in the whole field of communications.

In the matter of return of seized properties, Pakistan unlike India agreed to return only the three ocean going Indian ships seized by her to the underwriters and such of Aid cargo as she still had to the donors.

Again in contrast to what India did, Pakistan not only resumed its anti-Indian propaganda which had been suspended for a short time soon after Tashkent but frustrated every Indian move to normalise the relations between the two countries. Thus, India kept open for long all the 50 land traffic checkposts on the western and eastern borders. Again India offered to release all impounded cargo and ships in November 1965 on a reciprocal basis. Pakistan asked for the exchange of seized railway stock, and when India responded with an invitation for talks on the return of the seized assets and properties as a whole Pakistan drew back.

India had expressed her willingness to discuss long range measures to improve economic and trade relations between the two countries. Failing to evoke any positive response, India on May 26, 1966 unilaterally removed the ban on trade with Pakistan. Pakistan still continues her total ban on trade with India.

## FORESTS

**TOTAL Forests:** 302,688 sq. miles.  
Percentage of Forests to Land: 21.8. Per capita forest area will be about half an acre.

Financial return per acre of Forest: Rs. 2.60.

The forests are unevenly distributed and the production is also proportionately low, being only 2.6 c.ft. per acre per year as compared to 56.8 c.ft. in France, 37.3 c.ft. in Japan and 18.1 c.ft. in U.S.A.

Private forests: In Assam 400 sq. miles (in Khasi and Jaintia Hills), Orissa 600 sq. miles mostly in zamindari agencies, Punjab 340 sq. miles in scattered units, and Himachal Pradesh 29 sq. miles in Jabbal Division.

About 16 per cent of the total forest area is inaccessible and 45 per cent of these could yield timber and other forest produce.

Most of the country's forests are worked according to Forest Working Plans prepared by special staff. On the basis of present conditions and past working, these plans lay down, for a 10-15-year period at a time, silvicultural systems, schedules for thinnings and other cultural work, methods of management, staff requirements and exploitation programmes, besides development schemes for roads and buildings.

The formation of forest plantations involving a long-term policy for increased production is now-a-days an important feature of Indian Forestry, e.g. the very valuable and extensive plantations of Teak, Bluegum, Wattle, Casuarina, Sal, Deodar, as also evergreen species and softwoods for matches.

'Forests' are a State subject.

The Government of India, however, are responsible for forest research and forest education. The Ministry of Food and Agriculture in the Government of India co-ordinates forest activities in the country, but no forests are directly worked by it except the Andaman forests. The Inspector-General of Forests is their technical adviser in forest matters.

### FORESTRY COMMISSION

On the recommendations of the Central Board of Forestry, a Central Forestry Commission has been established to study the implementation of the national forest policy by the State Governments and Union Territories and make suggestions for improvement wherever necessary. The Commission will also collect, standardise and publish statistics relating to forestry; pool and disseminate technical information on forestry;

conduct market studies on timber and other forest products and their utilisation; render assistance and technical advice in the implementation and evaluation of the forestry development programmes and provide liaison between the Central Soil Conservation Board, the Advisory Board on Research, the River Commission, the Central Flood Control Board and other agencies whose work has direct or indirect bearing on forests and forest development. In view of the importance of the plantation of fast growing species of trees for the development of forest-based industries and of fuel and with a view to maintaining international cooperation in this field, it has been decided that the Central Forestry Commission may also function as the National Commission for Popular and other fast growing species. The National Commission will study the scientific, technical, social and economic aspects of various species, provide facilities for exchange of ideas and material between research workers, producers and users of these species, arrange joint research programmes and study tours and provide liaison with the International Poplar Commission set up under the aegis of the Food & Agricultural Organisation. A Panel on Forestry Education has also been constituted to guide the country's policy on forestry education. Further, as recommended by the Central Board of Forestry, three eminent scientists have been appointed as Professors Emeritus.

### EDUCATION AND RESEARCH

Forest research and education are centralised in one large institution known as the Forest Research Institute and Colleges located at Dehra Dun.

The Forest Research Institute as such came into being in 1906 as an adjunct to the then Imperial Forest College. Through progressive stages of development the Institute has now attained a position which has earned for it international prestige as evidenced by its recognition by the Food and Agricultural Organisation of the United Nations as a Centre for training in Forestry for South-East Asia.

The Forest Research Institute and Colleges are under the administrative control of the Ministry of Food and Agriculture of the Government of India. Its administrative Head is designated the President. It has under its control two Regional Forest Research Centres, one at Bangalore and the other at Coimbatore to deal with the special problems pertaining to the area. It has a strength of about 175 officers and about 1,600 other staff.

The Institute was reorganised into four directorates working under the President, viz., 1) The Directorate of Forest Education, 2) The Directorate of Forestry Research, 3) the Directorate of Forest Products Research and 4) the Directorate of Biological Research.

The education wing of the Institute comprising three Colleges is in the charge of the Director of Forest Education. The colleges have a strength of about 700 students including 20 from foreign countries.

The Indian Forest College trains recruits of the State Governments to their gazetted forest services. The course stretches over a period of two years and the minimum qualification for admission is a B.Sc. degree.

The Northern Forest Rangers College (Dehra Dun) and the Southern Forest Rangers College (located in Coimbatore) offer training for two years to rangers selected by State Governments in the northern and southern regions of the country respectively, the minimum qualification for admission being Inter Science.

**Directorate of Forestry Research:** This has two branches (1) Silviculture Branch—studies rates of growth of the different kinds of trees, forest management, influences of forests, study of soils and forest ecology. It also has a museum, a demonstration area and experimental gardens under its control. The important cloves of fast growing poplars which hold promise of early production of industrial wood have been

successfully established. Extensive work on the cultivation of economic plants is continued. (2) The other is the Logging Branch dealing with the methods of scientific felling of trees and economic extraction and conversion of timber. Fifty sets of efficient modern logging tools supplied at half the cost by the Government of Switzerland were distributed to various States and Union Territories for demonstration purposes.

**Directorate of Biological Research:** Has six branches under it:—

(1) The Minor Forest Products Branch is engaged in economic research on forest plants which constitute about 30 per cent of the forest wealth of India and earn foreign exchange of about Rs. 40 crores annually. The branch has established Artemisia and Santonin industry in India and has done work on the cultivation of medicinal and essential oil yielding plants.

(2) The Botany Branch maintains a herbarium which has over a quarter-million carefully preserved authentic specimens from all over the world and about 3-4 thousand exotic and indigenous specimens are added every year to it. The branch takes up the identification of plants, their breeding and experiments on genetics and introduction of new species of trees in various regions.

(3) The Forest Pathology Branch specializes in investigations of tree diseases and timber decays caused by fungi with a view to evolving methods of control. This branch forms one of the centres of the Indian National Committee on Type Cultures of Micro-organisms.

(4) The Entomology Branch functions to reduce the losses to forest trees and forest products caused by harmful insects and pests.

(5) The Wood Anatomy Branch has one of the finest timber collections in the world comprising about 15,000 indigenous and foreign wood samples.

(6) The Wood Preservation Branch conducts experiments on improving the timber by impregnation with various chemicals and preservatives and thus protects it from deterioration and damage by the insects and fungi. Both the above branches coach the students for the certificate and diploma courses in these subjects, which are awarded by the Institute.

**Directorate of Forest Products Research:** Has six branches:—

(1) The Wood Seasoning Branch has designed a number of seasoning sheds and seasoning kilns including veneer driers. It has also found out Indian substitutes for foreign timbers for various wood based industries and textile mills accessories.

(2) The Composite Wood Branch undertakes to study the problems of improved woods like plywood, compregnated wood, building boards etc. and also conducts research on suitability of various glues.

(3) The Cellulose and Paper Branch is the only place in India where organised research is being done on the utilisation of forest produce and agricultural wastes for the production of pulp, paper and boards. The branch is equipped with a six-ton pilot paper plant by which the researches carried out in the laboratory are piloted before they are advised to the paper industry. The branch has diploma and short-term courses regularly in pulp and paper technology.

(4) The Timber Mechanics Branch studies the various properties of timbers and also finds out their suitability for various purposes.

(5) The Timber Engineering Branch has done work on the utilisation of non-conventional timbers and the use of short-length, small dimensioned timbers for making buildings, pavilions and bridges.

(6) The Chemistry of Forest Products Branch has done work on extraction of essential oils from the various forest produce and also Katha from *Acacia catechu* tree.

There is a well equipped Publicity & Liaison Branch for the various branches of the Institute. Their research results and activities are published in technical journals. The publication of research papers, strengthening of liaison with various woodbased industries and departments of the Government, and organisation of meetings and conferences are the main activities of this branch.

The staff of this Institute are provided with adequate housing accommodation and there is also a well-equipped rest house for visitors. The Institute has a high school, a hospital, a co-operative society, clubs, play-grounds and P. & T. office in the campus.

### U. N. AID

The U.N. is expected to help India's Rs. 1,440-lakh project of scientific survey of forest resources from its special fund.

The U.N. is expected to contribute, mainly in the form of technical experts and equipment, including helicopters and aerial survey apparatus, to the tune of Rs. 40 lakhs.

Two of the U.N. aided projects are "Pre-investment Survey of the Forest Resources" and Establishment of Logging and Training centres. The first project costing Rs. 131 lakhs is assisted by Rs. 42.15 lakhs from U.N. special Fund to investigate the availability of forest raw materials for industrial development in three selected zones covering 11,500 sq. miles, assess the raw material requirements of wood based industries and to determine suitable areas for industrial plantations. The survey will be made first at the Central Zone, and three foreign experts with their Indian counterpart personnel have already joined the project. In the second project four logging training centres will be set up in each of the four regions of the country for improving the efficiency of timber extraction and for improving training in the area of modern logging equipment and mechanised transport of timber. Estimated to cost Rs. 52.46 lakhs out of which Rs. 25.23 lakhs will be provided by U. N. Special Fund, the first training course in the project has already been selected at Dehra Dun Logging Training Centre.

As against 64,400 acres brought under quick growing species during 1964-65 an area of 71,000 acres was expected to be covered during 1965-66.

### FOREST PRODUCE

Forest produce is divided into two main heads—(1) Major produce, i.e., timber and firewood, and (2) Minor produce, comprising all other products, such as bamboos, canes, leaves, fruits, fibres, grasses, gums, resins, essential oils, medicinal and poisonous plants, fatty oils and fats, dyes, tans and animal and mineral products.

The annual output of timber is 274 million c.ft. and 700 million c.ft. of firewood. At present annual import of wood and wood products is of the order of 40 million c.ft.

The bulk of the timber supply is used for railway sleepers, constructional requirements, furniture, plywood (especially for tea chests), matches, etc.; but the country imports timber for specialized uses such as jute and textile mill accessories.

Exports from India are limited to selected rosewood logs for high grade furniture to Europe, teak poles for the Middle East and a few other items.

**A. N. Islands:** From April to Dec. 15, 1965, about 42,000 tonnes of timber were extracted of which about 18,000 tonnes were shipped to mainland. About 1,200 acres have also been brought under teak plantations under the scheme for raising industrial plantations.

Timber production in India is not sufficient to meet internal needs. While foreign markets could be readily developed for Indian timber, exports are limited to small quantities of ornamental timbers for European countries, teak poles for the Middle East from the west coast and traditional despatches to markets in Pakistan. Exports are regulated by quotas which are periodically re-examined.

**ANNUAL TRADE STATISTICS OF FOREST PRODUCTS OF INDIA (1964-65 & 1965-66)**  
(Value in Thousand rupees)

| Name of products                                                                               | Description of Foreign trade | 1964-65  | 1965-66  |
|------------------------------------------------------------------------------------------------|------------------------------|----------|----------|
| <b>I. Major Forest Products</b>                                                                |                              |          |          |
| 1. Wood, lumber & cork .. .. .                                                                 | Imports                      | 18,337   | 18,214   |
|                                                                                                | Exports                      | 22,934   | 19,077   |
| 2. Pulp & Waste paper .. .. .                                                                  | Imports                      | 79,743   | 58,804   |
|                                                                                                | Exports                      | 47       | 324      |
| 3. Wood, cork manufactures (excl. furniture) .. .. .                                           | Imports                      | 5,015    | 5,274    |
|                                                                                                | Exports                      | 2,733    | 981      |
| 4. Paper, paper board & manufacture thereof .. .. .                                            | Imports                      | 1,30,951 | 1,33,801 |
|                                                                                                | Exports                      | 9,585    | 12,033   |
| 5. Wood furniture & fixtures (excl. Artware) .. .. .                                           | Imports                      | 72       | 1,116    |
|                                                                                                | Exports                      | 319      | 1,009    |
| 6. Important wild animals, (not for food) .. .. .                                              | Imports                      | —        | 3        |
|                                                                                                | Exports                      | 2,280    | 1,914    |
| <b>TOTAL MAJOR FOREST PRODUCTS</b> .. .. .                                                     | Imports                      | 2,34,118 | 2,17,212 |
|                                                                                                | Exports                      | 37,898   | 35,338   |
| <b>II. Minor Forest Products</b>                                                               |                              |          |          |
| 1. Plants & parts of plants for use in dyeing & tanning whether ground or not .. .. .          | Imports                      | 3,514    | 2,314    |

| 1964-65 | .. | 45,166  | 2,241 | 6         | 39    | —      | —     | 45,172 | 2,280 |

Imports are regulated by protective or revenue duties and are restricted to such specialized items as are not readily obtainable from local production.

**FORESTRY (FOURTH PLAN)**

The demand for various forest products both for industrial use and for fuel purposes has been rapidly increasing. As against the current production of 8 million cubic metres for industrial wood, the demand has been estimated to be 11 million cubic metres in 1965-66, 17 million cubic metres in 1970-71 and 24 million cubic metres in 1975-76. With improved logging techniques the current production may go up by 0.5 million cubic metres and an additional one million cubic metres may be obtained by clearing some of the old forests. But there will still remain a considerable gap between demand and supply.

**PLANTATION SCHEMES**

In order to meet this deficiency three important schemes, namely :

- Plantation of quick growing species ;
- Plantation of economic species (teak, sissoo, semal, etc.) ; and

- Plantations to be raised under the scheme of rehabilitation of degraded forests

will be taken up in the Fourth Plan. In addition, it is proposed to raise extensive wood plantations including the farm forestry and afforestation schemes for the soil conservation programmes.

The forests which would have to be cleared to raise the plantations proposed in the Fourth Plan are expected to make available approximately 4.8 million cubic metres.

For raising the production of fuel wood, greater attention will have to be given to the farm forestry programme. The Forest Department would also be responsible for the extension work in Panchayats and in blocks to stimulate the local bodies to take up farm forestry.

**PRE-INVESTMENT SURVEY AND IMPROVED LOGGING**

Two schemes, namely, pre-investment survey of forest resources and establishment of logging and training centres have recently been put into operation with financial assistance from the UN Special Fund. The pre-investment survey scheme has as its objective the assessment of existing forest resources and the site potential in order to meet the growing needs of the country. Under the scheme for the establishment of logging and training centres, it is proposed to set up four centres at Dehra Dun, Coimbatore, Gauhati and Chanda.

**TRAINING**

The development programmes for forests proposed in the Fourth Plan cannot be implemented without adequate technical staff. The Indian Forest College at Dehra Dun, which is the only college in the country for training forest officers could, with great difficulty cope with the training of officers in the Third Plan. Provision to strengthen both the officers' and the rangers' colleges at Dehra Dun has been made in the Fourth Plan. A new ranger's college is also proposed to be started in central India, in addition to the existing colleges at Dehra Dun and Coimbatore.

**Communications :** Quite a large area under forest is at present inadequately served with communications, with the result that the out-turn of the produce is reduced and the cost of extraction becomes expensive. If all these areas are opened up with a good road system capable of use throughout the year, it would be possible to increase the forest output. It has, therefore, been proposed that the existing roads should be properly maintained and a phased programme spread over 10 years for construction of new roads should be formulated. This scheme would have considerable developmental potential, particularly, among the tribal people, since a large part of the programme would be in tribal areas.

**TARGETS**

The important targets for the forestry programme in the Fourth Plan are given in the table below :—

**Physical Targets of Forestry Programmes**

| Schemes                                | Unit       | Third Plan |                           | Fourth Plan |
|----------------------------------------|------------|------------|---------------------------|-------------|
|                                        |            | Target     | Achievement (anticipated) | Target      |
| Plantation of quick growing species .. | lakh acres | 1.37       | 1.60                      | 10.00       |
| Economic plantations .. .. .           | —do.—      | 7.00       | 6.00                      | 8.40        |
| Rehabilitation of degraded forests ..  | —do.—      | 5.20       | 5.20                      | 5.00        |

‡ Composite State.

## FOOD

THE areas covered by the Punjab\* and Madhya Pradesh (former Vindhya Pradesh) are generally surplus in wheat.

The areas covered by the following States are generally surplus in rice: Orissa, Madhya Pradesh, Andhra, Punjab.\*

From the point of view of food generally the position is roughly as follows: Surplus areas:

Madhya Pradesh, Punjab,\* Orissa, Andhra, Self-sufficient areas: U.P., Rajasthan, Madras, Mysore, Assam. Deficit areas: Maharashtra, Gujarat, Himachal Pradesh, Bihar, West Bengal, Kerala, Kashmir, Tripura. Manipur is marginal.

## PRODUCTION

(See under main article "Agriculture")

## Total Internal Procurement and Issue of Food Grains.

The balance sheet of foodgrains distributed by Governments during 1964 and 1965 was as follows:

(in thousand met. tons)

|                                               | 1964 | 1965 (a) |
|-----------------------------------------------|------|----------|
| Opening Stock with States..                   | 319  | 480      |
| Procurement .. ..                             | 545  | 741      |
| Stocks with States at the end of the year ..  | 486  | 914      |
| Central Reserves at the end of the year .. .. | 530  | 1,104    |

(a) Provisional.

Offtake from Central Government stock in 1964, was 8-665 million tons comprising 1-859 million tons rice, 6-785 million tons wheat and 0-021 million tons other grains. In 1965 it was

10-062 m. tons comprising 3-586 m. tons of rice, 5-939 m. tons of wheat and 0-537 m. tons of other grains. The total number of fair price shops in different States at the end of Dec. 1965 was about 110,283.

The total procurement of rice in 1965 was 2-951 million tons. Of this 1-472 m. tons were procured by the Centre and the rest 1-479 m. tons by the States as detailed below: (Fig. in million tons): Andhra Pradesh 0-652; Assam 0-071; Gujarat 0-036; J. & K. State 0-018; Kerala 0-038; Madhya Pradesh 0-366; Madras 0-446; Maharashtra 0-155; Orissa 0-262; Mysore 0-104; Punjab\* 0-288; U.P. 0-123; W. Bengal 0-362.

Manipur and Tripura procured 20,000 and 10,000 tons respectively.

With effect from 1st April 1966 foodgrains have been supplied to State Governments and others at a specially reduced price with a view to stabilising the market price in the country.

Supplies of foodgrains to State Governments from Central Stocks (Mill. met. tons).

## IMPORTS (1961-65)

Imports of foodgrains into India in 1965 were about 7,462 thousand metric tons.

The imports over the years were as follows:

Figures in million tons and value in Rs. Crores respectively are: 1961: 3-495, 129-56; 1962: 3-64, 141-1; 1963: 4-56, 183-6; 1964: 6-266, 266-25 & 1965: 7-462, 290-32. Of the 1965 imports, 6-583 mln. tonnes were wheat, 0-783 mln. tonnes rice and 98,000 tons milo.

(e) Figures for 1965 are provisional and subject to revision.

The imports of individual grains were as follows:

|                         | (in million metric tons) |       |       |
|-------------------------|--------------------------|-------|-------|
|                         | 1963                     | 1964  | 1965* |
| Rice .. .. .            | 0.483                    | 0.645 | 0.783 |

| <b>TOTAL</b> | <b>4.556</b> | <b>6.266</b> | <b>7.462</b> |

Countries from which wheat and rice were imported during the year 1965: (quantity in million metric tons).

|                    | Wheat        |              | Rice |   |
|--------------------|--------------|--------------|------|---|
| U.S.A. .. .. .     | 6.021        | 0.286        | —    | — |
| Australia .. ..    | 0.324        | —            | —    | — |
| Burma .. .. .      | —            | 0.204        | —    | — |
| Canada .. .. .     | 0.238        | —            | —    | — |
| U.A.R. .. .. .     | —            | 0.040        | —    | — |
| Others .. .. .     | —            | 0.253        | —    | — |
| <b>TOTAL</b> .. .. | <b>6.583</b> | <b>0.783</b> |      |   |

The Plan provided for an import of 6 million tons of foodgrains costing about Rs. 48 crores a year.

### PRICE LEVEL

The movement in the price is shown by the following table of index numbers of wholesale prices:

|                       | (Base 1952-53 — 100) |          |         |          |         |  |
|-----------------------|----------------------|----------|---------|----------|---------|--|
|                       | 1964                 |          | 1965    |          | 1966    |  |
|                       | January              | December | January | December | January |  |
| All commodities .. .. | 136.3                | 158.2    | 159.7   | 169.6    | 169.0   |  |
| Food Articles .. ..   | 137.9                | 166.0    | 167.8   | 173.2    | 171.9   |  |
| Cereals .. .. .       | 118.5                | 142.1    | 145.0   | 151.9    | 152.9   |  |
| Pulses .. .. .        | 124.0                | 194.8    | 196.3   | 167.1    | 162.4   |  |
| Rice .. .. .          | 120.0                | 128.9    | 127.9   | 117.1    | 148.2   |  |
| Wheat .. .. .         | 112.0                | 145.4    | 151.2   | 139.4    | 140.9   |  |
| Jowar .. .. .         | 122.7                | 203.7    | 217.2   | 197.9    | 193.3   |  |
| Bajra .. .. .         | 139.3                | 179.8    | 197.1   | 199.2    | 195.3   |  |
| Ragi .. .. .          | 115.1                | 192.4    | 203.3   | 246.6    | 244.7   |  |
| Gram .. .. .          | 112.5                | 192.5    | 187.1   | 152.0    | 154.7   |  |
| Arhar .. .. .         | 141.3                | 231.4    | 241.4   | 188.7    | 179.4   |  |
| Mung .. .. .          | 129.4                | 184.1    | 189.0   | 176.3    | 178.0   |  |
| Urad .. .. .          | 123.7                | 143.3    | 140.8   | 149.7    | 147.2   |  |
| Masur .. .. .         | 127.2                | 225.6    | 239.7   | 187.0    | 162.2   |  |

|                      | 1964  | 1965  | 1966  |
|----------------------|-------|-------|-------|
| Sugar .. .. .        | 145.2 | 151.1 | 151.1 |

### SEED

The coverage under improved seeds of foodgrains is estimated to have risen from 104 million acres in 1964-65 to 120 mill. acres in 1965-66.

A bill on seed certification has been passed for laying down standards of quality and making arrangements for seed analysis, inspection certification and regulation of notified seeds.

The Govt. of India has set up in 1963 a Central Seed Corporation as a company registered under the Indian Companies Act, 1956 with a share capital of Rs. 50 million divided into five lakh equity shares of Rs. 100 each to promote the production of improved seeds in the country by financial aid, technical guidance, organising marketing agencies and sponsoring training programmes in collaboration with Central and State Governments and other interests.

The corporation has been entrusted with the production and supply of foundation seed for all hybrid crops and high-yielding varieties throughout the country. Arrangements have been made to meet the seed requirements of dwarf varieties of rice and wheat of high yield potential like T.N. 1, I.R. 8 & Tainan 3 in rice. Fourth Plan proposes area under improved seed: (a) High yielding variety 32.50 m. acres; (b) other improved 241.50 m. acres.

### FERTILIZERS & MANURES

India's requirement of nitrogen fertilizer is placed at between 2 and 2.5 million tons. Minimum requirement would probably be estimated at 1.5 million tons on the basis of 30 lbs. per acre.

It is estimated that the use of one ton of fertilizer on an area of 75 acres results in an extra 10-ton production of food grain.

An expert Committee under the chairmanship of Mr. B. Shivraman was appointed to examine the problems relating to production, pricing and distribution of fertilizers and the report was submitted in May 1965.

### Consumption of Fertilizers

| Plant Food         | (met. tons) |          |
|--------------------|-------------|----------|
|                    | 1964-65     | 1965-66  |
| Nitrogen .. ..     | 5,55,246    | 5,80,000 |
| Phosphoric Acid .. | 1,48,689    | 1,40,000 |
| Potash .. .. .     | 55,922      | 80,000   |

The Fourth Plan draft proposals and achievements in 1965-66 in brackets in respect of Nitrogen, Phosphoric acid and Potash respectively in million tonnes were: 2.00 (0.60); 1.00 (0.15) and 0.35 (0.09).

The night soil compost scheme, which has now been introduced in Madras, Rajasthan, Punjab, Orissa and Mysore, will cover 500 bigger panchayats, for which Central assistance has been given at the rate of Rs. 2,000 per panchayat.

A total number of 2,250 urban centres was also engaged in night soil compost production in the States. 111 million tons of rural compost were expected to be produced in 1964-65 and 124 mill. tons in 1965-66.

### Urban Compost

| Year    | Quantity prepared (million tons) | No. of centres | Quantity distributed (million tons) |
|---------|----------------------------------|----------------|-------------------------------------|
| 1962-63 | 3.10                             | —              | —                                   |
| 1963-64 | 3.30                             | 2,410          | —                                   |
| 1964-65 | 3.53                             | 2,508          | —                                   |
| 1965-66 | 3.90                             | —              | —                                   |

The Fourth Plan draft proposals and achievements in 1965-66 within brackets in million acres were as under: Compost 5.40 (3.40); Grain manuring 64.00 (21.50).

Distribution of green manure seeds in parcels is encouraged in most States. A subsidy of Rs. 2 per maund is given to the State for multiplying green manuring seed. The total area green manured during 1962-63: 16 million acres; 1963-64: 17 million acres and 1964-65: 18.4 million acres.

### Mechanisation and Mechanised Farms

With a view to increasing mechanisation in agriculture the production of wheel type tractors has been stepped up. Against an assessed requirement of 10,000 tractors in 1965, 6,196 tractors were produced and licence for the import of 2,435 tractors was issued.

There are already two Central Mechanised farms at Surat and Jelsar. Fifteen more such farms are going to be set up with the help of U.S.S.R., one in each State.

## THE FOOD PROBLEM

The *per capita* net availability of food grains in India :

| Year     | Popula-<br>tion | (Million tonnes)<br>Total cereal |        | Net Availability<br>(million tons) |        |       | Daily Per capita net<br>availability (Gram) |        |      |
|----------|-----------------|----------------------------------|--------|------------------------------------|--------|-------|---------------------------------------------|--------|------|
|          | (Million)       | Produc-<br>tion                  | Import | Cereal                             | Pulses | Fish  | Cereal                                      | Pulses | Fish |
| 1960 ..  | 432.7           | 56.77                            | 5.13   | 60.50                              | 10.32  | 1.047 | 382.7                                       | 65.2   | 6.5  |
| 1961 ..  | 442.7           | 60.65                            | 3.49   | 64.31                              | 11.11  | 0.867 | 396.9                                       | 68.0   | 5.4  |
| 1962 ..  | 453.4           | 62.08                            | 3.64   | 66.08                              | 10.28  | 0.899 | 399.7                                       | 62.4   | 5.4  |
| 1963* .. | 464.3           | 58.63                            | 4.55   | 63.20                              | 9.99   | 0.957 | 371.4                                       | 59.5   | 5.7  |
| 1964* .. | 475.5           | 61.41                            | 6.26   | 68.91                              | 8.79   | 1.189 | 396.9                                       | 51.0   | 6.8  |
| 1965* .. | 487.0           | 66.52                            | 7.46   | 72.95                              | 10.82  | 1.142 | 411.1                                       | 59.5   | 6.5  |

\*Provisional and subject to revision.

The *per capita* consumption in India of all food items in terms of calories compares as follows:—Canada : 3,140 ; U.S.A. : 3,150 ; U.K. : 3,270 ; Japan : 2,110 ; and India : 1,880.

The problem can be summed up in some such way as the following :—

The consumption of food grains and pulses in India has been increasing over the last three years faster than production.

The increase in population of eight million persons per year in itself will require one million tons of additional food grains each year. With an increase of the *per capita* intake of 100 calories per day, India would require an additional five million tons food grains per year.

It will take another five years for India to achieve the 81-million-ton food target of the Second Five-Year Plan. Consumption in the meantime will increase to 87 million tons, leaving a net deficit of six million tons per year.

Of this, India would probably import one million tons per year commercially. The balance of five million tons would need to be met somehow.

A reserve for India is necessary to meet crop failures and other contingencies.

### Agreements (1965)

The following agreements were signed in 1965 for food grain imports. (1) Contract (Feb. 12, 1965) for purchase of 50,000 tonnes of Australian wheat; (2) Aid by Canadian Govt. of \$17 million under the Special Food Aid programme for the purchase of about 234,800 tonnes of wheat; (3) On the expiry of P.L. 480 agreement on the import of wheat and rice exchange of letters between U.S. officials and Indian Officials for additional P.L. 480 allotments (July 26, 1965) for about 10 lakh tons of wheat, (Sept. 29, 1965) for about 5 lakh tonnes of wheat, (Nov. 4, 1965) for another 5 lakh tonnes of wheat and (Dec. 10, 1965) for 15 lakh tonnes of wheat (milo from U.S.A.); (4) Contract (Sept. 24, 1965) for commercial purchase of 95,428 tonnes of wheat from U.S.A., (5) unconditional gift (Feb. 17, 1965) from Govt. of Australia of 150,000 tons of wheat for the maintenance of supplies interrupted by prolonged U.S.A. strike; (6) Agreement (Feb. 3, 1965) for the purchase of 2 lakh tonnes of rice from Burma; (7) Two agreements (Jan. 8, 1965 and Sept. 10, 1965) with the Govt. of Thailand for the purchase of a total quantity of 183,500 tons of rice; (8) Agreement (Jan. 11, 1965) for purchase of 50,000 tonnes of rice from Pakistan under barter deal of which only 10,000 tonnes of rice was imported.

The import of cereals was stepped up from 4.6 million tonnes (1963) to 7.5 million tonnes (1965) and agreements had already been entered into for the import of over eleven million tonnes of cereals during 1966.

### Buffer Stocks

The Government of India propose to build up a buffer stock of four million tons of wheat and two million tons of rice. The stock of wheat

is to be built from imports from U.S.A. under P.L. 480 agreement of May 1960 and that of rice from internal procurement and imports.

Distribution of foodgrains from Government stocks channelled through 110,000 (1965) fair price shops.

**Rationing :** The principle of statutory rationing has been accepted by all States. It was decided in Aug. 1965 that in cities of one million population, later modified into one lakh and above, rationing should be introduced. In Kerala informal rationing was introduced from Nov. 1, 1964; Greater Calcutta throughout 1965 (extended to Asansol, Durgapur, Siliguri industrial complex from Feb. 1966) Madras and Coimbatore (Oct. 1965), Delhi (Dec. 8, 1965), Hyderabad, Secunderabad & Vishakapatnam (Feb. 1966) and Kanpur Feb. 16, 1966.

### Distribution (1961-65)

| Year    | mill. Tonnes. |       |              |        |
|---------|---------------|-------|--------------|--------|
|         | Rice          | Wheat | Other grains | Total  |
| 1961 .. | 0.950         | 2.983 | 0.044        | 3.977  |
| 1962 .. | 1.134         | 3.221 | 0.014        | 4.365  |
| 1963 .. | 1.361         | 3.816 | 0.001        | 5.178  |
| 1964 .. | 1.859         | 6.785 | 0.021        | 8.665  |
| 1965 .. | 3.586         | 5.939 | 0.537        | 10.062 |

### Price Support

The main purpose of fixing minimum support prices is to give an incentive to produce more by providing a guarantee against undue fall in prices.

Maximum whole-sale and retail prices of rice were fixed in Bengal (Jan. '64) and in the Southern States (Aug. 1964). Subsequently the Government fixed the maximum price of paddy Re. 1/- higher than the support prices. Maximum prices of wheat have been fixed by the Govt. of Rajasthan and of jawar by Madhya Pradesh and Maharashtra. The Govt. have accepted the continuation of minimum support prices for paddy with minor adjustments in Assam, Bengal, Madras, Maharashtra & Orissa for 1965-66.

To regulate trade activities the wholesale dealers in foodgrains are licensed in all States.

### WAREHOUSES

The Central Warehousing Corporation has set up 83 warehouses, the number of which has gone up to 85 in 1964-65 and 89 in 1965-66, with capacities of 1,77,857 ; 206, 772 and 217,054 tonnes respectively. The stock held during the years was 93,605 ; 108,964 and 108,432 tonnes foodgrains respectively. The State Warehousing Corporations set up 444 warehouses and 93 sub-warehouses with a total storage capacity of 5,61,000 tonnes upto Aug. 1966. The Food Corporation is expected to take most of them.

As many as 80 types of commodities are now stored in the warehouses including foodgrains, oilseeds cattle fodder, raw cotton, cotton seed,

raw jute, turmeric, gur, ginger, pepper, cardamom, coffee seeds, chicory, fertilizers and food products.

### Food Corporation

The Food Corporation was set up as a statutory body in Jan. 1965 to function in the long term comprehensive strategy for solving the food problem.

### Subsidiary Foods

A Food and Nutrition Board with 10 members consisting of scientists and technologists has been set up in the Department of Food for securing accelerated, coordinated, effective implementation of programmes of development and popularisation of subsidiary and protective food with the Secretary in Dept. of Food as the Chairman.

The Board has initiated investigations for the development of cotton-seed protein for human consumption, fortification of common salt with calcium and development of food from green vegetation and further work on parboiled rice and vegetable milk powder.

Demonstration-cum-community canning and Food preservation centres have been established one each at Delhi, Bombay, Madras and Calcutta. Four mobile food and nutrition extension units for the systematic campaign for promotion and popularisation of food preservation technique, suitable dietary habits, cost balanced diet and scientific technique of cookery, proper utilisation of food etc. with Hd. Quarters at Delhi, Bombay, Calcutta and Madras, have also started functioning. The three Institutes of Catering Technology and Applied Nutrition at Calcutta, Bombay & Madras and the Institute of Hotel Management, Catering and Nutrition (Delhi) imparted training for diploma and Craftsman course. During 1965-66 about 100 persons got diploma and 400 were trained for craftsman course.

Pilot plants for the production of edible groundnut flour for the manufacture of multi-purpose food, enriched atta, maida etc. have been set up in Coimbatore and Bombay. One unit each of one ton multipurpose food per day production capacity was set up in Calcutta and in Sitapur (U.P.) Roller mills wheat products price control order was amended to permit enrichment of atta with 5-10 per cent edible groundnut flour.

### Processing Technology :

With a view to increasing out-turn of rice six modern rice mills were set up in Tiruwarur (Madras), Tadepallegudam (Andhra), Mandya (Mysore), Raipur (M.P.), Balgarh (Orissa) and Mejari (W. Bengal) in the cooperative sector and one in Bikaner (Bihar) in public sector. A training-cum-demonstration centre was also started in modern rice milling technology in Andhra, Madras and M.P. Programme to establish 300 modern rice mills, with a capacity of 2 tonnes per hour and another 75 with 4 tonnes per hour has been launched by the Food Corporation. The Govt. of India has now set up a committee under the chairmanship of the Chairman of Food Corporation to locate a centre for research and farming in modern rice technology in which Ford Foundation is also interested.

### PACKAGE PROGRAMME

The above programme which was initially introduced in 7 districts and subsequently extended to cover 9 other selected districts has completed its five-year operation.

During 1964-65, the programme was in operation in 280 out of 311 blocks covering about 30 lakh hectares, representing about 37 per cent of the total cultivated area of the Districts. As a result of the package approach, crop production increased much; in Ludhiana wheat yield doubled over 3-4 years; paddy yield in 1964-65 recorded 25-50 per cent increase in the pre-dominant paddy districts. Maize and barley yields increased by 90 and 80 per cent respectively in Aligarh (U.P.) As a result of the Intensive Agricultural District Programme (IADP) consumption of N. fertilisers increased from 0.93 lakh tons (in pre-package period) to 2.88 lakhs

(1964-65) and phosphate from 0.22 lakh ton to 1.35 lakh tons during the same period. About 70 per cent of them were applied to foodgrains. The coverage by improved seeds increased by 2½ times, plant protection by about 3 times.

Based on the experience of Intensive Agricultural District Programme (IADP) 'package' approach was extended in 1964-65 to Intensive Agricultural Area Programme (IAAP) in 114 districts. It covered 1,084 blocks in 1964-65 (64.55 hectares) and was extended to 1,285 blocks in 1965-66.

In addition to the above the Govt. of India has launched a programme for intensive foodgrain production based upon high yielding varieties, primarily in irrigated areas with all the requisite imports and technical knowhow covering 2.50 million acres of rice, 80 million acres of wheat and 4 million acres each in jowar, bajra and maize with an expectation of an additional yield of 12.50 million tons of rice, 8 million tons of wheat and 2 million tons of jowar & maize each and one million tons of bajra.

### EXPORT PROMOTIONS

Export promotion division is set up in the Ministry for export of agricultural commodities. It has set up a number of study groups to carry out intensive study of important agricultural commodities that enter into our export trade and to recommend measures for augmenting export supplies and increasing exportability of agricultural commodities and agriculture based industries. The study team submitted its report in Feb. 1965 and work relating to their recommendations is being taken up. In Dec. 1966, another high power inter Ministerial Committee (under the Chairmanship of the Secretary for Agriculture) to insure effective implementation of the development programmes in respect of the export orientated agricultural commodities including raw cotton, tea, tobacco & oilseeds. This high power standing committee will ensure the closest working between ministries of Commerce, Agriculture, Finance & Planning in order to achieve speedy and effective results.

Five advisory panels have been set up to advise the Govt. in matters of policy and implementation of research, development and educational programmes relating to Indian farming.

### AGRICULTURAL PRICES COMMISSION

An Agricultural Prices Commission was established in Jan. 65 to keep the situation (of providing economic incentives to farmers) under constant review and to advise the Government on agricultural price policy and price structure in relation to the urgent need for increasing production of agricultural commodities ensuring at the same time reasonable prices to the consumer. The commission recommended on price policy for cotton for 1965-66, Kharif cereals for 1965-66 season and for jute for 1966-67, keeping

in view the recommendations of the Commission. Minimum prices have been fixed at economic levels to guarantee the farmer against loss arising out of undue fall in prices, so that he can put in the necessary investment & effort to step up production.

### FOODGRAIN POLICY COMMITTEE REPORT

The Foodgrains Policy Committee set up by the Government of India in 1966 and headed by Mr. B. Venkatappiah in its report has advocated national management of food. To ensure that the national food budget is implemented without any disparity as between State and State, a National Food Council should be set up to formulate, review, revise and implement the food budget. This council, should be presided over by the Prime Minister and include all the Chief Ministers and the Union Ministers of Food & Agriculture and Planning.

The Committee was asked to examine the existing zonal arrangements in regard to the movement of foodgrains and the systems of procurement and distribution in the country and to make recommendations for modifications if any in these arrangements for bringing about an equitable distribution of foodgrains at reasonable prices between different regions and sections of the country. The Committee noted that national management of food could not be successful without national discipline and a sense of sharing a common purpose. National management of food implied a national plan of supply and distribution which in turn meant procurement to ensure supplies, control over inter-state movement to facilitate procurement and keep prices at a reasonable level, a system of public distribution to ensure equitable sharing and the building up of a buffer stock to provide against difficult years.

The Committee is of the view that a chronic and marginal food shortage is likely to continue in the next five to ten years. 'An important objective of food policy is to ensure that the shortage of foodgrains does not lead to an excessive and unbridled rise in their prices', the Committee says.

The lasting remedy for food shortage is to ensure that production keeps pace with the increase in demand. Besides larger production of foodgrains, there has to be a better management of food. The nation must achieve self-reliance in foodgrains as quickly as possible, imports available should go into the building up of reserves and the distribution system should operate to mitigate hardships to the poorer classes.

The system of public distribution could function only if the necessary supplies for maintaining it are acquired by the Government. The larger the supplies through the public distribution system the greater would be the impact on prices. The report warned that imports are not likely to be available as easily as they are now, obviously referring to the move in the USA to make importing countries pay for food in dollars.

Strict adherence by the surplus states to obligations under the national food budget is therefore essential. The surplus States should consider themselves, and not the Central Government, primarily responsible for meeting all commitments made in regard to the supply of foodgrains to the deficit states.

The Committee has recommended that statutory rationing should be extended to Ahmedabad and Bangalore. Urgent steps are to be taken to reduce the dependence of the public distribution system on imports and immediate steps to build up a buffer stock of not less than four million tons during the next three or four years. The Union Government should endeavour to put aside at least a million tons of foodgrains every year in the next three or four years unless the year was extremely bad.

The imposition of restrictions on private trade, especially inter-state trade, is the only way out since open market purchases would raise prices and defeat the objective of holding the price line. As an important part of the national food policy, each State, surplus or deficit, should introduce a minimum graded levy on the producer in respect of major foodgrains. While food management by the State Government can co-exist with the operations of private trade in its own allotted sphere within the State, the same cannot be said of inter-state operations. These must be the sole concern of the Government and its agencies working within the framework of the national food budget.

"State control over inter-state trade in foodgrains should be continued", the Committee has insisted. It recommends that the Food Corporation of India should handle inter-state trade to ensure proper planned movement. The Committee has backed the Food Corporation as the best agency for inter-state transfers and said that the FCI should be brought in as a trader where private trade is functioning. Where a number of procurement agencies like the co-operatives, millers and private traders are at work the Foodgrains Policy Committee has recommended that the FCI should also be appointed as a procurement agent. It has recommended certain organisational and other measures to equip the Food Corporation to discharge its new role efficiently and also to foster closer association and understanding between the FCI and the State Governments.

The Committee has also urged that a Standing Committee should be set up to exercise the powers of the National Food Council. It has recommended the setting up of a Central Food Committee presided over by the Union Food Secretary and composed of the Union Agricultural Secretary, Food Secretaries of all the states, the Chairman of the Agricultural Prices Commission, the Chairman of the Food Corporation of India and six non-official members, to prepare the national food budget for consideration and approval by the standing Committee of the National Food Council.

## LIVESTOCK

**T**HE total livestock population in India is placed at 336.53 million, according to provisional estimates of the 1961 livestock census as against the 1956 census figure of 308.60 million. The net contribution of livestock to the national income at present is estimated to be over Rs. 10,000 million including Rs. 4,000 million contribution in terms of bullock/draught power.

Meat from livestock is a valuable source of protein; about 0.9 per cent of the total cattle population is slaughtered for meat, and 36 and 32.5 per cent of the goat and sheep population respectively. The annual production of meat from goat is about 0.15 million tons and that of mutton 0.11 million tons. Production of beef, buffalo flesh and pork amounts to 0.12, 0.09 and 0.02 million tons respectively. The total annual production of meat from all species is

estimated to be over 0.46 million tons valued at Rs. 760 million.

Live stock products like raw skins, wool and bones figure in our export and between themselves totalled to form about 6.61 per cent of the annual average export covered during the First Plan and about 7.88 per cent during the Second Plan. The annual average of the first three years (1961-64) of the Third Plan was about 6.21 per cent. In monetary term the average annual export earnings through raw skins, hairs and bones were Rs. 1,642 lakhs and Rs. 2,220 lakhs during the first two Plan periods and Rs. 2,003 lakhs during the first three years of the Third Plan.

### CATTLE

Among the well-defined breeds of cattle (26 and 8 of buffaloes), three broad divisions are:

dairy or milch and draught cattle and those that serve a dual purpose.

**Dairy Milch:**—The Sahiwal, the best milch breed, are responsive to environment, have an yield of 4,000 lbs. a year. The Sindhi are also responsive to environment, the Gir in Saurashtra and Rajasthan have an yield of 3,700 lbs. a year. In the order of the productivity of milk the cattle may be arranged as follows: the Sahiwal, the Kankrej, the Ongole.

**Draught:**—The Amritmahal Hallikar (Mysore) are good for draught purposes but are poor milkers.

**Dual:**—The Gao in Madhya Pradesh are draught animals but also good milkers, 3,000 lbs. The Kangayam in the south and south-east of the country are powerful draught animals of

average milk yield. The Kankrej, are essentially draught but have milk potentialities (3,000 lbs.); they belong to Gujarat. The best known in this group are the Haryana (Punjab, 3,000 lbs.), Tharparkar (Gujarat and Rajasthan, 3,000 lbs.), and Ongole (Andhra).

The best known breeds of buffaloes (26 in all) are the Murrah, Nili and Ravi of the Punjab, the Jufferbadi of Kathiawad, Mehsana of Gujarat, Nagpuri of Vidarbha and the Surti and Pandharpuri (a type of Nagpuri buffaloes) of Maharashtra. All except the Nagpuri are noted dairy breeds. Murrah is adapted to all climates. They also yield on an average about 3,000 lbs. of milk for over 300 days in a year.

The average annual milk yield of a buffalo is 1,100 lbs. against 413 lbs. of the Indian cow. Buffalo milk being one and a half times as rich

in fat content as cow milk, is more valued for butter and ghee production. Buffaloes are also better utilisers of coarse fodder and are less expensive to keep.

It is estimated that contribution of draught power in terms of rupees is about four hundred crores. The area cultivated by a pair of working animals is about 8-16 acres. There are about 160 cattle and buffalo farms in the country maintaining about 22 breeds of cattle and two of buffaloes.

Livestock Development is stepped up through special schemes such as key village blocks with cattle breeding farms and arrangements for bull rearing, artificial insemination, subsidised calf rearing and also Goshalas and Gosadans. The programme included also poultry development schemes.

#### Cattle Development Programmes

| (c) Farms for forage seed .. .. .                         | —                                         | —                       | 18                     |

**Service Training Centres:**—For the development of livestock six service training centres were established. The services of F.A.O. experts have been obtained to conduct four practical training courses of two months' duration each in artificial insemination and physiology of reproduction.

**Feed and Fodder:**—During 1964-65 the programme of feed and fodder resources operated in all the States except Nagaland and three Union Territories. 148 pasture demonstration plots were established during 1964-65. Production of seeds and other propagative material of fodder and forage grasses were taken up at eleven farms, while pasture improvement was taken up in nine farms during the period. Besides, construction of 557 silopits was subsidised and 578 chaff cutters distributed. It is proposed to establish five fodder banks in various parts of the country at a total cost of Rs. 13.75 lakhs in Andhra, Maharashtra and U.P. with a capacity of 2,000 tonnes, in Bihar 3,000 tonnes and Rajasthan 4,000 tonnes located near forest areas and rail heads for bulk storage and easy transport facilities. Fodder and grazing centres were set up in all the States except Assam, Jammu and Kashmir, Orissa and Nagaland and two Union Territories.

**Salvaging:**—Under the scheme for the salvage of superior calves from milk colonies, 5,269 calves of six months age and above were bought from Aarey and Haringhata milk colonies upto Jan. 1966 and distributed freely to bona fide breeders. Hissar is reorganised to produce 660 Haryana and 150 Tharparkar breed bulls annually to meet the demand of other States after the requirement of the Punjab Govt. In 1964-65, 585 substandard animals were culled from the farm and 250 acres of farm land was developed.

**Gosadans:**—The Gosadan Scheme aims at the removal and segregation of old, unproductive and uneconomic cattle. Old, infirm and useless cattle are segregated and sent to gosadans located in remote forests and other waste lands where grazing facilities are not fully utilised. All male stock were castrated before admission

into the gosadans. The remains of dead animals such as skins, hides and hoofs, etc. were to be utilised by setting up a small 'chamlaya' at each centre. Against a target (revised) of 38 during the two Plans, 36 gosadans were established. Emphasis was laid in the Third Plan on the establishment of collection centres to increase the number of admissions to Gosadans. The Model Training-cum-Production Centre, Lucknow, so far trained 249 candidates in hide drying, curing and carcass utilisation, 93 in farming and 83 in foot-wear and leather utilisation. Another such training-cum-production centre is being set up in Andhra Pradesh.

**Gaushala Development:** The object is to convert them into efficient milk production centres and to breed better cattle. Total number of gaushalas taken up for development since the initiation in the 2nd Five-Year Plan upto 1964-66 was 328.

To eliminate the damage to crops by wild and stray cattle a scheme to catch and dispose them had been in operation as a part of Gaushala Scheme in the States of Delhi, Jammu & Kashmir, M.P., U.P. and Punjab. From April 1962 to Dec. 1964 32,075 cattle were rounded up out of which 4,231 productive ones, were distributed for breeding purposes and 13,683 unproductive ones sent to gosadans. The remaining cattle were auctioned and released on payment of fine. Between April and December 1965, 18,588 cattle were rounded up, of which 2,138 productive ones were distributed for breeding including 711 distributed among settlers in Dandakaranya. 4,235 unproductive ones were sent to Gosadans and the rest auctioned. The productive cattle already distributed is reported to be giving 8-12 lbs. milk daily. The scheme provides also for the training of State catching teams and the establishment of concentration camps.

Milk production in rural areas is linked with marketing surplus production in urban centres, the supply and collection being done through a net-work of Producers Cooperative Societies in the villages. During the Third Plan

period 55 new supply schemes were to be taken up in cities of 1 lakh population and above and in growing industrial townships. For the development of rural milk pockets four milk product factories and two cheese factories have been established.

**Mass Castration:**—The Govt. of India has a scheme for mass castration of undesirable young male calves in operation in Bengal, Mysore, Orissa, Punjab, Rajasthan, Tripura and U.P. to restrict the multiplication of inferior cattle. During 1965-66 1.3 lakhs of such animals were castrated by 20 teams set up in these States for mass castration campaign.

In the veterinary field, it was proposed to double the number of hospitals and dispensaries during the Third Plan from 4,000 to 8,000. Every development block would have at least one hospital or dispensary. The entire bovine population of the country were expected to be vaccinated against contagious diseases.

#### SHEEP

It has been estimated that the number of sheep in the country was about 40.3 million in 1961. In Punjab\*, Uttar Pradesh and Rajasthan, the annual production per sheep is estimated at between 3.1 lb. and 4 lb., while in the rest of the States it does not exceed 1 lb. The average for the whole of the country is in the neighbourhood of 2 lb. per sheep per year. It is estimated that in 1960-61, about 73.26 mill. lbs. of wool was produced.

Sheep also supply meat worth about Rs. 120 million every year in addition to pelts and manure. In 1960-61 about 290.40 million lbs. of mutton was available for human consumption. (67.5 per cent of the Indian population are vegetarians according to 1961 census) and 15.3 million sheep skins are used in leather industry. Sheep manure is very much valued among other manures as it contains twice as much nitrogen and potassium as are present in cattle manure. An individual sheep contributes 0.5 to 0.7 tons of manure annually.

India still requires large quantities of wool. About 16 million pounds of wool, tops and yarns costing about Rs. 120 million are imported. At the same time, we export about 38 million pounds valued at Rs. 61 million annually.

Sheep and wool development schemes have been launched on the lines of the key village scheme for cattle improvement, in 250 centres in different States. The Third Five Year Plan has laid great stress on sheep and wool development programme. Out of the provision made, two training centres, one sheep breeding farm and 122 wool extension centres have been set up upto the end of 1964-65.

Research in sheep breeding is promoted in three major sheep rearing tracts, viz. Temperate Himalayan, North Indian Plains and in the Deccan Plateaux, to evolve strains of sheep which will yield wool for apparel and also for superior types of carpets.

#### GOATS

Goats form an integral part of Indian agricultural economy. The goat is the principal source of meat supply; it also provides manure, skin, hair (Mohair) and milk. Estimated availability of goat meat for human consumption was Rs. 533.6 million in 1960-61. 31.9 million goat skins were utilised in leather industry and 9.94 million lbs. of goat hair was also produced during 1960-61. About 21.3 million pieces of goat skins and hides valued at Rs. 75 million are produced in India, of which skins worth about 57.2 million rupees are exported. Rajasthan has the largest goat population followed by Maharashtra, Bihar and U.P.

The important breeds of Indian goats fall under four broad groups:—Himalayan Goats are found in the hills of Kashmir, Punjab\* and Uttar Pradesh. These are mostly reared for mohair production and also for meat. There is also the Pashmani goat of Kashmir which

\* Composite State.

produces an undercoat of very fine variety of hair which goes into the manufacture of shawls. The plain goats comprise some of the best mutton and milch animals. Some of the better known breeds are Marwari, Konor and Jamnapari. The last yields 600 lbs. in a lactation of 250 days. Deccan plateau goats yield small quantities of milk and are mostly reared for mutton.

Results from the Punjab\* and U.P. have shown that selected goats yield (6 to 8 lbs. milk per day going up to even 12 lbs. in U.P.) on an average about 400 lbs. of milk per lactation of 150 days while a few went up to 700 lbs. and even higher.

Large provision has been made for sheep and goat development in the Third Five Year Plan. There are now 54 sheep breeding farms in the country of which 17 farms will be expanded to produce 2,500 quality rams for use in rural areas. The production is also expected to go up from 72 million pounds to 90 million pounds. It was expected that by the end of the Third Plan there would be 447 extension centres in the country for which 158 sheep and wool extension centres and eight training centres are also to be set up. A large-scale sheep shearing and grading programme linked to sheep development forms an important part of the U.N. special fund project commenced during 1963-64 in Rajasthan. Under the guidance of five Australian specialists a training school in wool grading has been started at Jodhpur. Such six more centres were expected during the Third Plan. A survey of sheep and wool production in Punjab\* has been conducted and similar work for grading and marketing will be extended there. A Central Institute with two sub-stations (one in Kulu and another in Madras) was established in Rajasthan to coordinate research in wool production.

#### POULTRY

There were about 117 million poultry in India in 1961, as against about 95 million five years before.

Even at a low rate of production, the annual contribution of Indian poultry to the country's economy is not less than Rs. 100 million.

At present, the *per capita* consumption of eggs in India is only four per annum as compared with 400 in U.K., U.S.A. or Denmark.

**Poultry Development.**—To stimulate poultry development as a subsidiary industry in the rural areas, a pilot project was approved early in 1955.

The project will popularise scientific poultry farming, provide consumers with good quality products at reasonable price and give also gainful occupation to a large number of poultry keepers. In view of the difficulty in bringing eggs and poultry products from long distances, transport difficulties and inadequate cold storage facilities, etc., this project will be implemented around large towns and cities having a population of one lakh only at present.

The salient features of the projects are—(i) It will be run on commercial and self-supporting basis through co-operatives, (ii) necessary requirements such as stock, disease protection arrangements, poultry feed, equipment, technical guidance, loans, subsidy and facilities for collection grading and marketing of the produce will be provided simultaneously, (iii) stimulate growth of commercial enterprise and gainful occupation of about 300 poultry farmers providing a monthly income ranging from 50 to 100 rupees per month, (iv) popularise rearing of day old chicks by the poultry farmers themselves so as to provide the basis for the development of a sound poultry industry and (v) provide the consumers with fresh, clean and good quality eggs and poultry at reasonable cost.

During 2nd Five-Year Plan five regional poultry farms were established in Bangalore, Maharashtra, Bhubaneswar, Delhi and Himachal Pradesh and 266 extension-cum-development centres against the Plan target of 300. During 1965-66 these farms were expected to produce 26 lakh eggs and distribute 8.6 lakh breeding stock against 21.4 lakh eggs and 2.7 lakh birds in 1964-65.

The Third Five Year Plan provided for the establishment of fifty intensive poultry development blocks at an estimated cost of Rs. one lakh each.

Seven blocks out of these have been established so far (two each in Andhra, Bihar and Punjab\* and one in Himachal Pradesh).

The present demand in an average town of about one lakh population is about 10,000 eggs and 300 table birds per day.

With proper management, better feeding and housing, each hen will lay at least 144 eggs in a year against the average production of 60.

Besides, under the special development programme for husbandry, 26 intensive egg and poultry production-cum-marketing centres, two poultry dressing plants and eight poultry feed manufacturing plants are being set up and expansion of 25 State poultry farms has been taken up. Loans of Rs. 85.48 lakhs have been provided by the Central Government for setting up poultry farms in the private sector.

Target and achievement at the end of the Third Five Year Plan respectively are: State Poultry Farm (Expansion) 56; 85; Poultry Extension Centres (Expansion) 17; 41; Intensive Poultry Development Blocks 50; 57; Marketing Centres 12; 12; Duck Extension Centres 17; 20; Feed Manufacturing Centres 43; 40; Training persons in poultry keeping 2000; 21,355.

State-wise distribution of poultry development blocks under the phased programme for poultry development is as follows:—

Andhra Pradesh 5; Assam 1; Bihar 3; Gujarat 2; Himachal Pradesh 1; Jammu & Kashmir 1; Kerala 3; Maharashtra 2; Madhya Pradesh 4; Madras 6; Mysore 5; Orissa 2; Punjab\* 3; Rajasthan 3; Uttar Pradesh 6; West Bengal 4.

A large commercial firm with Canadian collaboration has been started near Gurgaon (Delhi) in 1962-63 and another similar one has also been started in Bombay. A poultry breeding farm is set up in Karnal in collaboration with Pioneer Hi-bred Corn Co., Zowa, U.S.A. Balanced poultry feed is manufactured by over 30 private firms.

**World Food Programme Aid:**—India and the World Food Programme signed an agreement on Feb. 1, 1964 covering aid for a project for increasing production of eggs and poultry at Babugarh (U.P.). Under the agreement India will receive \$ 1,71,900 (about Rs. 8.3 lakhs) from WFP of the United Nations. Under the agreement 20,000 tons of maize for the preparation and distribution of poultry feed in the country will be available out of which 3,000 tonnes have already arrived. Under the Freedom from Hunger campaign 15,000 high yielding day-old chicks are expected from Australia and a part of it i.e. 2,800 are already received and reared in regional poultry farm Delhi and Balugal.

**Piggery.**—Under the 2nd Five-Year Plan an All-India Piggery Development Scheme was promoted to augment food production of high nutritive value at low cost and also to improve the economic condition of Harijans who mostly are engaged in piggery activities.

During the Second and Third Plan periods two regional pig breeding station bacon factories have been established at Aligarh and at Harinaghat and two more such stations have been set up at Aarey (Maharashtra) and Kasanpalli (Andhra Pradesh). These stations sold 189 boars and 145 sows during 1965-66. Up to the end of 1964-65, 9 pig-breeding units and 44 pig development blocks were set up.

#### DAIRYING

Like agriculture dairying is one of the major industries in India as milk and milk products contribute not less than Rs. 6,200 million to the national income.

The dairy industry is still unorganised. Of 200 million cattle and buffaloes, 72 million or 36 per cent are milch animals (females over 3 years). Milk yield is, however, low: Cow 413 lb.

per year, buffalo 1,100 lb. It has been estimated that 28.6 per cent of milch cows yield less than half a pound of milk whereas 94.3 per cent yield less than 2 lbs. per day and only 0.3 per cent yield over 4 lbs. per day; the corresponding figures for buffaloes being 0.1 per cent, 19.2 per cent and 18.8 per cent. Recent sample surveys conducted in typical cattle breeding tracts by the Indian Institute of Agricultural Research, Delhi indicates that the average daily yield in the country for milch cows and buffaloes is 450 and 1,336 gms. respectively, giving an average total annual yield of 361.35 gms. and 1,072.81 gms. for cows and buffaloes. Though buffaloes form only 30 per cent of milch animals, due to their comparatively high yield, they account for 55.9 per cent of the total milk produced. Buffalo milk has better fat content 6.5 to 7 per cent as against 4 to 5 per cent of cow.

Gross production of milk is 20.65 mln. tons, of which 13.2 mln. tons are marketed, the rest being used for home consumption or for feeding the calves. *Per capita* daily consumption of milk and milk products varies from 16.89 oz. in the Punjab\* to 26.4 oz. in Orissa; average 5.5 oz.

As a prelude to setting up city milk plants, pilot milk schemes were in operation in 15 centres during 1962-63. The dairy plants in operation during 1962-63, 1963-64 and 1964-65 were 18, 22 and 29 respectively, and 4, 3 and 4 new plants were also established during these years. During 1965-66 two new dairy plants were commissioned one at Baroda and another at Bangalore thereby raising the total number of organised milk plants to 30. The total daily average output of milk of these were about 8.5, 9.0, 10.0 and 13.0 lakh litres respectively during these four years. Construction and installation of equipment are in progress for other 26 dairies (five of which with assistance of New Zealand Govt. and UNICEF).

The dairy plants at Calcutta & Madras are associated with cattle colonies like Bombay Milk scheme. In them, 12,000, 13,000 and 14,000 cattle have been resettled during 1962-63, 1963-64 and 1964-65 respectively. A second milk colony for Bombay is being set up at Venkas. A cattle feed compounding factory was set up at Anand by Kaira Dt. Coop. Milk Producers Union to supply balanced cattle feed to the Coop. Milk producers. It produces daily about 100 tonnes of mixed feed.

In the field of milk products development, creameries have been started at Aligarh, Baran and Junagadh. Milk products factories have been set up at Amritsar and Rajkot and another two (at Anand and Mehsana with the assistance of Denmark) were commissioned during 1965-66. Two similar plants were under construction at Miraj (Maharashtra) and Vijayawada (Andhra). A milk drying plant is proposed for Bikaner Milk plant (with New Zealand assistance) at Indore. Dairy plants are expected to be set up at Madurai and Kanpur (with UNICEF aid). Dairy projects at Ludhiana, Baroda and Calcutta (expansion) are also helped by U.N.I.C.E.F. Assistance under Colombo Plan has been received from New Zealand for establishing dairies at Dehra Dun and Dhulia.

The State Governments of W. Bengal, Gujarat and Punjab have issued milk control orders which have encouraged rapid development of dairy output in these States.

#### FOURTH PLAN

**Cattle Development:**—In view of increased demand for milk and milk products, it has been considered essential to take up 30 intensive cattle development projects in addition to 100 new key village blocks and to expand the 209 existing ones. It is also proposed to establish 27 bull rearing farms, expand 60 existing livestock farms and to develop 380 gaushalas into breeding-cum-milk production centres. To meet the increasing demand of exotic animals the two Jersey farms will be expanded. Extensive areas will be covered with important breeds like Haryana, Tharparkar, Gir, Sindhi and Sahiwal.

**Feed and Fodder Development** :—It is proposed to undertake intensive fodder development in intensive cattle development and key village blocks, to establish 50 seed production farms and 25 mixed farming units, develop 25 grass bires and to exploit forest grasses. Pasture development and controlled grazing will be given high priority in semi-arid areas suitable for cattle and sheep rearing.

**Sheep and Wool Development** :—The Main objective in sheep development would be to increase the supply of wool and improve the quality of clip, and also help to improve meat supply. For improved breeding of sheep, local breeds are being crossed with rams of exotic fine woolled types in the Western Himalayan region and in selected areas of the Deccan plateau. For North Indian plains, selective breeding among the existing types is being emphasised. The programmes of improvement in shearing, grading and marketing of wool will find an important place under the Fourth Plan.

**Poultry Development** :—Development of cold storage, refrigerated transport, poultry dressing plants, organisation of feed manufacturing units, credit supply and distribution of production requisites will be given due attention. Further, attention will be paid to the formation of poultry farming societies in compact areas selected for intensive development.

**Piggery Development** :—It has been suggested that piggery development in future should be carried out in compact areas to establish pockets of improved breeds. In order to provide marketing incentives to producers, it is proposed to establish bacon factories in the vicinity of these areas.

**Disease Control** :—A special feature of the disease control programme will be the establishment of animal quarantine and certification service at four stations. For effective control of diseases among livestock, increased production of sera and vaccine and the establishment of diagnostic and investigation laboratories at important district headquarters are proposed.

**Mixed farming** :—A comprehensive programme for mixed farming (through intensive efforts) including subsidies, loans and technical guidance is envisaged in 25 selected blocks with special staff for supervision and popularisation of the work through mixed farming demonstration centres on farmers own holdings. Provision of grant for purchase of livestock, fencing material, fodder production, housing of livestock and fodder conservation is included in the scheme. Loans would also be available for purchase of necessary equipment. 100 mixed farming units are proposed to be taken up at a total cost of Rs. 245.0 lakhs (Rs. 70.00 lakhs for services and Rs. 175.0 lakhs for loans). Similarly, introduction of sheep among farming communities will be taken up by assisting farmers with loans, as well as grants, for owning small flocks of sheep which could be raised in a mixed farming economy. During the 4th Plan, it is proposed to locate 14,000 units of 20 sheep each in the different states. The cost of the scheme will be Rs. 252 lakhs.

**Research and Education** :—Preliminary steps taken during the Third Plan for the establishment of one livestock research station in each state would be completed during the Fourth Plan period.

**Milk Supply Schemes** :—It is envisaged to set up 35 milk supply schemes, expand 57 existing ones and to complete 36 spillover/continuing ones. In addition it is proposed to establish 26 milk product factories/creameries, 198 rural dairying centres and 12 cattle feed compounding factories in conjunction with large dairy plants. The dairy extension programme which includes organisation of co-operative societies, granting of loans for purchase of milch animals, setting up of feed supply units and providing extension staff to help farmers in increasing the production of milk and its hygienic handling would form an integral part of the dairy development programme.

List of dairy plants in operation and under implementation

\* Composite State.

Besides the above plants, the working group has recommended to establish some more dairy plants in different States. The names of the States and the location respectively are as follows:—*Assam*: Jorhat and Tezpur; *Bihar*: Shahabad, Jamshedpur and Chapra; *Jammu & Kashmir*: Udhampur, and Anan-nag; *Kerala*: Quilon, Alleppey and Trichur; *Madhya Pradesh*: Raipur and Ujjain; *Madras*: Salem, Vellore and Tirunelveli; *Maharashtra*: Udgir; *Rajasthan*: Alwar, Ajmer and Jodhpur; *Uttar Pradesh*: Rampur, Saharanpur and Shahjahanpur; *West Bengal*: Kharagpur and Farakka.

### ANIMAL DISEASES

The chief diseases are glanders and surra in equines, foot and mouth disease, haemorrhagic septicaemia, black quarter and anthrax in ruminants and tuberculosis, Johne's disease and contagious abortion. Glanders is incurable but surra can now be successfully treated with Naganol or Antrypol. This disease (surra) also affects camels, cattle and dogs.

Rinderpest causes a mortality of about 60 per cent resulting in an annual loss of 0.4 million heads of cattle, valued at about 300 million rupees. Because of the eradication campaign of the past, Kerala, Mysore and Madras are now free from the disease. But, further north, in Andhra Pradesh, Gujarat and Maharashtra State the disease is prevalent and a pilot scheme to vaccinate and brand about 12 million cattle and buffaloes has been in operation since October, 1954. As a result of the last eight years' work over 112.4 million cattle and buffaloes have been protected out of an inoculable population of 131.6 million.

4.95 million cattle and buffaloes were vaccinated during 1965-66 bringing the total to 135.7 million vaccinations since the inception of the scheme. The incidence of the disease was also further reduced from 354 outbreaks in 1964-65 to 300 in 1965-66.

Indian poultry are also subject to several contagious diseases. Infections coryza and allied conditions in poultry are widespread and studies to control them are being carried on in Madras, Orissa & U.P.

### Research and Educational Institutions

The Indian Veterinary Research Institute has centres at two places in Uttar Pradesh, Izatnagar, and at Mukteswar near Bareilly.

The Institute supplies the veterinary demands of the whole of India for sera and vaccines and except for two minor institutions (one in Madras and the other in Mysore), it is the only source in India for these products. The present output of these products meets only 1/3rd of the demands.

Similarly, research in dairying is done at the Indian Dairy Research Institute, Karnal (Punjab) and at its southern regional station at Bangalore (Mysore). The Indian Dairy Research Institute, its southern regional station at Bangalore, give courses in Animal Husbandry and Dairying. There is also the Agricultural Institute, Allahabad. Both these institutes now come under the reorganised Indian council of Agricultural Research and they are proposed to be raised to National Institutes. The eight agricultural universities already established invariably contain animal husbandry wings.

There are 23 Veterinary Colleges in India, one each at Hyderabad, Tirupathi (Andhra Pradesh); Gauhati (Assam); Patna and Ranchi (Bihar); Anand (Gujarat); Trichur (Kerala); Jabalpur (Madhya Pradesh); Madras (Madras); Bombay, Nagpur (Maharashtra); Hebbal (Mysore); Cuttack, Mhow (Orissa); Hissar (Punjab), Bikaner (Rajasthan); Mathura, Nainital and Izatnagar, (Uttar Pradesh); Kalyani and Calcutta (West Bengal).

### Animal Husbandry Research

Coordinated scheme on cross breeding of cattle in hilly and heavy rainfall areas of the country with *Jersey* semen has been in operation at 8 centres in different parts of the country, while the scheme for development of hill cattle by cross breeding with jersey was in operation in 11 states. *Jersey* bulls required for the various developmental projects were supplied from the Jersey farms of Kataula (Himachal Pradesh) and Hesaraghata (Mysore) and Jersey semen from the Central Artificial Insemination Station, Bangalore and bull depots at Gauhati and Kalimpong.

The experimental breeding trials for improvement of sheep and wool have revealed that the breeds of *Merino* origin such as *Rambouillet*/ *Spanish Merino*/ *Polworth* are suitable for improving the local flocks in Himalayan region and in some parts of Deccan. Further trials with *Romeny Marsh*/ *Kulibishev* breed at Ootacamund indicate that these breeds are suitable for raising fast growing lambs finishing early for the market and yielding wool of good spinning quality. Selective breeding trials with *Chokla* and *Palanwade* breeds of sheep, have revealed that mass selection for certain wool attributes among these breeds can be undertaken in the field for improving the wool quality. In the scheme for improvement of mutton breeds of local sheep working in Andhra Pradesh, Maharashtra and Madras, it has been found in the Andhra scheme that *Nellore Sheep* are more economical producers of meat than *Mandya sheep*. The Central Sheep and Wool Research Institute, Malpura, Rajasthan expanded its activities by undertaking physiological studies on the adaptability of exotic breeds as *Romney Marsh* and *South Down*, to the local conditions. Further studies are in progress to determine the most suitable fodder for sheep under the local conditions in Rajasthan, and to test the adaptability of temperate fodder and forage crops at its Kulu sub-station, for use as winter store feed for hill/sheep. A second sub-station of the Institute is proposed to be established at Kodaikanal in Madras.

Studies are in progress at the various Regional Animal Nutrition Stations to find out the nutritive value of different feeds, subsidiary feeds and fodders available in the respective regions and replacement ration for calves. Research is being conducted on feeding of economic balanced concentrates mixtures incorporating cotton seed cake in place of cotton seed to milch animals at Anand. Encouraging results have been achieved and feeding of cotton seed cake has been found to be economical.

Under the Rinderpest Eradication Scheme, 4.95 million cattle and buffaloes were vaccinated during 1965-66 bringing the total to 135.7 million vaccinations since the inception of the scheme. The incidence of the disease was further reduced from 354 outbreaks in 1964-65 to 300 in 1965-66. The incidence of *Brucellosis* has also been considerably reduced as a result of systematic work.

### LIVESTOCK STATISTICS

The following table shows the estimates of livestock population for 1961.

(In thousands).

| Area                                        | Cattle         | Buffaloes     | Sheep         | Goats         | Horses & Ponies | Other Livestock | Total Livestock | Poultry        |

† Composite State.

## ANDAMAN AND NICOBAR ISLANDS

**CAPITAL:** Port Blair. Pop. 63,548 (1961). Literacy : 40.1%.

The Andamans are a string of islands of various sizes, large and small, lying between the 6th and 14th Parallels in the Bay of Bengal. The northernmost 'Landfall Island' is 560 miles from the mouth of Hooghly River. The headquarters Port Blair is about 780 and 740 miles from Calcutta and Madras respectively. The main part of the groups is composed of five large islands, viz. North Andaman, Middle Andaman, South Andaman, Baratang and Rutland Islands generally known as the Great Andaman. To the south of the Great Andaman is the island of Little Andaman. These Islands consist mostly of a mass of hills covered with dense tropical forests and separated by three straits and several creeks. These Islands have several very good harbours—Port Blair, Port Coranwallis, Mayabunder and Port Elphinstone.

The Nicobar Islands from Car Nicobar in the north to Great Nicobar in the south intervene between Little Andaman and Sumatra. The southern island of Great Nicobar is about 100 miles from Pulo Brasse off Achin Head in Sumatra and the northern island of Car Nicobar 75 miles from Little Andaman. These islands are partly hilly and partly flat. The most important harbour in the area is Nancowry reputed to be the finest harbour in the east.

The climate of the islands can be generally described as tropical; warm but tempered by pleasant sea breezes. The islands are exposed to both monsoons with north-easterly gale from November to January and south-westerly gale from May to October. The weather is smooth only from January to April and to some extent in October. The average rainfall is 123 inches. The temperature varies between 23.0°C to 30.5°C throughout the year. The scenery of the islands is everywhere strikingly beautiful.

### POPULATION

63,548 (1961 census).

### FORESTS

Forests cover an area of 2,500 sq. miles in the Andamans and the Nicobars. Out of this 78 per cent is under ever-green and deciduous forests.

The forests are rich in commercial timber and are suppliers of timber to the plywood and matchwood industries.

The species of timber found in the forest region are mainly padauk, Andaman redwood, Gurjan—a plywood species and Papita—a matchwood species. Annually the Forest department exports approximately 30,000 tons of timber to the mainland worth about Rs. 1 crore.

Since 1954 teak plantations are being raised in Andaman Islands with great success. Large areas have been brought under matchwood and cane plantations under the Five Year Plan schemes.

A Wild Life Sanctuary has been established at Ross Island which is at a distance of about one mile from Aberdeen Jetty (Port Blair).

### AGRICULTURE

The total revenue area is in the vicinity of 32,900 acres. The principal crops are rice, coconut and arecanut. The

estimated area under paddy cultivation is about 17,430 acres. The average yield of rice in 1965-66 was 12.7 maunds per acre. Commercial prospects of cultivation of rubber, coffee, and lac in these islands are considered to be bright by the experts.

**Animal Husbandry:** There are at present 5 veterinary dispensaries and 11 veterinary outposts functioning in the various parts of these islands. A poultry farm has been established at Port Blair.

### COLONISATION

From the commencement of the Colonisation process, in 1949 to March 1962, 3,281 families had been settled who have come from West Bengal, Kerala, Bihar and Madras.

Ancillary services like schools, hospitals and dispensaries have been provided in the colonisation area.

The Ministry of Rehabilitation, Govt. of India, has been made responsible for the development of Special Areas which includes Andaman and Nicobar Islands. An inter-ministerial team sponsored by this Ministry visited these islands from 5th to 20th February, 1965 for drawing up an integrated resource development programme for these Islands.

Under this Programme, 533 Sahkaris and their families totalling 1,240 persons, in addition to some of the staff of the Rashtriya Vikas Dal, were brought to these Islands till April 1966.

### INDUSTRY

Saw milling is the main important industrial activity in the Territory and provides employment to 1,209 workers corresponding to 56 per cent of total industrial employment. The other industries include Government Dockyard, transport workshop, a printing press at Port Blair, tractor repair shop and boat building yards at Long Island. Besides, a number of training-cum-production centres have been started by the Government.

**Power:** Port Blair has a 450 kW power station established in 1950. An additional generating set of 300 kW was installed in 1963. Six numbers 24 kW diesel generator sets have been established—2 each at Rangat, Mayabunder and Car Nicobar.

### ROADS

At present the Territory has a total length of 328 km. of black top road as against 172 km. in 1960-61.

**Transport:** Port Blair has a city and rural transport service comprising 15 passenger buses.

**Minor Ports:** Under a central plan scheme jetties for inter island communications are being constructed. Installation of navigational aids in Andaman and Nicobar waters had been entrusted to the Director-General of Lighthouses and Lightships.

**Shipping:** Two ships m.v. 'Andamans' and m.v. 'Nicobar' (both passenger-cum-Cargo ships) ply between the mainland and the Islands. For inter-island communications, the vessels s.s. 'Cholunga' and t.s.s. 'Yerewa' maintain the communications.

There is a weekly air service between Calcutta and Port Blair during fair weather.

## EDUCATION

This is an educationally backward territory and education up to higher secondary stage is free. There are 108 primary/junior basic schools, 9 middle/senior basic schools, 2 higher secondary schools—one for boys and girls at Car Nicobar and the other for girls at Port Blair, one higher secondary multi-purpose school and one junior basic teachers training school. There is at present no College in this Territory. However, students belonging to these Islands are granted scholarships for prosecution of studies on the mainland.

**Tourism:** As a first step towards development of tourism in these islands, one tourists' home at Corbyns Cove and the other at Port Blair have been constructed.

**Medical:** All treatment, medical or surgical including the ambulance transports is completely free. For specialised treatment patients are sent to the mainland at Government cost.

A new General Hospital (Gobind Ballabh Pant Hospital) has been constructed at Port Blair. There is also a 50-bedded T.B. Hospital at Port Blair. Besides, there are hospitals at Car Nicobar, Nancowrie, Bamboo Flat, Mayabunder, Long Island, Rangat and Diglipur. The total strength of the beds is 428 including the bed strength of the T.B. Hospital. There are 38 dispensaries all over the Islands.

A Malaria and Filaria Survey Control Unit under the National Health Scheme operates in the central group of Nicobar Islands. A V. D. Unit has been set up in Car Nicobar. The incidence of diseases in these islands is remarkably low compared to that of the mainland.

## COMMUNITY DEVELOPMENT

Five C.D. Blocks have been established covering the entire Territory of Andaman and Nicobar Islands.

**Panchayats:** Thirty-two Gram Panchayats and 31 Nyaya Panchayats have been established in the Andaman group of Islands. In the Nicobar group, the traditional Panchayats continue.

\* A sum of Rs. 11 crores has been fixed for the Fourth Five Year Plan.

## CO-OPERATION

The number of co-operative societies in the Andaman and Nicobar Islands has increased from 85 in 1960-61 to 161 in 1965-66.

A co-operative farming society and several co-operative plantation societies have started functioning.

## BANKS

A branch of the State Bank of India was opened at Port Blair in 1957 which also conducts Government Treasury business. A State Co-operative Bank has also come into existence with effect from 31st March 1966.

## THIRD FIVE YEAR PLAN\*

The Third Five Year Plan of these islands entails an outlay of Rs. 979.320 lakhs and the total expenditure incurred was of the order of Rs. 617.307 lakhs or 63.03% of the approved outlay. The main items of expenditure were, Agricultural-programmes Rs. 253.791 lakhs; Community Development and Co-operation Rs. 31.98 lakhs; Power Rs. 14.35 lakhs; Industries Rs. 14.76 lakhs; Transport and Communication Rs. 514.00 lakhs; Social services Rs. 132.89 lakhs and Miscellaneous Rs. 17.55 lakhs. In addition, the Ministry of Transport have provided Rs. 42 lakhs in the Central Plan for the development of Minor Ports in these islands.

## ADMINISTRATION

The Islands are administered by the Central Government through a Chief Commissioner. The budget estimates for 1966-67 are as follows:—

Total Revenue expenditure Rs. 5,68,73,600; Total Capital Expenditure Rs. 1,75,43,000; Total Revenue Receipts Rs. 2,25,06,000.

*Chief Commissioner:* Mahabir Singh, I.A.S.

*Chief Secretary:* Sardar Gurbachan Singh; *Development Commissioner-cum-Development Secretary:* P. B. Mathur, I.A.S.; *Chief Conservator of Forests:* J. C. Varmah;

*Secretary (Finance):* Prem Lal; *Secretary (Judicial):* S. Chakravarty.

# ANDHRA PRADESH

**CAPITAL:** Hyderabad. Area: 1,06,286 sq. miles; Population: 3,59,83,447 (Males 1,81,61,671; females 1,78,21,776 (1961 census).

Sex ratio 98.1 females for every 100 males. Highest sex ratio in Srikakulam—104 females for 100 males. Lowest in Anantapur—94.6 females for 100 males.

No. of Districts: 20. No. of Towns: 212. No. of Talukas: 189.

Density 339 per sq. mile. Literacy 21.2 per cent.

The number of Municipal Corporations: 1. The number of Town Municipalities in Telangana: 79; Number of Municipalities in Andhra: 47; Number of Panchayats in the State: 14,552; Number of Panchayat Samities: 271; Zilla Parishads: 20; Number of inhabited villages in the State: 27,084.

The State income stood at Rs. 1,323.20 crores and the per capita income at Rs. 354.31 during 1963-64.

Strength of Legislative Assembly: 301.

The strength of the Legislative Council: 90.

No. of members from Andhra Pradesh to the Rajya Sabha: 18.

No. of members from Andhra Pradesh to the Lok Sabha: 43.

## DISTRICTS

Districts with District headquarters in brackets:

Anantapur (Anantapur), Chittoor (Chittoor), Cuddappah (Cuddappah), East Godavari (Kakinada), Guntur (Guntur), Krishna (Masulipatnam), Kurnool (Kurnool), Nellore (Nellore), Srikakulam (Srikakulam), Vishakapatnam (Vishakapatnam), West Godavari (Eluru), Hyderabad (Hyderabad), Mahboobnagar (Mahboobnagar), Warangal (Warangal), Khammam (Khammam), Karimnagar (Karimnagar), Adilabad (Adilabad), Nizamabad (Nizamabad), Medak (Sangareddy), Nalgonda (Nalgonda).

## POPULATION

(For area and population of districts according to 1961 Census see under "Population".)

## AGRICULTURE

The total geographical area of the State is 67,451,693 acres (1960-61).

Net area sown was 11,406,000 hectares (1963-64); Barren and uncultivable land: 2,131,000 hectares (1963-64); Land put to non-agricultural uses: 1,946,000 hectares (1963-64); Cultivable waste: 1,395,000 hectares (1963-64); Permanent pastures and other grazing lands: 1,167,000 hectares (1963-64); Land under miscellaneous crops, trees and groves not included in the net area sown: 286,000 hectares (1963-64); Current fallows: 2,212,000 hectares (1963-64); Other fallow lands: 811,000 hectares (1963-64); Forests: 6,117,000 hectares (1963-64); Total cropped area: 12,752,000 hectares (1963-64).

## LAND REFORMS

The State Government in consultation with the Government of India enacted the Andhra Pradesh Ceiling on Agricultural Holdings Act, 1960 which prescribed the minimum extent of land that a person may hold. The Bill was passed by the Assembly on July 9, 1960.

(See article "Agriculture" for ceiling on holdings of land)

## LIVESTOCK (1961)

(See main article on "Livestock")

## INDUSTRY

The revised total 3rd Plan provision for the entire industrial sector was Rs. 1,672 lakhs, of which large and medium industries claimed Rs. 728 lakhs.

In the first instance ground was prepared to hold out more attractive incentives to entrepreneurs with the constitution of the Andhra Pradesh Industrial Development Corporation, the Small Scale Industries Development Corporation and the Andhra Pradesh State Financial Corporation. The Industrial Development Corporation, was constituted to offer financial aid to industries and also to take up worthwhile ones for direct promotion with financial collaboration from the private sector wherever necessary.

The Corporation has on hand the following five ambitious ventures at the moment for direct promotion: (1) Rs. 1 crore High Tension and Low Tension Insulators Project for the manufacture of 2,400 tons H.T. and L.T. Insulators per annum, (2) Rs. 3 crore Integrated Glass Project, (3) Rs. 4.5 crore Ball Bearings Project with a capacity of 3.72 million numbers per annum, (4) Rs. 7 crore Pig Iron Project and (5) Rs. 1 crore Power Cables Project.

The Government of India have issued a letter of intent for the manufacture of 600 miles of PILC paper insulated power cables per annum. The project is expected to cost Rs. 1 crore.

The Third Plan outlay and the proposed provision for the Fourth Plan for large and medium industries respectively are Rs. 6.13 crores and 21.65 crores.

## INDUSTRIAL ESTATES

Several steps have been taken by the State and Union Governments to assist in the development of small-scale industries, such as the setting up of production-cum-training centres, research units, model industrial units, giving loans under the State Aid Act—the establishment of Small Industries Service Institutes, supplying machinery on hire purchase basis and provision of marketing facilities. Another step of far-reaching importance taken by the Government is to set up industrial estates to locate small-scale industrial units.

A large variety of products such as cycles and cycle accessories, steel furniture, scientific instruments, wire nails, radios, tape recorders, electric measuring instruments, cycle dynamo lights, automobile springs, air-conditioners, safety razor blades, PVC cables, transformers, switch-gear, electric accessories, plastic goods, builders' hardware, storage batteries, stainless steel vessels, agriculture implements etc., are being manufactured on these Estates.

During the Third Five-Year Plan period, an amount of Rs. 220 lakhs had been provided for Industrial Estates and it is proposed to establish 14 Assisted Private Industrial Estates, 10 conventional type estates, 5 Rural Industrial Estates and one Cooperative Industrial Estate in addition to the expansion of the existing four Industrial Estates at Sanatnagar, Visakhapatnam, Vijayawada and Warangal.

## INDUSTRIAL COOPERATIVE SOCIETIES

Industrial cooperative societies deal with a large variety of trades such as handlooms, palm jaggery and neera manufacture, leather works, carpentry, scientific engineering works etc., covering a wide field in the village and small scale industrial sector.

The amount spent and allocated for the development of industrial cooperative societies during the Second and Third Plan periods respectively were Rs. 7.02 lakhs and Rs. 10 lakhs.

## MINERALS

The chief minerals produced in the State are coal, iron ore, limestone, manganese and asbestos. The coal industry is situated at Kothagudem, Tandur, Yellandu and Sasti in Telangana region. Other minerals are widely distributed. According to the Geological Survey of India, two large deposits of iron ore containing an estimated reserve of nearly 389 million tons of ore have been located in Guntur and Nellore districts.

(See under main article "Mines and Minerals" for production figures)

## COTTAGE INDUSTRIES

The most important industry is that of handloom. There are about 4 lakh handlooms in the State; besides, there are 14,000 looms for woollen fabrics. The State has thus the largest number of looms in India and this industry provides employment for about 323,000 persons and livelihood for 1,615,000 persons. Assuming that the overall production per month per weaver is 100 yards, the annual output of handloom cloth per annum works out to about 39 crore yards of cloth.

Other important cottage industries are Kambli-weaving which employs about 39,000 persons, coir making employing about 12,000 persons and basket making which employs about 40,000 persons.

Certain handicrafts of Andhra Pradesh are world famous. Notable among these are the silver filigree articles of Karimnagar, the exquisite toys of Nirmal, Kondapalli, Nakkapalli and Tirupathi, the carpets of Warangal and Eluru and the lace goods of Narsapur.

## TRANSPORT

The total railway route kilometrage open for traffic in Andhra Pradesh as on March 31, 1961 was 4,544.1 out of which 2,648.1 were Broad Gauge, 1,858.77 Metre Gauge and 36.93 Narrow Gauge. The total road mileage including National Highways and State Highways 13,053.

The Andhra Pradesh Road Transport Corporation as in March 1964: No. of routes 366; route mileage 7,101; mileage covered by vehicles (Lakhs) 617.00; expenditure on passenger amenities Rs. 8,36,991.81; expenditure on operative improvements Rs. 87,132.46; Gross earnings Rs. 964.95 lakhs.

*Other particulars as in Feb. 1965:* Fleet strength 2,076 buses; No. of depots 36; effective mileage per day (in miles) 1,78,206; passengers carried per day (in lakhs) 6.01; Number of staff 13,480.

The number of registered goods vehicles in the State as on March 31, 1962 was as follows: State carriages 4,465; goods vehicles 8,458; cars 16,101; motor cycles 5,379; taxis 505; others 1,870.

Hyderabad City is connected by air with Bombay, Nagpur, Madras, Visakhapatnam and Bangalore. Hyderabad City is served by Begumpet aerodrome. Hyderabad is also linked by air to Delhi and Calcutta.

### POWER PROJECTS

The aggregate power demand in Andhra Pradesh which was 180 M.W. at the beginning of the Third Plan was expected to rise to about 500 MW by the end of the Third Plan period. The installed capacity of 213 MW at the beginning of the Third Plan, has gone up to 291.8 MW at the end of the Plan.

#### Machkund Hydro-Electric Scheme (Stage I and Stage II)

The Machkund Hydro-Electric Scheme is a joint venture of the States of Andhra Pradesh and Orissa. The two States share the capital outlay and power benefits in the ratio of 70:30 respectively. An ultimate installed capacity of 1,14,750 kW of which 70 per cent is Andhra Pradesh's share is available under this scheme.

#### Tungabhadra Hydro-Electric Scheme (Details are given under "Irrigation").

#### Tungabhadra Nellore Hydro-Thermal Scheme

The scheme envisages the installation of one 30-MW thermal set at Nellore. The plant has been commissioned already.

#### Upper Sileru Hydro-Electric Scheme

The scheme envisages the installation of two sets of 60 MW each by utilising the tail race waters of Machkund power house.

#### Telangana Hydro-Thermal Scheme

The scheme envisages the integrated development of power generated at Hussainsagar, Ramagundam Thermal station and at Nizamsagar Hydrel stations in Telangana region. The scheme is making good progress and the additional power generated will be of the order of 14 MW.

#### Srisailem Hydro-Electric Scheme

The scheme envisages installation of 4 × 110 MW sets in the first stage. Work on the project is proceeding briskly.

The project is estimated to cost Rs. 45.75 crores. The dam and power house are programmed to be completed by 1970-71 and one unit of 110 MW is expected to be commissioned before the end of the Fourth Plan. The remaining units will be commissioned in 1971-72. The expenditure incurred on the project is about Rs. 4 crores.

### Balimela Dam

This is a joint scheme of Andhra Pradesh and Orissa Governments under execution by the Balimela Control Board. The total storage capacity of the Dam is 135 T.M. Cft., and 100.25 T.M. Cft. will be the live or effective capacity. There will be a power house erected at the toe of the Balimela Dam. The power generated here, i.e., 40 MW will be exclusively for the use of Andhra Pradesh. Andhra's share of the cost of the project is about Rs. 12 crores.

#### Kothagudem Thermal Scheme (Stage I)

This new scheme envisages the installation of 2 × 60 MW sets.

#### Ramagundam Thermal Extension Scheme (Stage I)

This new Scheme envisages the installation of one 60 MW set at Ramagundam. It is expected to be commissioned by April 1967.

#### Gas Turbo Sets at Hyderabad

This scheme envisages the installation of 2 × 10 M.W. Gas Turbo sets at Erragadda to relieve to some extent the power shortage in the twin cities of Hyderabad and Secunderabad, particularly during the peak load hours. The sets have been installed and commissioned into service.

#### Lower Sileru Hydro-Electric Scheme (Stage I)

This scheme envisages the installation of 3 × 100 M.W. Sets at Donkarai village on the river Sileru as the first stage of the project at an estimated cost of Rs. 25.34 crores. The power generated under this scheme will be exclusively for the benefit of Andhra Pradesh. Preliminary works have been taken up.

### IRRIGATION

In the Third Plan irrigation projects including flood control schemes accounted for Rs. 90.99 crores forming 26.4 per cent of the total revised outlay of Rs. 344.97 crores. In the draft Fourth Plan of the size of Rs. 700 crores, a provision of Rs. 75 crores is earmarked for major and medium irrigation schemes excluding Nagarjunasagar Project.

Against the irrigation potential of 9.53 lakh acres created in the first Three Plans, an additional irrigation potential of 25.13 lakh acres will be created in the Fourth Plan alone under all major and medium irrigation projects including Nagarjunasagar. The area expected to be brought under irrigation at the end of the Third and Fourth Plans are 8.27 lakh acres and 18.73 lakh acres respectively.

#### Major Irrigation Schemes

*Prakasam Barrage:* The total ayacut under this scheme is 12.25 lakh acres and it is estimated to cost Rs. 3.91 crores; *Bhairavunitippa Project:* It commands an ayacut of 12,000 acres and is estimated to cost Rs. 144.75 lakhs; *Upper Pennar Project:* Proposed to feed an ayacut of 12,000 acres and is estimated to cost Rs. 158 lakhs; *Rallapadu Project:* Intended to irrigate 7,640 acres and is estimated to cost Rs. 107.91 lakhs; *Rompuru Drainage Scheme:* 8,190 acres are benefited and is estimated to cost Rs. 128.02 lakhs; *Tungabhadra Project Low Level Canal:* The Canal is designed to irrigate about 92,000 acres in Mysore State and about 1,57,000 acres in Andhra Pradesh. Total estimated cost of the scheme is Rs. 1,391.00 lakhs; *Tungabhadra Project High Level Canal:* Expected to

irrigate 1.191 lakh acres in Andhra Pradesh and 70,300 acres in Mysore State. Estimated to cost Rs. 1,180 lakhs. *Rajolibanda Diversion Scheme*: The canal irrigates an ayacut of about 5,900 acres in Mysore State and about 87,900 acres in Andhra. Estimated cost is Rs. 372 lakhs; *Kadam Project*: Total utilization of the ayacut will be 65,000 acres. Estimated cost is Rs. 784.12 lakhs; *Pochampad Reservoir Project*: Designed to irrigate 5.7 lakh acres and is estimated to cost Rs. 40.10 crores.

Nagarjunasagar Project, Tungabhadra Project High level canal, Pochampad Project, Vamsadhara Project, Rajolibanda Diversion Scheme and Kadam Project are the major projects in Andhra Pradesh that are, at the moment, at various stages of progress. In respect of Nagarjunasagar Project the work on Stage I was completed on Aug. 3, 1966.

### CO-OPERATION

(See article on "Co-operative Movement").

### COMMUNITY DEVELOPMENT

Andhra Pradesh was the first State in India to introduce Panchayati Raj. There were (April 1965) 321 Blocks in operation, covering the entire State with Community Development Programme.

### LABOUR

During 1964, 109 strikes were reported resulting in a loss of approximately 5,20,250 man-days, 85 disputes were referred to adjudication. 160 Industrial disputes were settled in conciliation by the industrial relations machinery. 603 trade unions were operating in the beginning of the financial year 1964-65. 92 trade unions were registered between April 1964 and Jan. 1965. The total number of factories as on Jan. 1, 1965 was 5,773 in the State.

### Employment

During 1963-64 the employment exchanges in the State registered as many as 2,31,844 persons. The total number of vacancies received from various employers was 40,388. During April to Dec. 1964, 1,76,637 persons have been registered and 28,244 have been placed. There were 1,32,070 persons of various categories awaiting employment assistance on the live register of the exchanges as on March 1, 1964.

### PUBLIC HEALTH

During the Third Five-Year Plan Rs. 1,984.42 lakhs were provided for medical and public health schemes including water supply and sanitation.

In Andhra Pradesh, at the end of 1963-64, there were 255 Primary Health Centres. By the end of the Third Plan, it was expected that 330 primary health centres would be in existence.

There are also as many as 237 subsidised rural dispensaries functioning in Andhra Pradesh, besides the Primary Health Centres.

*T. B. Control*. There are at present 12 T.B. Sanatoria in Andhra Pradesh. In addition to this, nine Tuberculosis Domiciliary Centres are functioning in the cities of Hyderabad and Secunderabad. The Centres provide medical facilities and treatment at the residence of the patients. Besides, 43 T.B. Clinics are also functioning in the State to provide medical aid for T.B. patients.

There is an Institute for Diseases of Chest and T.B. at Irrumnuma in Hyderabad which imparts training in T.B. for doctors and other para-medical personnel.

### Leprosy Control

Andhra Pradesh is endemic with a high percentage of incidence of leprosy. In order to combat this, 18 centres are now functioning in the State, one in each district where the incidence of leprosy is about 3 per 1,000 of population. Two of the above centres have been converted into Leprosy Control Units.

There are at present 73 survey education and treatment centres functioning in the State.

### Family Planning

Towards the end of 1965-66, there were 306 rural family planning clinics attached to the Primary Health Centres and 65 Urban Family Planning clinics attached to Government hospitals functioning. In addition to these, there are 49 family planning centres in the twin cities of Hyderabad and Secunderabad. Facilities for vasectomy operations and insertion of loop are provided in all major hospitals, district hospitals and taluk hospitals.

### Hospitals, Beds, Staff, etc. 1963-64.

*Allopathic*: Hospitals 360; Hospitals for spl. treatment 32; Dispensaries 913; Beds 21,346; Doctors 2,741. *Ayurvedic*: 1965-66. Hospitals 2; Dispensaries 1,069; Doctors and Vaidis 769. *Unani*: Hospital 1; Dispensaries 77; Doctors and Hakims 100.

### EDUCATION

Total no. of educational institutions in the State in 1963-64 was 57,632. No. of students in these institutions: 57,41,091. No. of Universities: Four.

The total number of annual admissions in the eight Medical Colleges is 1,090. Due to the National Emergency, the number of admissions has been increased by 190.

(For more statistical information see "Education Tables").

### FOURTH PLAN

(See under "Fourth Plan").

### ANDHRA PRADESH AGRICULTURAL UNIVERSITY

Dilkusha, Hyderabad 4.

The University is patterned on the Land grant colleges system of the United States and came into existence from 12th June 1964.

The University has six constituent Colleges, three in the faculty of Agriculture, two in the faculty of Veterinary Science and one in the faculty of Home Science.

The total No. of seats available in each faculty is as follows: (1) Agriculture 400; (2) Veterinary Science 140; (3) Home Science 60.

The medium of instruction and examination in the University is English.

*Chancellor*: The Governor of Andhra Pradesh.

*Vice-Chancellor*: O. Pulla Reddi, I.C.S. (Retd.).

*Registrar*: M. Sriramulu.

### ANDHRA UNIVERSITY

(Waltair)

*Chancellor*: Pattom A. Thanu Pillai, Governor of Andhra Pradesh.

*Vice-Chancellor*: Prof. K. R. Srinivasa Iyengar, M.A., D.Litt.

*Principal (Univ. Colleges) :* Dr. P. T. Rao, M.Sc., D.Sc.

*Registrar :* P. V. V. Seshagiri, M.Sc., F.B.S.

*Deputy Registrar :* M. G. K. Reddi, M.A. (Hons.), B.L.

Number of University Colleges : 5 ; No. of professional colleges : 7 ; No. of affiliated colleges : 32 ; No. of oriental colleges : 17.

Total No. of students at the University Colleges, in 1964-65 is 2,566.

This university is teaching as well as affiliating. English is the medium of instruction.

### OSMANIA UNIVERSITY

Hyderabad 7.

The Osmania University is a residential, teaching and affiliating university. It comprises eight Faculties, namely, Arts, Science, Commerce, Medicine, Engineering, Education, Law and Technology. There are five University Colleges, nine constituent Degree Colleges (including one exclusively Women's College and three Evening Colleges for Degree Courses for those in employment).

47 Affiliated Colleges including 3 Medical, 1 Physical Education, 2 Engineering, 2 Training Colleges, 1 Nursing, 27 Degree Colleges of Arts, Science & Commerce (including 3 meant exclusively for women) and 11 P.U.C. Colleges.

Enrolment (1965-66) : 29,870 (Arts and Science : Boys 17,751 ; Girls 4,580 ; Professional : Boys 6,449 ; Girls 1,090).

During 1965-66, 7 Colleges were affiliated to the University, 6 with P.U.C. (Humanities) and one with B.E. (5-Year Course). Also 5 Colleges were affiliated for evening session, 4 with P.U.C. (Humanities) and one with P.U.C. (Humanities), B.A., B.Com.

#### CHANCELLOR

Pattom A. Thanu Pillai, Governor.

#### VICE-CHANCELLOR

Dr. D. S. Reddi, M.A. (Oxon.).

#### REGISTRAR

L. B. Deshpande, B.Sc.

Total number of Arts and Science Colleges : Arts Colleges 13 ; Science Colleges 7 ; Arts and Science 28 and Professional 13.

Total number of Women's Colleges : Eight.

Total enrolment in Arts and Science Colleges : Boys 17,751 ; Girls 4,580.

Total number of Professors : 145 ; Other teachers 2,133.

Total number of Professional Colleges : 13 (Education, three ; Engineering, three ; Law, two ; Medical, three ; Physical Education, one ; Nursing, one). Total enrolment in Professional Colleges : Boys 6,449 ; Girls 1,090.

### BUDGET 1965-66

Receipts : Rs. 1,23,51,762. Expenditure : Rs. 1,27,49,665.

Contribution by State Government : Rs. 64,22,100 ; Central Govt. : Rs. 4,000.

### SRI VENKATESWARA UNIVERSITY

Tirupati

A Residential, teaching and affiliating University having jurisdiction extending over the districts of Anantapur, Chittoor, Cuddappah, Kurnool and Nellore in Andhra Pradesh.

Affiliated Colleges : 17.

Instruction is being provided for Pass and Post-Graduate Degree courses of study in the teaching departments of English, Telugu, Sanskrit, Hindi, Arabic, Persian, Urdu, Philosophy, Psychology, Economics, History, Mathematics, Statistics, Physics, Chemistry, Botany, Zoology, Geology, M.Sc. Home Science in the University College (Arts & Sciences). Research work leading to the Ph.D. Degree is also permissible in all these departments except in the Statistics Department. M.A. Degree course in Home Science has been started in the academic year 1964-65.

The University College of Engineering provides instruction for the Five Year Integrated Course in Engineering, Civil, Electrical and Mechanical branches.

Pre-University course of study came into operation in the academic year 1957-'58 and was followed by the Three Year Degree courses in the next academic year, 1958-'59. These two courses replaced the old two-year Intermediate and Degree courses of study respectively.

Consequent on the abolition of Three Year Honours courses, two year Masterate courses have been started in the University College with effect from the academic year 1959-'60. Provision has also been made for doing research leading to D.Sc. and D.Litt. degrees.

The medium of instruction and examination in the University is English excepting Modern Indian Languages and the languages for the Oriental Titles.

*Chancellor :* The Governor of Andhra Pradesh.

*Vice-Chancellor :* Dr. V. C. Vaman Rao, M.A., Ph.D. (Dublin).

*Registrar :* Y. Viswanathan.

Total number of students in the University Colleges at the beginning of the academic year 1965-66 : Boys 1,186 ; Girls 156. Total 1,342.

The total strength of the University (including University College) in 1965-66 was 14,651.

#### 1964-65 BUDGET

## ASSAM STATE

**CAPITAL:** Shillong. Area : 47,290 sq. miles (122,481 sq. km.) according to Assam Survey. Geographical area 30·1 million acres.

Population (1961 census) : 11,872,772. Density 252 per sq. mile (97 per sq. km.). Literacy 27·4 per cent.

Nearly one half of the area of Assam State is covered by hills. Plains : 24,557·96 sq. miles; Hills 22,732·00 sq. miles. Besides, a total area of 32,914 sq. miles, mostly hilly, has been transferred to Assam State from N.E.F.A. The hill areas are sparsely populated and inhabited by the hill tribes.

### DISTRICTS

Names of Districts showing within brackets the headquarters of each District and the area in square miles of each District followed by the names and areas in sq. miles of the talukas in the particular District respectively are as follows :—

Cachar (Silchar; 2,680) : Hailakandi 512; Karimganj 709; Silchar 1,459.

Darrang (Tezpur; 3,367) : Mangaldai, 1,272; Tezpur 2,095; Garo Hills (Tura 3,149).

Goalpara (Dhubri; 3,979) : Dhubri 1,054; Goalpara 1,098; Kokrajhar 1,827.

Kamrup (Gauhati; 3,844) : Barpeta 1,254; Gauhati 1,617·318; Nalbari 972·682.

Lakhimpur (Dibrugarh; 5,012) : Dibrugarh 3,667; North Lakhimpur 1,345.

Mizo District (Aijal; 8,089) : Aijal 4,861; Lungleh 3,228.

Nowgong (Nowgong; 2,167).

Sibsagar (Jorhat; 3,476) : Golaghat 1,363; Jorhat 1,094; Sibsaigar 1,019.

United Khasi and Jaintia Hills (Shillong; 5,554) : Jowai 1,515; Shillong 4,039.

United Mikir and North Cachar Hills (Diphu; 5,883) : Mikir Hills, 3,995; North Cachar 1,888.

The hill districts have been given, under the Constitution of India, a large measure of self-governing rights according to their respective tribal traditions and customs, exercised through Autonomous District Councils under the supervision of the Government of Assam.

The third administrative division of the State is to be formed including Mizo Hills and Cachar districts. The other two are the Hills and Plains divisions.

There are now 16 Mahkuma Parishads, 120 Anchalik Panchayats and 2,570 Gaon Panchayats in the Plains Districts of the State. These Panchayats have covered 11,085 villages.

Number of Circles : In Assam Tahsils are termed as Circles : 67. Number of Municipalities : 17. Number of Town Committees : 29.

### GEOGRAPHY

Assam has three distinct natural divisions : Brahmaputra or Assam Valley, Surma or Barak Valley and the hills.

The river-basins are naturally fertile and present in the main few difficulties to the cultivator. Rainfall being high the problem in general is to dispose of the surplus water and to control the action of floods rather than irrigation in the usual sense.

Rice is the staple food crop. Tea and jute are the most important crops grown for export. Besides, potatoes are

also cultivated in Assam. A good deal of short staple cotton and fruits like oranges and pineapples are grown in the hills.

Rainfall is everywhere abundant, and ranges from 50 to 258 inches a year leaving aside the highest recorded rainfall in this part of India with the maximum reached at Cherapunji (905 inches in 1861 : record precipitation for one day is 41 inches). This is reputed to be the wettest place in the world. Temperatures are moderate.

Earthquakes of considerable severity have taken place. By far the worst in recent times was that which occurred on August 15, 1950, one of the world's five biggest recorded tremors. According to old records the Assam earthquake of 1897 is regarded as the severest in human history.

### COTTAGE INDUSTRIES

Main cottage industries : Sericulture and Weaving. Principal areas for Sericulture : Sibsagar, Nowgong, Goalpara, United Khasi-Jaintia Hills and United Mikir-North Cachar Hills, Lakhimpur and Kamrup districts.

Handloom weaving is done in most of the families in Assam. Number of fly and throw-shuttle looms in the State is more than 6,00,000.

Production of individual industries : Cloth—55,000,000 metres; Mulberry raw silk—15,000 kgms.; Muga raw silk—60,000 kgms.; Open Eri Cocoon—250,000 kgms.

Total number of workers in Cottage industries : 12,50,000 (inclusive of part-time and whole-time workers in sericulture and weaving). Average workers per establishment 2.

Number of workers in individual industries : Handloom Weaving (850,000); Sericulture (400,000).

### AGRICULTURE

*Latest available :*

More than 70 per cent of the total working population of the State are engaged directly or indirectly in agriculture.

Main food crops of the State : Rice, Rape, Mustard, Sugar-cane, Potato, Pulses, Maize and Oranges.

Main cash crops of the State : Tea, Jute, Cotton and Tobacco.

Production of food crops in lakh tonnes (figures are for 1964-65) :

Autumn Rice 3·28; Winter Rice 15·69; Spring 0·15; Maize 0·11; Wheat 0·04; Rabi Pulses 0·34; Sesamum 0·05; Gram 0·01; Rape and Mustard 0·60; Potato 0·55; Sugarcane 1·25; Tur 0·02; Linseed 0·005; Castor 0·008; Other cereals 0·03; Tobacco 0·08; Mesta 0·38; Sweet Potato 0·27; Chillies 0·05; Jute 8·82 lakh bales; Cotton 0·07 lakh bales.

One plain district (7 blocks) is covered by Intensive Agriculture District Programme (Package Programme); Six other districts are covered by Rice Package; Fourteen blocks under Jute Package; Three blocks under Potato Package and one block is under Sugarcane Package. There is one Agricultural College; four Gram Sevak Training Centres; one Gram Sevika Training Centre; 15 Agricultural Research Stations; nine Agricultural District Level Farms; one Jute Seed Farm; four Fruit Preservation Factories; 102 Thirty-Acre Farms.

Source :—(Agricultural Diary 1966 and Agri. Information Officer, Shri P. R. Nath).

## LIVESTOCK AND POULTRY

According to the livestock census of 1961, the livestock population of Assam stood at 9,47,900. Over the decade, the livestock population increased by 37 per cent from 6.9 millions in 1951 to 9.5 millions in 1961. The census also reveals that per thousand hectares of cultivated area the number of cattle was highest in Assam among the States of India.

As per estimated figures, the number of livestock in 1963-64 (thousand numbers) in Assam are as follows: Cattle 6,764; Buffaloes 608; Sheep 57; Goats 1,921; Horses and Ponies 17; Other livestock 476. Total livestock 9,843. Poultry 10,585.

Source: (Economic Survey, 1965, Page 8.)

## PLANTATIONS

*Latest available data:*

Plantation in the State: Tea.

Area under Plantation: 1,66,429 hectares in 1964.

Number of Tea Plantations: 726 (covered under the Plantation Labour Act).

Production of Tea: 192,831,000 kg. (1964).

Average daily number of workers: Engaged in plantation 492,793 (1963); Engaged in factories 57,516 (1964). (As covered under the Assam Factories Act, 1948.)

**Fisheries:** *Variety of fish produced:* Raba, Katla, Mrigal, Mali, etc.

Assam State has met the fish seed demands from their own resources. Culture of mirror carps, scale carps etc. has become popular in the Hill Districts of the State.

## FORESTS

Forest area: Approximately 17,634 sq. miles including unclassified state forests.

Main types of forest with some species of trees of economic importance occurring in them:

Evergreen forests, mixed deciduous forests, deciduous and dry deciduous forests, riverain forests, Savannah forests, swamp forests, bamboos and temperate forests containing sal, teak, hollock, holong, bansam, amari, gamari, ajhar, sissoo, simul, cane, bamboos, reeds and various species of medicinal importance.

Assam possesses one of the richest fauna in Asia and it is claimed that outside Africa, there is no part in the world with so many varieties of animals, birds, reptiles and insects. Rhinoceroses, elephants, wild buffaloes, bisons and mithuns, swamp deer, sambhar, spotted deer, barking deer, tiger, leopards, black panther, king cobra, pink-headed duck and giant hornbill are some of the well-known specimens of wild life.

Five sanctuaries and two game reserves with a total area of about 523.79 sq. miles, are maintained by the Government Forest Department for the protection of the interesting and in some cases the numerically dwindling species. Kaziranga and Manas are the two most famous sanctuaries.

Main forest produce: Timber, firewood, bamboo, cane, lac, elephant tusks, thatch, stone, sand, drugs, incense and perfumes, fibres and flosses. Assam has probably the biggest bamboo and reed reserves, contributing 42 per cent of India's total output.

## LAND TENURE SYSTEM

There are two classes of land tenure system in the State—the permanently settled estates and the temporarily settled estates.

*Permanently settled estates:* These are found in Goalpara District and Karimganj Sub-division of the Cachar District. In Goalpara district the permanently settled estates held by the proprietors and the rights of most of the intermediaries under them have been acquired under the Assam State Acquisition of Zamindaris Act and the tenants holding lands under them have come into direct relationship with the Government. In Karimganj Sub-division of Cachar district there are permanently settled estates and the acquisition of estates in Karimganj Sub-division has since been completed. The tenants who hold either directly under the Zamindars or intermediaries pay rent in cash or kind. There are crop-shares too. There are also a small number of people in Karimganj who hold land under landlords on condition of rendering service. An amount of Rs. 1,05,50,000 has been paid both as ad-interim and final compensation upto March 31, 1966, for acquisition of estates and tenures under the Assam State Acquisition of Zamindaris Act.

*Temporary settlement system:* Also known as the Ryotwari system prevails in the other plains districts of the State and also in portions of Goalpara District and Karimganj which are not permanently settled. These lands are assessed to full revenue and are called Khiraj lands.

The peculiarity of this system is that generally the cultivators hold lands directly under the Government unlike the lands in permanently settled estates.

There are three tenancy Acts in Assam, viz. The Goalpara Tenancy Act, The Sylhet Tenancy Act and The Assam (Temporarily Settled Districts) Tenancy Act. The former two Acts apply to the Districts of Goalpara and Cachar (those portions of former Sylhet District which have remained in Assam after partition) respectively. The last Act applies to the plains districts of Assam. These Acts confer rights of occupancy, determine the rent payable by the tenants and regulate the relationship between the landlords and the tenants. Government has also passed a law called the Assam Fixation of Ceiling on Land Holdings Act (1956), whereby the holding of agricultural lands has generally been limited to a maximum of 150 bighas (about 50 acres) per family.

## MINES, INDUSTRIES

The only minerals in Assam worked on a commercial scale are coal, limestone, petroleum oil and sillimanite. Petroleum output about 116,703,702 gallons (1961); coal output 774,834 tons (1962); limestone output 78,045 tons (1962); and sillimanite 8,095 tons (1962). An oil refinery has already been set up at Gauhati.

Silk is manufactured in the Assam valley; also cotton weaving prevails as a cottage industry, women playing a predominant part.

Tea is the main industry, but there is a large petroleum mining concern with Digboi in Upper Assam as the centre and also some coal-mines. There is a big match manufacturing concern at Dhubri. Boat-building, brass and metal and earthenware, limestone burning, cane and bamboo work, furniture making, sola hat, smithy, brick making, mustard oil pressing, rice and saw mills are other industries. But agriculture employs about 80 per cent of the population. Assam carries on a considerable trade with the adjoining hill tribes and countries.

## POWER

The Gauhati Thermal, the project at Narangi, costing Rs. 1.22 crores, will generate 12.5 mw power for defence and industrial uses in and around Gauhati. The project will utilise the surplus light diesel oil produced by the Gauhati refinery.

**Power Projects :** Planned power development made a beginning in the State with the commissioning of Umtru Hydel Project which benefits Kamrup and K. and J. Hills. The power project based on natural gas from Nahorkatiya oil fields with an installed capacity of 69,000 kW has been commissioned. This meets the local demands of Upper Assam districts. Another hydro-electric project at Umiam in Khasi-Jaintia Hills, expected to generate 36,000 kW in the first phase, has been completed. The second phase, with a further capacity of 18,000 kW was under construction and was to be completed by the end of 1966. This system known as Umiam-Umtro grid, will serve the district of United Khasi and Jaintia Hills, Kamrup, Cachar, Darrang and Goalpara districts. A thermal station of 5,000 kW based on local coal available in the Garo Hills was under construction and was expected to be ready by the end of 1966.

The Kopili project, a large multi-purpose project is likely to be taken up during the IV Plan period.

The Spun Silk Mill at Jagiroad (Public Sector) has gone into production. The Cement factory at Cherrapunji with a capacity of 250 tons daily, (State participation Scheme) was expected to go into production soon. Licences have been issued for the establishment and expansion of a number of other industries such as four large paper and pulp industries, hard board, chip board, commercial plywood, timber seasoning units, steel fabrication and light engineering manufacture.

**Gas-Based Industries :** The two projects which have been decided to be taken up as part of the first-phase natural gas utilisation programme are (1) a power project, with an installed capacity of about 50,000 kW near Nahorkatiya and (2) a fertiliser plant at Namrup near Nahorkatiya with production pattern of 50,000 tons of urea and 50,000 tons of ammonium sulphate annually. Both these projects would be in the public sector.

For manufacture of hard board a large unit has been licensed.

Two cotton spinning mills with a total spindlage of 50,000 have been licensed in the State.

### HANDLOOM INDUSTRY

Handloom industry is an age-old cottage industry of Assam.

It is the largest and the most important cottage industry next to Agriculture, both in hills and plain districts. Most of the weavers of the State are women and they generally weave cloth for their domestic use in leisure time.

At the end of 1963-64, the number of weavers' co-operative societies had increased from 317 to 34,546. The membership had also increased from 8,322 to 39,086. Up to the end of 1963-64, share capital loans amounting to Rs. 6.69 lakhs and working capital loan to the tune of Rs. 61.31 lakhs had been given.

**Powerlooms :** Out of 192 powerlooms for which the Government of India has sanctioned financial assistance, 29 powerlooms have been installed at the industrial estate at Gauhati and the remaining powerlooms have been allotted to powerloom societies at Golaghat, Nowgong, Gauhati and Nalbari. There is a training centre at the industrial estate at Gauhati for imparting training to weavers in powerloom societies.

### TRANSPORT

Much of the trade of Assam is carried by river. Steamer companies maintain fleets of vessels which ply to and from Neamati, Tezpur, Gauhati, Goalpara, Dhubri, Karimganj, Silchar and many other smaller stations.

From January 1958, the entire railway system in Assam has been made part of a new Zone of the Indian Railways—the North East Frontier Railway. Pandu (Maligaon) near Gauhati has been made the headquarters of N.E.F. Railway.

Because of the slender surface link between Assam and the rest of India, air services are of great value to the State. Almost all the big towns—Tezpur, Jorhat, Dibrugarh, North Lakhimpur, Silchar, Dhubri and Gauhati are now served by daily scheduled flights. Pasighat and Along in NEFA have also been placed on the airmap.

The total length of motorable roads as on March 31, 1962, stood at 6,374 miles including 740 miles of National Highway. Of these 5,113 miles were in the plains and 1,260 in the hills. Besides, there were on this date 1,993 miles of bridle roads.

Nationalisation of motor transport in the State was started in 1948, and till March 31, 1965, 1,624 miles were covered.

January 1, 1965 :

Number of vehicles operated by the Department 645 ; Number of passenger buses 444 ; Number of 1st Class service cars 24 ; Number of Goods Vehicles 155 ; Number of other vehicles (ambulance, staff car, etc.) 26 ; Number of passengers carried in a day 26,271 ; Goods carried in a day 10,637 maunds ; Service mileage daily operated by the Nationalised Transport 29,000 (approximately).

The programme of road-making has its special significance in that it is designed to make Assam self-sufficient in ensuring quick transport of its exports to and imports from other parts of the Indian Republic without having to pass through Pakistan. At the same time communications within the State are being improved by provision of necessary feeder roads from and to the arterial road system of the State so that local surplus produce may find good markets.

### CIVIL SUPPLIES

*Latest figures :*

The approximate monthly import requirements in tons of food-stuffs and other essential commodities are as follows :—Wheat 5,000 ; Salt 7,600 ; Sugar 5,500 ; Gur 2,000 ; Mustard Oil 3,000 ; Pulses 6,000 ; Paper 150 ; Cloth 10,000 bales ; Yarn 2,500 bales ; Iron & Steel 4,500 ; Cement 10,000 ; Misc. goods 15,000 ; Rice 42,000.

### CO-OPERATION

For statistical information see the main article on Co-operation. Some specific types of co-operative societies and their number, not dealt with in the article on Co-operation, are given below.

Large sized Credit Societies (221) ; Small sized Credit Societies (4,816) ; Consumers and Trading (687) ; Wholesale Stores (9) ; Weavers' Co-op. Societies (1,573) ; Urban and Salary Earners' Societies (210) ; Multipurpose Co-op. Societies (179) ; Farming Societies (303) ; Industrial Societies (360) ; Fishery Societies (255) ; Primary Marketing Societies (200) ; District Marketing Societies (3) ; Milk Union (1) ; Primary Milk Societies (23) ; Co-operative Unions (15) ; Housing Societies (2) ; Cotton Ginning Mills (2) ; Jute Mill (1) ; Sugar Mill (1) ; Rice Mills (3) ; Other agricultural processing Societies (425) ; Other types of Societies (124) ; Apex Weaver (1) ; Apex Marketing (1) ; Apex Bank (1) ; (Till 30th June, 1965).

Number of Co-operative Central Banks : 9.

Apex Banks : 1 with 17 branches.

Number of Co-operative Central Land Mortgage Bank: 1.

Number of Co-operative Primary Land Mortgage Banks : 16.

*Budget allotment for the Department for the year 1966-67.*  
Co-operation : General: Rs. 61,99,000 ; Sixth Schedule : Rs. 11,18,300. *Capital Outlay etc.* : General: Rs. 24,14,000 ; Sixth Schedule : Rs. 1,78,000. *Loans to Co-operative Societies* : General: Rs. 11,15,700 ; Sixth Schedule : Rs. 4,83,400.

## HEALTH SERVICES

*Latest figures available :*

Commonest diseases in State and mortality from each disease during 1964 : Malaria 1,850 ; Kala-Azar 60 ; Total of all fevers 7,990 ; Small-pox 40 ; Dysentery and Diarrhoea 3,017 ; Respiratory diseases 2,278 ; Injuries 561 ; Cholera 312 ; Enteric fever 84 ; Beriberi 46 ; Diphtheria 30 ; other causes 21,319.

*Present Facilities : Hospitals :* Government T.B. Hospitals 4 (387 beds) ; Private T.B. Hospitals 4 (256 beds) ; Government Mental Hospital 1 (796 beds) ; Leprosy Colonies 18 ; Leprosy Treatment Centres 245 having accommodation for 1,116 inmates ; Kala-Azar Hospitals 2 ; Kala-Azar Wards 10 ; F. P. Clinics 180 ; Sterilization Units 26 ; I.U.C.D. Centres 147 ; F. P. Mobile Units 13.

General Hospitals and dispensaries : (Allopathic and Ayurvedic) 790.

Total Number of pharmacists 4,164.

Total number of registered Doctors 4,141.

Total number of Government Doctors 1,108.

Total number of outdoor patients treated 56,91,378.

Total number of registered nurses 1,940 ; Total number of Auxiliary Nurse Midwives 783 ; Total number of registered Dhais 1,300 ; Total number of Midwives 1,478.

Total number of Medical Colleges : Allopathic 2 ; Ayurvedic 1.

Total Number of Students : Allopathic 1,640 ; Ayurvedic 35.

Special medical Research Institutes : 2 (Pasteur Institute, Shillong and Malaria Institute, Shillong).

Postgraduated studies conducted in Assam Medical College, Dibrugarh in all subjects.

General Nursing Training : Training Schools : 15 (Govt. 4, Private 11) ; School for Auxiliary Nurse Midwives : 17 (Govt. 11, Private 6) ; Nurse Midwife's Schools : 15 (Govt. 4, Private 11).

Budget allotment (1966-67) : (A) for Public Health : General (Normal) Rs. 1,60,90,400 (for the sixth Scheduled Areas Rs. 57,53,800) ; Forth Plan General Rs. 41,94,000 (for the sixth Scheduled Areas Rs. 12,33,000). (B) for Medical : General (Normal) Rs. 2,64,20,527 (for the 6th Scheduled Areas Rs. 34,21,648).

## EDUCATION

(For particulars about general education see under Educational Tables.)

*Social Education :* The scheme for social education was first launched in the State in the year 1949-50. Till 1963-64 a total number of 3,28,487 adults were made literate. The number of social education centres during 1963-64 was 649 and 22,469 students (males 16,995 and females 5,474) were admitted in these centres. There were 649 teachers (males 552 ; females 97). Number of persons educated during the year was 16,190. Five Social Education Workers'

Training Camps were organised in 1963-64 where 215 workers were trained. In order to cater to the needs of the post-literacy courses 1,125 village libraries were given grants-in-aid besides free distribution of books. The above figures exclude the libraries sponsored by the development blocks.

### *Hindi in the Education System :*

Hindi has been introduced as a compulsory subject from class IV to class VIII in secondary schools, from class IV to X in higher secondary and multi-purpose schools and as optional in class XI.

There are five Training (Normal) schools in the State where Hindi is compulsory. In the special schools i.e. in Madrasas it is a compulsory subject. The subject is being introduced in the Government and non-Government Colleges gradually both as mother tongue and as alternative language.

### *Basic Education :*

There are 42 Senior Government Basic Schools and 347 Junior Government Basic Schools in the State. Besides, there are 656 Middle Vernacular and Senior Basic Schools and 17,947 Lower Primary and Junior Basic Schools under the State Elementary Education Board.

There are 28 Government Basic Training Centres in the State for giving training to junior teachers. There is also a Basic Training College for imparting training to senior teachers. Each training centre has the intake capacity of 130 to 200 students with a teaching staff of six per centre.

## LABOUR

Total number of registered population in tea industry 11,45,425 ; Total number of registered Trade unions 146 ; Total number of Trade Union Members 2,90,012 ; Total number of Industrial Disputes in 1963 : 18 ; Total number of workers involved in it 10,416 ; Man-days lost 10,571 ; Total number of Community Labour Welfare Centres 12.

## COMMUNITY PROJECTS

(See under article, Community Development Projects.)

## HOUSING

Finance available for housing : Schemes are entirely financed by loans and subsidies from the Government of India, Ministry of Works and Housing except that for slum clearance schemes a matching subsidy is given by the State Government. Allotment by Government of India for the Third Five-Year Plan period : Rs. 199 lakhs.

Subsidised Industrial Housing Scheme : Out of the total allocation of Rs. 2.44 lakhs during the Third Plan an expenditure of Rs. 0.86 lakh has been incurred. Only 24 tenements were completed in 1961-62.

Slum Clearance Scheme : Entire allocation under this scheme during the Third Plan was diverted to the Gauhati Development Authority for implementation.

Land Acquisition and Development Scheme : A sum of Rs. 21 lakhs was allocated under this scheme during the Third Plan period, but no expenditure was incurred.

## FOURTH PLAN

The Planning Commission tentatively approved an outlay of Rs. 190 crores for the State Fourth Plan, on Oct. 31, 1966. The State's contribution to the Plan would be Rs. 15 crores. Of the Rs. 190 crores, a sum of Rs. 50 crores was earmarked for the development of hill areas.

## UNIVERSITY OF GAUHATI

Gauhati-14, Assam.

VICE-CHANCELLOR.

Dr. M. N. Goswami.

REGISTRAR

C. Das, M.A., B.L.

Teaching, Affiliating and Residential.

Subjects where provision exists for post-graduate and research :

Assamese, Philosophy, Economics, History, Education, Mathematics, Statistics, Botany, Commerce, English, Physics, Chemistry, Geology, Anthropology, Agricultural

Botany, Sanskrit, Political Science, Bengali, Geography, Zoology.

Number of colleges affiliated : 97 (Permanently affiliated 18 ; Temporarily or provisionally 54 including one constituent college).

Number of students : Affiliated Colleges : 35,470 : University Departments : 1,577 ; Constituent College (Law College) : 627.

Grant from State Government :

Annual recurring grant of Rs. 15,50,000 (1964-65).

Receipts : Rs. 93,40,032.06 (1964-65).

Expenditure : Rs. 89,67,329.09 (1964-65).

Budget Estimates (1966-67) : Income Rs. 47.69 lakhs ; Expenditure Rs. 60.19 lakhs.

## NORTH-EAST FRONTIER AGENCY

**H** EADQUARTERS : Shillong, Assam. Area : 31,438 sq. miles (81,425.9 sq. kilometres).

The population of NEFA after the separation of one of its former Frontier Divisions to the Naga Unit is 3,36,558.

The North-East Frontier Agency, geographically and constitutionally a part of Assam is situated on the borders of Bhutan, Tibet region and Sikiang province of China and Burma. The Agency's international border is about 800 miles.

The Agency is now under the administrative control of the Home Ministry.

The Agency Secretariat is situated in Shillong, capital of Assam.

Districts in the Agency with headquarters in brackets : Kameng District (Bomdila) ; Subansiri District (Ziro) ; Siang District (Along) ; Lohit District (Tezu) ; Tirap District (Khonsa).

### GEOGRAPHY

The North-East Frontier Agency is a wild mountainous country and presents a remarkable topographical variety. The northern regions bounded by the Himalayas are snowbound in the winter. On the east, the hill ranges bordering on Burma also present a formidable barrier. Near Assam State areas the Agency has some plains.

The entire area is intersected by rivers. The main river artery of Assam, the Brahmaputra, known during its course in Tibet as the Tsangpo enters the Siang District of the North-East Frontier Agency cutting the main Himalayas southwards near Gelling.

### FORESTS

The reserve forests constitute 564.67 sq. miles and proposed reserve forest 3,007.03 sq. miles as per record available with the Government. In the year 1960-61, 20.34 lakh c. ft. timber was extracted and a total revenue of Rs. 25.45 lakhs earned. The revenue for 1962-63 was Rs. 29.28 lakhs and for 1963-64 it was Rs. 36.68 lakhs.

The fauna and flora of the Agency are rich. Wild elephants, buffaloes, tigers, various kinds of deer, leopards, bison, mithuns, bears, pigs, wild goats, and many kinds of cats are found. To the people of the Agency the mithun is most important as it serves apart from its religious and sacrificial significance as a barter currency and medium of exchange.

The monsoon sets in from the month of May and continues till the end of September. The average annual rainfall at Bomdi La is 40.12" ; Pasighat—229.05" ; Tezu—160.03" and Changlang—78.22".

### TRIBES

The Agency is inhabited exclusively by Hill Tribes. A broad list of the main tribes district-wise is given below :

*Kameng District* :—Monpa, Sherdukpens Bangnis (Yanoo and Khrodeng), Aka or Hrasso, Khowa or Bugun, Miji or Dammao, Khamba, Sulung, Bangro.

*Subansiri District* :—Tagin or Moya, Dafia or Nussu and Nishang, Apatani, Bangro Mikir, Hill Miri, Sulung.

*Siang District* :—Adi (it has some 20 sub-tribes, some of them are almost treated as main Tribes), Khamba, Memba, Hill Miri, Idu.

*Lohit District* :—Padam, Hill Miri, Mishmi L. C. Digaru or Taraon, Idu or Chulikata, Miji or Kaman, Singha, Khampti.

*Tirap District* :—Nocte, Singpho, Tangsa Wancho, Yobin.

A large number of distinct languages and dialects are spoken. The number of languages is about 30 and the dialects about 42.

### EDUCATION

Education in the Agency is of the Basic type with due emphasis on crafts and agriculture. 167 schools have already been converted to Basic pattern.

Upto the end of the primary stage, the mother tongue of the students is the medium of instruction in schools, and text books in various tribal languages have already been prepared upto Class I. Assamese will be the medium of instruction from Class IV onwards and it will also be introduced as a subject of study early in the primary stage. Hindi and English are also taught as compulsory languages from Classes III and IV respectively.

During 1964-65 there were 268 institutions distributed as follows : Higher Secondary 4 ; Higher English 4 ; Middle English 19 ; Lower Primary 233 ; Nursery 4 ; Technical Institutions 3 ; College 1.

During 1963-64 there were 593 teachers (excluding technical institutions) in 211 schools with a total enrolment of 10,773 students.

The most important aspect of the educational programme in NEFA has been the establishment and reorganisation of schools in the border areas.

### COTTAGE INDUSTRIES

Regular Cottage Industries Training Centres have been opened at 11 places to impart training in weaving, spinning, tailoring, carpet-making, carpentry, wood-carving, cane and bamboo work, smithy, painting, sawing, soap-making and pottery. Rearing of silk and *endi* is demonstrated at sericultural farms at Pasighat, Bordumsa and Namsang. There are also 12 irregular centres.

As of March 1965, the total number of persons trained was 2,660. Expenditure during 1964-65 was Rs. 12.80 lakhs.

### PUBLIC HEALTH

Figures for 1965-66: The number of patients treated throughout the Agency 236,000; Number of hospitals, dispensaries, health units 91; Number of doctors 134; Number of compounders 133; Number of nurses 140. There was one doctor for every 2,800 persons, a nurse for every 2,520 persons; one hospital dispensary for every 3,698 persons.

45 teams have been raised under the national small-pox eradication programme.

B.C.G. teams are touring the Agency area specially in Siang Frontier Division where the incidence of tuberculosis has given rise to concern. A 50-bedded T.B. hospital, the first of its kind, was opened at Margherita.

### AGRICULTURE

Agriculture is the mainstay of the people of the Agency.

So far 42,609 acres of land have been reclaimed and developed for permanent cultivation, mostly for paddy and 18,000 acres of land have been brought under irrigation. The anticipated increase in food production is estimated at 13,000 tons. Tools and implements worth Rs. 4,72,000 have been distributed to the cultivators at subsidised rates. Nine agricultural and livestock farms have been established in various parts of NEFA for providing improved seeds, training farmers, and giving demonstration of improved methods of production.

Animal husbandry has been put on a scientific basis. There were in June 1965 21 veterinary dispensaries and 42 veterinary aid centres. As on March 31, 1964, there were 12 cattle farms and 38 cattle up-grading centres in various parts of the Agency to help the farmer look after the cattle.

### CO-OPERATIVE MOVEMENT

Most of NEFA tribes have a very strong social sense, and every village is in its own way a Co-operative Society. There were on June 30, 1966, 77 Primary Co-operative Societies which included 52 Consumers' Co-operatives, 3 Multi-purpose Co-operatives, two Industrial Co-operative Societies, one Dairy Co-operative Farm, 7 School Co-operatives, two Labour Co-operatives and 7 Transport Co-operatives. There is a Central Co-operative Store and Union Limited, at Monanbari performing the functions of a supervising union.

### COMMUNITY PROJECTS

Forty-one Community Development and National Extension Blocks in the Agency cover 22,839 sq. miles with a total population of 2.86 lakhs.

### COMMUNICATIONS

Physical achievements from 1951 to 1965 consist of roads (jeepable) 1,200 kilometers, mule paths 399.50 miles, porter track 2,129.50 miles, bridle paths 131 miles, improvement to roads 176.50 miles, improvement to porter tracks 391.75 miles. Total 3,941.25 miles.

### FIVE YEAR PLANS

The Planning Commission has allotted a sum of Rs. 715 lakhs for the Third Plan period (1961-66). The target for 1964-65 was of the order of Rs. 246.38 lakhs.

The administration proposes to encourage the formation of transport co-operatives to run passenger and cargo services in the region.

The draft Fourth Five Year Plan for the Agency is of the order of Rs. 17.17 crores. The Annual Plan for 1967-68 as approved by the Planning Commission envisages a total outlay of Rs. 2.50 crores. Top most priority has been put on communications. An amount of Rs. 60 lakhs has been allotted for roads besides Rs. 15 lakhs for air-strips. The annual Plan includes a provision of Rs. 25,000 for strengthening administrative machinery at the headquarters.

## BIHAR

(See after W. Bengal.)

## DELHI

**AREA:** 1,483.05 Kms.; Pop. 26,58,612 (India 1965).

Under the Constitution of India, Delhi is a Union Territory. Parliament administers the areas directly through the Union Home Minister. The chief executive official of the Territory is the Lieutenant Governor. Delhi has an Advisory Council which is associated with the Home Minister.

The highest Court of Appeal in Delhi is the Punjab High Court—a circuit bench sits in Delhi.

### NEW ADMINISTRATIVE SET-UP

The Union Government gave its final approval to the scheme of a new administrative set-up for Delhi on June 7, 1965.

The Bill on the New Administrative set up for Delhi was passed by the Lok Sabha and Rajya Sabha in May 1966. The Bill provides for the establishment of a metropolitan council for the Union Territory.

The new administrations set up came into being with effect from Sept. 9, 1966 headed by Mr. A. N. Jha as Lt. Governor.

High Court: The Rajya Sabha passed the Delhi High Court Bill, 1965, on Sept. 5, 1966 to provide for the constitution of a High Court for the Union Territory of Delhi.

### Average Quota of Monthly Essential Articles

The following are the estimated quantities of certain selected commodities imported into Delhi Territory

(monthly average in tonnes) for the calendar year 1965 :

Wheat 34,300 ; Gram 6,212 ; Rice 1,022 ; Pulses 2,358 ; Refined Sugar 6,936 ; Tea 599 ; Ghee, Cream and Butter 1,524 ; Dried Fruits 4,345 ; Provisions 1,032 ; Spices 1,412 ; Steam Coal, Soft Coke and Hard Coke 54,512 ; Kerosine oil (000 litres) 9,410 ; Hides and skins 309 ; Agra stone 8,560 ; Cement 18,808 ; Chemicals 6,194 ; Face Cream, Powder and Tooth Paste 100 ; Hair oil and Perfumed oil 92 ; English Medicine 1,115 ; Soaps 1,068 ; Shoes and apparel 322 ; Hard ware and cutlery 11,637 ; Photo goods 257 ; Betel Leaf 62.

### Employment

According to 1965 figures there were 11,657 registrations (monthly averages) at the Regional Employment Exchange and 2,210 placings against 3,759 vacancies notified. The number of registrations on the live register at the close of 1965 was 76,993. The number of registrations for April 1966 was 9,296 and placing 1,997 against 3,767 vacancies notified. The total number of registration at the end of the month was 73,018.

### INDUSTRY

A sum of Rs. 1.65 crores was allocated under the Third Plan for the development of industries in Delhi.

The main industries are : cotton mills ; hand and power-loom weaving ; hosiery ; pottery ; flour mills ; vegetable oil mills and expellers ; paints and varnishes ; rubber goods ; imitation jewellery ; copper and brass utensils ; wire netting ; sola hats ; leather goods, sports goods, tanning and fibre industry.

The total number of registered factories at the end of December 1965 was 1,400.

The total number of handlooms in Delhi by 31st March 1963 was 800. The industry provides livelihood for about 3,000 persons, and the total production is estimated at 5 lakh yds.

The prototype production-cum-training centre at Okhla Industrial Estate is an Indo-German venture. This will manufacture prototypes of machines and machine tools and train about 500 workers every year.

### INDUSTRIAL ESTATES

The Okhla Industrial Estate, seven miles south of Delhi is one of the biggest of its kind in India. There are 45 factories in the Estate all humming with activity. Forty more units have already been constructed and allotted to small-scale industrialists. The items manufactured by the units in the Estate include amplifiers, radio parts, electric motors, room coolers, power presses, automobile accessories, bicycle parts, lathes, drilling machines, machine tools, safety razor blades, insulated wires and household and utility articles. A sum of Rs. 33 lakhs has been provided in the Third Plan to complete construction of 45 units at Okhla Industrial Estate.

At the instance of the Government of India it has been proposed to construct a small industrial estate in the Pilot Project Area of Alipur. Seven industrial sheds were constructed at Badli as part of a rural industrial estate to be established at a cost of Rs. 4.5 lakhs. Besides, five more Rural Estates are proposed to be set up in various rural areas of Delhi costing about Rs. 150 lakhs.

### AGRICULTURE

Figures given below are for 1964-65 :

Total land : 365,598 acres ; area under forests : 3,497 acres ; area not available for cultivation : 90,511 acres ;

other uncultivated land excluding fallow land : 42,550 acres ; fallow land : 48,984 acres ; net area sown : 1,80,056 acres ; total irrigated area : 60,767 acres.

Area in acres and production in tonnes respectively of each crop for the year 1964-65 are given below. Figures in brackets show production.

Rice 2,692 (408) ; Jowar 24,811 (3,438) ; Bajra 39,866 (3,269) ; Maize 1,455 (111) ; Wheat 78,748 (38,000) ; Barley 8,621 (513) ; Gram 41,129 (11,000) ; Sugarcane 10,143 (1,251) ; Chillies 253 (224) ; Oilseeds 1,787 (91) ; Cotton 476 (26) ; Potatoes 508 (1,451) ; Tobacco 203 (181) ; Fruits 2,589 (N.A.) ; Vegetables 7,314 (N.A.) ; Pulses 7,997 (1,123) ; Arhar 103 (15).

### Land Reform

The Delhi Land Reforms Act 1954 provides for the abolition of proprietary rights and conferment of ownership on all tenants and subtenants from whom compensation would be recovered and paid to owners. Over 8,000 tenants of various categories have acquired Bhumidari rights in an area of about 38,000 acres.

The Delhi Land Reforms Act was amended in October 1956 to exclude areas controlled, notified, held, occupied or owned by the Delhi Improvement Trust from the purview of the Act.

The Delhi Land Reforms (Amendment) Act, 1959 removes some difficulties in the working of the Act and includes Improvement Trust areas excluded by the 1956 Act. Out of 306 villages, the work of consolidation has been done in 268 villages. Under the Delhi Panchayat Raj (Amendment) Act, 1959, 215 Gaon Panchayats and 23 Circle Panchayats covering all the 305 villages in Delhi, have been established.

The Delhi Landholders (ceiling) Bill passed in Aug. 1960, fixes the ceiling on land holdings at 30 standard acres for a family of five. Leases in future have been prohibited except by small owners holding less than eight standard acres and persons suffering from a disability. Future tenants will have a minimum term of five years. The maximum rent has been fixed at one-fifth of the gross produce.

### Dairy, Poultry

It is estimated that there is one milch animal for every three or four persons. The average yield of a cow and buffalo comes to 2 seers and 4.2 seers respectively.

The annual average daily production of milk is estimated at 7,000 maunds.

Poultry 1964 : No. of poultry farms (Govt.) 3 ; (Private) 444 ; No. of chicks produced during the year 54,451 ; No. of eggs produced 4,69,600.

### TRANSPORT

Delhi occupies a pivotal point in the network of national railways, highways and airways. It is one of the biggest railway junctions in the country. All the principal inter-State roads of significance converge on Delhi. It is also linked with important cities and foreign countries by air through its two air ports, Willingdon and Palam.

Registration : The total number of vehicles registered during 1964-65 was 1,16,172 but the actual number of vehicles on road during the quarter ending March, 1965 on the basis of the taxation figures was 72,033 as below :—

Passenger buses 1,570 ; Goods Vehicles 5,737 ; Tourist Cars 342 ; Taxis 1,744 ; 2-seater auto rickshaws 5,184 ; 4-seater m/cycle rickshaws 478 ; Motor Cycles 30,851 ; Private cars 26,227 ; Total 72,033.

The Delhi Transport Undertaking of the Delhi Municipal Corpn. has 880 buses operating on 56 routes. Total distance covered per day : 1,38,000 kilometres.

### HEALTH

(Monthly Average 1964)

Birth rate 30.1 ; death rate 8.5 ; infant mortality per thousand live births : 73.0. Live births 7,442, still births 81.

*Deaths* : Caused by Small-pox 3 ; Dysentery and Diarrhoea 88 ; Respiratory diseases 395 and Injuries and suicides 59.

There are 35 hospitals and 87 dispensaries of the modern system of medicine, two Ayurvedic and Unani hospitals and 15 dispensaries and six Homoeopathic dispensaries. The total bed strength is about 5,000.

Money allotted under the Third Five Year Plan for medical development schemes : Rs. 1.55 crores.

### EDUCATION

The number of recognised educational institutions increased from 1,508 to 1,581 during 1963-64.

There is one University in Delhi known as Delhi University and three institutions namely Jamia Millia Islamia, Indian School of International Studies and Indian Agricultural Research Institute for higher learning are deemed to be Universities under Section 3 of the University Grants Commission Act. Two novel types of institutions called Janata Colleges one for men and the other for women are being run in Delhi's rural areas to impart community training to the villagers. Literacy percentage in Delhi : 53 (1961). One engineering college at Kashmere Gate and five polytechnics including one for girls, and seven industrial training institutes have been set up during 1963-64.

The expenditure on education during 1963-64 amounted to Rs. 5,35,04,903 thus showing an increase of Rs. 64,58,480 over the previous year. Education upto Class VIII for students reading at Govt. and aided schools was made free during 1961-62. A television scheme was introduced in Delhi schools and during 1961-62, 152 schools were equipped with television sets. During 1964-65, 15 new higher secondary schools were opened and 150 additional sections were started in the existing higher secondary schools which resulted in providing 9,000 additional seats. The enrolment in the Higher Secondary Schools during the year was 6,73,791 as against 6,10,200 in the previous year.

### COMMUNITY DEVELOPMENT

The village development scheme covers 281 villages. A sum of Rs. 10.891 lakhs was spent during the Third Five Year Plan on the Community Development and Panchayat Raj in the rural areas of Delhi. The entire rural area of Delhi is now covered by the Panchayat Raj system. The Community Development Blocks presently comprise 281 villages, a population of 3,59,000, a total area of 2,66,800 acres and the 213 village panchayats cover 269 villages.

The total number of co-operative societies on March 31, 1965 stood at 2,072 with a membership of 2,39,930 as against 2,186 societies with a membership of 2,48,458 during the previous year.

### HOUSING

The Delhi Development Authority has undertaken to develop about 20 residential, about 15 industrial and commercial and about 15 miscellaneous schemes in different areas of Delhi.

Amount disbursed for Low Income Group Housing Scheme during 1964-65 : Rs. 52.50 lakhs (Rs. 4 lakhs

advanced to the Municipal Corporation for the Construction of Staff quarters at Nimri); Houses Constructed : 545 ; Houses under Construction 890. Amount disbursed for Middle Income Group : Rs. 60 lakhs ; Houses Constructed : 273 ; Houses under Construction : 160. Amount disbursed for village Housing Project Scheme : Rs. 1.20 lakhs ; Houses Constructed : 69 ; Houses under Construction 42.

### DELHI MUNICIPAL CORPORATION

The Delhi Municipal Corporation has 86 members, including six aldermen.

An estimate of the party position including the six aldermen is as follows : Congress 72, Jan Sangh 8, Communists 2, Independents 3.

*Mayor*, Hansraj Gupta.

#### Officials

*Commissioner*, Khem Lal Rathee.

*Deputy Commissioners*, D. D. Joshi, I.A.S. ; Parmatma Saroop ; N. N. Tondon, I.A.S. ; Girdhari Lal.

*Gen. Manager, Electricity Undertaking*, J. M. Raina, I.A.S.

*Secretary*, Hem Raj Sharma.

### DELHI UNIVERSITY

Delhi.

The University of Delhi is a teaching and affiliating University.

The University confers the following Degrees and Diplomas on students on passing the appropriate examinations :

Degrees : Ph.D. (Arts, Science, Law, Education, Medical Sciences and Social Sciences), M.A., M.Lib. Sc., M.Com., M.Sc., LL.M., B.C.L., LL.B., M.Ed., B.A. (Hons.), B.Ed., B.A. (Pass), B.Sc. (Hons.), B.Sc. (Pass), B.Com., M.Sc. (Home Science) in Rural Community Extension, B.Sc. (Home Science), M. Nursing, B.Sc. (Nursing) Hons., B.Sc. (Elect., Mech., Civil.), Engg. B.Arch., M.B.B.S., M.Sc. in Medical Biochemistry (for non-medical students), M.D. (Physiology, Pharmacology, Bacteriology, Medical Biochemistry, Pathology, Anaesthesia, Paediatrics, Medicine, Obstetrics, and Gynaecology), M.S. (Anatomy, Surgery, Ophthalmology, E.N.T.R., Orthopaedics), D.Sc., D.C.L., D.Litt., M.Litt. (Buddhist Studies and Linguistics).

Diplomas : D.T.C.D., Anaesthesia, Child Health, Radiation Med., Otolaryngology, Dermatology, Venereology, Med. Radio Diagnosis, Med. Radio Therapy, Obstetrics & Gynaecology, Dip. Lib. Sc., Dip. in Russian Language, Dip. in Hindi, Urdu, Panjabi, Modern Persian, Bengali, Arabic, Business Management & Industrial Administration, Post M.A. Dip. in Linguistics, Dip. in Hindustani and Karnatak Music, Dip. in French, German and Italian, Dip. in Geography (Eve.).

Certificates : Cert. of Proficiency in Russian language. Cert. in German, Italian, Spanish, Swahili, Hausa, Tamil, Telugu, Kannada, Malayalam, Marathi, Gujarati, Hindi, Urdu, Bengali, Cert. in Translation (English-Hindi). Post-Diploma Translation Cert. in Russian.

Medium of instruction : English.

No. of students (Aug. 1965) : 33,278 (including 13,625 women) ; Income (1964-65) : Rs. 80,21,322 ; Expenditure (1964-65) : Rs. 77,01,005.

*Chancellor*, Dr. Zakir Hussain. *Pro-Chancellor*, Vacant. *Vice-Chancellor*, Dr. C. D. Deshmukh. *Pro-Vice-Chancellor*, Dr. B. N. Ganguli. *Registrar*, L. N. Welingkar.

## GOA, DAMAN AND DIU

**CAPITAL:** Panaji Area : 1,431 sq. miles (Goa 1,394 sq. miles; Daman 22 sq. miles; Diu 15 sq. miles). Pop. : 6,34,584 (1960 Census).

The Hindu population is estimated at 3,88,654; Catholics 2,30,997; Muslims 14,716.

All the three territories are situated practically within the area covered by Maharashtra and Gujarat States. Goa is on the Konkan Coast; Daman lies on the Gujarat coast at the entrance to the Gulf of Cambay; and Diu is a tiny islet and along with the isolated spots, Gogola and Simbor, lies on the southern fringe of the Kathiawad peninsula.

The Goa region constitutes one district under the charge of a Collector, with headquarters in Panaji. The district is divided into two sub-divisions, namely the north sub-division comprising Goa, Pernem, Bardez, Bicholim and Satari and the south sub-division comprising Ponda, Sanguem, Quepem, Salcete, Vasco and Canacona. The Daman region is also under the charge of a Collector while Diu is in charge of an Administrator.

**Important towns:** Panaji (Capital: Pop. 34,634); Margao (Principal business centre: Pop. 15,257); Mapuca (Pop. 8,260); Vasco da Gama (Pop. 6,254).

**Other towns:** Ponda, Pernem, Canacona, Quepem.

**Rivers:** Mandovi, Zuari, Terekhol, Chapora, Baga, Talpona, Sal and Galgibaga.

**Ferries:** Panaji—Betim (over Mandovi); Agacaim—Cortalim (over Zuari); Panaji—Aldona (over Mandovi); Dona Paula—Marmagao (over Zuari).

### HISTORIC AND RELIGIOUS PLACES

In Old Goa, about eight miles from Panaji, there are several convents, the most important among them being the Basilica of Bom Jesus, popularly known as the Church of St. Francis Xavier. The body of Goa's patron saint, Francis Xavier is kept there. Not far from this Church are the Cathedral Sé Convent built between 1562 and 1619, the Convent of St. Francis Assisi, completed in 1667. At Pilar, five miles from Panaji, is located the noted Pilar Seminary. The exposition of the Body of St. Francis Xavier was held at Bom Jesus Basilica in December 1964.

Ponda taluka is well known for famous Hindu temples which house family deities of multitudes of Goans. Noted among these are the Mangesh Temple, a small but elegant structure situated on the side of a hill at Priol with a majestic tower at its entrance, and the Shantadurga temple at Quela, with a triple image of Vishnu, Shantadurga and Siva. At Bandora are located temples of Mahalakshmi and Nagesh.

### HISTORIC DATES

### COMMERCE, INDUSTRIES AND BANKS

The State Bank of India operates with branches in Panaji, Vasco, Margao and Mapuca, while a few other commercial Banks have opened their branches in Goa since March 1963.

The Life Insurance Corporation of India operates in the Territory.

Free movement of trade between Goa and the rest of the country was restored after liberation in respect of products of Goan and Indian origin.

With the coming into force of the Industries (Development & Regulation) Act, 1951 in Goa, Government's approval for starting about 261 new small-scale industries in Goa, Daman and Diu has been obtained. These include units for production of a large variety of industrial and consumer goods.

Two industrial estates are being set up at Margao and Vasco da Gama to be run by co-operative societies. A rural industries project, with a capital outlay of Rs. 20 lakhs, has been sanctioned for encouraging small-scale and village industries. The Industrial Development Corporation was set up in Goa on June 12, 1966. Thirteen projects under major industries have been licensed. Land Acquisition Act has been made applicable to this Territory.

### AGRICULTURE

The chief agricultural products of Goa are rice, coconuts, cashew-nuts, betel-nuts and mangoes. Rice grown is not sufficient for local consumption for the whole year.

Goa has a land surface of 1,537 square miles. Paddy fields cover 12.4 per cent of the cultivable area. The distribution of other areas is as follows: 5 per cent for coconut cultivation, 8.9 per cent for cashew-nut cultivation, 32.8 per cent under forests, 6.6 per cent for hill tract cultivation, 19.8 per cent uncultivated productive area. Cashew, arecanuts, mangoes and coconuts are exported.

The new Agricultural Tenancy Act gives security of tenure to the cultivator and also ensures efficient management of land for increase in agricultural production.

Annual production of rice is about 50,000 to 60,000 metric tons and the annual consumption is estimated to be about 73,000 metric tons. Main vegetables viz., jack fruit, sweet potatoes, brinjals, etc. valued at Rs. 30 lakhs are produced annually.

*Comunidades*: A large part of the cultivable lands belongs to village communities, popularly known as *comunidades* which are a type of agricultural co-operatives. There are a number of such communities in each of the 11 administrative divisions—31 in Ilhas, 37 in Salcete, 39 in Bardez, 14 in Mormugao, 28 in Ponda, 21 in Bicholim, 24 in Quepem, 12 in Pernem, 7 in Sanguem, 2 in Satari and 7 in Canacona. The Land Reforms Commission has suggested in its report that their administration be turned over to Block Development officers.

### MINERALS

Goa has vast mineral wealth and abounds in scenic beauty. Export of manganese and iron ores is the mainstay of Goa's economy and has been a valuable foreign exchange earner.

The main operational centres are Pailigao and Sirigao near Bicholim. There are as many as 445 mines producing manganese and ferromanganese ore and 353 producing iron ore. The mining method adopted in almost all the mines in Goa is open-cast and benching system. The usual percentage of iron content in these ores varies between 55 and 65. The high grade hematite ore containing about 68 per cent of iron and magnetite also occur in some places.

The manganese ores found in Goa are Pyrolusite and Psilomelane. Most of these deposits occur in pocket formation and are mainly located in southern parts of Sanguem and Quepem talukas. Mines under exploration during 1965: Iron ore 94; ferro-manganese 114; manganese: nil; total 218.

Production during 1965 (metric tons): Iron ore 65,84,061; ferro-manganese 77,236; manganese 33,286.

Exports in metric tons and value in Rs. respectively of iron ore etc. during 1965: Iron ore 68,05,097; 19,25,81,746; manganese 60,260; 46,78,755; ferro-manganese 2,74,070; 89,88,195; black iron 2,05,454; 54,04,500.

Mormugao harbour, one of the finest natural harbours in the country, is the main outlet for the ore and has a vast hinterland in Mysore and Maharashtra States, and plans are under way for extensive dredging of the harbour to develop into a first rate port.

### COTTAGE AND SMALL SCALE INDUSTRIES

Goa has very few cottage and small scale or even large industries. Some of these are: ornamented wood works (Cuncolim), cashew-nut peeling-packing factory (Bicholim), match factory (Ponda), umbrella factories (Piedade and Margao), soap factories (Bicholim and Mapuca), handloom factory (Aldona), candle factory (Margao) and pottery works (Bicholim). A Small Industries Service Institute has been set up in Margao and Department of Industries has been attached to the Secretariat in Panaji for promoting projects for rapid industrialisation of the Territory.

### PLANNING

A Planning Board appointed under the Chairmanship of Mr. W. X. Mascarenhas, an experienced Goan engineer, submitted in January 1963 a Rs. 29.04-crore draft plan with territory's development schemes for integration with India's Third Five-Year Plan. The power needs of the region are expected to be partially met from the Koyna Hydro-Electric projects in Maharashtra and Sharavathi projects in Mysore State. The possibility of drawing power supply from the waters of the Dudhsagar falls near Castle Rock in course of time is also under examination. Two towns Bicholim and Pernem were the first to receive electric supply from Koyna on Dec. 19, 1963.

A detailed scheme had been prepared to develop Goa as a tourist centre during the Third Plan period at an estimated cost of Rs. 39.20 lakhs.

A total outlay of Rs. 40.24 crores has been fixed by the Planning Commission Goa's for Fourth Five Year Plan, as against the Third Five Year Plan expenditure of Rs. 15.28 crores.

The outlays for main sectors of development for this Union territory (in crores of rupees) are as follows: Agricultural programmes 8.08; co-operation & community development 1.5; irrigation & power 7.62; industry & mining 1.74; transport & communications 5.64; social services 14.42; and miscellaneous 1.24. The Plan provision for 1967-68 is Rs. 8.8 crores.

### EDUCATION

Five Arts and Science Colleges in Goa, one Arts and Science College at Daman have been opened, since liberation, by private societies. A polytechnic leading to diploma courses in engineering has been started from June 1963, while an engineering college providing for degree courses is proposed to be opened later. The Goa Medical School was up-graded into a medical college and First Year M.B.B.S. course introduced from July 1963.

There has been significant progress in the last two years in the sphere of education. Free and compulsory education has been introduced at the primary level. As against 17,000 students in 176 Government schools before liberation, there are now 794 Government primary schools, the enrolment at primary level including non-Government schools being 1,15,000.

In the field of secondary education, the Grant-in-Code has been introduced on the pattern prevailing in Maharashtra State. The number of secondary schools is 159 with an enrolment of 22,565 as against 78 schools with 8,000 students before liberation.

### TRANSPORT AND COMMUNICATIONS

Rail communication which was suspended in 1954 was restored after the liberation and a direct train service between Vasco da Gama and Poona has been introduced. There is a proposal to convert the metre gauge into broad gauge to facilitate increasing passenger and goods traffic.

Mormugao, the chief port described as the "Gateway of Goa," is one of the major harbours on the west coast of India. It permits of ocean-going vessels of various sizes from all parts of the world, but ships mainly from Japan, America and Europe call at the port to take cargo of iron and manganese ore. Coastal steamer services between Bombay and Panaji and Bombay and Mormugao were resumed in March 1962 after suspension for eight years before the liberation of the enclaves. Road transport services between Panaji and Belgaum via Anmod, to and from Savantwadi via Doddamarg and between Betim and Poona and between Hubli and Panaji have also been introduced. Goa is criss-crossed by as many as half a dozen rivers and rivulets, and internal waterways are being developed fully for transport of men and goods. Bridges across Mandovi and Zuari rivers at Panaji and Cortalim have also been planned. A bridge across the Diu creek at Tad, about three miles from Diu, which will link Diu with the mainland of India, is under construction.

The treacherous stretch of nearly 50 miles of road from Ponda to Anmod, including the treacherous ghat section, was repaired, widened and asphalted during the early part of 1963 in a record time of six months enabling speedier

traffic on one of Goa's important road outlets connecting it with Belgaum.

Improvement of road communications is an integral part of the development plan formulated by Government for the new Union Territory of Goa, Daman and Diu. There are at present 2,119 kilometers of roads in this Territory of which 1,261 kilometers are Government roads and the remaining 858 kilometers are municipal roads. Nearly 50 per cent of the Government roads have black-topped surface.

The West Coast Highway, linking Bombay with Cape Comorin, is expected to be completed, as far as the Goa portion is concerned, to the extent of 87 kilometers shortly.

Construction of a major bridge over Mandovi has been started. One bridge at Daman and another at Diu are also under construction.

*Postal and telegraphic facilities:* At present there are 109 post offices in Goa. All towns with more than 2,000 population are proposed to be covered with one post office each. At present, telegraphic facilities for filing telegraphs are provided at Panaji, Mapuca, Vasco da Gama, Maigao and Curchorem. A fully automatic telephone exchange was pressed into service on the liberation anniversary day — 19th Dec. 1962 — replacing the Magneto system in Panaji. A telephone exchange operating on C.B. (Central Battery) system replaced the obsolete magneto system in Vasco on Jan. 26, 1964.

Radio Goa broadcasts for a total of nine and half hours (9½) every day programmes in four languages, Konkani, Marathi, English and Portuguese. The transmitters are located at Bambolim, four miles from Panaji.

### PRESS

A stringent censorship controlled the freedom of the press during the Portuguese regime. One of the initial acts of the Administration after liberation was the abolition of pre-censorship of newspapers. At present there are two English dailies (of which one is evening daily), 2 Marathi dailies, 1 Konkani daily and 3 Portuguese dailies. *Weeklies:* English 1; Marathi 2; Konkani 2; Portuguese 2. *Fortnightly:* Konkani 1. *Monthlies:* English 2; Marathi 2; Konkani 1; Portuguese 2.

## DADRA AND NAGAR HAVELI

*Headquarters:* Silvassa.

Area 189 sq. miles; Population 57,932 (males 29,517; females 28,415) (1961 census). 5,232 men and 1,110 women are literate.

A Rs. 85-lakh development plan has been prepared for the 191-square-mile enclave of Nagar Haveli. Among the construction activities included in the plan are three bridges over the two rivers, costing Rs. 10 lakhs, 75 miles of roads, schools and village water system.

Handmade paper industry, catechu (Ratla used in pan) manufacture, tanneries and tile and brick factories, a

### ADMINISTRATION

President's rule for a period of six months was introduced in the Union Territory of Goa, Daman & Diu with effect from Dec. 3, 1966, following the resignation of the first popular ministry headed by Mr. Dayanand Bhandarkar and the dissolution of the State Legislative Assembly.

*APPEAL COURT FOR GOA:* President Radhakrishnan promulgated on Jan. 2, 1964 a regulation providing for the establishment of a judicial commissioner's court for Goa, Daman and Diu.

The judicial commissioner's court will be the highest civil and criminal court of appeal and revision in Goa, Daman and Diu, the regulation said.

Indian citizenship has been conferred on persons born or domiciled in the territories of Goa, Daman and Diu and Dadra and Nagar Haveli.

### DAMAN

Daman in Gujarat has a total area of 22 square miles and a population of 23,093 inhabitants, mostly of Gujarati extraction.

There are some very interesting historical relics here such as the old fort and a few surviving churches reminiscent of the old times.

### DIU

About 150 miles to the north-west of Daman lies the tiny islet of Diu off the southern coast of Kathiawad. It is a small town separated from the mainland by a narrow arm of the sea. Dependent on it and surrounded by the territory of Junagadh is the enclave of Gogola and also the island and fort of Pani Cota in the bay of Simbor.

Diu is reached from Bombay by the Western Railway via Viramgam and Delwada. Access by sea is easier and more rapid but there is no harbour. There is an excellent roadstead where ships can safely anchor in two fathoms of water.

Area: 15 sq. miles. The population is 15,922.

public library and a maternity home have also been constructed. Over 3,000 students now attend schools, on which the administration spends about Rs. 88,000. Spinning and carpentry are taught in the schools.

Number of workshops registered in the area: 1,314.

A model cottage hospital, a veterinary dispensary and four dispensaries have started functioning.

Dadra and Nagar Haveli are administered directly by the Centre and does not come under the Control of the Goa Government.

## GUJARAT

**CAPITAL:** Ahmedabad.

The State of Gujarat came into being on May 1, 1960.

Area : 71,056 sq. miles. Population : 20·63 million (1961 census). See "*Population*" for detailed 1961 census figures.

There are 19 Districts and 186 Talukas. The number of municipalities is 59 (including Ahmedabad Municipal Corporation).

Districts with headquarters in brackets are as follows :—

Ahmedabad (Ahmedabad), Baroda (Baroda), Banaskantha (Palanpur), Broach (Broach), Mehsana (Mehsana), Kaira (Kaira), Panch Mahals (Godhra), the Dangs (Ahwa), Surat (Surat), Sabarkantha (Himatnagar), Jamnagar (Jamnagar), Bhavnagar (Bhavnagar), Amreli (Amreli), Junagadh (Junagadh), Kutch (Bhuj), Rajkot (Rajkot), Surendranagar (Surendranagar), Bulsar (Bulsar), Gandhinagar (Ahmedabad).

(For names of talukas and their area and towns and their population see under "*Population*".)

Gujarat State has a unicameral legislature. The strength of the Legislative Assembly is 154. The State sends 11 members to the Rajya Sabha and 22 to the Lok Sabha.

Though the State has fertile land it is deficit in food to the extent of 1·8 million tons a year. Its resources of industry and power are at the present time low. There is also a surprisingly high percentage of backward and Scheduled Classes and Scheduled Tribes. They constitute 93 per cent of the population of Dangs, 53 per cent in Surat, 38 per cent in Panch Mahals, 47 per cent in Broach and 27 per cent in Baroda. One bright feature is the existence of mineral oil in the Ankleshwar, Kalol and Cambay region.

Gujarati will be the language of administration, law courts and university, and Hindi for communication with the Union Government.

### GEOGRAPHY

Gujarat State is situated on the west coast of India between 20·1 and 24·7 degrees north latitude and 68·4 and 74·4 degrees east longitude. The State is bounded by the Arabian Sea on the west, Rajasthan in the north and east, Madhya Pradesh in the south-east and Maharashtra in the south.

The bigger rivers are Banas, Saraswati, Sabarmati, Mahi and of course, the Narmada and Tapti. The smaller rivers are Machhu, Bhadar, Shetrunji and Damanganga. The land slopes gradually from the east to the west. The soils are of two classes the black cotton soil which yields the famous Broach cottons, the finest in India and alluvial which under careful cultivation in Ahmedabad and Kaira make splendid garden land. The plains watered by the Narmada and Tapti are very rich. Their fertility is so marked that they are sometimes called the Garden of India.

On the basis of average rainfall the regional features can be summarised as follows :—

South Gujarat, where the rainfall varies between 30" and 60". The annual range in temperature is wide.

North Gujarat, where the rainfall varies between 20" and 40" but is mostly around 40" in Godhra and 25" in Viramgam. The area has lower winter temperatures.

Saurashtra, the area comprising the coastal regions of Jamnagar and Junagadh. This is dry, the rainfall being less than 25".

South-central Saurashtra and the Cambay region : The rainfall is 25" and over.

Kutch is semi-desert, the rainfall being very low.

The per capita income in 1961-62 was Rs. 355 compared with Rs. 330 for the Indian Union as a whole. The main source of income is agriculture. The figures in Rs. crores for 1961-62 are :—

State income : 741. Sector-wise distribution : Agriculture, animal husbandry, ancillary activities 343 ; mining, manufacturing and small enterprises 178 ; commerce, transport, communications 118 ; other services 102.

The total geographical area of Gujarat is 4,52,17,500 acres. Of this, only 52·45 per cent is the net area sown. The percentage of barren and uncultivable land is 25·90.

The percentage of area under barren and unculturable land is very high. This is partly because of extensive barren lands in Kutch. The State is rich in permanent pastures and grazing lands.

The main food grains are bajri, jawar, rice and wheat. Rice is grown chiefly in the south Gujarat districts of Kaira, Panch Mahals, Baroda and Surat ; cereals are grown in the north Gujarat and Saurashtra Districts. Wheat is grown more especially in north Gujarat and to some extent in Saurashtra. The district of Panch Mahals is also noted for maize. The total production of 22·56 lakh tons gives a per capita consumption of 11·45 oz. a day.

Among non-foodgrain crops, cotton, tobacco, groundnut and maize are important. More than one-fifth of the area under cotton in the Indian Union is in this State.

The State has limited forest resources. The area occupied is about 5·15 per cent of the total geographical area of the State. The forest areas are concentrated mainly in Dangs, Junagadh, Panch Mahals, Baroda, Broach, Surat and Banaskantha Districts and to some extent in Jamnagar and Kutch.

The major forest produce are teak, bamboos, yellow wood, red wood, black wood, sandalwood, Khar, Simal, Dhumda, Dudhia, etc. Minor forest produce is grass, honey, wax, colouring wood. Dangs has rich teak forests. The Gir forests in Saurashtra contain a lions' sanctuary, the only one in India.

The State has a total livestock population of 135 lakhs and poultry 20·48 lakhs. There is a high proportion of she-buffaloes over three years. The State is noted for its high yield of milk per head of cattle. Certain breeds like Kankrej and Gir are wellknown. The high milk yield generally contributes to the high production of milk and dairy products.

Banking facilities are better than elsewhere ; there is a bank for every 42,787. Of the different areas in the State Ahmedabad has the highest facilities.

The Gujarat State Cooperative Land Development Bank Ltd., established in 1951, functions in the State through its 145 branches and 4 Primary Banks. The bank has advanced long-term loans to the agriculturists exceeding Rs. 40·12 crores. It has a membership of 4·20 lakhs. The paid-up share capital is Rs. 2·61 crores and reserve and other funds exceed Rs. 56 lakhs.

Gujarat is rich in minerals like salt, limestone, manganese, gypsum, china clay, calcite, bauxite, etc. Large deposits of bauxite of very good grade are located in Saurashtra and Kutch. The reserves of bauxites in the State are of the order of 17 million tonnes. The fluorite deposit located near Chhotaudepur in Baroda district is one of the largest in Asia and has reserves of the order of 11.6 million tonnes. Limestone reserved in the State run into several thousand million tonnes, the best quality limestone being located in Saurashtra and Kutch. The State also has deposits of lignite, china clay and other clays, glass sand and quartz, dolomite, agate, calcite etc.

Oil and natural gas have been found in Ankleshwar, Kalol and Cambay oil fields where drilling is in progress. A refinery is to be set up at Koyali in Baroda District.

The major industries of the State are textile (including ginning and pressing of cotton), general and electrical engineering, vegetable oils, chemicals (including salt), soda ash and cement. The concentration of industry is most striking in Ahmedabad, Baroda and Surat.

The distribution would roughly be as follows:—textiles and its ancillaries in Ahmedabad, silver thread in Surat, cement at Porbandar, Dwarka and Sikka, chemicals around Baroda.

There are six industrial estates in the State and more are to be started shortly. Government has also decided to carry out pilot plant tests of certain minerals for industrial use.

Power development in Gujarat is higher than the average for India. About 53 per cent of the number of towns is electrified. A major thermal power station with an installed capacity of 200/254 MW has been constructed and was expected to be commissioned by the middle of 1964.

Road transport is not satisfactory for the State as a whole — 20.93 miles for 100 square miles of area or 73.22 miles for lakh of population. The position of road transport is relatively good in Dangs, Amreli, Junagadh, Rajkot and Bhavnagar Districts. It is very poor in the districts of Mehsana, Sabarkantha and Banaskantha.

Saurashtra has a net-work of railways. The Baroda area is also well-served.

There are 51 ports in Gujarat (one major, eight medium, 42 minor). The bigger ports with their annual turnover:—Kandla (15,72,185 M. tons), Okha (6,76,591 tons), Bedi (3,47,683 tons), Bhavnagar (4,19,606 tons), Verawal (2,92,566 tons), Sikka (3,04,195 tons), Porbandar (2,25,776 tons).

About education nearly 13.34 per cent of the population attends school.

There are three universities in Gujarat — the Gujarat University in Ahmedabad, the Maharaja Sayajirao University in Baroda and the Sardar Vallabhbhai Vidyapeeth in Vallabh-Vidyanagar District, Kaira. The establishment of two more universities is under consideration.

Each Government dispensary or hospital in the State serves about 18,000 of the population and each bed about 2,400. On an average about 8,540 persons register every month for employment. Out of this about 847 are placed in employment.

The Third Plan total outlay was Rs. 235 crores and the expenditure during the first four years was Rs. 180.90 crores i.e. 76 per cent.

The Fourth Plan outlay is Rs. 446 crores—State's resources Rs. 281 crores and Central assistance Rs. 165 crores.

### NEW CAPITAL

The Government had decided to build the new capital of the State at Gandhinagar, 15 miles north of Ahmedabad City on the west bank of the Sabarmati river.

### PANCHAYATI RAJ

There are in all 11,562 Gram Panchayats and 49 Nagar Panchayats in the State covering a rural population of 1.80 crores. In pursuance of the policy of Government to cover every village in the State by Gram Panchayat, all villages in the State are covered by Gram Panchayats except some villages in Kutch and Dangs District.

The Gujarat Panchayats Act, 1961, aims at three tier system of rural administration. It is applicable to all Gram/Nagar Panchayats in all the Districts of the State except Dangs District. Under this Act, Taluka Panchayats and District Panchayats have been established for each taluka and each District. The District Panchayat is an apex body in the Panchayati Raj system with powers of supervision, guidance and control over the lower level i.e. Taluka and Gram/Nagar Panchayats. The Taluka Panchayat supervises the working of and has control over the Gram/Nagar Panchayats within its jurisdiction. The powers and functions of these three types of bodies are well defined.

Other more important features of the Gujarat Panchayat Act, 1961 were given in the previous editions of the *Directory*.

The Gujarat Panchayats Act, 1961 has been brought into force in all the districts of Gujarat State except Dangs district.

Municipalities having a population not exceeding 10,000 have been converted into Gram Panchayats. Those having population exceeding 10,000 but not exceeding 20,000 have been converted into Nagar Panchayats.

Taluka Panchayats and District Panchayats were constituted in all the districts of the State, except the district of Dangs.

The State Council for Panchayats and the Gujarat Panchayats Service Selection Board have been constituted. Similarly, the District Panchayat Service Selection Committees and District Primary Education Staff Selection Committees have also been formed for each district Panchayat.

### Village Volunteer Force

For the total mobilisation of both human and material resources for the defence effort the scheme of the Village Volunteer Force has been implemented throughout the State with effect from Jan. 26, 1963.

As an integral part of this scheme, Defence Labour Banks are being organised in every village. The total number of Defence Labour Banks organised upto August 65 is 4,845. The bank is based on the donation of free labour at the minimum rate of one day per month from every able-bodied adult or monetary contribution in lieu.

### BASIC FACTS AND FIGURES

No. of towns 181 ; no. of villages 19,017.

Land utilization in '000 acres:—Total area 45,259 ; area under forest 2,743 ; barren and uncultivable land 11,425 ; permanent pastures and grazing lands 2,550 ; net area sown 23,632 ; others 4,908.

**Area and Outturn of Principal Food and Non-Food Crops** — area in '000 acres and outturn in '000 tons — for 1963-64 (first figure shows area, second production):—

Rice 1,284 and 477 ; wheat 1,028 and 361 ; jowar 3,324 and 402 ; bajra 2,951 and 640 ; all cereals 9,643 and 2,282 ;

tur 207 and 45; gram 252 and 54; all pulses 1,329 and 195; total food grains 10,973 and 2,484; cotton 4,169 and 1,313 (bales); groundnut 4,560 and 1,251.

**Area Irrigated:** by sources in 1961-62. The figures are in lakh acres:—

Government canals 2.29; private canals 0.32; wells 14.59; tanks 0.45; other sources 0.90; gross area irrigated 19.50.

Area irrigated by crops in 1961-62. The figures are in '00 acres:—

Rice 1,623; wheat 5,559; jowar 1,348; bajri 1,005; all food crops 12,668; cotton 2,782; groundnut 986; tobacco 377; total non-food crops 6,827; total gross area irrigated 19,495.

**Agricultural Implements in 1961:**—Wooden ploughs 14,59,616; iron ploughs 1,05,868; carts 7,08,767; sugarcane crushers worked by power 2,009; sugarcane crushers worked by bullocks 4,307; oil engines with pumps for irrigation 44,992; electric pumps for irrigation 6,229; Government tractors 2,005; ghanis five seers and over 3,277; ghanis less than five seers 823.

**Livestock Position in 1961:**—Cattle—male over three years 30,45,875; cattle—female over three years 18,37,655; young stock 16,73,025; total 65,56,555; buffaloes—male over three years 39,996; buffaloes—female over 3 years 17,02,377; youngstock 11,74,208; total buffaloes 29,16,581; total bovine 94,73,136; sheep and goats 37,04,529; total livestock 1,34,54,395; total poultry 20,48,284.

**Co-operation in 1963-64** (number of societies):—agricultural societies 9,976; non-agricultural societies 5,766; land development banks (incl. State Banks) 5; central banks (incl. State Banks) 22; total 15,769.

Co-operation in 1963-64 (number of members): of agricultural societies 13.40 lakhs; of non-agricultural societies 8.50 lakhs; of land development banks (incl. State Banks) 3.85 lakhs; of central banks (incl. State Banks) 0.29 lakhs; total 26.04 lakhs.

Co-operation in 1963-64 (share capital of societies in Rs. lakhs):—Agricultural 1,749; non-agricultural 885; land development banks (incl. State Land Mortgage Banks) 224; central banks (incl. State Banks) 916; total 3,774.

Co-operation in 1963-64 (working capital in Rs. lakhs):—Central banks (incl. State Banks) 7,845; agricultural societies 7,226; non-agricultural societies 5,941; land development banks (incl. State Land Mortgage Banks) 2,727; total 23,739.

Population covered by cooperative movement (in lakhs) during the same period was 130.20.

**Joint-Stock Companies as in March 1963:**—(Provisional). The first figure shows the number of Companies, the second authorised capital and third paid-up capital in '000 Rs.:—Commerce 252; 3,07,850; 1,20,295; Processing and manufacture of foodstuffs, textiles, leather and products thereof 217; 8,33,526; 3,85,208; Processing and manufacture of metals, Chemicals and products thereof 215; 7,53,904; 1,77,043; Other processing and manufactures 94; 2,22,901; 70,090; Construction and utilities 33; 49,013; 15,798; Transport and Communications 19; 35,615; 11,589; Mining and quarrying 15; 8,295; 6,387; Personal and other services 12; 4,100; 1,471; Agriculture and allied activities 27; 1,882; 1,130; Community and business services 889; 22,19,487; total 7,90,499.

**Medical Statistics for 1964:**—No. of hospitals and dispensaries 1,271; no. of beds 100,044; no. of indoor patients treated 3,18,188; no. of outdoor patients treated 75,39,982; no. of doctors 1,260; no. of nurses 1,634.

**Education Statistics for 1964-65.** The first figure shows the number of institutions, the second of pupils:—

Higher education 145 and 71,308; Secondary education 1,364 and 4,94,076; Primary education 19,575 and 27,78,048; others 4,000 and 1,32,000. Total 25,084 and 34,75,432.

No. of teachers as in 1964-65: Primary 72,518; Secondary 19,314; Higher 3,995; Total 95,827.

*Statistics about electric power as in 1964* (figures in '000 K.W.H.):—

Power generated: 18,61,287.

Power consumed: domestic 86,995; commercial 47,474; industrial 11,06,638; others 91,488; total 13,32,595.

**Working Class (1961):** The State has 84.75 lakh workers. Of the male population of 106.34 lakhs 53.47 per cent and that of the female population of 99.99 lakhs 27.89 per cent are workers. They could be classified as follows (figures in lakhs): Cultivators 45.19; agricultural labourers 12.52; mining, quarrying etc. 1.05; household industry 5.36; construction 0.90; trade and commerce 4.11; transport, storage and communications 1.59; other services 8.47.

Statistics about Industry as in June 1964:—

No. of factories 4,299; employment 4,08,104.

Information about number of factories and average number of workers employed therein daily respectively under each category is given below:—

Textile 919; 2,12,522; ginning and pressing 476; 46,774; food, beverages and tobacco 866; 38,425; engineering 818; 29,171; non-metallic mineral products 336; 24,066; chemicals and pharmaceuticals 115; 16,918; wood, furniture and fixtures 121; 4,564; electricity, gas and steam 75; 3,463; paper and paper products 29; 2,874; rubber and rubber products 16; 1,141; others 528; 28,186.

**Mineral Production as in Oct. 1963.** First figure shows quantity in tonnes, second value in '000 Rs.:—

Bauxite 1,81,128 and 2,014; Calcite 3,925 and 24; china clay 50,030 and 413; Fire clay 62,679 and 316; Limestone 11,97,406 and 5,866; Manganese 24,479 and 1,116; Salt 24,54,200 and 66,411; Dolomite 30,830 and 244; Feldspar 271 and 1.

Production 1964: Rs. 13.80 crores; per capita production 1964: Rs. 6.5.

### Employment Exchanges

The number of persons seeking employment through the employment exchanges recorded decrease from 1,37,052 in 1963 to 1,31,396 in 1964. The number on the live register was 72,454 at the end of the year 1964 as against 75,685 in 1963.

**Transport as on March 31, 1965:** The Nationalised Motor Transport system in the State is operating 2,752 routes covering a length of 1,17,186 kilometers. It carries on an average 6.32 lakh passengers and earns Rs. 3.60 lakhs per day.

Other particulars are as follows:—No. of vehicles on road per day 1,672; capital invested Rs. 1,674.35 lakhs; total expenditure (including payment of interest to participating Govt. etc.) Rs. 1,301.96 lakhs.

No. of Motor Vehicles in operation as in March 1965: Motor cycles 13,854; Motor cars 17,254; Taxis 779; Auto Rickshaws 2,336; Stage carriages 3,206; Private carriers 2,305; Public carriers 7,868; Others 4,852; Total 52,454.

Mileage of metalled and non-metalled **Roads** as in March 1963 :—

Metalled 8,165 ; non-metalled 6,937 ; total 15,102.

Railway mileage :

Broad gauge 561 ; metre 2,037 ; narrow 719 ; total 337.

**Village Panchayats (as on March 31, 1966)† :—**

No. of Gram Panchayats 11,562 ; population covered 1.80 crores.

**Community Development Programme 1964-65 :—**

Stage I blocks 115 ; Stage II blocks 94 ; Sp. M.D.P. blocks 3 ; T.D. blocks 32 ; Population covered by C.D. & T.D. Blocks 1,83,20,000.

Improved seeds distributed (Quintal) 6,45,309 ; fertilizers distributed (Quintal) 22,60,000 ; agricultural demonstrations held (Nos.) 20,239 ; additional area brought under irrigation (acres) 1,92,446 ; drinking water wells constructed (Nos.) 832 ; drinking water wells renovated (Nos.) 1,055 ; adult education centres started (Nos.) 688 ; adults made literate (Nos.) 12,323 ; youth and farmers' clubs started (Nos.) 995 ; reading rooms/libraries started (Nos.) 274 ; kacha roads constructed (kms.) 618.7 ; people's contribution (Rs.) 52,52,000.

**Small Savings :—**Figures for 1962-63 : target Rs. 1,033 lakhs ; net collection Rs. 228 lakhs. During 1963-64 : target Rs. 721.60 lakhs ; net collection Rs. 810.05 lakhs.

**Housing :** The total allocation for housing in Gujarat in the Third Plan was Rs. 1,039 lakhs. The allocation for the first three years was Rs. 391.07 lakhs, but the amount actually drawn was only Rs. 246.11 lakhs.

**Consumer Price Index** number (base average Aug. 1926 to July 1927 as 100):—(For Ahmedabad).

|                   | 1960 | 1961 | 1962 | 1963 |
|-------------------|------|------|------|------|
| Food .. ..        | 322  | 324  | 328  | 316  |
| Fuel, lighting .. | 337  | 342  | 331  | 349  |
| Clothing .. ..    | 339  | 339  | 339  | 339  |
| House rent ..     | 107  | 107  | 107  | 107  |
| Miscellaneous ..  | 349  | 357  | 366  | 369  |
| Cost of living .. | 298  | 300  | 302  | 296  |

Index nos. of wholesale prices (base 1952-53 = 100):—

|                                      | 1961  | 1962  | 1963  | 1964  |
|--------------------------------------|-------|-------|-------|-------|
| Food articles ..                     | 119.5 | 124.9 | 132.7 | 154.9 |
| Liquor and tobacco                   | 103.6 | 99.8  | 115.3 | 126.9 |
| Fuel, power, light and lubricants .. | 121.8 | 123.4 | 136.3 | 142.8 |
| Industrial raw material .. ..        | 147.7 | 137.3 | 137.2 | 156.4 |
| Manufacture .. ..                    | 127.0 | 129.0 | 130.3 | 134.8 |

**Small-Industries Corporation :** This corporation was incorporated on March 26, 1962 and started functioning. The corporation is expected to give aid, counsel, assist and to promote the interest of small industries in the State by providing technical and managerial assistance, and procuring raw materials, machinery, equipment, tools etc. required by the small industries. During 1964 the corporation made purchases of goods to the tune of Rs. 1,29,46,211 and sold goods worth Rs. 1,27,14,816.

### ELECTRIC POWER PROJECTS

The position as at the end of 31st March, 1965 in respect of the entire power system under the Board's Control was as follows :—

Assets of the Electricity Board : Rs. 7,850.09 lakhs ; Total Installed capacity : 2,93,170 kW. (Steam 2,47,500 ; Diesel 45,670) ; Amount spent on Electricity Scheme in 1964-65 : Rs. 1,204.62 lakhs ; Working Expenditure : Rs. 1,204.86 lakhs ; Total No. of Towns and Villages

electrified : 1,331 ; Total length trans. line 11 kV and above : 11,775 circuit kms. ; Total No. of consumers : 3,16,430 ; Total connected load : 3,08,615 kW. ; Total generation including bulk purchase from other agencies (in million KWH): 959.32 (Thermal 602.67 ; Diesel 91.23 ; Purchased 265.42) ; Total aggregate demand in kW : 1,83,220 ; Total sales (in million KWH): 764.14 ; Total estimated cost of schemes under the 3rd Plan : Rs. 6,549 lakhs ; Total Govt. provision for the 3rd Plan : Rs. 4,668 lakhs ; Total estimated foreign exchange component in 3rd Five Year Plan : Rs. 2,000 lakhs.

Hitherto, the Board used to meet the power demand of the State through various small independent distribution systems as well as a very large number of small diesel stations. With the completion and commissioning of the Central Thermal Generating Station at Dhuvaran in March, 1965, and the establishment of the high tension transmission lines, the entire State of Gujarat was covered under one grid with the exception of Kutch region. Thus at the end of March, 1965, there were only two power systems operating, viz. (1) Gujarat Power System (excluding Kutch) and (2) Kutch System. The particulars of installed generating capacity, maximum demand and the units generated in respect of each of the above two power systems are given below :

| Sr. No.                          | Particular                                         | Installed capacity kW | Aggregate Max. Demand kW | Units generated/purchased (10 <sup>6</sup> × KWH) |
|----------------------------------|----------------------------------------------------|-----------------------|--------------------------|---------------------------------------------------|
| <b>I. Gujarat Power System :</b> |                                                    |                       |                          |                                                   |
| 1.                               | Bulk purchase from A.E. Co. at Sabarmati S/S .. .. | —                     | 53,260                   | 257.57                                            |
| 2.                               | Bulk purchase from Bhavnagar licensee .. ..        | —                     | 7,810                    | 7.85                                              |
| 3.                               | Dhuvaran Thermal Power Station ..                  | 1,27,000              | 77,000                   | 64.54                                             |
| 4.                               | Utran Thermal Power Station ..                     | 67,500                | 65,300                   | 359.16                                            |
| 5.                               | Sikka Thermal Power Station ..                     | 16,000                | 13,400                   | 32.91                                             |
| 6.                               | Porbandar Thermal Power Station ..                 | 15,000                | 12,370                   | 68.08                                             |

### IRRIGATION PROJECTS

Below we give a table in which are shown irrigation projects under construction.

| Name of Project                          | Estimated cost<br>(in lakhs of Rs.) | Area likely to be irrigated on completion<br>(Acres)                                                                      |
|------------------------------------------|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| 1                                        | 2                                   | 3                                                                                                                         |
| 1. Ukai ..                               | 6,120.02                            | 3,91,650<br>In addition it will assure irrigation to 5,62,250 acres of Kakrapar.                                          |
| 2. Kadana ..                             | 1,686.00                            | 40,905<br>In addition it assures irrigation to 6,39,600 acres under the command of Mahi Right Bank Canal Project Stage I. |
| 3. Narmada ..                            | 4,141.43                            | 9,97,500                                                                                                                  |
| 4. Kakrapar ..                           | 1,857.00                            | 5,62,250                                                                                                                  |
| 5. Mahi Right Bank Canal Project stage I | 2,492.75                            | 4,60,000                                                                                                                  |
| 6. Dantiwada ..                          | 1,087.28                            | 1,10,000                                                                                                                  |
| 7. Hathmati ..                           | 544.58                              | 57,900<br>In addition it will assure irrigation to 34,400 acres of existing canal system.                                 |
| 8. Meshwa ..                             | 246.33                              | 40,000<br>In addition it will assure irrigation to 19,000 acres.                                                          |
| 9. Saraswati ..                          | 131.53                              | 16,600                                                                                                                    |
| 10. Shetrunji (Palitana) ..              | 696.00                              | 86,000                                                                                                                    |
| 11. Bhadar ..                            | 417.29                              | 42,400                                                                                                                    |
| 12. Shetrunji (Khodiar) ..               | 190.88                              | 19,000                                                                                                                    |
| 13. Machhu II ..                         | 213.88                              | 19,000                                                                                                                    |

**Flood control:** A provision of Rs. 100 lakhs has been made in the Fourth Plan for the execution of flood control works.

### UKAI PROJECT

The project envisages the construction of reservoir on river Tapi at Ukai in Surat district at an estimated cost of Rs. 6,120.02 lakhs to irrigate 3,91,650 acres of land in Surat and Broach districts, and in addition 5,62,250 acres at present under Kakrapar canals will get assured supply of water.

Besides, 27,800 acres under command of Ukai canal and 56,200 acres under Kakrapar system will receive perennial irrigation. It also provides for generation of installed power of 1,30,000 kW. at 60 per cent load factor in normal years and 50,000 kW. at 60 per cent L.F. firm power in worst year. Thus, Ukai dam has great potentialities for the development of cheap and economical hydroelectric power. Partial flood control is an additional feature of this scheme. The Government has also appointed Ukai Control Board and Ukai Rehabilitation Committee. The dam and power portions of the project are planned to be completed by the end of Fourth Plan.

### KADANA PROJECT

The project envisages the construction of a reservoir on the Mahi river near Kadana village of Santrampur taluka in the Panch Mahals District at an estimated cost of Rs. 1,686 lakhs. A direct canal from the reservoir will irrigate 40,905 acres of land in the Panch Mahals district and will besides provide assured water supply to the 4.6

lakh acres under the command of the Mahi Right Bank Canal Project Stage I. It is also proposed to have continuous power generation of 6,000 kW. at a later date. The storage of Kadana Project will be augmented by the regulated releases from the Banswara project. An agreement in this regard has been reached with the Rajasthan Government.

### NARMADA PROJECT

The first stage sanctioned for Rs. 4,141.43 lakhs envisages construction of a dam across the river near the village Navagam in Rajpipla taluka of the Broach District with canal system to irrigate an area of 9,97,500 acres of the Broach and the Baroda districts. The Committee appointed by the Government of India in 1964 under the chairmanship of Dr. A. N. Khosala has recommended F.R.L. 500 for the Navagam Dam, irrigation of 45.81 lakh acres in Gujarat and 1 lakh acres in Rajasthan and installation of generating units of 1000 M.W. and 240 M.W. in the river bed and canal power houses respectively.

**Koyali Refineries:** The shipments of machinery for the refinery plant have been received from the U.S.S.R. The Soviet oil experts were going ahead with the preparations of the designs for the two million ton refinery.

A fertilizer plant is being set up near the refinery site by the State Govt.

### HOUSING PROGRAMMES (1966-67)

- Subsidised Industrial Housing Scheme:*—2,636 tenements in various towns of Gujarat State like Ahmedabad, Baroda, Surat, Rajkot, Porbandar, Bulsar, Kandla, Gandhidham.
- Low Income Group Housing Scheme:*—1,120 tenements in the various towns like Ahmedabad, Baroda, Surat, Rajkot, Bhavnagar, Broach, Bhuj, Gandhidham.
- Middle Income Group Housing Scheme:*—136 tenements in the various towns of Gujarat State like Ahmedabad, Rajkot, Jamnagar, Bhavnagar, Gandhidham.
- Low-Income Group for Weaver Section:*—264 tenements in various towns of Gujarat State.

The table below shows the achievements made by the Gujarat Housing Board during the Third Five Year Plan.

| Scheme                                           | No. of Tenements completed | No. of Tenements under construction | Expenditure to end of March, 1966 |
|--------------------------------------------------|----------------------------|-------------------------------------|-----------------------------------|
| (Rs. in lakhs)                                   |                            |                                     |                                   |
| 1. Housing Scheme for Industrial Workers.        | 17,450                     | 2,436                               | 667.79                            |
| 2. Housing Scheme for Low Income Group People    | 676                        | 1,300                               | 100.83                            |
| 3. Housing Scheme for Middle Income Group People | 210                        | 160                                 | 46.97                             |
| 4. Land Acquisition and Development Scheme ..    | —                          | —                                   | 24.81                             |
| 5. E.S.I. Scheme                                 | —                          | —                                   | 110.00                            |
|                                                  | 18,336                     | 3,896                               | 950.40                            |

### THIRD FIVE-YEAR PLAN

During the first four years of the Third Five Year Plan, an expenditure of Rs. 180.85 crores or 76.4 per cent of the Plan outlay of Rs. 236.50 was incurred. During the year 1965-66 the Plan expenditure was expected to be about Rs. 59.72 crores. The total expenditure during the Third Plan, was therefore, likely to be over Rs. 240.56 crores, exceeding the Plan outlay by a small margin. In respect of physical achievements also the progress was generally satisfactory and in some cases, the original targets were even exceeded.

The State has framed its Annual Plan 1966-67 keeping in view the requirements in the present emergent situation. The following table shows the sectoral allocations for the Annual Plan 1966-67.

(Rs. in Crores)

| Sr. No. | Head of Development                          | Outlay for 1966-67 | Percentage to total |
|---------|----------------------------------------------|--------------------|---------------------|
| 1.      | Agricultural Programmes ..                   | 14.14              | 28.28               |
| 2.      | Co-operation and Community Development .. .. | 2.82               | 5.62                |
| 3.      | Irrigation and Power .. ..                   | 19.52              | 39.06               |
| 4.      | Industries and Mining .. ..                  | 2.51               | 5.02                |
| 5.      | Transport and Communications                 | 4.20               | 8.42                |
| 6.      | Social Services .. ..                        | 6.77               | 13.52               |
| 7.      | Miscellaneous .. ..                          | 0.04               | 0.08                |
|         | Total .. ..                                  | 50.00              | 100.00              |

High priority has been assigned to agriculture, irrigation and power programmes. Programmes in other sectors also have been framed keeping in view of the needs of the present situation.

The additional production potential target of 3.20 lakh tons oilseeds and 4 lakh bales of cotton at the end of the Third Plan have been largely achieved, bringing the total production potential to 13.95 lakh tons of oilseeds and 14.67 lakh bales of cotton at the end of the Third Plan.

The traditional methods of irrigation by open wells received considerable attention during the Third Plan. As against the original target of construction of 35,480 new wells and repairs to 7,200 old wells about 50,600 new wells have been constructed and 9,500 old wells repaired during the Third Plan. The target of supplying 25,000 pumping sets envisaged in the Third Plan has been exceeded by about 14,500. A large number of tubewells has been constructed by the end of the Third Plan. Till February, 1966, 186 tubewells have been electrified including 155 tubewells electrified prior to the Third Plan. The total minor irrigation potential created by the end of the Third Plan is 29.41 lakh acres. The total irrigation potential created from major and medium irrigation projects by the end of the Third Plan comes to 12.10 lakh acres.

The entire rural population of the State has been covered under the Community Development programme

since October, 1963. The co-operative movement too has made rapid strides. The Co-operatives will have covered about 53 per cent of the agricultural population and about 38 per cent of the rural population. The short term and medium term finance which was Rs. 23.59 crores at the end of the Second Plan was expected to have risen to about Rs. 40 crores by the end of the Third Plan.

The total installed capacity at the end of the Third Plan was about 618 M.W. and the total number of towns and villages electrified was 1,765.

Gujarat is one of the most important industrially developed States in the country. According to the provisional results of the 'Annual Survey' of Industries (1953) Gujarat contributes 9.7 per cent in the total number of large scale factories, 9.2 per cent in employment, 7.9 per cent in the value of output and 9.2 per cent in employment, 7.9 per cent in the productive capital employed, 8.5 per cent in the value of output and and 9.2 per cent in net value added by manufacture in the large scale sector in the country. A recent event of great national significance is commissioning of the three million-ton of oil refinery at Koyali. Another important project on which considerable work has been done is the Gujarat State Fertilizer Factory. A good institutional framework exists already in the Gujarat Financial Corporation, Gujarat Industrial Development Corporation, the Small Industries Corporation.

Nationalisation of passenger road transport services in the State has been almost completed by the end of the Third Plan. The traffic at intermediate and minor ports in the State has increased from 23.46 lakh tonnes in 1960-61 to about 32 lakh tonnes at the end of the Third Plan.

Under Education, percentage of school going children in the age-group 6-11 increased to 91.56 per cent at the end of the Third Plan against the target of 80 per cent.

The total number of beds in Government Hospitals etc., has been brought to 9,500.

There are 18 Craftsmen training institutes with intake capacity of about 4,200.

The Employees' State Insurance Scheme has been implemented in Ahmedabad from 4th October, 1964.

### FOURTH PLAN\*

A total outlay of Rs. 446 crores was approved by the Planning Commission for the State's Fourth Five-Year Plan. The outlay represents an increase of about 90 per cent over that of the Third Five Year Plan.

The Plan lays special emphasis on agricultural programmes and irrigation and power projects. For agricultural programmes, including cooperation and community development, an allocation of Rs. 86 crores has been made. For irrigation Rs. 90 crores have been allocated and for power about Rs. 113 crores. This includes adequate provision for electrification of wells.

It is proposed to complete the Ukai project during the Fourth Plan for which adequate provision has been made. For the Dhuvaran—stage II power project, to be completed by 1969-70, there will be provision of Rs. 35 crores. These and other power projects will raise the total installed capacity of electric power in the State from the present 600 mw. to over 1,200 mw. by the end of the Plan.

A provision of Rs. 9 crores has been made for a fertilizer factory, and of Rs. 20 crores for the construction of the new capital at Gandhinagar.

\* At the end of the Fourth Plan, 21.8 per cent of towns and villages will be electrified, raising the total number to 4,096.

## AHMEDABAD DISTRICT\*

*Headquarters* : Ahmedabad. (Provisional Capital of Gujarat).

*Talukas or Mahals* : Deskroi, Dhandhuka, Dholkal, Dehgam, Viramgam, City Taluka Sanand.

A district in Gujarat, it lies between North Latitude 28° 23' and 23° 37' and East Longitude 71° 21' and 70° 28'. It is bounded on the north by Mehsana and Sabarkantha Districts, on the west by Surendranagar District, on the south by Bhavnagar District and on the east by Kaira. The total area of the District is 3,461 sq. miles. The language spoken is Gujarati.

In the extreme south of the District and also just beyond the northern boundary are a few rocky hills. But between these two points the whole District forms a level plain gradually rising towards the north and east. The chief physical feature is the river Sabarmati which rises in the north-east, near the extremity of the Aravali Range and flows towards the south-west falling finally into the Gulf of Cambay.

The District as a whole is open and poorly wooded. The chief trees are mango, rayan, mahua and nim. Many of the trees and shrubs supply food, medicines and material for dyeing and tanning.

The rainfall varies but slightly between the central portions of the District and the outlying tracts. The annual rainfall averages about 30 inches.

The Chief food crops are wheat, jowar and bajra and the chief money crop, cotton. The best rice is grown in Daskroi and the next best in Sanand and Dholka.

Ahmedabad city which is the second biggest textile centre in India is the only large industrial area in the District. The number of textile mills and factories is about 150 including about 72 textile mills. Ahmedabad is also a centre of railway communications. Ahmedabad has also a number of archaeological landmarks and an international diversionary airport.

The population of Ahmedabad City according to the 1961 census is 11·5 lakhs.

### AHMEDABAD MUNICIPAL CORPORATION

*Mayor* : Dr. Somabhai C. Desai.

*Dy. Mayor* : Dr. Vasudeo Natvarlal Tripathi.

#### ADMINISTRATIVE PERSONNEL

*Municipal Commissioner* : H. K. L. Capoor, I.A.S.

*Deputy Municipal Commissioners* : A. S. Thakore, N. H. Thacker, M.Com., LL.M. and M. A. Panchal.

*Municipal Secretary* : N. M. Desai.

#### BUDGET 1965-66.

*Revenue Receipt* : Rs. 6,53,39,584 ; *Expenditure* : Rs. 7,56,22,294 ; *Outlay on works* : Rs. 6,77,99,154.

### GUJARAT UNIVERSITY

(Ahmedabad 9.)

Estd. 1950.

(Total Affiliated Colleges : 115)

*Chancellor*.—Nityanand Kanungo.

*Vice-Chancellor*.—U. J. Joshi, M.A.

*Registrar*.—K. C. Parikh.

#### BUDGET—1965-66

*Income* : Rs. 57,62,720 (Recurring), Rs. 17,92,886 (Non-recurring).

*Expenditure* : Rs. 68,35,150 (Recurring), Rs. 19,42,500 (Non-recurring).

Total number of students on the rolls of the colleges and recognised institutions (1963-64) : 49,291.

Number of External students registered (1963-64) : 5,933.

## AMRELI DISTRICT\*

*Headquarters* : Amreli.

*Talukas and Mahals* : Amreli, Kodinar, Dhari, Khambha, Jafrabad, Rajula, Lilia, Lathi, Kunkavav, Vadia, Babra.

The area of Amreli District is 1,545 square miles.

The District is level country broken only by Gir Hills in the Dhari Taluka. The average yearly rainfall is between 23 to 25 inches.

The Okha Port in Amreli District is one of the best deep sea ports in India. In Okhamandal Taluka, Port Okha, Mithapur and Dwarka have become industrial centres.

## BANASKANTHA DISTRICT\*

*Headquarters* : Palanpur.

*Talukas and Mahals* : Palanpur, Deesa, Dhanera, Vadgam, Tharad, Wav, Deodar, Kankerj, Danta, Radhanpur, Shanthapur.

The area of the District is 4,037 square miles.

\* See article on "Population" for population figures.

## BARODA DISTRICT\*

*Headquarters* : Baroda.

*Talukas and Mahals* :—Baroda, Savli, Waghodia, Padra, Karjan, Sinor, Dabhoi, Sankheda, Naswadi, Chhota-Udepur, Jabugam, Tilakwada.

The area of the District is 2,961 sq. miles.

Geological experts of the Oil and Natural Gas Commission of the Govt. of India are prospecting for oil in Baroda. Oil and Natural gas workshop has been located at Baroda at a cost of Rs. 2 crores. Gujarat Refinery with a capacity of 3 million tons is being set up in this District. Second unit of a million tons capacity is expected to start production shortly. At present 3,300 tons of oil is sent to Bombay Refineries daily.

Ankleshvar gas will be made available to Baroda industries and domestic consumption soon.

Third Unit of the Refinery (of a million tons) is expected to be ready by the end of 1967.

A Fertilizer Factory is being set up, and Petrochemical industries will follow suit.

The District as a whole has not less than 1,635 primary schools, 135 secondary schools, 800 libraries, 300 gymnasiums and welfare associations.

The annual rainfall averages about 30 inches. The chief food crops are wheat, jowar, bajra, pulses, kodra, bawta,

maize. Rice is now grown extensively interspaced with cotton.

Baroda, the headquarters of the District is fully modernised. The District is also well advanced in industry. In recent years a number of factories, big and small have sprung up. It is also the Headquarters of Oil & Natural Gas Commission Establishment in Gujarat.

Among the large medical institutions the most important is the Shri Sayajirao State General Hospital in Baroda city. There is also the Shri Jamnaba Hospital run by the Government. A new Hospital at a cost of Rs. one crore is under construction. Shri Padmavatibai Tuberculosis Hospital and Sanatorium is located some 8 miles from Baroda city.

MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA

Baroda 2.

*Budget for the year 1966-67 :*

*Income* : Rs. 88,07,656 including Government of Gujarat grant of Rs. 35,39,800. *Expenditure* : Rs. 1,04,73,480.

*Chancellor*, His Highness Shrimant Fatesinh Gaekwad, Maharaja of Baroda.

*Vice-Chancellor*, Dr. C. S. Patel.

*Pro-Vice-Chancellor*, Prof. P. J. Madan.

*Registrar*, B. K. Zutshi.

## BHAVNAGAR DISTRICT\*

*Area* : 4,652 sq. miles.

*Headquarters* : Bhavnagar.

*Talukas* : Bhavnagar, Botad, Gadhada, Kundla, Mahuva, Palitana, Sihor, Talaja, Datha, Umralla, Vallabhipur, Gariadhar, Gogho.

The port of Bhavnagar is well-equipped, and it is one of the main trading centres of the area.

The main crops are bajra, jawar, oilseeds, rice, cotton and wheat.

## BROACH DISTRICT\*

*Headquarters* : Broach. *Sub-Division* : Rajpipla.

*Talukas and Mahals* : Broach, Vagra, Amod, Jambusar, Ankleshwar, Hansot, Nandod, Jhaghadia, Valia, Dediapada, Sagbara.

The area of the District is 2,986 sq. miles. The language spoken is Gujarati.

## BULSAR DISTRICT

*Population* : 1,042,561. *Headquarters* : Bulsar, Bulsar City (35,063).

*Talukas* : Navsari (225,720); Chikhli (139,986); Bansda (92,352); Bulsar (169,899); Dharampur (152,669); Pardi (130,898); and Umbergaon (95,973).

*Mahals* : Gandevi Mahal (130,304).

The offices of the Collector, the District Panchayat and allied bodies, the DSP, Employment Exchange, the District Information Office, the Sales Tax, the District Treasury and other District level offices have been located at Bulsar. However, in view of the importance attached

to Navsari Town, Offices of the District Judge, Civil Surgeon, Executive Engineer, District Inspector of Land Records, etc. and local offices will continue as before at Navsari.

Bulsar is a "BAGAYAT" district famous for its fruit gardens especially as "Mango" producing centre. Its importance has increased due to the establishment of Atul Products at the foot of the Parnera Hills, near Bulsar. On the other side of the Town is situated 'Tithal' on seashore a place for Holiday Home. The new district can also boast of having one sugar factory at Gandevi.

\* See article on "Population" for population figures.

## DANGS DISTRICT\*

*Headquarters* : Ahwa.

*Taluka* : Dangs.

Dangs District lies between north latitude 20° 33' and 21° 3', east longitude 73° 28' and 73° 57'. The area is 689 square miles. The rail terminus for the District is Waghai on the Billimora-Waghai line on the Western Railway

and is 171 miles from Bombay.

The language spoken by the Dangis is called Dangi.

The District contains some of the richest forests in Gujarat State, which form the principal source of revenue. Dangs teak is considered as one of the best varieties of Indian teak.

## JAMNAGAR DISTRICT\*

*Area* : 3,944 sq. miles.

*Headquarters* : Jamnagar.

*Talukas* : Jamnagar, Dhrol, Kalavad, Khambalia, Jamjodhpur, Bhanvad, Jodia, Kalyanpur, Lalpur, Okhamandal.

There are seven towns and 656 villages in the District.

People live mainly on agriculture. Including both cultivated and waste land the District has an area of 21,97,674

acres. The average rainfall is 20" to 22". Potato is cultivated on a large scale in the district.

The main small industries are the manufacture of agricultural implements, brass and copper vessels, the making of baskets, the manufacture of tiles, lime, oil crushing, handlooms, salt, the keeping of poultry.

Sikka, Bedi and Rosy are the three ports of the district. Sikka is known for its cement industry.

## JUNAGADH DISTRICT\*

*Area* : 4,186 sq. miles.

*Headquarters* : Junagadh.

*Talukas and Petas* : Bhesan, Junagadh, Keshod, Kutiyana, Malia, Manavadar, Mangrol, Mendarda, Patan, Porbandar, Ranavav, Talala, Una, Vanthali, Visavadar.

Agricultural land under paddy, jawar, bajra, wheat, groundnut and cotton is 14,09,400 acres in extent.

Junagadh is well-known because of the lions in the Gir forests. This is the only place in Asia where lions are found.

Porbandar and Veraval are the two important ports in the district.

The main industries of the district consist of cement, ginning and pressing, oil, etc. New industries like soda-ash and rayon are coming up.

## KAIRA DISTRICT\*

*Headquarters* : Kaira (Revenue), Nadiad (Judicial).

*Talukas and Mahals* : Matar, Mehmedabad, Nadiad, Kapadvanj, Anand, Borsad, Thasra, Balasinor, Cambay, Petlad.

The area of the district is 2,621 square miles. The language spoken is Gujarati.

Tobacco is grown in Kaira District while at Sevalia in the Thasra, the A.C.C. has a cement factory. The Government of India have opened a tobacco research institute at Anand.

There is an Infant Food & Cheese Plant at Anand run by the Kaira Dt. Co-op. Milk Producers' Union Ltd.

SARDAR VALLABHBHAI VIDYAPEETH

Vallabh Vidyanagar, W. Rly. (Gujarat).

The Sardar Vallabhbhai Vidyapeeth has been established under Bombay† Act No. XL of 1955 as a teaching and affiliating university in a rural setting with the object of

accelerating the process of regeneration of villages by the application of modern Arts, Sciences and Technology to rural requirements.

*Constituent Colleges* : 13.

*Post-graduate Departments* : 13.

*Chancellor* : Nityanand Kanungo, Governor of Gujarat.

*Vice-Chancellor* : I. J. Patel.

*Registrar* : K. A. Amin.

† Bilingual.

## KUTCH DISTRICT\*

*Headquarters* : Bhuj.

*Talukas and Mahals* : Bhuj, Mandvi, Mundra, Anjar, Rahpar, Bhachau, Nakhatrana, Lakhpat, Abdassa, Khavda and Khadir.

The District has a land area of 16,567 sq. miles including approx. 9,000 sq. miles of Rann.

Kutch is a semi-arid region. Rainfall is very irregular and scanty. Sub-soil waters in 70 per cent of the area are saline.

*Agriculture* : There is a fair proportion of good cultivable land in Kutch, the principal crops being bajra, jawar, wheat, barley, cotton and pulses. The cultivation of groundnuts is also increasing day by day.

The whole Dist. is covered under the Community Development Programme.

Position of the road mileage at the end of the Third Five Year Plan period : Total mileage 1178 ; National Highways 47 miles, State Highways 311 miles, Major District Roads 432 miles, other District Roads 306 miles and village approach roads 82 miles.

The District is rich in gypsum, clays and limestone, and has large deposits of lignite, bauxite and ochres.

Kutchis are an enterprising and seafaring people. Over six lakhs of Kutchis are distributed in principal cities of India and over 15,000 are abroad.

The main items of export are salt, cotton, wool, castor seeds, bones, hides, skins and fish. The main items of import are foodgrains, oil seeds, cloth, condiments, etc.

*Education* : There are 39 High Schools and 686 primary schools. There are also two Basic Training colleges for primary teachers and a school for the deaf and dumb. There are 3 colleges at Bhuj, Adipur and Mandvi.

*Health* : Free Medical relief is available in the district. There are 24 hospitals, 57 dispensaries, 9 primary health Centres, one T.B. sanatorium, 3 T.B. clinics, one mental hospital, one laboratory and two eye hospitals. There are also 21 private hospitals and dispensaries.

*Transport* : 447 villages and towns are served by Road Transport Corporation on 11 different routes covering a route mileage of 3897 miles a day. The length of railway line passing through the district is 202.13 K. metres.

Kandla is a major port. Minor ports are Mandvi, Mundra, Jakhau, Lakhpat and Koteswar.

The new townships of Gandhidham and Adipur have been established near Kandla to resettle the displaced persons from West Pakistan. One Industrial Estate is also organised near Gandhidham.

## MEHSANA DISTRICT\*

*Headquarters* : Mehsana.

*Talukas and Mahals* : Patan, Chanasma, Sidhpur, Mehsana, Kheralu, Visnagar, Kalol, Vijapur, Kadi, Sami, Harij.

The area of the District is 4,324 sq. miles.

## PANCH MAHALS DISTRICT\*

*Headquarters* : Godhra.

*Talukas and Mahals* : Godhra, Dohad, Kalol, Halol, Jhalod, Deogad-Baria, Limkheda, Santrampur, Lunavada and Shehera Talukas, and Jambughoda Mahal.

The Panchmahals District lies between  $23\frac{1}{2}$  degrees and  $24\frac{1}{2}$  degrees North Latitude, and  $13\frac{1}{2}$  and  $74\frac{1}{2}$  East Longitude on the eastern frontiers of Gujarat and is divided into two sub-divisions namely Godhra Sub-Division covering Godhra, Kalol, Halol, Jambughoda, Shehera and Lunavada Talukas ; and Dohad sub-division covering Dohad, Jhalod, Santrampur, Limkheda and Devgad-Baria Talukas. The area of the district is 3486 sq. miles and the population according to 1961 census is 14,68,946. The language spoken is Gujarati. The total area of the land in the district is 2,185,774 acres.

The total area under agriculture is 14,42,666 acres yielding 421,000 tons of foodgrains including cereals, pulses, oilseeds and all edibles principally groundnuts. The acreage under different crops are : Paddy 31,842, Bajri 5,740, Jawar 2,540, Groundnuts 43,530, Wheat 10,168, Maize 72,026, and Gram 3,970. The areas covered by cash crops are Digvijaya and vijaya cotton 47,798,

CO2 12,549, Tobacco 2,861 acres. There is Hybrid maize breeding research centre in 25 acres at Vavdi-Bijarag on the outskirts of Godhra.

The average rainfall in the district is now only 25 inches. The lowest temperature is 40 degrees F. heat and highest 115 degrees F. heat.

The District has a forest area of 515,848 acres. The forests yield teak-wood, and hard-wood such as Mahuda, Sadad, Kher and Dhavda. The forests also produce Mahuda flowers, hay-fodder, timru leaves for bidi manufacture, and bamboos.

The irrigation projects in the District are Pata-Dungri Dam south of Dohad, Suki Dam north of Dohad in Jhalod Taluka, Titodi Dam south of Jhalod, and Karad Right Bank Dam in Devgad-Baria Taluka, and Tanachhida Irrigation project 15 miles from Dohad.

Agriculture, Mining and Forest produce are the main industries in the district which contains rich mineral deposits such as manganese ore, galena, copper, limestone. There are big manganese mines worked at Shivrajpur, Pani Mines and Bamankuwa.

\* See article on "Population" for population figures.

## COMMUNICATIONS

Bombay Delhi Broad-gauge main line of Western Railway passes through Panchmahals district. Gujarat State Road Transport Corporation also runs various bus services and operates numerous routes in the district.

Pavagadh Hill station about 2,600 feet in height is situated in Halol taluka about 22 miles from Godhra. It is also a pilgrim centre.

The famous Bhadrakali temple of goddess is on the peak of the Hill and there are ancient monuments preserved by Archaeological Department of the Central Government.

## RAJKOT DISTRICT\*

*Area* : 4,588 sq. miles.

*Headquarters* : Rajkot.

*Talukas* : Rajkot ; Jasdan ; Babra ; Morvi ; Wankaner ; Gondal ; Jetpur ; Dhoraji ; Kandorna ; Kotda-Sangani ; Lodhika ; Maliya Padadhari, Upleta.

Rajkot District has four sub-divisions, nine talukas, five mahals and one peta mahal.

The area of the land under cultivation is about 21,38,678 acres. The main industries of Rajkot District consist of textiles, hosiery, handlooms, the production of hydro-generated oils, potteries, salt-making, engineering, etc.

## SABARKANTHA DISTRICT\*

*Headquarters* : Himatnagar.

*Talukas and Mahals* : Himatnagar, Prantij, Modasa, Bayad, Idar, Khedbrahma, Bhiloda, Meghraj, Vijaynagar, Malpur.

The area of Sabarkantha is about 2,843 sq. miles.

The average yearly rainfall is between 25 and 30 inches.

The principal crops are bajri, maize, paddy, jawar, cotton, wheat, sesamum and groundnut. About 30 per cent of the people consist of Bhils and other backward classes. The main occupation of the people is agriculture. Except for a few ginning factories and oil mills, the District is very backward in industry.

## SURAT DISTRICT

*Headquarters* : Surat.

*Population* : About 1,427,019. Headquarters at Surat (Surat City) (288,167).

*Talukas* : Olpad (79,444) ; Chorasi (455,303) ; Mangrol (95,367) ; Kamrel (62,822) ; Mandvi (93,805) ; Bardoli (90,608) ; Songadh (76,870) ; Vyara (119,100) and Mahuva (65,533).

*Mahals* : Palsana (41,807) ; Valod (42,828) ; Uchhal (31,535) and Nizar (58,801).

Besides being noteworthy historically, Surat is the biggest jari production as well as artsilk powerloom centre. Nearly half the population of the city depends on handicrafts. Jari work, laces, silk and jari brocades, embroidery, ivory sand sandalwood carving, inlay work of varakh-nakashi and ivory bangles are the major handicrafts for which Surat is famous not only throughout India but even abroad. A co-operative industrial estate which has developed at Udhna, three miles from Surat, is stated to be the biggest industrial estate of its type in the country. There is one sugar factory at Bardoli.

## SURENDRANAGAR DISTRICT\*

*Area* : 4,006 sq. miles.

*Headquarters* : Surendranagar.

*Tahsils* :—Wadhwan (Wadhwan); Chotila (Chotila); Mull (Mull); Dhrangadra (Dhrangadra); Halvad (Halvad); Dasda (Dasda); Limbdi (Limbdi); Lakhtar (Lakhtar); Sayla (Sayla).

There are about 12 towns with a population of over 5,000 and 672 villages.

About 70 per cent of the population lives in the rural areas. The main occupation of the people is agriculture, and the important crops are bajra, jawar, cotton, paddy, groundnut, wheat and gram.

The main industries of the district consist of textiles, salt, soda-ash, potteries, ginning and pressing factories.

\* See article on "Population" for population figures.

## KURUKSHETRA UNIVERSITY

Kurukshetra.

*Estd.* : 1956. It is a teaching-cum-residential University for the encouragement of higher education and research especially in Sanskrit, Prakrits and modern Indian languages as also in Indian Philosophy and ancient Indian History and other aspects of Indology.

*Chancellor* : Governor, Punjab State ; *Registrar* : Vikas Mishra ; *Vice-Chancellor* : D. C. Verma.

*Number of Constituent Colleges* : Three ; *Number of Recognised Colleges* : Two.

## Budget Estimates for 1965-66

*Total Income* : Rs. 70,97,270 ; *Total Expenditure* : Rs. 78,20,660.

## HARYANA\*

**H**ARYANA came into being on Tuesday the 1st of November 1966, as the 17th and smallest State in the Indian Union, as a result of the reorganisation of the composite Punjab State into Haryana and Punjab.

Haryana, fragmented by the British a century ago, has an area of 44,000 square kilometres. It will have an annual budget of approximately Rs. 63 crores. It will have only one division, seven small districts, 27 tehsils, 62 towns and about 7,000 villages. It is essentially a rural State with a population of 7,527,000 of which only 1,300,000 are in urban areas.

*Districts :* Ambala, Karnal, Rohtak, Gurgaon, Mohindergarh, Hissar & Jind.

Its Legislative Assembly consists of only 54 members. Its strength will be raised to 81 after the general election. It will be represented by five members in the Rajya Sabha and by nine in the Lok Sabha.

The region is situated away from the three perennial rivers the Ravi, the Beas and the Sutlej. The Ghaggar, which is not perennial, touches only the northern parts of the area and the Yamuna forms its boundary with Uttar Pradesh on the eastern side.

Rainfall is comparatively low and erratic, soil is sandy and light in texture, and above all, there is paucity of sub-soil water and in a large number of tracts it is brackish.

There are no mineral resources except in Mohindergarh. The area is frequently visited either by heavy floods or by serious drought.

### ECONOMY

The striking increase in farm output, especially sugarcane and cotton, has given a fillip to the agro-based industries. Of the 11 cotton textile mills in the Punjab, six are working at Bhiwani, Hissar, Faridabad and Rohtak. Four more textile mills are under completion in Haryana. Two sugar factories at Rohtak and Panipat were added to the existing one at Yamunanagar. All the three paper mills and two cement factories are located in Haryana.

The other important units are a shoe factory, five large-scale cycle assembling and cycle components units and eight rerolling mills, besides more than 2,000 units engaged in the manufacture of agricultural implements, machine tools, electric goods and bolts and nuts.

After the reorganisation, Haryana will be left with 162 large and medium-scale factories and 4,718 small-scale units,

Agricultural productivity has recorded a sizable increase.

The region has rich historical and cultural traditions. Here, the Vedic culture developed and spread. Some of the most decisive battles of Indian history were fought here. Even today the sturdy Jat of Haryana is known as one of world's best soldiers.

The per capita income in Haryana is Rs. 339. Only 32.74 per cent of cultivated area is irrigated. Only food crops are grown. Thirty-six per cent of the towns and villages is electrified. There are 73 large and medium factories, and 4,133 small industrial units.

The Fourth Plan outlay has been fixed for the State at Rs. 169 crores.

(Note: Kurukshetra University is given on the facing page.)

## HIMACHAL PRADESH\*

**C**APITAL: Simla. Area: 28,241 sq. Km.; Population: 1.34 million (1961 census); Strength of Vidhan Sabha 43. Density of population: 370; Sex ratio: 946 females to 1,000 males. Literacy: 17.1 per cent.

Himachal Pradesh lies between North Latitude 30° 22' 40" to 33° 12' 40" and East Longitude 75° 47' 55" and 97° 4' 20". It is bounded on the north by the Jammu and Kashmir State, on the south by Tehri-Garhwal and Dehra Dun Districts of Uttar Pradesh and the Ambala District of Punjab; on the west by Ambala, Hoshiarpur and Kangra and on the east by Tibet.

The Territory of Himachal Pradesh is divided into seven districts, viz.: Kinnaur, Simla, Sirmur, Bilaspur, Kangra, Lahaul-Spiti and Mandi.

### ECONOMY

The main agricultural wealth of the Territory consists of fruits such as apple, apricot, peach and vegetables like seed potato, ginger, tomato, peas etc.

The climatic conditions of the Pradesh are suitable for the growing of a large variety of fruits including citrus, and dry fruits. Apples and pears are grown in the cooler regions. The superior varieties of apples which were restricted to Kotgarh and Kothaj are now being grown extensively in other parts of the Pradesh ranging between five thousand to eight thousand feet above sea level. With the new orchards rapidly coming up, the production of fruit increased considerably during the 3rd Five Year Plan.

Salt is another important item; while forests yield timber, fire-wood and charcoal. Handicrafts which include

Pashmina shawls, wool of fine quality, resin, herbs and skins are another source of income.

Himachal Pradesh forests supply the largest quantities of coniferous timber in Northern India. They are the main source of revenue in the territory, the estimated revenue during 1966-67 being Rs. 4.12 crores including revenue from the sale of resin and turpentine. The entire Territory is divided into four forest circles which are further subdivided into 16 territorial divisions. Besides, a Forest Utilization Division has been created to develop the resources of the Territory. Bilaspur Circle has been created under the Soil Conservation Scheme.

Seed potato is the chief cash crop in which the Territory has established itself as an important supplier to the plains of India. In 1965-66 alone, 2,58,960 quintals of seed potatoes were sold to other parts of India. The total acreage under potatoes, which was about 18,000 in 1950-51, stood at 31,000 in 1965-66.

One of the oldest foundries of the country is located at Nahan besides a resin and turpentine factory.

Under the Rs. 27.93 crore Third Plan, roads and transport had been given top priority with 34.08 per cent of the entire allotment earmarked for their development. Agriculture, horticulture, minor irrigation, forests, animal husbandry etc. had been allotted 23.16 per cent of the allocation while social services (Education, Medical Welfare, Housing etc.) got 22.63 per cent. Rs. 1.11 crores had been earmarked for expansion of industrial undertakings. Himachal Pradesh was able to utilise about Rs. 33.75 crores during the Third Plan. Fourth Plan.†

\* See article on "Population" for Population figures and area. Commission for the Fourth Plan. See under main article *Fourth Five Year Plan* for more details.

† A total outlay of Rs. 94.38 crores has been approved by the Planning Commission for the Fourth Plan.

**Power**—The Department of Multipurpose Projects & Power started functioning in April, 1964 to investigate the vast hydroelectric potential of H.P. Besides this, the Department is also required to deal with problems connected with soil conservation and flood control.

### REORGANISATION

Himachal Pradesh clearly gained most from the reorganisation of Punjab, which took place with effect from

November 1, 1966. The merger of Punjab's hill areas has more than doubled Himachal's size and added considerably to its forest and mineral wealth. All five rivers—the Chenab, the Ravi, the Beas, the Sutlej and the Yamuna—flow through the Territory. It is estimated that the Government can have an annual income of Rs. 200 crores once Himachal's vast forest, hydel and mineral resources are fully exploited. Simla has now been elevated from the position of headquarters of a Punjab district to that of capital of new Himachal Pradesh.

## JAMMU AND KASHMIR STATE

**CAPITAL:** Srinagar. Area: 2,22,800 sq. kms.; Population 35.61 lakhs (1961 census).

Official language: Urdu; Regional languages: Kashmiri, Dogri, Balti, Punjabi, Pahari, Ladakhi. There are three municipalities, six town area committees and 28 notified area committees in the State.

The State has a Legislative Assembly (100 including 25 for occupied areas) and a Legislative Council (36).

For administrative purposes, the State is divided into two provinces: Kashmir (including the Frontier District of Ladakh) and Jammu.

Names of Districts are given under "Population".

The Jammu and Kashmir State constituting the extreme western section of the Himalayas, lies between 32°17' and 36°58' north latitude, and 73°26' and 80°30' east longitude.

The rainfall in the State varies from 30 to 60 inches a year except in Ladakh District where it is four inches. In Kashmir Valley, the annual rainfall varies from 30 to 35 inches.

About 16.7 per cent of the total population is urban. There are 2 cities, 41 towns and 6,971 villages in the whole State.

A low level tunnel called the Jawahar Tunnel constructed at a cost of Rs. three crores provides an all-weather link between Kashmir Valley and the outside world.

Jammu and Kashmir, as an integral part of the country, is now firmly set on the road to development, ushering in an era of progress and prosperity.

### AGRICULTURE

Agriculture is the main occupation of the people. Total area under cultivation is 17.03 lakh acres out of which 7.10 lakh acres receive irrigation and 9.93 lakh acres are rainfed. The average size of the holding for a rural family of five members is 2.86 acres. The main crops grown are rice and maize in temperate regions and wheat and maize in sub-tropical regions.

During 1964-65, 20,251 mds. of foundation seeds of improved varieties were distributed as classified below: paddy 6,986 mds.; wheat 11,322 mds.; maize 1,943 mds. Likewise in 1965-66, 2,47,000 mds. of fertilizer for intensive development of agriculture was also distributed to the farmers.

#### Irrigation:

The total provision under the Third Plan for irrigation works was as under:

|                           |    |                  |
|---------------------------|----|------------------|
| Medium Irrigation Schemes | .. | Rs. 243.93 lakhs |
| Minor Irrigation Schemes  | .. | Rs. 123.09 lakhs |
| Total                     | .. | Rs. 367.02 lakhs |

### INDUSTRIAL DEVELOPMENT

A number of important steps have been taken to promote development of industries in the State. Several boards (such as the Industrial Development Board, Small-Scale Industries Advisory Board and the Industrial Planning Board) have been set up to accelerate the process of Industrial development.

The Financial Corporation has been set up to finance enterprises in the State.

As many as 20 Industrial Estates have been established in important towns to provide suitable accommodation, water and power supply to the prospective entrepreneurs. About 80 units have so far come up in these Estates and more are being set up. A State Board for Khadi and Village industries has been re-constituted which is assisting 80 societies and various individuals, providing employment to over 2,000 persons.

A scheme for the revival of Kani Shawls and training facility centres for carpet industry, carpentry and various other lines of handicrafts and handlooms have been set up.

#### Power Generation:

The total installed generation capacity in the State on the eve of independence was only 4.00 MWS and in 1965-66 it rose to 36.52 MWS. The generating capacity at Ganderbal and Mohara Power Stations has been augmented by 9,000 and 6,000 KWS respectively. The lower Jhelum project will have an installed capacity of 64 MWS in the first phase and 112 MWS in the final stage.

The Hydro-electric Station at Bhaderwah was commissioned during the year 1964-65 providing power to Udhampur and Doda Towns.

The Hydro Electric Project at Chenani stands approved for the generation of 23.3 MWS at an estimated cost of Rs. 648 lakhs to meet the power shortage in Jammu Province. Work on the project is in progress and the power plan is scheduled to be completed by 1969-70.

#### Tourism:

Greater attention was devoted to the development of Srinagar, Pahalgam, Gulmarg and Kokernag from the point of view of tourism.

Places of pilgrimages, such as Shri Vaishnodeviji in Jammu and Shri Amarnathji in Kashmir, being very popular among Indian tourists, have been made accessible as far as possible. Other places of pilgrimage like Samadhi Baba Jitto, Jhiri, Sukrala Devi, Purmandal and Martand have also been made easy of reach to the tourist-cum-pilgrim. Accommodation facilities have also been provided at these spots as in other places of pilgrimage. During 1966-67, Kashmir State plans to spend Rs. 34 lakhs on the expansion of tourist facilities.

## EDUCATION

Education is free from primary to post-graduate standard. A special feature of the educational programme has been the opening of more elementary schools in order to universalise education in the State. In the State there were 5,268 primary schools, 977 middle, 366 high and higher secondary schools in Aug. 1966. A number of existing secondary schools have been converted into Higher Secondary Schools. Teaching of science has been introduced in a large number of High Schools especially in rural areas.

Apart from three aided institutions, the number of colleges in the State is 16.

Two Post-graduate Teachers' Training Colleges were established, one each at Srinagar and Jammu. As many as 200 graduates are being trained annually in those institutions. During the Third Plan period 10 training schools for teachers have been established in the State.

A provision of Rs. 15 lakhs was made in 1965-66 for promotion of social education in the State and 943 social education centres were opened. There was also a provision of Rs. 25.67 lakhs for promotion of N.C.C., sports, scouting, etc. The strength of the N.C.C. in the State at present is 19,310 Cadets.

An outlay of Rs. 145 lakhs was provided in the 3rd Five Year Plan for technical education. There are at present one polytechnic, each at Jammu and Srinagar, one Regional Engineering College, one Medical College and seven Industrial Training Institutions.

## ROAD

At the end of the Third Five Year Plan the mileage of roads in the State was 3,427 including 1,190 miles of bridle paths and jeepable roads.

## PUBLIC HEALTH

The per capita expenditure on public health has gone up from 47 paise in 1947 to Rs. 4.80 at present. The budget provision for public health in 1965-66 was Rs. 272 lakhs.

There are 20 hospitals in the State excluding military hospitals. The total bed-strength in the hospitals at present is 3,814 as against 600 in 1947.

The number of dispensaries and primary health centres has risen to 600 in 1965-66 as against 87 in 1947-48. The district hospitals have adequate arrangements for anti-rabies, pathological, gynaecological, surgical, laboratory and dental treatment. The number of Family Planning centres as on Aug. 1966 was 15.

## CO-OPERATIVES

Over 38 per cent of the rural population in the State are covered by the Agricultural Credit Co-operative Societies. These co-operatives cover as many as 6,559 villages and 5,92,400 rural families.

Besides, the agricultural credit and consumer co-operatives, various other co-operatives, such as Fishermen Co-operative Society, Transport Co-operatives, Milk Supply Society, Industrial Co-operatives etc., have sprung up in recent years to help in the co-operative endeavour.

At present there are 906 Agricultural Credit Co-operatives in the State engaged in dispensing short and medium-term credit, supply of fertilizers and basic consumer goods and marketing of food-grains and fruits including walnuts. The membership of these Societies is about 2.56 lakhs.

There are three Central Co-operative Banks and one State Co-operative Bank in the State for financing the Co-operatives of various types.

In the Industrial sector Co-operatives for Handlooms, Handicrafts and Oil Ghanies have been organised. They provide work to about 2,500 artisans and craftsmen. The following table shows the working and financial position of the Societies :

|                | No. of Societies | Member-ship | Value of goods produced | Value of goods sold |
|----------------|------------------|-------------|-------------------------|---------------------|
| Handicrafts .. | 18               | 766         | 7,42,572                | 7,37,257            |
| Handloom ..    | 19               | 388         | 6,07,587                | 6,44,608            |
| Oil Ghanies .. | 77               | N.A.        | N.A.                    | N.A.                |
| Others ..      | 29               | 1,756       | 23,842                  | 32,842              |

To facilitate the marketing of products of Handicrafts Co-operatives, a Federation named as Kashmir Arts Co-operatives is functioning at Srinagar which in collaboration with the Indian Co-operative Union arranges the sale of the products of its constituents within the State and outside. Likewise Marketing Federations—one for Kashmir and one for Jammu—have been organised for Handloom viz. the J & K Handloom Fabrics Co-operatives and Industrial Association respectively.

## HOUSING

Under the 3rd Plan, the scope of housing was extended to cover the Subsidized Industrial Housing Scheme, the Rural Housing Scheme, the Land Acquisition and Development Scheme and the Middle-Income Group Housing Scheme.

Under the Low Income Group Housing Scheme, the physical achievements were 1,128 houses against the target of 1,000.

## FIVE YEAR PLANS

The total investment of the first three Five Year Plans has been of the order of about Rs. 112 crores which includes the total outlay of Rs. 75 crores of the 3rd plan. The size of the Fourth Plan has been fixed at Rs. 128 crores against an outlay of Rs. 164 crores proposed by the State.

## CONSTITUTION

A Constitution was finally approved and adopted unanimously on November 17, 1956. It came into effect on January 26, 1957.

The Constitution declares the State of Jammu and Kashmir to be "an integral part of the Union of India." This is irrevocable. Section 147 of the Constitution lays down that no amendment seeking a change in this can be moved in either House of the legislature.

With the adoption of the Constitution, the State has come much closer to the rest of the country. Having entered into financial arrangements with the Union Government in 1957, the State is on par with other States in respect of financial matters including proportionate allocation of funds from the Centre. The development schemes and projects under the Five Year Plans are being approved by the Planning Commission and expenditure on them is sanctioned on the recommendation of the Commission. Every major project is examined by various Central agencies like the Central Water and Power Commission and Working groups of Central Ministries and the Planning Commission to ascertain their technical and economic feasibility.

A State cadre of IAS and IPS officers has been created. This has brought about the integration of services ensuring the sharing and pooling of experience and talent. The State's participation in the Northern Zonal Council has widened the area of co-operation with other States leading to greater exchange of experience, technical know-how and pooling of administrative and other resources in various fields of development. The Accounts and Audit department of the State is now under the Auditor-General of India.

In 1959, the State Assembly unanimously decided to seek amendment of the State's Constitution to provide for the extension of the jurisdiction of the Election Commission and the Supreme Court over Jammu and Kashmir. The recommendations of the State Legislature have been incorporated in the Indian Constitution through a Presidential Order issued on January 26, 1960.

An Act passed by the Legislative Assembly of the State authorises the Government to permit those non-State subjects to purchase land and other immovable property in Jammu and Kashmir who intend to set up industries in the State. The Government of Jammu and Kashmir have also entered into agreement with some Indian firms to establish industrial enterprises in the State. There is no ban now on the investment of outside capital in Jammu and Kashmir. In addition to the Constitutional and economic integration, the Government of Jammu and Kashmir is also endeavouring to foster cultural and literary synthesis between Kashmir and the rest of the country.

#### JAMMU AND KASHMIR STATE FINANCIAL CORPORATION

(See "State Corporations.")

## KERALA

**CAPITAL:** Trivandrum. Area: 15,002 sq. miles. Coastal line: 360 miles. Total population: 16,903,715 (1961 census). Density of population (1961): 1,127. Sex ratio: 1,022 females per 1,000 males. Literacy per 1,000: 468.

Figures for March 31, 1961: Number of districts 9; taluks 55; villages 1,635; municipal towns 27; corporations 2; panchayats 922.

Names of Districts with names of District Headquarters within brackets: Trivandrum (Trivandrum); Quilon (Quilon); Kottayam (Kottayam); Alleppey (Alleppey); Trichur (Trichur); Cannanore (Cannanore); Kozhikode (Kozhikode); Palghat (Palghat); Ernakulam (Ernakulam).

For population of districts according to the 1961 census, see "Population."

**Geography:** The climate of the whole region is generally temperate and the rainfall heavy. Languages spoken in the State are Malayalam, Tamil and Kannada.

#### INDUSTRIES

**Important industries of the State:** Coir, textiles, tea, rubber, manufacture of bricks and tiles, cashew nut processing, printing, saw milling including plywoods and manufacture of splints and veneers for matches, rice milling, handloom, handicrafts and extraction of oils.

#### THE UNIVERSITY OF JAMMU AND KASHMIR

*Chancellor:* Dr. Karan Singh Ji, Governor.

*Pro-Chancellor:* G. M. Sadiq, Chief Minister.

*Vice-Chancellor:* T. M. Advani.

*Registrar:* Abdul Aziz.

Number of affiliated colleges and oriental institutions: 34.

Number of students who appeared for the previous examinations in 1962-63: Men 19,216; Women 5,397.

*Budget for 1963-64:*

Actual Income: Rs. 18,84,299; Actual Expenditure: Rs. 28,67,037.93; State Govt. grant: Rs. 3,00,000.00; Central Govt. grant and U. G. C. grant: Rs. 8,65,789.60.

The medium of instruction is English except in classical and modern Indian language classes, where the medium of instruction is the language concerned or an allied language.

#### ASSOCIATIONS

JAMMU & KASHMIR PRADESH YOUTH CONGRESS  
Lall Chowk, Srinagar.

BEOPAR MANDAL  
Sri Runbir Gunj, Srinagar 2.

KASHMIR CHAMBER OF COMMERCE & INDUSTRY  
Residency Road, Srinagar.

*President:* S. K. Kaul; *Vice-President:* R. K. Sawhney;  
*Secretary-General:* P. N. Puri; *Jt. Secretary-General:* Mohamed Shafi; *Treasurer:* D. S. Oberoi.

**Main large-scale industries of State:** Rubber, plywood, fertilisers and chemicals, rayons, glass, paper, aluminium, sugar, cement, textiles, titanium dioxide, soaps, shark liver oil, ceramics, rare earths and engineering cables, penstock, wire ropes, heavy transformers, spinning mills, D.D.T., machine tools & Petroleum products.

**Chief products of the large-scale industries of the State:** Chemicals, ammonium sulphate, ammonium chloride, ammonium phosphate, superphosphate, sulphuric acid, ammonia, caustic soda, chlorine, calcium carbide, copper sulphate, titanium dioxide, rare earth salts, cycle rims, crockery and sanitary wares, electric porcelain, fire bricks, china clay, rayon grade pulp, sugar, etc.

**Miscellaneous:** Aluminium ingots, glassware, cement, rayon, transparent paper, vegetable oils and soaps, vanaspati, alcohol, pharmaceuticals, galenicals, plywood, ceramicware, rubber goods, paper, cotton textiles and engineering materials, agriculture implements, dyeing and printing, manufacture of jewellery, canning and preservation of fish, starch, cutlery, locks, rubberised coir products, cycle parts and sewing machines.

The Third Plan Schemes for industrial development in Kerala are under two separate sectors, viz., the Central Sector and the State Sector.

According to available information, the Central Government was to locate five public sector projects in

Kerala during the 3rd Plan period. They are : the Second Ship-building Yard at Cochin at a cost of Rs. 20 crores ; a Forme Press at Koratti ; a Precision Instrument Factory in Palghat District ; Hindustan Machine Tool Factory at Ernakulam at a cost of Rs. 7½ crores ; and Oil Refinery at Cochin, Ernakulam District, at a cost of Rs. 22.75 crores. HMT, and Cochin Refineries have gone into production. During IV Plan period, besides the Shipyard and the Precision Instruments Factory, the Cochin Fertilisers (Cochin), Hindustan Latex (Trivandrum) will be taken for implementation.

The industrial programme under State sector, entailed a total estimated outlay of Rs. 1,719.50 lakhs in the Third Plan. The break-up between different industries in Rs. lakhs is as given below : Large and Medium Industries in Public Sector 174.50 ; Large and Medium Industries in Private Sector 280.00 ; Plantation Industries 465.00 ; Handloom Industries 165.00 ; Small Scale Industries 255.00 ; Industrial Estates 125.00 ; Handicrafts 35.00 ; Coir Industry 175.00 ; Sericulture 5.00 ; Khadi and Village Industries 40.00.

Preference has been given under the public sector to the expansion and modernisation of the existing industrial units. The reorganisation and expansion of (i) the Kerala Soap Institute, Calicut, (ii) the Government Oil Factory, Calicut, (iii) the Government Ceramic Concern, Kundara, (iv) the Travancore Rubber Works, Trivandrum, (v) the Cycle Rim Factory, Trivandrum, (vi) the Government Spinning Mill, Trivandrum, and (vii) the Electrical and Allied Industries, Kundara are those included in the Plan.

Under the Private Sector, the Kerala State Industrial Development Corporation (KIDC) has been organised to help capital formation in respect of deserving enterprises. The Corporation has undertaken to offer financial and technical services to industrialists for setting up industries.

**Plantation Industry :** With a view to reducing the import of rubber, an ambitious programme for the development of rubber plantation industry has been included in the Third Plan for the State. The programme of development comprises planting by Government and individuals and encouraging distribution of loans to auction purchasers of forest lands.

A trading and export corporation will also be established for the procurement and storage of ginger.

**Village and Small Industries :** To promote the growth of industries in the rural and underdeveloped areas, a scheme of giving subsidies to small scale industrialists starting industries in such areas, has been drawn up. The Kerala State Small Industries Development Corporation have taken up works in connection with the above programmes.

**Industrial Estates :** In order to provide factory accommodation to small scale industries nine units of Small Industrial Estates costing Rs. 5 lakhs each are being constructed in or near towns having a population between 5,000 to 20,000 and also a medium Industrial Estate costing Rs. 15.00 lakhs is under construction at Umayanellore in Quilon District. Further, action has been taken to establish a Marine Industrial Estate in Ernakulam District to establish a few Small Scale units with the collaboration of the Norwegian Agency for International Development. In addition to these programmes, 25 Nos. of workshed units are being implemented in the Community Development Blocks of the State where there are village artisans employed on traditional trades. Eighteen Industrial Estates (two in each district) are in different stages of implementation in the State. Fourteen of these have been completed and the rest are reaching completion. Of these estates the one at Changanacherry is exclusively for starting rubber

and plastic based industries. More than 30 such units have been sponsored. They are expected to go into production shortly. A common facility centre with testing, training and library facilities is also organised there to cater to these industries.

A total amount of Rs. 47.29 lakhs has been set apart for development area and development plots in cities for the assignment of suitable sites to the entrepreneurs with all facilities like, water, transport, communications, etc. leaving the entrepreneurs to construct the factory sheds on their own subject to the minimum approved standards in the "development areas" covering about 450 acres at Aroor and 150 acres at Ankamaly, 450 acres in Alwaye, 109 acres in Trivandrum and 200 acres in Palghat.

**Handicrafts :** Brass and bell metal work, handloom furnishing fabrics and lace cloth, screwpine, kora grass and palmyra leaf weaving, rattan work, kuft gari, bamboo and reed weaving, Kathakali costumes manufacture, traditional folk jewellery making, Aranmula Metal Mirror making, laminated woodwork, toys and dolls making, lace and embroidery, lacquerware, ivory, horn, wood, coconut shell carvings, etc. are the important handicrafts of this State. There are about 15,000 persons employed in 3,000 establishments in these crafts. There are about 300 Handicraft Co-operatives in the State. It was proposed to organise 100 Co-operatives more during the Third Plan period and develop 30 societies on an intensive basis.

**Handloom Industries :** Total No. of looms in the State : 1,20,000 ; Total No. of looms in the Co-operative fold (Regd.) as on March 31, 1966 : 45,401 ; Total No. of looms registered outside Co-operative fold as on March 31, 1966 : 63,596 ; Total No. of societies in the State as on March 31, 1966 : 404 ; Total No. of society members as on 30th June 1966 : 270 ; Total No. of individual members as on 30th June 1966 : 52,501 ; Total paid-up share capital as in June 1966 : Rs. 43,13,000 ; working capital as in June 1966 : Rs. 1,82,46,000 ; Total production in metre on June 30, 1966 : 2,06,67,000 (valued at Rs. 2,22,66,000) ; Financial target fixed for Third Five Year Plan : Rs. 1,65,00,000. Total expenditure during Third Plan : Rs. 1,39,94,888.

**Cashew Industry :** There are about 250 cashew processing factories in India of which nearly 75 per cent are in Kerala, employing more than a lakh workers.

From paltry 50 tons in 1925 production of cashew kernels has rapidly risen to over 55,000 tons in 1963. Export during 1963 reached an all time record of 53,000 tons yielding foreign exchange to a tune of Rs. 21½ crores. Cashew-nut shell liquid also contributes to India's foreign exchange earnings to the extent of over Rs. 1 crore.

---

## SEWING & EMBROIDERY THREADS MANUFACTURERS

J. & P. COATS ( INDIA ) PRIVATE LTD.  
Koratti, Kerala ( S. India )

---

**Coir Industry :** The important items in the programme will be the organisation of primary coir co-operatives, coir marketing societies, and societies for the manufacture of mats and mattings, ropes, bristle and mattress fibre. A model coir factory has already been organised at Beypore to modernise the manufacturing side of the coir industry.

The provision for coir development for the Third Plan period was Rs. 175 lakhs.

*Sericulture* : Third Plan provided Rs. 5 lakhs for the expansion of the Sericulture Farm at Ambalavayal in Wynad area.

*Khadi and Village Industries* : The Kerala Khadi and Village Industries Board was constituted in August 1957 so as to help the villagers in organising co-operatives and to give loans and grants and other technical assistance for the development of Village and Cottage Industries such as Khadi and Ambar, village oil, hand-pounding of paddy, village pottery, non-edible oil soap, handmade paper, gur khandsari, bee-keeping, village leather, palm gur, fibre, carpentry, blacksmithy, etc. The implementation of Khadi and Village Industries schemes would provide employment to not less than 32,767 persons full time and 13,239 part time. About 820 co-operative societies have been registered for Khadi and Village Industries. To facilitate the marketing of the products of these industries a Central Marketing Society will also be organised. The total provision made during the Third Plan period was Rs. 40 lakhs.

*Chief minerals produced in the State* : The beach sands contain the much valued and strategic mineral monazite besides five others of great economic value namely ilmenite, rutile, sircon, sillimenite and garnet. The extensive white clay deposits contribute to the ceramic industry. Other minerals available are mica, graphite, limestone, quartz-sand and lignite.

Substantial white sand reserves suitable for glass manufacture have been found in some places of Alleppey and Ernakulam Districts. Deposits of Kaolin have been found in Kundara, Quilon District and several other places in the districts of Trichur and Cannanore.

### LABOUR

*Names of industries in which a minimum wage is fixed* : For the whole State : Rice mill, flour mill or dal mill, beedi making, cigar making, plantations (coffee, tea, rubber & cardamom), oil milling, local authorities (municipalities, Panchayats and Trivandrum Corporation), construction and maintenance of roads and buildings, stone breaking and crushing, public motor transport, tanneries & leather manufacture, match industry, shops and establishments including hotels and restaurants, cashew factory, tile industry, printing presses, timber industry, toddy tapping, agriculture, coir manufacture and plywood.

*Revision of minimum wages* : Agriculture (1-12-1964) ; Rice mill (1-5-1964) ; Tanneries and leather (1-12-1964) ; Tiles (1-4-1965) ; Public Motor Transport (1-2-1965).

Beedi and Cigar (1-2-1966) ; Panchayat Contingent Employees Services (1-8-1964).

Plantation (1-3-1965) ; Cashew (1-9-1964) ; Coir (24-12-1964) ; Toddy Tapping (18-4-1966).

Number of registered factories in the State as on 31st December 1964 : 2,707 ; Number of working factories which submitted the annual returns : 1,496 ; Average daily employment in the working factories submitted returns : 101,351. Total average daily employment in all the registered working factories (estimated) 1,86,147.

Number of accidents in registered factories during 1964 (including fatal cases) : 2,158.

Number of fatal accidents : 18.

Number of registered Trade Unions as on 31st March 1965 : 1,730.

### PARTICULARS OF WORKSTOPPAGES (1964)

| Industry   | By Causes             |       |       | DETAILS OF WORKSTOPPAGES |              |        |                                  |                         | RESULT                    |            |              | METHODS OF SETTLEMENT |            |              |                    |              |           |    | No. of strikes continuing from Dec. 63 to Jan. 65 | No. of strikes continued included in Col. 3 | No. of token strikes | Others |  |

**Kerala Labour and Industrial Bureau :** The Bureau will promote and co-ordinate research in labour and industrial problems, including organisational and administrative aspects. It will also foster the application of research in the development of commerce, trade and industry and for the fruitful utilisation of natural resources in the industrialisation of the State.

The Bureau has initiated an 'industry study series' intended to give wide knowledge of the problems of industrial development in general and more in particular of those concerning the economy of Kerala.

**Equipment :** Ploughs (wooden : 562,281 ; iron : 6,441) ; carts : 21,040 ; sugarcane crushers (power 175 ; bullocks 1,071) ; oil engines : 3,372 ; electric pumps : 2,565 ; tractors : 276 ; Ghoris (more than 5 seers : 2,058 ; less than 5 seers : 2,164).

### LIVESTOCK 1961

(See under main article "Livestock")

### AGRICULTURE

Of the total population 53.6 per cent depend upon agriculture, though the per capita extent of cultivated

land is only 30 per cent. The non-agricultural population is about 6.3 millions.

**Foodcrops :** Rice, jowar, ragi, other cereals and millets, tur, other pulses, sugarcane, pepper, chillies, ginger, turmeric, cardamom, betelnut, mango, citrus fruits, banana (including plantain), cashewnut, tapioca, sweet potato and onion.

Main cash crops of the State : Coconut, Arecanut, Tea, Coffee, Cardamom, Rubber, Pepper, Gingelly, Cotton, Turmeric, Sugarcane, Ginger, Lemon grass, Groundnut, Cashewnut.

### PEST CONTROL (INDIA) PRIVATE LTD.

Consulting Entomologists—Termite Control  
Disinfestation—Fumigation Service.

Address : XXIII/13166-C, Mahatma Gandhi Road,  
Ernakulam-6.

Head Office : Yusuf Building, Mahatma Gandhi  
Road, Bombay-1.

For further details please see Bombay  
Commercial Firms Section.

Classification of area in hectares as on 30th June 1965 : Forests 10,51,708 ; Barren and uncultivable land 1,15,941 ; land put to non-agricultural uses 2,21,887 ; cultivable waste 1,18,761 ; permanent pastures and grazing lands 34,435 ; land under miscellaneous crops not included in net area sown 2,08,928 ; fallow and other current fallows 34,124 ; net area sown 20,37,010 ; area sown more than once 4,52,437 ; total cropped area 24,89,447 ; net area irrigated 3,51,640 ; gross area irrigated 4,94,095.

Total number of rubber, coffee and tea plantations : Rubber 70,807 (as on 31st Dec. 1964) ; Tea 2,118 (as on 31st Dec. 1963) ; Coffee 14,152 (as on 30th June 1965).

\* Million nuts.

\*\* Bales of 180 kgs. each.

† Banana.

‡ Plantain.

### LAND REFORMS

The Kerala Land Reforms Act has come into force.

**Foreign Aid :** The Swiss Government will grant 1,640,000 Swiss francs for carrying out the first stage of a farming development project in Kerala which has been located in the High Ranges.

### FISHERIES

See article on 'Fisheries' for details.

### FORESTS

The figures relate to 1964-65.

Total forest area in State : 4,088 sq. miles 140 acres; Reserved forests 8,833 sq. K.M. 38.6 Hectares; reserved lands 142 sq. K.M. 65.8 Hectares; proposed for fuel and fodder reserves 1 sq. K.M. 16.5 Hectares; private forests proposed to be acquired 612 sq. miles approximately or 1,590 sq. K.M.

Location of forests : The main forest tract lies north to south, along the Western Ghats, forming the eastern boundary of the State.

Revenue from the forests : Rs. 5,23,66,036; expenditure : Rs. 1,35,61,607.

Main forest produce : Timber, firewood, bamboos, reeds and ivory.

Quantity of each variety : Timber (round logs) 2,84,662 cum.; Poles 2,49,581 nos.; Firewood 1,35,403.756 tons; Bamboos 90,34,460 nos.; Charcoal 58,690 bags; Ivory 1,342.026 kgms.

## TRANSPORT

Total mileage of roads : 10,739.

Metalled roads including special surfaced roads under P.W.D. control : 6,711 miles.

National highways : 280 miles.

Total mileage of waterways : 1,116 miles (Navigable length of rivers 521 miles; navigable length of canals and cross canals 595 miles).

Total number of aerodromes : Two.

*Particulars of Ports* : Major Ports : 1—Cochin; Intermediate ports : 2—Alleppey and Calicut; Minor Ports : 9—Trivandrum, Quilon, Koilthottam, Ponnani, Badagara, Tellicherry, Cannanore, Azhikkal and Kasargod.

Number of ports and harbours : 11.

*Railways* (March 31, 1964) : Kilometreage : 886.73. (Broad gauge 553.26 and Metre gauge 333.47).

Number of broadcasting stations : 2.

Kerala State Road Transport Corporation :

Capital invested : Rs. 4,96,88,817 (as on 31-3-1965).

Figures for the following items are as on 31-12-1965 :

Road mileage monopolised : N.A.

Road mileage over which services are operated along with private operators : N.A.

Number of routes : 593.

Route kilometreage : 19,341.

Number of buses owned : 918.

Number of lorries owned : 49

Number of other vehicles : 32.

Total number of employees : 7,855.

Passenger earnings (Dec. 1965) : Rs. 53,46,050.

Kilometres operated per day by buses : 1,80,545.

Kilometres operated per day by lorries : 2,729.

Number of persons transported per day : 4,09,599.

Total amount of goods carried : about 15 lorries of 5 tons each a day.

## POWER PROJECTS

### Projects in Operation

*Pallivasal H. E. Project* : In the high ranges in Devicolum below Munnar. Started in 1940. Installed capacity 13,500 kW. Actual production during 1964-65 : 218 million units.

*Sengulam Hydro-Electric Scheme* : The power station is located at Vellathuval below Pallivasal and is a tail race development of Pallivasal scheme. The installed capacity is 48,000 kW. Production during 1964-65 : 135 million units.

*Poringalkuthu Hydro-Electric Scheme* : The power station is located at Poringalkuthu on the Chalakudy river in Trichur District. The installed capacity now is 32,000 kW comprising four generating sets of 8,000 kW each. Production during 1964-65 : 132 million units.

*Neriamangalam Hydro-Electric Scheme* : The power station is located at Panamkutti on the right bank of the Periyar river. The installed capacity of the station is 45,000 kW comprising 3 generating units each of 15,000 kW. The production during 1964-65 : 229 m. units.

*Panniar Hydro-Electric Scheme* : The power house will be located on the left bank of the Muthirapuzha river almost opposite to the Sengulam power house. The power station has an installed capacity of 30,000 kW comprising two units each of 15,000 kW. Production during 1964-65 : 80.3 million units.

### Projects in Execution

*Sholayar Hydro-Electric Scheme* : This scheme is located on the bank of the Sholayar river, a tributary of the Chalakudy river in Trichur District. The generating station will have three sets each of 18,000 kW capacity. The estimated cost of the scheme is Rs. 650 lakhs. The first unit was expected to be commissioned in April 1966.

*Sabarigiri (Pamba) Hydro-Electric Project* : This envisages development of power from the waters of the Pamba and Kakki rivers. The project works are in progress. The power station will have an installed capacity of 300,000 kW, consisting of six units of 50,000 kW each, involving an expenditure of Rs. 3,640 lakhs.

The project comprises the construction of a 171-ft. high dam across Pamba river, and a 360-ft. high dam across Kakki river, with a saddle dam and inter-connecting tunnel, 10,524 ft. long, between Pamba and Kakki reservoirs.

The head-race tunnel, about 18,000 ft. long, having a capacity of 1,970 cusecs, will take off from Kakki reservoir. Work on the scheme is progressing. The project is being executed with loan from U.S. Aid.

The present installed capacity of the Hydro Electric Stations in the State rose to 192,500 kW. The energy output from the hydro electric station during the year 1963-64 was 762.88 million units.

### Projects of the Third Five-Year Plan

*Idikki H. E. Project* : This is the largest hydro electric scheme planned for execution in the State. The first stage of the scheme estimated to cost Rs. 6,265 lakhs will have an installed capacity of 390 MW, developing firm power of 213 MW at 100 per cent load factor. The scheme after completion will irrigate 115,000 acres in Thodupuzhe, Meenachil and Vaikam Taluks and will be located in the Kottayam and Ernakulam Districts across the Periyar River.

*Kuttiadi H. E. Project* : The project envisages power development from the Kuttiadi river in Malabar area of this State. The scheme estimated to cost Rs. 518 lakhs will contribute 245 million units to the energy potential of the grid. The power station will have an installed capacity of 75,000 kW.

It is proposed to inter-connect the Kerala and Madras power systems through a 220 kV transmission line during the 66-67 Year.

Transmission lines have been constructed in the Malabar area of the State and part of the load in this area is being met from the Kerala grid. Supply is also being received from the Madras State Electricity Board for distribution in the Malabar area.

## IRRIGATION

**Major Irrigation Schemes :** The following are the major irrigation projects :

| Name of Scheme                    |                         |       | Estimated cost in Rs. lakhs | Area to be served in acres |
|-----------------------------------|-------------------------|-------|-----------------------------|----------------------------|
| 1.                                | Malampuzha              | .. .. | 545.00                      | 47,600                     |
| 2.                                | Walayar                 | .. .. | 131.66                      | 8,000                      |
| 3.                                | Mangalam                | .. .. | 106.00                      | 8,000                      |
| 4.                                | Vazhani                 | .. .. | 107.57                      | 8,810                      |

| <b>Land Development Schemes :</b> |                         |       |                             |                            |
| 1.                                | Thannirmukkom Regulator | .. .. | 150.00                      | 1,21,000                   |
| 2.                                | Kattampally             | .. .. | 52.81                       | 4,000                      |

Of the above schemes Malampuzha, Walayar, Mangalam, Vazhani and Peechi Schemes and the 1st stages of Chalakudy and Neyyar schemes have been fully commissioned.

Besides these, the schemes viz., Chalakudy second stage, Neyyar second stage, Gayathri (Meenkara including Chulliar), Pothundy, Cheerakuzhy and Periyar Valley were started during the Second Five Year Plan and the schemes Chalakudy second stage have been commissioned and Gayathri schemes first stage has been completed. Schemes viz. Chulliar (Gayathri 2nd stage), Neyyar I & II are nearing completion. Both the schemes are in good progress.

Six new projects have been taken up for execution during the Third Five Year Plan and they are Kallada, Pamba, Kuttiadi, Kanjirapuzha, Pazhassi and Chittoorpuzha. Works in the Pamba and Kuttiadi projects have been started and are in good progress. The other schemes are only in the initial stages of execution.

Works relating to the regulator at Thannirmukkom, the Second stage of the Kuttanad Development Scheme and the Kattampally Projects are in progress. When the Second stage of the Kuttanad Development Scheme is completed, an area of about 1,21,000 acres will be benefited in the Kuttanad area.

**Shipyard :** The work on the second shipyard at Cochin is expected to start during the Fourth Plan period.

The Union Government proposes to build at Cochin ocean-going steamers with 20,000-ton displacement.

**Land Tenure :** There are a number of land tenure systems in the State. Janmam lands, Pandaram, Kanapattam, Verumpattam, Adima, Anubhogam, etc., are some of these.

**Panchayati Raj :** Panchayat Raj has started taking concrete shape in Kerala and elected panchayats are now functioning all over the State.

## EDUCATION

Particulars showing the number of schools under each category, and schools run by Government and private bodies respectively within brackets for 1964-65 were as follows :—

Number of students under instruction 40,10,101 (21,73,270 boys, 18,36,831 girls) ; Percentage of the total number of pupils under instruction to the total population : 22.5.

Percentage of literacy (1961 Census) : 46.2.

17.3 lakhs of children participated in the CARE feeding programme and an amount of Rs. 41.8 lakhs has been spent during 1964-65.

Gross expenditure on General education during 1964-65 : Rs. 19,88,35,231.14.

## SPECIAL SCHOOLS

Strength of students in each category of Spl. Schools with classification of boys and girls respectively in brackets are as follows.

Nursery Schools 7,108 (3,703 boys and 3,405 girls) ; Schools for the handicapped 428 (337 boys and 91 girls) ; Training schools 12,757 (5,200 men and 7,557 women).

## DISTRIBUTION OF INSTITUTIONS

Number of educational institutions under each category with number of Govt. institutions in brackets respectively are as follows :

Secondary High schools 1,130 (339) ; Post Basic Schools 3 (—) ; Fishery High Schools 6 (6) ; Anglo Indian High Schools 8 (—) ; Upper Primary Schools 2,339 (710) ; Senior Basic Schools 73 (23) ; Fishery Upper Primary Schools 21 (21) ; Harijan Welfare Upper Primary Schools 4 (4) ; Anglo-Indian Upper Primary Schools 1 (—) ; Lower Primary Schools 6,288 (2,455) ; Junior Basic Schools 370 (177) ; Fishery Lower Primary Schools 28 (28) ; Harijan Welfare Lower Primary Schools 244 (238) ; Basic Training Schools 104 (31) ; Anglo Indian Training Schools 1 (—) ; Nursery Training Schools 3 (3) ; Pre-Primary Schools 136 (22) ; Fine Arts (Music & Dancing) 2 (2) ; Schools for the Handicapped 7 (5) ; Drawing and Painting Schools 1 (1) ; Hindi Training College 1 (1) ; Post Graduate B.T. College 1 (1) ; Total 10,770 (4,067).

For educational statistics see under "Education".

Total number of arts and science colleges (Govt.) as of December 1965 : 10 ; Govt. Training Colleges 4 ; Govt. Physical Education Colleges 2 ; Govt. Sanskrit Colleges 3 ; Govt. Music College 1 ; Govt. Music Academies 2.

No. of technical institutes in Kerala State under the Directorate of Technical Education : *Public Sector* : Ten. *Private Sector* : Six.

Craft education in various subjects such as bookbinding, cutting and tailoring, coir work, rattan work, gardening, spinning and weaving, fishing, wood work, etc., has been introduced in all the upper primary and secondary schools, the subjects chosen in each school being dependent upon the availability of raw materials and local conditions.

## PUBLIC HEALTH

Figures as on 1-1-1966 :

Number of medical institutions 476 ; Government hospitals 100 ; Govt. dispensaries 218 ; Primary health centres (including M. C. H. Centres) 156 ; grant-in-aid institutions 13 ; secondary health centres 1 ; beds (Govt.) 16,965 ; Beds (grant-in-aid) 1,069 ; out-patients treated 2,24,03,840 ; in-patients treated 7,50,167 ; out-patients

treated in grant-in-aid institutions 2,08,516 ; in-patients treated in grant-in-aid institutions 12,872.

### FIVE-YEAR PLANS

#### Third Plan

Kerala has a Central Planning Advisory Board to advise the Government generally on matters connected with development and planning.

The distribution of the Third Plan expenditure was as follows (Rs. lakhs) :—

Agricultural programmes Rs. 3,171.70 ; Co-operation and Community Development Rs. 1,123.16 ; Irrigation and Power (including Flood control and anti-sea erosion) Rs. 5,919.00 ; Industry and Mining Rs. 1,719.50 ; Transport and Communications Rs. 1,088.00 ; Social Services Rs. 3,826.44 and Miscellaneous Schemes Rs. 152.20.

#### Fourth Plan

A total outlay of Rs. 293 has been approved by the Planning Commission for the Fourth Five Year Plan of Kerala. In addition, centrally sponsored schemes, costing Rs. 10 crores, are likely to be transferred to the State during the Plan period. Kerala's Fourth Plan will thus ultimately be of the order of Rs. 309 crores.

It is estimated that the State's resources during the Fourth Plan will be Rs. 111 crores, including Rs. one crore to be raised by the proposed Cochin Authority, with the assistance of the State Government.

The allocations for main sectors of development, with the total outlay of Rs. 293 crores, are as follows (in crores of rupees) : Agricultural Programmes 56.08 ; Cooperation and Community Development 8.90 ; Irrigation and Power 120.00 ; Industry and Mining 28.30 ; Transport and Communications 18.91 ; Social Services 60.13, and miscellaneous 0.68.

### UNIVERSITY OF KERALA

Trivandrum.

(The University of Travancore was reconstituted as the University of Kerala with effect from 30th August 1957).

Chancellor, Bhagwan Sahay, I.C.S. (Governor of Kerala). Pro-Chancellor, Vacant. Vice-Chancellor, V. Narayana Pillai. Registrar, A. M. N. Chakiar, B.A.

Type of University : Teaching and Federal.

Subjects in which there is provision for post-graduate teaching and or research courses leading to the M.Sc., Ph.D. and D.Sc. Degrees. English, History, Economics, Politics, Philosophy, Psychology, Social Work, Sociology, Education, Mathematics, Physics, Applied Physics, Chemistry, Applied Chemistry, Analytical Chemistry, Botany, Zoology, Statistics, Geology, Home Science, Demography, Malayalam, Sanskrit, Hindi, Linguistics, Marine Biology, Oceanography, Law, Engineering, Medicine, Commerce, Tamil, Agriculture and Veterinary Science.

Number of colleges under the University : Arts and Science Colleges 50. Professional Colleges 34 ; Colleges under the Faculty of Oriental Studies 6 ; Junior Colleges 50.

Total number of students in the University during 1965-66 : 1,14,407 (Men 72,232 ; Women 42,175).

Medium of instruction : English.

Finance :

The year 1964-65 opened with a balance of Rs. 43,32,353. The total receipts during the year, under Govt. grant, fees and miscellaneous accounts amounted to Rs. 1,27,82,388.

The total expenditure during the year under the various heads came to Rs. 1,40,66,828. The closing balance for the year came to Rs. 30,47,913.

### ADMINISTRATIVE PERSONNEL

(See under States Administrative Personnel).

## LACCADIVE, MINICOY AND AMINDIVI ISLANDS

HEADQUARTERS : Kavaratti Island. *Administrator*, C. H. Naire, I.F.A.S.

*Secretary*, P. M. Joseph.

Area : 11 sq. miles ; Pop. : 24,108 (1961 census). Sex ratio : 1,020 females per 1,000 males. Density : 2,192 per sq. mile. Literacy : 23.3 per cent.

| Island    | Area           | Population | Density per sq. mile. |
|-----------|----------------|------------|-----------------------|
| Minicoy   | 1.75 sq. miles | 4,138      | 2,360                 |
| Kalpeni   | 1.02 sq. miles | 2,613      | 3,393                 |
| Androth   | 1.67 sq. miles | 4,183      | 2,504                 |
| Agatti    | 1.08 sq. miles | 2,411      | 2,232                 |
| Kavaratti | 1.35 sq. miles | 2,828      | 2,095                 |
| Amini     | 0.97 sq. mile  | 3,531      | 3,640                 |
| Kadmat    | 1.17 sq. miles | 1,851      | 1,582                 |
| Chetlat   | 0.39 sq. mile  | 953        | 2,451                 |
| Kiltan    | 0.62 sq. mile  | 1,520      | 2,443                 |
| Bitra     | 0.05 sq. mile  | 80         | 1,600                 |

The Laccadive, Minicoy and Amindivi group of Islands form a small sprawling group of coral islands in the Arabian

Sea, lying between the latitudes of 8° and 12° north lat. and they now constitute a Union Territory under an Administrator.

Ten of the islands are inhabited out of a total number of 19. Minicoy, Kalpeni, Kavaratti, Agatti and Androth lie in the Laccadive group and Amini, Kadmat, Kiltan, Chetlat and Bitra in the Amindivi group.

The islands lie from north to south, Minicoy being the southernmost and Chetlat the northernmost. They are within 20 to 114 miles away from one another except Amini and Kadmat which are only six miles apart. The islands lie 125 to 250 miles off the Kerala coast.

Mainly as a result of isolation, the Islanders have remained backward economically. They have been declared 'Scheduled Tribes' but in reality are far more advanced than tribes elsewhere.

The Union Territory is under the jurisdiction of the Kerala High Court.

One member is nominated to the Lok Sabha from the Islands. This seat is to be made elective with passing of the Union Territories (Direct Election to the House of the People) Act of 1965. Elections in the islands will take place in 1967, along with the rest of the country.

## ECONOMY

The main industry on the islands is production of coir.

During the Second Plan about 800 people were trained in improved methods of coir twisting on charkas at the Coir-cum-Training-cum-Production centres. A handloom weaving centre was started at Agatti during 1960-61. A few islanders have been trained in weaving and they produce clothing to meet local needs. An oil mill has been started in Kavaratti under the Co-operative Sector, during 1966. A hosiery factory is to be set up in Kalpeni shortly.

## AGRICULTURE

The only agriculture on the islands is coconut cultivation. Cultivation of coconuts is now done scientifically with departmental advice and direction.

## ANIMAL HUSBANDRY

Six poultry units and a model poultry farm were started during the IIInd Plan. There is a farm and a veterinary hospital at Kavaratti. Good quality bucks are supplied to all islands to improve goat rearing. A Dairy Farm has also been opened in Kavaratti island.

## FISHERIES

Fisheries development has been taken on a fairly big scale. On Minicoy, the bonito or mass fishing forms an important and valuable industry. This industry is being extended to Kavaratti and Agatti Islands.

A small unit for canning tuna was opened at Agatti Island. Another canning unit is expected to be opened at Minicoy shortly.

## CO-OPERATION

All the Islands have now Co-operative Societies, which supply the consumer goods needed by the islanders. They also market the island's products like copra on the mainland markets. During 1964-65 consumer goods worth Rs. 19 lakhs were supplied by the co-operative societies and the total value of copra marketed through them came to Rs. 25 lakhs. A Co-operative Marketing Federation has been registered in 1966 to centralise marketing activities of the various Co-operative Societies in the islands.

## PUBLIC HEALTH

Leprosy is on the increase in two islands, Minicoy and Androth. A leprosy colony started in 1952 at Androth with the aid of a local committee has been taken over by the Government.

In Minicoy too there is a leprosy colony. At Kadmat another colony was started on Sept. 22, 1960. The spread of this dire disease has been brought under control. Filariasis has also been brought under control. A recent survey has shown that the overall rate of filariasis has come down from 14.8 per cent in 1951 to 6.08 per cent.

There are two hospitals at Kavaratti and Minicoy, six Primary health Centres and one Dispensary in the Union Territory at present. Each Island has a Medical Officer. In addition to this, there is one Lady Medical Officer each for Minicoy and Kavaratti and another for the remaining Islands.

Medical aid is free in all the islands. Acute cases which cannot be treated in the islands are brought to the mainland and the patient is provided facilities to get free medical aid and the expenses.

## EDUCATION

There are two high schools, 13 senior basic schools, eight junior basic schools, six feeder schools, six Nursery schools and one single teacher school in the islands at present. A higher secondary school has been started in Kavaratti during 1965-66. When the Administration took over in 1956 there were only nine incomplete elementary schools. From 1,521 students in 1956-57, the strength has increased to 5,200 in 1965-66. The number of teachers has increased from 14 to 232.

Education is free at all stages. For those going to colleges scholarships are given and free boarding and lodging facilities are provided. There are at present 24 scholarship holders for post-matriculate courses of which 11 are for M.B.B.S., two for engineering and two for agriculture.

It is proposed to start one more high school at Androth in 1967.

## TRANSPORT AND COMMUNICATIONS

The normal communication to the islands is by means of island sailing boats during the months of October to May when the islanders buy all their requirements from the mainland and sell their produce especially copra, coconuts, cadjan leaves, vinegar, palm gur, dried fish and coir in the mainland markets. For the rest of the year the islands are practically cut off from any contact with the mainland.

A steamer service has been introduced by chartering two power vessels for service to the islands during fair season. A small power launch has also been purchased by the Administration for inter-island communication of touring officials. It is proposed to buy a more powerful launch for this purpose.

Every inhabited Island has a wireless station except the tiny Island of Bitra where the population is less than 100. Inter-Island communication is rare because the islanders have more contact with the mainland than among themselves.

There are post offices in all the islands and money order facilities have been provided.

## POWER

During the last two years electricity has been introduced in Minicoy, Amini and Kavaratti Islands. It is proposed to electrify all the islands by the end of the Fourth Five-Year Plan. Two more islands viz. Androth and Kalpeni were to be electrified in 1966.

## FIVE-YEAR PLANS

A provision of Rs. 97.96 lakhs was made for development schemes in the Islands during the Third Plan period. An expenditure of Rs. 47.6 lakhs is estimated to have been made during the first three years of the Plan out of the total outlay of Rs. 99.08 lakhs.

The Fourth Plan outlay has been finalised at Rs. 2.26 crores. (*See Fourth Five Year Plan for more details*).

## MADHYA PRADESH

Area : 171,217 square miles.

Population (1961) : 32·37 million. Percentage of increase 1951-61 : 24·17; density 189; sex ratio 953 females for every 1,000 males; literacy 17·1 per cent. For district population see under "Population".

Main languages spoken in the State are : Hindi, Urdu, Marathi, Rajasthani, Gujarati, Sindhi.

### ADMINISTRATIVE SET-UP

For administrative purposes, the State has been split up into seven divisions with a Commissioner at the head of each. The headquarters of each of these are located at Bhopal, Bilaspur, Gwalior, Indore, Jabalpur, Raipur and Rewa. The following are the names in italics of the headquarters of the divisions with the area in sq. miles of each division and names of districts (headquarters in brackets) under their charge :—

- (1) *Bhopal* (22,233) : Raisen (Raisen); Hoshangabad (Hoshangabad); Betul (Betul); Rajgarh (Rajgarh); Shajapur (Shajapur).
- (2) *Bilaspur* (21,305) : Bilaspur (Bilaspur); Raigarh (Raigarh); Surguja (Ambikapur).
- (3) *Gwalior* (17,253) : Gwalior (Gwalior); Bhind (Bhind); Morena (Morena); Shivpuri (Shivpuri); Guna (Guna); Datia (Datia).
- (4) *Indore* (27,341) : Indore (Indore); Ratlam (Ratlam); Ujjain (Ujjain); Mandasaur (Mandasaur); Dewas (Dewas); Dhar (Dhar); Jhabua (Jhabua); West Nimar (Khargone); East Nimar (Khandwa).
- (5) *Jabalpur* (29,326) : Jabalpur (Jabalpur); Balaghat (Balaghat); Chhindwara (Chhindwara); Seoni (Seoni); Sagar (Sagar); Mandla (Mandla); Damoh (Damoh); Narsimhapur (Narsimhapur).
- (6) *Raipur* (30,914) : Raipur (Raipur); Bastar (Jagdalpur); Durg (Durg).
- (7) *Rewa* (22,845) : Rewa (Rewa); Sidhi (Sidhi); Satna (Satna); Panna (Panna); Chhatarpur (Chhatarpur); Tikamgarh (Tikamgarh); Shahdol (Shahdol).

|                          |    |    |    |    |     |
|--------------------------|----|----|----|----|-----|
| Number of Districts      | .. | .. | .. | .. | 43  |
| Number of Tahsils        | .. | .. | .. | .. | 190 |
| Number of Municipalities | .. | .. | .. | .. | 160 |

In the 1967 General Election the Vidhan Sabha will have 296 seats against the original 288 seats.

### PANCHAYATS

The Madhya Pradesh Panchayat Act 1962 envisages a three-tier system of panchayats, viz., Gram Panchayats at Village Level, Janpad Panchayats at Block Level and Zila Panchayats at District Level.

For the purpose of constituting Gram Panchayats, the State has been divided into 12,800 Gram Sabha areas, comprising 1,91,448 wards. The 12,800 Gram Panchayats have already started functioning.

In view of national emergency, the time table for elections to Janpad Panchayats and Zila Panchayats has been kept in abeyance. It is anticipated that ultimately there will be 390 Janpad Panchayats and 43 District Panchayats. In the District of Bastar and Jashpur Tahsil of Raigarh district, 1,251 Adimjatiya Panchayats and 57 Pargana Panchayats on the old pattern are still in existence. The work of constituting Nyaya Panchayats in accordance with the new Act was expected to be completed by the end of August, 1966.

### FOREST

About 2/5th of the State's lands are classed as forest, out of which 66,000 sq. miles are in charge of the State Forest Department for management. Forest area per thousand persons works out to 1,660 acres. Roughly the State contains about 14,500 sq. miles of teak forest, another 16,000 sq. miles of 'Sal' forest and the remaining 35,500 sq. miles of mixed forest, the large area of which may grow teak. Other important species are Bija, Saj, Tinsa, Salai, Semal and Haldu. An amount of Rs. 757·63 lakhs was spent on various forest development schemes during last three Five-Year Plans (1951-56 to 1965-66). An amount of Rs. 13·00 crores is expected to be spent on development schemes during the Fourth Plan period. State trading of tendu leaves has been introduced to augment the revenue. The State forests yielded a revenue of more than Rs. 16 crores during the year 1965-66 as compared to Rs. 6·14 crores in the year 1956-57. It is expected that the revenue may further shoot up to Rs. 25 crores by the end of the Fourth Plan period.

### MINERALS

Madhya Pradesh is a minerally rich State abundant in resources of coal, manganese, limestone, iron-ore, bauxite, clays, ochres, corundum, sillimanite, silicasand, dolomite, steatite (Tale), red oxide of iron ore, mica, graphite, felspar, diamond and lepidolite. Nearly 22 various minerals at present are being exploited from 533 mines. The estimated value of the output of these mines was round about Rs. 30·98 crores in 1965.

Production of different minerals for 1965 are as follows : Iron ore 2·88 million tonnes; Coal 9·131 million tonnes; Manganese 28·77 lakh tonnes; Bauxite 108,317 tonnes; Limestone 3·74 million tonnes; Fire-clay and China-clay 109,310 tonnes; Ochres 16,014 tonnes; Corundum 481 tonnes; Sillimanite 890 tonnes; Silica sand 41,746 tonnes; Dolomite 4·11 lakh tonnes; Steatite 4,545 tonnes; Diamond 4,466 carats; Fluorite 172 tonnes; Asbestos 27 tonnes; Vermiculite 6 tonnes (1964); Lepidolite 9 tonnes (1964); Pyrophyllite 360 tonnes; Felspar 1,201 tonnes; Mica 2 tonnes.

### TRANSPORT (End Dec. 1964)

3,063 passenger buses daily cover 3,17,714 miles on 1,869 routes. The number of goods vehicles registered is 13,032.

### MEDIUM AND LARGE-SCALE INDUSTRY

Main medium & large-scale industries of the State with location in brackets :—

Cotton Textiles (Indore 7, Gwalior 2, Ujjain 4, Mandasaur 1, Dewas 1, Ratlam 1, Bhopal 1, Burhanpur 1, Rajnandgaon 1, Jabalpur 1, Sanawad 1, Khandwa 1); News Print Paper Mill (Nepanagar, Amlai, Sehore); Cement (Banmore, Kymore, Satna, Jamul); Sugar (Jaora, Dalauda, Mehidpur, Dabra, Sehore); Potteries (Gwalior, Ratlam, Jabalpur); Refractories (Jabalpur, Katni, Newar); Iron and Steel (Bhilai); Heavy Electrical equipment (Bhopal); Jute Mill (Raigarh); Art Silk Fabrics (Indore, Gwalior, Nagda); Staple Fibre yarn (Nagda); Viscose Staple Fibre (Nagda); Sulphuric Acid (Nagda, Kumhari); Superphosphate (Kumhari); Carbon-bi-Sulphide and Anhydrous Sodium Sulphate (Nagda); Glue (Bhopal); Asbestos Cement sheets (Katni); Roller Flour Mill (Indore, Bhopal, Ganj Basoda, Raipur); Biscuits (Indore, Gwalior); Textile

Machinery (Gwalior); Welding Electrodes (Raipur); Power Driven Pumps (Dewas); Steel Castings (Indore); Re-rolling Mill (Kumhari; Raipur, Indore, Ujjain, Bangrod); Vegetable Oil (Dewas, Khandwa, Ujjain, Ganj Basoda); Vanaspati (Indore); Alcohol (Ratlam); Valves (Bhopal); Densified Wood (Bhopal). Cables (Satna); Police Boots (Morar-Gwalior); Straw Board (Bhopal, Ratlam); Glass (Jabalpur); Starch (Mandsaur); Gelatine (Jabalpur); Particle Board and Decorative Veneers (Itarsi); Vickey Moped Factory (Gwalior).

The Cotton Textile Industry in the State has 13,175 looms and 5,99,573 spindles in 22 mills (18 composite, 1 weaving and 3 spinning). One composite Textile Mill in the name of Bimal Mills, Ujjain has gone into production having 17,600 spindles and 380 looms. Nimar Textiles Mills at Khandwa having 25,080 spindles has also started production. Two composite cotton mills at Bhind and Bilaspur and one spinning mill at Burhanpur are under construction.

One of the biggest cement factories in the country is situated at Kymore near Katni. Other cement factories are situated at Banmore, Satna and Jamul (Dist. Durg). The sanctioned capacity of all the three existing factories is 16.44 lakh metric tonnes per annum. A cement factory with a capacity of 8,19,000 tonnes per annum is fastly coming up at Jamul, Durg District.

National News Print and Paper Mills Ltd., Nepanagar is working with a capacity of 30,000 tonnes/year. A licence has been given to expand its capacity upto 75,000 tonnes per year of Newsprint. In the private Sector, Orient Paper Mills at Amlai Distt. Shahdol has also started production having a licensed capacity of 48,000 tonnes of pulp and 48,000 tonnes of paper.

The Public Sector Steel Plant, Bhilai has also been licensed to expand the capacity upto 2.5 million tonnes/year.

The State owned projects spinning mill at Sanawad, Solvent Extraction Plant at Ujjain, Alcohol Plant at Ratlam have commenced production and are managed by M.P. State Industries Corporation.

A licence for paper covered Strips factory at Bhopal with a capacity of 1,200 tonnes per year is also under implementation in the public sector.

A Particle Board Factory established at Itarsi has also gone into production.

One Gelatine factory situated at Jabalpur having a licensed capacity of 1,200 tonnes/annum has started production.

First-Vicky Mopeds Scooter factory at Gwalior has been established with German collaboration having a licensed capacity of 15,000 Nos. per year.

The other important industries for which licences have been given under the Industries (Development and Regulation) Act, 1951 for this State are :—

Chlorosulphonic Acid (Kumhari), Coal (Chhindwara), Mining and Quarry Trailing Cables at Satna.

Switch Gears and Transformers (Indore), Dairy machinery (Ujjain), G.L.S. Lamps and Flourescent Tubes (Bagratawa-Distt. Hoshangabad), Industrial Flour Mill Machinery (Gwalior), Co-operative Sugar Mill (Kailaras), L.T.C. Coke, (Burhar).

### COTTAGE INDUSTRIES

The State is also famous for traditional village and home crafts. The Handloom Industry has earned a good reputation for its Chanderi and Maheshwari Saris, Kosa Silk and

other traditional fabrics. The well-known Handicrafts are printing (Chunari, Handa), leather toys, papier maché, lacquerware articles, rag dolls, Sari supari works, soft stone work, Bhopal zari purses, cow dung toys of Sheopur, stone carving at Gwalior, bell metal articles of Jagdalpur, leather crafts, screw pine articles, palm leaf articles, glass bead, lac ornaments and others.

Main Cottage Industries in the State with location in brackets :—Handloom (1,00,000 looms) spread all over the State but best developed at (Chanderi, Maheshwar, Burhanpur, Jabalpur, Raipur and Sausar); Kosa Tussar silk (Raigarh, Champa, Bilaspur, Surguja); Mulberry (Indore, Jhabua, Depalpur, Dhar); Fine sarees (Chanderi, Maheshwar, Burhanpur); Wood work and lacquerware (Sheopur, Sabalgarh, Budhni, Rewa, Gwalior); Wooden toys (Rewa, Bhopal, Gwalior, Ratlam); Soft-stone (Jabalpur, Chhatarpur); Lac (Seoni, Raipur, Bilaspur, Umaria and Rewa); Saw Milling (Betul, Bhopal, Balaghat, Bilaspur, Raipur, Indore, Jabalpur, Sagar and Mandla); Brassware (Balaghat, Chhindwara, Indore, Gwalior, Raipur and Chhatarpur); Textile handprinting (Ujjain, Mandsaur, Morena, Indore, Hoshangabad); Diamond cutting and polishing (Panna); Papier Maché (Gwalior, Ujjain, Indore); Zari embroidery (Bhopal); Art metalware (Bastar, Betul, Hoshangabad, Satna, Mandla).

### LIVESTOCK (1964-65)

Cattle 2,25,86,067; Buffaloes 55,44,936; Sheep 8,06,029; Goats 46,13,756; Horses & Ponies 1,44,921; Other Livestock 3,58,385; Total livestock 3,41,54,094.

Poultry 33,46,085.

### AGRICULTURE (1964-65)

Total net area sown: 4,13,52,016 acres; 1,67,34,582 hectares.

Total area under food crops: 3,93,63,744 acres; 1,59,29,956 hectares.

Total net area irrigated: 26,61,839 acres; 10,77,208 hectares.

Production in tonnes: Rice 35,05,660; Wheat 19,80,779; Jowar (Rabi) 16,167; Jowar (Kharif) 17,11,820; Maize 5,50,401; Bajra 1,41,763; Barley 1,52,323; Gram 8,44,378; Kodon-Kutki 2,71,551; Tur 3,08,844; Moong & Moth (Kharif) 39,196; Moong & Moth (Rabi) 10,184; Urad (Kharif) 1,09,311; Urad (Rabi) 50,596; Kulthi (Rabi) 1,426; Kulthi (Kharif) 51,853; Lac 2,89,392; Masur 1,10,733.

### CASH CROPS

Production in tonnes: Sugarcane (in terms of Gur) 1,79,169; Groundnut 3,41,768; Linseed 1,49,004; Rape and Mustard 56,767; Castor 1,630; Tobacco 1,920; Nigar Seed 51,007; Cotton (in bales of 400 lbs.) 4,92,404.

### CEILING ON AGRICULTURAL HOLDINGS

With a view to providing for the imposition of ceiling on agricultural holdings, acquisition and disposal of surplus land, Madhya Pradesh Ceiling on Agricultural Holdings Act, 1960, has been enacted and has been brought into force with effect from 15-11-1961. The salient provisions of the Act were given in the previous edition of the Directory. See also article "Agriculture".

### ELECTRICITY

Actual expenditure on electric power during the Third Plan period was Rs. 9,048.51 lakhs.

A brief description of the major schemes to be taken up new or continuing during the Third Plan is as follows :—

### Tawa Hydro-Electric Project (Power Part)

Initially this project was a multi-purpose project with proposed installed capacity of 42,000 kW. The master plan prepared for overall development of Narmada Basin does not envisage any hydel generation at this project, which will now cater for irrigation needs only.

### Korba Thermal Station

During the Second Plan period 3 × 30,000 kW sets were installed. One more boiler and one 10,000 kW set with boilers has been added in July, 1963.

In the Third Plan, 200 MW extension was taken in hand. The station is being erected under Russian aid. Four turbo generator sets each of 50 MW capacity are under installation. The station was expected to commence generation in June 1966.

### Amarkantak (Birsinghpur) Thermal Station

Two sets of 30 MW each for the Thermal Power Station at Amlai near Burhar and associated transmission lines etc. are provided under this scheme. The station has been commissioned in Jan. 1965.

### Satpura Thermal Station

This Thermal Station is being constructed in the Pathra-kheda Coal area of Betul district. It provides for 5 × 60,000 kW Thermal Station with 220 kV step-up sub-station. An amount of Rs. 14.00 crores had been provided in the 3rd Plan. The total cost of project will be Rs. 3,794 lakhs. The station was to commence generation from October 1966.

### Gandhisagar (Stage I)

Under Stage I, three generating sets of 23,000 kW each have already been installed at Gandhisagar power station and the fourth set of 23,000 kW has been added in Aug. 1963. A sum of Rs. 20.00 lakhs has been provided for installing the 5th and the last 23,000 kW set at this Power House which was to be completed by August 1966.

### Ranapratap Sagar Power Station (Stage II)

In Ranapratap Sagar Power House four sets of 43,000 kW will be installed at a cost of Rs. 1,424 lakhs. The scheme will be completed in the Fourth Plan. A provision of Rs. 270 lakhs has been made in the Third Plan. The Power Station will be commissioned in 1967-68.

### Jawahar Sagar Power Station (Stage III)

The scheme provides for the installation of 3 units each of 33,000 kW. A sum of Rs. 100.00 lakhs was available for the Project during the Third Five-Year Plan. The Power Station will be commissioned in 1968-69.

### Chandni-Indore Interconnection

In order to meet the additional power requirement of Nepa Mills 132 kV line from Indore to Nepanagar inter-connecting Chambal system with Chandni power house has been completed in Dec. 1963. This arrangement has enabled Chandni Power house to generate power upto its full installed capacity.

### Power Supply to Central India Coal Fields

This scheme envisages laying of 125 miles of 132 kV transmission lines from Korba Thermal Station to Central

India Coal Fields of Chirimiri, Bistrampur and Jhilimili for supplying power to enable them to increase coal production. The scheme has been completed in April, 1963.

### Transmission System

During the Third Plan, 1,218 km of 220 kV, 1,496 km of 132 kV and 48.4 km of 66 kV lines were planned to be constructed to form an integrated "Grid" covering a large part of the State and load centres. An amount of Rs. 1,510.46 lakhs had been provided. These lines include interstate 132 kV lines to interconnect Madhya Pradesh system with those of Maharashtra, U.P. and Orissa. Interconnection with Rajasthan already exists. A total of 1,266 kMs has been completed in the 3rd Plan.

### Rural Electrification & Sub-Transmission Lines

During the Third Plan most of the villages having a population of 2,000 and above have been electrified except those which are far away from the existing and proposed lines. Villages *en route* which have smaller population but are otherwise economically justifiable for electrification will also be electrified. During the Third Plan, the number of electrified places has risen from 538 to 1,311. Power supply to 5,450 irrigation pumps was extended in the 3rd Plan.

Provision for continuing the new schemes during the Fourth Plan period is Rs. 160 crores.

The progress of development of electricity in the State is as indicated below :—

| Particulars                                 | End of First Plan | End of Second Plan | End of Third Plan | Target for 4th Plan |
|---------------------------------------------|-------------------|--------------------|-------------------|---------------------|
| Installed capacity in MW                    | 81.6              | 206                | 287.5             | 1,090               |
| Transmission lines in route kM (over 66 kV) | 200               | 1,092              | 2,584             | 5,115               |
| Yearly generation in (M. kWh)               | 98.7              | 403.5              | 1,143.3           | 3,590               |
| No. of consumers in thousand                | 51.30             | 121.50             | 275.8             | 600.00              |
| Per capita consumption                      | 6.15              | 14                 | 30                | 85.5                |
| No. of towns/villages electrified           | 142               | 538                | 1,311             | 3,911               |

### Tawa Multi-Purpose Project

The revised estimate of the project amounts to Rs. 48.05 crores. The project on completion is expected to irrigate 7.5 lakh acres of land and generate 20,000 kW power.

### CO-OPERATION

(See under article on Co-operation.)

## EDUCATION

The figures relate to 1965-66 :

Total No. of Degree Colleges : 135 (Govt. colleges 68, Private 67).

Total No. of Teacher Training Colleges : 120 (108 B.T. Institutions, 11 P.G.B.T. Colleges, 1 non-P.G.B.T. College).

Total No. of Professional Colleges : 25.

(Medical 6, Engineering 8, Agriculture 6, Veterinary 2, Ayurvedic 3).

Polytechnics : 22 (13 Govt., 9 non-Govt.).

Number of Universities : 8.

Names of the Universities with location in brackets :—

University of Sagar (Sagar); Jabalpur University (Jabalpur); Vikram University (Ujjain); Indira Kala Sangeet Vishwavidyalaya (Khairagarh); Ravi Shanker University (Raipur); Indore University (Indore); Jivaji University (Gwalior) and Jawaharlal Nehru Krishi Vishwavidyalaya (Jabalpur).

## PUBLIC HEALTH

Figures for 1965-66 :

Common diseases in the State : Malaria, Filariasis, Tuberculosis, Venereal diseases, Dysentery, Diarrhoea, Gastroenteritis and Leprosy.

Total No. of patients treated in the State during 1965 : 3,32,200 (Indoor) ; 1,10,34,576 (Outdoor).

T.B. Patients treated during 1964 : 1,29,024.

Number of Medical Institutions and beds at the end of 3rd Plan :

|                                       |                  |        |
|---------------------------------------|------------------|--------|
| Number of Hospitals & Dispensaries    | ..               | 526    |
| Number of beds                        | .. .. .          | 14,549 |
| Number of Medical Colleges            | .. .. .          | 6      |

## LABOUR

Position as on 31st Dec. 1964 :

Number of registered factories (excluding 15 defence factories) : 2,406.

Number of workers employed in registered factories : 1,71,397.

Important industries with the number of units (employing more than 100 workers), and workers employed respectively in each industry within brackets :

Textile (including cotton, silk, art silk, staple fibre, jute, carpet) 29 (48,196) ; Basic Metal Industry (Iron and Steel) 18 (9,957) ; Electric machinery apparatus, appliances and supplies 4 (8,186) ; Sugar 7 (4,205) ; Rice mills 20 (2,094) ; Oil mills 9 (1,095) ; Cement 2 (2,828) ; Electricity, gas and steam 9 (2,061) ; Potteries 6 (2,890) ; Printing presses 5 (1,519) ; Paper and straw boards 5 (3,393) ; Asbestos products 2 (2,321) ; Lime stone 4 (1,081) ; Motor transport 7 (1,249) ; Machinery except electrical machinery 9 (3,349) ; starch 1 (250) ; Manufacture of bakery products 1 (725).

On March 31, 1965, the number of registered trade unions was 410 (excluding cancelled unions) out of which 238 unions had submitted their returns for 1964-65. After scrutiny 140 returns had been accepted by the Registrar of Trade Unions, membership of which came to 76,229.

Total number of employments covered under the Minimum Wages Act : 13 (1965).

Approximate number of workers employed in the above employments : 4,48,561 (1965).

Important categories of employments under the Minimum Wages Act and the approximate number of workers employed in each category :

Rice, flour and dal mill 13,330 ; Tobacco (including Bidi making) manufacturing 2,29,471 ; Oil mill 4,072 ; Local authority 28,289 ; Construction or maintenance of roads or in building operation 42,084 ; Stone breaking or in stone crushing 3,084 ; Public motor transport 7,431 ; Lac manufacturing 371 ; Tanneries and leather manufacturing 158 ; Potteries 2,212 ; Cotton, ginning and pressing 138 ; Printing Press 946.

The Madhya Pradesh Shops & Establishments Act, 1958 was in force in 45 towns in the State on December 31, 1964.

On Dec. 31, 1964 there were 1,13,746 registered establishments out of which 31,811 were found closed and 81,935 live establishments left at the end of 1964.

Provident Fund Scheme (March 31, 1964)—

Number of factories covered by the Employees' Provident Fund Scheme (March 31, 1964)—704. Number of factories exempted—35. Number of factories partially exempted 8, total number of workers contributing under the Scheme—1,41,426.

Number of family units (one family unit assumed to be comprised of three adults and one minor) covered by the Employees' State Insurance Scheme (December 31, 1964)—1,28,942. The Scheme was in operation in Banmore, Bhopal, Burhanpur, Dewas, Gwalior, Indore, Jabalpur, Mandsaur, Nagda, Raigarh, Raipur, Rajnandgaon, Ratlam, Satna and Ujjain.

## IRRIGATION SCHEMES

| Name of Project              | Location District | When started | When to be completed | Capacity M. Cft. | Area proposed for irrigation (Acres) | Total cost (Rs. lakhs) | Estimated rise in output after completion (Tons) | Remarks              |
|------------------------------|-------------------|--------------|----------------------|------------------|--------------------------------------|------------------------|--------------------------------------------------|----------------------|
| (1)                          | (2)               | (3)          | (4)                  | (5)              | (6)                                  | (7)                    | (8)                                              | (9)                  |

For the annual plan for 1966-67, an outlay of Rs. 58.10 crores has been approved. Of this outlay, the Central

Assistance will be Rs. 39.60 crores and the balance of Rs. 18.50 crores will be found by the State Government from its own resources. The distribution among different sectors of development is as follows :—

Agricultural programmes Rs. 17.98 crores; Co-operation and Community Development Rs. 4.10 crores; Chambal Hydel Scheme Rs. 2.15 crores; Tawa, Hasdeo, Barna and Halali irrigation projects Rs. 2.79 crores; Medium irrigation projects Rs. 2.07 crores; Power generation Rs. 13.50 crores; Industrial and mineral development Rs. 2.19 crores; Roads Rs. 1.79 crores; Road transport Rs. 1.69 crores; Education Rs. 2.76 crores; Public Health Rs. 1.98 crores; Rural and urban water supply Rs. 1.74 crores; Housing Rs. 0.35 crore; Welfare of backward classes Rs. 0.86 crore; Craftsmen training scheme Rs. 0.51 crore and Bhopal Capital Project Rs. 1.25 crores.

In addition to this, Rs. 1.45 crores have been agreed to for Kharkhera irrigation project outside the State Plan.

An outlay of Rs. 450 crores has been fixed by the Planning Commission for the State's Fourth Five Year Plan.

### ADMINISTRATIVE PERSONNEL

(See under 'States Administrative Personnel'.)

### UNIVERSITIES

#### INDIRA KALA SANGEET VISHWAVIDYALAYA KHAIRAGARH

Founded 1956.

Chancellor : K. C. Reddy, B.A., B.L., LL.D., Governor, Madhya Pradesh.

Pro-Chancellors : Narsingh Rao Dixit, Education Minister, Madhya Pradesh; Raja Bahadur Birendra Bahadur Singh, M.P.; Shrimati Rani Padmavati Devi, Minister for Social Welfare.

Rector : P. N. Chinchore, M.A., M.Mus.; Treasurer : R. K. Jha; Registrar : B. B. Biswas, B.A., LL.B.

It is a teaching, affiliating, examining and residential University of Music and Fine Arts.

Number of affiliated Colleges : 29.

Number of students in the University : 4,000.

#### Budget Estimates : 1965-66 :—

Total Income Rs. 1,37,371.

Total Expenditure Rs. 1,61,681.

The media of instruction for all classes are Marathi, Urdu, Hindi and English.

#### INDORE UNIVERSITY

Indore.

Estd : 1964. It began as an affiliating University, but is intended to develop as a federal University with teaching departments.

Chancellor : K. C. Reddy, B.A., B.L., LL.D., Governor of M. P.; Vice-Chancellor : H. S. Kamath, M.A., I.C.S. (Retd.); Registrar : G. N. Tandan, M.A.

No. of affiliated colleges : 16.

University Teaching Dept. : 1.

No. of students in the University : 12,570.

#### Budget (1965-66)

Receipts : Rs. 8,42,300.

Expenditure : Rs. 12,14,350.

#### Development Budget

Receipts : Rs. 77,000.

Expenditure : Rs. 77,000.

#### JABALPUR UNIVERSITY

Jabalpur.

Estd : 1957. It is a teaching and affiliating University.

Chancellor : K. C. Reddy, B.A., B.L., LL.D., Governor of Madhya Pradesh; Vice-Chancellor, Dr. Dharendra Verma, M.A., D.Litt.; Registrar : S. C. Seth, M.A. (Officiating).

Number of affiliated colleges : 20. (The status of colleges as constituent colleges to be decided later.)

Number of University Departments of post-graduate Studies and Research : 12.

Number of students in the Colleges and University Departments : 14,094.

#### Normal Budget (1966-67)

|                                          | Rs.       |

#### JAWAHARLAL NEHRU KRISHI VISHWA VIDYALAYA

Jabalpur.

Estd. 1964.

Chancellor : K. C. Reddy, Governor, Madhya Pradesh; Vice-Chancellor : Dr. J. S. Patel; Registrar : T. C. R. Menon, M.A., I.A.S.

#### Budget (1966-67)

Receipts : Rs. 2,03,96,800.

Expenditure : Rs. 2,17,12,900.

#### JIWAJI UNIVERSITY

Gwalior.

Established in 1964, it is a teaching, affiliating and residential University.

Chancellor : K. C. Reddy, Governor, Madhya Pradesh; Vice-Chancellor : S. S. Bhandarkar, M.A.; Registrar : Pandit Sham Narain.

No. of affiliated colleges : 29 (as on 31-3-1966).

No. of constituent Colleges : 8 (as on 31-3-1966).

#### Budget (1966-67)

Receipts : Rs. 58,22,830.

Expenditure : Rs. 57,63,100.

#### RAVISHANKAR UNIVERSITY

Raipur.

Chancellor : K. C. Reddy, Governor, Madhya Pradesh; Vice-Chancellor : Dr. B. R. Saksena, M.A., D.Litt.; Registrar : K. P. Chaube, M.A.

Constituent Colleges : 10.

Affiliated Colleges : 35.

Students (1965-66) : 20,000 (approximate).

#### Budget Estimates (1966-67)

Estimated Income : Rs. 30,52,650.

Estimated Expenditure : Rs. 29,76,176.

Expected Grant from State Govt. : Rs. 4,00,000.

Expected Grants from State Govt. for development : Rs. 3,19,140.

**SAUGAR UNIVERSITY**

Founded : 1946.

*Chancellor* : Dr. K. N. Katju, M.A., Ph.D., LL.D., D.Litt. ;  
*Vice-Chancellor* : Dr. M. P. Sharma, M.A., D.Litt. ; *Rector* :  
Prof. Ishwar Chandra, M.A. ; *Registrar* : S. J. Naidu.

It is a teaching and affiliating University.

Number of affiliated colleges : 70.

Number of students : Teaching Departments : 2,729 ;  
Affiliated Colleges : 15,128.

*Library* : 1,17,120 (includes volumes, journals and pamphlets).

**Budget (1966-67)**

Receipts : Rs. 69,74,075.

Total expenditure : Rs. 71,07,544. } Excluding build-  
ing grants.

**VIKRAM UNIVERSITY**

(Ujjain)

Founded : 1957.

It is an affiliating and teaching University. The media of instruction are English and Hindi.

*Chancellor* : K. C. Reddy, B.A., B.L., LL.D., Governor of Madhya Pradesh ; *Vice-Chancellor* : Acharya Nand Dulare Bajpeyi, M.A. ; *Registrar* : V. Shankaran, M.A.

Number of University Schools of Studies : 7.

Number of Constituent Colleges : 14.

Number of Affiliated Colleges : 24.

University Teaching Department : 1.

Number of Students (1965-66) : 30,230 (Regd.).

Total Income including Govt. Grants : 61,33,780.

Total Expenditure : Rs. 52,55,070.

**MADHYA PRADESH FINANCIAL CORPORATION**

(See under "State Corporations".)

**MADRAS**

(See page 413)

**MAHARASHTRA**

**T**HE State came into being on May 1, 1960 when the Bombay Reorganisation Act, 1960, came into force.

This Act split the old Bombay State into two States, Maharashtra and Gujarat.

The strength of the Maharashtra Assembly is 265, of the Council 78. The State sends 19 members to the Rajya Sabha and 45 to the Lok Sabha.

It is the third biggest State in the Union both in respect of area and population.

Capital : Bombay.

Area : 1,18,717 sq. miles ; Population : 39.55 millions (1961 census).

**DISTRICTS AND TALUKAS**

(For the names, area and population, see under article "Population").

The State is divided into 26 Districts. There are 231 Talukas and Mahals and 223 municipal towns.

The Districts with their headquarters in brackets are :—

Dhulia (Dhulia), Nasik (Nasik), Thana (Thana), Greater Bombay (Bombay), Kolaba (Alibag), Ratnagiri (Ratnagiri), Ahmednagar (Ahmednagar), Poona (Poona), Satara (Satara), Sangli (Sangli), Kolhapur (Kolhapur), Sholapur (Sholapur), Jalgaon (Jalgaon), Aurangabad (Aurangabad), Parbhani (Parbhani), Bhira (Bhira), Osmanabad (Osmanabad), Nanded (Nanded), Buldhana (Buldhana), Akola (Akola), Amravati (Amravati), Yeotmal (Yeotmal), Wardha (Wardha), Nagpur (Nagpur), Chanda (Chanda), Bhandara (Bhandara).

These 26 Districts are grouped into four Divisions.

*Bombay Division* : Greater Bombay, Thana, Kolaba, Nasik, Dhulia, Jalgaon, Ratnagiri.

*Poona Division* : Ahmednagar, Poona, Satara, Sangli, Kolhapur, Sholapur.

*Aurangabad Division* : Aurangabad, Parbhani, Bhira, Osmanabad, Nanded.

*Nagpur Division* : Buldhana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara, Chanda.

**GEOGRAPHY**

The Sahyadris or the Western Ghats run quite close and almost parallel to the west coast, leaving a very narrow strip of land between the sea and the lofty mountain barrier, which at no place is more than 60 miles in breadth. This narrow strip of land known as Konkan, stretches from Daman to Vengurla to a distance of about 350 miles. Interspersed with hills, the land is very undulating and the soil far from fertile, only suitable for paddy cultivation in flat patches, which lie couched in small valleys and perched on hill slopes. The mountain sides are, however, covered by evergreen vegetation, which lends Konkan its spell-binding scenic beauty and also its horticultural wealth.

The North Konkan is a flat alluvial belt along the coast formed by the rivers Ulhas and Vaitarna in their lower courses. This belt is not more than ten miles wide, with a series of parallel ridges in the background. Along the coast is a string of small ports like Rewas, Harnai, Dabhol, Ratnagiri, Vijayadurg, Malvan and Vengurla served by the Konkan ferry service.

To the east of the Sahyadris stretches a vast plateau intercepted by rivers which rise in the Sahyadris and flow eastward. In the north is the Satpura range which runs almost in a straight line from east to west. The main Sahyadri range all along its length sends its arms across the tableland. To the north of Nasik is the Satmala range with its continuation in the Balaghat range, which goes right upto the eastern border of Vidarbha and Marathwada. The transverse ranges to the south of Nasik are much shorter and of little consequence.

The State is drained by a number of rivers—Tapi, Godavari, Bhima, Krishna, Wardha and Vainganga. The smaller rivers are the tributaries of one or the other of these rivers.

In between the Satpuras in the north and the Balaghat range in the south lies the great Tapi trough. The Tapi, rising in the Satpuras, flows westward, with the Girna flowing into it in its upper course. The Tapi valley, which comprises the western parts of Vidarbha and districts of Dhulia and Jalgaon, is one fertile belt of black soil, which grows cotton and is known as 'the black cotton soil.'

To the farther east is the Vainganga-Wardha valley. The two rivers, Wardha and Vainganga, flow south-east before they drain into the Godavari. The land abounds in lakes and tanks, many of which are man-made, which add to the natural beauty of the land. The green meadows dotted by the blood-red *palas* flowers lend a unique charm to the land on this eastern border of Maharashtra.

To the south of the Balaghats, right from Nasik to Nanded stretches the great valley of the Godavari, the cradle of Maharashtrian culture. The Godavari rises in the Brahmagiri mountain near Trimbakeshwar, which is one of the twelve 'Jyotirlingas'. From about fifteen miles from Trimbakeshwar is Nasik on the banks of the Godavari which is also a sacred place of the Hindus. Paithan in

Marathwada was once the seat of learning and the centre of cultural movements. Still farther east is Nanded, the holy place of the Sikhs, with the famous Gurudwara shrine on the banks of the Godavari.

Whereas the Godavari valley linked by the valleys of Wardha and Vainganga which flow into it, is the nerve centre of Maharashtra, the Krishna valley is its southern periphery and historically its strong arm. It covers Satara, Sangli, Sholapur and Kolhapur districts. The eastern portions of the valley which cover the eastern Talukas of the districts of Satara, Sangli, Kolhapur and Sholapur are less fertile.

It is interesting to note that in Maharashtra the trades relating to distribution of commodities are run to a large extent by Gujaratis and Marwaris. Thus even in the remotest village, the cloth dealer is usually a Gujarati, while the grocer is generally a Marwari.

There are a number of Adibasi communities in Maharashtra, who live either in dense forests or on the mountain perches of the Sahyadris and the Satpuras. The main communities among these are the Agaris, the Warlis, the Katkaris and the Thakurs of Thana and Kolaba districts, the Bhils of Dhulia and the Korkus and the Gonds of Vidarbha.

## BASIC FACTS AND FIGURES

**Income during 1962-63** (in crores of rupees): 1,748.2 (100.0). Agriculture and allied activities 641.3 (36.7); Mining, manufacturing, small enterprises and construction 454.0 (26.0); others 652.9 (37.3). Per capita income Rs. 428. Figures in brackets show percentages to the total income.

### LAND UTILIZATION

Classification of land and area in '00 hectares for 1963-64 respectively are:

Total Geographical Area 307,749; Area under Forests 54,191; Net Area Sown 181,416; Gross Cropped Area 191,235; Barren & Uncultivable Land 17,970; Land put to non-agricultural use 7,096; Culturable waste 8,797; Land under miscellaneous tree crops 1,918; Permanent pastures 13,927; Current fallows 11,107; Other fallows 11,327.

### Area Under Different Crops

Crop wise area ('000 hectares) under cultivation during 1963-64 & 1964-65 respectively are:

Rice 1,329; 1,354; Wheat 898; 900; Jowar 6,042; 6,075; Bajra 1,664; 1,676; Total cereals: 10,383; 10,467; Total Pulses: 2,326; 2,311; Sugarcane 140; 143; Cotton (Lint) 2,769; 2,759; Groundnut 1,103; 1,107; Tobacco 20; 22; Ragi 219; 221; Maize —; —; Barley —; —; Tur 557; 567; Gram 384; 374; Potatoes 14; N.A.; Chillies —; —; Sesamum 128; 125; Castor Seed —; —; Rape, Mustard, Linseed 217; 218.

*Note:* Figures for 1963-64 and 1964-65 are based on partially revised estimates and final forecast estimates respectively and are subject to revision.

(In '00 Hectares)

Area irrigated by crops during 1963-64†: Rice 2,849; Wheat 1,428; Jowar 3,095; Sugarcane 1,363; Cotton 726; Groundnut 106.

The area under certain groups of crops (figures in '00) as in 1962-63:—

Fruits and vegetables, 1,528; condiments and spices 2,016; oil seeds 19,306; drugs and narcotics 223; fodder crops 9,234; total non-food crops 56,263.

**Out-turn of Principal Crops in '000 M. tonnes for 1964-65†:** Rice 1,465; wheat 409; jowar 3,345; bajra 475; tur 365; gram 124; Total of all cereals and pulses 6,865; cotton (lint) 222; groundnut 831; sugarcane 1,152; tobacco 11.

**Area Irrigated by Sources ('00 hectares), 1963-64:** Govt. canals 2,214; Private canals 312; tanks 2,075; wells 6,535; other sources 401; net irrigated 11,537; gross irrigated 13,080.

**Agricultural Implements (1961):** Wooden ploughs 16,73,499; Carts 13,43,378; Sugarcane Crushers 15,801; Oil Engines with Pumps for Irrigation purposes 63,747; Electric Pumps for Irrigation 6,530; Tractors 1,427; Ghanis 5,608.

**Livestock 1961:** (See main article "Livestock").

**Cooperation:** Number of societies†, number of members and working capital (Rs. lakhs) respectively as in 1964-65†: Agricultural, § 25,049; 33,31,000; 1,67,91; Non-Agricultural 11,467; 19,29,000; 90,53; Land Mortgage Banks 28; 4,37,000; 36,54; State and Central Banks 29,69,000; 2,50,06; Urban Banks 193; 5,27,000; 41,03; Total number of all types of cooperative societies, total number of members and total working capital (Rs. lakhs) respectively: 36,766; 62,93,000; 5,86,07.

Various types of banking offices at the beginning of 1965:

Scheduled banks 752; Non-Scheduled banks 10; Co-operative banks 732; Total banking offices 1,494.

**Education (1965-66)†:** No. of Institutions, pupils and teachers respectively under each category is as follows:— Primary 41,045; 56,15,000; 1,45,000; Secondary 3,875; 15,07,000; 54,000; Higher 467; 1,69,000.

† Excludes Supervising Unions, Divisional and District Cooperative Boards and Insurance Societies. ‡ Provisional. § Includes Grain Banks.

It is calculated that about a fourth of the population of Greater Bombay consists of students. In the State as a whole students make up one-sixth of the population. The number of institutions per lakh of population is nearly 108. The number of teachers per thousand of population is 5; in Greater Bombay it is 7.

**Technical Institutions (1964-65):** Engineering Institutions 8; Polytechnics 22; Technical Institutions 2; Government College of Architecture 1; Non-Government Institutions for architectural Diploma Courses 4; Technical High Schools 87; Industrial Training Institutions 32.

**Electricity:** (Figures in million kilowatt hours) as in 1964-65†. *Output:* Steam 2,139, Oil 85, Hydro 2,914. *Consumption:* Domestic light and small power 373, Commercial light and small power 295, Industrial power 2,925, Public lighting 30, Traction 457, Irrigation and dewatering 38, Water works 50.

## INDUSTRIES

(See after Madras)

**Community Development Programme:**—Coverage (1964-65): No. of blocks of CPA pattern 444; No. of villages 38,669; Population covered 2,62,29,000.

The following table gives progressive achievements under C. D. Programmes.

| Items                                  | Units    | 31st March 1965 |
|----------------------------------------|----------|-----------------|
| Distribution of fertilisers ..         | B.Mds.   | 2,34,05,041     |
| Distribution of improved seeds         | B.Mds.   | 4,058,282       |
| Animals castrated .. ..                | No.      | 1,467,884       |
| Pedigree Bulls supplied ..             | No.      | 7,124           |
| Area reclaimed and bunded ..           | Acres    | 4,062,843       |
| Additional area irrigated ..           | Acres    | 1,010,027       |
| Drinking water wells constructed .. .. | No.      | 16,182          |
| Adults made literate .. ..             | No.      | 15,81,580       |
| Youth Clubs started .. ..              | No.      | 19,199          |
| Mahila Samitees started ..             | No.      | 11,529          |
| Katcha roads constructed ..            | Furlongs | 85,784          |
| People's contribution ..               | Rs. '000 | 1,07,331        |
| Government expenditure ..              | Rs. '000 | 4,91,671        |

**Medical:**—(Figures for 1965): Number of hospitals and dispensaries in the State: 122; Number of beds

18,358; Municipal Hospitals and dispensaries 991; Number of beds 6,192; Private aided and non-aided 267; Number of beds 11,321.

**Transport and Communications:** Figures as on 1st Jan. 1966\*: Number of motor cycles 28,219; Motor cars 70,241; Taxi cabs 8,802; Auto-Rickshaws 933; Stage carriages (Diesel engined 5,033; Petrol engined 559); Lorries: Public carriers (Diesel engined 14,273; Petrol engined 12,249); Private carriers (Diesel engined 2,884; Petrol engined 6,072); Ambulances 280; School buses 351; Private Service vehicles 406; Trailers 3,467; Tractors 3,029; Others 539; Total number of vehicles 1,57,337.

**Roads in Kilometres** (Figures as on 31st March 1966)\*: Total 44,578; National highways 2,399; State highways 10,823; Major district roads 12,881; Other district roads 8,050; Village roads 10,425.

A road styled Bombay-Goa Road connecting Goa with Bombay, under construction, was expected to be completed by the end of the Third Plan.

**Railway kilometrage:** Total 5,227 kms. (Broad Gauge 2,767 kms; Metre Gauge 1,197 kms.; Narrow Gauge 1,263 kms.).

**Nationalised Road Transport** (Figures as in November 1965): No. of routes 2,700; route distance in km. 1,62,528; average no. of vehicles on road per day 2,772; average daily earning 7,45,000; average no. of passengers who travelled per day 9,15,000.

**Employment Exchange Statistics:** (Figures for 1964-65): Registrations 3,52,146; Vacancies notified 95,767; Placements 44,869; Those on the live register 2,53,162.

The following figures show the position of employment statistics from April to Dec. 1965: Registrations 31,838; Placements 4,930; Vacancies notified 8,032 and number on live register 2,72,371.

**Village Panchayats:** The total income of Village Panchayats in 1963-64 was Rs. 10.59 crores as against Rs. 7.34 crores in 1962-63. The Government grants contributed about 55 per cent of the total revenue. The total expenditure of Village Panchayats in 1963-64 was about Rs. 8.40 crores.

The receipts of the Zilla Parishads (1965-66 budget estimates) amounted to Rs. 62.77 crores in 1965-66, of which more than 91 per cent (Rs. 57.41 crores) were Government grants. The purposive grants and the Plan grants formed the major share e.g. 18.68 per cent and 16.58 per cent respectively of the total Government grants.

**Small Savings:** In small savings Maharashtra enjoyed the premier position in India till last year. During 1964-65, the target fixed for the State was Rs. 22 crores. As against this target, the net collection was Rs. 24.20 crores. The target for 1965-66 has been Rs. 22.27 crores, the net collection during the first ten months ending January 1966 were Rs. 17.07 crores.

## Cost of Living Index

| Year       | Bombay <sup>1</sup> | Sholapur <sup>2</sup> | Jalgaon <sup>3</sup> | Nanded <sup>4</sup> | Aurangabad <sup>5</sup> | Nagpur <sup>6</sup> |

## FILTER and PLAIN

In the red, gold  
and white pack, get  
today's outstanding  
filter cigarette—  
Wills Filter Kings.

**Rs. 1.50 for 20**  
ALSO AVAILABLE IN 10's PACKETS

In the blue, gold  
and white pack, comes  
the full bodied taste, the  
rich flavour of special  
Virginia tobacco—Wills Kings.

## All India Index Number of Wholesale Prices

(See page 39).

### ECONOMY

The whole of Vidarbha is completely free from scarcity threats.

Rice is abundantly grown in the coastal Districts of Thana, Kolaba, Ratnagiri and also in Chanda and Bhandara. It accounts for one-fifth of the foodgrains grown in the State. Wheat accounts for a little more than one-twentieth. Millets are grown abundantly in the Deccan, Vidarbha and Marathwada districts. Jawar is the major cereal and accounts for half the production.

The production of cotton in 1963-64 was 1,79,000 metric tons and groundnut 8,06,900 metric tons in Maharashtra. The production of cotton and groundnut was 9,44,000 metric tons and 48,21,000 metric tons respectively in the country.

The State has abundant forest wealth. Forests form 20.7 per cent of the area of the State. There are forest areas in all districts, but the thickest forest areas are, in Chanda, Amravati, Yeotmal, Bhandara, Nagpur, Dhulia, Thana and Nasik Districts. They produce various types of timber, teak and minor forest produce.

In the matter of live-stock, the milk-yielding buffalo population is greater than the cattle only in Kolhapur and Greater Bombay. The sheep and goat abound in all Districts but are particularly noticeable in Nasik, Dhulia, Ahmednagar and Sholapur. The concentration of horses and ponies is greater in Marathwada, Dhulia and Ahmednagar.

267 new joint Stock companies (31 public and 236 private) were registered during 1964-65 with an authorised capital of Rs. 105 crores as against 243 new companies with authorised capital of Rs. 39 crores in 1963-64.

During the year 1964-65, 15 public companies with authorised capital of Rs. 247 lakhs and paid-up capital of Rs. 100 lakhs and 90 private companies with authorised capital of Rs. 396 lakhs and paid-up capital of Rs. 74 lakhs went into liquidation. During 1963-64, 132 companies with paid-up capital of Rs. 240 lakhs were reported to have gone into liquidation.

Vidarbha region of Maharashtra is outstandingly rich in mineral wealth. Nagpur and Bhandara districts of Vidarbha region possess some of the largest deposits of manganese ore in India. Salt is produced in the Coastal districts. The only Coal bearing area, having extensive reserves of first grade and medium grade Coal is found around Kamptee, Umrer and Bokhara in Nagpur district and Warora in Chanda district. Large deposits of iron ore are found in Ratnagiri and Chanda districts. Lime stone is at present mined only in Nagpur and Yeotmal districts.

The more important industries are cotton textiles, general and electrical engineering, chemicals, petroleum, transport and transport equipment, sugar, vegetable oils, paper, paper boards and soap. In 1964 there were 9,207 working factories in the State providing employment to about 9,08,000 workers. Out of the 9,207 registered factories in the State, nearly half, that is about 4,626 factories are in the Greater Bombay area.

Out of the Rs. 866 crores of productive capital in Maharashtra in 1963, the textile industry alone accounts for 16 per cent. It is apparent that Greater Bombay alone contributes 69 per cent of productive capital.

Today all places with a population of 50,000 and over are electrified. Power generation and consumption in Greater Bombay are high.

The length of roads is estimated to be about 43,013 kilometres in March 1965. 1,565 kilometres more were expected to be added by March 1966.

## ELECTRIC POWER DEVELOPMENT

The allocation for Irrigation and Power during 1966-67 is Rs. 46.02 crores or about 38.2 per cent of the total Annual Plan of Rs. 120.46 crores.

The total installed capacity as on 31st March 1965 was 1,224 MW; output of electricity 4,439 million KWH and consumption 3,569 million KWH. The per capita power generated and consumed was 112 KWH and 90 KWH respectively as compared with 66 KWH and 52 KWH in the Indian Union as a whole.

The power requirements of the State have been assessed at 2,288 MW at the end of the Fourth Five Year Plan. To meet this demand, the State's Fourth Five Year Plan includes projects, hydro and thermal, of a total capacity of 1,580 MW. This together with 190 MW accruing from the Nuclear Power Station, is expected to meet the anticipated demand of 2,288 MW in 1970-71 in full and also leave some surplus to meet unforeseen demands, if any, during the Fourth Plan period.

Maharashtra has a hydro potential of over 3,000 MW mainly concentrated in or around the Western Ghats.

**Projects in progress :** Of the hydro power projects in progress, two more generators of 75 MW each of the Koyna Project were recently commissioned. The Purna Project in Marathwada is nearing completion. The extension of the State Electricity Board's Khaperkheda steam station by 60 MW was completed towards the end of 1964. The extension of the Paras Steam station by 60 MW more and establishment of a new steam station of 60 MW at Bhusaval are in an advanced stage of construction. In the private sector, an additional capacity of 150 MW was commissioned by Tatas in their steam power station at Trombay.

**New Projects :** Three more steam stations, of a total capacity of 900 MW, are to be constructed by the State Electricity Board during the Fourth Five Year Plan period. One of these, of 280 MW, will be constructed near Nasik in the Western Maharashtra, the second of 60 MW in Parli-Vajinath in Marathwada and the third, a super-station of 560 MW, near Nagpur in Vidarbha. Though of the Fourth Plan programme, advance action in respect of these projects had been initiated in the Third Plan itself.

**Transmission Lines :** The total length of transmission lines was expected to be around 1,750 circuit kms. at the end of the Third Five Year Plan and additional lines of a total length of 2,414 circuit kms. are proposed to be constructed during the Fourth Plan period.

**Rural Electrification :** In rural electrification, the accent is on electrification of villages which are within easy reach of grid lines and which offer sufficient load, particularly load for agriculture and small industries. There are 35,851 towns and villages in the State. Of these as many as 4,665 villages had been electrified by 31st March 1966, i.e., the end of the Third Five Year Plan. Agricultural pumps supplied with electricity aggregated 44,014. A target of

supplying electricity to 10,000 more villages and 1,00,000 agricultural pumps has been fixed for the Fourth Five Year Plan.

### MAHARASHTRA STATE ELECTRICITY BOARD

Position as on 31st March 1965 :

|                            |            |
|----------------------------|------------|
| Total installed capacity : | 447,771 KW |
| Steam :                    | 172,500 KW |
| Hydro :                    | 245,824 KW |
| Diesel :                   | 29,447 KW  |

Number of towns and villages and agricultural pumps supplied with electricity :

|                                                                         | Villages | Pumps  |
|-------------------------------------------------------------------------|----------|--------|
| Western Maharashtra .. ..                                               | 1,314    | 9,216  |
| Vidarbha .. ..                                                          | 1,584    | 14,587 |
| Marathwada .. ..                                                        | 219      | 1,208  |
| Total (State) .. ..                                                     | 3,117    | 25,011 |
| Total length of Transmission lines 11 KV and above (Circuit kms) ..     | 17,613   |        |
| Total number of consumers .. ..                                         | 3,93,410 |        |
| Total electricity production in 1964-65 (Miln. KWH) .. ..               | 2,372.53 |        |
| Total electricity purchased in 1964-65 from out-agencies (Miln. KWH) .. | 278.11   |        |
| Total sales in 1964-65 (Miln. KWH) ..                                   | 2,319.25 |        |
| Total expenditure on Electricity Schemes in 1964-65 (Rs. crores) ..     | 17.58    |        |
| Capital assets on 31st March 1965 (Rs. crores) .. ..                    | 79.77    |        |
| Gross Revenue on 1964-65 (Rs. crores)                                   | 16.51    |        |
| Working expenditure for the year ending 31st March 1965 (Rs. crores) .. | 12.03    |        |

### POWER PROJECTS IN OPERATION

The following statement shows particulars of the Board's power projects in operation as on March 31, 1965 :

**Bombay-Koyna System :** Intended mainly to serve the Western Maharashtra region, this system comprises three hydro power stations, viz., the Koyna, Radhanagari and Bhatgar. Certain parts of the Poona, Nasik and Kolaba districts are served by purchasing bulk power from Tatas and the Central Railway Administration and transmitting it over the Board's lines for distribution to its consumers. In addition there are 15 diesel power stations in some places in Sholapur, Kolhapur, Dhulia, Jalgaon, Nasik, Thana and Ratnagiri districts where grid lines have not yet penetrated.

#### Capacity of Power Stations :

|                                 |                   |
|---------------------------------|-------------------|
| Koyna .. ..                     | 240,000 KW        |
| Radhanagari .. ..               | 4,800 KW          |
| Bhatgar .. ..                   | 1,024 KW          |
| Diesel Stations (total) .. ..   | 15,339 KW         |
| Units generated in 1964-65 ..   | 1,726 miln. KWH   |
| Units purchased .. ..           | 278 KWH           |
| Units sold .. ..                | 1,792 KWH         |
| No. of consumers served .. ..   | 2,40,477          |
| Length of transmission lines .. | 7,816 circuit KMS |

**Vidarbha Grid System :** This system is served by three inter-connected steam power stations — Khaperkheda (120,000 KWH), Ballarshah (22,500 KW) and Paras (30,000 KW). There are also two small diesel power stations of a total capacity of 135 KW at Aheri and Dharni. Units generated in 1964-65 : 628 million KWH ; units sold—512 million KWH ; number of consumers served—1,19,588 ; length of transmission lines—7,518 circuit KMS.

**Minor Diesel Schemes :** These were located mostly in Marathwada where grid lines had not yet reached. With the availability of grid power from 1964-65, one by one the stations are closed and grid power supplied to places served by them and also to places lying along the routes of the grid lines. In 1964-65 there were, in all 14 diesel power stations of a total capacity of 13,973 KW in Marathwada. Units generated aggregated 18 million KWH, units sold 16 million KWH ; number of consumers served 33,345 ; and length of transmission lines 2,279 circuit KMS.

### CHOLA, KOYNA

A brief note each on two other power schemes is in order.

Central Railway's Power House at Chola has a total installed capacity of 136,000 kw and supplies electric power for the requirements of Central and Western Railways' electrified lines in Bombay. This power house is interconnected with the Tata-Koyna system.

The second scheme is Koyna, it is the biggest scheme in Maharashtra.

The Koyna Hydro Electric comprises three Stages. The Stage-I of the project was completed as the four generating sets of 60 MW capacity each were commissioned and handed over to the State Electricity Board for operation and maintenance on 1st April 1963. Stage-I of the project is estimated to cost Rs. 31.28 crores.

The Stage-II of the project comprises raising the dam to its final height to store 98,000 M.cft. of water excavation and lining of pressure shafts Nos. 3, and 4, and second power cable tunnel, installation of four generating units of 75 MW capacity each in the underground power house and erection of 220 KV line to Bombay. It also includes construction of power house at the foot of the Dam having two generating units of 20 MW capacity each. The work of Stage-II of the project is nearing completion except the power house at the foot of the dam, work on which is yet to be started.

Stage-II of the project is estimated to cost Rs. 18.16 crores. An expenditure of Rs. 4,795.69 lakhs had been incurred on Stages I & II of the project till the end of December 1965.

The Stage-III of the project contemplates further generation of power on the tail-race waters of Stages I & II by constructing a system of balancing reservoirs, Head-race and tail-race tunnel, pressure shafts and an underground power house. The project envisages construction of a power house for generation of 320 MW at 20 per cent load factor by installing four generations of 80 MW Capacity each. This station is envisaged to run as a peaking station to meet the demand of power at its peak. The project has been administratively approved for Rs. 3,188.90 lakhs. The preliminary work of the project has already started and the project is programmed to be completed by 1971-72. An expenditure of Rs. 42.75 lakhs has been incurred on Stage-III of the project till the end of December 1965.

## HOUSING

Housing schemes are coordinated by the Urban Development, Public Health and Housing Department of the Government. The actual building work and ancillary functions are discharged by the Housing Boards. Finance comes partly from the Government of India.

There are two Boards now, the Maharashtra Housing Board for the western Maharashtra and Marathwada areas and the Vidarbha Housing Board for Vidarbha.

**Subsidised Industrial Housing Scheme :** This scheme is meant for industrial workers whose income does not exceed Rs. 350 per month. The scheme is executed through the Maharashtra Housing Board, Vidarbha Housing Board, Employers and Co-operative Societies of Industrial workers. The Housing Boards are provided with 100 per cent financial assistance. The financial assistance is given to the employers at the rate of 50 per cent loan and 25 per cent subsidy and to the Co-operative Societies at the rate of 65 per cent loan and 25 per cent subsidy. In addition, employers can also give their 25 per cent share of subsidy to the Housing Boards for construction of tenements for their employees. The rents charged are subsidised rents as fixed by the Government of India. The total number of tenements completed, agency-wise till March 31, 1966 is as follows : Maharashtra Housing Board 25,809; Vidarbha Housing Board 3,612; Employers 4,085; Co-operative Housing Societies 320; Total 33,826.

The construction of 2,610 tenements including spill-over works would be the programme of the two Housing Boards during 1966-67.

**Slum Clearance Scheme :** This scheme provides for construction of tenements and provision of plots for slum dwellers whose income does not exceed Rs. 250 per month in Bombay and Rs. 175 per month else where. The scheme is executed through the agency of local bodies and the Maharashtra Housing Board. The rents charged are subsidised rents as fixed by the Government of India. The total number of tenements constructed by the various agencies till the end of March 1966 is as follows : Maharashtra Housing Board 13,021; Bombay Municipal Corporation 3,875; Poona Municipal Corporation 724; Nagpur Municipal Corporation 332 (plots); Nagpur Improvement Trust 50 tenements and 650 (plots); Dhulia Municipality 64; Total 17,734 tenements and 982 plots.

The construction of 6,718 tenements including the spill-over works would be the programme of the Maharashtra Housing Board for 1966-67.

**Low Income Group Housing Scheme :** This scheme is meant for persons whose total annual income does not exceed Rs. 6,000. The scheme is in operation in the municipal areas of the State. Loans equal to 80 per cent of the cost of construction subject to a maximum of Rs. 10,000 per tenement are granted under the scheme to individuals, institutions, local bodies etc. The total number of tenements completed through the various agencies till the end of March 1966 is as follows : Maharashtra Housing Board 8,035; Vidarbha Housing Board 54; Individual 384; Local Bodies 1,496; Co-operative Societies 3,262; Institutions 85; Total 13,316.

The construction of 886 tenements including spill-over works would be the programme of the two Boards for 1966-67.

**Economically Weaker Sections Schemes :** This scheme provides for construction of tenements for persons whose monthly income does not exceed Rs. 250 per month in Bombay and Rs. 175 elsewhere. The scheme is executed

through the agencies of the Vidarbha Housing Board and the Maharashtra Housing Board, which are given 100 per cent financial assistance. Under the integrated Subsidised Housing Scheme for industrial workers and economically weaker sections the subsidy portion of central assistance has been raised to 50 per cent from 25 per cent and the rents to be charged would be subsidised rents as fixed by the Government of India. This is applicable only to projects sanctioned after the 1st April 1966. The total number of tenements constructed by the various agencies till the end of March 1966 is as follows : Maharashtra Housing Board 690.

The construction of 520 tenements including spill-over works would be the programme of the two Boards for 1966-67.

**Sweepers Housing Scheme :** This is meant for providing residential houses to the sweeper employees of the various local bodies in the State. The scheme is executed through the agency of local bodies, individual sweepers and recognised social service agencies, which are given financial assistance by way of loan and subsidy based on the approved cost. The total number of tenements constructed under the scheme till the end of March 1966, is 262.

**Middle Income Group Housing Scheme :** This scheme is meant for persons whose monthly income is between Rs. 501 and 1,250. The scheme is implemented through the Maharashtra Housing Board and the Vidarbha Housing Board. Funds required by the Boards are made available to them from the loans drawn from the Life Insurance Corporation of India by the Government. The tenements constructed are given on rental and hire-purchase basis. The total number of tenements constructed till the end of March 1966 by the two Boards is 1,709.

The construction of 1,021 tenements including spill-over works would be the programme of the two boards for 1966-67.

**Land Acquisition and Development Scheme :** The scheme is executed through the agencies of the Maharashtra Housing Board and the Nagpur Improvement Trust, which are given financial assistance to the extent of 100 per cent. The Maharashtra Housing Board has been allowed to constitute "Revolving Fund" out of the amount of Rs. 110 lakhs given to it under the Scheme. Since 1962-63, assistance for this scheme is given to the two agencies from the loans drawn by the Government from the Life Insurance Corporation of India. The area acquired and notified for acquisition respectively in acres till the end of Sept. 1964 by the two agencies is given below : Maharashtra Housing Board 515; 1,258; Nagpur Improvement Trust 91.82; nil; Total 606.82; 1,258.

## ROAD TRANSPORT

A single road transport corporation for the entire State, known as the Maharashtra State Road Transport Corporation, came into existence from July 1, 1961.

The position of Maharashtra State Transport for 1964-65 is given below : No. of passengers carried (in lakhs)—2,898.79; Capital invested (Rs. in lakhs)—2,194.35. Total gross revenue (Rs. in lakhs)—2,321.66; Total revenue expenditure (Rs. in lakhs)—2,295.75.

The operational data of Maharashtra State Road Transport Corporation as of March 1965 :

No. of passenger vehicles—3,229; No. of goods vehicles—145; No. of routes operated—2,621; Route mileage—98,549; Major workshops—One central, 11 divisional

and 86 depot and sub-depot workshops; No. of persons employed—22,654; No. of nationalised city services—Eleven; No. of municipalised city bus services—four; Rate per passenger mile—5 P.; Total bus miles operated—12,15,05,608; Total No. of passengers carried—2,898.79 lakhs; No. of bus stations—59, temporary bus stations—162; No. of refreshment rooms—382; No. of cloak-rooms—84; Pick-up stands—449.

### MILK SCHEME—1966

Staff employed : Govt. Regular 4,971; Parttime 3,320; daily rated 2,000.

Area of Govt. Land : 4,057.42 hectares (Aarey 1,279.97 hec.; Palghar 1,379.58 hec.; cultivated under irrigated fodders at Aarey for Para-grass 210.43 hec.; Vankas 1,179.44 hec.; Worli 8 hec.).

Daily quantity of milk procured : Aarey 108,893 litres; Kaira District Milk Producers' Union, Anand (Gujarat State) 79,626 litres (25,000 litres spared for Defence Work); Co-operative Societies (Greater Bombay) 12,649 litres; Mofussil Schemes 71,883 litres.

#### Distribution of Milk (per day in litres) :

| Type                                      |          |
|-------------------------------------------|----------|
| Whole Milk .. .. .                        | 232,459  |
| Toned Milk .. .. .                        | 95,834   |
| Double Toned Milk to Municipal Schools .. | 26,250   |
| Sterilised Milk .. .. .                   | 728      |
| Cow Milk .. .. .                          | 700      |
| Total Litres .. .. .                      | 3,55,971 |

Number of distribution centres : Part-time centres—1,565; Full-time centres—10; Mobile milk-bar—1; Total number of consumers taking milk from scheme : Families—280,000; Hospitals and Institutions (bulk Supply)—506.

Sale price of milk per litre : Whole Milk Rs. 1.30\*; Cow Milk Rs. 1.30; Toned Milk Re. 0.60†; Doubled Toned Milk Re. 0.45; Sterilised Milk Re. 0.20 per bottle at Government Centre; Re. 0.25 per bottle at Govt. and private milk bars.

Transport : Milk distribution vehicles 171; Milk procurement vehicles 46 (including 5 milk tankers); Staff vehicles 48; vehicles for other work 43.

Water Consumption (daily) : 18,16,000 litres (Aarey); 2,910,000 litres (Worli).

Electricity (Weekly) : 52,500 units (Aarey); 110,000 units (Worli).

Fuel Furnace Oil (Weekly) : 30,000 litres (Aarey); 49,000 litres (Worli).

Bottles replaced (Weekly) : 10,000 (Aarey); 15,000 (Worli).

Detergents (Weekly) : 3,300 kgs. (Aarey); 6,607 kgs. (Worli).

### The Aarey Milk Colony

Started: 13th March 1949; Investments by the Govt. at Aarey : Rs. 40 million; by Cattle-owners (in cattle) Rs. 30 million.

Pasteurising Capacity (Central Dairy) : 18,000 litres per hour.

Bottling capacity : 40,000 bottles per hour.

Number of livestock as on March 1966; (Aarey) : 15692 (Buffaloes 15409, Cows 283); dry 461 (Buffaloes

406, Cows 55); bulls 161 (buffaloes 158, cows 3); Young stock 3,565 (buffaloes 3,550, cows 15); in Districts (undergoing salvage) 15,125; at Palghar (undergoing salvage) 1,200.

Number of Licensee Cattle-owners 215; Number of Dairy Farm units 30.

### The Worli Dairy

Started : Nov. 7, 1961; Investment on land, buildings etc. : Rs. 1,06,18,000; Value of machinery purchased by State Govt. Rs. 28,34,000; Value of machinery supplied by UNICEF Rs. 75,16,000.

Pasteurising Capacity : 40,000 litres per hour; Bottling capacity : 50,000 bottles per hour.

### LABOUR

Particulars about labour in Maharashtra State are given below :

Total number of registered factories as on Dec. 31, 1964 : 9,757.

Number of Works Committees functioning as on 31st Dec. 1965 : 210.

Average daily number of workers employed in factories as on Dec. 31, 1964 : 9,07,501.

Number of towns covered as on Jan. 1, 1966 by the Bombay Shops & Establishments Act, 1948 : 120.

Number of industries covered by the Bombay Industrial Relations Act, 1946 as on Dec. 31, 1965 : 10. Bombay Industrial Relations Act is made applicable to all industries except Saw Mills in Vidarbha area and to Cotton Textile and Sugar Industries in Marathwada area of this State since 1st May 1965.

Trade Unions (March 31, 1965) : Number of workers covered by the Bombay Industrial Relations Act, 1946 : 3,33,192; Number of registered trade unions : 1,877; Total membership of registered trade unions : 11,29,033; Number of regd. trade unions affiliated to I.N.T.U.C. : 137; Membership of unions affiliated to I.N.T.U.C. : 2,37,718; Number of regd. trade unions affiliated to A.I.T.U.C. : 52; Membership of unions affiliated to A.I.T.U.C. : 1,88,056; Number of regd. trade unions affiliated to H.M.S. : 51; Membership of unions affiliated to H.M.S. : 35,785.

Shops, Establishments and Factories (1964) : No of Shops and Establishment : 2,69,403; No. of employees employed (Shops & Establishment) : 5,55,153; Total No. of (registered) working factories (31st December 1964) : 9,757; Average daily attendance of factory workers : 9,07,501.

Industrial Disputes in 1965 : No. of strikes 592; No. of workers directly involved 5,55,298; No. of workers indirectly involved 2,931; No. of man-days lost 13,82,044.

### THE MAHARASHTRA LABOUR WELFARE BOARD

Jambori Maidan, Worli, Bombay 18 (W.B.)

The number of welfare centres under the control of the Maharashtra Labour Welfare Board are 73. In addition, there are three sub-centres carrying out activities on a restricted scale. Activities of these centres include recreation through entertainment, games and sports, health programme through first aid and health education, community and social education, subsidiary occupations and handicraft for women, nursery schools and scouts and guides for children, creches for toddlers, Tailoring Classes, etc.

Along with the programme of mass recreation, health and education, there has also been an emphasis on skilled recreation with an educative bias.

\* Rs. 1.70 from April 24, 1967.

† Re. 0.90 from April 24, 1967.

Attendance for 73 welfare centres in the State during 1964-65 was 3,21,55,159 with a regular membership of 1,28,974.

#### Industrial Disputes (1965)\*

No. of strikes 592; No. of workers directly involved 5,55,298; No. of workers indirectly involved 2,931; No. of man days lost 13,82,044.

**Official Language:** Maharashtra Official Language Act, 1964 has been passed in the State Legislature and Directorate of Languages has nearly finalised the initial preparations like training of typists and stenographers, preparing administrative lexicon and other help books, etc. needed for the change-over from English to Marathi.

**Decentralisation of Administration:** In the State all villages have been brought within the fold of Panchayati Raj. Out of the total number of 38,437 villages, 38,259 villages have been covered by establishment of 20,823 Gram Panchayats. In addition 3,518 Nyaya Panchayats have been notified. Elections to these Nyaya Panchayats are in progress. So far (Feb. 1966) elections to 2,686 Nyaya Panchayats have taken place.

#### EMPLOYEES STATE INSURANCE SCHEME

(See after Madras)

\* Figures are provisional.

The following table shows particulars about some of the bigger projects under construction.

| Projects     | Location                               | When started | Date of completion | Area to be irrigated (Acres)            | District benefited    | Estimated cost Rs. in lakhs     | Amount spent upto 31-3-1966 Rs. in lakhs |
|--------------|----------------------------------------|--------------|--------------------|-----------------------------------------|-----------------------|---------------------------------|------------------------------------------|
| Vir .. ..    | Vir, Purandar, Dt. Poona.              | 1956         | 1965               | 66,000                                  | Satara and Sholapur.  | 541.13<br>(Revised anticipated) | 470.58                                   |
| Warna ..     | Khujgaon, Shirala, Dt. Sangli.         | —            | Not fixed          | 2,23,439                                | Kolhapur and Sangli.  | 3,108.00                        | 32.12                                    |

#### IRRIGATION

The total area irrigated through all irrigational sources in Maharashtra State in 1962-63 was 27.82 lakh acres (net) and 31.58 lakh acres (gross).

Below are given particulars about projects in operation.

**Bhatghar Dam and Nira Canals:**—On Bhatghar, Poona Dt., completed in 1938, irrigates 1,55,582 acres in Poona, Sholapur and Satara Dts. The cost of the scheme is Rs. 7.20 crores.

**Bhandardara Dam and Pravara Canals System:**—On Bhandardara in Ahmednagar Dist., completed in 1926, irrigates 65,912 acres in Ahmednagar. Cost 1.62 crores.

**Darna Dam and Godavari Canals System:**—At Darna in Nasik Dist., completed in 1916, irrigates 69,117 acres in Ahmednagar and Nasik Dists. Cost Rs. 3.51 crores.

**Chankapur Tank and Girna Canals:**—At Chankapur in Dist. Nasik, completed in 1910, irrigates 10,348 acres in Nasik. Cost Rs. 21 lakhs.

**Gangapur Dam:**—At Gangapur in Nasik Dist. Stage I, physically completed in 1957, would irrigate 21,500 acres in Nasik and 20,000 acres in Ahmednagar Dist. Cost Rs. 3.95 crores. Stage II is completed except few canal works which will be completed during the current year. It would irrigate 19,000 acres in Nasik. Cost Rs. 111.55 lakhs. An expenditure of Rs. 5.23 crores has been incurred till March 1966 on Gangapur Stage I and II.

The following table shows particulars about some of the bigger projects under construction—(Contd).

| Projects          | Location                                               | When started | Date of completion                                      | Area to be irrigated (Acres) | District benefited       | Estimated cost Rs. in lakhs    | Amount spent upto 31-3-1966 Rs. in lakhs |
|-------------------|--------------------------------------------------------|--------------|---------------------------------------------------------|------------------------------|--------------------------|--------------------------------|------------------------------------------|
| Purna ..          | Sidheshwar, Jintur, Dt. Parbhani.                      | 1957         | 1966-67                                                 | 1,52,000                     | Parbhani and Nanded.     | 1,491.00 (Revised anticipated) | 1,402.26                                 |
| Manar Stage I ..  | Warwant, Kandhar, Dt. Nanded.                          | 1959         | 1966-67                                                 | 25,000                       | Nanded.                  | 223.08                         | 225.19                                   |
| Manar Stage II .. | (—do.—)                                                | 1963         | 1968                                                    | 41,000                       | Nanded.                  | 200.00                         | 124.97                                   |
| Kal ..            | Dolvahal Roha, Dt. Kolaba                              | 1965         | 1970                                                    | 19,683                       | Kolaba.                  | 242.00                         | 24.56                                    |

### MEDIUM AND MINOR PROJECTS

The medium and minor irrigation projects are expected to bring an additional area of 12,09,140 acres under irrigation.

An amount of Rs. 1,202.17 lakhs has been spent on the Minor Irrigation Works during the Third Plan period and a new irrigation potential of 1,08,190 acres is created.

### MAJOR AND MEDIUM PROJECTS

In the Third Plan, in all 27 new major and medium irrigation projects were included in addition to the 49 spill over schemes, for a total outlay of Rs. 69.06 crores which included flood protection works, extension and improvement, survey and investigation of major and medium irrigation projects etc. Against this provision expenditure of the order of Rs. 6,583.25 lakhs has been incurred during the Third Plan period. Out of the schemes which were under execution in the Third Plan, as many as 36 were physically completed and have started yielding benefits.

The Third Plan envisaged the creation of additional potential of 8.33 lakh acres due to Major and Medium projects. Against this, the actual achievement by the end of 1965-66 is 3.14 lakhs acres.

The names of the Major Projects and proposed outlays in Rs. lakhs for 1966-67 for each of them respectively are as follows :—

Mula 191.65; Karwand 37.72; Khadakwasla stage-I 128.41; Vir 2.00; Bhima Irrigation 52.43; Girna 141.43; Ghod 1.78; Dina 8.66; Itiadoh 74.79; Bagh 74.70; Bor 20.50; Katepurna 40.51; Nalganga 8.91; Manar Stage I 1.80; Manar Stage II 41.84; Purna 73.45; Jayakwadi 111.42.

### INDUSTRIES

(See after Madras)

### AGRICULTURE

During the Third Five Year Plan period production of foodgrains declined significantly to 56.06 lakh tonnes in the first year from the record production of 67.55 lakh tonnes in the earlier year. But it steadily increased from 56.06 lakh tonnes in 1961-62 to 59.85 lakh tonnes in 1964-65. The production of pulses during 1962-63 was lowest at 8.28 lakh tonnes. During 1963-64 and 1964-65 the production remained at 8.8 lakh tonnes. The production of Cotton in 1963-64 was 2.60 lakhs tonnes. During 1964-65 it declined to 2.22 lakh tonnes.

Sugarcane is grown in all the districts except the Konkan districts, the major cane growing districts being Ahmednagar, Kolhapur, Poona, Nasik, Satara, Sangli, Sholapur, Osmanabad and Aurangabad. These nine districts have about 1.23 lakh hectares under sugarcane yielding 9.74 lakh M. tonnes of sugarcane (in terms of gur) in 1962-63. Estimated production of sugarcane in 1963-64 was 11.49 lakh tonnes.

The Marathwada districts have nearly 6.52 lakh hectares under oilseeds, the corresponding figures for Vidarbha districts being 3.66 lakh M. tonnes. The western Maharashtra including Jalgaon has about 9.12 lakh hectares under oilseeds.

As regards cotton, the area and production in Marathwada, Vidarbha and Western region including Jalgaon is as follows : Marathwada : 7 lakh hectares, 5 lakh tonnes; Vidarbha : 15 lakh hectares and 10 lakh tonnes; Western region : 4 lakh hectares and 7 lakh tonnes.

Although the Konkan districts are lean in the production of food crops, they excel in horticultural wealth. Ratnagiri district has 9,200 acres under mangoes. Similarly, the district has 8,900 acres under cashewnut. Thana district is the home of bananas, with an acreage of 2,900. Nagpur oranges are well-known. They are grown in Nagpur, Amravati and Wardha Districts, which have about 37,000 acres under them. In Jalgaon district also the area under bananas is large viz. about 30,000 acres.

## LAND REFORMS

For the purposes of tenancy reform, Maharashtra State falls into the following main categories:—

- (i) The former Bombay areas consisting of 13 districts which are governed by the Bombay Tenancy and Agricultural Lands Act, 1948;
- (ii) Vidharbha areas consisting of 4 districts of former Central Province and 4 Berar districts, governed by the Bombay Tenancy and Agricultural Lands (Vidarbha Region) Act, 1958;
- (iii) The Marathwada area consisting of 5 districts governed by the Hyderabad Tenancy and Agricultural Lands Act, 1950.

The main provisions of these laws are more or less similar and they can broadly be grouped under the following five topics:—

- (i) Security of tenure for tenants, (ii) Regulation of rent, (iii) Resumption for personal cultivation, (iv) Rights of ownership for tenants, (v) Land management.

Details about "Land Reforms" were given in the previous editions of the Directory.

The programme of consolidation of small and uneconomic holdings was completed in 1,869 villages by the end of 1963, covering an area of nearly 31 lakh acres. In the western Maharashtra about 5,20,000 tenants out of 16 lakh tenants have till March 1965 become owners of 10.28 lakh acres of land as a result of legislation for compulsory transfer of ownership from landlord to tenant.

## MINERALS

The rich deposits of iron ores, estimated to be of the order of about 212 million tonnes, located in Chanda district of Vidarbha and Ratnagiri district of Konkan, very large deposits of manganese ore, both of high and low grade, occurring in Vidarbha, particularly Nagpur and Bhandara districts, extensive deposits of bauxite, estimated about 34.5 million tonnes in Kolhapur district alone, as also in parts of Ratnagiri, Thana and Kolaba districts and coal reserves of over 4,633 million tonnes in Vidarbha, constitute the mineral wealth of Maharashtra.

In addition to these major minerals, there also occur other minerals like ilmenite, chromite, mica, silica, limestone, clay, etc.

**Iron Ore:**—Very rich deposits of iron ore, estimated to be of the order of about 212 million tonnes, are located in various parts of Maharashtra, particularly in Ratnagiri and Kolaba districts and in Chanda district of Vidarbha region.

Important occurrences of iron ore are located in Ratnagiri District in Konkan, round about in Vengurla taluka and Bandapeta in Sawantwadi taluka. The overall potential appears to be enormous, the iron content in them varying from 45 to 66 per cent. A few mining concessionaires are already working in the Redi area and the present annual output is about 0.39 million tonnes. Patches of iron ore, lateritic or otherwise, are also known to occur in Kolaba district, round about Janjira.

Nagpur region, however, seems to be rich, not only in manganese and coal deposits, but also in iron ore. Those occurring in Chanda district are the most important, both in extent and quality. They occur at places like Lohara, Asola, Dewalgaon, Bissi, Pipalgaon, Fuser, Ratnapur and Surajgarh.

**Manganese:**—The Vidarbha region has very large deposits of manganese ore, both of high and low grade. There are 102 working mines exploiting manganese ore in various parts of Maharashtra. Most of the areas bearing

high grade ore have already been leased out. For the present, almost the entire quantity of manganese ore produced is exported in raw condition. However, recently, two ferro-manganese plants which utilize a sizeable quantity of the ore have been set up one each in Nagpur and Bhandara districts.

In Bombay division also, the manganese ore appears to be occurring almost side by side with the three iron-ore belts running parallel in Ratnagiri district.

**Bauxite:**—Kolhapur district has rich deposits of bauxite. More than 34.5 million tonnes of bauxite exist in this zone. They occur at Udgiri, Dhangarwadi, Rangewadi, Radhanagari, Waki, Gargoti, Panhala, Ajra and Vishalgadh all in Kolhapur district.

In the Coastal region, bauxite occurs in Ratnagiri, Thana and Kolaba districts. The deposits of Ratnagiri lie in the up-ghat region at Amboli. The reserves were estimated at over one million tonnes in Ratnagiri district. The ore occurs at Tungar hills in Thana district and in the Borivli, Jogeshwari and Goregaon area. In Kolaba district, bauxite deposits of good quality have been reported at Dohane, Ambegaon and Wakalghar in Murud taluka and Wave and Shinona in the Shriwardhan taluka. The proved and estimated reserves in Kolaba district are 2.2 and 1.6 million tonnes respectively.

**Coal:**—Coal occurs at Kamptee in Nagpur district and in the Wardha valley. The Wardha valley comprises the Bandar, Warora, Majri, Rajura, Chanda (Durgapur, Mahakali, Babulpeth and Lalpeth), Ghugus and Ballarpur fields. The deposits are, however, of the second grade as compared to the Jharia grade and are of non-coking variety. At present, about 10 coal mines are being worked in this area. The Bhandar reserves are estimated at about 110 million tonnes, while the Warora field reserves are roughly over 61 million tonnes. The reserves of the Rajura and Wani coal fields are of the order of 295 million tonnes.

In Nagpur district, coal has been proved at Tekadi and Juni Kamptee. The estimated reserves are of the order of 387 million tonnes. Areas between Kanhan and Saoner are likely to contain extensive deposits of coal. Mining operations have been undertaken at Kamptee. However, the present production is diverted exclusively to the Khaparkheda thermal power station.

However the total coal reserves in the Vidarbha region are of the order of 5,257 million tonnes.

**Limestone:**—The Marathwada region has limited mineral resources, which consist chiefly of building stones, semi-precious stones, zeolites and material for lapidary industry. Limestone deposits have, however, been discovered south-west of Mohada in the Kinwat Taluka of Nanded district. The workable reserves are provisionally estimated at 0.71 million tonnes. The deposits are of poor quality.

Important deposits of limestone in Nagpur Division are located near Rajura in Yeotmal district and Warora in Chanda district. In Chanda district, limestone occurs about 0.4 kilometres north-west of Purkepar village, about 6.4 kilometres east of Nawargaon. It also occurs in Kondala village and at Wardha. The estimated reserves of Chanda district are of the order of 10.16 million tonnes of workable limestone, suitable for cement manufacture. The estimated reserves of Yeotmal District are of the order of 4,064 million tonnes.

In Poona Division, limestone has been located at Kallur, Nandur, and Khandarwadi in Ahmednagar district. Recent surveys reveal good deposits of limestone in the Miraj taluka of Sangli district.

Limestone deposits are also known to occur in Ratnagiri district to the south-west of Phonda ghat and in the high hills of Hanumat ghats. Limestone patches occur right from Dabhol to Panvel, Malad to Bassein and Palghar to Dahana.

**Dolomite:**—Extensive deposits of dolomite and dolomitic limestone occur in Yeotmal, Chanda and Nagpur districts of Vidarbha region. A reserve of 50 million tonnes of flux grade dolomite have been proved in Wani tehsil, Yeotmal district. The reserves of dolomitic marbles in Nagpur district are estimated at 186 million tonnes. The dolomite of Nagpur and Yeotmal districts is used as flux by the ferro-manganese plants situated in Kanhan and Tumsar.

The distribution of some other minerals are:—

**Ilmenite:**—Deposits of ilmenite sand (ilmenite content—70 to 76 per cent) occur sporadically along a 40 kilometre long coastal belt from Purnagarh to Malgund and beyond in Ratnagiri district. Probable reserves at some important localities like Rajwade, Bhatia, Ratnagiri, Purnagarh, Gaonkhedi and Malgund are 0.24 million tonnes. These are not worked at present.

**Chromite:**—Ratnagiri District (Kankavali, Vagda), estimates 71,000 tonnes, and Bhandara district (Pauni), estimates 487,000 tonnes. Chromite is mined in Bhandara district only.

**Mica:**—Important occurrence of mica is near Kudaval in Ratnagiri district. Besides, mica is reported from Chanda, Nagpur and Bhandara districts.

**Silica:**—Ratnagiri District; estimates over 21 million tonnes. Now worked. Yield 23,000 tonnes a year.

**Clay:**—Ratnagiri District (Talegaon, Malvan, Vengurla, Kudal, Sawantwadi); Thana District (Ghokhara Mouza near Bassein Road); Nagpur District (Bozargaon, Shemda, Khapri); Amravati District (Belkher, Kharaili, Pandhari); Chanda District (Kothari, Isapur, Ballarshah, Junona,

Bhandak). Some leased for pottery works at Nagpur, Jabalpur and Chanda.

**Felspar and quartz:**—Ratnagiri District (Kadwa-Pan-gharat; also southern areas).

**Ochres:** Ratnagiri District (Savantwadi, Kudal, Vengurla).

In 1964, the total value of mineral production in Maharashtra was Rs. 71.6 million as against Rs. 67.2 million in 1963. The State ranks tenth in mineral production in India.

**Source:**—Intelligence Branch, Mineral Economics Division, Indian Bureau of Mines, Nagpur.

### THIRD PLAN

**State level Schemes:** Of the total revised plan outlay of Rs. 418.38 crores, the outlay on State level schemes is Rs. 36.46 crores. The table below shows the region-wise distribution of the revised State Plan outlay less the outlays on State level schemes and the resultant per capita outlays in the different regions on the basis of their population according to 1961 census.

| Division                           | Total revised outlay<br>(Rs. crores) | Per capita outlay<br>(Rs.) |
|------------------------------------|--------------------------------------|----------------------------|
| Greater Bombay .. ..               | 30.39                                | 73                         |
| Bombay excluding Bombay City .. .. | 91.40                                | 96                         |
| Poona .. ..                        | 97.34                                | 93                         |
| Nagpur .. ..                       | 96.11                                | 104                        |
| Aurangabad .. ..                   | 66.68                                | 105                        |
| Total .. ..                        | 381.92                               | 96                         |

*Note:* Because of security reasons, we have not been able to get details about region-wise irrigation projects.

## GREATER BOMBAY

The area of Greater Bombay is 186 sq. miles and the population 4,152,056 (1961 Census).

The area of Bombay City is 26 sq. miles and the area of the Bombay Suburban District is 160 sq. miles. For population see under "Population".

The northern boundary runs from the north of Dahisar village in the west, in the centre between the milestones 21 and 22 on the Agra Road.

The municipal area of Greater Bombay described above is also the area covered by Bombay City and the Bombay Suburban District from the point of view of revenue division.

The Collector for Bombay City is also the Collector for the Bombay Suburban District. Bombay City Collectorate is directly under the Government and is governed in accordance with the provisions of the Bombay City Land Revenue Act of 1876.

The Bombay Suburban District has besides the Collector, one Additional Collector, one District Deputy Collector, one Additional District Deputy Collector and three Mamlatdars one for each of the Talukas. Andheri (also called South Salsette) with headquarters in Andheri, Borivli with headquarters in Borivli and Kurla with headquarters at Mulund (with effect from Aug. 16, 1962). The headquarters of the Additional District Deputy Collector is at Andheri.

There are 33 Presidency Magistrates Courts, 10 Police Divisions and 38 police stations in Gr. Bombay.

### AGRICULTURE

In Bombay Island proper though about 8 sq. miles of unbuilt and undeveloped land is available there is practically no agriculture. Vegetables, flowers and fruits are grown in private gardens and wadis but on a very negligible scale. In the newly merged areas and the adjoining suburbs, however, extensive paddy cultivation is carried on. Vegetables and fruits are also grown especially during the monsoon. The produce is largely marketed in Bombay.

### COMMERCE AND INDUSTRY

Commercially and industrially Bombay is the second, if not the first City in India. It is the principal centre of the cotton textile industry (56 cotton mills with 58,547 looms and 31,06,502 spindles). Its share in looms and spindles is 32.45 per cent and 24.06 per cent respectively of the total in the country. There are over 566 textile factories including silk, woollen and hosiery; over 986 engineering undertakings; over 146 establishments manufacturing articles of food, drink and tobacco; over 256 establishments producing chemicals, etc.; 19 hides and skins processing concerns, and over 2,000 factories of a miscellaneous character.

During 1964 it was reckoned that there were 1,753 factories employing under 20 workers; 1,423 factories employ-

in between 20 and 50 workers; 1,260 employing between 50 and 500; 173 employing between 500 and 5,000 and 16 having more than 5,000 workers.

The following are the number of factories registered and working under different categories and their daily average number of employees respectively during 1964: Food except beverage 301; 290; 16,654; Textiles 660; 649; 264,770; Printing, publishing, and allied industries 424; 414; 19,391; Chemicals and Chemical products 322; 314; 29,409; Metal products (except machinery and transport equipment) 656; 642; 37,478; Machinery (except electrical machinery) 421; 412; 31,354; Electrical machinery 253; 250; 25,542; Transport equipment 148; 145; 51,717; Others 15,38; 15,09; 110, 379; Total 4,723; 4,625; 586,694.

The Reserve Bank of India, the central banking and currency authority has its Central Office in Bombay and 30 Indian Scheduled Banks operate in Bombay. Of the scheduled banks four have their registered offices here. There are 14 foreign Scheduled Banks. Of these eight have their principal offices located in Bombay.

Being the best natural harbour in India, the trade carried through Bombay is about 46 per cent of the total trade of India. The principal items of import are bricks, cement, sand, etc.; China clay; coal; cotton; glassware; grain; hardware; iron and steel; kerosene; fuel oil; motor vehicle parts; machinery; boilers and railway materials; oilman stores; oils; vegetables, etc.; paper; piece-goods; petrol; sugar; timber; twist and yarn; Government and naval and military stores.

The main exports are cola; cotton; flour; groundnuts; hemp; hides and skins; kerosene and fuel oils; manganese ore; myrobalans; oil-cake; piece-goods; seeds; spices; sugar; wool packages; twist and yarn; Government and naval and military stores;

The total returns to the Central Government from Greater Bombay in customs revenue for the year 1964-65 is about 45.63 per cent of the total revenue from the seaborne and air borne trade of India. The income-tax return to the Central Government from Greater Bombay is about 31.82 per cent of the total income from the country. The Corporation Tax amounts to about 42.5 per cent of the total collections in Gr. Bombay.

## THE GREATER BOMBAY CORPORATION

To improve the tempo of civic amenities and to add substantially to the convenience of the public the administration was divided ward-wise from 1964-65. The Municipal Commissioner in his budgetary note (1966-67) says that the "Scheme is as yet in an experimental stage and will have to be followed up by framing the budget estimates also on ward-wise basis." In the meantime a consolidated budget has been prepared by amalgamating the divisions corresponding to city, suburbs and extended suburbs.

The municipal area of Greater Bombay is now divided into 14 administrative wards. These are A, B, C, D, E, F (North); F (South); G (North); G (South); H; K; L + M; N + T; P + R.

For election purposes the municipal area of Greater Bombay is divided into 44 electoral wards—numbered 1 to 44.

The municipal government of Greater Bombay vests in the Municipal Corporation, composed of 131 representatives elected on adult franchise.

## COMMUNICATIONS

From the communications point of view Bombay holds a unique position. There are numerous air routes connecting Bombay with the rest of the country, and it is also directly linked with foreign countries aurally. The head offices of two chief railway systems, the Central and Western Railways are in Bombay which is rail linked with Calcutta, Delhi, Nagpur and Madras. It is the second biggest port and the chief sea communications centre of India. Greater Bombay's transport requirements are met by the local services of the two railways, Central and Western, besides the bus services of the municipalised Bombay Electric Supply and Transport Undertaking.

## HOUSING

Statement showing the number of tenements constructed and completed by the Maharashtra Housing Board from April 1, 1947 to Dec. 31, 1965 in the Greater Bombay area, under the respective groups: Old industrial housing scheme 2,608; scheme for B.S.O.R. 500; old low income group housing scheme 2,075; military hutments 1,575; subsidised industrial housing scheme 24,910; rehabilitation scheme 19,715; new low income group housing scheme 7,749; slum clearance scheme 12,427; housing scheme for dishoused persons 200; middle income group housing scheme 1,464; economically weaker section housing scheme 666; acquisition and development of lands 515 acres; Juhu-Vile Parle development scheme 426 acres; Total expenditure incurred during the above period for the whole State Rs. 3,559.28 lakhs. (This is inclusive of Rs. 40.46 lakh rupees for the assets transferred from Marathwada). This is exclusive of the tenements and expenditure incurred on the works transferred to Gujarat Housing Board due to bifurcation.

Total number of households : 568,862.

22,695 households were examined in a sample survey. The number of persons living in them was 107,282—66,530 males and 40,752 females.

Out of these households, the number of small households (3 members and less) was 9,110, and the number of persons living in them was 18,518; of medium households (4 to 6 members) 8,238, and the number of persons 39,699; of large households (7 to 9 members) 3,656, and the number of persons 28,454; of very large households (10 and above) 1,691, and the number of persons 20,611.

The Corporation has four statutory committees, the Standing Committee, the Improvements Committee, the Bombay Electric Supply and Transport Committee and the Education Committee.

The executive power in regard to general municipal administration vests in the Municipal Commissioner. The administration of the B.E.S.T. Undertaking, however, vests in the General Manager, B.E.S.T.

The Corporation is required to meet at least once a month. In actual practice it meets twice a week and oftener if necessary. Meetings of the Corporation are presided over by the Mayor who also convenes the meetings. The Mayor's term of offices is one year and he is elected at the first meeting in April.

The Corporation has decided to adopt the Maharashtra State Government rolls and Legislative Assembly Constituencies after sub-dividing each of the said constituencies into five single member municipal wards and to raise the

term of the corporation from 4 to 5 years. The next municipal general election which were to be held in March 1966, are now proposed, by the State Government, to be postponed till 1968 on the basis of single member constituencies (120 wards).

The four most important officers of the Corporation are the Municipal Commissioner, the General Manager of the Undertaking, the Municipal Secretary and the Municipal Chief Auditor.

### EDUCATION AND MEDICAL RELIEF

Primary education is free and compulsory in the Lower Primary standards of Municipal Schools all over Greater Bombay. It is the special responsibility of the Corporation.

But only about 88 children out of 100 receive an education.

From 1958 the benefit of free education was extended to the upper primary classes too.

There were 892 Municipal Schools and Classes conducted by the Education Committee and 520 Aided or Recognised Schools. The total number of pupils in all Primary Schools was about 6,00,000 out of whom 4,80,000 were in Municipal Schools and the rest in other Schools. The Corporation spent about Rs. 5.4 crores on primary education in 1964-65. Of this Government contributed Rs. 65 lakhs. There was a net increase of 30,000 pupils in Municipal Schools during the year.

Education cess collected during 1963-64 was Rs. 59,60,778.

With the sanction of the State Government the Corporation has started 17 secondary schools. Instruction is imparted through Marathi, Gujarati, Urdu, Hindi and Kannada.

The Municipality maintains the Victoria and Albert Museum at Victoria Gardens and 19 libraries.

**Medical Relief :** The Municipality runs one large hospital for infectious diseases (except tuberculosis, venereal disease and leprosy) at Sane Guruji Road and three other large general hospitals in the City proper (K.E.M. ; Nair and the Lokamanya Tilak Hospital, previously known as the Sion Hospital) and a group of hospitals for the treatment of tuberculosis at Sewri, an isolation centre at Dadar and four clinics and an ear, nose, throat hospital at Napier Road. Altogether 1,188 beds are reserved for T.B. patients. In the Suburbs there are four general hospitals and 1 T.B. Clinic and 300 beds reserved for T.B. patients. Medical treatment is administered also through 59 general dispensaries, 2 Ayurvedic dispensaries, 1 Unani, 6 women's and children's clinics, 9 Mobile Hospital Units, and 17 Maternity Homes. The five general hospitals have maternity wards where maternity cases are treated free of charge. There are 35 family planning centres in Greater Bombay. Anti-rabies treatment is given free of charge at the K.E.M., Nair and Lokamanya hospitals as well as the Bhabha Hospital at Bandra, the Municipal General Hospital at Ghatkopar (at Rajawadi); K. B. Bhabha Hospital, Kurla & Smt. M. T. Agarwal Municipal General Hospital, Mulund.

### WATER SUPPLY

The water supply of the City is drawn from four lakes : Tansa, Vaitarna, Vihar and Tulsi. The Tansa Lake combined with Vaitarna has a maximum supply capacity of 200 million gallons per day and is the main source of water supply. It is situated about 66 miles north-east of Bombay. The Vihar lake can supply 20 million gallons a day exclusively to the north-east part of the City and also partly to Chembur and Kurla. It is situated about 18 miles north of

Bombay. The Tulsi Lake which is to the north-west of Vihar Lake supplies 3 million gallons a day.

Under Section 140 of the Bombay Municipal Corporation Act the Corporation can levy water tax on buildings, lands and premises in the City. The tax is fixed as a certain percentage of the rateable value of the building, land or premises. The supply of water to any premises can be cut off in default of payment of water tax or any sum due for water or hire of meter or expenses of work done.

If the Municipal Commissioner finds that any premises are not provided with an adequate supply of pure water he has the power under Section 271(2) to compel the person who pays the property tax to obtain an adequate supply from Municipal Water Works and carry out all such works as is necessary for a proper distribution of water.

For purposes of distribution Bombay is divided into four divisions, viz., area getting supply from (a) Malabar Hill Reservoir, (b) Bhandarwada Hill Reservoir, (c) Worli Hill Reservoir, (d) and direct supply.

Total water supplied to Greater Bombay per day is about 215 million gallons.

The schemes envisaged to augment the present water supply are : Rs. 5.25 crores Dahisar river dam, which is expected to yield 6 million gallons of water per day and construction of a dam on the Upper Vaitarna river.

The Municipal Corporation will have to make arrangements to convey the additional supply (full supply estimated at 120 million gallon per day) by laying an additional pipe line from Tansa to Bombay. The work of driving a tunnel from Mulund to Kandivali is already in progress. The Corporation will also have to construct additional service reservoirs and distributory mains in Greater Bombay area for proper distribution of water. All the works are likely to cost about Rs. 42.2 crores.

Regular bacteriological and chemical analysis of water is carried out by the Municipal Analyst.

### PUBLIC HEALTH DEPARTMENT

The Department is divided into several branches such as environmental sanitation, food, sanitation and food adulteration, vital statistics, regulation of places for disposal of the dead, prevention and control of communicable diseases, maternity and child hygiene, family planning, medical relief and health propaganda.

The vaccination staff includes a Superintendent, a Head Vaccinator, a number of Vaccinators including a Lady Vaccinator. There are 89 public vaccination stations 7 of which work daily at : 1. The Central Vaccine Depot, Parel. 2. The Sanitary Institute Building, Princess Street. 3. Municipal Suburban Offices, Waterfield Road, Bandra. 4. Andheri Maternity Home, Andheri. 5. Seth N. L. High School, Malad. 6. Kasturba Hospital, Sane Guruj Road. 7. Ferry wharf (closed from June 1, to Sept. 30). The remaining centres work on one day every week by rotation for about 2½ hours. Vaccinations are also done at the Municipal general hospitals.

Hygiene includes maternity and child welfare, family planning and school health.

There are 25 Maternity Homes in Greater Bombay and five maternity wards in general hospitals, each in charge of a Lady Medical Officer. A number of Health visitors do the follow-up work and ensure domiciliary care under the direction of the Lady Medical Officers. A small maternity unit is conducted at Dharavi. Expectant mothers are encouraged to attend ante-natal clinics, of which there are 27 in number. Maternity Homes in the City are at Cadell

Road, Victoria Road, Bellasis Road, Khetwadi, Imamwada Road and Naigaum. And child welfare clinics are conducted (besides the Maternity Homes) at Fergusson Road Dispensary, Dadar Main Road Dispensary, Ambewadi Dispensary at Parel Tank Road, District Dispensary at Souther Street, Tardeo Flats Dispensary, District Dispensary at Charni Road, District Dispensary at Panjrapole, Palton Road Stables Dispensary. Four child health centres, two well-baby centres and three paediatric centres are conducted at Maternity homes.

There are 35 family welfare planning clinics conducted at Municipal maternity homes and hospitals where instruction and advice in the spacing of births are given. Operative procedures are done at the larger Municipal hospitals as well as at Naigaum Maternity Home on a voluntary basis only.

School Health Work is limited to Municipal Schools only and is under a Medical Officer. Children found to have defects are taken for treatment in school buses to the school clinic at K.E.M. Hospital. Dental care is given at the Dental Clinic at the Bai Yamunabai L. Nair Hospital. All children in municipal schools are given free milk on working days.

The Public Health Laboratory which is under the charge of a Municipal Analyst conducts routine and special examinations of water, sewage, food, urine, blood and sputa of patients at Municipal Institutions. There is also a Health Museum maintained for the education of citizens.

Conservancy includes cleansing of streets, etc., removal and disposal of refuse, destruction of rats and dogs, veterinary service, removal of carcasses, disinfection, ambulance and so on.

Medical Relief is given at the following hospitals : K.E.M., Nair, Lokmanya Tilak Hospital, R.P.T.B. and Kasturba Hospital, at 58 Municipal General Dispensaries, nine Mobile Hospital units and one Eye Hospital and Dispensary.

### WELFARE WORK

To stimulate civic awareness and promote closer contact with the public, the Corporation has been running an illustrated English monthly called 'The Bombay Civic Journal' from March 1954. It deals with the activities and problems not only of the Bombay Municipality, but also of other local bodies all over the country and seeks to foster 'an objective discussion of civic issues and the larger questions relating to local self-government from the national angle'.

Another new development has been the starting of a Public Relations Department in February 1956. This department, besides doing educative publicity through films, posters, pamphlets, press notes etc., has also been issuing useful booklets for the guidance of citizens.

Other activities include the production of films for health education, the introduction of various modern devices for traffic movement, starting of a unit for research in primary education, the opening of a municipal bank, the building of two open-air theatres for the recreation of citizens, holding of civic exhibitions, organisation of health and cleanliness weeks, conducting of seminars, establishment of an electric crematorium, construction of sub-ways, two fly-overs and the starting of a department of preventive and social medicine at the Topiwala National Medical College and a convalescent home at the K.E.M. Hospital and maintenance of a swimming pool.

### GREATER BOMBAY (1964-65)

Area : About 1,05,909.82 acres.

Population : 41,52,056 (1961 census) (City 27,71,933 ; Suburbs 10,36,585 ; Extended suburbs 3,43,538). The mid-year (1964-65) estimated population of the city, suburbs and extended suburbs was 29,64,000 ; 12,65,000, 4,25,000 respectively.

Below we give particulars about Greater Bombay :

No. of Hospitals (Municipal, Government and Private) 21 ; No. of Municipal Hospitals 14 ; No. of Municipal Dispensaries incl. of women and children as well as Ayurvedic Dispensaries 59 ; No. of Primary Schools (Municipal and Private) 1,400 ; No. of pupils in all Primary Schools about 6,00,000 ; No. of Municipal Primary Schools 900 ; No. of children in Municipal Primary Schools 4,80,000 ; No. of teachers in Municipal Primary Schools 11,274 ; No. of Municipal Medical Colleges 4 including a Dental College ; No. of Motor Vehicles 68,777 ; Road Mileage about 590 ; No. of Markets (municipal and private) 79 ; No. of gardens, open spaces etc. 137 ; No. of Fire Brigade Stations 15 ; No. of fire alarms 219 ; Total no. of Municipal employees 45,000 including those engaged on temporary and daily wages basis and excluding the B.E.S.T. ; Annual wage bill of employees about Rs. 7 crores.

### CITY

Below we give some facts about the City for 1964-65 :

Area of the City : 67.78 sq. kms. ; Population : 29,64,000 according to 1964-65 mid-year estimates ; Density of population : 43,083 per sq. km.

INCOME (in Rs.) : Actuals for 1964-65 : General Tax 7,11,52,288 ; Water Tax at 4½ per cent including other receipts from Water Works 4,97,41,185 ; Halalkhore Tax at 3½ per cent including receipts from special service 1,11,40,107 ; Total income (Rs.) : 19,31,15,507.

EXPENDITURE (Rs.) : City proper for 1964-65 : Primary Education (for City and Suburbs including Cess plus grants) 4,51,93,089 ; Medical Relief 3,09,94,816 ; Water Works (Maintenance etc. 68,26,217 and Debt Charges 2,95,35,432) 3,63,61,649 ; Public Health 53,92,568 ; Fire Brigade 26,52,230 ; General Supervision, Collection of Revenue etc. 58,79,685 ; Debt charges (excluding Water Works) 1,94,27,831 ; Total expenditure including other items 17,84,41,368.

TAXES, LOANS ETC. (Rs.) 1964-65 : Incidence of taxation per head 56.40 ; Total rateable value of properties 35,89,80,736 ; Properties registered in the Assessment Book 69,069 ; Rateable value per head of population 129.51 ; Redemption or Sinking Fund in hand or invested 17,66,32,392 ; Net loan debt 33,24,88,360 ; Net debt per head of population 121.78 ; Number of vehicles and animals taxed 67,601.

BIRTHS AND DEATHS (1965)—For Greater Bombay : Total number of births registered during the year 1964-65 1,32,602 ; Total number of deaths during the year 45,151.

### BUDGET 1966-67 (Estimates)

Here are a few salient features of the City Budget for 1966-67 as adopted by the Municipal Corporation (Rs.) : Opening balance on April 1, 1966 4,40,68,251 ; Income on existing basis of taxation 33,04,90,159 ; Expenditure 32,37,72,790 ; Deficit 67,17,369 ; Closing Balance 5,07,85,620.

#### Revenue Account :

New or increased provisions made on revenue account are in respect of medicines, drugs, stores, diets in hospitals

and dispensaries, collection and transport of refuse and maintainance of roads, gas and electric lighting and for running Municipal high schools. Rs. 100 lakhs have been provided for undertaking housing schemes on a cooperative basis.

#### *Loan Works : (1966-67)*

The Loan Works programme includes provision for completion of works already in progress and new works necessary in the interest of health, sanitation, water supply and other civic services. The total amount provided for 1966-67 is Rs. 23,12,92,000 including Rs. 1,32,03,000 for plant and machinery.

Some of the major works for which funds have been provided are as under (in Rs. '000):—Construction of centralised ward office buildings 14,70; Master Plan for distribution of water supply in the city 4,02,44; Upper Vaitarna scheme 7,46,25; Bhatsai scheme 15,00; Construction of building No. 3 at L.T.M.G. Hospital, Sion 5,00; Resurfacing the major roads in the city 70,00; Construction of vehicular bridge connecting Princess Street to Netaji Subhas road etc. 10,00; Construction of slaughter house, at Deonar Rs. 10,10; Widening of Tulsi pipe road Rs. 15,00; Construction of roads and over bridges on railways at different places in the suburbs 15,00; Construction of 250 bedded hospital at Juhu development scheme, Vile Parle West Rs. 8,00.

Total Loan Funds (1966-67) : Rs. 23,99,05.

A loan of Rs. 8-00 crores is proposed for financing the capital expenditure during 1966-67.

The civic budget for 1967-68 is estimated to show a surplus of Rs. 22-43 lakhs. The income is estimated at Rs. 37-01 crores and the expenditure Rs. 36-79 crores.

#### **SUBURBS (1964-65)**

Area of the Suburbs: 175-08 sq. kms.; Population: 12,65,000 according to 1965 mid-year estimates; Density of population: 6,900 per sq. km.

#### *INCOME : Actuals (Rs.) :*

General Tax 2,08,30,044; Water Tax by measurement (including other receipts from Water Works) 1,22,48,536; Halalkhore Tax at 3½ per cent including receipts from special service 26,90,843; Total income, including revenue from other sources 4,33,67,987; Rate charged for water supplied by measurement from Rs. 1-65 to Rs. 5-50 per 10,000 litres according to class of property.

**EXPENDITURE (Rs.) :** Education (Primary) 38,71,344; Medical Relief and Education 31,22,603. Water Works (Maintenance etc. 96,42,806 and Debt Charges 1,22,57,70) 2,19,00,513; Public Health 19,60,846; Fire Brigade 5,67,780; General Supervision, Collection of Revenue etc. 14,98,516; Grants-in-aid to Public Institutions 43,888; Debt charges excluding Water Works 1,06,72,782; Total expenditure including other items 4,85,85,441.

**TAXES, LOANS ETC. (Rs.) :** Incidence of taxation per head (as per census of 1961) 35-83; Total rateable value

of properties 10,71,81,055; Properties registered in the Assessment Book 61,689; Rateable value per head of population (as per census of 1961) 116-87; Debts outstanding 10,51,35,500; Redemption or Sinking Fund in hand or invested 2,26,18,485; Net Loan Debt 8,25,17,015; Net debt per head of population (as per census of 1961) 79-60.

#### **EXTENDED SUBURBS**

**INCOME:—Actuals for 1964-65 (Rs.) :** General Tax 53,91,869; Water Tax (including other receipts from Water Works) 24,83,720; Halalkhore Tax at 3½ per cent including receipts for special service 8,56,540; Grant-in-aid from Government 2,47,429; Total income, including revenue from sources 1,13,89,934.

**EXPENDITURE (Rs.) :** Education (Primary) 11,85,000; Medical Relief 8,43,591; Water Works 36,80,077; Public Health 6,99,650; General Supervision, Collection of Revenue etc. 1,81,643; Grants-in-aid to Public Institutions 9,900; Total expenditure including other items 1,08,92,174.

**Loans, Taxes Etc. (Rs.) :** Incidence of taxation per head as per 1961 census 26-30; Total rateable value of properties 3,41,28,598; Properties registered in the Assessment Book 26,967; Rateable value per head of populations 110-16; Debts outstanding, 2,12,00,000; Net loan per head of population as per 1961 Census 61-71.

#### **B.E.S. & T. UNDERTAKING**

(Of the Bombay Municipal Corporation)

Particulars relate to 1964-65 are: Total staff in the Undertaking 1,337;

**Bus Section :** No. of vehicles including luxury buses for tourists 1,337; Route kilometres 1,168-0; No. of passengers carried per day 19,10,884; Specially-built luxury buses for tourists 4; Total income for the year Rs. 9,58,69,885; Total expenditure Rs. 10,26,68,361.

**Electric Supply Section :** Total number of units purchased 86,61,80,000; Total number of units sold (Supply) 80,37,81,000; Total number of units sold (Traction) 8,87,230; Total number of consumers 3,56,528; Total income Rs. 8,31,12,002; Total expenditure Rs. 7,13,31,199.

#### **Budget, 1966-67**

Estimated opening balance Rs. 1,00,000.

**INCOME—**(Including share of administrative receipts): Electric Supply Rs. 10,04,87,750; Buses Rs. 11,39,26,723; Trolley Buses Rs. 12,36,027; Total Rs. 21,57,60,500.

**EXPENDITURE** (Including share of administrative expences): Electric Supply Rs. 8,83,21,925; Buses Rs. 12,47,79,692; Trolley Buses 13,94,463; Total Rs. 21,44,96,080.

Appropriation to statutory and other funds or objects Rs. 11,64,420; Estimated closing balance Rs. 1,00,000; Total Rs. 21,57,60,500.

The budget estimates of the B.E.S.T. for 1967-68 show a surplus of Rs. 5-985 lakhs, with the inclusion of an additional income of Rs. 30 lakhs from the revision of tariffs and Rs. 190 lakhs from the revision of bus fares. The income is estimated at Rs. 2,279 lakhs and expenditure at Rs. 2,273-020 lakhs.

\* A rainy day is one on which 0.01" of rain or more has fallen.

## AHMEDNAGAR DISTRICT

*Headquarters* : Ahmednagar.

*Talukas* : Nagar, Rahuri, Newasa, Shrirampur, Sangamner, Akola, Kopergaon, Sheogaon, Pathardi, Jamkhed, Shrigonda, Parner, Karjat.

The area of the District is 6,586 sq. miles. Population : 1,775,969 (1961 Census) (Males 905,313 ; females 870,656). The language spoken is Marathi.

The staple food grains are jawar and bajra. Wheat and gram are grown in the vicinity of the rivers and rice in the westernmost Akola Taluka including other irrigated areas. Vari and ragi are cultivated in soils which are suited to coarser grain. The pulses are tur, mung, math and kulith. Among the cash crops may be mentioned cotton, hemp, safflower, sesamum, linseed, sugarcane, tobacco, kardi, pan, groundnut, tomatoes, bananas and potatoes. Recently sisal fibre crop plantations are undertaken on an extensive scale.

The chief historical places of interest to visitors are the Ahmednagar Fort, the tomb of Mughal Emperor Aurangzeb (on the outskirts of the town), the temple of Dnyaneshwar, the residential palaces of the Shindyas and the Peshawas at Jamgaon and Kopergaon respectively.

Among industries sugar is now one of the most important. There are twelve sugar factories in the District. Gur making, handloom weaving, iron foundries and bidi making are the other important industries.

There are ten irrigation tanks in the District.

There is a Holiday home at Bhandardara, a summer resort and hill station.

Apart from Colleges, there are about 98 Secondary High Schools in the district out of which three high schools are exclusively for girls.

## AKOLA DISTRICT

*Headquarters* : Akola.

*Talukas* : Akola, Balapur, Murtjapur, Akot, Mangrulpur, Washim.

Area : 4,095 sq. miles. Population : 1,189,354 (1961 Census) (Males 613,832 ; females 575,522).

The greater part of it is fertile alluvial land but the Satpura plateau rises abruptly on its northern border

with the ancient fort of Narnala nestling on one of the hills and commanding the whole Poorna plain. The average rainfall is 30 inches and the temperature in summer rises in certain places to 118 degrees during the day.

The District is mainly agricultural but there are cloth mills, a number of cotton ginning and pressing factories and oil mills.

## AMRAVATI DISTRICT

*Headquarters* : Amravati.

*Tahsils* : Amravati, Chandur, Morsi, Achalpur, Daryapur, Melghat.

The area of the District is 4,723 sq. miles. The language spoken is Marathi. Population : 1,232,780 (1961 Census) (Males 637,861 ; females 594,919).

Amravati is a plain about 800 feet above sea-level.

The staple food grain is jawar. Other food grains are wheat and pulses. Cash crops include cotton and oilseeds, of which cotton is the more important.

## AURANGABAD DISTRICT

*Headquarters* : Aurangabad.

*Talukas and Mahals* : Aurangabad, Kannad, Vaijapur, Gangapur, Bhokardan, Ambad, Paithan, Jalna, Jafferabad (Mahal), Khuldabad (Mahal), Sillod, Soegaon (Mahal).

Area : 6,314 sq. miles. Population : 1,532,341 (1961 Census) (Males 781,635 ; females 750,706).

The most important cave temples in India — at Ellora and Ajanta — are found in this District. The great fort of Daulatabad is an extraordinary structure ; the village of Khuldabad has the tombs of the Emperor Aurangzeb and of Asaf Jah, the founder of the former ruling dynasty.

Total number of students in University Departments and all the affiliated Colleges : Nearly 14,023.

There are eight faculties in which provision for teaching courses of study leading to the following degrees has been made :—

Faculty of Arts : B.A., M.A., Ph.D. ; Faculty of Science : B.Sc., M.Sc., Ph.D. ; Faculty of Law : LL.B., LL.M. ; Faculty of Medicine : M.B., B.S., M.D., & M.S. ; Faculty of Commerce : B.Com., M.Com. ; Faculty of Agriculture : B.Sc. (Agriculture), M.Sc. (Agriculture) ; Faculty of Education : B.Ed., M.Ed. ; Faculty of Engineering : B.E. (Civil), B.E. (Electrical), B.E. (Mechanical), M.E. (Civil).

The University has so far instituted the Departments of (i) Marathi Language and Literature, (ii) Economics, (iii) Chemistry, (iv) Zoology, (v) Political Science, (vi) History and Ancient Indian Culture, (vii) Botany, (viii) Mathematics, (ix) Physics, (x) English.

### MARATHWADA UNIVERSITY

Estd. 1958.

Total No. of Affiliated Colleges : 28.

The post-graduate teaching has been instituted in the following subjects :—

English, Marathi, Hindi, Sanskrit, History, Economics, Urdu, Sociology, Education, Medicine, Law, Mathematics, Chemistry, Botany, Commerce, Engineering, Political Science and Zoology.

Research : Facilities exist for research in Economics, Chemistry, Zoology, Botany, Political Science, Marathi Languages and Literature, History and Ancient Indian Culture, Mathematics and Physics, English, Urdu, Hindi.

*Chancellor* : Governor of Maharashtra.

*Vice-Chancellor* : Dr. N. R. Tawde.

*Registrar* : M. B. Chitnis.

Budget Estimates for 1966-67

*Grants from the State Government* : Rs. 20,95,533.

*Grants by the University Grants Commission and the Government of India* : Rs. 13,41,700.

*Other Income* : Rs. 13,91,882.

*Expenditure* : Rs. 54,66,370.

## BHANDARA DISTRICT

*Headquarters* : Bhandara.

*Tahsils* : Bhandara, Gondia, Sakoli.

The area of the District is 3,582 sq. miles. Population : 1,268,286 (1961 Census) (Males 635,174 ; females 633,112). The chief language is Marathi but Hindi is also spoken by a considerable section of the population.

The principal food crops are rice, jawar, wheat, gram, linseed and pulses. Ginger, oranges and plantains are also grown and sent to Nagpur. Mineral deposits include those of manganese, iron and a little gold.

The chief industries are weaving, making of brass vessels and stone jars, of soft grass matting for bedding, and of bamboo baskets.

## BHIR DISTRICT

*Headquarters* : Bhir.

*Talukas and Mahals* : Mominabad, Manjlegaon, Gevrai, Bhir, Ashti, Patoda (Mahal), Kaij.

*Area* : 4,268 sq. miles. Population : 1,001,466 (1961 Census) (Males 508,827 ; females 492,639).

There are forts and buildings at Bhir which are of archaeological interest. Amba has a temple dedicated to

Jogai. The temple of Baijnath at Parli is a celebrated place of Hindu pilgrimage.

The soil is mostly black cotton. On this are grown cotton, white jawar, gram, gingelly and wheat, while on the masab and kharab soils are grown white bajra, yellow jawar, pulses and oilseeds. Cotton and linseed are produced extensively in the District. The staple food crops are jawar and bajra. Wheat and rice are next in importance.

## BULDANA DISTRICT

*Headquarters* : Buldana.

*Tahsils* : Chikhali, Mehker, Malkapur, Khamgaon, Jalgaon.

The area of the District is 3,751 sq. miles. Population : 1,059,698 (1961 Census) (Males 541,026 ; females 518,672). The language spoken is Marathi.

Jawar is the chief food crop, though wheat is also grown. The most profitable cash crop is cotton with oilseeds coming next.

The principal industry is the preparation of cotton for the market. Exports consist of raw cotton, oilseeds, grain and pulses, and the imports include grain and pulses, coal and coke, sugar and salt.

## CHANDA DISTRICT

*Headquarters* : Chanda.

*Tahsils* : Chanda, Warora, Brahmapuri, Gardchiroli, Sironcha, Rajura.

The area of the District is 9,200 sq. miles. Population : 1,238,070 (1961 Census) (Males 623,681 ; Females 614,389). The languages spoken are Marathi, Hindi, Telugu and Gondi.

Except in the open country on the west and north, the whole District is thickly wooded.

The forest vegetation in the District is of a mixed character. Teak is fairly general but is not anywhere very plentiful. The principal trees are Saj, Bijasal, Rohan, Kaddan, Haldu, Semal, Mahua, Dhaura, Tendu, Garari

and Palas. The forests are well distributed, and very few villages are more than three miles from some part of them.

The annual rainfall averages about 51 inches at Chanda Town and 46 at Warora.

Rice which is the most important crop is grown in the centre and east of the District. Jawar is the chief crop in Sironcha and the Warora Tahsils, while linseed, gram and wheat are grown principally in the black-soil lands of the Chanda Haveli and those adjoining the Wardha river. Cotton is also an important cash crop.

Coal-mines occur and there are match factories, ceramic industries and paper manufacture.

## DHULIA DISTRICT

*Headquarters* : Dhulia.

*Talukas and Mahals* : Shirpur, Shahada, Taloda, Sindkheda, Nandurbar, Nawapur, Dhulia, Sakri, Akrani, Akal-kuva.

Area : 5,022 ; Population : 1,351,236 (1961 Census) (Males 686,942 ; Females 664,294).

Dhulia District lies roughly between 20° 38' and 22° North Latitude and 73° 35' and 75° 17' East Longitude. It is bounded on the north by Khargone District in Madhya Pradesh, on the east by Jalgaon District, on the south by Nasik District and on the west by Surat District.

The languages spoken are Marathi, Gujarati and Bhil.

The main crops of this District are cotton, wheat, bajra, jawar and groundnut. Sugar-cane and chillies form the main irrigated crops. There are two types of irrigation in this District : (1) Well irrigation and (2) Bandhara irrigation.

There is a Government Agricultural Institute, where Gram Sewaks are trained.

### INDUSTRIES

Dhulia is the biggest cotton centre in the Dhulia District and has a well regulated Cotton Market. There is also another regulated Cotton Market at Dondaiche in the Sindkheda Taluka. There are spinning and weaving factories as well as cotton ginning and pressing factories.

Dhulia has also been lately developing into a groundnut oil industry centre. There are about 42 oil mills, including 14 at Dhulia, which together produce about 2,000 tons of groundnut cake. There are also saw mills.

The newly built hill station of Toranmal, is situated on the Satpura range plateau at an altitude of 4,200 feet. The climate is very salubrious.

## JALGAON DISTRICT

*Headquarters* : Jalgaon.

*Talukas* : Chalisgaon, Amalner, Parola, Chopda, Erandol, Pachora, Jamner, Jalgaon, Yaval, Raver, Bhusawal.

*Mahals* : Edlabad, Bhadgaon.

Jalgaon District, with Jalgaon as capital, is one of the northernmost Districts in Maharashtra.

The area of the District is 4,573 sq. miles. Population : 1,765,047 (1961 Census) (Males 902,001 ; females 863,046).

### AGRICULTURE

The most important crops are cotton, groundnuts, jawar, bajri, gram, millet, linseed and sesamum. The most important garden crops are chillies, coriander, melons, watermelons, betel leaf, bananas, mosambis, santra and sugarcane. Cotton and groundnut are even more important. There is a large export trade in groundnut oil and hydrogenated oil or vanaspati.

Jalgaon is the biggest town and District headquarters, a great trade centre, and also an educational centre. The town is 37 miles from Ajanta Caves.

The rainfall (mean annual is 28.27 inches) is usually both general and regular, which fact in itself discourages irrigation, except for two weirs, at Jaunda (Chalisgaon taluka) and Dahigaon (Erandol taluka) on Girna River project, irrigating about twenty thousand acres of land.

The main industry is based on agriculture. There are several oil mills in the District, besides several bullock driven presses. There is a silk mill in the District. There is also a factory, which manufactures crackers and fireworks.

There are in the whole District three spinning and weaving factories, about 100 cotton ginning and pressing works, about ten dyeing factories, three big railway workshops (at Bhusawal) all employing more than 26,000 people.

## KOLABA DISTRICT

*Headquarters* : Alibag.

*Talukas and Mahals* : Alibag, Pen, Panvel, Karjat, Roha, Mangaon, Mahad, Khalapur, Uran, Poladpur, Murud, Shrivardhan, Mhasala and Sudhagad.

Kolaba District in the Konkan area of Maharashtra lies between North Latitude 17° 52' and 19° 3' and East Longitude 73° 7' and 73° 42'.

The total area of the District is 2,716 sq. miles. Population : 1,058,855 (1961 Census).

Notable places in the District are Raigarh near Mahad, once the capital of the great Shivaji and Kanakeshwara near Alibag, which is now a holiday resort being situated on a hill. Elephanta in Kolaba is famous for caves. Alibag has the world famous magnetic observatory. The historical sea-fort Kolaba, at Alibag, was the naval capital of Shivaji.

### AGRICULTURE, POWER

On the flat lands of the District rice is grown, and the sea-front is fringed by a belt of coconut and arecanut palms. There is large-scale plantation of mango grafts. There is a thriving fishing industry. The District has three Power Houses. Uran and Pen are big salt-producing centres. Panvel and Khapoli have assumed importance for their industrial growth in recent years.

### MATHERAN (HILL STATION)

Matheran is a hill station and sanitarium, about three hours' journey from Bombay and Poona. Visitors are conveyed up the hill from Neral (Central Rly). The town is about 2,500 feet above sea-level, and is a favourite hot weather resort.

## KOLHAPUR DISTRICT

*Headquarters* : Kolhapur.

*Talukas and Mahals* : Karwir, Panhala, Shahuwadi, Radhanagari, Bhudargad, Hatkanangle, Gadhinglaj, Kagal, Shirol, Bavada, Ajra, Chandgad.

The total area of the District is 3,141 square miles. Population : 1,596,493 (1961 Census) (Males 811,693; females 784,800). The language spoken is mostly Marathi, though Kannada is also spoken in a few parts. Kolhapur city, the headquarters, is a great trading centre for jaggery.

The chief agricultural products are jawar, rice, cotton, nagli, bajra, wheat, tobacco, sugarcane and ground-nut.

Besides cotton mills, there are ginning and pressing factories. There are also ginning and powdering mills, groundnut crushing and oil mills, a sugar mill, cinema-film producing companies and soap factories and repair workshops.

### SHIVAJI UNIVERSITY

Kolhapur 3.

Estd. 1962. It is situated at Kolhapur with jurisdiction over the five districts of Southern Maharashtra, i.e. Kolhapur, Sangli, Satara, Sholapur and Ratnagiri. There are 43 colleges and institutes within the area of the University of which eight are situated at the seat of the University. The University has the following faculties. 1. Faculty of Arts and Social Sciences: B.A.; M.A.; Ph.D. (Dip. Lib. Sc.). 2. Faculty of Science: B.Sc.; M.Sc.; Ph.D. 3. Faculty of Law: LL.B.; LL.M. 4. Faculty of Commerce: B.Com.; M.Com. 5. Faculty of Education: B.Ed.; M.Ed.; Ph.D.; T.D. (Dip. in Teaching). 6. Faculty of Engineering: B.E. (Civil); B.E. (Mechanical); B.E. (Electrical); M.E. 7. Faculty of Medicine: M.B.B.S. 8. Faculty of Agriculture: B.Sc. (Agri.).

*Chancellor* : Dr. P. V. Cherian. *Vice-Chancellor* : Dr. A. G. Pawar. *Registrar* : B. A. Changule.

## NAGPUR DISTRICT

*Headquarters* : Nagpur.

*Talukas* : Nagpur, Ramtek, Katol, Saoner, Umrer.

The area of the District is 3,842 sq. miles and the population 1,512,807 (1961 Census) (Males 784,161; females 728,646). The language spoken is Marathi.

The richest part of the District is the western half of the Katol Tehsil. It possesses a soil profusely fertile and teems with the richest garden cultivation. From Pikapar Hills in the Katol Tehsil the plains extend to the eastern border. Its surface is scarcely ever level, but it is closely cultivated, abounds in mango groves and trees of all sorts, and towards the east is studded with small tanks which form a feature of the landscape. The elevation of the plain country is from 900 to 1,000 feet above sea-level.

The forests are mainly situated in a large block on the Satpura Hills to the north-east, while isolated patches are dotted on the hills, extending along the south-western border.

The annual rainfall averages about 47·5 inches.

Cotton and jawar are the chief produce of the District which is also famous for its oranges. There are some manganese mines and limestone quarries in the District and coal-mines at Kamptee.

There are five textile mills in Nagpur City, 2 steel Rerolling Mills, a number of oil mills, a pottery concern,

saw mills, a rubber factory, a thriving frame making industry, a large fruit canning industry and a large number of handloom factories. Nagpur saris are in great demand in all parts of the country.

### NAGPUR UNIVERSITY

Year of Foundation : 1923.

*Chancellor*, Governor of Maharashtra.

*Vice-Chancellor*, Dr. V. B. Kolte.

*Registrar*, S. V. Bhagwat.

Teaching and affiliating : University Colleges 3, University Teaching Departments 22; Affiliated Colleges 81.

*Students* (1964-65):

University Colleges : 563 (Men 504; Women 59).

University Teaching Departments : 947 (Men 731; Women 216).

Affiliated Colleges : 38,980 (Men 32,938; Women 6,042).

*Budget Estimates* (1964-65):

Central Government Grants : Rs. 1,32,815·05

State Government Grants : Rs. 16,35,191·46

University Grants Commission : Rs. 11,97,015·86

Total Income : Rs. 1,00,34,944·94

Total Expenditure : Rs. 95,76,313·44

## NANDED DISTRICT

*Headquarters* : Nanded.

*Talukas and Mahals* : Deglur, Kandhar, Biloli, Nanded, Hadgaon, Bhokar (Mahal), Mukhed (Mahal), Kinwat.

Area : 4,806 sq. miles. Population : 1,079,674 (1961 Census) (Males 547,974; females 531,700).

The District is on the whole dry and healthy. The annual temperature varies between 100° and 60°. The average rainfall is about 35 inches.

There are tombs of Muslim saints and Nanded has the Gurudwara of the Hyderabad Sikhs where Guru Govind was buried.

Rabi crop consists of jawar, gram, wheat, oilseeds. The Kharif crop consists of bajra, linseed, cotton and maize. The staple food crop is jawar and the main cash crop cotton.

## NASIK DISTRICT

*Headquarters* : Nasik.

*Talukas and Mahals* : Kalwan, Dindori, Niphad, Yeola, Igatpuri, Nandgaon, Nasik, Sinnar, Baglan, Malegaon, Chandor, Peint, Surgana.

Nasik District is a historic place in Maharashtra and the city one of the oldest in the Deccan and a place of pilgrimage. The area of the District is 6,020 sq. miles.

Population : 1,855,246 (1961 Census) (Males 953,531; females 901,705). The language spoken is Marathi.

With the exception of a few villages in the west the whole District lies on a tableland at an elevation of 1,300 to 2,100 feet above sea-level.

The main food crops are rice, wheat and bajra.

## OSMANABAD DISTRICT

*Headquarters* : Osmanabad.

*Talukas and Mahals* : Latur, Tuljapur, Osmanabad, Kalam, Omerga, Owsa, Bhoom (Mahal), Parendah, Ahmadpur, Nilanga, Udgir.

Area : 5,504 sq. miles. Population : 1,477,656 (1961 Census) (Males 758,235; females 719,421).

The average annual rainfall is about 32 inches.

Six places of archaeological interest are the fort of Naldurg, the Jumma Masjid in Owsa Taluka, the caves around the town of Osmanabad, the two caves at Hasan-gaon, the old fortress at Parendah. Tuljapur is a place of Hindu pilgrimage.

The staple food grain is jawar. Wheat, rice and bajra are next in importance. Cotton is grown everywhere, while sugarcane is sometimes grown with well irrigation.

## PARBHANI DISTRICT

*Headquarters* : Parbhani.

*Talukas* : Parbhani, Gangakhed, Pathri, Jintur, Hingoli, Basmat, Kalamnuri, Partur.

Area : 4,854 sq. miles. Population : 1,206,236 (1961 Census) (Males 611,787; females 594,449).

The climate is healthy from February to May but it is feverish during the monsoon and the cold weather. The annual range of temperature is from 105° to 60°. The average annual rainfall is about 35 inches.

Structures of note in the District are the temple of Nagnath at Aundh, the Jain temple of Parsnath near Jintur, the temple near Bamu and the shrine of Ramzan Shah.

The soil is partly black cotton and partly masab and kharab. On the black soil are grown white jawar, wheat, gram, tuar, while on the kharab soils are grown jawar, bajra, indigo, sesamum, oilseeds and pulses. The staple food crops are jawar, wheat and bajra. Cotton is grown throughout the District. About one-twentieth of the land is under forest.

## POONA DISTRICT

*Headquarters* : Poona.

*Talukas or Mahals* : Ambegaon, Baramati (Bhimtadi), Dhond, Haveli, Indapur, Junnar, Khed, Mawal, Mulshi, Poona City, Purandhar, Sirur, Bhore, Velhe.

The population according to 1961 census is 2,466,880 and the area of the District is 6,032 sq. miles. Number of males : 1,268,710; females 1,198,870. The language spoken is Marathi.

The city proper extends along the Mutha river for about 1½ miles inland; its length is about 2 miles from east to west and its breadth about 1½ miles, the total area being about 2½ square miles. However, with the fast springing satellite colonies as a result of rapid growth of various types of industries, the urban parts of the City now extend as far as Pimpri and Chinchwad on the Poona-Bombay road, Hadapsar on Poona-Sholapur road, Aarey-wadgaon and beyond on the Poona-Bangalore national highway and Yeravda and Koregaon on the North-East of the city and along the Poona-Ahmednagar road.

The rainfall varies considerably in different parts of the District. In the western parts it is heavy and regular, in the central belt moderate, and in the east very irregular. The main crops are paddy and jawar. But the District is a

deficit area in the matter of food grains. The District has an exportable surplus of jaggery and sugar.

The city of Poona lies at the confluence of two small rivers, the Mutha and the Mula, on the Western margin of the Deccan plateau at a height of about 1,800 ft. above sea-level. Only 30 miles separate the city from the main range of the Western Ghats and 119 miles from the State capital, Bombay.

It is the headquarters of the Southern Command and also of the Poona Sub-Area. The National Defence Academy is located in Khadakvasla. Some of the other military establishments around Poona are : the Ordnance Depot and the Arsenal at Kirkee and the Vehicles Depot at Dehu Road. The Indian Navy Mechanical Training establishment I.N.S. "Shivaji" is located at Lonavla, and the newly established Naval Engineering College, first of its kind in India, in the precincts of I.N.S. "Shivaji". Ammunition Factory, High Explosives Factory and 512 Command Workshop all at Poona.

Armed Forces Medical College for post-graduate training in military medical science is also located in Poona. A Medical College for degree course run by the Army, which is perhaps the only one of its kind in the world from the

point of view that the Army is running it, is located in Poona.

Yet other institutions are the Institute of Armament Studies and the Artificial Limbs Centre, the only one of its kind not only in India but also in South and West Asia and the fourth largest in the world. A gliding centre is also located near Poona. The National Cadet Corps Academy on Purandhar Fort, 30 miles South-East of Poona. College of Military Engg.

Other important institutions of All-India character located in Poona are given below :

*Meteorological Office ; Central Water and Power Research Station ; National Chemical Laboratory ; Overseas Communications' Beam Wireless Station at Dighi ; Headquarters of the Servants of India Society ; Bhandarkar Oriental Research Institute ; Penicillin Factory, Pimpri ; Virus Research Centre, the only one of its kind in India ; The Film Institute of India.*

Poona, which was till recently predominantly an educational centre, is fast developing as an industrial area as well. Besides the two industrial estates at Hadapsar and Pimpri, the whole belt along the Bombay-Poona Road from Kirkee, Dapodi, Pimpri, Chinchwad upto Lonavla is fast attracting industries of various types.

There are 4 sugar factories in the Dist. and 1 sugar manufacturing machinery factory at Pimpri.

The district can also boast of important places of historical and archaeological interests. Shivneri fort, birth place of the great Maratha Hero, Chhatrapati Shivaji, the famous Karla & Bhaja caves which constitute a fine example of Buddhist architecture of 1st Century B.C., Samadhis of Kasturba Gandhi and Mahadevbhai Desai are located in the district.

## UNIVERSITY OF POONA

Ganeshkhind, Poona 7.

Estd. 1948.

The University is both teaching and affiliating in character.

It has the following nine Faculties and has provision for courses for the following degree :—*Faculty of Arts* : B.A., M.A., Ph.D., D.Litt., B.A. (External), M.A. (External); *Faculty of Mental, Moral and Social Sciences* : B.A., B.A. (External), M.A., M.A. (External), B.T., M.Ed., Ph.D., D.Litt., B.Lib.; *Faculty of Commerce* : B.Com., B.Com. (External), M.Com., M.Com. (External), Ph.D., D.Litt.; *Faculty of Science* : B.Sc. (General), M.Sc., M.Sc. (Maths.), M.Sc. (Maths.) (External), Ph.D.; *Faculty of Law* : LL.B., LL.M., LL.M. (External), LL.D., Ph.D.; *Faculty of Medicine* : M.B.B.S., M.D., M.S., Ph.D., B.Sc. (Nursing), M.Sc. (Med.); *Faculty of Engineering* : B.E. (Civil, Mechanical, Electrical, Telecommunications and Metallurgy), M.E., M.Sc. (Engg.), Ph.D.; *Faculty of Agriculture* : B.Sc. (Agri.), M.Sc. (Agri.), Ph.D.; *Faculty of Ayurvedic Medicine* : B.A.M. & S., M.A.Sc.

The University has instituted external degrees for the benefit of employed person and married women, the B.A. (External), M.A. (External), B.Com. (External) and M.Com. (External) degrees in the Faculties of Arts and Mental, Moral and Social Sciences and Faculty of Commerce, M.Sc. (Maths.) (External) in the Faculty of Science,

## LONAVLA

This hill station is situated at the top of the Bhore Ghat incline about 2,030 feet above sea-level.

The Govt. of Maharashtra has started a holiday camp at Karla at a distance of about 1½ miles from Malawali Railway Station.

The following are some of the Forts and places of interest :—

Fort of Lohgadh, Fort of Visapur, Fort of Rajmachi which stands on the top of the Sahyadri Range and commands a grand view of Matheran, Konkan and even part of Bombay, Duke's Nose, Tungarli Municipal Lake.

The temperature varies from 65 in the cold weather to 85 in the hottest month. The rainfall varies from 160 to 250.

## KHANDALA

Khandala, a health resort, 78 miles from Bombay by rail and 71 by road lies in Mawal Taluka. It is situated at the top of the Bhore Ghat at an elevation of about 2,000 feet above sea-level, and has an agreeable and bracing climate all through the year.

Among places worth a visit in and around the town are Tata Electric Supply Company's reservoir called Forbay Dam, Byramjee's Point, the Duke's Nose, Tiger's Leap, all of which provide magnificent views of the surrounding country. About nine miles from Khandala are the Karla caves considered to be the oldest specimen of Buddhist caves in India. In Walwan lake which is about four miles from Khandala good mahashir fishing is available. At Khandala "Rajmachi Park" is one of the most beautiful spots.

LL.M. (External) in the Faculty of Law to which students can qualify by appearing for the examinations direct without having to undergo instruction in a College or University.

The University has also instituted a Faculty of Fine Arts and Music and the degree of Bachelor of Music, but it has not started functioning so far.

The following diplomas and certificates have been instituted (1) Diploma in Oriental (Sanskritic) Learning; (2) Certificate and Lower and Higher Diploma Courses in Modern Foreign Languages (French, and German); (3) Diploma in Public Health; (4) Diploma in Psychological Medicine; (5) Diploma in Anaesthesia; (6) Diploma in Music; (7) Diploma in Clinical Pathology; (8) Diploma in Library Science; (9) Diploma in Teaching.

The University has in all 46 affiliated colleges and 7 recognized research institutions.

The total strength of students in all the colleges and the University is in the neighbourhood of 35,238.

Chancellor : Governor of Maharashtra ; Vice-Chancellor : Dr. D. R. Gadgil ; Registrar : W. H. Golay.

## BUDGET (1965-66)

Income : Rs. 78,96,670 ; Expenditure : Rs. 84,03,365.

## RATNAGIRI DISTRICT

**Headquarters :** Ratnagiri.

**Talukas :** Dapoli, Mandangad, Khed, Chiplun, Guhagar, Sangameshwar, Ratnagiri, Rajapur, Devgad, Sawantwadi, Malwan.

**Petas :** Lanja, Vengurla, Kankavli, Kudal.

The area of the District is 5,025 sq. miles. Population : 1,827,203 (1961 Census) (Males 816,804 ; females 1,010,399).

This is the backward district with peculiar circumstances. Ratnagiri is known and famous as the birth place of Lokamanya Tilak.

The length of the district is 230 miles and breadth 30 to 40 miles. It is bounded by Sahyadri to the east, by sea to the west, by Kolaba district to the north and by Goa to the south.

The main crop is Alphonso mango — the king of fruits. The chief crop is rice on banks of rivers and on plain ground on 3,15,840 acres of land yielding 1,13,300 tons. Groundnut and sugarcane crop is under experiment since two years. Second important crop in the form of industry is sea fish.

One hundred and seventy-five High Schools, 5 Colleges, one Agricultural College, 8 Training Colleges (6 males and 2 females), Polytechnic, I.T.I., N.C.C. Unit cater to the educational needs of the district.

Ratnagiri midway between Bombay and Goa is soon going to be converted into an all weather port at Mirya Bay. Jaygad and Vijaydurg are safest ports. Several others are under improvement. Sindhudurg sea fort near Malwan was constructed some 300 years back by Shivaji, of which Government is undertaking reconstruction.

This district has 15 weekly newspapers, all except one at Ratnagiri.

The southern district and Bombay is linked to Ratnagiri by sea in the fair season and by road all the year. State Transport buses are plying direct to Bombay from several places in the district.

Bhagini Mandal and Mahila Mandal are the organisations at Ratnagiri devoted to female activities. At Sawantwadi there is a NIVARA KENDRA for the relief of the distressed and uncared for ladies. Kasturba Arogya Kendra and Matru Mandir at Lanja and Devrukh respectively do good for ladies and children. Animal husbandry centres, Health and S.M.P. Centres with five Ayurvedic Dispensaries give service to animals and human beings.

Notable place in this district is Marleshwar, a place about 10 miles to the east of Devrukh in Sahyadri in the interior. Temple of God Shiva is encircled by very high hills. This place is known for purity.

The climate of the district is moderate.

## SANGLI DISTRICT

**Headquarters :—**Sangli.

**Sub-Divisions :—**Miraj, Khanapur.

**Talukas and Mahals :—**Miraj, Tasgaon, Walwa, Khanapur, Jath, Shirala, Atpadi & Kavathe — Mahankal (3 Mahals).

**Area :** 3,299 square miles. Population : 1,230,716 (1961 Census).

The climate of the District is generally dry and healthy, with an average rainfall ranging from 15 to 25 inches.

The Krishna, the Verala, the Warana, and the Agarani are the four important rivers flowing through the District. The soil on the banks of these rivers is very fertile, yielding rich sugarcane crops.

The principal crops grown in the District are jowar, millets, pulses, wheat, ground-nut, turmeric, tobacco, sugarcane and a little cotton and rice and some oil-seeds.

Sangli, which is the headquarters of the District, is an important centre of trade and commerce specially for tobacco, groundnuts, turmeric, jaggery, chillies, ghee, and cotton trade. It has ginning, weaving and spinning mills, groundnut, turmeric, iron and steel factories. The town is also known for its silver, copper and brassware and gold ornaments. Bidi making is another big Industry.

Besides, Sangli is a big centre of forward-delivery transactions in groundnut-kernel.

## SATARA DISTRICT

**Headquarters :** Satara.

**Talukas and Mahals :** Wai, Satara, Koregaon, Khatau, Karad, Patan, Jaoli, Man, Phaltan, Khandala, Mahableshwar.

The area of the District is 4,041 sq. miles. Population : 1,430,105 (1961 Census) (Males 698,555 ; females 731,550). The language spoken is Marathi.

The chief agricultural produce are jawar and bajri. Others include ragi, wari, wheat, rice and pulses. Cash crops which are a minor item include tobacco, groundnut and sugarcane.

Forests in the Sahyadri range have considerable store of timber and fire-wood. Sandalwood and bamboo are occasionally found.

Government have undertaken the Koyna river project envisaging the construction of a gigantic Dam close to Helwak village (Patan Taluka) water from which can be used for agricultural purposes by people from Satara, Sholapur and Bijapur Districts and for generating electricity for industrial purposes.

There is a large engineering concern manufacturing farm implements, machine tools, and textile machinery at Satara Road Station. Another engineering concern has been established at Udyamnagar near Karad while the one at Karad proper has been expanded with State aid.

### MAHABLESHWAR

Mahableshwar, 75 miles from Poona, is called the queen of the hill stations in Maharashtra. It is situated on one

of the great slopes of the Sahyadri range at an elevation of 4,700 feet above sea-level. During the 8 months from October to May the climate is most agreeable. By day the temperature varies between 80 and 86, while the nights are cool and pleasant. But during the monsoon the rainfall is so heavy, the average being about 250 inches a year, that the place is almost uninhabitable.

It is now possible for people of moderate means to go to the hill station for a comparatively inexpensive holiday and change in the newly opened Holiday Camp set up by the Maharashtra Govt.

The Camp is normally thrown open during the months October to May, and applications for accommodation have to be addressed to the Executive Engineer, Poona Division, Poona. Hotels are open only eight months in the year and are closed during the monsoon.

## SHOLAPUR DISTRICT

*Headquarters* : Sholapur.

*Talukas* : Sholapur South, Sholapur North, Barsi, Pandharpur, Sangola, Malshiras, Karmala, Akalkot, Mangalwedha, Mohol, Madha.

*Headquarters* : Thana.

*Talukas and Mahals* : Thana, Kalyan, Bhiwandi, Shahapur, Murbad, Wada, Jawhar, Bassein, Palghar, Dahanu, Mokhada Peta.

Area : 3,658 sq. miles. Population : 1,652,678 (1961 Census) (Males 861,117 ; females 791,561).

The languages spoken are Marathi, Gujarati and Urdu.

In the north-east the hills are covered with wood, and the valleys are but partially cultivated. The villages are seldom more than scattered groups of huts, and the population consists mainly of uncivilised aboriginal tribes, many of whom still wander from place to place as they find water or to suit their fancy.

Thana District is fast developing into a prominent industrial area. Hundreds of acres of land are being converted into sites for factories. Scores of factories have already been set up particularly along the railway track and the Bombay-Agra and Bombay-Poona Roads.

Bhiwandi, a Taluka town nine miles from Thana situated on the Bombay-Agra Road is noted for handloom and powerloom fabrics. The town is mostly inhabited by Momins and in some parts of the town every house has a spinning wheel. Bhiwandi Taluka is also famous for its timber and charcoal trade.

Kalyan, the biggest and the most thickly populated town in the District, is 34 miles from Bombay and is a

## PANCHGANI

Panchgani is a well known hill station in Satara District, situated 63 miles from Poona. It is 4,300 feet above sea-level and has a cool, salubrious and comparatively dry climate. The average rainfall is about 80 inches a year. Panchgani is thus a well known sanatorium.

Panchgani is habitable throughout the year, and there are excellent shops for provisions and oilman stores. The town is electrified and the roads are well lighted. The town has a large and up-to-date tuberculosis sanatorium — Bel Air Sanatorium.

Panchgani is famous for its schools. They all have their own buildings with laboratories, dormitories and hospitals.

The languages spoken are mainly Marathi and also Telugu and Kannada.

Area : 5,809 square miles. Population : 1,860,119 (1961 Census) (Males 960,655 ; females 899,464).

## THANA DISTRICT

junction on the Central Railway's north-east and south-east sections. "Ulhasnagar" the largest refugee township in Maharashtra is situated in Thana District two miles from Kalyan near the Ulhas River. The township is designed to accommodate 90,000 people.

The main produce of the District is rice which is of superior Kolamb variety.

Dahanu and Bassein Talukas are specially famous for fruit garden and the bulk of Bombay's fruit supply comes from these areas.

At Thana, Bhyandar and Belapur there are extensive salt works.

The chief articles of export from Thana District are paddy, rice, vegetables, salt, betel-leaves, plantains, bricks, grass, firewood, charcoal, lime, fish fresh or dried, timber, coconuts, mangoes, flowers, saris, handloom fabrics, woollen cloth and milk.

Tansa and Vihar lakes and the Vaitarna river which are the main sources of Bombay's water supply are situated in Thana District and are connected with Bombay by a special trolley line.

The Fort, the Portuguese Cathedral, a few carved and inscribed stones, and several reservoirs are now the only signs that Thana was once an important city. Bassein, on the Western Railway, contains the famous ruins of the ancient Portuguese dominion in Salsette.

## WARDHA DISTRICT

*Headquarters* : Wardha.

*Tahsils, Sub-Divisions* : Wardha, Hinganghat, Arvi.

The area of the District is 2,429 sq. miles. Population : 634,277 (1961 Census) (Males 322,894 ; females 311,388). The languages spoken are Marathi and Hindustani.

Wardha is noteworthy in that it has been the seat of a number of Gandhian institutions concerned

with village uplift and the ideals of self-sufficiency and self-service.

Wardha has black cotton soil and the most important cash crops grown are jawar and cotton. Though there are rivers like Wainganga, agriculture depends on rain. There is thus an elaborate programme today for sinking new wells and deepening old ones. There are pressing and ginning mills in the District and also textile mills.

## YEOTMAL DISTRICT

*Headquarters* : Yeotmal.

*Tahsils* : Yeotmal, Darwha, Kelapur, Wuni, Pusad.

The area of the District is 5,246 sq. miles. Population : 1,098,470 (1961 Census) (Males 557,010 ; females 541,460). The language spoken is Marathi.

The staple foodgrain is jawar ; other foodgrains are wheat and pulses. As elsewhere the most profitable cash crops are cotton and oilseeds. Forests cover a larger area than in any other District in the State and yield considerable quantity of timber and fuel. The principal industry is the preparation of cotton for the market.

## MANIPUR

Area : 8,628 sq. miles ; Population : 7,80,037 ; Density : 90 ; Sex Ratio : 1,015 females per 1,000 males ; Literacy : 30.04 per cent. Capital : Imphal ; Strength of Legislative Assembly : 32 including two nominated members.

For details, about area and population of sub-divisions, see under "Population".

Manipur bounded on the east and south by Burma and on the north and west by the Naga Hills and the Cachar District of Assam, is a highly strategic territory on the eastern frontier of India. Two land routes from Burma pass through its territory.

Seven hundred square miles of the Territory form a central valley, 2,600 feet above sea-level, which is shut in on all sides by extensive hill tracts at places over 6,000 feet, covering the rest of the Territory. The climate varies from temperate in the valley to cold in the high hills. The rainfall on the average is 65 inches in a year.

The main population is "Meiteis" inhabiting the valley with some 40 tribes and sub-tribes known by the generic names of Nagas and Kukis. Though a number of different

dialects are spoken in the Territory, Manipuri and English are the official languages. The people are carefree and healthy, with a passion for religious festivals involving community dances in which both sexes join.

The soil is fertile. Rice is the principal crop.

The area under cultivation is about three lakh acres.

Handloom weaving is a popular industry throughout the Territory and Manipuri cloth of various picturesque and indigenous designs is in demand throughout India and even outside.

There are 11 colleges, 168 high, junior high and higher secondary schools, 282 middle schools and 2,314 primary and junior basic schools. The total number of students for the year ending 31st March 1966 was nearly 1,95,000.

There are 9 hospitals, 60 dispensaries, 12 primary Health Centres, 28 Sub-Centres, 10 Family Planning Centres, one T. B. Clinic, 4 Leprosy Sub-Centres, one V. D. Clinic and one Dental Clinic.

## MYSORE STATE

*Area* : 192,203 sq. kms. (74,210 sq. miles).

*Population* : (1961 census) : 23,586,772 (males 12,040,923 ; females 11,545,849). Percentage increase 1951-61 : 21.57. Sex ratio : 966 females for 1,000 males. Density : 318 per sq. mile. Literacy : 25.4 per cent. 5.4 per cent of the whole India population and area 6.5 per cent of the whole of India.

*Capital* : Bangalore.

The State is divided into four Divisions for administrative purposes.

There are 20 Districts, 172 Talukas, 288 towns and 25,880 inhabited villages.

The Mysore Village Panchayat and Local Boards Act, 1959, came into force on November 1, 1959. Changes in the Panchayati Raj system, with the constitution of the Zilla Parishads instead of District Development Councils, and measures to widen the scope of other panchayati institutions, are in the offing (June 1966).

### Facts and Figures not shown otherwise

Area under rice (d) 100,850 hectares ; Area under ragi (d) 945,711 hectares ; Area under bajra (d) 502,620 hectares ; Area under millets (d) 406,245 hectares ; Area under

minor wheat (d) 305,298 hectares ; Area under sugar-canes (d) 68,090 hectares ; Area under cotton (d) 1,038,937 hectares ; Land revenue (b) Rs. 44,947,249 ; Land revenue per capita (b) Rs. 1.90 ; No. of persons employed in Govt. Service (i) 162,397 ; No. of persons employed in Municipalities (i) 21,230 ; No. of Village panchayats (i) 7,452 ; No. of municipalities including Corporations (i) 174 ; No. of Post Offices (April 1964) 6,722 ; No. of Telephone exchanges (j) 144 ; No. of telephones in use (j) 27,224 ; No. of radios in use (j) 193,656 ; No. of Police stations including outposts (j) 806 ; No. of jails including lock-ups (j) 105 ; No. of towns and villages electrified (j) 4,193 ; Length of roads (j) 47,770 kilometres ; Length of railway line (1956) 2,699 kilometres ; No. of registered motor vehicles (j) 56,761 ; C. D. Blocks (1-3-1964) 268.

### AGRICULTURE

Out of the total geographical area of about 45 million acres, 6.6 million acres are covered by forest, 2.1 million acres are put to non-agricultural use, 2.1 million acres are barren and uncultivable land, 4.3 million acres are pasture and grazing lands, 3.3 million acres are fallow lands. The net area sown is about 25.2 million acres. The gross area irrigated is 2.1 million acres.

The important cereal crops that are grown in the State are rice, jowar, ragi and wheat. Important cash crops

(b) 1961-62 ; (d) final forecast 1962-63 ; (i) as on 31-3-1962 ; (j) as on 31-12-1962.

include coffee, cotton, tobacco, oilseeds, sugarcane, coconut, cashewnut and castor. Among the States, Mysore ranks first in respect of the production of coffee, ragi and cardamom.

For area and production of cash crops, see article on "Agriculture".

For figures on agricultural production see under sub-heading "Five Year Plans".

**Reclamation of Land by Tractors and Bulldozers:**—By the end of 1965-66, 198 tractors were supplied by the Government on a hire purchase system. Nearly 37,000 acres were reclaimed at the end of the Third Plan.

**Irrigation Wells and Pumpsets:** Total number of wells during the Third Plan : 32,000 ; Irrigation pumps installed : 27,119 ; Number of bore wells : 354.

About one lakh acres under the Thunga and Bhadra major irrigation schemes came under intensive cultivation during 1966-67 summer.

**Development of Local Manurial Resources:** The Third Plan achieved a production of 60 lakh tons of compost.

**Chemical Fertilizers:** In 1965-66, a total quantity of nearly 4 lakh tons of chemical fertilizers was distributed in the State.

**Improved Seeds:** The Third Plan aimed at establishing 53 more seed farms. 5,575 tons of improved seeds were produced during the First Plan, 8,600 tons in the Second Plan and 15,666 tons in the Third Plan.

**Adoption of Improved Agronomic Practices:** During the Third Plan, up to March 31, 1966, seven lakh acres had been brought under the Japanese method and 38 lakh acres, under Rabi and Khariff campaigns.

**Control of Pests and Diseases:** Sprayers and dusters are being distributed at 50 per cent concessional rates to enable the farmers to take up plant protection measures themselves. Rs. 79 lakhs were spent during the Third Plan to protect 15,20,000 acres.

**Soil Conservation:** During the Third Plan, an area of nearly 2 lakh acres were contour bunded.

Attempts were also made to grow high yielding varieties of hybrid jowar, bajra and also paddy.

All agricultural colleges and agricultural research stations have been transferred to the University of Agricultural Sciences.

**Vegetables and Fruits:** The area under vegetables was increased during the Third Plan period from 1,40,000 acres to 1,55,000 acres.

**Horticulture:** The annual output of the various nurseries will be 4 lakh fruit plants. A master plan costing Rs. 9,91,266 has been prepared for the development of horticulture. In partial execution the plan encourages intensive vegetable and quick growing fruits in Bangalore and Mysore.

**Cash Crops:** Out of a total cultivated area of 280.8 lakh acres, nearly 64.3 lakh acres are under cash crops and out of a total agricultural income of Rs. 276.34 crores generated in the State, Rs. 90 crores are by cash crops. They form an important part also of the State's foreign export trade.

**Cashew:** It was expected that an area of about 75,000 acres would be brought under cashew in the private sector by the farmers themselves with the aid of loans proposed to be given to them. It was also estimated that an additional area of 8,000 acres would be brought under

cashew cultivation by the Forest Department by the end of the Third Plan.

**Cardamom:** Cardamom is occupying an estimated area of about 49,000 acres. The estimated production is about 1,000 tons which is nearly 45 per cent of the national production.

**Tobacco:** Tobacco is cultivated in an area of about 1 lakh acres and the annual estimated production is about 25,000 tons.

**Sugarcane:** Sugarcane occupies an area of about 1.5 lakh acres in Mysore producing about 4,12,500 tons of gur. By the end of the Third Plan, it was expected that an area of 1.70 lakh acres would be brought under this crop.

**Areca nut:** The production is about 25,000 tons of nut which is nearly 27 per cent of the annual production in India.

**Rubber:** Plantations extended over 785 acres, cinchona plantations over 44 acres and eucalyptus over 20,125 acres.

**Animal Husbandry:** (Figures in million): Cattle 9.67; Buffaloes 3.02; Sheep 4.76; Goats 2.89; Poultry 8.84.

The State has a network of about 600 Veterinary Institutions comprising 19 District Hospitals, 175 Taluk Dispensaries and 400 Rural Veterinary Dispensaries. The Mysore Serum Institute produces all the necessary biologicals to combat and prevent contagious diseases among livestock. Two Clinical Laboratories—one at Belgaum and the other at Mangalore—are under construction.

**Bangalore Dairy Project:** Aided by UNICEF, this is designed to handle 50,000 litres of milk with provision to expand the capacity to 1,50,000 litres. At present it supplies 20,000 litres to Bangalore City.

## COMMUNITY DEVELOPMENT PROGRAMME

The entire State is now covered by Community Development Blocks, with emphasis on agricultural production and applied nutrition programmes.

The Village Volunteer Force and Defence Labour Banks Scheme were inaugurated in 1962-63 with the three-fold object of encouraging production, mass education and defence efforts. 7,00,000 volunteers have been enrolled in the Volunteer Force and 4,000 Labour Banks have been constituted. A scheme to ensure panchayat agricultural production plans has also been inaugurated.

## LAND REFORMS

The Mysore Land Reforms Act (1961) came into force in Oct. 1965.

See also under main article on "Agriculture".

## Survey and Settlement

Three schemes (1) Consolidation of holdings; (2) Cadastral survey of Inam villages and (3) Record of Rights and Agricultural Statistics, undertaken in the Third Plan, will be continued in the Fourth Plan. Out of 2,143 ex-Inam villages in the old Mysore Area and Bellary District, 1,737 villages have been surveyed and 1,424 villages settled.

## FOREST

Area : 13,575 sq. miles (18.4 per cent of the State area).

**Classifications and area:** Wet evergreen and Semi-evergreen 1,315 sq. miles; Moist Deciduous 843 sq. miles;

Dry Deciduous 3,020 sq. miles; Dry Thorn 8,397 sq. miles.

| <b>TOTAL ..</b>                     | <b>1,40,957</b>                 | <b>1,19,254</b>                                | <b>4,53,165</b>                                            |

Net revenue from forests has risen from Rs. 275 lakhs in 1956-57 to Rs. 988 lakhs in 1965-66.

### IRRIGATION

Percentage of irrigated area to the total crop area : 7.3.

**Minor irrigation :** During the Third Five Year Plan the total provision for minor irrigation works (tanks including restoration, etc.) was Rs. 850 lakhs.

The number of wells sanctioned till the end of the Third Five Year Plan were as follows:—1960-61 : 16,700 wells; 1961-62 : 5,009 wells; 1962-63 : 10,500 wells; 1963-64 : 2,700 wells; 1964-65 : 2,500 wells; 1965-66 : 10,000 wells. Total 42,900 wells.

If the Scheme was implemented as proposed, about 63,000 acres were expected to be brought under irrigation before the end of the Third Five Year Plan resulting in an increased food production of 42,900 tons.

**Major and Medium Irrigation :** In addition to the 25 Projects taken up during I and II Plan period, 7 new schemes — 3 Major and 4 Medium — had been included in the III Five Year Plan. The estimated cost of the 7 new schemes included in the III Five Year Plan was Rs. 99.41 crores with an irrigation potential of 10.52 lakh acres. Thus the total estimated cost of I, II and III Plan schemes amounted to Rs. 228.69 crores with a gross potential of

25.14 lakh acres. There was a provision of Rs. 40.66 crores in the III Five Year Plan (Rs. 31.27 crores for the I and II Plan schemes, and Rs. 9.39 crores for the III Plan schemes).

Under the 32 Major and Medium Irrigation Projects included under I, II and III Five Year Plans the gross irrigation potential available was 25.14 lakh acres. The targets and achievements and potential and utilisation were as under :—

|                                                          | Potential<br>(cumulative<br>in lakh acres) | Utilisation<br>(cumulative<br>in lakh acres) |
|----------------------------------------------------------|--------------------------------------------|----------------------------------------------|

\* Work at Narayanapur has been suspended in preference to a site at Siddapur which is being examined.

## CO-OPERATION

The structure of co-operative credit in the State consists of three tiers: the primary, the intermediate and the apex. At the apex level, there is the Mysore State Co-operative Apex Bank which has been re-constituted as a federal body and whose jurisdiction is extended to the whole of the State. The Central Land Mortgage Bank has been reorganised and reconstituted with the entire State as its jurisdiction.

There are 17,000 Co-operative Societies with a membership of 35 lakhs. Their total borrowing amounts to Rs. 75 crores and working capital Rs. 139 crores.

Number of Agricultural Credit Societies: 8,800; Number of District Co-operative Banks: 19; Number of Land Development Banks: 155; Number of Primary Marketing Societies: 245; Number of Housing Co-operative Societies: 639; Number of Coir Co-operative Societies: 21.

## Co-operative Sugar Factories

Nine Co-operative Sugar Factories are in existence in the State of which 4 have gone into production and 5 have secured industrial licence.

## Co-operative Farming

There are 310 farming societies with a membership of 8,597 and paid up share capital of Rs. 10.09 lakhs, commanding an area of 52,869 acres.

## Consumers' co-operatives

There are at present 13 whole-sale stores and 759 primary stores with an aggregate membership of 70,086 and share capital of Rs. 50.49 lakhs.

The Third Plan brought about sixty per cent of the agricultural population under the co-operative fold. Two thousand more service co-operatives, 50 primary land mortgage banks, 44 processing units and 900 godowns will be started and 160 marketing societies will be re-organised.

## ELECTRIC POWER

Estimated rise in output after completion is about 1,466 million units over the 1956-57 figure. (a) 891,000 Kw. ultimate capacity. (b) 40,400 Kw. ultimate capacity. (c) This is a joint venture of Andhra Pradesh and Mysore. Mysore's share is 14,400 Kwa. (20 per cent of the generated power.) Two units of 9,000 Kw. installed and two more units being installed at the dam and canal power house. (d) Ultimate capacity 36,000 Kw.

Names of power stations (besides the ones completed recently) in operation, their location and installed capacity:

| Name                    | Installed capacity (Kw.) | Location                                           |
|-------------------------|--------------------------|----------------------------------------------------|
| Sivasamudram .. ..      | 42,000                   | 28 miles from Maddur Rly. Stn. towards South East. |
| Shimshapura .. ..       | 17,200                   | 28 miles from Maddur Rly. Stn. towards South East. |
| Jog (M.G.H.E. Works) .. | 120,000                  | 12½ miles from Talaguppa Rly. Stn. towards North.  |

Villages electrified:—1,300 till March 1966.

No. of irrigation pumps serviced: 23,600.

Diesel Stations showing within brackets the installed capacity in Kw. and units generated in millions in 1964-1965 respectively: Mercara (414; 0.705); Somwarpet (150; 0.146); Virajpet (240; 0.242); Shorapur (100; 0.065); Gourikoppal (80; 0.111); Raichur (1,240; 2.916); Gulbarga (826; 1.944); Yadgir (400; 0.537); Bailhongal (200; 0.197); Guledgud (567; 1.027); Hukeri (500; 0.975); Ilkar (200; 0.322); Chittapur (50; 0.047); Humnabad (200; 0.055); Aland (100; 0.015); Kushtagi (50; 0.001).

The following are some of the other diesel stations with the installed capacity in Kw.:—Udipi 110 Kw; Karkala 32 Kw; Mangalore 1,017 Kw.

## POWER

**Sharavathi Valley Project:**—The Sharavathi Valley Project now under execution is the biggest and one of the most economical projects in the State and one of the few economical projects in India. The River Sharavathi though only 82 miles in length has a tremendous power potential amounting to about 1.35 million kilo watts. This project is being executed in three stages.

**Bhadra Hydro-Electric Project:**—The Bhadra Hydro-Electric Project is mainly an irrigation project and

the power generation here is only incidental. The installed capacity of this station is 33,200 KW comprising 2 units of 12,000 KW each in the River bed station, one unit of 2,000 KW in the left bank station and one unit of 7,200 KW in the right bank station.

#### **Tungabhadra Hydro-Electric Project (Left Bank) :**

—This project contemplates installation of 3 units each of 9,000 KW and transmission of power by means of 110 KV transmission line from Munirabad to Shahabad. All three units of 9,000 KW each have been commissioned.

**Kalinadi Hydro-Electric Project :**—Provisions have been made for carrying out the preliminary works on the Kalinadi scheme during the III Plan period.

**Mysore State Electricity Board :—III Five Year Plan :** The Third Five Year Plan of the Mysore State Electricity Board was a further projection of the Second Plan Schemes viz., Extension of Main and Sub-transmission lines, erection of step down stations, extension of power supply to villages and power supply to Irrigation Pumpsets etc. to distribute the power to various parts of the State from the Power Projects like Bhadra, Munirabad and Sharavathi Valley Project. The total provision for the Third Plan Projects of the Board under the head "Power" was Rs. 2,067.98 lakhs besides a provision of Rs. 1,075 lakhs for power supply to Irrigation Pumpsets under 'Minor Irrigation'. An expenditure of Rs. 305.17 lakhs had been incurred under power and Rs. 155.04 lakhs under power supply to Irrigation Pumpsets during the first two years of the Third Plan. Besides meeting its own demand, Mysore is now in a position to supply power to neighbouring States — Andhra Pradesh, Madras, Kerala and Goa — on a temporary basis.

### **INDUSTRIES**

Production in some of the important industries 1964-65 :—

| Industry                                            | Unit    | 1963-64 | 1964-65 |
|-----------------------------------------------------|---------|---------|---------|
| Pig Iron ..                                         | M. Tons | 102,324 | 102,324 |
| Crude and Semi-finished Steel and Finished Steel .. | "       | 89,611  | 89,611  |
| Sugar ..                                            | "       | 119,094 | 119,094 |
| Paper ..                                            | "       | 49,981  | 49,981  |
| Cement '000 ..                                      | "       | 859.6   | 859.6   |

Main large-scale industries in the State with location: Textiles (Bangalore, Devangere, Bellary, Mysore, Hubli, Gadag, Gokak, Gulbarga); Engineering (Bangalore, Harihar); Mineral and Metal (Bangalore, Bhadravati, Bellary, Kolar, Shimoga); Food, drink and tobacco (Bangalore); Chemicals, dyes, etc. (Bangalore, Mysore); Paper and printing (Bhadravati, Nanjangud, Dandeli, Mandya and Bangalore); Process relating to wood, stone and glass (all over the State); Process connected with hides and skins (Bangalore); Gins and presses (Devangere, Belgaum, Bellary, Dharwar, Gulbarga & Raichur); Fisheries (Mangalore, Karwar).

Major industries owned by the Union Government located in Bangalore. (See under Govt. Industrial Undertakings).

Government Aided Concerns : Radio & Electrical Manufacturing Co., Bangalore; Mysore Lamp Works, Bangalore; Mysore Paper Mills, Bhadravati; Mysore Sugar Company, Mandya and Mysore Industrial & Testing Laboratory Ltd., Bangalore; Mysore Spun Silk Mills,

Channapatna; Mysore Chemicals and Fertilisers, Belagula; Mysore Tobacco Co. curing centres at Mandya, Mysore, Kolar; Mysore Stoneware Pipes and Potteries, Soladevanahalli, near Chikbanavar Railway Station; Mysore Coffee Curing Works, Chikmagalur; Mysore Chrome Tanning Co., Bangalore; Mysore Water Proofs Ltd.; H.A.L. Post, Bangalore; Mysore Match Co. Ltd., Shimoga; Mysore Vegetable Oil Products, Bangalore; Mysore Kirloskars Ltd., Harihar; Mysore Cements, Ammasandra, Tumkur; Mysore National Paper Mills, Bilgola; Mysore Lac and Paints, Mysore; Mysore Fruit Products, Bangalore.

In the public sector are the New Government Electric Factory, Bangalore and the Government Porcelain Factory, Malleswaram, Bangalore. For details see under the main article "Government Industrial Undertakings".

Production in Rs. (lakhs) in some Govt. Industrial Concerns in 1964-65: Sandalwood Factory: 133.74; Soap Factory: 118.14; Govt. Electric Factory: 99.84; Porcelain Factory: 73.29; Implements Factory: 36.54; Total: 461.55.

A watch factory has been set up at Bangalore in the public sector (as an adjunct to Hindustan Machine Tools) designed to manufacture about half a million full lever watches annually. The Bangalore factory has the collaboration of the Japanese firm, Citizen Watch Company.

No. of Industrial Estates, 8. (Bangalore, Ramanagaram, Mysore, Hubli, Harihar, Belgaum, Gulbarga and Mangalore.)

No. of Sugar factories: 9; No. of Paper factories: 4; No. of Cement factories: 4; No. of textile and allied mills: 39.

A letter of interest has been granted to Indian Aluminium Co., Calcutta, to set up a plant to manufacture aluminium ingots near Belgaum with an initial capacity of 30,000 tonnes per annum.

### **Employment**

During the Third Plan period, the total outlay on Central Government schemes proposed to be executed in the State (like the Mangalore-Hassan Railway, development of Mangalore Port, West Coast Roads, etc.) is expected to be of the order of Rs. 57 crores. The total additional employment likely to be created on account of these schemes is estimated to be about 1.10 lakhs.

The overall additional employment opportunities likely to be generated during the Third Plan period by Plan investment (both Central and State) may, therefore, be placed at about 5.67 lakhs.

In 1964-65, Employment Exchanges notified 28,067 vacancies and placed 16,831 persons in employment.

### **LABOUR**

**Labour Welfare Centres :** Ten Labour Welfare Centres were started at Mysore, Gulbarga, Bijapur and Yeshwantpur to extend labour welfare activities and provide recreation to the workers.

#### **Expansion of Labour Welfare Activities.**

**Banking Facilities to the Industrial Workers :** With a view to affording relief to the industrial workers indebted to money-lenders, a scheme to provide credit facilities at reasonable rates of interest on co-operative basis was taken up and it is now under the charge of a co-operative officer deputed by the Co-operative Department.

**Apprenticeship Act :** Under this scheme 1,400 candidates would have received training.

**Employment Exchanges :** A network of Employment Exchanges are now functioning in all the districts and also four units of Employment Information and Assistance Bureau in the rural areas at Pavagada, Yadavgiri, Shirhatti and Nagamangala Taluks.

**Factories and Boilers :** There are 3,100 factories on the registers of the Department.

**The Employees' State Insurance Scheme :** The Scheme is now in force in Mysore, Mangalore, Hubli, Gulbarga, Gokak, Dandeli and Belgaum. The total number of beneficiaries so far is over 200,000 family units. The Scheme will shortly cover Davangere, Harihar and Kollegal and a few more smaller centres.

**The Rural Manpower Utilisation Works :** The main schemes undertaken in this programme are Minor Irrigation, Soil Conservation, Afforestation, Development, Repairs to Field Channels and Road Works.

### HOUSING

**Achievements of the Mysore Housing Board from 1961-62 to 1965-66 :**

Amount drawn : Rs. 84.50 lakhs ; Number of houses built (General) : 1,922.

**Low Income Group Housing :** (from 1961-62 to 1965-66): Amount drawn : Rs. 399.00 lakhs ; No. of houses built : 3,200.

**Subsidised Rental Housing :** (from 1962-63 to 1965-66): Provision : Rs. 31 lakhs ; No. of houses built : 314.

**Middle Income Group Housing :** (from 1961-62 to 1965-66): Amount drawn : Rs. 148 lakhs ; No. of houses built : 694.

### SMALL-SCALE INDUSTRIES

Important cottage industries showing their centres in Mysore State within brackets: Lacquerware (Chennapatna, Gokak, Nelamangala, Chikmagalur and Shimoga); Sandalwood carving (Sagar, Sorab, Mysore); Ivory and Inlay works (Sagar, Sorab, Mysore); Brass works (Nelamangala); Rattan work (Mysore, Chikmagalur, Shimoga and Sagar); Bidriware (Bidar); Glass Bangle making (Yeshwantpur and Ghodgeri); Mat weaving (Kengeri, Amruthur, Nagamangala, Hassan, Kumbalur, Anandapuram and Hiriyur); Leather stitching (Birur, Sagar, Doddasiddavanahally, Indi, Ramdurg, Ashani, Sandatti and Karwar); Pottery (Ramanagaram, Khanapur, Madikebeedu and Krishnarajapura); Tile-making (Mangalore); Coir Industry (Mangalore, Karwar); Agarbatti (Mysore, Bangalore); Cotton Hosiery (Shahapur).

The important centres for small scale industries are Bangalore, Belgaum, Tumkur, Hubli, Hospet, Bhadravati and Mangalore. Among the important products that have got all-India market, the following are noteworthy: Cycle Dynamo Lamps; Centre lathes; Wood working machinery; Punch presses; Ornamental lamps; Charcoal Irons; Pooja articles of non-ferrous metals. Apart from the above, the State also produces oil-engines, pressed-metalware and components for large-scale industries located in the State.

**Sericulture :** See under main article "Sericulture and Silk."

### MINERALS

**Mineral Production :** Minerals showing, within brackets, the location, average annual quantity in tons and value in Rs. respectively; (Figures for gold and silver are given earlier). Asbestos (Hassan; 170 : 25,000); Chromite (Hassan; 4,000 : 3,00,000); Feldspar (Kolar; 600 : 15,000);

China Clay (Bangalore, Hassan, Shimoga and Tumkur; 30,000 : 4,10,000); Limestone (Shimoga, Gulbarga and Bijapur; 8,00,000 : 8,00,000).

Total number of men employed : About 45,000.

Number of men employed in each mineral industry : Gold (30,000); Other minerals (15,000).

During the Third Plan period, the following minerals have been located and their reserves assessed :—

(1) **Iron ore.**—Iron ore deposits estimated at about 500 million tons of exportable grade have been proved in the Bababudan Hill, Chikmagalur District; near Kodachadri and Kotebore, Shimoga District; near Kalche, Kodalgadde, Sunksal, etc., North Kanara District; near Karekurchi, Habbigegudda, Janehar, Tumkur District and Vajra, Lakkihalli Bheemasamudra, etc., Chitradurga District. This is in addition to the ore reserves in the Bellary-Hospet area, where a reserve of about 1,000 million tons is assessed.

(2) **High Calcium Limestone**—occurring between Bagalkot and Yadwad, Bijapur-Belgaum Districts have been mapped in detail and some of them have also been prospected by drilling. So far about 600 million tons of limestone are assessed. Further prospecting is under progress. The high calcium limestone deposits near Nagargali, North Kanara District and those in Hosadurga Taluk, Chitradurga District, were also mapped in detail and the reserves are assessed at 30 million tons and 50 million tons, respectively.

(3) **Fuller's Earth.**—Fuller's Earth deposits suitable for refining of mineral and vegetable oils occurring near Korvi and other villages, Chincholi Taluk, Gulbarga District, have been prospected and estimated to contain about 2 million tons.

(4) **Bauxite.**—The surveys conducted for Bauxite deposits in Belgaum District have revealed the occurrence of about 2 million tons of Bauxite.

The value of production in Rs. (lakhs) of some important minerals in 1964 : Gold : 298.13 ; Iron ore : 137.63 ; Manganese ore : 70.43 ; Limestone : 40.63 ; China clay : 2.63 ; Quartz : 4.84 ; Magnetite : 2.96 ; Bauxite : 1.94.

**Board of Mineral Development**—Besides export of Iron Ore and Manganese Ore, the Board deals with the mining and sale within India of commodities like Chrome Ore, Clay, Graphite, Quartz, Feldspar, Soapstone, etc. The export is at present restricted to Iron Ore and Manganese Ore. This commercial venture is a foreign exchange earner, and during the year 1963-64 the export of Iron Ore and Manganese Ore to foreign markets totalled up to 4.62 lakh tonnes, securing a foreign-exchange component equivalent to Rs. 126 lakhs.

During 1964-65 the sales touched Rs. 1.5 crores.

### PUBLIC HEALTH

Mysore State has 208 hospitals, with 19,000 beds, 800 dispensaries, 4,500 registered doctors, 1,700 registered nurses, 1,750 midwives, 450 primary health units, 19 national malaria eradication programme units, one national filaria control unit, 10 subsidiary leprosy units, 12 district medical laboratories and 92 family planning centres.

Ayurvedic hospitals 8, Ayurvedic dispensaries 500; Unani dispensaries 71 and Homeopathic dispensaries 10.

Some of the important schemes carried out :—National Malaria Eradication Programme; National Filaria Control Programme; National Small Pox Eradication Programme; Leprosy Control Programme; The B.C.G. Vaccination Scheme.

### Third Plan—Physical Targets and Achievements

Total III Plan Provision Rs. 432·850 lakhs. Total expenditure for the period from 1st April '61 to 31st Dec. '65 : Rs. 400 lakhs.

It was proposed to establish 2,500 additional beds in Hospitals, of which 1,167 have been established.

240 more beds have been provided at the Mental Hospital, Bangalore.

180 additional beds have been established for T.B. patients out of the target of 300 beds.

In all about 3,000 additional beds were likely to be established by the end of the IIIrd Plan, raising the total number from 14,000 to 17,000 beds. But, for a population of 240 lakhs at least 24,000 beds have to be provided and hence this scheme is proposed to be continued in the IV Plan also, to provide another 3,000 additional beds.

As against III Plan target of establishing 5 Blood Banks, 5 Dental Clinics, 8 T.B. District Centres, 5 V.D. Clinics, and 3 Children Guidance Clinics, it has been possible to achieve 2 Dental Clinics, 3 T.B. Clinics, 6 T.B. District Centres, 1 V.D. Clinic, and 1 Child Guidance Clinic. Sanction has been received for 3 Blood Banks and one more Dental Clinic, which are under the process of being started.

**Medical Education:**—At the commencement of the Third Plan, the total admission capacity of the four Medical Colleges in the State was 640, which has since been raised to 1,220 by providing 140 additional seats in existing colleges, and 440 seats in four new Medical Colleges. There are 4 Govt. Medical Colleges and 5 Private Medical Colleges.

A Logopaedic Institute is proposed to be started in Mysore.

The Dental College of the State has an admission capacity of 30 students.

**Venereal Diseases:** Five Special V. D. Clinics have been established at Gulbarga, Kolar, Shimoga, Mandya and Bijapur. A Mobile V. D. Clinic has been functioning at Ankola in North Kanara District.

**Family Planning:** In May 1966, there were 125 rural family planning welfare organisations and 10 urban family planning units.

No. of mobile vasectomy units : 4 ; no. of operations upto 1964-65 : 12,500.

Three Regional Family Planning Training Centres have been established at Ramanagaram, Mysore and Mangalore.

**Laboratories:** The Public Health Laboratory at Bangalore has been up-graded and 12 District Laboratories have been established in the Districts. The Vaccine Institutes at Bangalore and Belgaum have been expanded to cope with the increasing demand for smallpox vaccine.

### EDUCATION

A Sainik school has been established at Bijapur.

Compulsory education for the age-group 6-7 was introduced during 1961-62 and for the age-group 7-8 in 1962-63.

**THIRD PLAN:** The total outlay under General Education for the Third Plan was Rs. 1,451·72 lakhs of which the provision for Elementary Education was Rs. 1,051·21 lakhs.

Secondary education has been made totally free from 1966-67. It is estimated that nearly five lakh pupils will be covered by the scheme.

There are four universities in Mysore State : (1) Bangalore University, Bangalore ; (2) Mysore University,

Mysore ; (3) Karnatak University, Dharwar ; (4) Agricultural University, Hebbal, Bangalore. Besides the Indian Institute of Science, an institute for advanced engineering sciences, enjoys University Status.

**Primary Education:** An Institute of Education started functioning at Dharwar from 1963-64. The aim of the institution is to raise the standard of teaching in the primary school giving training to the Primary School teachers.

**Secondary Education:** As many as 522 high schools have been established during the four years of the Third Plan.

Four Youth Vocational Training Centres have been established during 1964-65 under Central Govt. scheme aided by UNICEF. This scheme will impart vocational training to students who do not continue high school education after the VIIth standard.

**Hindi Education:** The Third Plan saw the establishment of 3 Hindi Shikshak Training Colleges in the State. 4,375 Hindi Teachers' posts have been sanctioned for teaching of Hindi as a compulsory subject in senior primary schools. 240 Hindi teachers for high schools have also been sanctioned.

**Technical Education:** During the Third Plan period upto Dec. 1964 two polytechnic for women, one school of arts and crafts and two junior technical schools were started.

There is now at least one polytechnic in each District of the State.

### MYSORE STATE ROAD TRANSPORT CORPORATION

Bangalore 1.

The Mysore State Road Transport Corporation has recorded considerable progress during 1965. The fleet strength of the Organisation was 1,922 passenger vehicles and 106 departmental vehicles and the labour force 13,320 as on 1st January 1965. The Passenger Transport Services are operated on 1,600 routes covering a route mileage of 49,951 miles and catering to the transport needs of more than 5·27 lakh passengers every day all over the State. The Road Transport Operations of the Corporation are now spread over more than  $\frac{1}{3}$  of the Mysore State.

### COMMUNICATIONS

Total length of Railway : 2,699 kilometres ; Broad gauge 483 kilometres ; Metre gauge 2,062 kilometres ; Narrow gauge 154 kilometres.

The most significant development regarding Mysore's ports during the past few years has been the development of the mineral ore export programme in the State. Since it had been estimated that the capacity of the ports to ship mineral ore during the Third Plan would fall short of actual requirements by about three million tons towards 1965-66, top priority had been given for the development of Mangalore and Karwar into all weather deep draft ports. The 123-mile Hassan-Mangalore rail link had also been included under the Central Sector of the Third Five-Year Plan.

In regard to communications, the P.W.D. has exceeded the Plan ceiling of Rs. 9 crores in the first two years of the Plan period. A 151-mile long West Coast road and ore carrying roads over a length of 379 miles are under execution.

Number of minor ports : 2 ; Coastline : 200 miles.

No. of airports : 3 ; No. of airstrips : 4.

## TOURISM

No. of foreign tourists: 1963-64: 2,244; 1964-65: 2,768; 1965-66: 3,500.

## MYSORE STATE FINANCIAL CORPORATION

(See Under "State Corporations".)

## THIRD PLAN

Provision: Rs. 250 crores.

The performance has been very good in many important sectors like "Minor Irrigation," "Large and Medium Industries," "Roads," "Health" and "Fisheries."

**Agricultural Production:** Production of Food grains 46.39 lakh tonnes; Production of Oil seeds 8.75 lakh tonnes; Production of Cotton 5.5 lakh bales; No. of Seed Farms 106; Plant protection 18.00 lakh acres; Sugar-cane (yield per acre) 35 tonnes.

**Minor Irrigation:** Additional acreage under new tanks 1.00 lakh acres; Additional stabilisation of old achkats 1.8 lakh acres; No. of borewells 354; No. of new wells dug 31,400; No. of electrical pumpsets distributed 17,200; No. of diesel sets distributed 10,000; No. of new electric supply to pump sets 23,300.

**Fisheries:** No. of boat building yards expanded 2; No. of mechanised boats supplied 150; Units of fisheries requisites supplied 3,000; Supply of salt at subsidised rates 19,500 (tonnes); No. of fishermen trained in mechanised fishing 750; Stocking fish fry in inland waters 150 lakhs.

**Co-operation:** No. of village credit co-operatives 11,107; Coverage of villages 100 per cent; Coverage of Agricultural population 67 per cent; Yearly amount of short and medium term finance Rs. 37.5 crores; Yearly amount of long term finance Rs. 7.5 crores.

**Power:** Additional capacity (generation) 400 Mwts; No. of villages to be electrified 1,119.

**Roads:** Formation (miles) 806; Improvement (miles) 2,524; Rural roads (miles) 11,598; Asphaltting (miles) 2,287; Major bridges 86.

**Education:** Percentage of children in schools (age group 6-11) 90 per cent; Enrolment in primary schools 12 lakhs; Enrolment in age group 11-17: 24 lakhs; Proportion of trained teachers in primary and secondary schools 75 per cent; No. of Engineering Colleges 15; Schools with proper accommodation 50 per cent; No. of Polytechnics 27; No. of women's polytechnics 2; Yearly in-take in Engineering Colleges 2,270; Yearly in-take in polytechnics 4,000.

**Health:** No. of Government Medical Colleges 4; No. of private medical colleges 4; Admission capacity per year 1,220; Capacity of nursing training 900; District laboratories 13; Proportion of urban population provided with safe drinking water 83; No. of rural water supply programmes 113.

**Housing:** Subsidised Industrial Housing Scheme 2,250 houses; Low Income Group Housing Scheme 3,300 houses; Village Housing Scheme 6,821 houses; Slum Clearance Scheme (plots) 450; Slum Clearance Scheme (tenements) 227; Land acquired and developed 136 acres; Land acquired to be developed 244.

**Social Welfare:** No. of Co-ordinated Welfare Extension Projects 23; No. of Remand Homes 19; No. of certified schools 7; No. of State Homes 4; No. of Reception Centres 7.

**Welfare of Backward Classes:** Additional Hostels for Boys 55; Additional Hostels for Girls 35; Private hostels given grant-in-aid 30.

## FOURTH PLAN

Provision Rs. 938.09 crores.

**Distribution. (Rs. in crores):** Agricultural Programmes Outlay: 450; Community Development, Co-operation and Panchayats 20.61; Irrigation and Power 185.00; Industry and Mining 35.43; Transport and Communications 34.62; Social Services 133.00; General & Tech. Education 30.00; Health 27.00; Local Bodies, Housing, Welfare and Labour 21.23; Miscellaneous 1.11.

## EDUCATIONAL INSTITUTIONS

### BANGALORE UNIVERSITY

Bangalore 1.

**Chancellor:** Governor of Mysore.

**Vice-Chancellor:** Prof. V. K. Gokak.

**Registrar:** P. Mallikarjunappa, M.Sc.

**Estd.:** 1964. 31 colleges located in the Bangalore City are now under its jurisdiction. Jurisdiction of the University extends over the Bangalore Urban District but Colleges of Agriculture and Veterinary Sciences are excluded.

Total enrolment in the University and constituent colleges is 19,299, consisting of 13,622 men and 5,677 women. There are 1,001 teachers (761 Men, 240 Women) giving a Teacher-pupil ratio of 1:20.

The University provides facilities for training and research in the faculties of: (a) Humanities and Social Sciences, (b) Science, (c) Engineering and Technology, (d) Law, (e) Medicine.

There are 42 departments of study. Post graduate facilities are available in Medicine, Surgery, Soil Mechanics and Foundation Engineering, Structural Engineering, Mechanical Engineering, Home Science, Chemistry,

Physics, Mathematics, Botany, Zoology, Geology, English, Kannada, Economics, Sociology and Law (Jurisprudence and Contracts).

Undergraduate training is available at Pass level in all subjects and Honours level in some subjects.

### KARNATAK UNIVERSITY

Dharwar 3.

Founded in 1950. A Teaching and Affiliating University having jurisdiction over the districts of Belgaum, Bellary, Bidar, Bijapur, Dharwar, Gulbarga, North Kanara, in Mysore State.

Medium of Examination is English; Teaching departments 23; Affiliated Colleges 49; Recognised Institutions, nil; Constituent Colleges 4.

**Chancellor,** Governor of Mysore.

**Vice-Chancellor,** D. C. Pavate, M.A. (Cantab.).

**Registrar,** S. S. Wodeyar, M.A., LL.B.

Total number of students (1964-65): 23,403; (1965-66): 25,478.

## BUDGET — 1965-66 (ESTIMATES)

|                                      | Rs.       |
|--------------------------------------|-----------|
| Income (including Govt. Grant) .. .. | 49,47,125 |
| Expenditure .. ..                    | 52,22,614 |
| State Govt. Grant .. ..              | 24,17,547 |

## UNIVERSITY TEACHING DEPARTMENTS

Names of the departments with courses offered within brackets : Kannada (M.A., Ph.D.); Statistics (M.A. (Stat.), M.Sc. (Stat.), Ph.D.); Physics (M.Sc., Ph.D.); Chemistry (M.Sc., Ph.D.); Geology (M.Sc., Ph.D.); History (M.A., Ph.D.); Economics (M.A., Ph.D.); English (M.A., Ph.D.); Philosophy (M.A., Ph.D.); Politics (M.A., Ph.D.); Kannada Research Institute, Dharwar (M.A. Ancient Indian History and Culture, Archaeology, Epigraphy, Ph.D.); Sociology (M.A., Ph.D.); Mathematics (M.A. and M.Sc., Ph.D.); Sanskrit (M.A., Ph.D.); Geography (M.Sc., Ph.D.); Anthropology and Social Welfare (M.A., Ph.D.); Botany (M.Sc., Ph.D.); Zoology (M.Sc., Ph.D.); Commerce (M.Com., Ph.D.); Education (M.Ed., Ph.D.); Law (LL.M., Ph.D.).

School of Foreign Languages (Certificate and Diploma courses in French and German); University Library (Diploma in Librarianship).

## UNIVERSITY OF AGRICULTURAL SCIENCES

XI Main, 16th Cross Road, Malleswaram,  
Bangalore-3.

*Chancellor* : Governor of Mysore.

† Provisional.

*Vice-Chancellor* : Dr. K. C. Naik, B.A., M.Sc., Ph.D. (Bristol).

*Registrar* : Vacant.

The University was inaugurated in 1964. It is not teaching and affiliating University, but a residential University, with constituent colleges responsible for residential teaching, research and extension education throughout the State of Mysore.

Estimates† (1966-67) : Govt. Grant : Rs. 1,55,00,700; Govt. of India Grant : Rs. 2,00,000; Other sources : Rs. 17,88,520; Opening balance : Rs. 7,13,720; Total : Rs. 1,82,03,035; Expenditure : Rs. 1,76,98,605; Closing balance : Rs. 5,04,430.

## UNIVERSITY OF MYSORE

Karya Soudha, Crawford Hall, P. B. No. 14, Mysore.

*Chancellor* : Governor of Mysore.

*Pro-Chancellor* : S. R. Kanthi, Minister for Education.

*Vice-Chancellor* : Dr. K. L. Shrimali.

*Registrar* : K. R. Ramachandran

This is a teaching and affiliating University; No. of University Colleges : 3; No. of affiliated colleges : 63; Total No. of students during 1964-65 : 29,187; Estimates (1966-67) : Government Grant : Rs. 77,11,000; Grant from University Grants Commission : Rs. 14,04,000; University (fees, etc.) : Rs. 29,78,320; Opening Balance : Rs. 3,72,700; Total : Rs. 1,24,66,022; Expenditure : Rs. 1,24,03,080; Closing Balance : Rs. 62,942.

## NAGALAND

*Area* : 6,366 sq. miles.

*Population* : 369,200 (1961 Census).

*Headquarters* : Kohima.

Administrative Districts with headquarters shown within brackets : Kohima (Kohima); Mokokchung (Mokokchung); Tuensang (Tuensang).

There are 860 villages.

The economy of the unit is mainly dependent on agriculture. Revenue is derived from house tax and forest produce like bamboo, cane, timber, thatch and 'Agar'.

The deficit in food production at the beginning of the Third Five Year Plan was estimated at 5,400 tons, the major crop being rice which accounts for 80 per cent of the total output of food. This deficit has been greatly reduced and the production of foodgrains has increased by 8,200 tons. In the villages people depend mostly on their own cottage industry for cloth. Yarn is made locally though it is also imported. Towns now import mill cloth.

The main tribes in the Area are : Angami, Sema, Lhota, Ao, Rengma, Chakesang, Sangtam, Konyak, Chang, Phom, Yimchunger, Khemnyuan, Zeliang-Kuki.

The formal inauguration of the State of Nagaland took place on Dec. 1, 1963. General Elections for Nagaland Legislative Assembly with an initial strength of 40 (it may be raised to 60 after ten years) were held in the second week of January, 1964.

The new Ministry which was sworn in on January 25, 1964 by the Governor of Nagaland consisted of seven Ministers including one Deputy Minister and a Parliamentary Secretary.

\* See page 283 for allocations for the total outlay on Fourth Five Year Plan.

## PEACE TALKS

An underground Naga Delegation led by Mr. K. Sukhmet met the Prime Minister in February, 1966 in Delhi. Another meeting was held in Delhi in the second week of April 1966. Referring to these high level talks Smt. Indira Gandhi at a Press Conference on April 12 said : "A Settlement of the Naga problem could be worked out only within the frame work of the Indian Union".

The peace talks and negotiations held so far, have helped to remove suspicions and tension to a considerable extent. But the peace talks reached a deadlock on Oct. 29, 1966 when the Naga delegation pressed for the recognition of sovereignty to Nagaland.

## DEVELOPMENT PROGRAMME IN THIRD PLAN

An out-lay of Rs. 7.25 crores had been approved for the Third Five Year Plan subject to the increase of allocation from year to year based on the actual performance. At the end of the financial year 1965-66 the actual expenditure under Plan scheme came to Rs. 1,095 lakhs.

Under agricultural production scheme the total production potential was brought to 80,900 tons by the end of 1963-64 as against 77,200 tons in 1961-62. The estimated area under rice and production by the end of 1963-64 was 1,70,500 acres and 70,000 tons respectively.

Forests are the main source of revenue in Nagaland. By the end of 1963-64 the out-turn of timber was brought to 6,32,000 cft. as against 1,60,000 cft. in 1960-61. During the year 1963-64, 65,933 cft. of sleepers and timbers were supplied to the Railways and Defence and other Departments. The total revenue earned during the year was Rs. 9,74,434 as against Rs. 2,92,000 in 1960-61.

**Roads:** (1965-66)—National Highway (from Dimapur to Mao) 64 miles; jeepable roads 1,415 miles; Mule path and Bridle trucks 280 miles; Fair weather motorable road 1,373 miles; Metalled road 55 miles. In 1965-66 a sum of Rs. 269.60 lakhs was spent on roads.

**Transport:** (1965-66)—Nationalised Routes 5; Passenger services 442 kms.; Goods services 176 kms.; Taxi services 215 kms.; Town Bus services 150 kms. The expenditure during the year was Rs. 37.59 lakhs. The State Transport Service was inaugurated on 26th Jan. 1965.

**Education:** (March 1965-66)—No. of Govt. Primary Schools 800; Govt. Middle Schools 126; Govt. High Schools 30; Colleges 2; Polytechnical school 1; Teacher's Training Institute 3; Adult Literacy Centres 30. Total

number of students is 68,826. L. P. Schools 53,860; M. E. Schools 10,716; High Schools 4,000; Colleges 250. The expenditure during the year was Rs. 127.02 lakhs.

**Health:** (1965-66)—Number of Hospitals 30; Number of Dispensaries 31; Number of beds 712.

All the villages in Nagaland have been covered by 17 Community Development Blocks for which an amount of Rs. 87.43 lakhs will have been spent by 1965-66.

Sufficient fund had also been provided for other schemes such as Animal Husbandry, Fishery, Cooperative, Power, Industries, Research & Cultural Programme, Housing, Labour and Labour Welfare, Welfare of Backward Class, Statistics and Information and Publicity.

## ORISSA

(See page 421)

## PONDICHERRY

**Area:** 185 sq. miles (481.8 sq. Km.); **Population:** 3,69,079 (1961 census).

**Capital:** Pondicherry.

Popular ministry consisting of a Chief Minister and three ministers started functioning from September 11, 1964.

The Union Territory of Pondicherry consists of: (1) On the Eastern Coast: (a) Pondicherry, the Capital, together with the adjoining territory, divided into 8 communes; situated at about 98 miles south of Madras, the Territory is an enclave in the district of South Arcot in Madras State. **Area:** 290.1 sq. Km.; **Population:** 2,58,561 (1961 census).

(b) **Karaikal:** divided into 6 communes; it is at a distance of 92 miles from Pondicherry and is an enclave in the Tanjore District. **Area:** 158 sq. Km.; **Population:** 84,001.

(c) **Yanam:** with the adjoining territory forming one single commune; situated in the delta of the Godavari, it is an enclave in the district of East Godavari in Andhra Pradesh. **Area:** 20.7 sq. Km.; **Population:** 7,032 (1961 census).

(2) **Mahe:** The territory of Mahe on the west coast consists of the town of Mahe on the left bank of the river of the same name; and the dependent territory of Naluthara on the right bank containing the four villages of Chembra, Chalakara, Palour and Pandaquel. It is an enclave in the District of Cannanore in Kerala State.

**Area:** 104 sq. Km.; **Population:** 19,485 (1961 census).

The first general election in Pondicherry after the "de jure" transfer took place on Aug. 23, 1964.

### ECONOMY

**AGRICULTURE** (1965-66):

Total production of food grains: 52,000 tonnes.

Production of individual food crops (in tonnes): Rice 47,000; Ragi 3,200; Cumbu 1,100; Cholam 200; Varagu 200; other millets 60.

Production of individual cash crops (in tonnes) Sugarcane 1,64,000; Groundnut 4,700; Chillies 35; Pepper 14; Onion 150; Cotton 321.

Total area of the State (according to village papers): 46,867 Hectares.

Total area (net) cultivated: 31,259 Hectares.

Total area under food crops: 37,100 „

Total area under cash crops: 6,459 „

Net area irrigated: 25,686 Hectares.

(By tanks 5,825 hectares; channels 11,098 hectares; tube-wells 8,636 hectares; ordinary wells 70 hectares; other sources 57 hectares.)

### CO-OPERATION

*Position as on 30th June 1965:*

Total number of cooperative societies: 172.

Total membership: 46,212.

Total working capital: Rs. 2,10,22,000.

### ELECTRICITY

The Power House which was in existence was closed down and disposed of in November 1963 and as such does not generate.

Electricity purchased: (1965-66): 599.432 lakh kW.

### INDUSTRIES

**Large Scale Industries of the Territory:**

The Anglo-French Textiles Ltd., Pondicherry; Swadeshi Cotton Mills, Pondicherry; Sri Barathi Mills, Pondicherry; The New Horizon Sugar Mills, Pondicherry; Soundararaja Cotton Mills, Karaikal and The Cannanore Spinning and Weaving Mills, Mahe.

Total number of automatic looms 2,386.

Total number of spindles 1,17,944.

**Medium Scale Industries:**

Pondy Cycle Parts Manufacturers; Pondy Rolling Mills; Modern Electrical Industries, and The Cauvery Textiles.

**Other Small Scale and Cottage Industries:**

Engineering and allied units including foundries 25; Non-ferrous metal units 25; Wooden Articles & Furniture

15; Soap Manufacturing 7; Camphor Tablet Manufacturing 12; Electrical units 4; Food articles & Processing Units 24; Leather Goods 7; Ayurvedic Medicine 1; Handicrafts 2; Handmade paper unit 1; Mirror Framing units 7; Soda Factory 7; Non-Scheduled Industries 8; Miscellaneous 60.

#### Industrial Cooperative Societies :

Palm Gur Society 2; Toy Making Society 1; Brick Makers' Society 1; Mat Weaving Society 4; Carpentry & Blacksmithy Society 2; Women Cottage Society 1; Coir Making Society 2; Oil Mongers' Society 1; Handmade Paper Society 1; Handpounding Rice Workers Society 1; Pondicherry State Small Scale Industrial Co-operative Society 1; Gramodyog Co-operative Society 1; Tailoring Society 1; Multimetal Society 1; Appalam Making Society 1.

#### HOUSING

Under the Industrial Housing Scheme, 200 tenements were constructed in the Pondicherry area during the Second Plan period at a cost of Rs. 5.5 lakhs. Under the Co-operative Housing Scheme, 213 low and middle income group houses were constructed during 1957 to 1966 and a loan to the tune of Rs. 21.75 lakhs was disbursed to the members in this connection.

An amount of Rs. 1.76 lakhs for the construction of 40 tenements as an extension to the industrial Housing Colony at Gandhinagar has been sanctioned during 1965-66.

#### ROADS

Total length of roads (both Government and Commune) : 549.85 Kms.

Total metalled road : 256.51 Kms.

A new pier has been built at Pondicherry at a cost of about Rs. 42 lakhs. Ships lie at a distance from the shore and contact with land is maintained by means of boats.

#### EDUCATION (1964-65)

Total number of Nursery schools : 37 (for boys nil ; for girls 37).

Total number of teachers : 50 (Men 6 ; Women 44).

Total number of students : 1,961 (boys 925 ; girls 1,036).

Total number of Primary schools : 239 (for boys 225 ; for girls 14).

Total number of students : 19,952 (boys 11,960 ; girls 7,992).

Total number of teachers : 556 (Men 438 ; women 118).

Total number of middle schools 69 (for boys 49 ; for girls 20).

Total number of students : 21,451 (boys 12,773 ; girls 8,678).

Total number of teachers : 740 (Men 413 ; women 327).

Total number of High Schools : 37 (for boys 28 ; for girls 9).

Total number of students : 17,345 (boys 11,612 ; girls 5,733).

Total number of teachers : 723 (men 482 ; women 241).

Total number of colleges for boys and girls : 4.

Total number of students : 1,587 (boys 1,147 ; girls 440).

Total number of teachers : 146 (men 109 ; women 37).

*Professional Institutions and their strength* : One Medical College 334 (boys 254 ; girls 80) ; One Polytechnic 260 (all boys) ; Teachers' Training Centre 229 (boys 143 ; girls 86) ; One School of Arts and Crafts 82 (all boys) ; One School of Nursing 62 (all girls).

#### FIVE YEAR PLANS

The Third Plan of the Pondicherry State envisaged a total outlay of Rs. 10.17 crores.

Revised Estimate for 1965-66 : Rs. 211.51 lakhs.

Budget Estimate for 1966-67 : Rs. 200.54 lakhs.

The tentative allocations for the main sectors in the annual plan for 1966-67 are : agricultural programmes Rs. 28.38 lakhs ; co-operation and community development Rs. 12.08 lakhs ; irrigation and power Rs. 30.70 lakhs ; industry and mining Rs. 10.54 lakhs ; transport and communications Rs. 14.63 lakhs ; social services Rs. 89.67 lakhs and miscellaneous Rs. 14.54 lakhs.

The anticipated expenditure up to the end of Third Plan (1961-66) is estimated at Rs. 644.72 lakhs.

A total outlay of Rs. 12.25 crores has been fixed by the Planning Commission for the Fourth Five Year Plan of Pondicherry. For more details see article on Fourth Five Year Plan.

#### CHAMBER OF COMMERCE

Post Box No. 26, Karaikal.

*President* : M. Mohd. Ismail Maricar ; *Vice-President* : A. M. Dawood Shah ; *Hon.-Secretary* : S. Vijaya Raghavan ; *Treasurer* : R. Ramasami Chettiar.

#### CHAMBER OF COMMERCE

Pondicherry

*President* : J. M. Colombani ; *Vice-President* : R. Jayarama Iyer ; *Hon.-Secretary and Treasurer* : H. M. Cassime.

### PUNJAB\*

**CAPITAL** : Chandigarh — a centrally administered area.

The reorganised Punjab came into existence on November 1, 1966. The new State has an area of about 50,255 square kilometres. Its population is estimated at 1,11,47,000. About 27.75 per cent of the population is literate. Administratively, there are two divisions, 11 districts, 37 tehsils, 110 blocks and as many towns and 12,000 villages.

The following are the districts : Amritsar, Gurdaspur, Hoshiarpur, Jullundur, Ludhiana, Bhatinda, Ferozepore, Patiala, Sangrur, Rupar and Kapurthala. The names of

the district-wise tehsils, their area and population and the area and population of the districts are given in the article on "Population".

The existing strength of the Vidhan Sabha is 87. This will be raised to 104 after the general election in February 1967. The State will retain the Vidhan Parishad, but its membership will be reduced from 51 to 40. The State will be represented by 13 members in the Lok Sabha and by seven in the Rajya Sabha.

As the State has just come into existence other basic facts and figures about the State like Agriculture,

\* The agricultural production in 1965-66 (in lakh tonnes) : Foodgrains 33.8 ; sugarcane 6.0 ; oilseed 2.0 ; cotton 7.5. Total cultivated area 3.86 mln. hectares ; total cropped area 5.1 mln. hectares ; net irrigated area 2.1 mln. hectares of which 0.88 mln. hectares are irrigated by wells and tubewells.

Industries, Education, Public Health etc. are not available.

Sixty-three per cent of the State receives facilities of irrigation. There are 402 large and medium factories and 12,839 small industrial units in the State. About 62·3 per cent of the area is electrified.

## PUNJAB AGRICULTURAL UNIVERSITY

Ludhiana.

Estd. : 1962. The basic structure and organisation of the University has been patterned on the model of the Land Grant Universities in the United States with a complete integration of its State-wide functions of residential teaching, research and extension education in Agriculture, Agricultural Engineering and Veterinary Sciences. The University has its two campuses at Ludhiana and Hissar.

Chancellor : Governor, Punjab ; Vice-Chancellor : P. N. Thapar ; Registrar : C. D. Khanna.

Number of constituent Colleges : 7.

Post-Graduate Departments : Agronomy, Horticulture (Fruits and vegetables), Dairying, Biochemistry, Agricultural Chemistry and Science, Plant breeding, Plant Physiology, Entomology, Mycology and Plant pathology, Agricultural Economics and extension Education.

Classes for M.Sc. Animal Husbandry and Veterinary Science also function.

Budget (1966-67) : Income : Rs. 3,64,65,115 ; Expenditure : Rs. 3,64,65,115.

## PUNJABI UNIVERSITY

Patiala.

This University was established for advancement of Punjabi Studies and development of Punjabi Language as medium of instruction and for the promotion of higher education and research. The University started functioning on April 30, 1962. This is a Unitary/Residential-cum-Teaching University.

Chancellor : Governor, Punjab ; Vice-Chancellor : Sardar Kirpal Singh Narang ; Registrar : Sardar Harbans Singh.

Budget Estimates (Revised for 1965-66) : Income : Rs. 51,30,953·65 ; Expenditure : Rs. 57,20,843·88.

# RAJASTHAN STATE

CAPITAL : Jaipur. Area : 3,40,060 sq. kms. (according to village papers 1963-64) ; 3,42,272 sq. kms. (according to Surveyor-General of India).

Population (1961 census) : 20,155,602.

Rajasthan is divided into 26 districts, 83 sub-divisions and 195 tehsils.

No. of village panchayats : 7,388 (1964-65) ; No. of panchayat Samities 232. The Village Panchayats cover 34,528 villages and serve 16,874 thousand people.

## DISTRICTS & TEHSILS, AREA AND POPULATION

See article "Population."

## MINERALS

Rajasthan is an important mineral and building material producing State. It ranks next to Bihar in Mica which is chiefly found in Ajmer, Udaipur, Bhilwara and Jaipur Districts. Over a lakh persons have been employed in the State mining industry.

The chief non-metallic minerals are Silica sand, Felspar, Asbestos, Barytes, Clays, Emerald, Fuller's earth, Bentonite, etc. The metallic minerals are lead, zinc, iron ore and manganese ore. The State is the sole supplier of gypsum for fertiliser manufacture to Sindri plant.

Lignite (coal) is mined near Palana in Bikaner District. There are vast deposits of high quality building stones such as marbles, sandstones and limestones. Limestone is used for the manufacture of cement at Lakheri and Sawai Madhopur and for lime at a number of places. Marble quarries at Makrana in Nagaur District are famous for building stone.

Large resources of sodium sulphate and salt also occur at Deedwana and Sambhar lake. Uranium deposits have been found at Umra and Udaisagar in Udaipur District.

Provisional production in thousand metric tonnes of some important minerals in 1964 : Coal (Lignite) 1·2 ; Metallic minerals : (a) Ferrous (1) Iron ore 34·0 ; (2) Manganese ore 1·7 (b) Non-ferrous : (1) Lead concentrate 6·1 (2), Zinc concentrate 10·7, Minerals : Asbestos 2·0 ; Barytes 9·2 ; Calcite 4·7 ; Emerald (crude) 10·0 ; Felspar 12·3 ; Garnet 0·2 ; Glass sand 4·8 ; Graphite 0·26 ; Gypsum 749·5 ; Lime stone (for cement making) 1,720·1 ; Mica (Crude) 4·8 ; Quartz 8·4 ; Salenite 6·8 ; Soap stone 111·6 ; white clay 6·4 ; Yellow Ochre 0·25 ; Building Materials : Building stone (including Kankar, Bajri and Sand stone etc.) 5,932·5 ; Lime stone (for Lime making) 546·9, Marble 40·0, Bentonite, 2·7 ; Fuller's earth 7·5 ; Brick earth and ordinary clay 1,023·7.

The State produced minerals worth Rs. 8 crores during 1964.

Production (1964) : Gypsum 7,49,500 tons ; Soap stone 1,11,600 ; felspar 12,300 tons ; quartz 8,400 tons ; calcite 47,000 tons ; asbestos 2,000 tons and glass sand 4,800 tons.

## INDUSTRIES

Among the large-scale industries in the State mention may be made of cotton textile (14 units), cement (2 units), glass (1 unit), sugar (2 units), ball-bearings (1 unit) and electric metres (1 unit). The industrial production of some commodities during 1964 was as under :—

Cloth—lakh kg. 87 (597 lakh meters) ; Yarn—lakh kg. 285 ; Glass—metric tonnes 457 ; Cement—lakh metric tonnes 10·6 ; Salt—lakh metric tonnes 3·9 ; Ball bearing—lakh number 40·4 ; Sugar—'000 metric tonnes 6·6 ; Foreign spirit—'000 litres 1,258·0 ; Rectified spirit—'000 litres 1,702·7 ; Denatured spirit—'000 litres 48·2 ; Country spirit—'000 litres 2,080·6.

The most important cottage and small-scale industries are Tie and Dye Fabrics, Gota Kinar wooden toys, Hand-made paper, Papier Mache toys, Gem cutting, cloth printing, manufacture of agricultural tools and implements, Embroidered shoes (Jutiyan) and leather bags, water

bottles (Badlas) and handloom weaving. From the point of view of employment, khadi and village industries also play an important role in this State.

### AGRICULTURE

**Land Utilisation :** According to land utilisation statistics for the year ending June 1964, the total geographical area of the State was 34,006 thousand hectares, comprising 958 thousand hectares under forests, 6,262 thousand hectares not available for cultivation, 8,451 thousand hectares uncultivated land, 4,838 thousand hectares of fallow land and 13,497 thousand hectares net area sown. The total cropped area was 14,464 thousand hectares, the area sown more than once being 967 thousand hectares only.

#### *Agricultural Production :*

**Main Food Crops of the State :** Cereals—Bajra, Jowar, Wheat, Maize, Barley, Small millets, Rice; Pulses: Gram, Tur, other Rabi pulses, other Kharif pulses.

**Main cash crops of the State :** Oilseeds : Sesamum, Rape and Mustard, Linseed, Groundnut, Cotton, Sugarcane, Tobacco, Chillies, Potatoes.

**Area and production of principal food crops in '000 Hectares and Metric tonnes for the year 1964-65 respectively are as follows :—**

**Cereals :** Bajra 4,840 ; 1,266 ; Jowar 1,179 ; 403 ; Wheat 1,176 ; 1,097 ; Maize 709 ; 779 ; Barley 431 ; 470 ; Small millets 83 ; 36 ; Rice 106 ; 98.

**Pulses :** Gram 1,346 ; 712 ; Tur 30 ; 14 ; Other Rabi Pulses 15 ; 10 ; Other Kharif Pulses 1,810 ; 376.

**Oilseeds :** Sesamum 575 ; 59 ; Rape and Mustard 207 ; 79 ; Linseed 90 ; 21 ; Groundnut 199 ; 96.

**Others :** Cotton 261 ; 186 ; Sugarcane 43 ; 673 ; Tobacco 9 ; 6 ; Chillies 30 ; 16 ; Potatoes 2 ; 6.

**Fish :** Variety of fish produced : There are large number of tanks, lakes and rivers in which inland fishes are found. The main species are the major carps, viz. Rohu, Migal, Kalbasu and Katla ; Minor carps, viz. Mahaseer ; Cat Fishes : Launchi and Seenghara ; Live Fish : Sol, Magur and Singhi.

During the year 1964-65, 30.14 lakh fish seeds were produced and distributed to the private pisciculturists against the stipulated target of 30 lakh fish seeds and an area of 615 hectares was covered under this programme thereby bringing the total area covered in the State till the end of the year to 1,481 hectares.

**Sugarcane :** During the year 1963-64 and 1964-65, the average yield of sugarcane came to 1,947 and 1,976 Kg. maunds per hectare, respectively.

### LIVESTOCK

The following figures relate to 1964-65 :

Number of Veterinary Hospitals : 162.

Number of Veterinary Dispensaries : 132.

Artificial Insemination Centres : 18.

Key Village Centres : 20.

Mobile dispensaries : 17.

Mass Immunisation Centres : 7.

Total livestock population : 335.15 lakhs (1961).

(See also article on Livestock).

### LAND REFORMS

By the end of March, 1961, the Jagirdari, Zamindari and Biswedari tenures had been abolished. The Rajasthan Tenancy Act, 1955, has provided for security of tenure

and fixity of rent. There are now only four classes of tenants viz., Khatedars, Malika, Tenant-Khudkasht and Gair Khatedar tenants. Rents have been fixed and forced labour prohibited. Ceilings on existing holdings and on future acquisitions have also been prescribed.

By the end of March, 1964, a sum of Rs. 3.55 crores was paid as final compensation to 80,100 Jagirdars.

The State Government has also taken effective steps for the rehabilitation of *ex*-Jagirdars and have allotted lands to them at concessional rates in the irrigated area, coming under the command of Bhakra Project.

The Rajasthan Govt. has taken a decision that ceiling on agricultural holdings in Rajasthan will be imposed in one stage instead of four stages as envisaged earlier.

The ceilings prescribed under the Act for a family consisting of five persons is 30 standard acres of land capable of producing 300 maunds of wheat per year or any other produce equivalent in price of wheat. It also provides that if a family consists of more than five persons, every person in addition to five will get additional six acres of land subject to the maximum of 60 acres of land.

During the year 1964, under the programme of Bhoodan Yagna in the State no land was donated and of the total land available for distribution, 3,545 hectares of land was distributed amongst 1,697 families.

### PANCHAYATS

The Panchayat Samitis are the executive bodies with wide powers including those for formulating and executing the development programmes, and for imposing taxes. The Zila Parishads are the supervisory and co-ordinating bodies.

Under this democratic decentralisation, at the end of 1964-65, there were 7,391 village panchayats and 1,368 Nyaya Panchayats covering 34,528 villages serving the total rural population of the State.

### IRRIGATION

**Bhakra Project :** The supply in the Bhakra Canals in Rajasthan is still non-perennial. The total area irrigated during the year 1964-65 was 213.27 thousand hectares.

**Jawai Project :** The total area irrigated from this project during 1964-65 was 6.76 thousand hectares.

**Chambal Project :** The work on this project was started during 1953-54 and both cost and benefits are shared with the Govt. of Madhya Pradesh and the project will be completed in three stages (i) Gandhi Sagar Project, (ii) Rana Pratap Sagar Project, (iii) Kota Dam Project. Most of the work of the first stage i.e. the Kota barrage, the Gandhi Sagar, the right main canal and the left main canal were completed by the end of the 2nd Plan and the remaining work was completed during 1961-62. The irrigation was started from this project in November, 1960 and an area of 88.22 thousand hectares was irrigated during 1964-65.

The available statistics in respect of irrigation by sources and crops for 1961-62 reveal that out of the total irrigated land of 1,823 thousand hectares, 581 thousand hectares were irrigated through canals, 977 thousand hectares through wells and 214 thousand hectares by tanks, 50 thousand hectares through other sources. Similarly in 1962-63 the area irrigated by different sources in thousand hectares was 643, 1066, 121 and 29 respectively. The total irrigated area during 1962-63 was 1,859 thousand hectares. Out of the total irrigated area, 1,449 thousand hectares were under food crops, 140 thousand hectares under cotton, 31 thousand hectares under sugarcane and 202 thousand

hectares under other crops. Similarly in 1962-63, the crop-wise area irrigated in thousand hectares was 1,470, 146, 29 and 214 respectively. The total area irrigated more than once was 246 thousand hectares. With the irrigation facilities being extended through construction of a number of major, medium and minor irrigation works and adoption of other improved agricultural practices, Rajasthan which, till recently had been a regular deficit state, has not only attained self-sufficiency in foodgrains, but has also shown a sizeable surplus.

### Rajasthan Canal

The Rajasthan Canal from Harika (Punjab) to Ramgarh (Jaisalmer district) on completion will be 425 miles long and will irrigate 36.9 lakh acres, out of the net culturable commanded area of 67.4 lakh acres. The gross commanded area under this project will be 50 lakh acres.

An amount of Rs. 38 crores was provided in the State's III Plan for this project out of which Rs. 24.47 crores or 64.40 per cent were spent in the first four years of the Plan. During 1964-65 a sum of Rs. 519.43 lakhs or 95.06 per cent of the allotment of Rs. 546.44 lakhs was spent. During the same year 192 lakh cft. of earth work, 50 lakh cft. of compaction and 0.41 lakh cft. lining were completed in the Punjab portion of Rajasthan feeder. Likewise by the end of the year 2,645 lakh cft. earth work, 1,047 lakh cft. of compaction and 1.16 lakh cft. of lining were completed.

Rajasthan canal will depend on the water of the rivers Beas and Ravi. For ensuring perennial supply, Pong Dam on the Beas is being constructed by the Government of Punjab under the aegis of Beas control. The work on the project was started in the year 1960 and is expected to be completed by 1971-72.

In addition to the irrigation benefits, it will have six units of 60,000 kW-installed capacity each for generating power. The Rajasthan Government had made a provision of Rs. 25 crores in its Third Five Year Plan to meet its share of expenditure on the Pong dam. Out of this amount, a sum of Rs. 18.99 crores or 75.98 per cent is estimated to have been spent. During 1964-65, the share of expenditure of the State was estimated to be Rs. 764.65 lakhs.

### POWER PROJECTS

The State's Third Five Year Plan envisaged to increase the installed capacity of the State by 253 thousand kW and electrification of 303 additional localities by the end of the Third Plan period.

During 1964-65, the installation of one 3,000 kW Turbo-set at Jodhpur was completed. Besides, the installation work of five units of 62.5 MW each at Satpura Thermal project in Madhya Pradesh was in progress which is expected to be completed by 1966-67. Rajasthan will get about 103 MW of firm power as its share from the project. The fourth unit of 23 MW was commissioned at Gandhisagar during November, 1963 in which Rajasthan is a fifty per cent partner with Madhya Pradesh. Bhakra Left Bank Power Station has been fully commissioned and 22 MW of power is at present available to Rajasthan from it. The work on Bhakra Right Bank power is likely to be completed during 1966-67 and about 45 MW of firm power will be available to Rajasthan. The work on Beas Sutlej project is in progress and is likely to be completed during the early Fifth Plan period.

One set purchased from Elect. Board, Punjab\* was commissioned at Bhilwara and the two at Jaipur are being installed. A net work of transmission lines has been spread supplying power to various corners of Rajasthan.

As a result 196 Kms. of 132 kV, 1,050 Kms. of 33 kV and 108 Kms. of 11 kV lines were laid—bringing the progressive achievement to 1,181, 3,463, 104 and 2,029 Kms. of 132 kV, 66 kV, 33 kV and 11 kV lines respectively. The inclusion of 220 kV Hissar-Khetri-Jaipur Transmission line in the Third Plan programme on the direction of the Planning Commission and the Central Water and Power Commission was a major step taken by the Government in 1965. The preliminary work has started and it is proposed to complete the Hissar Khetri section (82 miles) including Grid-sub-station at Khetri by the end of 1965-66. The 132 kV line from Ratangarh to Jaipur has been completed.

During 1964-65, 280 localities were electrified as against 160 during 1963-64, thus bringing the total to 758 localities electrified so far, out of which 14 localities were electrified by privately owned power houses.

During 1964-65, 101.09 million Kwh of electricity was generated in Rajasthan and 330.18 million Kwh and 0.01 million Kwh were purchased from the adjoining States and non-electric utilities respectively, bringing the total electricity generated and purchased to 431.28 million Kwh. The percentage distribution of power consumed for different uses during the year reveals that maximum amount of power continued to be consumed for industrial purposes amounting to 65.25 per cent of the total power sold. This was followed in order by domestic purposes constituting 10.23 per cent, commercial purposes 9.89 per cent, public water and sewage pumping 8.54 per cent, irrigation and agricultural dewatering 3.99 per cent and public lighting 2.12 per cent.

The Union Government has decided to build a second nuclear power station with an initial capacity of 200 megawatt at Rana Pratap Sagar near Kotah. It is expected to be completed by the end of 1967 and is estimated to cost Rs. 32 crores. An additional 200 mw. unit, at an estimated cost of Rs. 30 crores at the Rajasthan atomic power station, was approved by the Govt. of India on June 28, 1965. This additional unit is expected to go into commission towards the end of the Fourth Plan.

### CO-OPERATION

By the end of the co-operative year ending June, 1964-65 the number of co-operative societies was 22,395 with a membership of 13,81,363. The share capital and the working capital of these societies stood at Rs. 999.21 lakhs and Rs. 4,829.70 lakhs respectively.

(For further particulars see main article on "Co-operative Movement").

### MEDICAL & PUBLIC HEALTH

For expansion of medical facilities, 191 primary health centres were functioning till the end of 1964. The number of allopathic hospitals and dispensaries at the end of the year 1964 stood at 323 and 243 respectively. Besides, 18 Ayurvedic and Unani Hospitals with 305 beds and 1,331 dispensaries, were functioning in the State. Further details are given below :

Kinds of State Public Hospitals: Figures for 1964 :  
T. B. Hospitals : (i) Sanatorium 2 ; (ii) Hospitals 7 ;  
(iii) Clinics 6 ; Leprosy hospitals 2 ; Mental hospitals 2 ;  
Isolation : (i) Hospitals 2 ; Other hospitals : 269 ; Dispensaries : 243.

Number of beds : Maternity 1,224 ; T.B. 1,024 ; Isolation 273 ; Leprosy 95 ; V. D. 40 ; Mental 280 ; Eyes 459 ; General 7,836.

\* Composite State.

During 1964 there were 1,352 doctors, 462 staff nurses, 850 midwives, 2,829 compounders, 1,132 sanitary inspectors and malaria surveyors, 992 vaccinators, 310 health visitors and 226 dais. During 1964 there were 18 Ayurvedic and Unani hospitals, 1,331 Ayurvedic and Unani dispensaries; one Yogic centre. During 1964-65 there were 1,507 vaidyas and hakims, 1,273 compounders/nurses and 305 beds.

Patients treated in allopathic institutions in 1964 were : Outdoor 122.61 lakhs, and indoor 5.32 lakhs respectively.

There are three medical colleges, the Sawai Mansingh Medical College at Jaipur, the Medical College, Udaipur and the Medical College, Bikaner.

### ROADS & TRANSPORT

*Position in 1964-65.*

Total length of roads : 29,559 km.

Cement concrete roads : 43 km.

Painted roads : 10,812 km.

Metalled roads : 5,851 km.

Gravelled roads : 6,116 km.

Fair weather and dressed up tracks : 6,737 km.

Total number of motor vehicles (1964) : 46,221.

Number of private cars and jeeps 14,593; Private buses 475; Cycles and tricycles 6,738; Taxis, cars and contract carriages 353; Stage carriages 5,396; Public carriers 10,692; Private carriers 1,538; Tractors 6,058; Others 378.

### LABOUR (1964-65)

Number of registered factories : 1,464 (at the beginning of 1965).

Number of registered Trade Unions in State : 450.

Total membership : 70,128.

*Industrial Disputes* : Disputes 65; Workers involved 19,423; Man-days lost 1,91,424.

Accidents (enquired into); Fatal 18; Non-Fatal 2,943.

Workmen's compensation : cases decided 174; amount paid Rs. 1,95,677.

Employees' Provident Fund Scheme : No. of factories covered 426; Workers benefited 42,444; Contribution from the workers Rs. 24,67,000.

Twenty-eight Labour Welfare centres, in places having 500 or more industrial workers, have been established by the end of the year 1964-65.

No. of labourers benefited : 24,850.

No. of children benefited : 14,171.

No. of adults educated : 2,520.

No. of children educated : 4,311.

No. of factories covered by State insurance : 133.

No. of workers insured : 42,000.

Eighteen Employment exchanges were functioning in the State covering all the 26 districts.

Registration during 1964 : 1,34,324. Placing during 1964 : 18,384.

### EDUCATION, 1963-64

(See under Education Tables for more statistics.)

Educational Institutions of all the standards : 30,055.

Teachers : 71,366, Students : 20,31,817.

Centres for adult education : 8,481.

Number of adults made literate 69,330.

Elementary education is free throughout the State.

Place of language in the education system : Regional language is Hindi which is compulsory. English is compulsory after Standard VI. Hindi is the medium of instruction.

The Rajasthan Government passed on Aug. 21, 1964, the Primary Education Bill which seeks to provide free and compulsory primary education for children in the State.

### FOURTH FIVE YEAR PLAN

A tentative total outlay of Rs. 313 crores was fixed by the Planning Commission for the Fourth Five Year Plan. This is about 50 per cent more than the expenditure on the State's Third Plan. The main sectoral allocations are (in crores of rupees) : Agricultural programmes 43.04; irrigation and power 169.70; co-operation and community development 12.00; industry and mining 7.50; transport and communications 13.20; social services 62.51; miscellaneous 5.52. Allocation for education including technical education will be about Rs. 24.24 crores.

A sum of Rs. 3,666.00 lakhs has been earmarked for the year 1966-67 for plan schemes, out of which Rs. 1,934.00 lakhs has been allotted to Irrigation and Power, followed by Agricultural Programme Rs. 786.36 lakhs, Social Services Rs. 478.28 lakhs, Co-operation and Community Development Rs. 242.36 lakhs, Transport and Communication Rs. 180.30 lakhs, Industries and Mining Rs. 26.55 lakhs and Miscellaneous Rs. 18.15 lakhs.

### UNIVERSITY OF JODHPUR

Jodhpur

(Established 1962)

This is a Unitary and Teaching University.

*Chancellor* : Governor of Rajasthan (ex-Officio); *Vice-Chancellor* : Dr. M. L. Roonwal; *Registrar* : S. N. Jodhawat.

### UNIVERSITY DEPARTMENTS

*Faculty of Arts* : English, Hindi and Sanskrit, History, Philosophy and Psychology; *Faculty of Social Sciences* : Economics, Sociology, Political Science and Geography; *Faculty of Science* : Physics, Mathematics, Chemistry, Zoology, and Botany; *Faculty of Commerce* : Diploma Courses in Commerce; J.D.C. Part I and II; Costs and Works Accountancy and Steno-Typing; *Faculty of Engineering* : Civil, Structural, Mechanical, Electrical and Mining.

This University also provides facilities for researches in the above subjects.

(1965-66) : No. of students—7,000; No. of teachers—336; No. of Research Scholars—264.

### MEDIA OF INSTRUCTION

In the Post-graduate Classes except in Hindi and Sanskrit, generally the medium of instruction is English, while Hindi is the medium upto the Degree level.

### BUDGET (1965-66)

|                     |                 |
|---------------------|-----------------|
| Income .. .. .      | Rs. 97.08 lakhs |
| Expenditure .. .. . | Rs. 75.32 lakhs |

### UNIVERSITY OF RAJASTHAN

Jaipur

*Chancellor* : Governor of Rajasthan; *Vice-Chancellor* : Prof. M. V. Matur, M.A. B.Com. (Allhd.), M.P.A. (Harvard); *Registrar* : C. L. Singhal.

Total number of colleges affiliated to the University : 71.

Total number of male students in the colleges at the end of the 1965-66 Session was 23,240.

Total number of female students in the colleges at the 1965-66 Session was 3,354.

Total number of male and female students in the University Departments at the end of the Session was 1,169 and 292 respectively.

Total number of male and female students in the University colleges was 3,192 and 1,674 respectively.

#### BUDGET ESTIMATES (1964-65)

|                                 | Rs.          |
|---------------------------------|--------------|
| Total Income .. .. .            | 78,37,761·00 |
| Total Expenditure .. .. .       | 83,14,713·00 |
| Grants if any :—                |              |
| State Government .. .. .        | 36,50,050·00 |
| University Grants Commission .. | 11,82,405·00 |
| Central Govt. .. .. .           | 56,625·00    |

#### UNIVERSITY OF UDAIPUR

Udaipur.  
(Estd. July 1962)

Vice-Chancellor : Dr. G. S. Mahajani.  
Registrar : R. S. Gupta.

The University though primarily established to cater to the needs of agricultural education, research and agricultural extension, now provides instruction in other disciplines also. At present the University comprises Five University Colleges and six Affiliated Colleges.

The total enrolment of the University for the year 1965-66 was 4,709.

The courses offered are : Pre-University in Arts, Science and Commerce, Pre-professional (Ag.), B.A., B.Com., B.Sc., B.Sc. (Home Science), B.Sc. (Ag.), M.A., M.Sc., M.Sc. (Ag.), M.V.Sc., M.Com., LL.B., B.Ed., M.Ed. From July 1964, the University has also instituted Ph.D. Course.

The special feature of this University is the adoption of internal grading system on the pattern of the Land Grant College of the U.S.A.

The total budget for 1965-66 of the University was Rs. 98·55 lakhs.

## TRIPURA

**C**APITAL : Agartala. Area : 4,116 sq. miles.

Particulars about population, literacy, density etc. are given under article "Population".

Number of towns : 6.

There is only one District—Tripura having one municipality.

The Territory is divided into ten administrative sub-divisions and 46 tehsils. The names of sub-divisions and tehsils respectively are : Sadar—Sadar, Puranagartala, Bamutia, Mohanpur, Simna, Ishanchandranagar, Kamalasagar, Takarjala, Bishalgar, Charilam ; Khowai—Khowai, Kalyanpur, Asharambari and Teliamura ; Kailasahar—Kailasahar, Fatikroy and Chomanu ; Dharmanagar—Dharmanagar, Brajendranagar, Kurti, Kanchanpur and Longai ; Sonamura—Sonamura, Kathalia, Bakshanagar, Dhanpur and Matinagar ; Udaipur—Radhakishorepore and Salgarh ; Belonia—Belonia, Rajnagar, Radhanagar, Puranrajbari, Sidhinagar, Rishyamukh and Muharipur ; Sabroom—Sabroom, Manu, Amilghat, Samarendraganj and Gora-kapa ; Kamalpur—Kamalpur and Kulai ; Amarapur—Birganj, Omphi and Dumboornagar.

#### GEOGRAPHY

Cut off from the rest of India and surrounded on three sides by East Pakistan with an international boundary of 528 miles, it forms an almost isolated pocket connected with the main land by a 125 mile access road through the hills to the border of Cachar District in Assam. Very recently a railway line has been extended upto Dharmanagar town, the northern most sub-divisional headquarters of this Territory. Agartala, the capital of this Territory, is situated to the east of Calcutta at distance of 197 miles by air & 1,050 miles by land route through the Assam rail-link.

#### ADMINISTRATION

The administration of this Territory is carried on by the Chief Commissioner. With the enforcement of the Govt. of Union Territories Act 1963, a Legislative Assembly has been set-up for the Union Territory of Tripura and a Council of Ministers has been formed with effect from 1st July 1963, with the Chief Minister at the head to aid and advise the Chief Commissioner.

The Court of the Judicial Commissioner is the highest Judiciary in this Territory.

#### AGRICULTURAL PRODUCTION

The agricultural wealth of the Territory consists of rice, jute, cotton, tea and fruits, while its forests yield timber, firewood and charcoal. Paddy is the main source of revenue. Area in '000 acres under the crop and production in '000 tons respectively are : Winter rice : 282·50 ; 113·32 ; Autumn rice : 161·50 ; 57·27 ; Summer rice : 10·00 ; 3·35 ; Pulses : (Khariff) : 1·15 ; 0·21 ; Rabi Pulses : 3·20 ; 0·57 ; Fibres : Jute : 29·50 ; 81·12 ; Mesta : 33·00 ; 74·25 ; Cotton : 17·00 ; 6·29 ; Rape & Mustard : 9·90 ; 1·66 ; Sesmum : 8·40 ; 1·41 ; Sugarcane : 7·20 ; 9·62 ; Potato : 6·00 ; 15·00 ; Area & Classification of Area (1962-63) : Total geographical area of the Territory : 26,34,240 acres ; Area under forest : 15,70,000 acres ; Total cropped area : 6,59,000 acres ; Net area sown : 5,61,500 acres.

**Livestock** : Total cattle 4,94,960 ; buffaloes 42,564 ; horses and ponies 1,097 ; sheep 3,351 ; goats 1,57,815 ; other livestock 35,218 ; total poultry 7,57,295 (1961 census).

The fishing population may be reckoned as 2,500 families.

#### EDUCATION

Number of schools/colleges and total number of students during 1964-65 (as on 31st March, 1965) :

Total No. of Pre-Primary schools—367; total No. of Primary schools (Basic and Non-Basic)—1,359; Total No. of Middle Schools (Basic and Non-Basic)—130; Total No. of High/Higher Secondary Schools—70; Total No. of schools for professional and special education—566; (Agricultural Trg. Institute—1; Nursing Trg. Centre—1; Industrial Trg. Centres—4; Schools for Oriental studies—24; Social Workers Trg. School—1; Adult Social Education Centres—504; Hindi Prachar Centre—31; Total No. of students in schools for General Education (including Pre-Primary Students)—1,77,907 (Boys—1,11,916 and Girls—65,991); Total No. of students in schools for professional and special education 17,156 plus 1,994 (Boys 12,144 plus 1,228; Girls 5,012 plus 566); Total No. of colleges for general education 2,386 (Boys 1,793 and Girls 593); Total No. of colleges for professional and special education 8 (Teachers' training colleges—post-graduate basic 1; post graduate non-basic 2; under graduate basic 1; Music college 1; Polytechnic 1).

Total No. of students in Colleges for professional and special education—816 (69); Boys—724 (4) including 257 Boys in polytechnic and Girls 92 (65).

N.B.—Figures within bracket indicate the number of students reading in these schools, but belonging to other educational institutions.

### CO-OPERATIVE

State Co-op. Bank 1, Land Mortgage Bank 1, Service Societies 157, Multipurpose Societies 180, Large-sized Societies 25, Small-sized with un-limited liabilities 12, Small-sized Societies with limited liabilities 17, Farming Societies 3, Non-Agricultural Credit Societies 9, Apex Marketing Societies 1, Primary Marketing Societies 14, Purchase & Sale Societies 25, State Consumers Societies 1, Primary Consumers' Societies 34, Fishery Societies 7, Milk Supply Societies 2, Housing Societies 6, Processing Societies 6, Non-Agricultural Non-Credit Societies 16, State Co-op. Union 1, Housing Societies 2; Weavers' Societies 66, Other Industrial Societies 76.

### INDUSTRIES

The Industries in the Territory include cottage and small industries like handloom weaving, carpentry, blacksmithy, sugar making, basketry, pottery, saw mill, brick manufacture, bakery, tinkersmithy, agricultural implements, manufacture of footwear and other leather goods, fruit canning etc. But efforts have now been initiated for starting large industries and other organised small industrial units. A 15,000-spindles Spinning Mill is being set up. A licence for a plywood factory has been issued. Preliminary action is also being taken for setting up a jute mill, a sugar factory, powerlooms on decentralised basis and forest and agro-based industrial complexes.

### TRANSPORT

Total length of roads is 1,580 Km. out of which metalled 736 Km. are surfaced. Tripura is linked with Assam by road through the Assam-Agartala road. There are no big irrigation works in this Territory. There is a new railway link which connects Dharmanagar with Kalkalighat Railway Station in Assam. Most of the rivers in the Territory carry country boat traffic. There are three airstrips and one aerodrome in this Territory.

### ELECTRICITY

The source of power in the Territory is from diesel stations located at Agartala, Ambassa, Khowai, Dharamnagar, Kailasahar, Udaipur and Bogafa. The aggregate installed capacity of the generating stations is 2,661 Kw. Power facilities are now available in 36 localities. Preliminary works for implementation of a scheme called Gumti Hydro Electric Scheme have also been taken up.

### LAND REFORMS

The provisions of the Tripura Land Revenue and Land Reforms Act, 1960 are being gradually implemented. The provision regarding acquisition of intermediary estates has been implemented throughout Tripura.

### EMPLOYMENT EXCHANGE

Figures for 1965 (upto December): Number of registrations 8,443; No. of vacancies notified 1,738; No. of candidates placed 1,158; No. in the waiting list in the Live Register 13,439.

Total No. of employees: 26,704. (5,587 private sector; 21,117 public sector).

### HEALTH

No. of Hospitals 11; No. of Public Health Centres 22; Dispensaries 119; No. of beds 790; No. of doctors 180; No. of Nurses 222; V. D. and Skin Clinic 1; Family Planning Clinic 1; Anti-natal Clinic 1; Eye Clinic 1; Chest Clinic 1; Leprosy Clinic 1; Dental Clinic 1; Family Planning Centres 13; E. N. T. Clinic 1; Psychiatric Clinic 1; and Well Baby Clinic 1.

### PANCHAYAT

The work of setting up Panchayats in Tripura was started in the Third Plan period. Total No. of Gram Panchayats: 215. Nyaya Panchayats are also being established simultaneously with Gram Panchayats.

### FOURTH PLAN

A total outlay of Rs. 30.95 crores, has been approved by the Planning Commission. (For details see article on "Fourth Five Year Plan").

## UTTAR PRADESH

(See page 425)

## WEST BENGAL

**CAPITAL:** Calcutta. Area: 33,829 sq. miles; -Population: 34.93 million (1961 Census). Percentage of increase 1951-61: 32.79. Density: 1,032. Sex ratio 878 females per 1,000 males. Literacy: 29.3 per cent.

There are three Divisions in the State, the Burdwan Division, the Jalpaiguri Division and the Presidency Division.

The Districts in the Burdwan Division with their headquarters in brackets are as follows: Bankura (Bankura), Birbhum (Suri), Burdwan (Burdwan), Hooghly (Chinsura), Midnapore (Midnapore), Purulia (Purulia). The Districts in the Jalpaiguri Division with their headquarters in brackets are as follows: Cooch-Behar (Cooch-Behar), Darjeeling (Darjeeling), Dinajpur\* (Balurghat), Jalpaiguri (Jalpaiguri), Malda (Malda), Murshidabad (Berhampur), Nadia (Krishnagar), 24-Parganas (Alipur). Calcutta and Howrah comprise the Presidency Division.

**Panchayats:** Panchayati Raj, was introduced all over the State on Oct. 2, 1964. The rural area of West Bengal has been covered by a network of Gram and Anchal panchayats. The total number of Gram Panchayats (Oct. 2, 1964) in the State was 19,649 and that of Anchal Panchayats 2,925. The State has 15 Zilla Parishads to replace the existing District Boards and 325 Anchal Parishads. All the Anchal Panchayats will be covered by Nyaya Panchayats. By Oct. 2, 1964, 52 Nyaya Panchayat, had been set up.

### POPULATION

(See under "Population").

### AGRICULTURE

Acreage and production of principal crops in 1964-65 are as follows:

|                 | Production<br>(tons) | Area<br>(acres) |
|-----------------|----------------------|-----------------|
| Rice .. ..      | 5,765,000            | 11,500,000      |
| Wheat .. ..     | 27,500               | 135,700         |
| Sugarcane .. .. | 190,300              | 101,600         |

† Bales.

The total provision in the State's Third Plan in respect of agriculture was Rs. 53.60 crores.

**Land Tenure:** All rent-receiving interests in agricultural lands vest in the State and the numerous tenants and sub-tenants, as the case may be, now hold land directly under the State Government. All forests too are now managed directly by the Government.

There are roughly 1.28 million acres of cultivated land in the State, of which, according to preliminary but by no means accurate statistics, only 400,000 acres will be found surplus for redistribution among the tillers of the soil.

**Sonarpur-Arapaneh Scheme:** The Sonarpur-Arapaneh-Matla Drainage Scheme of reclaiming vast water-logged tracts 105 sq. miles in area, with powerful pumping plants, is the first of its kind in India. Under the first part of the Scheme, a submerged area of 23,360 acres has been reclaimed for cultivation. The total yield of paddy from these large tracts of land was 21,000 maunds.

\* Also called West Dinajpur.

**Bagjola Drainage Scheme:** Rs. 104-lakh Bagjola Drainage Scheme is intended to improve the drainage of 116 square miles of area. The scheme when completed will reclaim 25,600 acres of water-logged lands and render them fit for cultivation, which will result in annual additional yield of 12,091 tons of paddy and 1,619 tons of rabi crops.

### FORESTS

(See under article on "Forests").

### IRRIGATION

Area under irrigation: over 35 lakh acres.

Some individual schemes with total cost in Rs. lakhs and area in acres benefited (kharif season) respectively are as follows: Mayurakshi Reservoir 20.46.60; 560,000; Harahatuganj Drainage 12.94; 16,000; Berai Canal 21.78; 9,000; Jibanti-Banki 3.11; 6,400; Jampoi 0.52; 800; Soadighi Gangakhali 24.84; 29,400; Jhargram 9.74; 5,000; Suvankar Daura 17.17; 6,000; Trans-Damodar 4.15; 32,900; Saraswati 6.25; 7,100; 20 Minor Schemes 5.34; 45,292; 52 Procurement Bonus Schemes 21.62; 87,717; 23 Emergency Schemes 13.84; 62,880; 5 New Minor Schemes 1.86; 13,676; Excavation of Nonaganj river 4.25; 4,860; Sonarpur-Arapaneh-Matla 138.72; 46,400; Bagjola-Ghuni-Jatragachi 108.93; 25,600; Improvement of Kamakhya Khal 3.52; 3,840.

### DAMODAR VALLEY CORPORATION

(See under "Irrigation").

### TWO DEVELOPMENT SCHEMES

**The Ganga Barrage Scheme:** Work in connection with the Ganga Barrage, also called Farakka Barrage Scheme, is now in progress.

Benefits expected from the barrage: 1. Supply of water to resuscitate the moribund rivers in West Bengal and also improve the Sunderbans rivers; 2. Provision for irrigation and flushing on a vast scale; 3. Improvement of the Calcutta Port; 4. Provision of a direct railway and road link between the northern and southern parts of the State; 5. Provision of an inland water route entirely through the Indian Union starting from Calcutta and going up to Bihar and Uttar Pradesh and ultimately to Assam.

### POWER

**Jaldhaka Project** in West Bengal was taken up during the year 1961. The other scheme in the Third Five Year Plan is Bandel Super Thermal Power Station comprising four 82.5 Mw turbo alternator sets with a maximum continuous rating of 330 Mw.

**Extension of North Calcutta Electrification Scheme:** Stringing of the second circuit of 27 miles of the existing 66 kV double circuit tower line between Shamnagar and Ranaghat.

**Jaldhaka Hydro-Electric Scheme:** Tapping of river Jaldhaka in north Bengal to generate 27 Mw of power at the first stage and 9 Mw at the second stage. **Balasun Hydro-Electric Scheme:** Harnessing of river Balasun in Darjeeling District. **Kharagpur Midnapore Electrification Scheme:** Purchase of power in bulk from D.V.C.'s Kharagpur sub-station and distribution in Midnapore district.

through a network of transmission lines. Length of overhead lines laid : 114 miles of 11 kV and 33 kV. *Howrah-Hooghly Rural Electrification Scheme* : Length of overhead transmission lines laid : About 80 miles of 11 kV. *Durgapur Malda Transmission Scheme* : Places supplied with power : Districts of Murshidabad, Malda and West Dinajpur. *Suburban Electrification Scheme* : Total Plan provision for colliery electrification, tube-well irrigation, Central testing laboratory and suburban electrification schemes : Rs. 29.21 lakhs. *Durgapur Power Station* : With the increase in power demand both in public and private sectors around Durgapur, the State Government was called upon to expand the power station by installing 3 × 75 MW and 1 × 150 MW turbo-alternator sets. These units are designed for burning washery middlings. Two Units are already in operation.

By the end of the Third Plan, 2,200 villages in the State will have received the supply of power and 750 deep irrigation wells will have been electrically operated. One hundred and thirteen towns and 798 villages in West Bengal have been electrified till March 1964.

## INDUSTRY

West Bengal ranks second among the major industrial States of India. With only 3 per cent of the country's area, the State shares 8 per cent of India's population. Her share in the manufacturing labour force is even more—22.5 per cent.

Principal industries of the State : Jute, tea, coal, cotton, textiles, paper, rubber, engineering, etc.

No. of registered factories : 5,852 (1965). No. of workers : 8,53,880 (1964).

No. of jute mills : 83 in 1962 (employing about 2,00,000 workers, 1960).

Total acreage under jute cultivation in West Bengal : 11,02,400.

No. of cotton mills : 41 (43,624 workers; total no. of spindles 6,62,566; no. of looms 11,389; approximate quantity of cotton consumed 2,87,706 bales of 3½ cwt. each bale) (31st August 1963).

A sleeper casting factory with an output of 50 tonnes of sleepers per day was to go into production shortly.

No. of tea gardens : 285 (250,000 workers). West Bengal produces about 90 million pounds of tea.

No. of coal mines : 228 (about 1,22,000 workers daily on an average). The total output of the West Bengal coal mines is about 16.3 million tons.

No. of paper mills : 5 (about 10,000 workers).

Main small scale industries : Handloom weaving, sericulture and silk, brass and bell metal, hand-made paper, palm gur and mat industries.

No. of looms engaged in handloom weaving : 1,50,000.

Principal centres of handloom weaving : Santipur (Nadia), Santiniketan (Birbhum), Rajbalhat, Dhaniakhali (Hooghly).

Principal silk industry Districts : Malda, Murshidabad and Bankura.

## LABOUR

No. of registered trade unions : 3,379 (1965).

No. of members of trade unions : about 900,000.

The Employees' State Insurance Act, which provides for sickness and other medical benefits, covers 9,75,463 insured employees in Calcutta, Howrah, Hooghly and 24 Parganas. The family members are entitled to only medical benefits.

The Employees' Provident Funds Act covers 6,147 factories/establishments. Out of 13,44,871 employees employed in these factories/establishments at the end of 1965, 10,74,600 were regularly subscribing to the statutory fund.

No. of labour welfare centres run by Government : 40.

No. of tenements completed under the Subsidised Industrial Housing Scheme : about 10,964.

About 4,90,407 persons, including 25,910 women, were on the live register of Employment Exchanges at the end of 1965 in West Bengal.

Over 53,000 persons secured jobs through Employment Exchanges in the State during 1965.

## CO-OPERATION

(See under "Co-operative Movement".)

## ROADS

There are six national highways in West Bengal: Calcutta-Delhi (152 miles), Calcutta-Bombay/Madras (90 miles—common alignment in West Bengal), Bihar-Assam (181 miles), Siliguri-Gangtok (35 miles), Calcutta-Siliguri (203.5 miles) and Calcutta-Bongaon (43 miles).

Superior type of extra-municipal roads, maintained by P.W.D. and local bodies are 6,500 miles while the interior motorable type is 13,000 miles.

The estimated expenditure in the Third Plan on roads and bridges was about Rs. 25 crores.

The State Transport Corporation owns (1964) a fleet of 898 vehicles. The State Transport provides employment for approximately 13,000 persons of whom a large number are displaced persons. About 13,95,000 passengers are carried every day. The State buses cover about 75,800 miles daily.

## COMMUNITY DEVELOPMENT PROJECTS

The Community Development Projects now cover almost the entire population.

(See also main article "Community Development Projects".)

## EDUCATION

(See article on "Education").

## HEALTH (1965)

(Figures provisional. Per 1,000 population).

Birth rate : 16.9; Death rate : 6.7; Infant mortality : 53.2; Maternal mortality : 2.7; Death rate from T.B. : 0.1; Death rate from Cholera : 0.02; Death rate from small-pox : 0.02.

No. of hospitals, dispensaries and clinics : Urban 599; Rural 1,457; Health Centres : 682; No. of beds : 5,100; Total no. of beds in hospitals : 33,167; No. of T.B. hospitals and Sanatoria : 12; T.B. chest clinics : 73; Mobile Units for domiciliary treatment of T.B. cases : 9; No. of T.B. beds : 4,619; Rural Health Centre beds : 5,100; Maternity and child welfare centres : 352; Maternity homes and hospitals : 18; Maternity beds : 6,009; Medical colleges : 5; No. of students in colleges : 594 (M.B.B.S.); Nursing training centres : 25; No. of seats : 2,447; Pharmacy training centre : 1; No. of students at the centre : 80; No. of beds for treatment of leprosy : 2,127; For venereal diseases : 70; For treatment of mental diseases : 1,458 (including 918 beds maintained by West Bengal Govt. in two Mental Hospitals at Ranchi and 90 beds of Bangiya Unmad Ashram, Dum Dum); V. D. clinics : 51; No. of beds for infectious diseases : 1,431; Family Planning centres : 278.

Per capita expenditure : Rs. 4.63.

## FIVE-YEAR PLANS

The Third Five Year total Plan outlay was Rs. 293.15 crores.

The Fourth Plan outlay is Rs. 528.5 Crores. Allocations are : agriculture Rs. 82 crores ; community development and cooperation Rs. 20 crores ; irrigation and power Rs. 144 crores, industry Rs. 45 crores ; transport and communications Rs. 44 crores, social services Rs. 158 crores, and miscellaneous Rs. 35.50 crores.

## CORPORATION OF CALCUTTA

5, Surendra Nath Banerjee Road, Calcutta 13.  
*Mayor*, Gobinda Chandray Dey.  
*Dy. Mayor*, Shib Kumar Khanna.  
*Commissioner*, H. C. Mukherji.  
*Dy. Commissioners*, A. K. Bhattacharjee ; Priyo Guha.  
*Secretary*, S. N. Bose.  
*Chief Engineer*, S. Mitter.  
*Executive Engineer, Water Works*, S. L. Pal.  
*Executive Engineer, Drainage*, B. Nandi.

## EDUCATIONAL INSTITUTIONS

## UNIVERSITY OF CALCUTTA

*Chancellor*, Smt. Padmaja Naidu (Governor of West Bengal).  
*Vice-Chancellor* : Dr. Bidhubhushan Malik.  
*Registrar*, Dr. Golap Chandra Roy Chaudhuri.  
 No. of affiliated Colleges : 162.  
 No. of University Colleges : 6.  
 Total no. of students : 94,386 boys and 38,790 girls (1964-65).

## BUDGET (1965-66)

|                                 |                 |
|---------------------------------|-----------------|
| Receipts .. .. .                | Rs. 1,08,63,089 |
| Expenditure .. .. .             | Rs. 1,47,83,548 |
| West Bengal Govt. grant .. .. . | Rs. 21,52,000   |

## THE UNIVERSITY OF BURDWAN
